An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) [1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's

[1] This notice corrects the hearing date. November 9, 1976 instead of September 9, 1976.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 41 162 AUG 19 76 UMI

representative, or petitioner in no representative is named.

No. MC 15155 (Notice of filing of petition for modification of territorial description), filed July 6, 1976. Petitioner: H. & W. MOTOR LINES, INC., P.O. Box 138, New Rochelle, N.Y. 10805. Petitioner's representative: David M. Marshall, 135 State St., Suite 200, Springfield, Mass. 01103. Petitioner holds a motor *common carrier* Certificate in No. MC 15155, issued January 27, 1954, authorizing transportation over irregular routes, of *alcoholic beverages and such commodities* as are dealt in by wholesale, retail, and chain liquor business houses, and in connection therewith, *equipment, materials and supplies* used in the conduct of such business, between points in Hampden County, Mass., on the one hand, and, on the other, New York, N.Y., and points in New York and New Jersey within 15 miles of New York, N.Y.

By the instant petition, petitioner seeks to broaden the territorial scope of the radial area of its Certificate to include South Volney, N.Y.

No. MC 42487 (Sub-No. 783), (notice of filing of petition to change base radial point), filed July 23, 1976. Petitioner: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Petitioner's representative: William L. Phillips, Suite 1100, 1660 L St., N.W., Washington, D.C. 20036. Petitioner holds a motor common carrier 783), issued September 25, 1972, authorizing transportation over irregular routes, of (1) *general commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the terminal site of Consolidated Freightways Corporation of Delaware, in Stroud Township, (Monroe County), Pa., on the one hand, and, on the other, Ackermanville, Bangor, Bath, Bartonville, Belfast, Cresco, Delaware Water Gap, East Stroudsburg, Mountainhome, Mt. Bethel, Mt. Pocono, Nazareth, Pen Argyl, Portland, Roseto, Saylorsburg, Sciota, Slateford, Snydersville, Stockertown, Stroudsburg, Swiftwater, Tatamy, and Wind Gap, Pa.; and (2) *general commodities*, (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the terminal site of Consolidated Freightways Corporation of Delaware, in Stroud Township (Monroe County), Pa., on the one hand and on the other, points in New Jersey and Pennsylvania within 25 miles of Allentown.

By the instant petition, petitioner seeks to modify its Certificate by substituting Tobyhanna Township (Monroe County), Pa. as the terminal site in lieu of Stroud Township (Monroe County), Pa.

No. MC 52781 and (Sub-No. 2) (notice of filing of petition to modify commodity description), filed July 27, 1976. Petitioner: OVERCASH TRANSFER, INC., P.O. Box 3117, C.R.S. Rock Hill, S.C. 29730. Petitioner's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree St., N.W., Atlanta, Ga. 30309. Petitioner holds motor *contract carrier* Permits in No. 52781 and (Sub-No. 2), issued May 1, 1963 and December 6, 1973, respectively, authorizing transportation (1) in 52781, over irregular routes, of *pipe, pipe fittings, and such materials, supplies and equipment* as are used in the installation and maintenance of srinkler, heating, and power piping systems, and also *such tools and equipment* as are used for installing and maintaining the aforementioned installations, (a) between Charlotte, N.C., on the one hand, and, on the other, points in North Carolina and South Carolina within 150 miles of Charlotte, N.C.; and (b) between Charlotte, N.C., on the one hand, and, on the other, points in South Carolina (except those within 150 miles of Charlotte, N.C.), and points in Virginia, under special and individual contracts or agreements with persons (as defined in Section 203(a) of the Interstate Commerce Act) who are engaged in the installation and maintenance of sprinkler, heating, and power piping systems, for the transportation of the commodities indicated and in the manner specified; and (2) in MC 52781 (Sub-No. 2) as pertinent, over irregular routes, of *pipe, pipe fittings, and materials, supplies, and equiment* used in the installation and maintenance of sprinkler, heating, and power piping systems, between points in North Carolina, South Carolina, Virginia, Georgia (except Catham County), Alabama (except (a) between points on the Tennessee River and Ragland, Ala., on the one hand, and, on the other, points in Georgia and Tennessee, and (b) from points in Talladega County, Ala.), and Tennessee (except (a) from points in Roane County, and (b) between points on the Mississippi and Tennessee Rivers, on the one hand, and, on the other, points in Alabama and Georgia), under a continuing contract, or contracts, with the following shippers: ITT Grinnell Corporation, of Providence, R.I.; ITT Grinnell Industrial Piping, Inc.; Grinnell Fire Protection Systems Company, Inc.; General Supply & Equipment Corp., of Charlotte, N.C.; and Monarch Sprinkler Co., of Charlotte, N.C.

By the instant petition, petitioner seeks to modify the commodity description in both Permits to read as follows: "*Pipe, tubing and conduit*, fabricated or not fabricated, *pipe, tubing and conduit fittings*, and *articles, materials, tools, equipment, supplies and accessories* used in the construction, installation, maintenance, operation, and repair of sprinkler systems, fire prevention systems, heating systems, piping systems, irrigation systems, plumbing systems, water systems, sewage systems and drainage systems."

No. MC 52781 (Sub-No. 2) (notice of filing of petition to add additional shippers), filed July 29, 1976. Petitioner: OVERCASH TRANSFER, INC., P.O. Box 3117, C.R.S. Rock Hill, S.C. 29730. Petitioner's representative: Archie B. Culbreth, 1252 West Peachtree St., N.W., Atlanta, Ga. 30309. Petitioner holds a motor *contract carrier* Permit in No. MC 52781 (Sub-No. 2), issued December 6, 1973, authorizing transportation, as pertinent, over irregular routes, of *lumber* (except plywood and veneer), from points in North Carolina, under a continuing contract, or contracts, with Forest Lumber Company, Inc., of Charlotte, N.C.

By the instant petition, petitioner seeks to add Holly Hill Lumber Company, Holly Hill, S.C.; McCoy Lumber Industries, Greensboro, N.C.; and Southern Forest Products Company, Paw Creek, N.C. as additional shippers to the above authority.

No. MC 109538 (notice of filing of petition to remove restriction), filed August 3, 1976. Petitioner: CHIPPEWA MOTOR FREIGHT, INC., 2645 Harlem St., P.O. Box 269, Eau Claire, Wis. 54701. Petitioner's representative: James L. Nelson, Suite 500, 325 Cedar St., St. Paul, Minn. 55101. Petitioner holds a motor *common carrier* Certificate in No. MC 109538, issued January 11, 1968, authorizing transportation, as pertinent, over regular routes, of *general commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving all intermediate points, and the off-route points of Arland, Broadman, Burkhardt, Canton, Cylon, Huntington, Jewett, Ubet, and Wanderoos, Wis., in connection with the regular-routes authorized below: Between Eau Claire, Wis., and Mondovi, Wis.: from Eau Claire over Wisconsin Highway 37 to Mondovi, and return over the same route; Between Eau Claire, Wis., and Eleva, Wis.: from Eau Claire over Wisconsin Highway 93 to Eleva, and return over the same route; Between Eau Claire, Wis., and Black River Falls, Wis.: from Eau Claire over U.S. Highway 53 to junction U.S. Highway 10, thence over U.S. Highway 10 to junction Wisconsin Highway 27, thence over Wisconsin Highway 27 to Black River Falls, and return over the same route; Between Mondovi, Wis., and Fairchild, Wis.: from Mondovi over U.S. Highway 10 to Fairchild, and return over the same route; Between Hixton, Wis., and Neillsville, Wis.: from Hixton over Wisconsin Highway 95 to Neillsville, and return over the same route; Between Hudson, Wis., and Frederic, Wis.: from Hudson over Wisconsin Highway 35 to Frederic, and return over the same route; Between Roberts, Wis., and junction Wisconsin Highways 46 and 35 near Milltown, Wis.: From Roberts over U.S. Highway 12 to junction Wisconsin Highway 65, thence over Wisconsin Highway 65 to junction U.S. Highway 8, thence over U.S. Highway 8 to junction Wisconsin Highway 46, thence over Wisconsin Highway 46 to junction Wisconsin Highway 35 near Milltown, and return over the same route; Between Somerset, Wis., and junction Wisconsin Highway 64 and County Highway M near Sand Creek, Wis.:

From Somerset over Wisconsin Highway 64 to junction County Highway M, and return over the same route; Between Star Prairie, Wis., and Osceola, Wis.: from Star Prairie over County Highway M to Osceola, and return over the same route; Between St. Croix Falls, Wis., and Hawkins, Wis.: from St. Croix Falls over U.S. Highway 8 to Hawkins, and return over the same route; Between Baldwin, Wis., and Spooner Wis.: from Baldwin over U.S. Highway 63 to Spooner, and return over the same route; Between junction Wisconsin Highways 64 and 46, and junction Wisconsin Highway 46 and U.S. Highway 8: from junction Wisconsin Highways 64 and 46 over Wisconsin Highway 46 to junction U.S. Highway 8, and return over the same route; Between Luck, Wis., and Rice Lake, Wis.: from Luck over Wisconsin Highway 48 to Rice Lake, and return over the same route; Between Cameron Wis., and Spooner, Wis.: from Cameron over U.S. Highway 53 to Spooner, and return over the same route; Between Menomonie, Wis., and junction Wisconsin Highways 48 and 25 (near Rice Lake, Wis.): from Menomonie over Wisconsin Highway 25 to junction Wisconsin Highway 48, and return over the same route; Between Colfax, Wis., and Glenwood City, Wis.: from Colfax over Wisconsin Highway 170 to Glenwood City, and return over the same route; Between Connorsville, Wis., and Turtle Lake, Wis.: from Connorsville over County Highway K to Turtle Lake, and return over the same route; Between Woodville, Wis., and junction County Highway D and Wisconsin Highway 64: from Woodville over County Highway D to junction Wisconsin Highway 64, and return over the same route; Between junction Wisconsin Highway 46 and County Highway F (near Amery, Wis.), and junction County Highway F and Wisconsin Highway 65: from junction Wisconsin Highway 46 and County Highway F over County Highway F to junction Wisconsin Highway 65, and return over the same route; Between Deronda, Wis., and junction County Highway C and Wisconsin Highway 65: fom Deronda over County Highway P to junction County Highway C, thence over County Highway C to junction Wisconsin Highway 65, and return over the same route; Between Clayton, Wis., and Range, Wis.:

From Clayton over County Highway D to Range, and return over the same route; Between Chetek, Wis., and Prairie Farm, Wis.: from Chetek over County Highway 1 to junction County Highway A, thence over County Highway A to Prairie Farm, and return over the same route; Between Connorsville, Wis., and Menomine, Wis.: from Connorsville over Wisconsin Highway 79 to junction U.S. Highway 12, thence over U.S. Highway 12 to Mononomie, and return over the same route; Between junction U.S. Highway 12 and Wisconsin Highway 128 (near Hersey, Wis.), and junction Wisconsin Highways 128 and 64: from junction U.S. Highway 12 and Wisconsin Highway 128 over Wisconsin Highway 128 to junction Wisconsin Highway 64, and return over the same route; Between junction U.S. Highway 8 and County Highway F near Poskin, Wis., and junction County Highway F and Wisconsin Highway 64: from junction U.S. Highway 8 and County Highway F over County Highway F to junction Wisconsin Highway 64, and return over the same route; Between Dallas, Wis., and Holcombe, Wis.: from Dallas over County Highway U to Sand Creek, Wis., thence over County Highway M to Holcombe, and return over the same route; Between Chippewa Falls, Wis., and junction Wisconsin Highway 29 and U.S. Highway 12: from Chippewa Falls over Wisconsin Highway 29 to junction U.S. Highway 12, and return over the same route; Between junction Wisconsin Highways 64 and 40, and Bruce, Wis.: from junction Wisconsin Highways 64 and 40 over Wisconsin Highway 40 to Bruce and return over the same route; Between junction Wisconsin Highways 64 and 27, and Gilman, Wis.: from junction Wisconsin Highways 64 and 27 over Wisconsin Highway 64 to Gilman, and return over the same route, restricted to the transportation of (a) traffic moving from, to, or through Eau Claire, Wis., or (b) traffic originating in or destined to points in Wisconsin within 60 miles of Cameron, Wis., and moving from or to Cameron or through Cameron and all intermediate points on U.S. Highway 53 between Cameron and the northern-most junction of said highway with Wisconsin Highway 64.

By the instant petition, petitioner seeks to delete from its authority the above restriction.

No. MC 124472 (Sub-No. 3) (notice of filing of petition to modify commodity description and contract shippers), filed June 21, 1976. Petitioner: HARDING TRANSPORTATION, INC., 6875 East Evans, Denver, Colo. 80224. Petitioner's representative: Clayton C. Koster (same address as applicant). Petitioner holds a motor *contract carrier* Permit in No. MC 124472 (Sub-No. 3), issued July 5, 1968, authorizing transportation over irregular routes, of (1) *polished plate glass*, from Crystal City, Mo., Toledo, Ohio, and Nashville and Greenland, Tenn., to Fort Smith and Fayetteville, Ark., Colorado Springs, Denver, Pueblo. Longmont, Boulder, Greeley, and Grand Junction, Colo., Sioux City, Iowa, Garden City, Manhattan, Topeka, Salina, and Hays, Kans., Kansas City, Joplin, St. Louis, and Springfield, Mo., Kearney, Lincoln, Norfolk, Omaha, and Gering, Nebr., Farmington, N. Mex., and Tulsa, Okla.; (2) *paint* (except in bulk), from Pueblo, Colo., to Fort Smith and Fayetteville, Ark., Alton, Ill., Sioux City, Iowa, Garden City, Manhattan, Topeka, Salina, and Hays, Kans., Kansas City, Springfield, Joplin, and St. Louis, Mo., Kearney, Lincoln, Norfolk, Omaha, and Gering, Nebr., Farmington, N. Mex., and Tulsa, Okla.; (3) *putties and caulking compounds*, from Denver, Colo., to Fort Smith and Fayetteville, Ark., Alton, Ill., Sioux City, Iowa, Garden City, Manhattan, Topeka, Salina, and Hays, Kans., Kansas City, Springfield, Joplin, and St. Louis, Mo., Kearney, Lincoln, Norfolk, Omaha, and Gering, Nebr., Farmington, N. Mex., and Tulsa, Okla.; and (4) *rolled glass, polished wire glass*, and *glazing units*, from Kingsport, Tenn., St. Louis, Mo., and Toledo, Ohio, to Fayetteville and Fort Smith, Ark., Colorado Springs, Denver, Pueblo, Longmont, Boulder, Greeley and Grand Junction, Colo, Sioux City, Iowa, Garden City, Manhattan, Topeka, Salina, and Hays, Kans., Joplin, Kansas City, St. Louis and Springfield, Mo., Kearney, Lincoln, Norfolk, Omaha, and Gering, Nebr., Farmington, N. Mex., and Tulsa, Okla., under a continuing contract, or contracts, with the following shippers: Harding Glass of Missouri; Harding Glass of Kansas; Harding Glass of Colorado; Interstate Glass Co.; and Thermoglas, Inc. By the instant petition, petitioner seeks (a) to modify the commodity description in parts (1) and (4) above to read: "*Glass and glass products.*"; and (b) to reflect the correct name of the contract shipper through merger as Harding Glass Industries, Inc. in lieu of the (5) companies listed above.

No. MC 139193 (Sub-No. 21) (Notice of filing of petition for modification of permit), filed August 5, 1976, Petitioner: ROBERTS & OAKE, INC., 208 South LaSalle St., Chicago, Ill. 60604. Petitioner's representative: Terrence D. Jones, 2033 K St., NW., Washington, D.C. 20006. Petitioner holds a motor *contract carrier* Permit in No. MC 139193 (Sub-No. 21), issued June 8, 1976, authorizing transportation over irregular routes, of (1) *meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as defined by the Commission in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except liquid commodities in bulk), from the plantsite and storage facilities of John Morrell & Company, located at Arkansas City, Kan., to points in Iowa, Maryland, Minnesota, Nebraska, Illinois, Kansas. Massachusetts, Missouri, New Jersey, New York, Ohio, Tennessee (except Memphis), and Sioux Falls, S. Dak.; and (2) *such commodities* (except commodities in bulk), as are used by meat packers in the conduct of their business, from Elmhurst, Ill.; East St. Louis, Ill.; Estherville, Iowa; Sioux City, Iowa; Humboldt, Iowa, and Sioux Falls, S. Dak., to Arkansas City, Kan., under a continuing contract, or contracts, with John Morrell & Company. By the instant petition, petitioner seeks (a) to add the storage facilities utilized by John Morrell & Company located in Wichita, Kan. as an additional origin point with respect to part (1) of the above authority; and (b) to add Chicago, Ill. as an additional origin point and Wichita, Ka. as an additional destination point with respect to part (2) of the above authority.

V 41 162 AUG 19 76 UMI

No. MC 141192 (notice of filing of petition to add an additional contracting shipper, filed August 3, 1976. Petitioner: DI CENSO TRANSPORT, INC., 35 Lyncrest Avenue, New York City, N.Y. 10956. Petitioner's representative: Ronald I. Shapss, 450 Seventh Ave., New York, N.Y. 10001. Petitioner holds a motor *contract carrier* Permit in No. MC 141192, issued April 14, 1976, authorizing transportation over irregular routes, of *horticultural commodities and such other commodities as are sold or used by nurseries, plant centers, and greenhouses* (except commodities in bulk), between Park Ridge, N.J., Pearl River, N.Y., and points in that part of the New York, N.Y. Commercial Zone as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), on the one hand and, on the other, points in Maine, Vermont, New Hampshire, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Michigan, Wisconsin, Illinois, Indiana, Ohio, Maryland, Delaware, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Florida, and the District of Columbia, under a continuing contract, or contracts, with the Langeveld Bulb Co., Inc. located at Park Ridge, N.J. By the instant petition, petitioner seeks to add Continental Pottery, Inc. as an additional contract shipper to the above authority.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of the operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 27500 (Sub-No. 11) (Republication), filed July 7, 1975, and published in the FEDERAL REGISTER issue of August 7, 1976, and republished this issue. Applicant: MISHAK TRUCK LINE, INC., 320 7th Avenue North, Clear Lake, Iowa 50428. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. An Order of the Commission, Review Board Number 3, dated July 15, 1976 and served August 4, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of (1) (a) *trailers, recreational and commercial, and structures* designed for attachment to motor vehicles, (b) *parts and attachments* for the commodities in (a) above; and (c) *parts and attachments for motor* homes; (2) *equipment, materials, and supplies*, used in the manufacture or distribution of the above-mentioned products (except commodities in bulk); and (3) *aluminum extrusions*, between points in Winnebago County, Iowa, on the one hand, and, on the other, points in Nebraska, Wisconsin, Illinois (except points in Grundy County, East St. Louis and points in its Commercial Zone, and Alton, Ill.), Indiana, Michigan, and points in Ohio on and west of a line commencing at Toledo, Ohio, thence south over U.S. Highway 23 to Columbus, Ohio, and thence southwest over Interstate Highway 71, to Cincinnati, Ohio, restricted to the transportation of traffic originating at or destined to, the facilities of Winnebago Industries, Inc. located in Winnebago County, Iowa; that applicant is fit, willing, and able, properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is (1) to indicate applicant's broadened commodity description; and (2) to indicate applicant's use of Interstate Highway 71 as a boundary of the radial area of Ohio in lieu of Interstate Highway 70.

No. MC 48501 (Sub-No. 18) (Republication), filed March 17, 1975, and published in the FEDERAL REGISTER issue of April 17, 1975 and republished this issue. Applicant: INDIANA MOTOR BUS COMPANY, a Corporation, 715 South Michigan St., South Bend, Ind. 46624. Applicant's representative: Harry J. Harman, 8130 South Meridan St., Indianapolis, Ind. 46217. An order of the Commission, Division 1, Acting as an Appellate Division, dated July 14, 1976 and served July 21, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle over irregular routes in the transportation of *passengers and their baggage* in the same vehicle with passengers, in special operations, in round trip, sightseeing and pleasure tours, beginning and ending at points in St. Joseph, Marshall, Fulton, Cass, Miami, Howard, Tipton, Hamilton, Marion, Boone, Clinton, Tippecanoe, Carroll, White, Jasper, Pulaski, Starke, La Porte, Porter, Elkhart, Kosciusko, Whitley, Huntington, Wabash, Grant, Delaware, and Allen Counties, Ind., and points in Berrien, Cass, St. Joseph, Kalamazoo, and Van Buren Counties, Mich. and extending to points in the United States, including Alaska, but excluding Hawaii; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate applicant's grant of authority to include service beginning and ending at points in Pulaski County, Ind.

No. MC 72442 (Sub-No. 44) (republication), filed June 4, 1974, published in the FEDERAL REGISTER issue of March 20, 1975, and republished this issue. Applicant: AKERS MOTOR LINES, INCORPORATED, P.O. Box 10303, Charlotte, N.C. 28237. Applicant's representative: Leonard A. Jaskiewcz, Suite 501, 1730 M Street, NW., Washington, D.C. 20036. An Order of the Commission, Review Board Number 1, dated June 28, 1976, and served July 6, 1976, finds that applicant's regular route authority in MC 72442 (Sub-No. 32) between specified termini, located at Georgia, North Carolina and South Carolina, restricted (A) such that service at authorized points in South Carolina (other than those in Anderson, Oconee, Pickens, Greenville, Spartanburg, Cherokee, Laurens, Union, York, Greenwood, and Abbeville Counties) is restricted to traffic moving to or from points north of the North Carolina-Virginia State line; (B) such that service at authorized points in Georgia (except for the pickup of cotton piece goods) is restricted to traffic moving (a) from, to, or through points in the 11 South Carolina Counties named above, or (b) from, to, or through Gastonia, N.C. and points in North Carolina within 25 miles of Gastonia, or (c) points north of the North Carolina-Virginia State line; and (C) such that shipments moving between points in Georgia, on the one hand, and, on the other, points in North Carolina on and west of U.S. Highway 29 are restricted to movements through Gastonia, N.C., or points within 25 miles thereof, in the transportation of, *General commodities* (except those of unusual value, Classes A and B explosives, tobacco, liquor, commodities in bulk, household goods as defined by the Commission, and commodities requiring special equipment), to be modified as follows:

(1) Points in Chesterfield, Marlboro, Dillon, Marion, Florence, Darlington, Lee, and Kershaw Counties, S.C., are to be added to applicant's present off-route point authority. (2) The first and third restrictions (designated above as restrictions (A) and (C)) now appearing are to be deleted. (3) The words "the 11 South Carolina Counties named above" are to be deleted from the second restriction (designated above as restriction (B)) and in lieu thereof the words "Anderson, Oconee, Pickens, Greenville, Spartanburg, Cherokee, Laurens, Union, York, Greenwood, and Abbeville Counties, S.C.," are to be inserted. (4) The following restriction is to be added: "The authority granted herein shall not be severable by sale or otherwise from the authority held by applicant in Certificates Nos. MC-72442 (Sub-No. 7) and MC-72442 (Sub-No. 12). Conditions: The authority granted herein is subject (1) to prior publication in the Federal Register of the authority actually granted, and (2) to insertion in Certificates Nos. MC-72442 (Sub-No. 7) and MC-72442 (Sub-No. 12), at applicant's written request, of a restriction providing that applicant shall not, pursuant to the irregular-route authority contained in each certificate, serve any two points authorized in Certificate No. MC-72442 (Sub-No. 32) to be served by it in regular-route operations, that applicant is fit, willing, and able, properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations, thereunder. The purpose of this republication, is to indicate applicant's grant of off-route points in (1) above.

No. MC 115322 (Sub-No. 111) (Republication), filed October 29, 1974, and published in the FEDERAL REGISTER issue of November 21, 1974 and republished this issue. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: J. V. McCoy, P.O. Box 426, Tampa, Fla. 33601. On Order of the Commission, Review Board Number 1, dated July 27, 1976, and served August 2, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *foodstuffs* (except frozen or in bulk), from Egypt, Fairport, Lyons, Newark, Red Creek, Rushville, Syracuse, and Waterloo, N.Y., to points in Alabama, Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Tennesse, Virginia, West Virginia, and the District of Columbia, restricted to the transportation of traffic originating at the plantsite or storage facilities of Comstock Foods, Borden, Inc., Foods Division, located at the named origins and destined to the indicated destinations; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is (1) to indicate applicant's commodity exception; (2) to indicate Newark, N.Y. as an additional origin point; (3) to indicate the District of Columbia as an additional destination point; and (4) to indicate applicant's restriction.

No. MC 128146 (Sub-No. 6), filed December 22, 1975. Applicant: TED W. BETLEY, INC., P.O. Box 196, Amberg, Wis. 54102. Applicant's representative: Ted W. Betley (same address as applicant). By Order of the Commission, Review Board Number 2, dated June 24, 1976, and served July 21, 1976, the Commission finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *repair parts, accessories, tools and equipment*, restricted against the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor to one consignee on any one day, between Chicago, Ill., Minneapolis, Minn. and Green Bay and Milwaukee, Wis., on the one hand, and, on the other points in Minnesota, Wisconsin, and the Upper Peninsula of Michigan; (2) *film, photographic materials*, and *film dealer supplies*, between Green Bay and Milwaukee, Wis., on the one hand, and, on the other, points in the Upper Peninsula of Michigan; (3) *audit media and business records*, between Minneapolis, Minn., on the one hand, and, on the other, points in Eau Claire County, Wis.; and (4) *audit media and business records*, between Green Bay, Wis., on the one hand, and, on the other, Chicago, Ill. Inasmuch as this matter has not previously been noticed in the FEDERAL REGISTER, any proper party may file an initial protest against the granting of any segment of this authority within 30 days after the date of this notice in the FEDERAL REGISTER.

No. MC 133485 (Sub-No. 16) (Republication), filed May 14, 1975, and published in the FEDERAL REGISTER issue of June 12, 1975, and republished this issue. Applicant: INTERNATIONAL DETECTIVE SERVICE, INC., 1828 Westminster Street, Providence, R.I. 02909. Applicant's representative: Morris J. Levin, 1620 Eye Street, NW., Washington, D.C. 20006. An Order of the Commission, Review Board Number 1, dated July 29, 1976 and served August 4, 1976, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *precious metals* (except new coins), *precious stones, jewelry, and rare and valuable objects*, in armored motor vehicles escorted by armed guards, (a) between points in Delaware, on the one hand, and, on the other, points in New York and New Jersey and those in Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., (b) between points in New York, on the one hand, and, on the other, points in Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and (c) between points in Delaware, on the one hand, and, on the other, points in Rhode Island; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the modification in commodity description and the service between Delaware and Rhode Island.

No. MC 141113 (Republication), filed July 3, 1975, published in the FEDERAL REGISTER issue of September 25, 1975, and republished this issue. Applicant: MONSEY TRANSPORTATION CORP., 94 Washington Avenue, New Square, Spring Valley, N.Y. 10977. Applicant's representative: Harvey L. Sterlzin, 253 Broadway, New York, N.Y. 10007. A Stay Decision and Order of the Commission, Review Board Number 3, dated June 22, 1976, and served July 20, 1976, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of, *passengers and their baggage* in the same vehicle with passengers, in special and charter operations, beginning and ending at Monsey, N.Y., and extending to points in New York and Kings Counties, N.Y., that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate applicant's grant of common carrier authority in lieu of contract carrier authority as originally sought.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearings, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof,

V 41 162 AUG 19 76 UMI

and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 6607 (Sub-No. 17) filed July 13, 1976. Applicant: J. J. MINNEHAN, INC., Rockingham Road, P.O. Box 369, Bellows Falls, Vt. 05101. Applicant's representative: Frederick T. O'Sullivan, 622 Lowell Street, P.O. Box 2184, Peabody, Mass. 01960. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Products* derived from corn and blends containing products derived from corn, in bulk, in tank vehicles, from the Clinton Corn Processing Company plant site located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the above described facilities, under a continuing contract, or contracts, with Clinton Corn Processing Company.

NOTE.—Applicant holds common carrier authority in MC 139624 and subs thereunder; therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held on a consolidated record with several similar applications at Washington, D.C.

No. MC 14107 (Sub-No. 3), filed July 2, 1976. Applicant: W. M. GIRVAN, INC., 65 Railroad Ave., Albany, N.Y. 12205. Applicant's representative: Neil D. Breslin, 99 Washington Ave., Suite 1111, Albany, N.Y., 12210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials and supplies* used in the conduct of such business, between East Hartford, Conn., on the one hand, and, on the other, points in Albany, Clinton, Columbia, Delaware, Dutchess, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Montgomery, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, Ulster, Warren, Washington and Sullivan Counties, N.Y.; Berkshire and Franklin Counties, Mass.; and Bennington, Rutland, Addison, Chittendon, Franklin, Orleans, Lamoille, Washington, Orange, Windsor, Windham and Caldonia Counties, Vt., under a continuing contract, or contract with Great Atlantic & Pacific Tea Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Albany, N.Y., or Boston, Mass.

No. MC 35807 (Sub-No. 60), filed July 13, 1976. Applicant: WELLS FARGO ARMORED SERVICE CORPORATION, P.O. Box 4313, Atlanta, Ga. 30302. Applicant's representative: Harry J. Jordan, 1000 16th St. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Currency and coin*, between Birmingham, Ala., on the one hand, and, on the other, Jay, Fla., under a continuing contract, or contracts with Federal Reserve Bank of Atlanta, Birmingham Branch.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or Birmingham, Ala.

No. MC 43038 (Sub-No. 457), filed July 12, 1976. Applicant: Commercial Carriers, Inc., 10701 Middlebelt Road, Romulus, Mich. 48174. Applicant's representative: Paul H. Jones, 29725 Shacket Ave., Madison Heights, Mich. 48071. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New automobiles*, in initial movements, from the plantsites of General Motors Corporation located at Los Angeles and South Gate, Calif., to points in Arizona and points in Coos, Curry, Douglas, Jackson, Josephine, Klamath and Lane Counties, Oreg.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Los Angeles or San Francisco, Calif. or Washington, D.C.

No. MC 43038 (Sub-No. 459), filed July 13, 1976. Applicant: COMMERCIAL CARRIERS, INC., 10701 Middlebelt Road, Romulus, Mich. 48174. Applicant's representative: Paul H. Jones, 29725 Shacket Avenue, Madison Heights, Mich. 48071. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New automobiles*, in initial movements, from the General Motors assembly plant located at or near Fremont, Calif., to points in Arizona, Nevada and Coos, Curry, Douglas, Jackson, Josephine, Klamath and Lane Counties, Oreg.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Los Angeles or San Francisco, Calif. or Washington, D.C.

NO. MC 47583 (Sub-No. 30), filed July 6, 1976. Applicant: TOLLIE FREIGHTWAYS, INC., 1020 Sunshine, Kansas City, Kans. 66115. Applicant's representative: D. S. Hults, P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Waste paper or scrap paper*, from points in Iowa and Nebraska to the plant sites and storage facilities of GAF Corporation, Packaging Corporation of America and U.S. Gypsum Co., all located within the Kansas City, Mo.-Kans. Commercial Zone.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Kans.

No. MC 47583 (Sub-No. 31), filed July 2, 1976. Applicant: TOLLIE FREIGHTWAYS, INC., 1020 Sunshine, Kansas City, Kans. 66115. Applicant's representative: D. S. Hults, P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vermiculite*, from the plantsite and storage facilities of Diversified Insulation, located at or near Wellsville, Kans., to points in Arkansas, Colorado, Illinois, Iowa, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, South Dakota, Tennessee, Texas and Wyoming; and (2) *materials, equipment and supplies*, used in the manufacturing and distribution of cellulose and vermiculite products (except commodities in bulk), from the destination points named in (1) above to the plantsite and storage facilities of Diversified Insulation, located at or near Wellsville, Kans.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Kans.

No. MC 52579 (Sub-No. 156), filed July 6, 1976. Applicant: GILBERT CARRIER CORP., One Gilbert Drive, Secaucus, N.J. 07094. Applicant's representative: Fred L. Cardascia (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel*, on hangers, from Burkesville, Ky., to points in Atlanta, Ga.; Dallas, Tex.; Los Angeles, Calif., and points in the New York, N.Y., Commercial Zone, as defined by the Commission.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y. or Newark, N.J.

No. MC 59150 (Sub-No. 95), filed July 14, 1976. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose Street, Jacksonville, Fla. 32206. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building and construction materials, and materials, equipment and supplies*, used in the manufacture, packaging, distribution, or installation thereof (except commodities in bulk), between Jacksonville, Fla., on the one hand, and, on the other, points in Alabama, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla.

No. MC 61231 (Sub-No. 93), filed July 14, 1976. Applicant: ACE LINES, INC., 4143 East 43rd Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from the plantsites of Northwestern Steel and Wire Company, located at Rock Falls and Sterling, Ill., to points in Arizona, Colorado, Montana, New Mexico, Oklahoma, Texas and Wyoming; and (2) *materials and supplies*

used in the manufacture and distribution of iron and steel articles, from the above named destination points to the plantsites of Northwestern Steel and Wire Company, located at Rock Falls and Sterling, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 61592 (Sub-No. 391), filed July 15, 1976. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, R.R. No. 3, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, 101 First Avenue, P.O. Box 737, Moline, Ill. 61265. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors, mowers, tractor cultivators, agricultural implements, trailers, and attachments, accessories and parts* for use with tractors and snow removal equipment, from Waukesha, Wis., to points in the United States, including Alaska but excluding Hawaii; and (2) *equipment, materials and supplies* used in the manufacture of the above commodities (except commodities in bulk, in tank vehicles), from points in the United States, including Alaska but excluding Hawaii, to Waukesha, Wis.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 67450 (Sub-No. 58), filed July 15, 1976. Applicant: PETERLIN CARTAGE CO., 9651 South Ewing Avenue, Chicago, Ill. 60617. Applicant's representative: Joseph M. Scanlan, 111 West Washington St., Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such goods, wares, merchandise, and equipment* that are utilized or sold by General Mills, Inc., between Cedar Rapids, Iowa, on the one hand, and, on the other, points in Arkansas, California, Colorado, Connecticut, Georgia, Idaho, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Texas, and Wisconsin, restricted to traffic originating at or destined to the plantsite or warehouse facilities utilized by General Mills, Inc. located at Cedar Rapids, Iowa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 69397 (Sub-No. 22), filed July 14, 1976. Applicant: JAMES H. HARTMAN & SON, INC., P.O. Box 85, Pocomoke City, Md. 21851. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Bldg., 666 11th St., N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from points in Somerset County, Md., to points in Maine, New Hampshire, and Vermont.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 72140 (Sub-No. 68), filed July 20, 1976. Applicant: SHIPPERS DISPATCH, INC., 1216 West Sample Street, South Bend, Ind. 46619. Applicant's representative: Richard L. Andrysiak, (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving Butler, Ind., as an off-route point in connection with applicant's presently authorized regular-route operations at Fort Wayne, Ind.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Fort Wayne, Ind. or Toledo, Ohio.

No. MC 83217 (Sub-No. 72), filed July 12, 1976. Applicant: DAKOTA EXPRESS, INC., 550 E. 5th St., South, South St. Paul, Minn. 55075. Applicant's representative: Paul Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and advertising materials and supplies* (except in bulk), from the Minneapolis, Minn., LaCrosse, Wis., and Milwaukee, Wis. Commercial Zones to points in South Dakota; and (2) *empty used malt beverage containers*, from points in South Dakota to the Minneapolis, Minn., LaCrosse, and Milwaukee, Wis. Commercial Zones.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 94201 (Sub-No. 142), filed July 6, 1976. Applicant: BOWMAN TRANSPORTATION, INC., P.O. Box 17744, Atlanta, Ga. 30316. Applicant's representative: Maurice F. Bishop, 601–09 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from the plantsite, warehouse and storage facilities of Union Camp Corporation, located at or near Franklin, Va., to points in the District of Columbia; points on U.S. Highway 1 between the District of Columbia and New York; points in New York within 35 miles of Columbus Circle, N.Y.; and points in Connecticut, Massachusetts, New Jersey and Rhode Island.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 95876 (Sub-No. 188), filed July 15, 1976. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, P.O. Box 1377, St. Cloud, Minn. 56301. Applicant's representative: Robert D. Gisvold, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe, pipe fittings, valves, fire hydrants, couplings, connections and materials, supplies and accessories* used in the installation of said commodities, from the plantsite and storage facilities of Clow Corporation, located at or near Coshocton, Ohio, to points in California, Colorado, Idaho, Iowa, the Upper Peninsula of Michigan, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Minneapolis, Minn.

No. MC 98852 (Sub-No. 4) filed June 28, 1976. Applicant: FARRAGUT BAGGAGE AND TRANSFER CO. INC., 945 E. 17th St., Tucson, Ariz. 85719. Applicant's representative: Wellwood W. Blough (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those in bulk, in tank vehicles), from Tucson, Ariz., to Sells, Ariz.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tucson or Sells, Ariz.

No. MC 102567 (Sub-No. 193) filed July 15, 1976. Applicant: MCNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, 816 Houston 1st Savings Bldg., 711 Fannin, Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from the plantsite of Pearl River Chemical Company, at or near Pearl River, La., to points in Alabama, Arkansas, Florida, Georgia, Mississippi, Tennessee, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Houston, Tex.

No. MC 104123 (Sub-No. 77), filed July 14, 1976. Applicant: JOHN SCHUTT, JR., INC., 655 River Road, North Tonawanda, N.Y. 14120. Applicant's representative: Richard H. Streeter, 704 Southern Bldg., 15th & H St., NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous aluminum chloride*, dry, in bulk, in tank vehicles, from ports of entry on the International Boundary line between the United States and Canada located in Michigan and New York, to points in Louisiana, Maryland and Texas, restricted to movements originating at the plantsite and facilities of Welland Chemical located at Sarnia, Ontario.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Buffalo, N.Y. or Washington, D.C.

No. MC 106674 (Sub-No. 200), filed July 14, 1976. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and wood products*, from White

V 41 162 AUG 19 76 UMI

Plains, Ky., to points in Alabama, Arkansas, Illinois, Indiana, Michigan, Mississippi, Missouri, Ohio, Tennessee, West Virginia and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Indianapolis, Ind.

No. MC 107012 (Sub-No. 228) filed July 15, 1976. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Lincoln Highway East and Meyer Road, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sporting goods and recreational and physical fitness equipment, and games and toys*, from Newark, N.Y., and Compton, Calif., to points in the United States(except Alaska and Hawaii).

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Chicago, Ill.

No. MC 107403 (Sub-No. 981) filed July 12, 1976. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, (1) from Louisville, Ky., to Sullivan, Mo.; and (2) from Nesquehoning, Pa., to points in Delaware, Florida, Maine, Massachusetts, New Hampshire, New Jersey and South Carolina.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 107934 (Sub-No. 27), filed July 14, 1976. Applicant: BYRD MOTOR LINE, INCORPORATED, P.O. Box 787, Lexington, N.C. 27292. Applicant's representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from Lawrenceville, Ga., to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, North Carolina, Ohio, South Carolina, Tennessee and Wisconsin; and (2) *returned furniture*, from the destinations named in (1) above, to Lawrenceville, Ga.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 108223 (Sub-No. 21) filed July 9, 1976. Applicant: CENTURY-MERCURY MOTOR FREIGHT, INC., 2160 Mustang Drive, P.O. Box 3050, St. Paul, Minn. 55112. Applicant's representative: Warren K. Wahoske (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (1) Between Milwaukee, Wis., and Duluth, Minn., for operating convenience only, serving no intermediate points: From Milwaukee, Wis., over Interstate Highway 94 to junction U.S. Highway 53, thence over U.S. Highway 53 to Duluth, Minn., and return over the same route; and (2) Between Chicago, Ill., and Duluth, Minn., for operating convenience only, serving no intermediate points: From Chicago, Ill., over Interstate Highway 90 to junction Interstate Highway 94 thence over Interstate Highway 94 to junction U.S. Highway 53, thence over U.S. Highway 53 to Duluth, Minn. and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 109478 (Sub-No. 146) filed July 12, 1976. Applicant: WORSTER MOTOR LINES, INC., R.D. No. 1, Gay Road, North East, Pa. 16428. Applicant's representative: Joseph F. Mackrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products* derived from corn and *blends* containing products derived from corn, in bulk, in tank vehicles, from Clinton Corn Processing Company plantsite located at Montezuma, N.Y., to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the above described facilities.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 109689 (Sub-No. 298) filed July 2, 1976. Applicant: W. S. HATCH CO., 643 South 800 West, Woods Cross, Utah 84087. Applicant's representative: Mark K. Boyle, 345 South State Street, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulfuric acid*, in bulk, from Thompson, Utah, to Uravan, Colo.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Salt Lake City, Utah.

No. MC 110563 (Sub-No. 184) filed July 8, 1976. Applicant: COLDWAY EXPRESS, INC., P.O. Box 747, Sidney, Ohio 45365. Applicant's representative: Joseph M. Scanlan, 111 W. Washington, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food products, and food ingredients* in mechanically refrigerated equipment (except in bulk), from the plant and warehouse facilities owned and operated by Archer Daniels Midland Company, located in Decatur, Ill; also, shipping products for Wilsey Foods, Inc., and others to points located in Colorado, Connecticut, Delaware, Iowa, Maine, Maryland, Massachusetts, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or St. Louis, Mo.

No. MC 113666 (Sub-No. 105) filed June 29, 1976. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, Pa. 16220. Applicant's representative: William H. Shawn, Suite 501, 1730 M Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lead, nickel and zinc* (except in bulk), from ports of entry on the International Boundary line between the United States and Canada located at Maine, Michigan, Minnesota, New Hampshire, New York and Vermont, to points in Alabama, California, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Masachusetts, Michigan, Minnesota, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Virginia, West Virginia and Wisconsin; and (2) *copper scrap* (except in bulk), from Alabama, Arizona, California, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Jersey, New Mexico, New York, Ohio, Pennsylvania, Tennessee, Texas, Virginia, West Virginia and Wisconsin, to ports of entry on the International Boundary line between the United State sand Canada located at Maine, Michigan, Minnesota, New Hampshire, New York and Vermont, restricted in (1) and (2) above to traffic originating at or destined to points in Canada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Buffalo, N.Y. or Pittsburgh, Pa.

No. MC 113666 (Sub-No. 106) filed July 15, 1976. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, Pa. 16220. Applicant's representative: William H. Shawn, 1730 M Street, NW., Suite 501, Washington, D.C. 20036. Va., to points in Maryland, Michigan, Minnesota, Montana, New Jersey, New York and North Dakota; (5) *aluminum oxide catalyst*, from Michigan City, Ind., to U.S.-Canadian Border Crossings located on the Detroit and St. Clair Rivers; and (6) *dry animal and poultry feed ingredients*, from Willow Island, W. Va., to points in Minnesota and South Dakota.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Philadelphia, Pa.

No. MC 114045 (Sub-No. 444), filed July 14, 1976. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 61228, D/FW Airport, Tex. 75261. Applicant's representative: J. B. Stuart (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Toilet preparations, soaps, shampoos, and aerosols* (except commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Morristown, N.J., to Springfield, Mo., and points in California.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y. or Washington, D.C.

No. MC 114211 (Sub-No. 277) filed July 14, 1976. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, Waterloo, Iowa, 50701. Applicant's representative: Daniel Sullivan, 327 South La Salle, Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Magnesium metal ingots*, from Snyder, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held in consolidation with C & H Transportation Company Inc., at either Dallas or Houston, Tex.

No. MC 114273 (Sub-No. 252) filed July 13, 1976. Applicant: CRST, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Robert E. Konchar, Suite 315, Commerce Exchange Bldg., 2720 First Avenue NE., P.O. Box 1943, Cedar Rapids, Iowa 52406. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Joliet, Ill., to points in Colorado, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Pennsylvania.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114552 (Sub-No. 119) filed July 15, 1976. Applicant: SENN TRUCKING CO., P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1267, Arlington, Va. 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, valves, fittings, hydrants, parts thereof*, and *accessories therefor* (except in bulk), from the facilities of American Cast Iron Pipe Company, located at Birmingham, Ala., to points in North Carolina and South Carolina.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala.

No. MC 116254 (Sub-No. 162) filed June 17, 1976. Applicant: CHEM-HAULERS, INC., P.O. Box 339, Florence, Ala. 35630. Applicant's representative: Walter Harwood, P.O. Box 15214, Nashville, Tenn. 37215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Birmingham, Ala., to Henderson, Nev., and Fontana and Pittsburg, Calif.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala.; Atlanta, Ga.; or Nashville, Tenn.

No. MC 117503 (Sub-No. 9) (Correction), filed March 26, 1976, published in the FEDERAL REGISTER issues of April 29, May 25 and July 8, 1976 and republished as corrected this issue. Applicant: HATFIELD TRUCKING SERVICE, INC., 1625 North C Street, Sacramento, Calif. 95814. Applicant's representative: Eldon M. Johnson, 650 California Street, Suite 2808, San Francisco, Calif. 94108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, class A explosives, household goods as defined by the Commission, and those of unusual value), between the Seattle-Tacoma International Airport near Seattle, Wash.; Portland International Airport near Portland, Oreg.; Sacramento Metropolitan Airport near Sacramento, Calif.; San Francisco International Airport near San Francisco, Calif.; and the Los Angeles International Airport near Los Angeles, Calif., and the facilities of direct and indirect air carriers located within twenty-five (25) miles of the airport mentioned above, restricted to the transportation of traffic having a prior or subsequent movement by air, to movements in trailers equipped with rollerized floors; and further restricted against service between the Seattle-Tacoma International Airport, on the one hand, and, on the other, the Portland International Airport, and against service between the San Francisco International Airport, on the one hand, and, on the other, the Los Angeles International Airport.

NOTE.—The purpose of this republication is to correct the territorial description. If a hearing is deemed necessary, the applicant requests it be held at either Sacramento, Calif. or San Francisco, Calif.

No. MC 117765 (Sub-No. 207), filed July 12, 1976. Applicant: HAHN TRUCK LINE, INC., 5315 N.W. 5th St., P.O. Box 75218, Oklahoma City, Okla. 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral fibre and mineral fibre products, and insulating materials*, from the plantsite of the United States Gypsum Company, at Corsicana, Tex., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Oklahoma.

No. MC 117765 (Sub-No. 208), filed June 29, 1976. Applicant: HAHN TRUCK LINE, INC., 3515 N.W. 5th St., P.O. Box 75218, Oklahoma City, Okla. 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies and equipment* used in the manufacture, distribution and installation of building materials, gypsum and gypsum products (except liquid commodities in bulk), from points in Illinois, Iowa, Kansas, Kentucky, Michigan, Missouri, Ohio, Pennsylvania, Tennessee, West Virginia, and Wisconsin, to the plantsite of the United States Gypsum Company, located in Martin County, Ind.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Oklahoma City, Oklahoma.

No. MC 117940 (Sub-No. 179) (Amendment), filed June 28, 1976, published in the FEDERAL REGISTER issue of August 5, 1976, republished as amended this issue. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Timmerman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by discount, variety and clothing stores (except commodities in bulk) and foodstuffs in mixed loads with such commodities as are dealt in by discount, variety and clothing stores from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia from New York, N.Y. and Jersey City, N.J., to points in Illinois, Michigan, and Ohio, and Highland, Ind., restricted to shipments originating at and destined to facilities utilized by Robert Hall Clothes at the named destinations.

NOTE.—The purpose of this republication is to amend the requested authority in this proceeding. Applicant holds contract carrier authority in No. MC 114789 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 118846 (Sub-No. 13), filed July 19, 1976. Applicant: DALE JESSUP, R.R. No. 1, Box 252, Camby, Ind. 46113. Applicant's representative: Walter F.

V 41 16 2
AUG 19 76
UMI

Jones, Jr., 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Component parts for campers, house trailers and recreational vehicles*, from points in Elkhart County, Ind., to the plantsite of Traveltime, Inc., at Springville, Utah, under contract with Traveltime, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Indianapolis, Ind.

No. MC 118866 (Sub-No. 9), (correction) filed July 13, 1976, published in the FEDERAL REGISTER issue of August 5, 1976 as MC 118861, Sub-No. 9, republished as corrected this issue. Applicant: PAUL L. ZAMBERLAN & SONS, INC., Box 15, Lewis Run, Pa. 16738. Applicant's representative: William J. Hirsch, Suite 1125, 43 Court Street, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Corrugated steel culvert pipe*, from Olean, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont; and (2) *returned shipments*, from points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, to Olean, N.Y., restricted to traffic originating at, or returned to, the facilities of Wheeling Corrugating Company, a Division of Wheeling-Pittsburgh Steel Corp., at Olean, N.Y.

NOTE.—The purpose of this republication is to correct the docket number MC 118866, Sub-No. 9 in lieu of MC 118861 which was previously published in error. Applicant holds contract carrier authority in MC 45500, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y., or Pittsburgh, Pa.

No. MC 118989 (Sub-No. 140), filed July 15, 1976. Applicant: CONTAINER TRANSIT, INC., 5223 South 9th Street, Milwaukee, Wis. 53221. Applicant's representative: Albert A. Andrin, 180 North La Salle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends*, (1) from the plantsite and warehouse facilities of National Can Corporation, located at Piscataway, N.J., to Milwaukee, Wis., Peoria, Ill. and Frankenmuth, Mich.; (2) from the plantside and warehouse facilities of National Can Corporation, located at Danbury, Conn., to Sharonville, Ohio, La Crosse and Milwaukee, Wis., and Frankenmuth, Mich.; and (3) from the plantsite and warehouse facilities of National Can Corporation, located at Millis, Mass., to St. Paul, Minn., La Crosse, Wis., and Frankenmuth, Mich.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or New York, N.Y.

No. MC 119094 (Sub-No. 4), filed July 15, 1976. Applicant: CLARENCE S. WINTERSTEEN, doing business as C. S. WINTERSTEEN COMPANY, 1st St. & Park Avenue, Bemidji, Minn. 56601. Applicant's representative: Sheldon D. McRae, Sr., 204 5th St., P.O. Box 684, Bemidji, Minn. 56601. Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Indiana, Kentucky, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, Texas, Utah, Vermont, Washington, Wyoming and the District of Columbia, under a continuing contract, or contracts, with United Sprinkler Division of Waycrosse, Inc.

NOTE.—Applicant holds common carrier authority in MC 138475; therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 128988 (Sub-No. 83), filed July 6, 1976. Applicant: JO/KEL, INC., 159 South Seventh Avenue, PO Box 1249,

VOL 41 NO 162 AUG 19 1976 UM

City of Industry, Calif. 91749. Applicant's representative: Patrick E. Quinn, PO Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Electric controllers* (except commodities in bulk, and those which require the use of special equipment because of size or weight), from the facilities of Westinghouse Electric Corporation, located at or near Cincinnati, Ohio, to points in the United States on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada, under a continuing contract, or contracts, with Westinghouse Electric Corporation.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Pittsburgh, Pa.

No. MC 129282 (Sub-No. 32), filed June 18, 1976. Applicant: BERRY TRANSPORTATION, INC., PO Box 2147, Longview, Tex. 75601. Applicant's representative: Fred S. Berry (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and materials and supplies* used in the manufacture and distribution thereof, (1) from San Antonio, Tex., to points in Alabama, Tennessee and Chickasha, Oklahoma City and Tulsa, Okla.; and (2) from points in Alabama, Tennessee and Muskogee, Sand Springs, Salpulpa, Chickasha, Oklahoma City, and Tulsa, Okla., to San Antonio, Tex.

NOTE.—Applicant states that it intends to tack the requested authority above with its existing irregular route authority at San Antonio, Tex., to transport malt beverages from Laredo, Tex. to Chickasha, Oklahoma City and Tulsa, Okla. and points in Alabama and Tennessee. If a hearing is deemed necessary, the applicant requests it be held at San Antonio, Tex.

No. MC 133095 (Sub-No. 101), filed July 6, 1976. Applicant: TEXAS-CONTINENTAL EXPRESS, INC., P.O. Box 434, Euless, Tex. 76039. Applicant's representative: Rocky Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors and wines* in packages, and *distillery bottling supplies*, from New York, N.Y., and points in its commercial zone; Woodside (Long Island), N.Y.; Schenley, Pa.; Louisville and Frankfort, Ky.; Lawrenceburg, Ind.; and Tullahoma, Tenn., to points in California.

NOTE.—Applicant holds contract carrier authority in No. MC 136032 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Dallas, Tex. or Washington, D.C.

No. MC 133095 (Sub-No. 102), filed July 16, 1976. Applicant: TEXAS-CONTINENTAL EXPRESS, INC., P.O. Box 434, Euless, Tex. 76039. Applicant's representative: A. J. Swanson, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by retail stores (except foodstuffs); and (2) *foodstuffs*, in mixed shipments with the commodities named in (1) above, from the facilities of Target Stores, Inc., at Minneapolis, Minn., to points in Colorado, Oklahoma, and Texas.

NOTE.—Applicant holds contract carrier authority in No. MC 136032 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Minneapolis, Minn.

No. MC 133095 (Sub-No. 103), filed July 19, 1976. Applicant: TEXAS-CONTINENTAL EXPRESS, INC., P.O. Box 434, Euless, Tex. 76039. Applicant's representative: Rocky Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as defined by the Commission, from San Angelo, Tex., to points in Kentucky and Michigan.

NOTE.—Applicant holds contract carrier authority in MC 136032 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 134564 (Sub-No. 6), filed July 6, 1976. Applicant: GLOVER TRUCKING CORP., P.O. Box 7206, Holland Station, Suffolk, Va. 23437. Applicant's representative: Charles Ephraim, Suite 600, 1250 Connecticut Ave., NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Agricultual pesticides and emulsifiers*, used in connection therewith (except in bulk, in tank vehicles), (1) from Miami and Orlando, Fla.; Atlanta and Bainbridge, Ga.; Wyoming, Ill.; Opelousas, La.; Cockeysville, Md.; Greenville, Miss.; Dayton and Edison, N.J.; Ayden, Goldsboro, and Greensboro, N.C.; Columbus, Ohio; and Bamberg and Charleston, S.C., to Richmond, Va.; points in Rockingham, Augusta, Page, Nelson, Green, Albemarle, Madison, Spotsylvania, Caroline, Essex and Richmond Counties, Va.; points in that part of Virginia in, east and south of Brunswick, Dinwiddie, Chesterfield, Henrico, New Kent, James City and York Counties, Va., and points in that part of North Carolina in, east and north of Northampton, Halifax, Nash, Wilson, Wayne, Lenoir, Craven, and Carteret Counties; and (2) from Holland Station and Suffolk, Va., to points in that part of North Carolina in, east and north of Northampton, Halifax, Nash, Wilson, Wayne, Lenoir, Craven, and Carteret Counties, restricted to a transportation service to be performed under a continuing contract, or contracts, with Glover Fertilizer & Grain Corp.

NOTE.—Applicant holds common carrier authority in MC 2788, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Richmond, Va.

No. MC 134599 (Sub-No. 145) (Amendment), filed June 4, 1976, published in the FEDERAL REGISTER issue of July 8, 1976, republished, as amended this issue. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, P.O. Box 748, Salt Lake City, Utah 84110. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Games, toys, and plastic articles;* and (2) *materials, parts, and supplies* used in the manufacture of items in part (1) above (except commodities in bulk and those which because of size or weight require special handling or equipment), from Edison, and South Plainfield, N.J. to points in Florida, Iowa and Mississippi, under a continuing contract or contracts with Mattel, Inc.

NOTE.—The purpose of this republication is to include South Plainfield, N.J. as being a origin point. Applicant holds common carrier authority in MC 139906 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Lincoln, Nebr. or Salt Lake City, Utah.

No. MC 134755 (Sub-No. 77), filed July 15, 1976. Applicant: CHARTER EXPRESS, INC., 1959 E. Turner Street, P.O. Box 3772, Springfield, Mo. 65804. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packing houses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the facilities of Farmland Industries, Inc., located at or near Garden City, Kans., to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia.

NOTE.—Applicant holds contract carrier authority in MC 138308 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at either Wichita, Kans. or Kansas City, Mo.

No. MC 134821 (Sub-No. 6), filed July 8, 1976. Applicant: DONALD L. DROSTE, doing business as DON DROSTE TRUCKING, 1004 West Carroll St., Portage, Wis. 53901. Applicant's representative: Richard A. Westley, 4506 Regent St., Suite 100, Madison, Wis. 53705. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Capsule slurry*, in bulk, from the plantsite of NCR-Appleton Papers Division, located at or near Portage, Wis., to Roaring Spring, Pa., under a continuing contract, or contracts with NCR-Appleton Papers Division, located at or near Portage, Wis.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Madison or Milwaukee, Wis. or Chicago, Ill.

No. MC 134922 (Sub-No. 182), filed July 13, 1976. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pneumatic rubber tires and tubes*, from Marion, Shelby and Mansfield, Ohio, to points in Colorado and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio, or Little Rock, Ark.

No. MC 135170 (Sub-No. 14), filed July 2, 1976. Applicant: TRI-STATE ASSOCIATES, INC., P.O. Box 188, Federalsburg, Md. 21632. Applicant's representative: James C. Hardman, 33 North LaSalle Street, Chicago, Ill. 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Containers, container ends and accessories, materials, equipment and supplies* used in the manufacture, sale and distribution of containers (except in bulk), (1) from points in New Jersey to points in Delaware, North Carolina, Pennsylvania, Virginia and West Virginia; and (2) from points in Pennsylvania, to points in Delaware, New Jersey, North Carolina, Virginia and West Virginia, under a continuing contract, or contracts, in (1) and (2), with The Continental Group, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 135283 (Sub-No. 16), filed July 16, 1976. Applicant: GRAND ISLAND MOVING & STORAGE CO., INC., 317 North Oak Street, P.O. Box 2122, Grand Island, Nebr. 68801. Applicant's representative: Gailyn L. Larsen, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from the plantsite and storage facilities of Minden Beef Co., located at or near Minden, Nebr., to points in Connecticut and New York, restricted to traffic originating at the named origin point and destined to the named destination states.

NOTE.—Common control may be involved. If a hearing is deemed neecessary, the applicant requests it be held at either Lincoln or Grand Island, Nebr.

No. MC 135425 (Sub-No. 20), filed July 15, 1976. Applicant: CYCLES LIMITED, P.O. Box 5715, Jackson, Miss. 39208. Applicant's representative: Morton E. Kiel, 5 World Trade Center, Suite 6193, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by manufacturers of surgical and medical supplies, and *materials, supplies and equipment* used in the conduct of such business (except in bulk), between East Greenwood, S.C., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract, or contracts, with Parke, Davis and Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 135518 (Sub-No. 4), (Amendment), filed October 20, 1975, published in the FEDERAL REGISTER issue of November 28, 1975, republished as amended this issue. Applicant: EVERETT TRUCKING, INC., 1718 Tease Road, Burlington, Wash. 98273. Applicant's representative: George R. LaBissoniere, 1100 Norton Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen and perishable food*, when moving in vehicles equipped with mechanical refrigeration, from points in California, within and north of the southern boundaries of Monterey, Kings, Tulare, and Inyo Counties, Calif. to points in Oregon and Washington.

NOTE.—The purpose of this republication is to clarify the territorial description in this proceeding. If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 135639 (Sub-No. 6), filed June 30, 1976. Applicant: QUEENSWAY, INC., 105 North Keyser Avenue, Old Forge, Pa. 18518. Applicant's representative: John W. Frame, 2207 Old Gettysburg Road, Box 626, Camp Hill, Pa. 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving Forty Fort, Pa., as an off-route point in connection with applicant's presently authorized regular route operation between Rochester, N.Y., and New York, N.Y.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Harrisburg, Pa.

No. MC 135874 (Sub-No. 57), filed July 13, 1976. Applicant: LTL PERISHABLES, INC., 550 E. 5th Street South, South St. Paul, Minn. 55075. Applicant's representative: Paul Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in mechanically refrigerated vehicles (except in bulk), from Kansas City, Mo., and Kansas City, Kans., to points in the upper peninsula of Michigan.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 135884 (Sub-No. 11), filed July 13, 1976. Applicant: STEVE CALDWELL, an Individual Route 1, Box 36, Adams, Oreg. 97810. Applicant's representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Ave., Portland, Oreg. 97210. NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Cincinnati or Columbus, Ohio or Washington, D.C.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240 (c) or 240(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

No. MC-F-12898. Authority sought for purchase by GORSKI BULK TRANSPORT, INC., a Canadian Corporation (non-carrier) Box 700, Harrow, Ontario, Canada, of the operating rights of (B) Thaddeus A. Gorski, an individual, dba Gorski Bulk Transport, also of Harrow, Ontario, Canada, and (BB) Continental Transport, Inc., a Michigan Corporation, 16290 East Eight Mile Road, Detroit, MI, 48205, and for acquisition by Thaddeus A. Gorski, of Harrow, Ontario, Canada, of control of such rights through the purchase. Applicants attorney: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, MI., 48040. OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights applications are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 80 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

No. MC 2202 (Sub-No. 517) filed July 26, 1976. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William O. Turney, Suite 1010, 7101 Wisconsin Ave., Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Elizabeth, Ga., and the Georgia-Tennessee State line, serving all intermediate points and the off-route points of Whitestone, and Marble Hill, Ga.: From Elizabeth over Georgia Highway 5 to the Georgia-Tennessee State line, and return over the same route.

NOTE.—The purpose of this filing is to convert vendor's Certificate of Registration to a Certificate of Public Convenience. Common control may be involved. This is a matter directly related to a Section 5(2) finance proceeding in MC–F–12906, published in the FEDERAL REGISTER issue of August 12, 1976. If a hearing is deemed necessary, the applicant requests it be held in consolidation with the finance proceeding in Atlanta, Ga.

No. MC 13123 (Sub-No. 85), filed July 21, 1976. Applicant: WILSON FREIGHT COMPANY, 3636 Follett Avenue, Cincinnati, Ohio 45223. Applicant's representative: Milton H. Bortz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives and those requiring special equipment), (1) Between Albany, N.Y. and Utica, N.Y.: From Albany, N.Y., over New York Highway 5, thence over New York Highway 5 to junction New York Highway 5S, thence over New York Highway 5S to Utica, serving the intermediate and off-route points of Gloversville, Johnstown, Rensselaer and Troy, N.Y., and (2) Between Albany, N.Y. and Schenectady, N.Y.: From Albany, N.Y. over New York Highway 32, thence over New York Highway 32 to junction New York Highway 7, thence over New York 7 to Schenectady, N.Y., serving the intermediate and off-route points of Gloversville, Johnstown, Rensselaer and Troy, N.Y.

NOTE.—The purpose of this application is to convert a Certificate of Registration to a Certification of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC–F–12739, published in the FEDERAL REGISTER issues of January 28, 1976 and February 25, 1976. If a hearing is deemed necessary, the applicant requests it be held at Cincinnati, Ohio.

No. MC 14215 (Sub-No. 8), filed July 13, 1976. Applicant: SMITH TRUCK SERVICE, INC., Stoney Hollow Blvd., P.O. Box 1329, Steubenville, Ohio 43952. Applicant's representative: James R. Stiverson, 1396 West Fifth Avenue, Columbus, Ohio 43212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys*, from points in Ohio, Pennsylvania and West Virginia, within 75 miles of Steubenville, Ohio, including Steubenville, to points in Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, Pennsylvania and West Virginia. The purpose of this filing is to eliminate the gateway of the plantsite of Ohio Ferro-Alloys Company, located on Ohio Highway 7 approximately 3 miles south of Powhatan, Ohio.

NOTE.—This is a matter direcly related to a Section 5(2) finance proceeding in MC–F–12892 published in the FEDERAL REGISTER issue of August 5, 1976. If a hearing is deemed necessary, the applicant requests it be held at either Columbus, Ohio or Washington, D.C.

No. MC 47171 (Sub-No. 90) filed July 29, 1976. Applicant: COOPER MOTOR LINES, INC., 301 Hammett Street, Greenville, S.C. 29608. Applicant's representative: Francis W. McInerny, 1000 Sixteenth Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and those which require the use of special equipment), from points in Connecticut west of the Connecticut River, to Charlotte, Rocky Mount, Fayetteville, Durham, Roanoke Rapids, Kinston, Marion, Morganton, Fuquay Springs, Rockingham, Snow Hill, Greenville, Smithfield, Rich Square, Warsaw, Clinton, Kannapolis, Gastonia, Greensboro, Lillington, Dunn, Salisbury and Concord, N.C.

V41162 AUG 19 76 UMI

NOTE.—The purpose of this filing is to eliminate the gateway at points in Westchester County, N.Y., within 25 miles of New York. This is a matter directly related to a Section 5(2) finance proceeding in MC–F–12750, published in the FEDERAL REGISTER issue of February 4, 1976. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 52022 (Sub-No. 10), filed July 19, 1976. Applicant: SANTINI BROS., INC. doing business as THE SEVEN BROTHERS AND THE SEVEN SANTINI BROTHERS, 1405 Jerome Avenue, Bronx, N.Y. 10452. Applicant's representative: Robert J. Gallagher, 55 Madison Avenue, Morristown, N.J. 07960. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points in Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, North Carolina, and the District of Columbia.

NOTE.—The purpose of this filing is to eliminate the gateways of Northern Indiana; Perry, Fla., and points within 10 miles thereof; points in Illinois, and points within 10 miles of Chicago, Ill. This matter is directly related to a Section 5(2) finance proceeding in MC–F–12797, published in the FEDERAL REGISTER issue of April 1, 1976. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 97275 (Sub-No. 28), filed June 29, 1976. Applicant: ESTES EXPRESS LINES, 1405 Gordon Avenue, Richmond, Va. 23224. Applicant's representative: Francis W. McInerny, 1000 Sixteenth Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives, and those requiring special equipment), between points in that part of North Carolina on and within a line beginning at the North Carolina-South Carolina State line, over U.S. Highway 601 to Monroe, N.C., thence over North Carolina Highway 200 to Locust, thence over North Carolina Highway 24 to Albermarle, thence along U.S. Highway 52 to the junction of North Carolina Highway 8, thence along North Carolina Highway 8 to junction North Carolina Highway 49, thence along North Carolina Highway 49 to Asheboro, thence along North Carolina Highway 42 to Sanford, thence along North Carolina Highway 87 to Fayetteville, and thence along U.S. Highway 301 (also along Interstate Highway 95), to Lumberton, thence along North Carolina Highway 4 to the North Carolina-South Carolina State line, on the one hand, and on the other, points in South Carolina.

NOTE.—The purpose of this filing is to request the tacking of applicant's existing irregular-route authority in South Carolina with portions of the irregular route authority in South Carolina sought to be acquired from Bestway, and to eliminate the gateways of Darlington and Florence Counties, S.C. This is a matter directly related to Section 5(2) finance proceeding in MC–F–12874, published in the FR issue of July 22, 1976. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Richmond, Va.

ABANDONMENT APPLICATIONS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abondonment.

A Certificate of Abandonment will be issued to the applicant carriers 30 days after this Federal Register publication unless the instructions set forth in the notices are followed:

[Docket No. AB–2 (Sub-No. 7)]

LOUISVILLE & NASHVILLE RAILROAD COMPANY ABANDONMENT BETWEEN HARTSVILLE JUNCTION, TENNESSEE, AND SCOTTSVILLE, KENTUCKY, IN TROUSDALE COUNTY, TENNESSEE, AND SUMNER AND ALLEN COUNTIES, KENTUCKY

NOTICE OF FINDING

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 1, 1976, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment of a branch line of railroad (Scottsville Branch) extending from milepost 168, near Hartsville Junction, Tenn., to milepost 194.1 near Scottsville, Ky., a distance of approximately 26.1 miles. A certificate of abandonment will be issued to the Louisville & Nashville Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–6 (Sub-No. 35)]

BURLINGTON NORTHERN, INC. ABANDONMENT BETWEEN BLANCHARD AND MAYVILLE IN TRAILL COUNTY, NORTH DAKOTA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 21, 1976, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the Burlington Northern, Inc. of its line of railroad extending from milepost 85.92 near Blanchard, North Dakota, and milepost 96.0 near Mayville, North Dakota, a distance of 10.08 miles, located in Traill County, North Dakota. A certificate of abandonment will be issued to the Burlington Northern, Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line, together with a reasonable return providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–52 (Sub-No. 2)]

ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY ABANDONMENT FROM WEST OF ARDMORE TO RINGLING, ALSO BETWEEN COBALT JUNCTION AND HEALDTON, IN CARTER AND JEFFERSON COUNTIES, OKLAHOMA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 14, 1976, a finding, which is administratively final, was made by the Administrative Law Judge, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment of a branch line of railroad extending from milepost 5 located about 5 miles west of Ardmore, Carter County, Okla., to milepost 29 plus 5,180 feet at Ringling, Jefferson County, Okla., a distance of approximately 25 miles, and from milepost 0 at Cobalt Junction, Carter County, Okla., to milepost 5 plus 5,147 feet at Healdton, Carter County, Okla., a distance of approximately 6 miles, and an overall total of approximately 31 miles in length, all in Oklahoma. A certificate of abandonment will be issued to the Atchison, Topeka and Sante Fe Railway Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(A) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commissions so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–118]

ALBANY PASSENGER TERMINAL COMPANY—ENTIRE LINE ABANDONMENT—IN THE CITY OF ALBANY, DOUGHERTY COUNTY, GEORGIA

[Finance Docket No. 28038]

CENTRAL OF GEORGIA RAILROAD COMPANY—ACQUIRE AND OPERATE—ALBANY PASSENGER TERMINAL COMPANY IN THE CITY OF ALBANY, DOUGHERTY, GEORGIA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 21, 1976, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the Albany Passenger Terminal Company of its entire line of railroad, consisting of eight passenger station tracks, having a combined length of approximately 2.6 miles located in Albany, Georgia. A certificate of abandonment will be issued to the Albany Passenger Terminal Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–7 (Sub-No. 19)]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY ABANDONMENT BETWEEN FAIRMONT AND WELCOME, IN MARTIN COUNTY, MINNESOTA

[Finance Docket No. 27754]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY — TRACKAGE RIGHTS—OVER A LINE OF THE CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY BETWEEN FAIRMONT AND WELCOME, MARTIN COUNTY, MINNESOTA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on April 30, 1976, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the Chicago, Milwaukee, St Paul and Pacific Railroad Company of its line of railroad extending from milepost 186, near Fair-

V 41 162 AUG 19 76 UMI

mont, in a westerly direction to milepost 190.27, near Welcome, a total distance of approximately 4.27 miles, all in Martin County, Minnesota. A certificate of abandonment will be issued to the Chicago, Milwaukee, St. Paul and Pacific Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-9 (Sub-No. 4)]

ST. LOUIS-SAN FRANCISCO RAILWAY COMPANY ABANDONMENT BETWEEN PARSENS AND DENNIS, IN LABETTE COUNTY, KANSAS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 23, 1976, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700, the present and future public convenience and necessity permit abandonment by the St. Louis-San Francisco Railway Company in Labette County, Kansas, between railroad milepost 172.5 at Parsons, Kansas, to railroad milepost 179.2 at Dennis, Kansas, a distance of 6.7 miles. A certificate of abandonment will be issued to the St. Louis-San Francisco Railway Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's Deviation Rules—Motor Carriers of Passengers (49 CFR § 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR § 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PASSENGERS

No. MC 108359 (Deviation No. 2), WESTERN NEW YORK MOTOR LINES, INC., Terminal Bldg., 45 Center St., Batavia, N.Y. 14020, filed July 22, 1976. Carrier's representative: Lawrence Lindeman, Suite 1032, Pennsylvania Bldg., Pennsylvania Ave. & 13th Street, NW., Washington, D.C. 20004. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From junction New York Highway 36 and Interstate Highway 390 northwest of Dansville, N.Y., over Interstate Highway 390 to junction New York Highway 21, south of Wayland, N.Y., thence over New York Highway 21 to Wayland, N.Y., (2) From Wayland, N.Y., over New York Highway 21 to junction Interstate Highway 390, thence over Interstate Highway 390 to junction New York Highway 415 near Cohocton, N.Y., thence over New York Highway 415 to Cohocton, N.Y., (3) From Cohocton, N.Y., over New York Highway 415 to junction Interstate Highway 390, thence over Interstate Highway 390 to New York Highway 15, thence over New York Highway 15 to Avoca, N.Y., (4) From Avoca, N.Y., over New York Highway 15 to junction Interstate Highway 390, thence over Interstate Highway 390 to junction New York Highway 17, thence over New York Highway 17 to junction New York Highway 415, thence over New York Highway 415 to Bath, N.Y., and (5) From Bath, N.Y., over New York Highway 415 to junction New York Highway 17, thence over New York Highway 17 to Painted Post, N.Y., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From junction New York Highway 36 and Interstate Highway 390 over New York Highway 36 to Dansville, N.Y., thence over New York Highway 63 to Wayland, N.Y., thence over New York Highways 15 and 415 to Painted Post, N.Y., and return over the same route.

No. MC 1515 (Deviation No. 708), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed August 2, 1976. Carrier proposed to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Binghamton, N.Y., over Interstate Highway 88 to Oneonta, N.Y., with the following access routes: (1) From Port Crane, N.Y., over unnumbered highway to junction Interstate Highway 88, (2) From Harpursville, N.Y., over unnumbered highway to junction Interstate Highway 88, (3) From Bainbridge, N.Y., over New York Highway 206 to junction Interstate Highway 88, (4) From Unadilla, N.Y., over unnumbered highway to junction Interstate Highway 88, and (5) From Unadilla, N.Y., over New York Highway 357 to junction Interstate Highway 88 and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Binghamton, N.Y., over New York Highway 7 to Oneonta, N.Y., and return over the same route.

No. MC 1515 (Deviation No. 709), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed August 3, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Interchange No. 68 of the Connecticut Turnpike near Old Saybrook, Conn., over the Connecticut Turnpike to Interchange No. 33 at the New Haven County, Conn. County line, with the following access route: From junction U.S. Highway 1 and unnumbered highway over unnumbered highway to junction Connecticut Highway 154, thence over Connecticut Highway 154 to junction Interchange No. 67 of the Connecticut Turnpike and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From junction U.S. Highway 1 and Connecticut Turnpike at Interchange No. 68 over U.S. Highway 1 to junction Connecticut Turnpike at Interchange No. 33 and return over the same route.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's Deviation Rules—Motor Carriers of Property (49 CFR § 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR § 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 42487 (Deviation No. 110), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, P.O. Box 5138, Chicago, Ill. 60680, filed July 29, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Pittsburgh, Pa., over Interstate Highway 376 to junction Interstate Highway 76, thence over Interstate Highway 76 to junction U.S. Highway 119 (Exit 8), thence over U.S. Highway 119 to junction Pennsylvania Highway 119, thence over Pennsylvania Highway 119 to Uniontown, Pa., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Pittsburgh, Pa., over U.S. Highway 19 to Washington, Pa., thence over U.S. Highway 40 to Uniontown, Pa., and return over the same route.

No. MC 48958 (Deviation No. 74), ILLINOIS-CALIFORNIA EXPRESS, INC., P.O. Box 16404, 510 E. 51st Ave., Denver, Colo. 80216, filed August 6, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Amarillo, Tex., over U.S. Highway 287 to junction U.S. Highway 54 (near Stratford, Tex.), thence over U.S. Highway 54 to junction Interstate Highway 35 (near Wichita, Kans.), thence over Interstate Highway 35 to Topeka, Kans., thence over U.S. Highway 75 to junction U.S. Highway 34 (near Union, Nebr.), thence over U.S. Highway 34 to junction Illinois Highway 116 (near Biggsville, Ill.), thence over Illinois Highway 116 to Peoria, Ill., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Amarillo, Tex., over U.S. Highway 66 to San Jon, N. Mex., thence over New Mexico Highway 39 to junction New Mexico Highway 58, thence over New Mexico Highway 58 to junction U.S. Highway 85, thence over U.S. Highway 85 to Denver, Colo., thence over U.S. Highway 6 to Sterling, Colo., thence over U.S. Highway 138 to junction U.S. Highway 30, thence over U.S. Highway 30 to Grand Island, Nebr., thence over U.S. Highway 281 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction Illinois Highway 116, thence over Illinois Highway 116 to Peoria, Ill., and return over the same route.

No. MC 85850 (Sub-No. 7) (Deviation No. 2), NEYLON FREIGHT LINES, INC., % Jones Truck Lines, Inc., 610 E. Emma Ave., Springdale, Ark. 72764, filed August 6, 1976. Carrier's representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Ave., Washington, D.C. 20014. Carrier proposes to operate as a *common carrier* by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Mo., over Interstate Highway 29 to Omaha, Nebr., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Kansas City, Mo., over U.S. Highway 73 to Hiawatha, Kans., thence over U.S. Highway 36 to junction Kansas Highway 15E, thence east over U.S. Highway 36 to Marysville, Kans., thence over U.S. Highway 77 to Lincoln, Nebr., thence over U.S. Highway 6 to Omaha, Nebr., and return over the same routes.

MOTOR CARRIER INTRASTATE APPLICATIONS

NOTICE

The following application for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR § 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A 56627 filed July 20, 1976. Applicant: TERESI TRUCKING, INC., P.O. Box 819, Lodi, Calif. 95240. Applicant's representative: Eldon M. Johnson, The Hartford Building, 650 California Street, Suite 2808, San Francisco, Calif. 94108. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *Forest products, lumber, lumber products, wood fiberboard, and wood particleboard*, between the following points, serving all intermediate points on the said routes and all off-route points within thirty (30) miles thereof: (1) Red Bluff and Chester on State Highway 36. (2) Red Bluff and the San Diego Territory (as described in Note 1 hereto) on Interstate Highway 5. (3) Red Bluff and Wheeler Ridge on State Highway 99. (4) Chester and East Nicolaus on State Highway 89 and State Highway 70. (5) The San Francisco Territory (as described in Note 2 hereto) and Auburn on Interstate Highway 80. (6) Sacramento and Plexerville on U.S. Highway 50. (7) The San Francisco Territory (as described in Note 2 hereto) and Stockton on U.S. Highway 80 and State Highway 4. (8) The San Francisco Territory (as described in Note 2 hereto) and Stockton on Interstate Highway 580, Interstate Highway 205 and Interstate Highway 5, (9) The Los Angeles Basin Territory (as described in Note 3 hereto) and the San Diego Territory (as described in Note 1 hereto on Interstate Highway 15; and (10) All points in the following territories: (a) The San Diego Territory (as described in Note 1 hereto); (b) The

V 41 162 AUG 19 76 UMI

San Francisco Territory (as described in Note 2 hereto); and (c) The Los Angeles Basin Territory (as described in Note 3 hereto). In performing the service herein described, the routes and points listed above may be joined and combined, and use may be made of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

NOTE 1.—The San Diego Territory: Following an imaginary line starting at a point approximately four miles north of La Jolla on the Pacific Coast shoreline running east to Miramar on U.S. Highway 395; thence following an imaginary line running southeasterly to Lakeside on State Highway 67; thence southerly on County Road S17 (San Diego County) and its prolongation to State Highway 94; easterly on State Highway 94 to Jamu); thence due south following an imaginary line to the California-Mexico Boundary Line; thence westerly along the boundary line to the Pacific Ocean and north along the shoreline to point of beginning.

NOTE 2.—The San Francisco Territory: Includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said county line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific Company right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road.

Northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capital Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Boulevard) via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard and MacArthur Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard to Warren Boulevard (State Highway 13); northerly along Warren Boulevard to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the campus boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

NOTE 3.—The Los Angeles Basin Territory: Beginning at the point the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway 118, approximately two miles west of Chatsworth; easterly along State Highway 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa; southerly along said county road to and including the unincorporated community of Yucaipa; westerly along Redlands Boulevard to U.S. Highway 99; northwesterly along U.S. Highway 99 to the corporate boundary of the City of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue;

Southerly along Iowa Avenue to U.S. Highway 60; southwesterly along U.S. Highway 60 and U.S. Highway 395 to the county road approximately one mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary to San Jacinto Avenue; southerly along San Jacinto Avenue to State Highway 74; westerly along State Highway 74 to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to the right-of-way of The Atchison, Topeka & Santa Fe Railway Company; southwesterly along said right-of-way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the county road intersecting U.S. Highway 395, 2.1 miles north of the unincorporated community of Temecula, southerly along said county road to U.S. Highway 395; southeasterly along U.S. Highway 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shore line of the Pacific Ocean to points of beginning. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

THURSDAY, AUGUST 19, 1976

PART II:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

GRANTS FOR HOME HEALTH SERVICES

Interim Regulations

V 41 162 AUG 19 76 UMI

Title 42—Public Health

CHAPTER 1—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—GRANTS

PART 51e—GRANTS FOR HOME HEALTH SERVICES

Interim Regulations

The Assistant Secretary for Health of the Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, hereby adds a new part 51e, entitled "Grants for Home Health Services," to Title 42, Code of Federal Regulations. For the reasons set out below, the Secretary has determined that public participation in rulemaking prior to issuance of these regulations and delay in their effective date would be impractical and contrary to the public interest, and, accordingly, that good cause exists for making these regulations effective August 19, 1976.

Title VI of Public Law 94–63, which became effective on July 29, 1975, created a new authority for making grants to meet the initial costs of establishing home health agencies, and expanding the services available through existing agencies, and to meet the costs of compensating professional and paraprofessional personnel during the initial operation of such agencies or the expansion of services of existing home health agencies. The Secretary has determined that he could not properly make grants under this new authority in the absence of regulations. Issuance of the regulations set forth below is necessary in order to allow grants to be made prior to the expiration of the fiscal year 1976 funds appropriated for that purpose.

The regulations set forth below establish requirements for all grants under Section 602(a) of Public Law 94–63. Attention is called to the following features of the new regulations:

1. Section 51e.106(a)(7) describes the schedule of fees and discounts which an applicant must implement. This section provides that full discounts are to be given to individuals with annual incomes at or below the "CSA Income Poverty Guidelines" and that no discounts are to be given to individuals with incomes greater than twice those set forth in the Guidelines. In between such limits, projects are to establish a schedule of discounts based on ability to pay, so that charges will not be a barrier to service. The provision for full discounts to individuals with incomes at or below the poverty guidelines was adopted because it was felt that, in general, such individuals could be presumed to be unable to pay for health care. The provision for no discount to individuals with annual incomes above twice the poverty guidelines was adopted because it is administratively practical, reflects current practice in a number of ambulatory health care projects funded under the Public Health Service Act, and is considered to be reasonable in light of the goals of the program. Specifically, the ceiling on discounts of 200 percent of poverty guidelines provides considerable leeway above the poverty guidelines for utilizing discounts and is higher than the average income of lower budget families, as determined by the Bureau of Labor Statistics of the Department of Labor.

2. Sections 51e.106(b)(3) and 51e.106(c)(2)(ii) require that an applicant receive certification from the appropriate State agency before providing home health services with grant funds. This requirement reflects an administrative judgment that grant funds should not be used for the provision of services unless there is some assurance that the services provided will be of reasonably high quality. Requiring State agency certification further assures that the services provided will be in compliance with the requirements of the Social Security Act definition of home health services, 42 U.S.C. 1395x(m). In addition, use of State agency certification as a minimum standard is an administratively practical rule which may be satisfied on the basis of objective criteria.

3. Section 51e.107(a)(1) implements the statutory requirement that the Secretary take into consideration the relative need of the States in making grants under section 602(a). Relative need for home health services will be determined by comparing the proportionate number of people in preference areas within each State who are elderly, medically indigent, or both. Grant funds will then be allocated to each region of the Department of Health, Education, and Welfare based on the relative need of the States within each region, except that each region will receive a minimum of $100,000 so that any grants made to projects in States in less needy regions will be of sufficient size to afford viability. If the Secretary determines that an insufficient number of approvable applications has been received in a region to utilize the grant funds allocated to it, the excess grant funds may be reallocated to other regions.

4. Section 51e.107(a)(2) implements the requirement of Section 602(a)(2) of Public Law 94–63 that preference be given to areas within a State in which a high percentage of the population to be served is elderly, medically indigent, or both.

5. Section 51e.108 describes alternative methods for determining whether a particular area should be given preference under section 602(a)(2). In order to determine funding preferences, it was necessary to determine what would constitute a "high" percentage of each of these population characteristics. In establishing such percentages it was important to base a procedure on the most valid nationally available data. Therefore, the 1970 census data was used because it provides a data base, on a county level, for individuals aged 65 years old or older, individuals whose annual incomes are below the poverty level, and individuals aged 65 years old or older whose annual incomes are below the poverty level. It is believed that more current data on these three specific population characteristics, if available, would indicate that the relative relationship among counties would not have significantly changed.

Thus, for the purpose of this part, "elderly" is defined as an individual aged 65 years old or older, and "medically indigent" is defined as an individual whose annual income is below the poverty level. It is recognized that "medical indigence" and "poverty" are not synonomous. The poverty level is used merely as a reasonable proxy for "medical indigence", and these data were used only as part of the procedure for determining preference areas and relative need in accordance with section 602(a)(2). Applicants may use other more current data, appropriate extrapolations from 1970 data, or other reasonable means to determine whether their proposed catchment area is entitled to preference.

The method of identifying an area as a preference or a nonpreference area was established in the following manner. Three population characteristics were used: (1) percentage of individuals aged 65 years old or older; (2) percentage of individuals with annual incomes below the poverty level; and (3) percentage of individuals aged 65 years old or older who are living in poverty. Every county in the United States was ranked by its percentages of each population characteristic, and the low boundary of the top quartile was selected as the cutoff point. The resulting percentage of each characteristic was designated the "minimum percentage mark" a county or area must reach in order to be designated a preference area. A county or area may be designated a preference area by meeting the minimum percentage mark for one or more of the three population characteristics.

It should be noted that, under section 51e.108(b)(2), the figures to be used for computing the percentages for an applicant's catchment area must exclude those individuals who are inmates of institutions and those in military barracks and college dormitories. Institutionalized persons were not included because individuals in particular institutions generally tend not to be from that particular area and generally would not reside there except for such institutionalization. Therefore, a county or other area with a large institutional population could receive a disproportionate weighting. However, such institutionalized persons can be counted if it can be demonstrated that such individuals would otherwise reside in such area.

Information concerning applications for grants under Section 602(a) of Public Law 94–63 may be obtained by writing the Regional Administrators of the Regional Offices of the Department of Health, Education, and Welfare at the addresses set forth at 45 CFR 5.31(b).

Interested persons are invited to submit written comments, suggestions, or objections concerning the new Part 51e to the Director, Division of Policy Development, Bureau of Community Health Services, Health Services Administration, Room 6–17, 5600 Fishers Lane, Rockville, Maryland 20852, on or before October 18, 1976. All comments received in timely response will be considered, and will be available for public inspection at the above address during regular business hours. Following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations will be published within 60 days following the close of the comment period. The regulations, as set forth below, will be applicable and effective on August 19, 1976. Revisions thereto, although applicable to grants awarded under the regulations promulgated herein, will be applicable only with respect to activities conducted under those grants on and after the date the revisions become effective.

A new Part 51e of Title 42, Code of Federal Regulations set forth below, is adopted effective on August 19, 1976.

Dated: July 15, 1976.

THEODORE COOPER,
Assistant Secretary for Health.

Approved: August 11, 1976.

MARJORIE LYNCH,
Acting Secretary.

1. A new 42 CFR Part 51e is adopted, to read as follows:

Sec.
51e.101 Applicability.
51e.102 Definitions.
51e.103 Eligibility.
51e.104 Applications.
51e.105 Fiscal management.
51e.106 Project elements.
51e.107 Grant evaluation and award.
51e.108 Determination of preference.
51e.109 Use of project funds.
51e.110 Grant payments.
51e.111 Civil rights.
51e.112 Confidentiality of information.
51e.113 Publications and copyright.
51e.114 Grantee accountability.
51e.115 Performance report.
51e.116 Applicability of 45 CFR Part 74.
51e.117 Additional conditions.

AUTHORITY: Sec. 215, Public Health Service Act (42 U.S.C. 216), sec. 602(a), Pub. L. 94–63 (42 U.S.C. 1395x note).

§ 51e.101 Applicability.

The regulations of this part are applicable to grants authorized by Section 602(a) of Public Law 94–63 (42 U.S.C. 1395x note, 89 Stat. 304) to meet the initial costs of establishing and operating home health agencies and expanding the services available through existing home health agencies, and to meet the costs of compensating professional and paraprofessional personnel during such initial establishment and operation or expansion.

§ 51e.102 Definitions.

As used in this subpart:

(a) "Act" means Public Law 94–63 (89 Stat. 304).

(b) "Applicant" means a public or nonprofit private entity which applies for a grant.

(c) "Catchment area" means the area served by a home health agency.

(d) "Conditions of participation" means those conditions of participation for a home health agency for reimbursement under Title XVIII of the Social Security Act which are set forth in Subpart L of 20 CFR Part 405.

(e) "Home health agency" means an entity which has a provider agreement with the Secretary pursuant to 20 CFR Part 405, Subpart F.

(f) "Home health services" are those items and services listed in Section 1861(m) of the Social Security Act (42 U.S.C. 1395x(m)) provided by a home health agency.

(g) "Home health organization" means an agency or organization which intends to become a home health agency but which does not, at the time of application for a grant under this part, have a provider agreement with the Secretary.

(h) "Nonprofit" as applied to a private entity means an entity exempt from Federal income taxation under Section 501 of the Internal Revenue Code of 1954.

(i) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(j) "State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(k) "State agency" means the agency of a State which has an agreement with the Secretary under Section 1864(a) of the Social Security Act to certify agencies as home health agencies as defined in section 1861(o) of that Act.

§ 51e.103 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private entity is eligible to apply for a grant under this subpart.

(b) *Eligible projects.* Grants to eligible applicants may be made by the Secretary for projects to meet the initial costs, including costs of compensating professional and paraprofessional personnel, of:

(1) Establishing and operating a home health agency which will provide home health services; or

(2) Expanding the home health services available through a home health agency by:

(i) Adding new home health services not previously provided by such agency; and/or

(ii) Enlarging the catchment area of the agency; and/or

(iii) Increasing the number of persons served within the present catchment area of the agency.

§ 51e.104 Applications.

(a) *All applications.* An approvable application for a grant under this subpart shall be submitted to the Secretary at such time and in such form and manner as the Secretary may prescribe and shall contain the following:

(1) A full and adequate description of the intended project and of the manner in which the applicant intends to conduct the project and carry out the requirements of this subpart;

(2) A budget and justification of the amount of grant funds requested;

(3) A description of the applicant's organizational structure, ongoing activities, and any home health and/or other health services currently being delivered, including a statement indicating any accreditation or certification for such services;

(4) The following information with respect to the current and/or proposed catchment area of the applicant:

(i) The precise boundaries of the catchment area, and the average travel time from the applicant entity or its satellites to the furthermost point within the catchment area;

(ii) Demographic data relating to the catchment area, including the total population of the area, the number and percentage of persons aged 65 years old and older, and number and percentage of recipients under Title XIX of the Social Security Act; and

(iii) A description of the health care resources of the catchment area in ratio to the population, and the accessibility in terms of size and geographic factors, including the number of:

(A) Home health agencies, the range of their services, and the number of persons presently served by such agencies,

(B) Hospitals (size, location, and type),

(C) Skilled nursing and intermediate care facilities,

(D) Outpatient rehabilitation facilities,

(E) Physicians (both doctors of medicine and doctors of osteopathy), by specialty,

(F) Homemaker service agencies and number of persons presently served thereby, and

(G) Day care centers for the elderly;

(5) A report of utilization patterns of health care resources in the catchment area (or proposed catchment area, if applicable). Such report shall include:

(i) Bed occupancy rates and average length of stays in hospitals, skilled nursing and intermediate care facilities,

(ii) Hospital bed days used per thousand population,

(iii) Hospital bed days used per thousand population aged 65 years old and older, and

(iv) Number of persons served (including the average number of visits per patient) by existing home health agencies in the area (for each of the 3 calendar years preceding the calendar year in which the application is submitted or such lesser period as such home health agencies have been in operation);

(6) Based on the accumulated data required by paragraphs (a)(4) and (5) of this section, a projection of the number of persons who will use the home health services to be provided by the applicant, including quarterly projections of users who are aged 65 years old and older, and users who are medically indigent, as determined under § 51e.108;

(7) Evidence (such as copies of letters or minutes of meetings) that health care providers, local or county medical societies, and other community organizations in the proposed catchment area (such as senior citizens organizations) will actively participate in the promotion

V 41 162 AUG 19 76 UMI

and utilization of the home health services to be offered by the applicant;

(8) A description of the referral mechanisms which are in place, or are planned, for referral of patients to the applicant from hospitals, skilled nursing and intermediate care facilities, and other appropriate institutional or ambulatory health care providers in its existing and/or proposed catchment area, as applicable;

(9) A description of the applicant's plan to market the home health services to be offered, including such information as plans to acquaint physicians, hospital and skilled nursing home administrators, other health care providers, and potential users with the services to be offered, and copies of any informational or promotional material in use or proposed to be used;

(10) A description of the proposed staffing pattern, based upon the projection of the number of users developed under subparagraph (6) of this paragraph, which the applicant will employ to carry out the project, and a time-phased plan for hiring staff to meet the requirements of this subpart;

(11) A plan providing for the continuation of home health services after financial assistance under this subpart is no longer available;

(12) A statement indicating how and the extent to which the project plans to meet each of the applicable requirements in § 51e.106, including a description of the methodology which the applicant will use to compile the data required under § 51e.106(a)(6);

(13) Evidence that the requirements of Part I of Office of Management and Budget Circular No. A-95 have been satisfied; and

(14) The signature of the individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the Act, the applicable regulations of this part, and any additional conditions of the grant award.

(b) *Applications submitted by home health organizations.* In addition to the requirements of paragraph (a) of this section, an application for a grant for a project described in § 51e.103(b)(1) shall contain the following:

(1) A copy of the S.S.A. Form #1515 (which may be obtained from the Bureau of Health Insurance, Social Security Administration) which the applicant has submitted to the appropriate State agency as evidence of its intent to become certified, and

(2) A detailed plan indicating how the applicant entity plans to meet the conditions of participation necessary to obtain certification by such State agency in accordance with 20 CFR Part 405, Subpart S.

(c) *Applications submitted by home health agencies.* In addition to the requirements of paragraph (a) of this section, an application for a grant for a project described in § 51e.103(b)(2) shall contain the following:

(1) A description of the home health services currently being provided by the applicant agency and the manner in which they are provided;

(2) The number of the current provider agreement between the agency and the Secretary;

(3) The number of referrals to the agency from each of the types of referral sources set forth in paragraph (a)(8) of this section for the three calendar years preceding the calendar year in which the application is submitted (or such lesser period as the agency has been in operation);

(4) In the case of a home health agency which plans to expand its array of services or to open a subunit,

(i) A copy of the S.S.A. Form #1515 (which may be obtained from the Bureau of Health Insurance) which it has submitted to the applicable State agency as evidence of its intent to become certified; and

(ii) A detailed plan indicating how the applicant agency plans to meet the conditions of participation necessary to obtain certification by the State agency for the new service(s) and/or subunit; and

(5) In the case of a home health agency which plans to enlarge its catchment area or open a new branch office, the information requested in paragraph (a)(4) of this section for both its current catchment area and its proposed new catchment area or new branch office.

§ 51e.105 Fiscal management.

The Health Services Funding Regulations, 42 CFR Part 50, Subpart A, apply to all grants under this subpart, consistent with the provisions of § 51e.106(a)(7).

§ 51e.106 Project elements.

(a) *All projects.* A project funded under this subpart must:

(1) Provide its services directly and make such services available to all residents of its catchment area;

(2) Recruit personnel necessary to meet the requirements of this subpart in accordance with the plan submitted pursuant to § 51e.104(a)(10);

(3) Assure that staff professionals and paraprofessionals meet all applicable licensure, certification, or other legal requirements for the practice of their professions;

(4) Establish and maintain referral procedures (such as forms designed for referrals, or the designation of a hospital staff member to coordinate and follow-up referrals) to handle patients referred to the project from hospitals, skilled nursing and intermediate care facilities, and other appropriate institutional and ambulatory health care providers;

(5) Carry out the marketing plan provided pursuant to § 51e.104(a)(9) of this subpart and approved by the Secretary in the Notice of Grant Award;

(6) Establish basic statistical data, cost accounting, management information, and reporting systems which shall enable the project to provide such statistics and other information as the Secretary may reasonably require relating to its costs of operation, patterns of utilization of services, and the availability, accessibility and acceptability of its services, and to make such reports to the Secretary in a timely manner with such frequency as the Secretary may reasonably require;

(7) Have prepared, and make every reasonable effort to obtain payment for services in accordance with, a schedule of fees and payments for the provision of its services designed to cover its reasonable costs of operation and a corresponding schedule of discounts adjusted on the basis of patients' ability to pay. *Provided*, that such schedule of discounts shall provide for a full discount to individuals and families with annual incomes at or below those set forth in the most recent "CSA Income Poverty Guidelines" (45 CFR § 1060.2) and for no discount to individuals and families with annual incomes greater than twice those set forth in such Guidelines; and

(8) Carry out the plan provided pursuant to § 51e.104(a)(11) and approved by the Secretary in the Notice of Grant Award to secure sufficient funding sources to continue providing home health services after Federal financial assistance under this subpart is no longer available.

(b) *Home health organizations.* In addition to the requirements of paragraph (a) of this section, a project described in § 51e.103(b)(1) must:

(1) Implement the plan provided pursuant to § 51e.104(b)(2);

(2) Obtain certification from the State agency in accordance with 20 CFR Part 405, Subpart S, within 60 days from the date of grant award, unless the applicant demonstrates to the Secretary's satisfaction that failure to obtain such certification within such time period is due to circumstances beyond the applicant's control, in which case the project will obtain certification within the revised time limit imposed by the Secretary;

(3) Be certified by the State agency before utilizing grant funds under this subpart for providing any home health services; and

(4) Provide skilled nursing care and such other home health services as are specified in the Notice of Grant Award following certification by the State agency to the residents of its catchment area.

(c) *Home health agencies.*

(1) In addition to the requirements of paragraph (a) of this section, a project described in § 51e.103(b)(2) must do the following, as applicable:

(i) In the case of a project as described in § 51e.103(b)(2)(i), make available one or more home health services, not previously provided by the agency, for which there is a need in the catchment area, as determined by the Secretary and as specified in the Notice of Grant Award.

(ii) In the case of a project described in § 51e.103(b)(2)(ii), expand its catchment area, and provide home health services therein, sufficient to increase the number of persons served by the agency in the calendar year of the grant by a percentage equal to the ratio of the amount of the grant under this part to the agency's total operating budget for the calendar year preceding the grant; *Provided, however*, that where the Secretary determines the project will expand its catchment area so as to serve a substantially less densely populated area, he may approve a lower percentage.

(iii) In the case of a project described in § 51e.103(b)(2)(iii), provide services to an additional number of residents of the agency's catchment area sufficient to increase the number of persons served by the agency in the calendar year of the grant by a percentage equal to the ratio of the amount of the grant under this part to the agency's total operating budget for the calendar year preceding the grant.

(2) In the case of an agency which plans to expand its services in such a way as to require a new or amended provider agreement, the project must:

(i) Obtain State agency certification pursuant to 20 CFR Part 405, Subpart S, within 30 days of the grant award, unless the applicant can demonstrate to the Secretary's satisfaction that failure to obtain such certification within such time period was due to circumstances beyond the applicant's control, in which case the project will obtain certification within a revised time limit imposed by the Secretary; and

(ii) Be certified by the State agency before providing any of the expanded services.

§ 51e.107 Grant evaluation and award.

(a) Within the limits of funds available for such purposes, the Secretary will evaluate applications submitted under this part and will award grants to applicants which submit approvable applications for projects to provide home health services in areas where such services are not otherwise available, as determined under subparagraph (4) of this paragraph, in accordance with the following procedures:

(1) The funds appropriated to carry out section 602(a) of the Act will be allocated among the regions of the Department of Health, Education, and Welfare, as set forth in § 1.30(A), 35 Fed. Reg. 14334 (1970), on the basis of the relative needs of the State within each such region. Such relative need shall be determined by comparing the number of individuals within each State who are elderly, medically indigent, or both, as determined for purposes of § 51e.108 of this part in areas determined in accordance with § 51e.108 to have a high percentage of such individuals; *Provided*, that a minimum of $100,000 will be allocated to each region for the States within such region; and *Provided further*, that where the Secretary determines that there will not be enough approvable applications within a region to utilize the grant funds allocated to it, he may reallocate such excess funds to regions which he determines will have approvable applications which would otherwise not be funded.

(2) In awarding grants under this subpart, the Secretary will give preference to approvable applications for projects which will serve catchment areas in which a high percentage of the population is composed of individuals who are elderly, medically indigent, or both, as determined under § 51e.108 of this part.

(3) Where the funds allocated to a region are insufficient to fund all approvable applications for projects which will serve catchment areas in which a high percentage of the population is composed of individuals who are elderly, medically indigent, or both, or, in considering approvable applications for projects which will not serve catchment areas in which a high percentage of the population is composed of individuals who are elderly, medically indigent, or both, the Secretary may award grants under this subpart to:

(i) The projected number of users who are elderly and/or medically indigent,

(ii) The extent to which the project will meet the requirements set forth in § 51e.105 and § 51e.106.

(iii) The degree to which the applicant intends to integrate services (such as combining services with other public or nonprofit private agencies receiving other grants for the delivery of health services), and

(iv) The extent to which community resources will be utilized in the project, and the extent to which such community resources will continue to support home health services after funds under this subpart are no longer available.

(4) For purposes of this section, home health services will be considered to be not otherwise available in a catchment area where:

(i) There are no home health agencies in the area; or

(ii) There is a home health agency providing the services but the services are unavailable to a significant portion of the population; or,

(iii) There is a home health agency in the area, but it does not provide at least one of the home health services which the applicant proposes to provide.

(b) The amount of any award under this subpart will be determined by the Secretary on the basis of his estimate of the sum necessary for a designated portion of direct project costs; *Provided, however*, that no grant shall be made for an amount in excess of the total cost as found necessary by the Secretary for the carrying out of the project.

(1) In determining the percentage of project costs to be borne by the grantee, the Secretary will take into consideration the following factors:

(i) The ability of the grantee to finance its share of project costs from non-Federal sources; and

(ii) The need of the area served by the project for the services to be provided.

(2) At any time after approval of an application under this subpart, the Secretary may retroactively agree to a lower percentage of project costs to be borne by the grantee than that determined pursuant to paragraph (b)(1) of this section where he finds that changed circumstances justify a smaller contribution.

(3) In determining the grantee's share of project costs, if any, costs borne by Federal grant funds or costs used to match other Federal grants may not be included except as otherwise provided by law or regulations.

• (c) Grants under this part may be made for a period up to 17 months if necessary to provide sufficient time for the applicant to achieve an operational level which will support the continued provision of home health services in the area.

(d) All grant awards shall be in writing, and shall set forth the amount of funds granted and the period for which support is recommended.

(e) Neither the approval of any project nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, or other award with respect to any approved project or portion thereof.

§ 51e.108 Determination of preference.

(a) For purposes of § 51e.107 of this part, a catchment area will be considered to have a high percentage of individuals who are elderly, medically indigent, or both if any one of the following is present.

(1) More than 13.7 percent of its population consists of noninstitutionalized individuals who are 65 years old or older;

(2) More than 26.9 percent of its population consists of persons with annual family incomes below the poverty level, as defined by the Social Security Administration in 1964, modified by a Federal Interagency Committee in 1969, and used in the 1970 United States Census; or

(3) More than 5.6 percent of its population consists of individuals who are both 65 years old or older and whose annual family income is below the poverty level, as specified in subparagraph (2) above.

(b)(1) An applicant may demonstrate that its catchment area has a high percentage of individuals who are elderly, medically indigent, or both by using data from:

(i) The United States Census Bureau, United States Census of the Population: 1970, General Social and Economic Characteristics, PC(1)-C, Tables 119 and 120, or 124; or

(ii) The United States Census Bureau, United States Census of the Population: 1970, General Population Characteristics, PC(1)-B, Table 37; or

(iii) More current data appropriate to the proposed catchment area, if such data is shown, to the Secretary's satisfaction, to be more appropriate and valid for the purposes of such calculation. Data such as that compiled most recently by the Administration on Aging, the most current data on Medicare enrollees or recipients of other categorical assistance programs, as appropriate (e.g. Old Age Assistance), may be submitted and used to update the 1970 data.

(2) In computing the percentage of the population of its catchment area which is elderly, medically indigent, or both, an applicant must exclude individuals who are inmates of institutions, and those in

V 41 162 AUG 19 76 UMI

military barracks and college dormitories as set forth in the tables referred to in subparagraph (b) (1) above, unless it can be reasonably demonstrated that a portion or all of the individuals in such institutions would otherwise reside in the catchment area.

§ 51e.109 Use of project funds.

(a) Any funds granted pursuant to this subpart, as well as other funds to be used in performance of the approved project, may be expended solely for carrying out the approved project in accordance with section 602(a) of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed in Subpart Q of 45 CFR Part 74.

(b) Project funds awarded under this part to establish, expand, or operate a home health agency may be used for, but need not be limited to, the following:

(1) The costs of obtaining technical assistance to develop the project, to improve its management capability, to establish an adequate data collection system, and to develop methodology for evaluation; and

(2) The cost of delivering home health services to individuals and families with annual incomes lower than those set forth in the most recent "CSA Income Poverty Guidelines" (45 CFR 1060.2) established by the Community Services Administration, and the uncompensated portion of the cost of services provided to individuals and families with annual incomes greater than, but not over twice, those set forth in such Guidelines.

(c) Grant funds shall not be used to pay the salaries of project staff members whose qualifications do not meet applicable requirements under the conditions of participation.

(d) Prior approval by the Secretary of revisions of the budget and project plan is required whenever there is to be a significant change in the scope or nature of project activities.

§ 51e.110 Grant payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred in the performance of the project, to the extent he determines such payments necessary to promote project initiation and advancement of the approved project.

§ 51e.111 Civil rights.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d *et seq.*) and in particular section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such title VI, which applies to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). In addition, no person shall be denied employment in or by such program or activity on the grounds of age, sex, creed, or marital status.

(b) Attention is called to the requirements of Section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

§ 51e.112 Confidentiality of information.

All information as to personal facts and circumstances obtained by the project staff in connection with the provision of services under the project shall be treated as privileged communication, shall be held confidential, and shall not be divulged without the individual's consent except as may be otherwise required by applicable law (including this part) or necessary to provide services to the individual. Such information may be disclosed in summary, statistical, or other form which does not identify particular individuals.

§ 51e.113 Publications and copyright.

Except as may be provided under the terms and conditions of the award, the Department of Health, Education, and Welfare copyright requirement, set forth in 45 CFR 74.140, shall apply to any book or otherwise copyrightable material developed or resulting from the activity supported by a grant under this subpart.

§ 51e.114 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence, satisfactory to the Secretary, for expenditures for direct and indirect costs meeting the requirements of this part: *Provided, however,* that when the amount awarded for indirect costs was based on a predetermined fixed-percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct cost incurred.

(b) *Copyright royalties.* Copyright royalties shall be accounted for as provided in 45 CFR 74.44.

(c) *Grant closeout.*

(1) *Date of final accounting.* A grantee shall render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section; and

(ii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 51e.115 Performance report.

A grantee shall submit a performance report meeting the requirements of 45 CFR 74.82(c), and a financial status report at the end of the assigned project period.

§ 51e.116 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
- A General.
- B Cash depositories.
- C Bonding and insurance.
- D Retention and custodial requirements for records.
- F Grant-related income.
- G Matching and cost sharing.
- K Grant payment requirements.
- L Budget revision procedures.
- M Grant closeout, suspension, and termination.
- O Property.
- Q Cost principles.

§ 51e.117 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of the award when, in his judgment, such conditions are necessary to assure or protect advancement of the approved project, the interest of public health, or the conservation of grant funds.

PART III:

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EXPORT MONITORING REPORT FOR FERTILIZERS

March, 1976

V 41 162 AUG 19 76 UMI

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EXPORT MONITORING REPORT FOR FERTILIZERS

March 1976

U.S. exports of phosphatic fertilizers for the first quarter of 1976 rose to 506,000 content tons as compared with 459,000 content tons in the same quarter of last year. The rise in exports during the quarter reflects the increased level of exports during March 1976 to 187,623 content tons compared with exports of 124,511 content tons in March 1975. However, exports of nitrogenous fertilizers of 298,543 content tons during the first quarter 1976, were nearly 10 percent below their January-March 1975 level. For the month of March 1976, exports were 101,950 content tons versus 105,637 content tons in March 1975.

According to data collected by the Office of Export Administration, contracts for export of phosphatic fertilizers during the second quarter 1976 totaled nearly 205,000 content tons at the end of March. While this figure is less than half the 438,000 content tons actually exported during the second quarter of 1975, the high incidence of spot export sales of phosphatic fertilizers evidenced in the first quarter 1976 is expected to continue during the second quarter, so that actual exports of phosphatic fertilizers in the first six months of 1976 will probably equal or exceed the total volume exported in the first half of 1975.

Contracts for the export of nitrogenous fertilizers during the second quarter of 1976, as reported at the end of March, totaled 115,213 content tons, as compared with actual exports of 272,000 content tons during the same period last year. Since spot sales of nitrogenous fertilizers are not as common as in the case of phosphatic fertilizers, these anticipated actual second quarter export figures will probably not increase substantially from this anticipated level, and actual exports of nitrogenous fertilizers during the first half of 1976 are expected to fall short of the 602,000 content tons exported during the first half of 1975. Imports of nitrogenous fertilizers are running about 8 percent higher in the first quarter of 1975, having reached 324,257 content tons in the first quarter of 1976. The U.S. continues to be a net importer of nitrogenous fertilizers for the third consecutive year.

Ammonium phosphates, a compound material containing both nitrogen and phosphates, show the highest volume of exports of any of the individual fertilizer materials. Exports of this compound material represent about 57 percent of the phosphate fertilizers exported and about 38 percent of the nitrogenous fertilizers exported from the U.S., on a content ton basis.

Bureau of the Census data on fertilizer production, indicates that production of anhydrous ammonia in the month of February was 3.6 percent higher than in the same month of 1975, while phosphoric acid production was up about 2.7 percent.

Inventories of fertilizer materials in 1976 continue at levels considerably above those for the same period a year ago. A major factor contributing to this higher level of inventories has been the reduced volume of shipments of fertilizer materials to the farmer, as reported to the U.S. Department of Agriculture through March of this year.

Producer prices of fertilizer materials are being heavily discounted. Discounts of 20 to 25 percent below the list prices, as quoted in the trade press, are not uncommon.

Tables on exports, imports, production, inventories, and domestic[1] and export prices follow.

DONALD E. JOHNSON,
Deputy Assistant Secretary for Domestic and International Business.

[1] World supply and demand data are not available on a monthly basis. The most recent data on world supply and demand will be included in the next Semi-Annual Report to the Congress on operations under the Export Administration Act.

1/ The data in this table with respect to "Unfilled Contracts" is based on information obtained from exporters by the Office of Export Administration subject to the confidentiality provisions of the Export Administration Act of 1969, as amended. In a number of instances only one exporter is involved in exports of a stated commodity to a particular country. Therefore, the publication of the data by country of destination could effectively reveal information required to be held confidential. Accordingly, in order to maintain the confidentiality of the information supplied by exporters, this data is published by the area of destination.

2/ Includes fertilizer and other grades of anhydrous ammonia.

3/ Includes fertilizer and other grades of phosphoric acid (100% APA)

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

FRS—Securities credit by persons other than banks, brokers and dealers; registration, termination of registration, and reporting requirements..... .... 30007; 7–21–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240.

To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

TEMPORARY FOREIGN AGRICULTURAL LABOR

Labor/ETA revises regulations applicable to importation of aliens and sets wage rates; effective 9–20–76..... 35169

PRIVACY ACT OF 1974

The following agencies issue documents on implementation:
- Commerce Department..... 35205
- Railroad Retirement Board..... 35235

MEETINGS—

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 4—Accounts

CHAPTER I—GENERAL ACCOUNTING OFFICE

SUBCHAPTER A—GENERAL PROCEDURES

PART 1—RECOGNITION OF ATTORNEYS AND OTHER REPRESENTATIVES

The regulations governing the recognition of persons representing others before the General Accounting Office are being revised to eliminate the registration committee and the complaint proceedings. Specific procedures are prescribed for revocation of representations.

Part 1 is revised to read as follows:

Sec.
1.1 Right to representation before the General Accounting Office.
1.2 Practice by attorneys.
1.3 Authority to represent in payment cases.
1.4 Authority to represent in other cases.
1.5 Revocation of authority to represent.

AUTHORITY: Sec. 311, 42 Stat. 25, as amended; (31 U.S.C. 52)

§ 1.1 Right to representation before the General Accounting Office.

Each person having a claim or other rights assertable in the General Accounting Office may pursue such claim or right individually or through an attorney or other representative.

§ 1.2 Practice by attorneys.

Any person who is a member in good standing of the bar of the Supreme Court of the United States or of the highest court of any State, territory, or the District of Columbia, and is not under any order of any court suspending, enjoining, restraining, disbarring, or otherwise restricting him in the practice of law, may represent others before the General Accounting Office.

§ 1.3 Authority to represent in payment cases.

In the prosecution of claims involving payments to be made by the United States, a proper power of attorney is required before an attorney or other representative may be recognized. A power of attorney from the principal may also be requested in other cases.

§ 1.4 Authority to represent in other cases.

When an attorney acting in a representative capacity appears in person or signs a document submitted to the General Accounting Office in connection with a matter other than one involving a payment to be made by the United States, his personal appearance or signature shall constitute a representation that he is authorized and qualified to represent the particular party in whose behalf he acts. In the case of representatives other than attorneys, a simple written declaration from the principal will be accepted as evidence of the authority of the representative to act on behalf of the principal.

§ 1.5 Revocation of authority to represent.

Prior to the conclusion of action by the General Accounting Office on a matter in which a principal is represented by another person whose authority to act is established under either § 1.3 or § 1.4, the principal may revoke the authority of his representative. Such revocation is not effective unless it is in writing and signed by the principal and until the written revocation is received by the General Accounting Office. Upon notification of the death of the principal during the pendency of any matter involving representation of the principal by an attorney or other party, the General Accounting Office will consider the representative's authority to have been automatically revoked.

ELMER B. STAATS,
Comptroller General of the United States.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Defense

Section 213.3306 is amended to reflect a title change from one Confidential Assistant to the Special Assistant to the Secretary, to one Staff Assistant to the Special Assistant to the Secretary.

Effective on August 20, 1976, § 213.3306 (a) (69) is amended as set out below:

§ 213.3306 Department of Defense.

(a) *Office of the Secretary.* • • •

(69) One Staff Assistant to the Special Assistant to the Secretary.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-24458 Filed 8-19-76;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

Section 213.3316 is amended to show that one position of Assistant to the Secretary is excepted under Schedule C.

Effective on August 20, 1976, § 213.3316 (a) (13) is amended as set out below:

§ 213.3316 Department of Health, Education, and Welfare.

(a) *Office of the Secretary.* • • •

(13) Five Assistants to the Secretary.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-24456 Filed 8-19-76;8:45 am]

PART 213—EXCEPTED SERVICE

Department of State

Section 213.3304 is amended to show that one position of Secretary (Stenography) to the Chief of Protocol is excepted under Schedule C.

Effective on August 20, 1976, § 213.3304 (a) (23) is added as set out below:

§ 213.3304 Department of State.

(a) *Office of the Secretary.* • • •

(23) One Secretary (Stenography) to the Chief of Protocol.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-24457 Filed 8-19-76;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Transportation

Section 213.3394 is amended to show that one position of Private Secretary to the Chief Counsel is excepted under Schedule C.

Effective on August 20, 1976, § 213.3394 (h) (4) is added as set out below:

§ 213.3394 Department of Transportation.

• • • • • •

(h) *Federal Aviation Administration.*

• • •

(4) One Private Secretary to the Chief Counsel.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 53]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 22–28, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.353 Lemon Regulation 53.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is good for first grade fruit but continues to ease for the lower grade lemons. Average f.o.b. price was $6.51 per carton the week ended August 14, 1976 compared to $6.40 per carton the previous week. Track and rolling supplies at 145 cars were down 5 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 17, 1976.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 22, 1976, through August 28, 1976, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated:

????????

Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76– Filed –76;]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Release of Areas Quarantined

• *Purpose.* The purpose of this amendment is to exclude Monmouth, Middlesex, Union, Hudson, Essex, Bergen, Passaic, Morris, Somerset, Hunterdon, Warren, and Sussex Counties in New Jersey from the areas quarantined because of hog cholera. •

This amendment excludes Monmouth, Middlesex, Union, Hudson, Essex, Bergen, Passaic, Morris, Somerset, Hunterdon, Warren, and Sussex Counties in New Jersey from the areas quarantined by the regulations in 9 CFR Part 76, as amended, because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not apply to the excluded areas, but the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded areas.

Accordingly, Part 76, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases is hereby amended in the following respect:

In § 76.2, paragraph (e) (4) relating to the State of New Jersey is amended to read:

§ 76.2 Notice relating to existence of the contagion or vectors of hog cholera and other swine diseases; prohibition of movement of any hog cholera virus, exceptions; spread of disease through raw garbage; regulations; quarantines.

• • • • • •

(e) • • •

(4) *New Jersey.* All of Mercer, Ocean, Burlington, Atlantic, Camden, Gloucester, Salem, Cumberland, and Cape May Counties.

• • • • • •

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

Effective date: The foregoing amendment shall become effective August 13, 1976.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of hog cholera and must be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 13th day of August 1976.

J. M. HEJL,
Deputy Administrator, Veterinary Services.

[FR Doc.76–24297 Filed 8–19–76;8:45 am]

Title 12—Banks and Banking

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER A—PROCEDURE AND RULES OF PRACTICE

PART 303—APPLICATIONS, REQUESTS, AND SUBMITTALS

Procedures for the Reconsideration of Denied Applications, Petitions, or Requests

Part 303 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR Part 303) prescribes the Corporation's procedures for processing applications, petitions, and requests made to it. Although that part of the rules and regulations prescribes no formal procedures for the reconsideration of applications, petitions, or requests which have been denied, the Corporation's Board of Directors has customarily allowed an applicant to request reconsideration of such an application, petition, or request and, in connection therewith, to request an opportunity to amend such application, petition, or request or to submit information in rebuttal of the denial, either in writing or in the form of an oral presentation before one or more representatives of the Corporation designated for that purpose.

The Board of Directors has now decided that Part 303 of the Corporation's rules and regulations should be amended so as to prescribe a formal procedure whereby all applicants, rather than merely those requesting it, may petition for the reconsideration of an application, petition, or request which has been denied by the Board of Directors. Accordingly, § 303.10 of the Corporation's rules and regulations is hereby amended by adding a new paragraph (e) thereto to read as follows:

§ 303.10 Procedure on applications.

• • • • • •

(e) *Opportunity to petition for reconsideration of a denied application, petition, or request.* Within 15 days of its receipt of notice that its application, petition, or other request has been denied, any applicant may petition the Board of Directors for reconsideration of such application, petition, or request (except an application, petition, or request already previously denied upon reconsideration) and, in connection therewith, may request an opportunity to amend its application, petition, or request or to submit information in rebuttal of the denial, either in writing or in the form of an oral presentation before one or more representatives of the Corporation designated for that purpose. Upon the filing of such petition for reconsideration, the applicant shall be given 60 days in which to amend its application, petition, or request or to make its presentation to the Corporation. If the applicant requests an opportunity to make an oral presentation, it shall be advised of the date, time, place, and person or persons before whom such presentation shall be made.

Since the amendment relates to the internal practice and procedures of the Corporation and expands rather than restricts the existing rights of applicants, the provisions of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection therewith.

Effective date: This amendment is effective August 20, 1976.

By order of the Board of Directors, August 17, 1976.

FEDERAL DEPOSIT INSURANCE CORPORATION,
HOYLE L. ROBINSON,
Assistant Executive Secretary.

[FR Doc.76–24449 Filed 8–19–76;8:45 am]

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER D—SPECIAL REGULATIONS

[Reg. SPR–109, Amdt. 6]

PART 372—OVERSEAS MILITARY PERSONNEL CHARTERS

Expansion of Definition of "Immediate Family"

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 16, 1976.

In SPDR–43 (41 FR 12904, March 29, 1976), the Board issued a notice of proposed rulemaking to amend Part 372 of its Special Regulations (14 CFR Part 372) so as to broaden the definition of the "immediate family" of military and Department of Defense personnel eligible for participation in Overseas Military Personnel Charters (OMPC). Specifically, the proposed rule would include in the "immediate family" the parents-in-law of the eligible member and the minor children of both the parents and parents-in-law, and it would define "minor children" as children under 18.

Thirteen formal comments were filed[1] and more than 200 individuals participated by filing letter comments in this docket. Most of the individual comments favored the adoption of the proposal as did formal comments by American Express Company, Capitol International Airways, Inc., the CAB Office of the Consumer Advocate, the Department of Defense, the Fleet Reserve Association, the Non Commissioned Officers Association of the United States of America, Overseas National Airways, Inc., Pathfinder Corporation, Shoftour, Inc., and United Air Lines, Inc. Several letter comments and formal comments filed by Davis Agency, Inc., Lufthansa German Airlines, and Pan American World Airways, Inc. proposed modifications. A few letter comments opposing the rule were received.

Upon consideration, the Board has decided to adopt the rule as proposed, but with one modification and an editorial revision to avoid unnecessary repetition. The tentative findings and conclusions set forth in SPDR–43 are made final, and except to the extent granted herein, all requests contained in the comments are denied.

The majority of comments received urged that the Board liberalize the eligibility criteria for OMPC's, stating that while the number of people affected by the proposed change would be small, the benefits to morale, particularly the morale of service and DOD wives, would be great. Two letter comments questioned the need for any age or dependency test for siblings and siblings-in-law, stating that the purposes of morale and family reunions are better served when siblings and siblings-in-law can participate in OMPC's without restriction.

Three formal comments and several letter comments urged some narrowing of the Board's proposed eligibility criteria. Pan American proposed that all immediate family members be actual dependents and that thorough documentation of eligibility, such as Department of Defense Form No. 1580, be required. Davis Agency supported the inclusion of parents-in-law, but urged that the eligibility for siblings be stated as "dependent" rather than "minor" children. Lufthansa, while supporting the expansion of OMPC availability to parents-in-law, opposed the inclusion of siblings and siblings-in-law on the basis that these persons are not really part of military or DOD "immediate families," and that inclusion of these groups would exacerbate enforcement problems and threaten scheduled service. Additionally, Lufthansa stated that German Federal Ministry of Transport regulations preclude eligibility for siblings and siblings-in-law.

Upon consideration, the Board has decided to allow in unrestricted form the eligibility of parents-in-law and to delete the reference to "minor" children of parents and parents-in-law, thus allowing participation by all siblings and siblings-in-law regardless of age or dependency.

In establishing OMPC's and the eligibility criteria for participants and their families (SPR–54, 37 FR 11159, June 3, 1972), the Board has considered the morale and other needs of military and DOD personnel, the distinction between charter and individually ticketed services, the question of unjust discrimination against those persons who continue to be ineligible for OMPC's, and any possible enforcement problems of charter participants whose names and addresses differ from the person upon whom eligibility is based.

In this context, the benefits of allowing unrestricted participation by parents-in-law, siblings, and siblings-in-law outweigh countervailing considerations. Pan American's proposed limitation to dependent-in-fact "immediate family"

[1] Comments on SPDR–43 were due on April 28, 1976. On May 5, 1976 United Air Lines, Inc., pursuant to Rule 4(f) of the Board's rules of practice (14 CFR Part 302), submitted a motion for leave to file its comments past the due date. United certified that it had served copies of its comments on all those persons filing comments in this docket. No objections have been received. We have determined that acceptance of United's comments will not prejudice any party to this proceeding and in these circumstances hereby grant United's motion for leave to file an otherwise unauthorized document.

UMI

members, and Lufthansa's suggestion that siblings and siblings-in-law should not be considered part of the immediate family, are inconsistent with the morale-building purpose of OMPC's. No sufficient justification has been presented for distinguishing between "minor" and "dependent" siblings or siblings-in-law for purposes of this regulation. It is found that the benefits to morale of family reunions without arbitrary cutoffs of a family member's participation at age 18 are substantial, and justify broadening the class of eligible participants.

Lufthansa's contention that the increase in the number of individuals eligible for OMPC's will cause enforcement problems is not substantiated by the information presently available. As pointed out in the proposal, current problems resulting from different last names seem to be minimal, and in any event would not be significantly increased by allowing siblings and siblings-in-law to participate. Also, the information available to the Board does not support Lufthansa's concern that OMPC's have had a substantial effect on scheduled service. Lufthansa's third contention regarding German Federal Republic charter regulations is also not persuasive. A prospective conflict between Board regulations and those of another country does not compel rejection of a proposed amendment. While there is substantial OMPC traffic to West Germany, OMPC's are not restricted to that country, and it is possible that this amendment might lead to a similar amendment in German Federal Republic regulations.

A few letter comments opposed the rule on the grounds that current regulations are not enforced, or on the basis that military retirees are more appropriate beneficiaries of OMPC's than parents-in-law. The Board is not aware of widespread evasions of the OMPC regulations, and does not intend to allow violations to take place without enforcement action. Any person with knowledge of apparent violations of current regulations is invited to file complaints with the Board. With respect to the argument for retirees' eligibility for OMPC's, such eligibility is conditioned on a currently existing relationship to active military service or DOD employment. It is intended to augment the morale of military and DOD employees, and not as an auxiliary benefit resulting from a past affiliation. The interests of military and DOD retirees in low-cost air transportation are met both by the charters available to the general public (e.g., TGC's and OTC's) and by affinity charters offered by charter-worthy organizations of retired persons.

In consideration of the foregoing, the Board hereby amends Part 372 of its Special Regulations (14 CFR Part 372), effective September 20, 1976, as follows:

Amend § 372.2 by revising the definition of "immediate family" to read:

§ 372.2 Definitions.

As used in this part, unless the context otherwise requires—

* * * * *

"Immediate family" means only the following persons: the spouse, children, parents, parents of the spouse, children of the parents, and children of the parents of the spouse of (1) military personnel on active duty with the United States Armed Forces (including Coast Guard) stationed outside the contiguous states of the United States and the District of Columbia, and (2) civilian employees of the Department of Defense who are citizens of the United States and are stationed in a foreign country, or in a U.S. territory or possession, where U.S. military personnel are stationed.

* * * * *

(Secs. 101, 204, 401, 407, 416, Federal Aviation Act of 1958, 72 Stat. 737, 743, 754, 766, 771, (49 U.S.C. 1301, 1324, 1371, 1377, 1386).)

By the Civil Aeronautics Board.

[Reg. SPR-106, Amdt. 14]

PART 372a—TRAVEL GROUP CHARTERS

Passenger List Filing Procedures

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 16, 1976.

For the reasons set forth in SPR-105, issued contemporaneously herewith, the Civil Aeronautics Board hereby amends Part 372a of its Special Regulations (14 CFR Part 372a) as set forth below.

Because these amendments create no significant additional burden for any member of the public, and because public benefit will be derived from putting them into effect without delay, it is found for good cause that notice and public procedure thereon are unnecessary.

In light of the foregoing, the Civil Aeronautics Board hereby amends Part 372a of its Special Regulations (14 CFR Part 372a), effective September 20, 1976, as follows:

§ 372a.2 [Amended]

1. Section 372a.2, Definitions, is amended as follows:

a. A new definition, "citizen of the United States," is added in proper alphabetical sequence, to read:

* * * * *

"Citizen of the United States" means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

* * * * *

b. In the definition of "foreign charter organizer" the phrase "as defined in section 101(13) of the Act" is deleted so that the definition reads:

* * * * *

"Foreign charter organizer" means any person not a citizen of the United States (other than a direct foreign air carrier), who is (a) engaged in the formation of travel groups for transportation on travel group charters which originate in a foreign country and over whom the Board has declined to exercise its jurisdiction, or (b) engaged in the formation of travel groups for transportation on travel group charters which originate in the United States who holds a permit issued pursuant to section 402 of the Act authorizing such transportation.

* * * * *

c. In the definition of "travel group charter organizer" the phrase "as defined in section 101(13) of the Act" is deleted so that the definition reads:

* * * * *

"Travel group charter organizer" means (1) any citizen of the United States (other than a direct air carrier), who is authorized hereunder to engage in the formation of travel groups in accordance with the provisions of this Part; or (2) a foreign charter organizer.

* * * * *

2. Section 372a.22, Operating authorization of charter organizer, is amended by revising paragraphs (b) and (d) and adding a new paragraph (f), to read as follows:

§ 372a.22 Operating authorization of charter organizer.

* * * * *

(b) Not earlier than 90 days, and not later than 60 days, prior to the scheduled date of departure, the charter organizer shall simultaneously:

(1) Transmit to the direct air carrier(s): (i) A statement of the charter organizer affirming that each listed original participant has entered into a contract with the organizer as provided in this part, has paid the initial 25 percent deposit, and has been furnished, no later than the time when he entered into such contract with the organizer, with an explanatory statement, in the form set forth in Appendix A; (ii) a statement of the depository bank, if any, affirming the amount which it has on deposit, which amount shall be equal to no less than 25 percent of the minimum pro rata charter price multiplied by the number of listed original participants; and (iii) two copies of the certified passenger list as required by paragraph (f) of this section; and

(2) File with the Board (Investigation and Audit Division, Bureau of Enforcement): (i) A charter contract executed by original participants whose number is equal to at least 90 percent of the seats specified in the contract for charter participants, and (ii) an original copy of CAB Form 372a, which appears as Appendix D to this part, setting forth the name of each participant in alphabetical order and his or her address and telephone number. The information required to be filed with the Board under this section shall be deemed filed on the U.S. Postal Service postmark date imprinted on the envelope.

* * * * *

(d) A charter organizer may correct typographical or spelling errors on filed passenger lists by filing a list of corrections with the Investigation and Audit Division, Bureau of Enforcement. A tour operator may make no other changes except corrections of clerical errors on filed passenger lists, in accordance with the following conditions:

(1) The number of names on the corrected passenger list does not exceed the total number of seats chartered by the organizer; and

(2) The charter organizer files the following documents with the Investigation and Audit Division, Bureau of Enforcement: (i) A list of corrections, (ii) a statement certifying that any name to be listed by means of correcting a filed passenger manifest would have appeared on the original manifest but for a clerical error in preparing the list, and (iii) a photostatic copy of the passenger's canceled check, or if there be none, a copy of a receipt or other kind of written evidence showing payment of the full downpayment price prior to the filing of the passenger list.

* * * * *

(f) A tour operator filing a passenger list on CAB Form 372a, or corrections thereto, under paragraph (b) or (d), respectively, of this section, shall attach to those documents the following certification,[1] and shall simultaneously transmit to the direct air carrier(s) two photostatic copies (not carbons) of the certified list and corrections, if any, to be used in identifying enplaning passengers:

I, the undersigned _____ of
(Title)
_____, certify
(Name of organizer)
that two photostatic copies of the attached document(s) and of this certification, were sent to _____ on this _____.
(Direct air carrier) (Date)

_____
(Signature)

3. Section 372a.41, Direct air carriers to identify enplanements, is amended to read as follows:

§ 372a.41 Direct air carriers to identify enplanements.

(a) A direct air carrier shall retain a true copy of each document which it has received from the charter organizer pursuant to § 372a.22(d), and shall make reasonable efforts to verify the identity of all enplaning passengers (and tour conductors) by use of a document bearing an identifying number, in order to ensure that enplanements are limited to persons whose names appear on its copy of the passenger list. For international flights, the identity of each enplaning passenger (and tour conductor) shall be verified by means of a passport, or if there be none, by means of any other travel identity document. For domestic flights a passport or other travel identity document should be used, if available, to identify enplaning passengers (and tour conductors) but if no such document is available, then any other numbered document such as a social security card may be used.

(b) The direct air carrier shall, at the time of enplanement, enter, on its copy of the passenger list, the documentary source of the identification required by paragraph (a) of this section, including the number appearing on the document, together with the name of any enplaning passenger whose name does not already appear on said passenger list: *Provided, however,* That the total number of names on the passenger list shall not be greater than the number of names which already appeared on said passenger list (and tour conductors) and that the number of passengers (other than tour conductors) whose names are newly entered by the carrier upon enplanement shall not be greater than 15 percent of those whose names had already appeared on said list.

4. Section 372a.50, Reporting requirements, is amended by revising paragraph (a) to read as follows:

§ 372a.50 Reporting requirements.

(a) A direct air carrier shall retain the information transmitted to it pursuant to § 372a.22, including its annotated copies of the passenger list, at its principal office within the United States for a period of two years: *Provided, however,* That if the direct air carrier does not maintain an office in the United States, it shall return the documents transmitted to it pursuant to § 372a.22 to the Bureau of Enforcement within 7 days of performing the flight to which those documents pertain.

* * * * *

5. The instructions for properly completing and filing CAB Form 372a, set forth in Appendix D to Part 372a, are amended to reflect the new filing procedures, to read in part as follows:

INSTRUCTIONS

INTRODUCTION

Form 372a[1] is to be used in filing the travel group charter passenger name list (TGCPNL). The list must be filed with the Board by the travel group charter organizer (CO) no earlier than 90 days and no later than 60 days before the scheduled date of departure, pursuant to § 372a.22(b) (Filing); and two photostatic or similarly reproduced copies of this form, filed as required by § 372a.22(d), must be used as the enplanement list required to be prepared by the direct air carrier (DAC), and retained after the departure or return flight is performed, pursuant to § 372a.50(a). The information required by all items on Form 372a shall be typewritten; however, items 12 (Passenger Status), 15 (Enplanement Identification), and 18 (Prepared By) may be handwritten in pen.

PROCEDURES FOR FILING

The CO will prepare Form 372a according to the instructions set forth below and shall file an original copy with the Board's Investigation and Audit Division, Bureau of Enforcement. The CO will simultaneously file two photostatic or similarly reproduced copies (no carbons) with the DAC, one copy of which shall be used for the TGC departure flight, the other for the TGC return flight.

PREPARATION OF FORM 372a

Each page provides for twenty (20) TGC names. Items 1, 2, and 6 through 15 will be completed on each page on which original participants (OP's) are listed, and items 16 through 18 will be prepared only on the first page, by the CO or DAC, as the case may be.

NOTE.—The CO shall submit to the DAC, at the time of each enplanement, a separate list of assignees, completed in accordance with these instructions.

* * * * *

Item 11, Pasenger Sequential Number.—Two or more pages will be required to list the names of original participants and any tour conductors or assignees. Each original participant is to receive a sequential number beginning with "1," so that the last sequential number shown on the TGCPNL of filing should equal the number of original participants. At enplanement, the DAC shall enter in item 11 the name of each assignee.[2]

Item 12, Passenger Status.—These four (4) columns are to be marked with an x as appropriate to show that the passenger named on this line is an OP, an assignee (ASNE), departing enplaned passenger (DEP), or returning enplaned passenger (RET). The TGCPNL at Filing will contain x's only in the (OP) column. The total number of x's in the OP column for all pages must be equal to at least 90% of the number of seats contracted for. The DAC performing the departure flight will mark an x in the departure column and the DAC performing the return flight will mark an x in the return column. Each DAC will complete items 12 through 15 for each assignee.

* * * * *

Item 16, Column Totals.—Boxes shown are to be used for recording the total x's shown on all the pages of this TGCPNL in the particular column. These entries must appear only on page 1 of the TGCPNL. The box under the column head OP (titled A-OP) should contain the total number of original participants and the box under the column headed ASNE (titled B-ASNE) should contain the total number of assignees. The box under the column headed DEP

---

[1] Whoever, in any matter within the jurisdiction of any department or agency of the United States, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both. Title 18 U.S.C. 1001.

[1] Copies are obtainable from the Board's Publications Services Section.

[2] Where the number of seats contracted for includes one or more seats for tour conductors, pursuant to § 372a.14(d), then: (1) Following the last sequential number for original participants there shall be entered, in item 13, either the name of each conductor, if known at the time of Filing, or the letters "TC"; and (2) at the time of enplanement the DAC shall complete the information required by item 15, as to tour conductors named in item 13, and if item 13 contains only the initials "TC," then the DAC shall also enter the tour conductor's name in item 13.

V 41 163 AUG 20 76 UMI

(titled C–DEP) should contain the total number of departure flight passengers and the box under the column headed RET (titled D–RET) should contain the total number of return flight passengers. The A–OP figure will be shown on the TGCPNL submitted in the Filing. The B–ASNE, C–DEP, and D–RET figures will be shown on the TGCPNL used by the departing DAC and returning DAC, respectively.

PART 373—STUDY GROUP CHARTERS BY DIRECT AIR CARRIERS AND STUDY GROUP CHARTERERS

Definitions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 16, 1976.

For the reasons set forth in SPR–105, issued contemporaneously herewith, the Civil Aeronautics Board hereby amends Part 373 of its Special Regulations (14 CFR Part 373), as set forth below.

Because these amendments create no significant additional burden for any member of the public, and because public benefit will be derived from putting them into effect without delay, it is found for good cause that notice and public procedure thereon are unnecessary.

In light of the foregoing, the Civil Aeronautics Board hereby amends Part 373 of its Special Regulations (14 CFR Part 373), effective September 20, 1976, as follows:

§ 373.2 [Amended]

Section 373.2, Definitions, is amended as follows:

a. A new definition, "citizen of the United States," is added in proper alphabetical sequence, to read:

• • • • •

"Citizen of the United States" means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

• • • • •

b. In the definition of "study group charterer" the phrase "as defined in section 101(13) of the Federal Aviation Act; 49 U.S.C. 1301(13)" is deleted, so that it reads:

• • • • •

"Study group charterer" means any citizen of the United States (other than a direct air carrier), authorized hereunder to engage in the formation of study groups for transportation on study group charters.

• • • • •

(Secs. 101, 204, 401, and 402 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737, 743, 754, 757, (49 U.S.C. 1301, 1324, 1371, 1372).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–24472 Filed 8–19–76;8:45 am]

[Reg. SPR–108, Amdt. 15]

PART 378—INCLUSIVE TOUR CHARTERS

Definitions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 16, 1976.

For the reasons set forth in SPR–105, issued contemporaneously herewith, the Civil Aeronautics Board hereby amends Part 378 of its Special Regulations (14 CFR Part 378) as set forth below.

Because these amendments create no significant additional burden for any member of the public, and because public benefit will be derived from putting them into effect without delay, it is found for good cause that notice and public procedure thereon are unnecessary.

In light of the foregoing, the Civil Aeronautics Board hereby amends Part 378 of its Special Regulations (14 CFR Part 378), effective September 20, 1976, as follows:

§ 378.2 [Amended]

Section 378.2, Definitions, is amended as follows:

a. A new definition (j), "citizen of the United States," is added, to read:

• • • • •

(j) "Citizen of the United States" means (1) an individual who is a citizen of the United States or of one of its possessions, or (2) a partnership of which each member is such an individual, or (3) a corporation or association created or organized under the laws of the United States or of any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

b. Definition (d), "Tour operator," is amended by deleting the phrase, "as defined in section 101(13) of the Federal Aviation Act, as amended, 49 U.S.C. 1301 (13)," so that it reads:

• • • • •

(d) "Tour operator" means any citizen of the United States (other than a direct U.S. air carrier), authorized hereunder to engage in the formation of groups for transportation on inclusive tours.

• • • • •

(Secs. 101(3), 204(a), 401, 402, 407, 416(a), Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended by 75 Stat. 467, 76 Stat. 143, 82 Stat. 867, 84 Stat. 921, 88 Stat. 409, 419), 743, 754, 757, 766, 771; (49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–24473 Filed 8–19–76;8:45 am]

[Reg. SPR–105, Amdt. 6]

PART 378a—ONE-STOP-INCLUSIVE TOUR CHARTERS

Passenger List Filing Procedures

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 16, 1976.

By this rule the Civil Aeronautics Board is amending the passenger list filing requirements for One-stop-inclusive Tour Charters (parallel changes are being made in other charter rules by separate notices), to have two copies sent directly to the direct air carrier, to have the postmark date considered the filing date, and to allow a tour operator to correct errors without filing a waiver request. It is also eliminating the requirement for filing monthly summaries of tour charters under contract.

During recent years the Board has expanded the availability of low-cost bulk air transportation by authorizing and encouraging the marketing of new charter forms. Two of these charter forms, Travel Group Charters (TGC's) (14 CFR Part 372a) and One-stop-inclusive Tour Charters (OTC's) (14 CFR Part 378a), include an advance-purchase requirement as one of the characteristics that serves to maintain the legally required distinction between those charter forms and regularly scheduled service. The Board ensured compliance with these advance-purchase provisions by requiring any indirect air carrier who markets one of these charter types to file three copies of the passenger list, a statement that each participant has entered into a contract with the operator and has made the appropriate payment, and a statement of a depository bank affirming that it has received a deposit of the total charter price, not later than the last day on which a participant could legally become a member of the charter group. The Supplementary Services Division, Bureau of Operating Rights, was to review the documents, and, if they were in order, to send two stamped copies of the passenger list to the direct air carrier or to the charter operator who, in turn, would forward them to the direct air carrier. The direct air carrier would then use those copies to verify the identity of the enplaning passengers, thereby ensuring that they were bona fide members of the charter group. Within 7 days after performing each leg of the flight the direct air carrier was required to mail a stamped copy of the passenger list to the Board's Bureau of Enforcement where the list was to be examined once again to discover any illegal additions or substitutions.

The theory underlying those procedures was that close scrutiny and prior review of the subject documents, in addition to post-flight review by the Bureau of Enforcement, was the best method of ensuring compliance with the advance-purchase requirements. Prior to 1975 the TGC was the only charter form with an advance-purchase requirement, which was 60 days. On August 7, 1975, the Board adopted the OTC rule with an advance-purchase period of only 15 days for North American OTC's and 30 days for all others. The increase in the number of charter filings, combined with the reduced time for predeparture review, has made it impracticable for the Bureau of Operating Rights to continue to perform such a detailed review of every passenger list. Moreover, the post-flight reviews performed by the Bureau of Enforcement under the existing method have indicated that the largest single type of violation disclosed by such review is tardiness in the filing of passenger lists, rather than discrepancies in the lists themselves. Analyses of post-flight lists have shown that the lists with substantive problems total 7 percent or less, with the discrepancies being one or more added OTC passengers, TGC lists filed at less than 90 percent of capacity contracted for, or TGC substitution in excess of 15 percent, in that order of magnitude. When examined further, a great many of the discrepancies appear to be attributable to technical or clerical errors, such as listing the names of nonparticipants (e.g., pass riders), or including on a single list all of the substitutes on a multiple-list flight. In short, the present system has resulted in too much staff time being excessively devoted to technical violations with less time thus available to deal with deliberate substantive violations.

The Board has decided, therefore, to change its passenger list filing requirements. Also, if the Board adopts its proposed Advance Booking Charter rule, EDR–294, February 10, 1976, 41 FR 7417, or its proposed Contract Bulk Inclusive Tour rule, EDR–300, June 16, 1976, 41 FR 24903, the new passenger list filing requirements and technical amendments issued by this notice will be incorporated into those rules without further notice. The new procedures will operate as follows: The charter operator will file an original copy of the passenger list with the Bureau of Enforcement, along with a certification that two photosatitic copies of the list have been transmitted that day to the carrier (or carriers) for use in identifying passengers at enplanement of originating and returning flights. The operator will also transmit to the direct air carrier, along with the passenger list copies, the required statements concerning participant contracts and depository bank receipts. The direct air carrier, after using the copies of the passenger list to identify enplaning passengers, will retain these documents at its principal office; but those carriers that do not maintain offices in the United States will be required to mail the passenger lists to the Bureau of Enforcement within 7 days of performing the subject flight. By allowing the carrier to retain the documents in this manner, the Board hereby grants, in part, the petition of United Air Lines in Docket 29285. The remainder of the petition is still under consideration.

Although the new procedures will lessen the administrative burden upon both the Board and the carriers, such changes will not impair the Board's ability to enforce the advance listing requirements. In effect the only change in enforcement technique is that the Bureau of Enforcement will now review the passenger lists in the carriers' offices rather than at the Bureau's office. Those post-flight reviews will be performed pursuant to a systematic enforcement inspection program reflective of the volume of traffic carried. In addition, the Bureau of Enforcement will institute more intensive inspections whenever it appears as a result of its analysis of traffic, tour operators, direct air carriers, markets, and general investigatory information that such inspections are necessary to ensure that the law is being observed. Moreover, in the event further enforcement review is required on an individual basis to preserve the integrity of the advance-sales limitation, personnel of the Bureau of Enforcement will conduct plane-side boarding inspections.

Another change in the filing procedures is that every passenger list will be deemed filed on the U.S. Postal Service postmark date imprinted on the envelope. Thus, the Board hereby grants the rulemaking petition of Charter Travel Corporation in Docket 28468. Answers supporting the petition were filed by Pan American World Airways, Inc.; Hamilton, Miller, Hudson & Fayne Travel Corporation; National Air Carrier Association; Globus-Gateway Tours, Ltd.; Carefree Travel, Inc.; Unitours, Inc.; American Leadership Study Groups, Inc.; Tour Travel Enterprises; and Travel Enterprises. This will alleviate an aspect of the former procedures whereby charter operators who were not located near the Board were forced either to terminate sales several days before the filing deadline or to incur the expense of having the passenger list hand-delivered by special messenger in order to ensure that it was physically present at the Board on the appropriate date. Under the new procedures all charter operators, no matter where they are located, will have an equal opportunity to market their charters up to the filing deadline, and to file the passenger list by mailing it.

In addition, the new procedures will authorize tour operators to correct typographical or other clerical errors in filed passenger lists without the necessity of filing a waiver request. Thus, the Board is eliminating another prior-review procedure. A tour operator will be permitted to correct typographical errors by mailing a list of those corrections to the direct air carrier and to the Bureau of Enforcement. The operator will be authorized to correct other clerical errors by mailing the following documents to the Bureau of Enforcement: a list of the corrections, a statement certifying that any name to be listed by means of correcting a filed passenger manifest would have appeared on the original manifest but for a clerical error, and a photostatic copy of the passenger's canceled check, or if there be none, a copy of a receipt or other kind of written evidence showing full payment of the tour price prior to the filing of the passenger list. Thus the Board hereby grants the petition of South American Tours, Ltd. filed in Docket 28839, which was supported in an answer filed by the National Air Carrier Association.

The Board also by this action revokes § 378a.51, Reporting of OTC service under contract. It has been found that there is no need to have the information supplied pursuant to that section on a continual basis. Should the need for such information arise in any specific case, the Board can readily obtain it.

Finally, the definition of "citizen of the United States" as set forth in section 101(13) of the Federal Aviation Act of 1958 (49 U.S.C. 1301) is being included in § 378a.2, Definitions, in order to eliminate the necessity for persons reading the rule to refer to the Act to ascertain the definition of that basic term.

Because these amendments create no significant additional burden for any member of the public, and because public benefit will be derived from putting them into effect without delay, it is found for good cause that notice and public procedure thereon are unnecessary.

In light of the foregoing, the Civil Aeronautics Board hereby amends Part 378a of its Special Regulations (14 CFR Part 378a), effective September 20, 1976, as follows:

1. The table of contents is amended by adding a reference to § 378a.45, and by deleting the reference to § 378a.51, to read as follows:

• • • • •

Subpart D—Requirements Applicable to Direct Air Carriers

• • • • •

Sec. 378a.44 • • •
Sec. 378a.45 Record retention.

Subpart E—Charter Trip Reporting Requirements

Sec. 378a.50 • • •

Subpart F—Requirements Applicable to Special Event Charters

• • • • •

§ 378a.2 [Amended]

2. Section 378a.2, Definitions, is amended as follows:

a. A new definition, "citizen of the United States," is added in proper alphabetical sequence, to read:

• • • • •

"Citizen of the United States" means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or of any State, Territory, or pos-

V 41 163 AUG 20 76 UMI

session of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

b. In the definition of "foreign tour operator," the phrase "as defined in Section 101(13) of the Act" is deleted, so that the definition reads:

* * * * *

"Foreign tour operator" means any person not a citizen of the United States (other than a direct foreign air carrier), who is (1) engaged in the formation of groups for transportation on one-stop-inclusive tour charters which originate in a foreign country and over whom the Board has declined to exercise its jurisdiction, or (2) engaged in the formation of groups for transportation on one-stop-inclusive tour charters which originate in the United States and who holds a permit issued pursuant to section 402 of the Act authorizing such transportation: *Provided*, That with respect to §§ 378a.21, 378a.24, 378a.25(a) (1) and (2), 378a.26–.33, 378a.50, 378a.105, and 378a.107(c) (2), (3), and (4) the definition of "Foreign tour operator" is confined to the definition set forth in subparagraph (2) of this definition.

* * * * *

c. In the definition of "one-stop-inclusive tour operator" the phrase "as defined in Section 101(13) of the Act" is deleted, so that the definition reads:

* * * * *

"One-stop-inclusive tour operator" (or "OTC operator") means (1) any citizen of the United States (other than a direct air carrier), who is authorized hereunder to engage in the formation of groups for transportation on OTC's in accordance with the provisions of this part; or (2) a foreign tour operator.

* * * * *

3. Section 378a.25, *Operating authorization of tour operators*, is amended by revising paragraphs (b) and (c) and by adding a new paragraph (d), so that the section would read:

§ 378a.25 Operating authorization of tour operators.

* * * * *

(b) Not later than 15 days prior to the scheduled date of departure, in the case of North American OTC's, and not later than 30 days prior to the scheduled date of departure for all others, the tour operator shall simultaneously:

(1) Transmit to the direct air carrier(s): (i) A statement of the tour operator affirming that each participant has entered into a contract with the operator as provided in this Part, and has made full payment of the total price of the charter tour; (ii) a statement of the depository bank, if any, affirming that it has received a deposit of the total charter price payable to the direct air carrier(s); and (iii) two copies of the certified passenger list, as required by paragraph (d) of ths section; and

(2) File with the Board (Investigation and Audit Division, Bureau of Enforcement) an original copy of CAB Form 378a–1, which appears as Appendix B to this Part, setting forth the name of each passenger in alphabetical order, his or her address and telephone number, and the name, address, and telephone number of the travel agent (if any) who sold the tour to the passenger: *Provided*, That for North American OTC's where the outbound leg is scheduled to depart on or after October 1, 1978, the information required by this paragraph (b) shall be filed not later than 7 days prior to the scheduled date of departure. The information required to be filed with the Board, under this section, shall be deemed filed on the U.S. Postal Service postmark date imprinted on the envelope.

(c) A tour operator may correct typographical or spelling errors on filed passenger lists by filing a list of corrections with the Investigation and Audit Division, Bureau of Enforcement. A tour operator may make no other changes except corrections of clerical errors on filed passenger lists, in accordance with the following conditions:

(1) The number of names on the corrected passenger list does not exceed the total number of seats chartered for the tour; and

(2) The tour operator files the following documents with the Investigation and Audit Division, Bureau of Enforcement: (i) A list of corrections, (ii) a statement certifying that any name to be listed by means of correcting a filed passenger manifest would have appeared on the original manifest but for a clerical error in preparing the list, and (iii) a photostatic copy of the passenger's canceled check, or if there be none, a copy of a receipt or other kind of written evidence showing full payment of the tour price prior to the filing of the passenger list.

(d) A tour operator filing a passenger list on CAB Form 378a–1, or corrections thereto, under paragraph (b) or (c), respectively, of this section, shall attach to those documents the following certification,[1] and shall simultaneously transmit to the direct air carrier(s) two photostatic copies (not carbons) of the certified list and corrections, if any, to be used in identifying enplaning passengers:

I, the undersigned, _____ of
(Title)
_____, certify that two photo-
(Name of Operator)
static copies of the attached document(s), and of this certification, were sent to _____ on this _____.
(Direct air carrier) (Date)

_____
(Signature)

[1] Whoever, in any matter within the jurisdiction of any department or agency of the United States, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both. Title 18 U.S.C. 1001.

4. Section 378a.40, Charter not to be performed unless compliance with part, is amended by deleting the reference to § 378a.51, to read as follows:

§ 378a.40 Charter not to be performed unless compliance with part.

A direct air carrier shall not perform air transportation in connection with an OTC unless it has made a reasonable effort to verify that all provisions of this Part have been complied with, and that the tour operator's authority under this Part has not been suspended by the Board: *Provided, however*, That where an OTC is organized by a foreign tour operator over whom the Board has declined to exercise its jurisdiction pursuant to § 378a.23, no direct air carrier may perform air transportation in connection with such OTC unless the tour is formed and implemented in accordance with the general conditions and limitations set forth in Subpart B or Subpart F of this part, and the tour operator performs all acts and duties which this part requires to be performed by tour operators within the Board's jurisdiction, other than the provisions set forth in §§ 378a.25(a) (1) and (2), 378a.28, 378a.30–.33, 378a.50, 378a.105, and 378a.107(c) (2), (3), and (4).

5. Section 378a.41, Direct air carrier to identify enplanements, is amended to read as follows:

§ 378a.41 Direct air carrier to identify enplanements.

(a) A direct air carrier shall retain a true copy of each document which it has received from the charter operator pursuant to § 378a.25, and shall make reasonable efforts to verify the identity of all enplaning passengers by use of a document bearing an identifying number, in order to ensure that enplanements are limited to persons whose names appear on its copy of the passenger list. For international flights, the identity of each enplaning passenger shall be verified by means of a passport, or if there be none, by means of any other travel identity document. For domestic flights a passport or other travel identity document should be used, if available, to identify enplaning passengers, but if no such document is available, then any other numbered document such as a Social Security card may be used.

(b) The direct air carrier shall, at the time of enplanement, enter, on its copy of the passenger list, the documentary source of the identification required by paragraph (a) of this section, including the number appearing on the document.

6. A new § 378a.45, Record retention, is added, to read as follows:

§ 378a.45 Record retention.

A direct air carrier shall retain the information transmitted to it pursuant to § 378a.25, including its annotated copies of the passenger list, at its principal office within the United States for a period of two years: *Provided, however*, That if the direct air carrier does not maintain an office in the United States, it shall return the documents transmitted to it pursuant to § 378a.25 to the Bureau of Enforcement within 7 days of performing the flight to which those documents pertain.

7. Section 378a.50, Charter trip reporting, is amended by revoking and reserving paragraph (a), so that the section reads as follows:

§ 378a.50 Charter trip reporting.

(a) [Reserved]

(b) The direct air carrier shall * * *

* * * * *

(c) Within 30 days after termination of a tour or series of tours * * *

* * * * *

§ 378a.51 [Revoked]

8. Section 378a.51, Reporting of OTC service under contract, is revoked.

9. The instructions for properly completing and filing CAB Form 378a–1, set forth in Appendix B to Part 372a, are amended to reflect the new filing procedures, to read in part as follows:

INSTRUCTIONS

Introduction. Form 378a–1[1] is to be used in filing the one-stop-inclusive tour charter passenger name list (OTCPNL). This list must be filed by the tour operator (TO) no later than 15 days before the scheduled date of departure in the case of North American OTC's, and no later than 30 days before the scheduled date of departure for all others, pursuant to section 378a.25 (the filing); and two photostatic or similarly reproduced copies of this form, submitted as required by § 378a.25(c), must be used as the enplanement list required to be prepared by the direct air carrier (DAC) and retained after the departure or return flight is performed, pursuant to section 378a.45. The information required by all items on Form 378a–1 shall be typewritten except items 12 (Passenger Status), 15 (Enplanement Identification), and 18 (Prepared By), which may be handwritten in pen.

Procedures for filing. The TO will prepare Form 378a–1 according ot the instructions set forth below and shall file an original copy with the Board's Investigation and Audit Division, Bureau of Enforcement. The TO will simultaneously file two photostatic or similarly reproduced copies (no carbons) with the DAC, one copy of which will be used for the OTC departure flight, the other for the OTC return flight.

* * * * *

(Sec. 101(3), 204(a), 401, 402, 407, 416(a), 101, Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766, 771, 788; (49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386, 1481).)

By the Civil Aeronautics Board.

PHYLLIS T. TAYLOR,
Secretary.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release SAB–10]

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS

Publication of Staff Accounting Bulletin No. 10

The Division of Corporation Finance and the Office of the Chief Accountant today announced the publication of Staff Accounting Bulletin No. 10. The statements in the Bulletin are not rules or interpretations of the Commission nor are they published as bearing the Commission's official approval; they represent interpretations and practices followed by the Division and the Chief Accountant in administering the disclosure requirements of the federal securities laws.

Staff Accounting Bulletin No. 10 provides interpretations of Accounting Series Release No. 190 [41 FR 13596]. This release (the adoption of Rule 3–17[1] of Regulation S–X [17 CFR 210.3–17]) requires the disclosure of replacement cost data by certain registrants effective for years ending on or after December 25, 1976.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 27, 1976.

CHANGES TO STAFF ACCOUNTING BULLETIN No. 9

In SAB No. 9 [41 FR 26083] (which also interpreted ASR No. 190) a revision to the definition of "mineral resource assets" appearing in SAB No. 7 [41 FR 13600] was made. Since the issuance of SAB No. 9, further suggestions have been made to this definition as it relates to the mining industry. The definition of mineral resource assets in SAB No. 9 read as follows:

10. APPLICABILITY OF § 210.3–17

A. EXEMPTIONS

Facts:

Section 210.3–17 permits delayed application for mineral resource assets and certain foreign assets.

Question 1. What are "mineral resource assets"?

Interpretive Response:

Mineral resource assets are defined as those costs shown on the balance sheet representing assets which are directly associated with and which derive value from mineral reserves.

For the oil and gas industry these costs include the following:

1. Intangible drilling and development costs.
2. Capitalized nonproductive costs, delay rentals, overhead and similar costs.
3. Producing and nonproducing leasehold costs.
4. Down-hole equipment.
5. Well-head equipment.
6. Lease production facilities—tanks, flowlines, separaters, above-ground pumps, compressors, etc.
7. Gas cycling plants.
8. Processing facilities located in a field in which the company owns interests in producing leases.
9. Support facilities—power plants, field living quarters, etc.
10. Gathering systems to the point of market in the field.
11. Offshore platforms.

All costs which involve processing, transportation, refining, distribution, and marketing are not classified as mineral resource assets. Examples include the following:

1. Refineries.
2. Transportation equipment and facilities beyond the point of market in the field—including pipelines, barges, trucking equipment.
3. Drilling equipment an related facilities used in drilling operations.

For extractive industries othef than oil and gas, mineral resource assets are those which represent depletable mineral property, i.e., capitalized costs related to acquisition, exploration, and development of ore bodies. Mills, rolling stock, and other mining equipment are not considered mineral resource assets.

The last paragraph of the Interpretive Response is replaced with the following:

For the mining industry these costs include the following:

1. Capitalized costs related to—
   a. Acquisition of mineral rights, leases or properties;
   b. Exploration;
   c. Development of ore bodies.
2. All assets employed in the extraction and conversion process which are necessary to produce mineral product or products which are commercially marketable.
3. Processing assets, located at or dedicated solely to a mine or mines in which the company has an economic interest, which are designed with specific regard to the particular physical or chemical characteristics of the ores being mined or the scale of operation, and which, by their nature, would have only nominal economic value in the absence of the ores they were designed to treat.
4. Supportive facilities such as power generating and distribution facilities, mine transportation facilities, townsites, other infrastructure, etc., which derive value solely because of the existence of the ore body.

All costs which involve processing, manufacturing and fabricating facilities which are not directly associated with, nor derive value from, a particular mineral deposit in which

[1] The term "rule" has been replaced by the appropriate section number of the Code of Federal Regulations. Accordingly, Rule 3–17 is referred to as § 210.3–17.

[2] "And" incorrectly appeared as "of" in SAB No. 9.

V 41 163
AUG 20 76
UMI

the company has an economic interest, e.g., smelters and refineries which obtain their feed from outside shippers, are not mineral resource assets.

• • • • •

In SAB No. 9 the following was stated regarding financing leases:

6. REPLACEMENT COST OF PRODUCTIVE CAPACITY

D. FINANCING LEASES

Facts:

Section 210.3-17(c) states: "For purposes of this rule, assets held under financing leases as defined in § 210.3-16(g) shall be included in productive capacity."

Section 210.3-16(g) does not require separate disclosure of noncapitalized financing leases unless the present value of the minimum lease payments is greater than 5 percent of the sum of long-term debt, stockholders' equity and the present value of the minimum lease commitments.

Question:

If noncapitalized leases are not required to be separately disclosed in the historical cost financial statement footnotes, may replacement cost data related to such leases be excluded from the determination of the replacement cost of productive capacity?

Interpretive Response:

Yes, except in unusual factual circumstances where the replacement cost of such leased assets may have increased so significantly compared to other assets that such assets on a replacement cost basis would constitute a significant part of productive capacity computed on that basis.

Correction:

The references to § 210.3-16(g) in "Facts" are changed to § 210.3-16(q).

• • • • •

In SAB No. 9 the following was stated with respect to the North American continent:

10. APPLICABILITY OF § 210.3-17

C. DELAYED EFFECTIVENESS FOR MINERAL RESOURCE ASSETS AND CERTAIN FOREIGN ASSETS

Facts:

Section 210.3-17 requires that replacement cost data related to assets located within the North American Continent and the countries of the European Economic Community be disclosed for fiscal years ending on or after December 25, 1976.

Question 1. Does the staff consider Mexico, Latin American countries (including Puerto Rico) and Hawaii to be part of the North American continent?

Interpretive Response:

Yes.

Corrections:

Question 1 is changed to read as follows:

Question 1. Does the staff consider Mexico, other countries north of the Panama Canal (including Puerto Rico) and the Hawaiian Islands to be part of the North American continent?

• • • • •

NEW INTERPRETATIONS

Topic 6: Interpretations of Accounting Series Releases

I. Accounting Series Release No. 190—Amendments to Regulation S-X Requiring Disclosure of Replacement Cost Data (§ 210.-3-17).

1. DEFINITIONS AND CONCEPTS

B. PRODUCTIVE CAPACITY

Question 6. Is construction work in progress part of productive capacity?

Interpretive Response:

For the purposes of § 210.3-17 construction work in progress is not considered to be part of productive capacity.

Question 7. For purposes of § 210.3-17, are rights-of-way and extractive rights considered to be intangible (and thus not required to be included in the disclosure of replacement cost data)?

Interpretive Response:

Rights-of-way are usually considered intangibles or land costs and are thus excluded from § 210.3-17. Extractive rights are generally mineral resource assets.

• • • • •

D. FUTURE TECHNOLOGY AND ENVIRONMENTAL CONSIDERATIONS

Facts:

Replacement cost differs from reproduction cost in that the former considers technological change whereas the latter does not. In addition, costs associated with environmental protection devices not embodied in existing assets should be considered in the determination of replacement cost.

Question:

In determining the replacement cost of productive capacity, should the computations be based upon technology and environmental considerations existing as of the determination date or should an attempt be made to forecast such technology and environmental considerations (and the related costs) that are expected to be existing at the date replacement is expected to occur?

Interpretive Response:

The computations should be based upon technology and environmental conditions existing as of the determination date. To do otherwise would not necessarily result in providing the reader with information on the "current economics of the business" which is the principal objective of ASR No. 190. With respect to environmental conditions, consideration will be required for regulations adopted and not presently in effect but which will be in effect prior to actual replacement or with which management expects to comply if replacement will occur prior to the regulation becoming effective.

2. GENERAL

E. FURNISHING SUMMAAIZED FINANCIAL DATA OF INVESTEES

Facts:

Registrants frequently present summarized financial data of investees which are accounted for on the equity method. Such presentations often display (on a historical cost basis) inventories, gross and net property, plant and equipment, cost of sales and depreciation expense.

Question:

Is replacement cost information required to be included with the summarized financial data?

Interpretive Response:

No.

• • • • •

F. USE OF INDICES

Facts:

Many companies plan to use indices and other publicly available data in the determination of the replacement cost of productive capacity.

Question:

Is the use of indices an acceptable approach to the determination of replacement cost?

Interpretive Response:

If the use of the indices results in a reasonable approximation of replacement cost computed on an item-by-item basis (or other appropriate method), the use of such indices will be acceptable. It is important to note, however, that in many instances the use of indices will result in reproduction cost which may not be a reasonable approximation of replacement cost.

3. REPLACEMENT COST OF INVENTORIES

E. VERTICALLY INTEGRATED OPERATIONS

Facts:

Company A and Company B are part of a vertically integrated conglomerate with a common parent and are included in the consolidated financial statements of the parent. In addition, Company A and Company B each file separately with the SEC. All of Company A's sales are to Company B.

Question:

When Company B computes replacement cost of inventory and cost of sales in its separate financial statements, should it consider Company A's replacement cost data in making the computation or is it acceptable to use the invoiced cost of goods purchased from Company A?

Interpretive Response:

Company B generally should use the current invoiced cost of goods as its basis for computing replacement cost. The fact that two companies are related should not affect the method of calculation. Company B should treat its purchases from Company A in the same manner as it treats purchases from other suppliers.

• • • • •

5. LIMITED USE ASSETS

B. CONSTRUCTION CONTRACTS

Facts:

Company A is a custom engineering company. Its services encompass design and/or fabrication and/or erection of structures specifically engineered to meet the particular individual contract requirements of each customer. The majority of the contracts are long-term and the contract price may be either fixed or variable.

Question:

Are the replacement cost disclosures specified in § 210.3-17 (a) and (b) required for such contracts?

Interpretive Response:

Inventories and productive capacity acquired solely for use on specific long-term construction or engineering contracts are considered by the staff to generally not be subject to § 210.3-17. This exclusion recognizes the direct relationship between historical costs and contractual revenues in such cases.

6. REPLACEMENT COST OF PRODUCTIVE CAPACITY

E. FINANCING LEASES

Facts:

Under existing generally accepted accounting principles set forth in Opinion No. 5 of the Accounting Principles Board, only leases which are clearly in substance installment purchases of property are capitalized. For purposes of § 210.3-17, productive capacity includes assets held under financing leases as defined in § 210.3-16(q). Section 210.3-16(q) requires certain disclosures related to noncapitalized financing leases, including the

impact upon net income of capitalizing the lease obligations.

Question 1. Should the current replacement cost of facilities held under capitalized financing leases be based on (1) the terms of a new lease based on current economic conditions or (2) the current replacement cost of the underlying leased facility?

Interpretive Response:

Replacement cost disclosures for capitalized leases should be based on the current replacement cost of the underlying assets.

Question 2. Should the current replacement cost of productive capacity represented by assets held under noncapitalized financing leases be based on (1) the terms of a new lease that would be entered into under current economic conditions or (2) the current replacement cost of the underlying lease facility?

Interpretive Response:

Generally, the replacement cost disclosures should be based on the current replacement cost of the underlying leased facility, since § 210.3-17 pertains only to replacement of inventories and productive capacity and not to related financing.

Because financing leases, as defined in § 210.3-16(q), may not be capitalized in the historical cost financial statements, disclosure of the effect of such capitalization on inventories, cost of sales, productive capacity, and depreciation, depletion and amortization may be necessary if the historical cost accounting for leases significantly distorts comparisons of the replacement cost data with that included in the financial statements.

For instance, the present value of the lease commitments for noncapitalized financing leases (as determined in response to § 210.3-16(q)(4)) may have to be added to the historical cost of productive capacity for comparison with the replacement cost of productive capacity when the latter includes significant amounts for assets currently leased. Also, rental expense on noncapitalized financing leases may have to be deducted from historical cost of sales; and the amortization of the present value of lease commitments added to historical depreciation, depletion and amortization and cost of sales, as applicable, to enable comparison with depreciation, depletion and amortization on a replacement cost basis when the replacement cost data includes assets currently leased. If significant distortions result from land being included in a financing lease, disclosure of the effects would be necessary.

F. USED EQUIPMENT AND FACILITIES

Facts:

Some companies commonly acquire used facilities and equipment in replacing their productive capacity.

Question:

What should be the basis for determining replacement cost in these circumstances?

Interpretive Response:

The replacement cost disclosures should not be made on the basis of the current selling value of the company's assets in the used market. However, the objectives of § 210-3.17 could be achieved in certain situations by assuming replacement with used equipment and facilities.

This approach could be justified by a managerial policy of replacing productive capacity with used items considering current economic circumstances. The following conditions would appear to be necessary for basing replacement cost on the current prices of used items:

1. Used facilities and equipment are available and, in management's judgment, will continue to be available during the remaining life of its existing productive capacity.

2. Under current economic conditions, management would replace its productive capacity with used facilities and equipment.

The cost of the used facilities and equipment would become the gross replacement cost for purposes of § 210.3-17. Disclosure should be made if used facilities and equipment provide the basis for replacement of a significant portion of productive capacity.

G. ADDITIONAL LAND REQUIRED TO REPLACE PRODUCTIVE CAPACITY

Facts:

Occasionally, significant amounts of land, in addition to that already owned, must be acquired to replace productive capacity. For instance, textile manufacturing companies are replacing old multi-level facilities with single-level facilities, which are more efficient using modern techniques but which require larger plant sites.

Question:

Should the cost of the additional land be included in the replacement cost disclosures?

Interpretive Response:

In general, § 210.3-17(c) does not require disclosure of the replacement cost of land. If the cost of the additional land to be acquired is estimated to be significant, supplemental disclosure may be required by § 210.3-17(f).

H. ASSETS NOT TO BE REPLACED

Facts:

Section 210.3-17(c) states: "In the case of any major business segments which the company does not intend to maintain beyond the economic lives of existing assets, the disclosures set forth in subsections (c) and (d) of this section are not required provided full disclosure of the facts, amounts and circumstances is made."

Question:

In demonstrating "intent," is it necessary to have a formal plan of disposal (see paragraph 14 of APB Opinion No. 30)?

Interpretive Response:

The disclosure by management of its intent to reduce productive capacity is not likely to be made without careful consideration. For this reason, it presently does not seem necessary to require the existence of a formal plan.

I. PRODUCTIVE CAPACITY OF RETAILERS

Facts:

Because of construction, design and fixturing changes in recent years, retailers have been able to reduce the number of square feet in newly constructed and leased stores while at the same time maintaining the same volume and merchandise capacity, as well as physical appeal and other characteristics of larger stores.

Question:

In computing the replacement cost of existing productive capacity, should such computations be based upon the cost of replacing the larger number of retailing square feet or is it more appropriate to use the cost based upon the reduced footage?

Interpretive Response:

It would seem that a reasonable basis for expressing the productive capacity of a retailer would be potential sales volume. For example, a store of current design employing vertical fixturing and with 100,000 square feet may have the same potential sales capacity as an existing store employing horizontal fixturing and with 120,000 square feet. Inasmuch as recent technological change has resulted in greater volume per square foot and replacement cost is defined as "the lowest amount that would have to be paid in the normal course of business to obtain a new asset of equivalent operating or productive capacity," it is the staff's view that it would be appropriate to use the reduced footage as the basis for the replacement cost computations.

J. UNDERUTILIZATION OF PRESENT FACILITIES

Facts:

A registrant is currently operating major facilities at 70 percent of total physical capacity.

Question:

Is productive capacity for the purpose of computing replacement cost total physical capacity or the present utilization of physical capacity (in this instance, 70 percent of the physical capacity)?

Interpretive Response:

The determination of productive capacity will necessarily require analysis of the facts pertaining to each situation. In making such analysis, it may be useful to distinguish between idle capacity (temporary or normal underutilization without long-run consequence) and excess capacity (a permanent decline in utilization).

Rarely are productive facilities operated near 100% capacity. Recession, seasonal variation, capacity additions planned to satisfy future growth and increasing marginal costs as actual production approaches theoretical capacity all contribute to normal conditions of varying underutilization. Normal instances of underutilization (idle capacity) are a fact of business life that would not require adjustment in replacement costing.

On the other hand, there may be unusual instances in which capacity is far in excess of foreseeable requirements, caused by relatively permanent changes in the business having long-run consequence (e.g., declining market or permanent shortage in raw materials supply). Excess capacity would be analogous to a segment of capacity that management would not replace; and, therefore, replacement cost data related to the excess capacity would be irrelevant and not reported. One indication of permanent excess capacity would be underutilized facilities for which a write down of historical book value would be appropriate; however, analysis of excess capacity should not be restricted solely to such instances, because, for example, excess capacity may occur in older plants where historical book value is not significant enough to warrant adjustment.

• • • • •

8. DISCLOSURE OF METHODS AND OTHER INFORMATION

D. SCHEDULE OF HISTORICAL COST FINANCIAL STATEMENT ITEMS INCLUDED IN AND EXCLUDED FROM THE REPLACEMENT COST DISCLOSURES

Facts:

Section 210.3-17 requires certain amounts to be included in the replacement cost data which are not part of the historical cost data (e.g., noncapitalized financing leases) and permits the exclusion of certain other amounts from the replacement cost requirement which are included within the historical cost data (e.g., land, and, for one year, mineral resource assets and assets located outside the North American continent and the countries of the European Economic Community). When material amounts are involved, it would seem appropriate to provide a schedule to enable the reader to

V 41 163 AUG 20 76 UMI

make a comparison between the historical cost data and the replacement cost data.

Question:

Does the staff have any suggestions or preferences for the format of such a schedule of items included in and excluded from the replacement cost disclosures?

Interpretive Response:

A schedule is usually helpful to enable comparisons with the historical cost data, when differences occur between the items included in or excluded from the replacement cost data, as described above.

The staff has no preferences for the format of such a schedule. A major public accounting firm has suggested the following as a possible format for inventories and productive capacity which appears acceptable:

	Inventories (thousands)	Property, plant, and equipment
Amounts for which replacement cost data are provided	$421,300	$1,215,112
Present value of future rentals for noncapitalized financing leases as determined at inception of the leases (deduction)	.....	(104,912)
Obsolete and discontinued inventory items—at net realizable value	17,900	.....
Land—at cost	.....	25,600
Assets outside the North American continent and the European Economic Community and mineral resource assets—at cost	11,800	44,900
Total as shown on the accompanying consolidated balance sheet	451,000	1,180,600

B. REPLACEMENT COST DEPRECIATION IN OTHER REPLACEMENT COST DATA

Facts:

The following language is contained in § 210.3–17(e): "If depreciation, depletion or amortization expense is a component of inventory costs or cost of sales, indicate that fact and cross-reference the answer for this subsection in subsection (b) [replacement cost of sales] in order to avoid potential duplication in the use of these data."

Question:

Is the intent of the above to require that replacement cost depreciation be included in the amounts disclosed for replacement cost of inventories and cost of sales?

Interpretive Response:

The purpose of the above language is to avoid double-counting depreciation expense.

Many companies allocate depreciation expense to cost of sales, selling, general and administrative expense and other accounts, while other companies report depreciation expense as a single-line item in their income statements. Companies reporting in the former format might inadvertently "double-count" the element of depreciation expense allocated to cost of sales, first when reporting cost of sales (which would include an allocation of depreciation expense) and second when reporting total depreciation. To avoid such double-counting, § 210.3–17(e) requires a cross-reference.

For example, the following would be appropriate methods of providing this cross-reference for cost of sales:

	Historical cost	Replacement cost
Method 1:		
Cost of sales (including $300,000 historical cost depreciation and $500,000 replacement cost depreciation)	$7,000,000	$10,000,000
Depreciation expense (exclusive of amounts allocated to cost of sales)	500,000	750,000
Method 2:		
Cost of sales (exclusive of depreciation expense)	6,700,000	9,500,000
Depreciation expense (including $300,000 historical cost and $500,000 replacement cost depreciation applicable to cost of sales)	800,000	1,250,000

F. FURTHER DETAILS OF REPLACEMENT COST DATA

Facts:

Section 210.3–17 requires disclosure of inventories and gross and net productive capacity (frequently equivalent to gross and net property, plant and equipment). Regulation S–X requires details of historical cost amounts of inventories (raw materials, work-in-process, finished goods, etc.) and property, plant and equipment (land, buildings, machinery and equipment, etc.).

Question:

Are equivalent details required for replacement cost data?

Interpretive Response:

Section 210.3–17 does not require such details; however, the staff believes they will frequently be useful to readers of financial statements and encourages registrants to provide them.

9. MISCELLANEOUS

B. LAND HELD FOR INVESTMENT

Facts:

Company A (not a real estate development company) owns lands which is held for investment (probable bulk sale anticipated rather than development into housing, commercial or industrial projects).

Question 1. Is such land includible in property, plant and equipment for the purpose of determining whether Company A has inventory and gross property, plant and inventory in excess of $100 million?

Interpretive Response:

No.

Question 2. Assuming Company A has inventories and gross property, plant and equipment in excess of $100 million, must replacement cost data be provided for the land held for investment?

Interpretive Response:

No.

10. APPLICABILITY OF § 210.3–17

A. EXEMPTIONS

Facts:

Section 210.3–17 permits delayed application for mineral resource assets and certain foreign assets.

Question 2. What assets are subject to the one year exemption for mineral resource assets for those industries (such as steel and portland cement) in which companies own mineral resources, all or some of which are used in their manufacturing operations?

Interpretive Response:

Mineral resource assets are defined as "those costs shown on the balance sheet representing assets which are directly associated with and which derive value from mineral reserves." For industries such as the steel and portland cement industries, mineral resource assets would be limited to those assets representing costs of acquiring and developing mineral reserves and would not include any costs of their manufacturing operations.

C. DELAYED EFFECTIVENESS FOR MINERAL RESOURCE ASSETS AND CERTAIN FOREIGN ASSETS

Facts:

Section 210.3–17 requires that replacement cost data related to assets located within the North American continent and the countries of the European Economic Community be disclosed for fiscal years ending on or after December 25, 1976.

Question 4. What should be the basis for determining whether or not assets such as ships engaged in international trade and drilling rigs are subject to the one-year exemption?

Interpretive Response:

Generally, the country of registry should be the basis for such determination. Replacement costs for such assets may be more susceptible to determination than for certain other types of foreign assets; and, while not required prior to December 25, 1977, the staff encourages earlier compliance, if practicable.

Question 5. When a contract is let by one company of a controlled group (which may include companies and involve a customer located outside the North American continent and the countries of the European Economic Community) and when that company in turn subcontracts all or part of the work to other companies in the group, should the origin of the costs, location of the materials, or location of the customer govern for purposes of § 210.3–17?

Interpretive Response:

The staff will not object if either origin of cost or location of the materials is used as the basis for determining that replacement cost data need not be provided for fiscal years ending prior to December 25, 1977. The staff does not believe that location of the customer should govern.

D. SIZE TEST

Question 2. In determining whether a registrant has inventories and gross property, plant and equipment in excess of $100 million, should inventories and property, plant and equipment of unconsolidated subsidiaries and companies accounted for on the equity method be added to the inventories and gross property, plant and equipment of the registrant and its consolidated subsidiaries?.

Interpretive Response:

No.

E. COMPARATIVE DATA IN FIRST YEAR OF APPLICABILITY

Facts:

Company A is exempt from the requirements of ASR No. 190 for 1976. However, at the beginning of 1977 the total of inventory and gross property, plant and equipment exceeds $100 million and 10% of total assets. Consequently, replacement cost information is required to be presented with its 1977 financial statements.

Question:

Is Company A required to present replacement cost information for both 1976 and 1977 or only for 1977?

Interpretive Response:

Section 210.3–17 provides that replacement cost information for both 1976 and 1977 must be presented. However, if the preparation of such data for 1976 would cause an undue burden, the registrant should request a waiver of this provision and the staff will generally be responsive to such a request.

F. USERS OF FORM 12–K

Facts:

Certain registrants satisfy their Securities Exchange Act of 1934 annual financial information reporting requirements by filing Form 12–K. This form may be used by the issuers specified below for annual reports pursuant to Section 13 or 15(d) of the 1934 Act:

(1) Any issuer which files annual reports with the Federal Power Commission on that agency's Form No. 1 or Form No. 2 and whose annual report to stockholders for its last fiscal year contains financial statements (other than schedules) prepared and certified substantially in accordance with Regulation S–X;

(2) Any issuer which files annual reports with the Interstate Commerce Commission pursuant to Section 20, 220, or 313 of the Interstate Commerce Act; or

(3) Any issuer which files annual reports with the Federal Communications Commission pursuant to Section 219 of the Communications Act of 1934.

The latter two issuer groups, (2) and (3) above, are not required to comply with Regulation S–X; issuers in group (1) are required to comply with Regulation S–X.

Question:

Are companies that use Form 12–K and that are not required to comply with Regulation S–X required to supplement such form with replacement cost information?

Interpretative Response:

No, although the staff strongly recommends such disclosure. Registrants using Form 12–K should be aware that the staff is giving serious consideration to recommending to the Commission that Form 12–K be eliminated; in which case, those registrants presently using this form would be required to use Form 10–K for years commencing after December 31, 1976.

[FR Doc.76–24354 Filed 8–19–76;8:45 am]

[Release No. 34–12700]

PART 240—GENERAL RULES AND REGULATIONS SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Modification of SECO Fees and Assessments

The Securities and Exchange Commission announced today that it has adopted modifications to its fee schedule and to the list of annual assessments for fiscal year 1976 payable to the Commission by registered broker-dealers who are not members of the National Association of Securities Dealers, Inc. ("non-member" or "SECO" broker-dealers). The Commission also has adopted amendments to Rule 15b9–2 (17 CFR 240.15b9–2) to conform the SECO fiscal year to the new federal fiscal year, October 1–September 30.[1] Accordingly, SECO charges for fiscal year 1976 will be based upon the fifteen month period from July 1, 1975, to September 30, 1976. As a result of this change, the last date for filing Form SECO–4–76 is September 1, 1976.[2]

Sections 15(b)(7) and 15(b)(8) (15 U.S.C. 78o(b)(7) and (b)(8)) of the Securities Exchange Act of 1934 (the "Act"), as recently amended,[3] authorize the Commission to collect such reasonable fees and charges as may be necessary to defray the costs of additional regulatory duties required to be performed with respect to nonmember broker-dealers and their associated persons.[4] Pursuant to these sections, the Commission's Rule 15b9–1 (17 CFR § 240.15b9–11) establishes initial entry fees and Rule 15b9–2 provides for annual assessments. Under the amendments adopted today, the special instructions to Form U–4 (formerly Form SECO–2) under Rule 15b9–1, which sets initial fees paid by SECO broker-dealers on behalf of new associated persons, are revised and a new Form SECO–4–76 under Rule 15b9–2, which establishes the levels for annual nonmember assessments for the current fiscal year, is adopted.

The Commission has this year determined to modify the annual SECO assessment schedule to include a gross income levy, in order to mitigate possible inequities in the current assessment structure. Up to the present time, there has been no SECO levy directly related to the volume of business done by SECO firms; the main source of SECO revenue has been the fees and assessments related primarily to the number of securities personnel employed by each firm. The Commission believes that a gross income assessment based upon securities revenue will produce a more equitable method of assessment and can be administered without undue burden on SECO firms or the Commission.

As a result of the introduction of the new gross income levy, certain other charges will be reduced, as indicated below.

INITIAL FEES FOR NONMEMBER BROKER-DEALERS

Rule 15b9–1 provides that every broker or dealer who becomes registered with the Commission and who does not make a bona fide application for membership to a registered securities association within 45 days of such registration must file with the Commission a Form U–4 on behalf of each associated person and pay to the Commission the fee prescribed by the form. This form also must be filed and an initial fee paid each time an individual becomes associated with a SECO-broker. The fee for fiscal year 1975 was $50; the reduced fee, to be set forth on the revised special instructions to Form U–4, is $35.[5] The text of the special instructions to Form U–4, as adopted, is as follows:

SPECIAL INSTRUCTIONS FOR COMPLETING FORM U–4 UNIFORM APPLICATION FOR SECURITIES AND COMMODITIES INDUSTRY REPRESENTATIVE AND/OR AGENT

NON-MEMBER ("SECO") BROKER-DEALERS

1. Rule 15b8–1 under the Securities Exchange Act of 1934 ("Act") provides that this Form must be filed by every broker or dealer registered under Sections 15 or 15B of the Act who is not a member of a registered securities association (*e.g.*, the National Association of Securities Dealers, Inc.) for every associated person engaged directly or indirectly in securities activities for or on behalf of such nonmember broker or dealer, before such person engages in any activities on behalf of such broker or dealer unless such broker-dealer is qualified for an exemption from compliance with this Rule.

2. A filing fee of $35 must accompany this Form. A check should be made payable to the Securities and Exchange Commission and mailed with one (1) copy of this Form to the Office of the Comptroller.

3. Under Sections 15(b), 17(a) and 23(a) of the Act and the rules and regulations thereunder, the Commission is authorized to solicit the information required to be supplied by this Form from associated persons of non-member (SECO) broker-dealers. Although it is not required that social security numbers be disclosed, such voluntary disclosure will assist the Commission in identifying applicants and in promptly processing the Forms. Information supplied on this Form shall be non-public but will be available to any person to whom the Commission authorizes disclosure in the public interest. Routine uses of Form U–4 are described on the reveres side of these Special Instructions.

4. A Form which is not prepared and executed in compliance with applicable requirements may be returned as not acceptable for filing. Acceptance of this Form, however, shall not constitute any finding that the information submitted is true, current, or complete. Intentional misstatements or omissions of fact may constitute federal criminal violations. (See 18 U.S.C. 1001 and 15 U.S.C. 78ff (a)).

[1] These amendments were published for comment in Securities Exchange Act Release No. 12490 (May 28, 1976); 41 FR 23423 (June 10, 1976). Those comments received by the Commission have been given due consideration.

[2] Because of the changes to Form SECO–4–76 and to give respondents adequate time to file, the last date for filing and payment, for this year only, is extended to September 10, 1976.

[3] The numbering of these sections was changed by the 1975 Amendments to the Securities Exchange Act of 1934 (Pub. L. 94–29 (June 4, 1975)); they were formerly sections 15(b)(8) and 15(b)(9), respectively.

[4] SECO fees and assessments are in addition to any charges levied by the Municipal Securities Rulemaking Board.

[5] This fee is in addition to the fee required by the Commission pursuant to Rule 15b8–1 to defray the costs of administering qualifications examination and other expenses. This fee is presently $30.

V 41 163 AUG 20 76 UMI

5. Applicants should note the provisions of Sections 15(b)(7), (8) and (9) of the Securities Exchange Act of 1934 and the Rules thereunder. Form SECO–5, setting an initial fee of $500 for new SECO broker-dealers, remains unchanged.

ANNUAL ASSESSMENTS FOR FISCAL YEAR 1976

The annual assessment for each fiscal year is set forth on Form SECO–4 for that year. As indicated above, the Commission has amended the annual SECO assessment structure to provide for a .375 percent annual assessment, based upon the nonmember's gross annual over-the-counter securities income as shown on the firm's most recent Form X–17A–10 required to be on file with the Commission under the Act. Because of the change in the Commission fiscal year from July 1 to October 1, the Commission must, for this year only, recover regulatory expenses for a 15-month period from July 1, 1975 to September 30, 1976. The basic membership assessment of $250 is retained; however, the annual personnel assessment paid by each firm for each associated person is reduced from $15 to $5.

The revised special instructions to Form SECO–4–76 for computing and reporting gross income for assessment purposes are as follows:

FORM SECO–4–76 INSTRUCTIONS

1. Rule 15b9–2 under the Securities Exchange Act of 1934 (the "Act") provides that brokers or dealers registered with the Commission as of August 15, 1976 who were nonmember brokers or dealers for at least 45 days immediately prior to that date or who were nonmember brokers or dealers for at least 90 days during the period beginning July 1, 1975 and ending August 15, 1976 shall, on or before September 1, 1976, file Form SECO–4–76 and pay to the Commission a fee pursuant to Section 15(b)(8) of the Act to defray certain costs of regulation for the fiscal year ending September 30, 1976. The term "nonmember broker or dealer" is defined in paragraph (f)(2) of Rule 15b9–2.

2. Rule 15b9–2 provides that brokers or dealers who were nonmember brokers or dealers for less than 180 days during the period beginning July 1, 1975 and ending August 15, 1976 shall pay one-half the fees otherwise payable pursuant to Section 15(b)(8) for the fiscal year 1976.

3. Checks should be made payable to the "Securities and Exchange Commission" and mailed to the Office of the Comptroller, Securities and Exchange Commission, Washington, D.C. 20549.

4. If the space provided for any answer is insufficient, the complete answer should be prepared on a separate sheet which should be attached to the form and identified as "Answer to Item ------."

5. Failure to include or file information required to be reported or the making of any false statements may result in the institution of administrative or civil proceedings. Moreover, intentional misstatements or omissions of material facts constitute federal criminal violations punishable by up to five years imprisonment and fines up to $10,000 for each offense. (See 18 U.S.C. 1001 and Section 32(a) of the Act.)

6. Willful nonpayment of fees prescribed by the Commission pursuant to its authority under Section 15(b)(8) may result in the institution of disciplinary proceedings under Sections 15(b)(4) and 15(b)(5) of the Act.

7. Each SECO broker-dealer subject to Rule 15b9–2 is to report gross income from over-the-counter transactions in corporate, state, municipal and other securities for the preceding calendar year. Please refer to Table A or your firm's Form X–17A–10 filed for calendar year 1975 for assistance in computing such gross income. Gross income includes profits, commissions, surcharges, concessions, fees, allowances, discounts and reimbursements for expenses before the deduction of any expenses other than any commissions, concessions or other allowances paid to another member in connection with the execution or clearance of any transactions. Gross income does not include interest and dividends, transaction fees, commissions derived from transactions executed on a national securities exchange or a foreign securities exchange and fees received solely for investment advisory services. Also excluded are profits and losses derived from (1) transactions in which both the purchase and sale are executed outside the territorial limits of the United States, (2) transactions in exempted securities as defined in Section 3(a)(12) of the Act, (3) transactions in commercial bank time certificates of deposit and commercial paper, which is defined to include drafts, bills of exchange, and bankers acceptances having maturities at the time of issuance of not exceeding one year, and (4) transactions in securities which are clearly identified by the firm to be held specifically for investment purposes as described in Section 1236 of the Internal Revenue Code.

NOTICE OF DUE DATE FOR FILING FORM SECO–4–76 AND ANNUAL ASSESSMENTS

Broker-dealers filing Form SECO–4–76 and annual assessments should note that, because of the amendments to the SECO assessment schedule and to Rule 15b9–2, the due date for SECO assessments is September 1, 1976.

AMENDMENTS TO RULE 15b9–2

The Commission believes it is appropriate to conform the SECO fiscal year, which is presently July 1–June 30, to the new federal fiscal year, October 1–September 30. Accordingly, the Commission has adopted amendments to Rule 15b9–2 to reflect changes in the filing, payment and applicability dates resulting from the proposed new SECO fiscal year. The Commission also has adopted various technical amendments to the rule including clarifications of the usage of the terms "fee" (generally a non-periodic charge based upon the occurrence of a specific event) and "assessment" (a regular, annual levy) and deletions of several sections of the rule which are no longer applicable.

STATUTORY BASIS FOR COMPETITIVE CONSIDERATIONS

These modifications of fees and fiscal year 1976 assessments for nonmember (SECO) broker-dealers and amendments to Rule 15b9–2 are adopted pursuant to the Securities Exchange Act of 1934 and particularly Sections 15(b)(8), 15(b)(9), 17(a) and 23(a) thereof. The Commission finds that any burden imposed upon competition by the proposed amendments is necessary and appropriate in furtherance of the purposes of the Act, particularly to implement the Commission's continuing mandate under Section 15(b)(8) to collect such reasonable fees and charges as may be necessary to defray the costs of the specified regulatory duties required to be performed with respect to nonmember broker-dealers.

TEXT OF RULE 15b9–2

Securities Exchange Act Rule 19b9–2 (Section 240.15b9–2) is amended to read as follows:

§ 240.15b9–2 Annual assessment for registered brokers and dealers not members of a registered securities association.

(a) *Applicability.* This rule shall apply to every nonmember broker or dealer who, on August 15 of any particular year, has been a nonmember broker or dealer for a period of at least 45 days immediately prior to such date, and any other broker or dealer registered with the Commission on August 15 of any particular year who has been a nonmember broker or dealer for a period of at least 90 days after October 1 of the previous year.

(b) *Assessments.* On or before September 1 of each year, every broker or dealer to whom this rule applies shall file the Form SECO–4 provided for the particular fiscal year and pay the total assessments prescribed by the form. Such assessments shall include: (1) A base assessment applicable to all brokers or dealers, and (2) An assessment for each associated person engaged, directly or indirectly, in securities activities for or on behalf of the broker or dealer prior to August 15 during the fiscal year, at any time in which the broker or dealer was a nonmember broker or dealer: *Provided, however,* That the assessment shall not be paid for any person who confines his securities activities to areas outside the United States, its territories and possessions, and who does not deal with or act for any U.S. resident or national wherever located.

(c) *Reductions.* Brokers or dealers who were nonmember brokers or dealers for less than 180 days shall pay one-half the assessments required by this rule.

(d) *Penalties.* Every broker or dealer who fails to pay assessments as and when required by this rule shall pay an additional amount of $100 to defray the administrative costs incurred as a result of such failure.

(e) *Exemptions.* A broker or dealer shall not be required to pay the assessments required by this rule if:

(1) He has made a bona fide application for membership to a registered securities association within 45 days of his becoming registered with the Commission as a broker or dealer and such application for membership is still pending on August 15 of the particular year in which the assessments are due; or

(2)(i) His application for membership in a registered securities association has been denied or withdrawn, or his membership has been denied or withdrawn, or his membership has been terminated for any reason; (ii) he has immediately discontinued all securities activities; and (iii) he has filed Form BDW (Notice of Withdrawal From Registration) within 45 days after such denial, withdrawal, or termination; or

(3)(i) He is a member of a national securities exchange; (ii) he carries no accounts for customers; and (iii) his annual gross income derived from purchases and sales of securities otherwise than on a national securities exchange of which he is a member is an amount no greater than $1,000, *Provided however,* That gross income derived from transactions otherwise than on such national securities exchange which are effected for his own account with or through another registered broker or dealer shall not be subject to such limitation.

(f) *Definitions.* For the purpose of this rule: (1) The term "associated person" shall mean any partner, officer, director, or branch manager of a broker or dealer (or any person occupying a similar status or performing similar functions), or any natural person directly or indirectly controlling or controlled by such broker or dealer (other than one whose functions are solely clerical or ministerial), and any broker or dealer conducting business as a sole proprietor.

(2) The term "nonmember broker or dealer" shall mean any broker or dealer, including a sole proprietor, registered under Section 15 or 15B* of the Act, who is not a member of a registered securities association.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

AUGUST 11, 1976.

[FR Doc.76–24357 Filed 8–19–76;8:45 am]

Title 20—Employee Benefits

CHAPTER V—EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

PART 602—COOPERATION OF THE UNITED STATES EMPLOYMENT SERVICE AND STATES IN ESTABLISHING AND MAINTAINING A NATIONAL SYSTEM OF PUBLIC EMPLOYMENT OFFICES

Wage Rates for Temporary Foreign Agricultural Labor

On June 22, 1976, the Employment and Training Administration of the Department of Labor published a notice of proposed rulemaking in the FEDERAL REGISTER (41 FR 25017) proposing to revise the regulations at 20 CFR 602.10, 602.10a and 602.10b which are applicable to the importation of aliens for certain temporary agricultural work. Interested persons were given 15 days in which to file written statements, data, views or arguments regarding the proposed amendments. Substantive comments have been received concerning the proposed amendments.

Several comments were received from employer associations as follows:

Comments regarding the proposal to amend § 602.10(b) to allow the Department of Labor 60 days to determine the availability of domestic workers suggested that such a period is too long for the grower to know his employment needs for the harvest.

Comments regarding the proposed change in meal rates at § 602.10a(f) suggested that the proposed $4.00 maximum rate was too low, and that the amount allowed without special authority from the Department of Labor be raised from the present $2.55 to $3.15.

Comments regarding the proposed wage rates at § 602.10b(a)(1) questioned the differences in rates between contiguous States. There was also a suggestion that harvest area rates be used and that the fluctuation in wage rates be minimized by the Department. Comments were also received regarding the constituent parts of the formula. One comment suggested that piece-rate data from the United States Department of Agriculture be used rather than Field and Livestock Workers data. Another suggestion was to use the quarterly wage rate applicable to a harvest activity rather than the annual figure. Another comment suggested that since there have been changes in labor conditions since 1968, when the present formula was originally established, the formula should be changed.

Several comments were also received from farmworker groups regarding the proposed changes as follows:

Some comments regarding the proposal to amend § 602.10(b), which expands from 30 days to 60 days the period in which the Department of Labor has to determine the availability of domestic workers, argued that this period was too short. A comment was also received to make the 60-day requirement mandatory, and not discretionary with the Department.

Comments regarding the proposed change in meal rates at § 602.10a(f) were that it decreases worker earnings.

Comments regarding the proposed wage rates at § 602.10b(a)(1) were that they were too low and should be set high enough to attract domestic workers. It was suggested that the rate should discourage the need for foreign workers by recognizing the "wage inflation" that would result absent the availability of foreign workers. It was suggested that the rate should prevent the displacement of "any" domestic workers and should not yield below what is available as unemployment insurance benefits. Comments also questioned the formula for determining wage rates.

The comments received went to matters which were considered by the Department and were discussed in the preamble of the proposal. The issue of attractive wages was the subject of litigation in *Williams* v. *Usery*, 531 F.2d 305 (5th Cir. 1976) wherein the court found "no legal basis for imposing an obligation on the Secretary to set an 'attractive' wage." We have considered all comments received and the matters they address and do not deem it desirable to change the provisions as set forth in the proposal.

Comments were also received from both groups that the time to submit comments was too short. The Department believes that the time for comments was sufficient in light of the fact that these revisions are an annual process, the comments received adequately covered all positions, and the Department did review comments received late although no new issues were raised.

After all the submissions were weighed, the proposed changes were deemed to be appropriate for protecting the public interest as defined by the statute and regulations.

At section 602.10b of the proposed amendment, § 602.10b(f) should have been designated as § 602.10a(f). The error was minor, since the complete paragraph, with change, was reproduced, in its entirety, and incorporated a complete substantive provision of the regulation. There is no indication that there was any confusion because of this error.

Accordingly, the proposed amendments to 20 CFR §§ 602.10, 602.10a and 602.10b are hereby adopted and the regulations as set forth herein shall become effective September 20, 1976.

1. As amended, 20 CFR 602.10(b) reads as follows:

§ 602.10 The certification process.

* * * * *

(b) Agricultural or logging employers including association employers anticipating a labor shortage may request a certification for temporary foreign labor, provided that the employer or the association and those of its members for whom the services of foreign workers are requested, prior to making such a request, have filed at the local office of the State employment service an offer of employment for U.S. workers to fill such employment needs in accordance with the provisions of this section and §§ 602.10a and 602.10b. Such offers of employment, as well as any request for certification for temporary foreign workers, should be filed at the local office in sufficient time to allow the ETA 60 days to determine the availability of domestic workers, in addition to the time necessary for the employer to secure foreign workers by the date of need if the certification is approved.

* * * * *

2. As amended, 20 CFR 602.10a(f) reads as follows:

§ 602.10a Job offers and contracts.

* * * * *

(f) Permit no charge by the employer in excess of $2.55 per worker for furnish-

*This change became effective on July 5, 1976. See Securities Exchange Act Release No. 12468, 41 FR 22820 (June 7, 1976).

V 41 163 AUG 20 76 UMI

ing 3 meals per day except where the Administrator, when evidence submitted to him of average actual cost for a representative pay period supports a greater charge, has approved a charge not to exceed $4.00 per worker for furnishing three meals per day. Evidence submitted to support meal charges of more than $2.55 per day should include the costs of goods and services directly related to the preparation and serving of meals. Cost of the following items may be included: Food; kitchen supplies other than food, such as lunch bags and soap; labor costs which have a direct relation to food service operations, such as wages of cooks and restaurant supervisors; fuel, water, electricity, and other utilities used for the food service operations; other costs directly related to the food service operation. Receipts and other cost records for the representative pay period should be available for inspection for a period of 1 year.

• • • • • •

3. As amended, 20 CFR 602.10b(a)(1) reads as follows:

§ 602.10b Wage rates.

(a)(1) Except as otherwise provided in this section, the following hourly wage rates (which have been found to be the rates necessary to prevent adverse effect upon U.S. workers) shall be offered to agricultural workers in accordance with § 602.10a(j):

State:	Rate
Connecticut	$2.61
Florida (sugar cane only)	3.04
Maine	2.69
Maryland	2.27
Massachusetts	2.56
New Hampshire	2.82
New York	2.48
Vermont	2.78
Virginia	2.44
West Virginia	2.74

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[Docket No. 76F-0040]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

The Food and Drug Administration is amending the food additive regulations to provide for the safe use of 4-(diiodomethylsulfonyl) toluene as a component of food-packaging adhesives; effective August 20, 1976; objections by September 20, 1976.

Notice was given by publication in the FEDERAL REGISTER of March 10, 1976 (41 FR 10236) that a food additive petition (FAP 6B3140) had been filed by Abbott Laboratories, North Chicago, IL 60064, proposing that § 121.2520 (21 CFR 121.2520) be amended to provide for the safe use of diiodomethyl p-tolyl sulfone as a component of food-packaging adhesives. The International Union of Pure and Applied Chemistry name for the compound is 4-(diiodomethylsulfonyl) toluene.

The Commissioner, having evaluated data in the petition and other relevant material, is amending the regulation as set forth below to provide for use of 4-(diiodomethylsulfonyl) toluene as an anti-fungal preservative in adhesives used as components of articles intended to contact food.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), § 121.2520 (c)(5) is amended by alphabetically inserting a new item in the list of substances under "Components of Adhesives" as follows:

§ 121.2520 Adhesives.

• • • • • •

(c) • • •

(5) • • •

COMPONENTS OF ADHESIVES

Substances	*Limitations*
• • •	• • •
4-(Diiodomethylsulfonyl) toluene CA Registry No.: 20018-09-01.	For use as an anti-fungal preservative only.
• • •	• • •

Any person who will be adversely affected by the foregoing regulation may at any time on or before September 20, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This regulation shall become effective August 20, 1976.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: August 13, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-24407 Filed 8-19-76;8:45 am]

[Docket No. 75F-0156]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

OLEFIN POLYMERS

The Food and Drug Administration is amending the food additive regulation for olefin polymers to provide for the safe use of 7-(2*H*-naphtho[1,2-*d*]triazol-2-yl)-3-phenylcoumarin as an optical brightener in polyolefin articles intended to contact food; effective August 20, 1976; objections by September 20, 1976.

Notice was given by publication in the FEDERAL REGISTER of August 27, 1975 (40 FR 38184) that a petition (FAP 3R2851) had been filed by Sandoz Colors & Chemicals, Inc., East Hanover, NJ 07936, proposing that the food additive regulations (21 CFR Part 121) be amended to provide for the safe use of the chemical, as noted above.

The Commissioner of Food and Drugs, having evaluated data on the petition and other relevant material, concludes that Part 121 (21 CFR Part 121) should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), § 121.2501 is amended by revising paragraph (b) to read as follows:

§ 121.2501 Olefin polymers.

• • • • • •

(b) The basic olefin polymers identified in paragraph (a) of this section may contain optional adjuvant substances required in the production of such basic olefin polymers. The optional adjuvant substances required in the production of the basic olefin polymers or finished food-contact articles may include substances permitted for such use by applicable regulations in this Part 121, substances generally recognized as safe in food and food packaging, substances used in accordance with a prior sanction or approval, and the following:

Substance	*Limitations*
7-(2*H*-Naphtho[1,2-*d*] triazol-2-yl)-3-phenylcoumarin [Chemical Abstracts Service Registry No. 3333-62-8] having a melting point of 250 to 251° C and a nitrogen content of 10.7 to 11.2 percent.	For use as an optical brightener only at levels not to exceed 20 parts per million by weight of olefin polymers having a thickness of 0.025 inch or less and complying with the specifications for items 1.1, 2.1, 3.1, 3.3, and 4 of paragraph (c) of this section; and under the conditions described in § 121.2526(c), table 2 under conditions of use E through G.

• • • • • • • •

Any person who will be adversely affected by the foregoing regulation may at any time on or before September 20, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This regulation shall be effective August 20, 1976.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: August 13, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner, for Compliance.

[FR Doc.76-24364 Filed 8-19-76;8:45 am]

[Docket No. 75N-0067]

PART 310—NEW DRUGS

Radioactive New Drugs and Radioactive Biologics; Extension of Time for Continued Commercial Distribution

The Food and Drug Administration (FDA) is extending the time during which commercial distribution of certain radioactive drugs, including certain radioactive biological products, will be permitted pending final approval of a new drug application; effective August 20, 1976.

In the FEDERAL REGISTER of February 20, 1976 (41 FR 7747), the Commissioner of Food and Drugs extended the time for continued commercial distribution of drug products containing those radionuclides listed in § 310.503 (c) and (f) (21 CFR 310.503 (c) and (f)) until FDA issued a nonapprovable notice for a new drug application or application for a biological product license, or terminated a "Notice of Claimed Investigational Exemption for a New Drug" (IND), or until the stated deadline of August 20, 1976, whichever occurred first. The action was taken to prevent any interruption in the availability of these already-marketed radioactive drugs and to allow FDA sufficient time to review all the applications submitted to the agency in accordance with § 310.503.

The Commissioner has determined that, if an approvable notice is issued on or before August 20, 1976 for a new drug application (NDA) submitted under § 310.503, a further extension of time is warranted for the continued commercial distribution of the drug product subject to the application. The Food and Drug Administration issues an approvable notice only if the agency's review of the application determines that the basic issues regarding the drug product's safety and effectiveness have been resolved affirmatively. The approvable notice notifies the applicant that FDA is prepared to approve the application after submission of additional information, such as the final printed labeling. Thus an extension of time allowing the continued commercial distribution of a radioactive new drug subject to a new drug application submitted under § 310.503 will not, in the Commissioner's judgment, subject the public to unsafe or ineffective drug products if FDA has determined that the NDA is approvable. Rather, the Commissioner believes that forced removal from the market of these radioactive drug products while the applicant submits this information would interrupt the supply of these medically important drug products (many of which have been generally available under an IND) and thus would not be in the interests of the public health. Therefore, if an applicant has submitted an NDA in accordance with § 310.503 and is notified in writing by FDA on or before August 20, 1976 that the application is approvable, the manufacturer may continue to market the radioactive new drug without an approved NDA until either the issuance of a nonapprovable letter by the agency or until November 20, 1976, whichever occurs first. After August 20, 1976, no radioactive new drug, including a radioactive biological product, may be commercially marketed without an approved NDA or an approvable new drug application as provided for by this notice. An IND will not permit continued commercial distribution of such a drug after August 20, 1976.

The Commissioner has concluded that this extended date imposes no additional burden on the medical community or on marketers of these important radioactive drugs. In addition, the extended date imposes no lesser degree of protection of the public health. Therefore, the Commissioner finds, for good cause, that notice and public procedure are not required for promulgation of this amendment and that it shall be made effective on August 20, 1976.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 505, 701 (a), 52 Stat. 1052-1053, as amended, 1055 (21 U.S.C. 355, 371(a))), the Public Health Service Act (sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262)) and under authority delegated to him (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the Commissioner is amending Part 310 in § 310.503 by revising paragraphs (d) (3) and (f)(5) to read as follows:

§ 310.503 Requirements regarding certain radioactive drugs.

• • • • • •

(d) • • •

(3) The exemption referred to in paragraph (a) of this section, as applied to any drug or biologic containing any of the isotopes listed in paragraph (c) of this section, in the "chemical form" and intended for the uses stated, for which drug a new drug application or a "Notice of Claimed Investigational Exemption for a New Drug" was submitted prior to March 3, 1972, or for which biologic an application for product license or "Notice of Claimed Investigational Exemption for a New Drug" was submitted prior to March 3, 1972, is terminated on August 20, 1976, unless an approvable notice was issued on or before August 20, 1976, in which case the exemption is terminated either upon the subsequent issuance of a nonapprovable notice for the new drug application or on November 20, 1976, whichever occurs first.

• • • • • •

(f) • • •

(5) The exemption referred to in paragraph (a) of this section, as applied to any drug or biologic containing any of the isotopes listed in paragraph (f)(1) of this section in the "chemical form" and intended for the uses stated, for which drug a new drug application or a "Notice of Claimed Investigational Exemption for a New Drug" was submitted to the Bureau of Drugs on or before August 25, 1975 or for which biologic an application for product license or "Notice of Claimed Investigational Exemption for a New Drug" was submitted to the Bureau of Biologics on or before August 25, 1975 is terminated on August 20, 1976, unless an approvable notice was issued on or before August 20, 1976, in which case the exemption is terminated either upon the subsequent issuance of a nonapprovable notice for the new drug application or on November 20, 1976, whichever occurs first.

• • • • • •

Effective date: This regulation shall become effective August 20, 1976.

(Secs. 505, 701(a), 52 Stat. 1052-1053, as amended, 1055 (21 U.S.C. 355, 371(a)); (sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262)).)

Dated: August 17, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-308]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of East Peoria, Illinois

On July 5, 1974, in 39 FR 24640, the Federal Insurance Administrator published a list of communities with special hazard areas which included the City of

V 41 163 AUG 20 76 UMI

East Peoria, Illinois. Map No. H 170649A 04 indicates that two parcels of land located in East Peoria, Illinois, are in their entirety within the Special Flood Hazard Area. A portion of the parcel of land which is located at the intersection of Interstate Route 74 and Farm Creek Spillway, recorded as Document No. 561649 in the office of the Recorder of Deeds of Tazewell County, Illinois, is not located within the Special Flood Hazard Area. This portion can be further described as follows:

Being a part of the parcel recorded as Document No. 561649 by the County of Tazewell, Illinois; commencing at the Southwest Corner of the Southwest Quarter of Section 28; thence S. 89°46' E. along the South line of the Southwest Quarter of Section 28 a distance of 1759.80 feet to the point of beginning of the tract to be described; thence S. 0°36' E. a distance of 27.35 feet; thence S. 52°34' W. a distance of 593.59 feet; thence S. 56°13' W. a distance of 246.25 feet to a point in the Easterly right-of-way line of Federal Aid Interstate Highway 74; thence N. 30°48' W. along said right-of-way line 360.34 feet; thence N. 31°19' W. along said right-of-way line 796.40 feet to a non-tangent curve, concave to the Northeast, having a radius of 11,329.16 feet, which curve also subtends an 811.51 foot chord bearing N. 27°27'55" W.; thence Northwesterly along said curve which is also a continuation of said Interstate 74 Easterly right-of-way line, 811.60 feet to a point in a non-tangent line, which is the Easterly line of the Relocated Channel of Farm Creek Spillway; thence N. 22°05' E., 189.60 feet to a point; thence N. 11°05' E., 315 feet to a point; thence N. 88°08' E., 677 feet to a point; thence N. 23°49' E., 250 feet to a point; thence S. 77°30' E., 258 feet to a point; thence N. 60°30' E., 235 feet; thence S. 65°11' E., 100 feet to a point; thence S. 14°00' E. a distance of 431.94 feet; thence S. 11°40' E. a distance of 300.00 feet; thence S. 0°36' E. a distance of 190.00 feet; thence S. 60°00' E. a distance of 70.00 feet; thence S. 0°36' E. a distance of 98.00 feet; thence S. 64°58'17" W. a distance of 66.18 feet; thence S. 0°36' E. a distance of 810.50 feet to the point of beginning, situate, lying and being in the County of Tazewell, State of Illinois.

Accordingly, Map No. H 170649A 04 is hereby corrected to reflect that the above properties are not within the Special Flood Hazard Area identified on June 21, 1974.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: August 5, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-2135]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Goshen, Indiana

On July 20, 1976, in 41 FR 2982, the Federal Insurance Administrator published a list of communities with special hazard areas which included Goshen, Indiana. Map No. H 180058 Panel 05 indicates that Lot 14 of Elkhart River Dells Addition, Goshen, Elkhart County, Indiana, as recorded in Platbook 3, page 32, in the office of the Recorder of Elkhart County, Indiana, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structure on the above property is not within the Special Flood Hazard Area identified on June 4, 1976.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administor 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 13, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-880]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Grandview, Missouri

On February 13, 1976, in 41 FR 6736, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the City of Grandview, Missouri. Map No. H 290171A 04 indicates that Lots 16 and 17, Block 3, River Oaks First Plat, Grandview, Missouri, as recorded in Book 33, Page 86, in the office of the Recorder of Deeds of Jackson County, Missouri, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structures on the above mentioned property are not within the Special Flood Hazard Area. Accordingly, Map No. H 290171A 04 is hereby corrected to reflect that the structures on the above property are not within the Special Flood Hazard Area identified on July 19, 1974.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 5, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Grandview, Missouri

On February 13, 1976, in 41 FR 6736, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the City of Grandview, Missouri. Map No. H 290171A 04 indicates that Lot 18, Block 3, River Oaks First Plat, Grandview, Missouri, as recorded in Book 33, Page 86, in the office of the Recorder of Deeds of Jackson County, Missouri, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structure on the above mentioned property is not within the Special Flood Hazard Area. Accordingly, Map No. H 290171A 04 is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area identified on July 19, 1974.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 10, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Village of Ridgewood, New Jersey

On August 24, 1973, in 38 FR 22776, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the Village of Ridgewood, New Jersey. Map No. H 340067 03 indicates that the property at 229 South Irving Street, Ridgewood, New Jersey, as recorded in Book 4529, Page 401, in the office of the Clerk of Bergen County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is not within the Special Flood Hazard Area. Accordingly, Map No. H 340067 03 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on August 31, 1973.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 10, 1976.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Borough of Upper Saddle River, New Jersey

On January 16, 1974, in 39 FR 1986, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the Borough of Upper Saddle River, New Jersey. Map No. H 340077 02 indicates that Lot 1, of a subdivision of Lot 14, Block 15, Upper Saddle River, New Jersey, as recorded on Map No. 4235, on file in the Requisition Room of the office of the Clerk of Bergen County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, Map No. H 340077 02 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on January 4, 1974.

(National Food Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Township of Wayne, New Jersey

On June 25, 1976, in 41 FR 26412, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the Township of Wayne, New Jersey. Map No. H 345327 10 indicates that property in the Township of Wayne, New Jersey, as recorded in Book N 98, Page 608, in the Registry of Deeds of Passaic County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is within Zone C, and is not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, Map No. H 345327 10 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on February 20, 1973.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Mequon, Wisconsin

On June 25, 1976, in 41 FR 26419, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the City of Mequon, Wisconsin. Map No. H&I 555564B 07 indicates that Highland Colony Estates, Mequon, Wisconsin, as recorded in Certified Survey Map Volume 2, Pages 37 through 39, in the office of the Register of Deeds of Ozaukee County, Wisconsin, are within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that structures 1 through 3, and Units 12908, 12910, 12912, 12914, 12916, 12918 of structure 4 as shown on the Topographical Survey Maps of Land in the City of Mequon, Ozaukee County, Wisconsin, prepared by William H. Schmitt and Associates, June 26, 1975, are within Zone C, and are not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the Community. Accordingly, Map No. H&I 555564B 07 is hereby corrected to reflect that the above mentioned property is not within the Special Flood Hazard Area identified on November 7, 1972.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 10, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER C—EMPLOYMENT TAXES

[T.D. 7430]

PART 31—EMPLOYMENT TAXES; APPLICABLE ON AND AFTER JANUARY 1, 1955

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

PART 301—REGULATIONS ON PROCEDURE AND ADMINISTRATION

Discharge of Liens; Employment Tax Liability of Third Parties Paying or Providing for Wages

Preamble. On May 20, 1975, a notice of proposed rulemaking to conform the Employment Tax Regulations (26 CFR Part 31) and the Regulations on Procedure and Administration (26 CFR Part 301) under sections 3505 (relating to the employment tax liability of third parties paying or providing for wages) and 7425 (relating to discharge of liens) to changes made by sections 105 (80 Stat. 1138) and 109 (80 Stat. 1141) of the Federal Tax Lien Act of 1966 was published in the FEDERAL REGISTER (40 FR 21965).

Section 3505 generally relates to the liability of third parties paying or providing for wages. Section 31.3505-1 of the proposed regulations provided rules relating to the liability for withholding taxes imposed upon third persons who finance employers' payrolls. Generally, those provisions of the proposed regulations applied to a lender, surety, or other person who directly pays wages to the employees of another person or who supplies funds to an employer for the specific purpose of paying wages of the employees of that employer with actual notice or knowledge that the employer does not intend, or will not be able, to pay the withholding taxes.

Section 31.3505-1(b)(2) of the proposed regulations has been revised by deleting example (3). In this example, a lender advanced funds to an employer for the purpose of paying net wages of that employer with actual notice of knowledge that the employer would not be able to make timely payment of the withholding taxes. The example concluded that, for purposes of imposing liability upon the lender under section 3505, it was immaterial that after the advances the lender learned that the employer had other funds with which the taxes could have been paid. Upon reconsideration, it was concluded that, because liability under section 3505 depends upon actual notice or knowledge at the time the advance is made, example (3) was unnecessary.

Section 7425 generally relates to discharge of liens and redemption of real property by the United States. Section 301.7425-4 of the proposed regulations contained provisions relating to the redemption by the United States of real property that is sold in a nonjudicial foreclosure sale to satisfy a lien prior to a Federal tax lien on such property. Section 301.7425-4(a)(3) of the proposed regulations has been revised. The proposed regulations had provided that in a case in which the United States is not entitled to a notice of sale under section 7425(b) and 301.7425-3 (e.g., where a notice of tax lien has not been filed more than 30 days before the date of sale), no right of redemption exists under section 7425(d); however, the United States would have the same right of redemption afforded any secured creditor under the applicable local law. In response to a comment, § 301.7425-4(a)(3) of the final regulations has been revised to provide that, under the circumstances stated above, the United States is afforded the same right of redemption afforded similar creditors under the applicable local law.

Section 301.7425-4(b)(1) of the proposed regulations has also been revised. Section 7425(d)(2) of the Code provides that where the United States redeems real property sold at a nonjudicial sale to satisfy a lien prior to that of the United States, the district director shall pay the amount specified in 28 United States Code section 2410. Section 7425-4(b)-1 of the proposed regulations has been revised to make clear that such section determines the amount to be paid only when the United States exercises its right of redemption under section 7425.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

On May 20, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 21965) in order to conform the Employment Tax Regulations (26 CFR Part 31) and the Regulations on Procedure and Administration (26 CFR Part 301) under section 3505 and 7425 of the Internal Revenue Code of 1954 to sections 105 and 109 of the Federal Tax Lien Act of 1966 (80 Stat. 1138 and 1141). Section 301.7425 and §§ 301.7425-1 through 301.7425-4 (inclusive) of the regulations hereby adopted supersede §§ 400.4, 400.4-1, 400.5 and 400.5-1 of this chapter, relating to section 109 of the Federal Tax Lien Act of 1966, which were prescribed by T.D. 6944, approved January 17, 1968 (33 FR 732). After taking into consideration all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Paragraph (b)(2) of § 31.3505-1, as set forth in paragraph 1 of the appendix to the notice of proposed rulemaking, is amended by deleting example (3) therefrom.

PAR. 2. Section 301.7425-3(d)(2), as set forth in paragraph (3) of the appendix to the notice of proposed rulemaking, is amended by substituting "December 31, 1976" for "(a date to be specified in the Treasury decision adopting final regulations under this section)".

PAR. 3. Paragraph (a)(3) of § 301.7425-4, as set forth in paragraph (3) of the appendix to the notice of proposed rulemaking, is amended by revising the last sentence thereof. This revised provision reads as set forth below.

PAR. 4. Paragraph (b)(1) of § 301.7425-4, as set forth in paragraph 3 of the appendix to the notice of proposed rulemaking, is amended by revising so much thereof as precedes subdivision (i) to read as set forth below.

PAR. 5. Section 301.7425-4(b)(1)(iv), as set forth in paragraph 3 of the appendix to the notice of proposed rulemaking, is amended by substituting "December 31, 1976" for "(a date to be specified in the Treasury decision adopting final regulations under this section)".

PAR. 6. Section 301.7425-4(b)(4)(i), as set forth in paragraph (3) of the appendix to the notice of proposed rulemaking, is amended by substituting "December 31, 1976" for "(a date to be specified in the Treasury decision adopting final regulations under this section)".

(Sec. 7805, Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: August 16, 1976.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

In order to provide regulations under section 3505 of the Internal Revenue Code of 1954, as added by section 105 (a) of the Federal Tax Lien Act of 1966 (Public Law 89-719, 80 Stat. 1138) and under section 7425 of such Code, as added by section 109 of such Act (80 Stat. 1141), the Employment Tax Regulations (26 CFR Part 31) and the Regulations on Procedure and Administration (26 CFR Part 301) are amended as follows: Section 301.7425 and §§ 301.7425-1 through 301.7425-4 (inclusive) of the regulations hereby adopted supersede §§ 400.4, 400.4-1, 400.5, and 400.5-1 of this chapter (Temporary Regulations under the Federal Tax Lien Act of 1966) which were prescribed by T.D. 6944, approved January 17, 1969 (33 FR 732).

PARAGRAPH 1. There are added immediately after § 31.3504-1 the following new §§ 31.3505 and 31.3505-1.

§ 31.3505 Statutory provisions; liability of third parties paying or providing for wages.

SEC. 3505. *Liability of third parties paying or providing for wages*—(a) *Direct payment by third parties.* For purposes of sections 3102, 3202, 3402, and 3403, if a lender, surety, or other person, who is not an employer under such sections with respect to an employee or group of employees, pays wages directly to such an employee or group of employees, employed by one or more employers, or to an agent on behalf of such employee or employees, such lender, surety, or other person shall be liable in his own person and estate to the United States in a sum equal to the taxes (together with interest) required to be deducted and withheld from such wages by such employer.

(b) *Personal liability where funds are supplied.* If a lender, surety, or other person supplies funds to or for the account of an employer for the specific purpose of paying wages of the employees of such employer, with actual notice or knowledge (within the meaning of section 6323(i)(1) that such employer does not intend to or will not be able to make timely payment or deposit of the amounts of tax required by this subtitle to be deducted and withheld by such employer from such wages, such lender, surety, or other person shall be liable in his own person and estate to the United States in a sum equal to the taxes (together with interest) which are not paid over to the United States by such employer with respect to such wages. However, the liability of such lender, surety, or other person shall be limited to an amount equal to 25 percent of the amount so supplied to or for the account of such employer for such purpose.

(c) *Effect of payment.* Any amounts paid to the United States pursuant to this section shall be credited against the liability of the employer.

(Sec. 3505 as added by sec. 105(a), Federal Tax Lien Act 1966 (80 Stat. 1138))

§ 31.3505-1 Liability of third parties paying or providing for wages.

(a) *Personal liability in case of direct payment of wages*—(1) *In general.* A lender, surety, or other person—

(i) Who is not an employer for purposes of section 3102 (relating to deduction of tax from wages under the Federal Insurance Contributions Act), section 3202 (relating to deduction of tax from compensation under the Railroad Retirement Tax Act), or section 3402 (relating to deduction of income tax from wages) with respect to an employee or group of employees, and

V 41 163 AUG 20 76 UMI

(ii) Who pays wages on or after January 1, 1967, directly to such employee or group of employees, employed by one or more employers, or to an agent on behalf of such employee or employees,

shall be liable in his own person and estate for payment to the United States of an amount equal to the sum of the taxes required to be deducted and withheld from those wages by the employer under subtitle C of the Code and interest from the due date of the employer's return relating to such taxes for the period in which the wages are paid.

(2) *Example.* The provisions of this paragraph may be illustrated by the following example:

Example. Pursuant to a wage claim of $200, A, a surety company, paid a net amount of $158 to B, an employee of the X Construction Company. This was done in accordance with A's payment bond covering a private construction job on which B was an employee. If X Construction Company fails to make timely payment or deposit of $42.00, the amount of tax required by subtitle C of the Code to be deducted and withheld from a $200 wage payment to B, A becomes personally liable for $42.00 (*i.e.*, an amount equal to the unpaid taxes), plus interest upon this amount from the due date of X's return.

(b) *Personal liability where funds are supplied*—(1) *In general.* A lender, surety, or other person who—

(i) Advances funds to or for the account of an employer for the specific purpose of paying wages of the employees of that employer, and

(ii) At the time the funds are advanced, has actual notice or knowledge (within the meaning of section 6323(i)(1)) that the employer does not intend to, or will not be able to, make timely payment or deposit of the amounts of tax required by subtitle C of the Code to be deducted and withheld by the employer from those wages,

shall be liable in his own person and estate for payment to the United States of an amount equal to the sum of the taxes which are required by subtitle C of the Code to be deducted and withheld from wages paid on or after January 1, 1967, and which are not paid over to the United States by the employer, and interest from the due date of the employer's return relating to such taxes. However, the liability of the lender, surety, or other person for such taxes shall not exceed 25 percent of the amount supplied by him for the payment of wages. The preceding sentence and the second sentence of section 3505(b) limit the liability of a lender, surety, or other person arising solely by reason of section 3505, and they do not limit the liability which the lender, surety or other person may incur to the United States as a third-party beneficiary of an agreement between the lender, surety, or other person and the employer. The liability of a lender, surety, or other person does not include penalties imposed on the taxpayer.

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). D, a savings and loan association, advances $10,000 to Y for the specific purpose of paying the net wages of Y's employees. D advances those funds with knowledge that Y will not be able to make timely payment of the taxes required to be deducted and withheld from these wages by subtitle C of the Code. Y uses the $10,000 to pay the net wages of his employees but fails to remit withholding taxes under subtitle C in the amount of $2,600. D's liability, under this section, is limited to $2,500, 25 percent of the amount supplied for the payment of wages to Y's employees, plus interest thereon.

Example (2). E, a loan company, advances $15,000 to F, a contractor, for the specific purpose of paying $20,000 of net wages due to F's employees. E advances those funds with knowledge that F will not be able to make timely payment of the taxes required to be deducted and withheld from these wages by subtitle C of the Code. F applies $5,000 of its own funds toward payment of these wages. The amount of tax required to be deducted and withheld from the gross wages is $4,500. The limitation applicable to E's liability for withholding taxes is $3,750 (25 percent of $15,000). However, because E furnished only a portion of the total net wages, E is liable for $3,375 of the taxes required to be deducted and withheld ($4,500×$15,000/$20,000) plus interest thereon.

(3) *Ordinary working capital loan.* The provisions of section 3505(b) do not apply in the case of an ordinary working capital loan made to an employer, even though the person supplying the funds knows that part of the funds advanced may be used to make wage payments in the ordinary course of business. Generally, an ordinary working capital loan is a loan which is made to enable the borrower to meet current obligations as they arise. The person supplying the funds is not obligated to determine the specific use of an ordinary working capital loan or the ability of the employer to pay the amounts of tax required by subtitle C of the Code to be deducted and withheld. However, section 3505(b) is applicable where the person supplying the funds has actual notice or knowledge (within the meaning of section 6323(i)(1)) at the time of the advance that the funds, or a portion thereof, are to be used specifically to pay net wages, whether or not the written agreement under which the funds are advanced states a different purpose. Whether or not a lender has actual notice or knowledge that the funds are to be used to pay net wages, or merely that the funds may be so used, depends upon the facts and circumstances of each case. For example, a lender, who has actual notice or knowledge that the withheld taxes will not be paid, will be deemed to have actual notice or knowledge that the funds are to be used specifically to pay net wages where substantially all of the employer's ordinary operating expenses consist of salaries and wages even though funds for other incidental operating expenses may be supplied pursuant to an agreement described as a working capital loan agreement.

(c) *Definition of other person*—(1) *In general.* As used in this section, the term "other person" means any person who directly pays the wages or supplies funds for the specific purpose of paying the wages of an employee or group of employees of another employer. It does not include a person acting only as agent of the employer or as agent of the employees.

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Pursuant to an agreement between L, a labor union, and M, an employer, M makes monthly vacation payments (of a sum equal to a certain percentage of the remuneration paid to each union member employed by M during the previous month) to a union administered pool plan under which each employee's rights are fully vested and nonforfeitable from the time the money is paid by M. Vacation allowances are accumulated by the plan and distributed to eligible employees during their vacations. L, acting merely as a conduit with respect to these payments, would incur no liability under section 3505.

Example (2). N, a construction company, maintains a payroll account with the O Bank in which N deposits its own funds. Pursuant to an automated payroll service agreement between N and O, O prepares payroll checks and earnings statements for each of N's employees reflecting the net pay due each such employee. These checks are delivered to N for signature. After the checks are signed, O distributes them directly to N's employees on the regularly scheduled pay day. O, acting only in the capacity of a disbursing agent of N's funds, would incur no liability under section 3505 with respect to these payroll distributions. However, O may incur liability under section 3505 in the capacity of a lender if it supplies the funds for the payment of wages.

(d) *Payment of taxes and interest*—(1) *Procedure for payment.* A lender, surety, or other person may satisfy the personal liability imposed upon him by section 3505 by executing Form 4219 and filing it, accompanied by payment of the amount of tax and interest due the United States, in accordance with the instructions for the form. In the event the lender, surety, or other person does not satisfy the liability imposed by section 3505, the United States may collect the liability by appropriate civil proceeding commenced within 6 years after assessment of the tax against the employer.

(2) *Effect of payment*—(i) *In general.* A person paying the amounts of tax required to be deducted and withheld by subtitle C of the Code as a result of section 3505 and this section is not required to pay the employer's portion of the payroll taxes upon those wages, or file an employer's tax return with respect to those wages, or furnish annual wage and tax statements to the employees.

(ii) *Amounts paid by a lender, surety, or other person.* Any amounts paid by the lender, surety, or other person to the United States pursuant to this section shall be credited against the liability of the employer on whose behalf those payments are made and shall also reduce the total liability imposed upon the lender,

surety, or other person under section 3505 and this section.

(iii) *Amounts paid by the employer.* Any amounts paid to the United States by an employer and applied to his liability under subtitle C of the Code shall reduce the total liability imposed upon that employer by subtitle C. Such payments will also reduce the liability imposed upon a lender, surety, or other person under section 3505 except that such liability shall not be reduced by any portion of an employer's payment applied against the employer's liability under subtitle C which is in excess of the total liability imposed upon the lender, surety, or other person under section 3505. For example, if a lender supplies $1,000 to an employer for the payment of net wages, upon which $300 withholding tax liability is imposed, a part-payment of $25 by the employer which is applied to this liability would reduce the employer's total liability under subtitle C of the Code by that amount, but the liability imposed upon the lender by section 3505(b) in an amount equal to the withholding tax liability of the employer, which is limited to 25 percent of the amount supplied by him, would remain $250. However, if the employer makes another payment of $200 which is applied to his liability for the withholding taxes, the lender's liability under section 3505 attributable to the withholding taxes is reduced by $175 ($225 less $50 (the amount by which the employer's liability exceeds the lender's liability after application of the limitation)). Thus, after the second payment by the employer, the lender's liability under section 3505(b) is $75 ($250 less $175) plus interest due on the underpayment for the period of underpayment.

(e) *Returns required by employers and statements for employees.* This section does not relieve the employer of the responsibilities imposed upon him to file the returns and supply the receipts and statements required under subchapter A, Chapter 61 of the Code (relating to returns and records).

(f) *Time when liability arises.* The liability under section 3505 and this section of a lender, surety, or other person paying or supplying funds for the payment of wages is incurred on the last day prescribed for the filing of the employer's Federal employment tax return (determined without regard to any extension of time) in respect of such wages.

PAR. 2. Section 301.7425 is amended by renumbering such section as § 301.7427, by renumbering section 7425 of such section as Sec. 7427, and by adding a historical note. These renumbered and added provisions read as follows:

§ 301.7427 Statutory provisions; cross references.

Sec. 7427. *Cross references.* • • •

• • • • •

[Sec. 7427 as renumbered by sec. 109, Federal Tax Lien Act 1966 (80 Stat. 1141)]

PAR. 3. There are added immediately after § 301.7424–1 the following new §§ 301.7425 through 301.7425–4.

§ 301.7425 Statutory provisions; discharge of liens.

(a) Section 7425 of the Internal Revenue Code of 1954, as added by section 109 of the Federal Tax Lien Act of 1966:

Sec. 7425. *Discharge of liens*—(a) *Judicial proceedings.* If the United States is not joined as a party, a judgment in any civil action or suit described in subsection (a) of section 2410 of title 28 of the United States Code, or a judicial sale pursuant to such a judgment, with respect to property on which the United States has or claims a lien under the provisions of this title—

(1) Shall be made subject to and without disturbing the lien of the United States, if notice of such lien has been filed in the place provided by law for such filing at the time such action or suit is commenced; or

(2) Shall have the same effect with respect to the discharge or divestment of such lien of the United States as may be provided with respect to such matters by the local law of the place where such property is situated, if no notice of such lien has been filed in the place provided by law for such filing at the time such action or suit is commenced or if the law makes no provision for such filing.

If a judicial sale of property pursuant to a judgment in any civil action or suit to which the United States is not a party discharges a lien of the United States arising under the provisions of this title, the United States may claim, with the same priority as its lien had against the property sold, the proceeds (exclusive of costs) of such sale at any time before the distribution of such proceeds is ordered.

(b) *Other sales.* Notwithstanding subsection (a) a sale of property on which the United States has or claims a lien, or a title derived from enforcement of a lien, under the provisions of this title, made pursuant to an instrument creating a lien on such property, pursuant to a confession of judgment on the obligation secured by such an instrument, or pursuant to a nonjudicial sale under a statutory lien on such property—

(1) Shall, except as otherwise provided, be made subject to and without disturbing such lien or title, if notice of such lien was filed or such title recorded in the place provided by law for such filing or recording more than 30 days before such sale and the United States is not given notice of such sale in the manner prescribed in subsection (c)(1); or

(2) Shall have the same effect with respect to the discharge or divestment of such lien or such title of the United States, as may be provided with respect to such matters by the local law of the place where such property is situated, if—

(A) Notice of such lien or such title was not filed or recorded in the place provided by law for such filing more than 30 days before such sale,

(B) The law makes no provision for such filing, or

(C) Notice of such sale is given in the manner prescribed in subsection (c)(1).

(c) *Special Rules*—(1) *Notice of sale.* Notice of a sale to which subsection (b) applies shall be given (in accordance with regulations prescribed by the Secretary or his delegate) in writing, by registered or certified mail or by personal service, not less than 25 days prior to such sale, to the Secretary or his delegate.

(2) *Consent to sale.* Notwithstanding the notice requirement of subsection (b)(2)(C), a sale described in subsection (b) of property shall discharge or divest such property of the lien or title of the United States if the United States consents to the sale of such property free of such lien or title.

(3) *Sale of perishable goods.* Notwithstanding the notice requirement of subsection (b)(2)(C), a sale described in subsection (b) of property liable to perish or become greatly reduced in price or value by keeping, or which cannot be kept without great expense, shall discharge or divest such property of the lien or title of the United States if notice of such sale is given (in accordance with regulations prescribed by the Secretary or his delegate) in writing, by registered or certified mail or by personal service, to the Secretary or his delegate before such sale. The proceeds (exclusive of costs) of such sale shall be held as a fund subject to the liens and claims of the United States, in the same manner and with the same priority as such liens and claims had with respect to the property sold, for not less than 30 days after the date of such sale.

(d) *Redemption by United States*—(1) *Right to redeem.* In the case of a sale of real property to which subsection (b) applies to satisfy a lien prior to that of the United States, the Secretary or his delegate may redeem such property within the period of 120 days from the date of such sale or the period allowable for redemption under local law, whichever is longer.

(2) *Amount to be paid.* In any case in which the United States redeems real property pursuant to paragraph (1), the amount to be paid for such property shall be the amount prescribed by subsection (d) of section 2410 of title 28 of the United States Code.

(3) *Certificate of redemption*—(A) *In general.* In any case in which real property is redeemed by the United States pursuant to this subsection, the Secretary or his delegate shall apply to the officer designated by local law, if any, for the documents necessary to evidence the fact of redemption and to record title to such property in the name of the United States. If no such officer is designated by local law or if such officer fails to issue such documents, the Secretary or his delegate shall execute a certificate of redemption therefor.

(B) *Filing.* The Secretary or his delegate shall, without delay, cause such documents or certificate to be duly recorded in the proper registry of deeds. If the State in which the real property redeemed by the United States is situated has not by law designated an office in which such certificate may be recorded, the Secretary or his delegate shall file such certificate in the office of the clerk of the United States district court for the judicial district in which such property is situated.

(C) *Effect.* A certificate of redemption executed by the Secretary or his delegate shall constitute prima facie evidence of the regularity of such redemption and shall, when recorded, transfer to the United States all the rights, title, and interest in and to such property acquired by the person from whom the United States redeems such property by virtue of the sale of such property.

[Sec. 7425 as added by sec. 109, Federal Tax Lien Act of 1966 (80 Stat. 1141)]

(b) Section 2410 of title 28 of the United States Code, as amended by section 201 of the Federal Tax Lien Act of 1966:

Sec. 2410. Actions affecting property on which United States has lien. • • •

(d) In any case in which the United States redeems real property under • • • section 7425 of the Internal Revenue Code of 1954, the amount to be paid for such property shall be the sum of—

(1) The actual amount paid by the purchaser at such sale (which, in the case of

V 41 163 AUG 20 76 UMI

a purchaser who is the holder of the lien being foreclosed, shall include the amount of the obligation secured by such lien to the extent satisfied by reason of such sale),

(2) Interest on the amount paid (as determined under paragraph (1)) at 6 percent per annum from the date of such sale, and

(3) The amount (if any) equal to the excess of (A) the expenses necessarily incurred in connection with such property, over (B) the income from such property plus (to the extent such property is used by the purchaser) a reasonable rental value of such property.

[Sec. 2410 (d) as amended by sec. 201, Federal Tax Lien Act 1966 (80 Stat. 1147)]

§ 301.7425–1 Discharge of liens; scope and application; judicial proceedings.

(a) *In general.* A tax lien of the United States, or a title derived from the enforcement of a tax lien of the United States, may be discharged or divested under local law only in the manner prescribed in section 2410 of Title 28 of the United States Code or in the manner prescribed in section 7425 of the Internal Revenue Code. Section 7425 (a) contains provisions relating to the discharge of a lien when the United States is not joined as a party in the judicial proceedings described in subsection (a) of section 2410 of Title 28 of the United States Code. These judicial proceedings are plenary in nature and proceed on formal pleadings. Section 7425(b) contains provisions relating to the discharge of a lien or a title derived from the enforcement of a lien in the event of a nonjudicial sale with respect to the property involved. Section 7425 (c) contains special rules relating to the notice of sale requirements contained in section 7425(b). Section 301.7425–2 contains rules with respect to the nonjudicial sales described in section 7425 (b). Paragraph (a) of § 301.7425–3 contains rules with respect to the notice of sale provisions of section 7425(c)(1). Paragraph (b) of § 301.7425–3 contains rules relating to the consent to sale provisions of section 7425(c)(2). Paragraph (c) of § 301.7425–3 contains rules relating to the sale of perishable goods provisions of section 7425(c)(3). Paragraph (d) of § 301.7425–3 contains the requirements with respect to the contents of a notice of sale. Section 301.7425–4 prescribes rules with respect to the redemption of real property by the United States.

(b) *Effective date.* The provisions of section 7425, as added by the Federal Tax Lien Act of 1966, are effective with respect to sales described in section 7425 occurring after November 2, 1966. The notice of sale provisions of section 7425 (c) (1) or (3) do not apply to sales occurring after November 2, 1966, if the seller of the property performed an act before November 3, 1966, which act at the time of performance was required and effective under local law with respect to the sale. An example of such an act is publication of a notice of the sale in a local newspaper before November 3, 1966, if local law requires such publication before a sale and the publication is effective under local law. Accordingly, in such a case, it is not necessary to notify the Internal Revenue Service pursuant to the provisions of section 7425 (c) (1) or (3). With respect to a notice of sale required under section 7425 (c) (1) or (3)—

(1) Any notice of sale given to an office of the Internal Revenue Service or the Treasury Department during the period November 3, 1966, through December 21, 1966, shall be considered as adequate;

(2) Any notice of sale given during the period December 22, 1966, through January 31, 1968, which complies with the provisions of either—

(i) Revenue Procedure 67–25, 1967–1 C.B. 628 (based on Technical Information Release 873, dated December 22, 1966), or

(ii) Section 301.7425–3, shall be considered as adequate; and

(3) Any notice of sale given after January 31, 1968, which complies with the provisions of § 301.7425–3 shall be considered as adequate.

(c) *Judicial proceedings.*—(1) *In general.* Section 7425 (a) provides rules, where the United States is not joined as a party, to determine the effect of a judgment in any civil action or suit described in subsection (a) of section 2410 of title 28 of the United States Code (relating to joinder of the United States in certain proceedings), or a judicial sale pursuant to such a judgment, with respect to property on which the United States has or claims a lien under the provisions of this title. If the United States is improperly named as a party to a judicial proceeding, the effect is the same as if the United States were not joined.

(2) *Notice of lien filed when the proceeding is commenced.* Where the United States is not properly joined as a party in the court proceeding and a notice of lien has been filed in accordance with section 6323 (f) or (g) in the place provided by law for such filing at the time the action or suit is commenced, a judgment or judicial sale pursuant to such a judgment shall be made subject to and without disturbing the lien of the United States.

(3) *Notice of lien not filed when the proceeding is commenced.*—(i) *General rule.* Where the United States is not joined as a party in the court proceeding and either a notice of lien has not been filed in accordance with section 6323 (f) or (g) in the place provided by law for such filing at the time the action or suit is commenced, or the law makes no provision for that filing, a judgment or judicial sale pursuant to such a judgment shall have the same effect with respect to the discharge or divestment of the lien of the United States as may be provided with respect to these matters by the local law of the place where the property is situated.

(ii) *Examples.* The provisions of subparagraph (3) may be illustrated by the following examples:

Example (1). A, the first mortgagee of an apartment building located in State Y, commenced a foreclosure action on the mortgage prior to the time that a notice of a Federal tax lien, on that building, had been filed. Under the law of Y, junior liens on real property are discharged by a judicial sale pursuant to a judgment in a foreclosure action. Therefore, the Federal tax lien on the building will be discharged by the judicial sale. This result is the same whether the tax lien arose before or after the date of commencement of the foreclosure action and whether notice of the tax lien was filed at any time after commencement of the foreclosure action.

Example (2). On January 10, 1969, B dies testate and devises Blackacre to C. At B's death, Blackacre is subject to a first mortgage held by D. Realty is subject to administration as part of a decedent's estate under the laws of State X. However, C takes possession of Blackacre with the assent of E, the executor of B's estate. On January 5, 1970, D commences a foreclosure action on the mortgage. Under the law of X, junior liens on real property are discharged by a judicial sale pursuant to a judgment in a foreclosure action. After commencement of the proceedings, an assessment for estate taxes is made and, thereafter, a notice of lien is filed in accordance with section 6323. The special lien on Blackacre, arising at the date of B's death, for estate taxes under section 6324(a) will be discharged by the judicial sale because there are no provisions for filing a notice thereof under law and junior liens are discharged by the sale under local law. The lien is discharged even though the executor failed to obtain a discharge of his personal liability under section 2204. Furthermore, the general lien on Blackacre under section 6321 will be discharged by the judicial sale because the foreclosure action was commenced prior to the time that a notice of lien was filed.

(4) *Proceeds of a judicial sale.* If a judicial sale of property pursuant to a judgment in any civil action or suit to which the United States is not a party discharges a lien of the United States arising under the provisions of the Internal Revenue Code of 1954, the United States may claim the proceeds of the sale (exclusive of costs) prior to the time that distribution of the proceeds is ordered. The claim of the United States in such a case is treated as having the same priority with respect to the proceeds as the lien had with respect to the property which was discharged from the lien by the judicial sale.

§ 301.7425–2 Discharge of liens; nonjudicial sales.

(a) *In general.* Section 7425(b) contains provisions with respect to the effect on the interest of the United States in property in which the United States has or claims a lien, or a title derived from the enforcement of a lien, of a sale made pursuant to—

(1) An instrument creating a lien on the property sold,

(2) A confession of judgment on the obligation secured by an instrument creating a lien on the property sold, or

(3) A statutory lien on the property sold.

For purposes of this section, such a sale is referred to as a "nonjudicial sale." The term "nonjudicial sale" includes, but is not limited to, the divestment of the taxpayer's interest in property which occurs by operation of law, by public or private sale, by forfeiture, or by termination under provisions contained in a contract for a deed or a conditional sales contract. Under section 7425(b)(1), if a notice of lien is filed in accordance with section 6323 (f) or (g), or the title derived from the enforcement of a lien is recorded as provided by local law, more than 30 days before the date of sale, and the appropriate district director is not given notice of the sale (in the manner prescribed in § 301.7425–3), the sale shall be made subject to and without disturbing the lien or title of the United States. Under section 7425(b)(2)(C), in any case in which notice of the sale is given to the district director not less than 25 days prior to the date of sale (in the manner prescribed in section 7425(c)(1)), the sale shall have the same effect with respect to the discharge or divestment of the lien or title as may be provided by local law with respect to other junior liens or other titles derived from the enforcement of junior liens. A nonjudicial sale pursuant to a lien which is junior to a tax lien does not divest the tax lien, even though notice of the nonjudicial sale is given to the appropriate district director. However, under the provisions of section 6325(b) and § 301.6325–1, a district director may discharge the property from a tax lien, including a tax lien which is senior to another lien upon the property.

(b) *Date of sale.* In the case of a nonjudicial sale subject to the provisions of section 7425(b), in order to compute any period of time determined with reference to the date of sale, the date of sale shall be determined in accordance with the following rules:

(1) In the case of divestment of junior liens on property resulting directly from a public sale, the date of sale is deemed to be the date the public sale is held, regardless of the date under local law on which junior liens on the property are divested or the title to the property is transferred,

(2) In the case of divestment of junior liens on property resulting directly from a private sale, the date of sale is deemed to be the date title to the property is transferred, regardless of the date junior liens on the property are divested under local law, and

(3) In the case of divestment of junior liens on property not resulting directly from a public or private sale, the date of sale is deemed to be the date on which junior liens on the property are divested under local law.

For provisions relating to the right of redemption of the United States, see section 7425(d) and § 301.7425–4.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). (i) Under the law of State M, upon entry of judgment, the judgment creditor obtains a statutory lien upon the real property of the judgment debtor, and certain procedures are provided by which the judgment creditor may execute by public sale upon such real property. These procedures provide, among other things, for notification by personal service or registered or certified mail to other lien creditors, if any, and publication of a notice of the sale in a local newspaper. After the expiration of a prescribed period of time after such notification and publication, the sheriff of the county where the real property is located may sell the property at public sale. After payment of the amount bid at the public sale, the sheriff issues to the purchaser a deed to the real property, and the interests of junior lienors in the property are divested.

(ii) For purposes of this section, such an execution sale is a nonjudicial sale described in section 7425(b) because the sale is made pursuant to a statutory lien on the property sold. The date of sale, for purposes of computing a period of time determined with reference to the date of sale, is the date on which the public sale is held because junior liens on the real property are divested directly as a result of the public sale. This result obtains even though the junior liens are legally divested on a later date when the sheriff issues the deed.

Example (2). (i) Under the law of State N, mortgages on real property may contain a power of sale which authorizes the mortgagee, upon breach by the mortgagor of one of the conditions of the mortgage, to have the mortgaged property sold at public sale. This public sale must be preceded by notice by advertisement in a local newspaper, and the time, place, description of the property, and other terms of the sale must be specified. The purchaser at such a public sale obtains a title to the real property which is not subject to a right of redemption by the mortgagor and which divests the interests of the junior lienors in the property.

(ii) For purposes of this section, a sale pursuant to such a power of sale is a nonjudicial sale described in section 7425(b) because the sale is made pursuant to the mortgage instrument which created a lien on the property sold. The date of the sale, for purposes of computing a period of time determined with reference to the date of sale, is the date of the public sale because junior liens on the property are divested directly as a result of the public sale.

Example (3). Assume the same facts as in example (2) except that the purchaser at the public sale obtains a title which is defeasible by the exercise of a right of redemption in the mortgagor. The purchaser's title divests the interests of junior lienors in the property as of the time of public sale. The interests of junior lienors in the property revive if the mortgagor exercises his right of redemption. The date of the sale, for purposes of computing a period of time determined with reference to the date of sale, is the date of the public sale because junior liens on the property are divested directly as a result of the public sale although such junior liens may be revived by a subsequent redemption by the mortgagor.

Example (4). (i) Under the law of State O, upon breach by a mortgagor of real property of one of the conditions of the mortgage, the mortgagee may foreclose the mortgage by securing possession of the property by one of several procedures provided by statute. These procedures are generally referred to as "strict foreclosure." In order for a foreclosure to be effective under these procedures, a certificate attesting the fact of entry must be recorded with the proper registrar of deeds within 30 days after the mortgagee enters the property. During the one-year period following the date on which the certificate of entry is recorded, the mortgagor or a junior lienor may redeem the property by paying the mortgagee the amount of the mortgage obligation. If, during such one-year period the property is not redeemed and the mortgagee's possession is continued, the interests of the mortgagor and the junior lienors in the property are divested as of the date such one-year period expires.

(ii) For purposes of this section, such a foreclosure procedure is a nonjudicial sale described in section 7425(b) because it results in the divestment of the mortgagor's interest in the property by operation of law pursuant to the mortgage which created a lien on the property. In addition, because there is no public or private sale which directly results in the divestment of junior liens on the property, the date of sale, for purposes of computing a period of time determined with reference to the date of sale, is the date on which the one-year period following the recording of the certificate of entry expires.

Example (5). The law of State P contains a procedure which permits a county to collect a delinquent tax assessment with respect to real property by the means of a tax sale of the property. First, a notice of a public auction with respect to the tax assessment on the real property is published in a local newspaper. At the public auction, the purchaser, upon payment of the delinquent taxes and interest, obtains from the county tax collector a tax certificate with respect to the real property. Because the obtaining of this tax certificate does not directly result in the divestment of either the owner's title or junior liens with respect to the property, the public auction is not a nonjudicial sale described in section 7425(b). At any time before a tax deed with respect to the property is issued by the clerk of the county court, the owner or any holder of a lien or other interest with respect to the property may obtain the tax certificate by paying the holder of the tax certificate the amount of the taxes, interest, and costs. After a date which is two years after the date on which the tax assessment became delinquent, the holder of the tax certificate may request the clerk of the county court to have the property advertised for sale. After advertisement of the sale, the clerk of the county court conducts a public sale of the real property and the purchaser obtains a tax deed. The interests of all junior lienors in the property are divested and the property is not subject to a right of redemption under the law of State P. For purposes of this section, this public sale is considered to be a nonjudicial sale described in section 7425(b) because the sale is made pursuant to a statutory lien on the property sold. The date of the sale, for purposes of computing a period of time determined with reference to the date of sale, is the date on which the public sale is held at which the purchaser obtains a tax deed as this sale directly results in the divestment of junior liens on the property.

Example (6). The law of State Q contains a provision which permits a county to collect a delinquent tax assessment with respect to real property by the means of a tax sale of the property. After public notice is given, a "tax sale" of the real property is conducted. Upon payment of the delinquent taxes and interest, a purchaser obtains a tax certificate with respect to the real property. If there is no purchaser at the tax sale, the property is deemed to be bid in by the State. Because the obtaining of this tax certificate by a purchaser or State Q does not directly result in the divestment of either the owner's title or junior liens with respect to the property, the tax sale is not a nonjudicial sale described in section 7425(b). Following the tax sale, there is a three year period during which any person having an interest in the property may redeem the property by paying the holder of the tax certificate the amount of taxes, interest, and costs. Unless, redeemed, the holder of the tax certificate may obtain an absolute title at the expiration of the period of redemption provided he serves a notice of the expiration of the redemption period upon the owner at least 60 days prior to the date of expiration. Be-

V 41 163
AUG 20 76
UMI

cause there is no public or private sale which directly results in the divestment of junior liens on the property, the date of sale, for purposes of computing a period of time determined with reference to the date of sale, is the date on which the holder of the tax certificate obtains absolute title.

§ 301.7425–3 Discharge of liens; special rules.

(a) *Notice of sale requirements*—(1) *In general.* Except in the case of the sale of perishable goods described in paragraph (c) of this section, a notice (as described in paragraph (d) of this section) of a nonjudicial sale shall be given, in writing by registered or certified mail or by personal service, not less than 25 days prior to the date of sale (determined under the provisions of paragraph (b) of § 301.7425–2), to the district director (marked for the attention of the chief, special procedures staff) for the internal revenue district in which the sale is to be conducted. Thus, under this section, a notice of sale is not effective if it is given to a district director other than the district director for the internal revenue district in which the sale is to be conducted. The provisions of sections 7502 (relating to timely mailing treated as timely filing) and 7503 (relating to time for performance of acts where the last day falls on Saturday, Sunday, or legal holiday) apply in the case of notices required to be made under this paragraph.

(2) *Postponement of scheduled sale*—(i) *Where notice of sale is given.* In the event that notice of a sale is given in accordance with subparagraph (1) of this paragraph with respect to a scheduled sale which is postponed to a later time or date, the seller of the property is required to give notice of the postponement to the district director in the same manner as is required under local law with respect to other secured creditors. For example, assume that in State M local law requires that in the event of a postponement of a scheduled foreclosure sale of real property, an oral announcement of the postponement at the place and time of the scheduled sale constitutes sufficient notice to secured creditors of the postponement. Accordingly, if at the place and time of a scheduled sale in State M an oral announcement of the postponement is made, the Internal Revenue Service is considered to have notice of the postponement for the purpose of this subparagraph.

(ii) *Where notice of sale is not given.* In the event that—

(A) Notice of a nonjudicial sale would not be required under subparagraph (1) of this paragraph if the sale were held on the originally scheduled date,

(B) Because of a postponement of the scheduled sale, more than 30 days elapse between the originally scheduled date of the sale and the date of the sale, and

(C) A notice of lien with respect to the property to be sold is filed more than 30 days before the date of the sale, notice of the sale is required to be given to the district director in accordance with the provisions of paragraph (a) (1) of this section. In any case in which notice of sale is required to be given with respect to a scheduled sale, and notice of the sale is not given, any postponement of the scheduled sale does not affect the rights of the United States under section 7425 (b).

(iii) *Examples.* The provisions of subdivision (ii) of this subparagraph may be illustrated by the following examples:

Example (1). A nonjudicial sale of Blackacre, belonging to A, a delinquent taxpayer, is scheduled for December 2, 1968. As no notice of lien is filed applicable to Blackacre more than 30 days before December 2, 1968, no notice of sale is given to the district director. On December 2, 1968, the sale of Blackacre is postponed until January 15, 1969. A notice of lien with respect to Blackacre is properly filed on January 2, 1969. The sale of Blackacre is held on January 15, 1969. Even though more than 30 days elapsed between the originally scheduled date of the sale (December 2, 1968) and the date of the sale (January 15, 1969), no notice of sale is required to be given to the district director because the notice of lien was not filed more than 30 days before the date of the sale.

Example (2). Assume the same facts as in example (1) except that a notice of lien is filed on November 29, 1968 in accordance with section 6323. Because more than 30 days elapsed between the originally scheduled date of the sale and the date of the sale, and the notice of lien is filed (on November 29, 1968) more than 30 days before the date of the sale (January 15, 1969), notice of the sale, in accordance with the provisions of subparagraph (1) of this paragraph, is required to be given to the district director.

Example (3). A nonjudicial sale of Whiteacre, belonging to B, a delinquent taxpayer, is scheduled for December 2, 1968. A notice of lien applicable to Whiteacre is filed on November 12, 1968 in accordance with section 6323. As the notice of lien was not filed more than 30 days before December 2, 1968, no notice of sale is given to the district director. On December 2, 1968, the sale of Whiteacre is postponed until December 20, 1968. The sale of Whiteacre is held on December 20, 1968. Even though more than 30 days elapsed between the date notice of lien was filed (November 12, 1968) and the date of the sale (December 20, 1968), no notice of sale is required to be given to the district director because not more than 30 days elapsed between the date of the originally scheduled sale (December 2, 1968) and the date the sale was actually held (December 20, 1968).

(b) *Consent to sale*—(1) *In general.* Notwithstanding the notice of sale provisions of paragraph (a) of this section, a nonjudicial sale of property shall discharge or divest the property of the lien or title of the United States if the district director for the internal revenue district in which the sale occurs consents to the sale of the property free of the lien or title. Pursuant to section 7425 (c) (2), where adequate protection is afforded the lien or title of the United States, a district director may, in his discretion, consent with respect to the sale of property in appropriate cases. Such consent shall be effective only if given in writing and shall be subject to such limitations and conditions as the district director may require. However, a district director may not consent to a sale of property under this section after the date of sale, as determined under paragraph (b) of § 301.7425–2. For provisions relating to the authority of the district director to release a lien or discharge property subject to a tax lien, see section 6325 and the regulations thereunder.

(2) *Application for consent.* Any person desiring a district director's consent to sell property free of a tax lien or a title derived from the enforcement of a tax lien of the United States in the property shall submit to the district director for the internal revenue district in which the sale is to occur a written application, in triplicate, declaring that it is made under penalties of perjury, and requesting that such consent be given. The application shall contain the information required in the case of a notice of sale, as set forth in paragraph (d) (1) of this section, and, in addition, shall contain a statement of the reasons why the consent is desired.

(c) *Sale of perishable goods*—(1) *In general.* A notice (as described in paragraph (d) of this section) of a nonjudicial sale of perishable goods (as defined in subparagraph (2) of this paragraph) shall be given in writing, by registered or certified mail or delivered by personal service, at any time before the sale, to the district director (marked for the attention of the chief, special procedures staff) for the internal revenue district in which the sale is to be conducted. Thus, under this section, a notice of sale is not effective if it is given to a district director other than the district director for the internal revenue district in which the sale is to be conducted. If a notice of a nonjudicial sale is timely given in the manner described in this paragraph, the nonjudicial sale shall discharge or divest the tax lien, or a title derived from the enforcement of a tax lien, of the United States in the property. The provisions of sections 7502 (relating to timely mailing treated as timely filing) and 7503 (relating to time for performance of acts where the last day falls on Saturday, Sunday, or a legal holiday) apply in the case of notices required to be made under this paragraph. The seller of the perishable goods shall hold the proceeds (exclusive of costs) of the sale as a fund, for not less than 30 days after the date of the sale, subject to the liens and claims of the United States, in the same manner and with the same priority as the liens and claims of the United States had with respect to the property sold. If the seller fails to hold the proceeds of the sale in accordance with the provisions of this paragraph and if the district director asserts a claim to the proceeds within 30 days after the date of sale, the seller shall be personally liable to the United States for an amount equal to the value of the interest of the United States in the fund. However, even if the proceeds of the sale are not so held by the seller, but all the other provisions of this paragraph are satisfied, the buyer of the property at the sale takes the property free of the liens and claims of the United States. In the event of a postponement of the scheduled sale of perishable goods, the seller is not required to notify the district director of the postponement. For provisions relating to the authority of the district director to release a lien or discharge property subject to a tax lien, see section 6325 and the regulations thereunder.

(2) *Definition of perishable goods.* For the purpose of this paragraph, the term "perishable goods" means any tangible personal property which, in the reasonable view of the person selling the property, is liable to perish or become greatly reduced in price or value by keeping, or cannot be kept without great expense.

(d) *Content of notice of sale*—(1) *In general.* With respect to a notice of sale described in paragraph (a) or (c) of this section, the notice will be considered adequate if it contains the information described in paragraph (d) (1) (i), (ii), (iii), and (iv) of this section.

(i) The name and address of the person submitting the notice of sale;

(ii) A copy of each Notice of Federal Tax Lien (Form 668) affecting the property to be sold, or the following information as shown on each such Notice of Federal Tax Lien—

(A) The internal revenue district named thereon,

(B) The name and address of the taxpayer, and

(C) The date and place of filing of the notice;

(iii) With respect to the property to be sold, the following information—

(A) A detailed description, including location, of the property affected by the notice (in the case of real property, the street address, city, and State and the legal description contained in the title or deed to the property and, if available, a copy of the abstract of title),

(B) The date, time, place, and terms of the proposed sale of the property, and

(C) In the case of a sale of perishable property described in paragraph (c) of this section, a statement of the reasons why the property is believed to be perishable; and

(iv) The approximate amount of the principal obligation, including interest, secured by the lien sought to be enforced and a description of the other expenses (such as legal expenses, selling costs, etc.) which may be charged against the sale proceeds.

(2) *Inadequate notice.* Except as otherwise provided in this subparagraph, a notice of sale described in paragraph (a) of this section which does not contain the information described in paragraph (d) (1) of this paragraph shall be considered inadequate by a district director. If a district director determines that the notice is inadequate, he will give written notification of the items of information which are inadequate to the person who submitted the notice. A notice of sale which does not contain the name and address of the person submitting such notice shall be considered to be inadequate for all purposes without notification of any specific inadequacy. In any case where a notice of sale, given after December 31, 1976 does not contain the information required under paragraph (d) (1) (ii) of this section with respect to a Notice of Federal Tax Lien, the district director may give written notification of such omission without specification of any other inadequacy and such notice of sale shall be considered inadequate for all purposes. In the event the district director gives notification that the notice of sale is inadequate, a notice complying with the provisions of this section (including the requirement that the notice be given not less than 25 days prior to the sale in the case of a notice described in paragraph (a) of this section) must be given. However, in accordance with the provisions of paragraph (b) (1) of this section, in such a case the district director may, in his discretion, consent to the sale of the property free of the lien or title of the United States even though notice of the sale is given less than 25 days prior to the sale. In any case where the person who submitted a timely notice which indicates his name and address does not receive, more than 5 days prior to the date of the sale, written notification from the district director that the notice is inadequate, the notice shall be considered adequate for purposes of this section.

(3) *Acknowledgment of notice.* If a notice of sale described in paragraph (a) or (c) of this section is submitted in duplicate to the district director with a written request that receipt of the notice be acknowledged and returned to the person giving the notice, this request will be honored by the district director. The acknowledgement by the district director will indicate the date and time of the receipt of the notice.

(4) *Disclosure of adequacy of notice.* The district director for the internal revenue district in which the sale was held or is to be held is authorized to disclose, to any person who has a proper interest, whether an adequate notice of sale was given under paragraph (d) (1) of this section. Any person desiring this information should submit to the district director a written request which clearly describes the property sold or to be sold, identifies the applicable notice of lien, gives the reasons for requesting the information, and states the name and address of the person making the request.

§ 301.7425–4 Discharge of liens; redemption by United States.

(a) *Right to redeem*—(1) *In general.* In the case of a nonjudicial sale of real property to satisfy a lien prior to the tax lien or a title derived from the enforcement of a tax lien, the district director may redeem the property within the redemption period (as described in paragraph (a) (2) of this section). The right of redemption of the United States exists under section 7425 (d) even though the district director has consented to the sale under section 7425 (c) (2) and § 301.7425–3 (b). For purposes of this section, the term "nonjudicial sale" shall have the same meaning as used in paragraph (a) of § 301.7425–2.

(2) *Redemption period.* For purposes of this section, the redemption period shall be—

(i) The period beginning with the date of the sale (as determined under paragraph (b) of § 301.7425–2) and ending with the 120th day after such date, or

(ii) The period for redemption of real property allowable, with respect to other secured creditors, under the local law of the place where the real property is located, whichever expires later. Whichever period is applicable, section 7425 and this section shall govern the amount to be paid and the procedure to be followed.

(3) *Limitations.* In the event a sale does not ultimately discharge the property from the tax lien (whether by reason of local law or the provisions of section 7425 (b)), the provisions of this section do not apply because the tax lien will continue to attach to the property after the sale. In a case in which the Internal Revenue Service is not entitled to a notice of sale under section 7425 (b) and § 301.7425–3, the United States does not have a right of redemption under section 7425 (d). However, in such a case, if a tax lien has attached to the property at the time of sale, the United States has the same right of redemption, if any, which is afforded similar creditors under the local law of the place in which the property is situated.

(b) *Amount to be paid*—(1) *In general.* In any case in which a district director exercises the right to redeem real property under section 7425 (d), the amount to be paid is the sum of the following amounts—

(i) The actual amount paid for the property (as determined under paragraph (b) (2) of this section) being redeemed (which, in the case of a purchaser who is the holder of the lien being foreclosed, shall include the amount of the obligation secured by such lien to the extent legally satisfied by reason of the sale);

(ii) Interest on the amount paid (described in paragraph (b) (1) (i) of this section) at the sale by the purchaser of the real property computed at the rate of 6 percent per annum for the period from the date of the sale (as determined under paragraph (b) of § 301.7425–2) to the date of redemption;

(iii) The amount, if any, equal to the excess of (A) the expenses necessarily incurred to maintain such property (as determined under paragraph (b) (3) of this section) by the purchaser (and his successor in interest, if any) over (B) the income from such property realized by the purchaser (and his successor in interest, if any) plus a reasonable rental value of such property (to the extent the property is used by or with the consent of the purchaser or his successor in interest or is rented at less than its reasonable rental value); and

(iv) With respect to a redemption made after December 31, 1976, the amount, if any, of a payment made by the purchaser or his successor in interest after the foreclosure sale to a holder of a senior lien (to the extent provided under paragraph (b) (4) of this section).

(2) *Actual amount paid.* (i) The actual amount paid for property by a purchaser, other than the holder of the lien

V 41163
AUG 20 76
UMI

being foreclosed, is the amount paid by him at the sale. For purposes of this subdivision, the amount paid by the purchaser at the sale includes deferred payments upon the bid price. The actual amount paid does not include costs and expenses incurred prior to the foreclosure sale by the purchaser except to the extent such expenses are included in the amount bid and paid for the property. For example, the actual amount paid does not normally include the expenses of the purchaser such as title searches, professional fees, or interest on debt incurred to obtain funds to purchase the property.

(ii) In the case of a purchaser who is the holder of the lien being foreclosed, the actual amount paid is the sum of (A) the amount of the obligation secured by such lien to the extent legally satisfied by reason of the sale and (B) any additional amount bid and paid at the sale. For purposes of this section, a purchaser who acquires title as a result of a nonjudicial foreclosure sale is treated as the holder of the lien being foreclosed if a lien (or any interest reserved, created, or conveyed as security for the payment of a debt or fulfillment of other obligation) held by him is partially or fully satisfied by reason of the foreclosure sale. For example, a person whose title is derived from a tax deed issued under local law shall be treated as a purchaser who is the holder of the lien foreclosed in a case where a tax certificate, evidencing a lien on the property arising from the payment of property taxes, ripens into title. The amount paid by a purchaser at the sale includes deferred payments upon any portion of the bid price which is in excess of the amount of the lien being foreclosed. The actual amount paid does not include costs and expenses incurred prior to the foreclosure sale by the purchaser except to the extent such expenses are included in the amount of the lien being foreclosed which is legally satisfied by reason of the sale or in the amount bid and paid at the sale. Where the lien being foreclosed attaches to other property not subject to the foreclosure sale, the amount legally satisfied by reason of the sale does not include the amount of such lien that attaches to the other property. However, for purposes of the preceding sentence, the amount of the lien that attaches to the other property shall be considered to be equal to the amount by which the value of the other property exceeds the amount of any other senior lien on that property. Where, after the sale, the holder of the lien being foreclosed has the right to the unpaid balance of the amount due him, the amount legally satisfied by reason of the sale does not include the amount of such lien to the extent a deficiency judgment may be obtained therefor. However, for purposes of the preceding sentence, an amount, with respect to which the holder of the lien being foreclosed would otherwise have a right to a deficiency judgment, shall be considered to be legally satisfied by reason of the foreclosure sale to the extent that the holder has waived his right to a deficiency judgment prior to the foreclosure sale. For this purpose, the waiver must be in writing and legally binding upon the foreclosing lienholder as of the time the sale is concluded. If, prior to the foreclosure, payments have been made by the foreclosing lienholder to a holder of a superior lien, the payments are included in the actual amount paid to the extent they give rise to an interest which is legally satisfied by reason of the foreclosure sale.

(3) *Excess expenses incurred by purchaser.* (i) Expenses necessarily incurred in connection with the property after the foreclosure sale and before redemption by the United States are taken into account in determining if there are excess expenses payable under paragraph (b)(1)(iii) of this section. Expenses incurred by the purchaser prior to the foreclosure sale are not considered under this subparagraph. (See paragraph (b)(2)(ii) of this section for circumstances under which such expenses may be included in the amount to be paid.) Expenses necessarily incurred in connection with the property include, for example, rental agent commissions, repair and maintenance expenses, utilities expenses, legal fees incurred after the foreclosure sale and prior to redemption in defending the title acquired through the foreclosure sale, and a proportionate amount of casualty insurance premiums and ad valorem taxes. Improvements made to the property are not considered as an expense unless the amounts incurred for such improvements are necessarily incurred to maintain the property.

(ii) At any time prior to the expiration of the redemption period applicable under paragraph (a)(2) of this section, the district director may, by certified or registered mail or hand delivery, request a written itemized statement of the amount claimed by the purchaser or his successor in interest to be payable under paragraph (b)(1)(iii) of this section. Unless the purchaser or his successor in interest furnishes the written itemized statement within 15 days after the request is made by the district director, it shall be presumed that no amount is payable for expenses in excess of income and the Internal Revenue Service shall tender only the amount otherwise payable under paragraph (b)(1) of this section. If a purchaser or his successor in interest has failed to furnish the written itemized statement within 15 days after the request therefor is made by the district director, or there is a disagreement as to the amount properly payable under paragraph (b)(1)(iii) of this section, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser or his successor in interest or the resolution of the disagreement as to the amount properly payable for excess expenses.

(4) *Payments made by purchaser or his successor in interest to a senior lienor.* (i) The amount to be paid upon a redemption by the United States made after December 31, 1976, shall include the amount of a payment made by the purchaser or his successor in interest to a holder of a senior lien to the extent a request for the reimbursement thereof (made in accordance with paragraph (b)(4)(ii) of this section) is approved as provided under paragraph (b)(4)(iii) of this section. This paragraph applies only to a payment made after the foreclosure sale and before the redemption to a holder of a lien that was, immediately prior to the foreclosure sale, superior to the lien foreclosed. A payment of principal or interest to a senior lienor shall be taken into account. Generally, the portion, if any, of a payment which is to be held in escrow for the payment of an expense, such as hazard insurance or real property taxes, is not considered under this paragraph. However, a payment by the escrow agent of a real property tax or special assessment lien, which was senior to the lien foreclosed, shall be considered to be a payment made by the purchaser or his successor in interest for purposes of this paragraph. With respect to real property taxes assessed after the foreclosure sale, see paragraph (b)(3)(i) of this section, relating to excess expenses incurred by the purchaser.

(ii) Before the expiration of the redemption period applicable under paragraph (a)(2) of this section, the district director shall, in any case where a redemption is contemplated, send notice to the purchaser (or his successor in interest of record) by certified or registered mail or hand delivery of his right under this subparagraph to request reimbursement (payable in the event the right to redeem under section 7425(d) is exercised) for a payment made to a senior lienor. No later than 15 days after the notice from the district director is sent, the request for reimbursement shall be mailed or delivered to the office specified in such notice and shall consist of—

(A) A written itemized statement, signed by the claimant, of the amount claimed with respect to a payment made to a senior lienor, together with the supporting evidence requested in the notice from the district director, and

(B) A waiver or other document that will be effective upon redemption by the United States to discharge the property from, or transfer to the United States, any interest in or lien on the property that may arise under local law with respect to the payment made to a senior lienor.

Upon a showing of reasonable cause, a district director may, in his discretion and at any time before the expiration of the applicable period for redemption, grant an extension for a reasonable period of time to submit, amend, or supplement a request for reimbursement. Unless a request for reimbursement is timely submitted (determined with regard to any extension of time granted), no amount shall be payable to the purchaser or his successor in interest on account of a payment made to a senior lienor if the right to redeem under section 7425(d) is exercised. A waiver or other document submitted pursuant to this subdivision shall be treated as effective only to the extent of the amount included in the redemption price under this paragraph. If the right to redeem is not exercised or a request for reimbursement is withdrawn, the district director shall, by certified or registered mail or hand delivery, return to the purchaser or his successor any waiver or other document submitted pursuant to this subdivision as soon as is practicable.

(iii) A request for reimbursement submitted in accordance with paragraph (b)(4)(ii) of this section shall be considered to be approved for the total amount claimed by the purchaser, and payable in the event the right to redeem is exercised, unless the district director sends notice to the claimant, by certified or registered mail or hand delivery, of the denial of the amount claimed within 30 days after receipt of the request or 15 days before expiration of the applicable period for redemption, whichever is later. The notification of denial shall state the grounds for denial. If such notice of denial is given, the request for reimbursement for a payment made to a senior lienor shall be treated as having been withdrawn by the purchaser or his successor and the Internal Revenue Service shall tender only the amount otherwise payable under paragraph (b)(1) of this section. If a request for reimbursement is treated as having been withdrawn under the preceding sentence, payment for amounts described in this subparagraph may, in the discretion of the district director, be made after the redemption upon the resolution of the disagreement as to the amount properly payable under paragraph (b)(1)(iv) of this section.

(5) *Examples.* The provisions of paragraph (b)(1)(i) of this section may be illustrated by the following examples:

Example (1). A, a delinquent taxpayer, owns Blackacre located in State X upon which B holds a mortgage. After the mortgage is properly recorded, a notice of tax lien is filed under section 6323(f) which is applicable to Blackacre. Subsequently, A defaults on the mortgage and B forecloses on the mortgage which has an outstanding obligation in the amount of $100,000. At the foreclosure sale, B bids $50,000 and obtains title to Blackacre as a result of the sale. At the time of the foreclosure sale, Blackacre has a fair market value of $75,000. Under the laws of State X, the mortgage obligation is fully satisfied by operation of the foreclosure sale per se and the mortgagee cannot obtain a deficiency judgment. Under paragraph (b)(1)(i) of this section, the district director must pay $100,000 in order to redeem Blackacre.

Example (2). Assume the same facts as in example (1) except that under the laws of State X, the amount bid is the amount of the obligation legally satisfied as a result of the foreclosure sale, and in the case in which the amount of the obligation exceeds the amount bid, the mortgagee has the right to a judgment for the deficiency computed as the difference between the amount of the obligation and the amount bid. B does not waive, prior to the foreclosure sale, his right to a deficiency judgment. In such a case, the district director must, under paragraph (b)(1)(i) of this section, pay $50,000 in order to redeem Blackacre, whether or not B seeks a judgment for the deficiency.

Example (3). C, a delinquent taxpayer, owns Greenacre located in State Y upon which D holds a first mortgage and E holds a second mortgage. After the mortgages are properly recorded, a notice of tax lien is filed under section 6323(f) which is applicable to Greenacre. Subsequently, C defaults on both mortgages and E pays $5,000 to D, which is the portion of D's obligation which is in default. The second mortgage held by E is an outstanding obligation in the amount of $100,000. Under the laws of State Y, E may treat the amount paid to D as an addition to his second mortgage upon foreclosure by him. E forecloses upon the security interest held by him. At the foreclosure sale, E bids $50,000 and obtains title to Greenacre subject to D's mortgage as a result of the foreclosure sale. Under the laws of State Y, the mortgage obligation legally satisfied is the amount bid and E has the right to a judgment for a deficiency in the amount of $55,000 ($100,000 plus $5,000 less $50,000). In such a case, the district director must, under paragraph (b)(1)(i) of this section, pay $50,000 in order to redeem Greenacre, whether or not E seeks a judgment for the deficiency.

Example (4). The law of State Z contains a procedure which permits a county to collect a delinquent tax assessment with respect to real property by the means of a "tax sale" of the property. Pursuant to this procedure, a public auction is conducted on January 15, 1970, to collect the delinquent property taxes assessed against Whiteacre, which is owned by F. At the auction, a bid of $1,000 (representing the tax, costs, and interest due at the time of the auction) is made by G. Subsequently, G pays the amount bid to the county and obtains a tax certificate with respect to Whiteacre. Under this tax sale procedure, the obtaining of the tax certificate does not directly result in the divestment of either F's title or any junior liens on Whiteacre. On January 15, 1973, the period under this tax sale procedure during which F could have redeemed Whiteacre expires. Further, more than 30 days before January 15, 1973, a notice of tax lien affecting Whiteacre is filed under section 6323(f) with respect to F's delinquent Federal income taxes. Under the state tax sale procedure, the amount which would be required to be paid by F to G on January 15, 1973, to redeem Whiteacre is $1,350 (the $1,000 amount bid, interest of $300, and costs of $50). However, Whiteacre is not redeemed by F under the state procedure and, on January 16, 1973, G obtains a tax deed to Whiteacre. Under the law of State Z, the issuance of the tax deed results in the divestment of F's title and junior liens on Whiteacre. Thus, under § 301.7425-2(b), the date of sale is January 16, 1973, for purposes of section 7425(b). The amount legally satisfied by reason of the sale is the amount G is entitled to receive, immediately prior to the expiration of the period for redemption under the law of State Z, if Whiteacre were redeemed at such time. Thus, the district director must, under paragraph (b)(1)(i) of this section, pay $1,350 in order to redeem Whiteacre.

(c) *Certificate of redemption—(1) In general.* If a district director exercises the right of redemption of the United States described in paragraph (a) of this section, he shall apply to the officer designated by local law, if any, for the documents necessary to evidence the fact of redemption and to record title to the redeemed property in the name of the United States. If no such officer has been designated by local law or if the officer designated by local law fails to issue the necessary documents, the district director is authorized to issue a certificate of redemption for the property redeemed by the United States.

(2) *Filing.* The district director shall, without delay, cause either the documents issued by the local officer or the certificate of redemption executed by the district director to be filed with the local office where certificates of redemption are generally filed. If a certificate of redemption is issued by the district director and if the State in which the real property redeemed by the United States is situated has no office with which certificates of redemption may be filed, the district director shall file the certificate of redemption in the office of the clerk of the United States district court for the judicial district in which the redeemed property is situated.

(3) *Effect of certificate of redemption.* A certificate of redemption executed pursuant to paragraph (c)(1) of this section shall constitute prima facie evidence of the regularity of the redemption. When a certificate of redemption is recorded, it shall transfer to the United States all the rights, title, and interest in and to the redeemed property acquired by the person, from whom the district director redeemed the property, by virtue of the sale of the property. Therefore, if under local law the purchaser takes title free of liens junior to the lien of the foreclosing lienholder, the United States takes title free of such junior liens upon redemption of the property. If a certificate of redemption has been erroneously prepared and filed because the redemption was not effective, the district director shall issue a document revoking such certificate of redemption and such document shall be conclusively binding upon the United States against a purchaser of the property or a holder of a lien upon the property.

(4) *Application for release of right of redemption.* Upon application of a party with a proper interest in the real property sold in a nonjudicial sale described in section 7425(b) and § 301.7425-2 which real property is subject to the right of redemption of the United States described in this section, the district director may, in his discretion, release the right of redemption with respect to the property. The application for the release shall be submitted in writing to a district director and shall contain such information as the district director may require. If the district director determines that the right of redemption of the United States is without value, no amount shall be required to be paid with respect to the release of the right of redemption.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 663-76]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

United States Parole Commission

The Parole Commission and Reorganization Act (Pub. L. 94-233; 18 U.S.C. 4201 et seq.) established the United States Parole Commission as an inde-

V 41 I 163 AUG 20 76 UMI

pendent agency in the Department of Justice, replacing the United States Board of Parole. The Commission is authorized to grant and revoke paroles of Federal prisoners, and its functions are set forth in the Act. This order replaces the regulations relating to the U.S. Board of Parole with regulations concerning the new Commission.

The Commission is comprised of nine members, one of whom is designated as Chairman. The Chairman of the Commission is authorized to designate three Commissioners to serve on the National Appeals Board and to designate one region, subject to the concurrence of the President or his designee. (18 U.S.C. 4204 (a)(5)). By Executive Order No. 11919 of June 9, 1976, the President directed that the Attorney General serve as his designee. This order would authorize the Chairman to make a temporary assignment to any of those positions, in case of absence or vacancy in the position, without the Attorney General's concurrence.

By virtue of the authority vested in me by 28 U.S.C. 509 and 510 and 5 U.S.C. 301, and Executive Order No. 11919 of June 9, 1976, and consistent with the provisions of the Parole Commission and Reorganization Act (18 U.S.C. 4201 et seq.), Subpart V of Part 0 of Chapter I of Title 28, Code of Federal Regulations, is revised to read as follows:

Subpart V—United States Parole Commission

0.125 Chairman of U.S. Parole Commission.
0.126 Administrative support.
0.127 Indigent prisoners.

AUTHORITY: 28 USC 509 and 510; 5 USC 301; E.O. 11919, June 9, 1976; 18 USC 4201 et seq.

Subpart V—United States Parole Commission

CROSS REFERENCE: For regulations pertaining to the United States Parole Commission, see Parts 2 and 4 of this chapter.

§ 0.125 Chairman of U.S. Parole Commission.

The Chairman of the United States Parole Commission shall make any temporary assignment of a Commissioner to act as Vice Chairman, National Appeals Board member, or Regional Commissioner, in the case of an absence or vacancy in the position, without the concurrence of the Attorney General.

§ 0.126 Administrative support.

The Department of Justice shall furnish administrative support to the Commission.

§ 0.127 Indigent prisoners.

The United States Parole Commission is authorized to exercise the authority vested in the Attorney General by section 3569 of Title 18, United States Code, to make a finding that a parolee is unable to pay a fine in whole or in part and to direct release of such parolee based on such finding.

Dated: August 12, 1976.

EDWARD H. LEVI,
Attorney General.

[FR Doc.76-24360 Filed 8-19-76;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Carcinogens: Deletion of Vacated Laboratory Provisions; Deletion of Vacated Standard for Occupational Exposure to 4,4' Methylene bis (2-Chloroaniline)

On January 29, 1974, OSHA promulgated standards for occupational exposure to fourteen carcinogens, as 29 CFR 1910.93c through 1910.93p, pursuant to section 6 (b) and (c) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593, 29 U.S.C. 655). These standards were originally published at 39 FR 3756. Within the 60-day period provided by section 6(f) of the Act, petitions for judicial review were filed in the United States Court of Appeals for the Third Circuit by the Synthetic Organic Chemical Manufacturers Association, et al., challenging the validity of these standards. On December 17, 1974, that Court, in the case of "Synthetic Organic Chemical Manufacturers Association v. Brennan," 506 F. 2d 385, cert. denied, 423 U.S. 830, vacated the entire standard for 4,4' Methylene bis (2-chloroaniline), promulgated as § 1910.93e, and vacated the laboratory provisions of all the carcinogen standards (paragraph (c)(6) of §§ 1910.93c through 1910.93p). On January 7, 1975, OSHA Field Information Memorandum No. 75-2, containing this information, was distributed.

In the subsequent recodification of Title 29 of the Code of Federal Regulations, §§1910.93c through 1910.93p were recodified as §§ 1910.1003 through 1910.1016, respectively. Inadvertently, the vacated laboratory provisions were carried forward as paragraph (c)(6) of §§ 1910.1003 through 1910.1016, respectively, and the vacated standard for 4,4' Methylene bis (2-chloroaniline) was carried forward as § 1910.1005. To correct that error, and in accordance with the decision of the Court, § 1910.1005, in its entirety, and paragraph (c)(6) of §§ 1910.1003 through 1910.1016, respectively, are hereby deleted.

I find that the reasons stated above constitute good cause for making this change effective immediately. This amendment, therefore, is effective August 20, 1976.

§ 1910.1005 [Deleted]

§§ 1910.1003–1910.1004 and 1910.1006–1910.1016 [Amended]

Accordingly, pursuant to sections 6 and 8(g) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1600, 29 U.S.C. 655, 657), Secretary of Labor's Order No. 8-76 (41 FR 25059), and 29 CFR Part 1911, Part 1910 of Title 29 of the Code of Federal Regulations is hereby amended by deleting § 1910.1005 in its entirety and by deleting paragraph (c)(6) from §§ 1910.1003 through 1910.1016.

(Secs. 6, 8(g), Pub. L. 91-596, 84 Stat. 1593, 1600 (29 U.S.C. 655, 657), Secretary of Labor's Order No. 8-76 (41 FR 25059), and 29 CFR Part 1911)

Signed at Washington, D.C. this 13th day of August, 1976.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

[FR Doc.76-24542 Filed 8-19-76;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 598-3]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Georgia: Approval of Plan Revisions

On June 21, 1976 (41 FR 24913), the Agency announced as proposed rulemaking a number of implementation plan changes which the State of Georgia had adopted and submitted for EPA's approval after notice and public hearing. Copies of the materials submitted by Georgia were made available for public inspection, and written comments on the proposed plan revisions were solicited. No comments were received, however. The purpose of the present notice is to announce the Administrator's approval of these revisions. An evaluation of them may be obtained by consulting personnel of the Agency's Region IV Air Programs Branch, 1421 Peachtree Street, NE., Atlanta, Georgia 30309, telephone 404/526-3043. The revisions are now described.

New definitions are added and some existing definitions are revised. The definition of "modification" is amended by specifying that the term will have the sense given to it by sections 111 and 112 of the Clean Air Act when meeting requirements established by EPA under those sections of that Act.

Section 391-3-1.02(1), Registration, is replaced by a section titled "General Requirement", which forbids sources to operate in violation of requirements established by EPA pursuant to sections 111 and 112 of the Clean Air Act.

In subsection 391-3-1.02(2), General Provision, a third paragraph is added; this provides that requirements more stringent than those set forth elsewhere may be imposed on a facility in order to meet any Federal law or regulation or to safeguard the public health and welfare.

The language of subsection 391-3-1.02 (2)(e), Particulate Emissions from Manufacturing Processes, is amended to allow the Director of the Environmental Protection Division to set, as a permit condition, emission limits which differ from those required by the application of the process weight rate tables, or by other sections of the regulations. The Administrator approves this change only for cases where it provides for the establishment as permit conditions of emission limits more stringent than those contained in the currently approved Georgia control strategy. Any application of this regulation which would result in permit provisions less stringent than those otherwise required by the State's regulations must be formally submitted to EPA for prior approval as a plan revision pursuant to section 110(a) of the Clean Air Act.

The limit on particulate emissions from kaolin and fullers earth processes given at 391-3-1.02(2)(p)(1)(ii) is corrected to apply to sources with process weight input rate in excess of 30 tons/hour.

Modifications and rewording changes were made in the rules for conical burners, normal superphosphate manufacturing facilities, open burning sources and incinerators. Minor changes are made in the language dealing with permits and enforcement.

The sulfur dioxide rules of subsection 391-3-1.02(2)(g)(1) are revised to remove reference to urban and rural areas. Subsection 391-3-1.02(2)(g), Sulfur Dioxide, continues to require that no source be exempted from the emission limits defined in revised paragraph (g)(1), and further explicitly states that sources subject to this regulation must also meet the sulfur-in-fuel limitation of paragraph (g)(3), which remains unchanged, in addition to the provisions of paragraphs (g)(1) and (g)(2). Paragraph (g)(4) also remains unchanged and allows the sulfur-in-fuel limit to be exceeded provided that sulfur oxide removal technology is used to reduce sulfur oxide emissions to that level which would be achieved by burning fuel specified in paragraph (g)(3) without sulfur oxide removal. (It should be noted that the EPA's regional office in Atlanta has determined that the sulfur-in-fuel limitation of paragraph (g)(3), with one exception, is sufficient standing alone to assure attainment and maintenance of the national ambient air quality standards for SO_2. For this exception, the State has issued to this source, and EPA has approved, a Permit to Operate which is conditioned in such a way as to effect emission limitations more stringent than those prescribed in the Georgia regulations and sufficiently stringent to assure attainment and maintenance of the national ambient air quality standards (40 FR 45818, October 3, 1975). Also, the application to any source of revised paragraph (g)(1) must be in accordance with EPA's recently issued policy on tall stacks, entitled "Legal Interpretation and Guideline to Implementation of Recent Court Decisions on the Subject of Stack Height Increase as a Means of Meeting Federal Ambient Air Quality Standards", 41 FR 7450, February 18, 1976.)

In the section on ambient air quality standards, the 8-hour standard for carbon monoxide is revised to 10 milligrams per cubic meter, and the measuring procedure for photochemical oxidants and nitrogen dioxide is designated as the chemiluminescent method or its equivalent.

Section 391-3-1.08, Confidentiality of Information, is revised to read as follows:

Information relating to secret processes, devices or methods of manufacture or production obtained by the Division shall be kept confidential. *Provided, however,* Reports on the nature and amounts of stationary source emissions obtained by the Division shall be available for public inspections from the Division.

LEGAL AUTHORITY: Georgia Laws 1967, page 581 et seq., as amended; Georgia Laws 1975, page 1522.

The Georgia plan's provisions for the public availability of emissions data were disapproved on September 26, 1974 (39 FR 34533) at 40 CFR 52.577 and 52.578. On the basis of the foregoing corrective revision, these disapproval actions are hereby revoked.

In support of these changes, the State of Georgia provided no revision in its approved control strategies. EPA's Region IV Office has, for its part, determined that no revision to the control strategy portion of the plan is required since there is no change in the allowable emission limits upon which the Administrator's original approval of the plan was based. Accordingly, the Administrator approves, with the single qualification relative to 391-3-1.02(2)(e), the present changes in the Georgia plan.

These actions are effective immediately since they serve only to notify implementation plan changes already in effect under Georgia law, and impose no additional burden on anyone.

Copies of the information submitted by Georgia and the Georgia plan itself may be examined by the public during normal hours at the following locations:

Air Programs Branch, Air & Hazardous Materials Division, Environmental Protection Agency, Region IV, 1421 Peachtree Street, N.E., Atlanta, Georgia 30309.
Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20450.
Air Protection Branch, Environmental Protection Division, Department of Natural Resources, Room 816, 270 Washington Street, S.W., Atlanta, Georgia 30334.

(Sec. 110(a) of the Clean Air Act (42 U.S.C. 1857c-5(a)).)

Dated: August 9, 1976.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart L—Georgia

1. In § 52.570, paragraph (c) is amended by adding a subparagraph (16) as follows:

§ 52.570 Identification of plan.

• • • • • •

(c) • • •

(16) Miscellaneous plan revisions, submitted on December 16, 1975, by the Georgia Department of Natural Resources.

§§ 52.577 and 52.578 [Revoked]

2. Sections 52.577 and 52.578 are revoked.

3. Section 52.583 is hereby added:

§ 52.583 Additional rules and regulations.

Section 391-3-1.02(2)(e), Particulate Emissions from Manufacturing Processes, is hereby approved only to the extent that it provides for the establishment, as permit conditions, of emission limits more stringent than those otherwise applicable under the currently approved Georgia regulations. Any application of this regulation which would result in permit provisions less stringent than those otherwise required by the State's regulations must be formally submitted to EPA for prior approval as a plan revision pursuant to section 110(a) of the Clean Air Act.

[FR Doc.76-24085 Filed 8-19-76;8:45 am]

[FRL 598-2]

PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Revision to Emission Monitoring Requirements

On October 6, 1975 (40 FR 46250), under section 111 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) promulgated emission monitoring requirements and revisions to the performance testing methods in 40 CFR Part 60. The provisions of § 60.13(i) allow the Administrator to approve alternatives to monitoring procedures or requirements only upon written application by an owner or operator of an affected facility; monitoring equipment manufacturers would not be allowed to apply for approval of alternative monitoring equipment. Since EPA did not intend to prevent monitoring equipment manufacturers from applying for approval of alternative monitoring equipment, § 60.13(i) is being revised. As revised, any person will be allowed to make application to the Administrator for approval of alternative monitoring procedures or requirements.

This revision does not add new requirements, rather it provides greater flexibility for approval of alternative equipment and procedures. This revision is effective (date of publication).

(Sections 111, 114, and 301(a) of the Clean Air Act, as amended by sec. 4(a) of Pub. L. 91-604, 84 Stat. 1678 and by sec. 15(c)(2) of Pub. L. 91-604, 84 Stat. 1713 (42 U.S.C. 1857c-6, 1857c-9, and 1857g(a)).)

Dated: August 13, 1976.

RUSSELL E. TRAIN,
Administrator.

In 40 CFR Part 60, Subpart A is amended as follows:

1. Section 60.13 is amended by revising paragraph (i) as follows:

§ 60.13 Monitoring requirements.

• • • • • •

(i) After receipt and consideration of written application, the Administrator may approve alternatives to any monitoring procedures or requirements of this part including, but not limited to the following:

• • • • • •

[FR Doc.76-24558 Filed 8-19-76;8:45 am]

V 41 163 AUG 20 76 UMI

Title 41—Public Contracts and Property Management

CHAPTER 29—DEPARTMENT OF LABOR

PART 29–60—PROCEDURES FOR SETTLING CONTRACT DISPUTE APPEALS

Composition of the Board of Contract Appeals

Pursuant to 5 U.S.C. 301 and Reorganization Plan No. 6 of 1950 (15 FR 3174, 64 Stat. 1263), the Department of Labor is amending 41 CFR 29–60.101 Organization and location of the Board.

The present regulation for administrative adjudication of appeals from decisions of contracting officers under disputes clauses of Department of Labor contracts provides for adjudication of such appeals before a permanent Department of Labor Board of Contract Appeals composed of the Department of Labor Chief Administrative Law Judge who also serves as permanent chairman of the Board and eight Administrative Law Judges (whose titles were "Hearing Examiners" at the time the present regulation was promulgated) appointed for a term of four years. As it appears that greater flexibility and efficiency of operation can be promoted by permitting all Department of Labor Administrative Law Judges to be utilized as members of the Board, the procedural regulation at 41 CFR 29–60.101 is amended as set forth below.

As this regulation change concerns only matters of procedure, notice of proposed rulemaking, public participation therein and delay in effective date are not required (5 U.S.C. 553). Accordingly, on August 20, 1976, 41 CFR 29–60.101 is amended to read as follows:

§ 29–60.101 Organization and location of the Board.

(a) The Board is located in Washington, D.C.

(b) The Board consists of the Chief Administrative Law Judge and all other Administrative Law Judges employed by the U.S. Department of Labor as provided in 5 U.S.C. 5108 and qualified to preside at hearings pursuant to 5 U.S.C. 556. The Chief Administrative Law Judge shall be the Chairman of the Board. The appeals are assigned to a panel of at least three members of the Board by the Chairman who shall designate one panel member as Chairman of the panel. The decision of a majority of the panel constitutes the decision of the Board.

(c) In the event the Chief Administrative Law Judge is temporarily unavailable to serve as Chairman of the Board he shall designate one associate member to serve for the duration of his absence.

(5 U.S.C. 301; 15 FR 3174, 64 Stat. 1263.)

Signed at Washington, D.C., this 16th day of August 1976.

WILLIAM J. KILBERG,
Acting Secretary of Labor.

[FR Doc.76-24639 Filed 8-19-76;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 910]

HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

Proposed Amendment of Rules and Regulations

This document gives notice and invites written comments, not later than September 6, 1976, with respect to a proposed amendment to the rules and regulations under Marketing Order No. 910, regulating the handling of lemons grown in California and Arizona. The order provides for computation of each handlers prorate base by averaging the weekly quantity of lemons picked and delivered to his packinghouse in a specified base period. A handler receives allotment to ship lemons on the basis of the relationship his prorate base bears to the prorate bases of all handlers. The proposed amendment would change the number of weeks in the prorate base periods for Districts 1 and 2 to allow for a more equitable distribution of allotment by districts.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than September 6, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The rules and regulations (Subpart—Rules and Regulations; 7 CFR 910.100–910.180) are effective pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in Arizona and designated part of California, hereinafter referred to as the "order." This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal to amended said rules and regulations was unanimously recommended by the Lemon Administrative Committee established under the order as the agency to administer its terms and provisions. Under § 910.53 of the order the prorate base of each handler is computed on the basis of the average weekly quantity of lemons picked and delivered to his packinghouse in a specified base period. A handler receives allotment to ship lemons proportional to the relationship his prorate base bears to the total of the prorate bases of all handlers. In recognition of the differences in production and marketing conditions between the three prorate districts it is provided that the number of weeks in a prorate base period shall be specified by district. The aforesaid section also provides that the committee with the approval of the Secretary, may change the number of weeks in the prorate base period for each district.

As proposed to be amended, the rules and regulations would specify a change in the prorate base period for District 1 from 8 to 6 weeks and District 2 from 16 to 12 weeks. District 3 would remain at the present 4 weeks. A change from 16 weeks to 12 weeks in the maximum duration of a different prorate base period than generally prevailing in a district that a handler may apply for is also proposed. The aforesaid changes would also necessitate deleting "16" and inserting "12" in § 910.153(e)(2)(ii). In addition, a previous error in a reference to a subsection number would be corrected by the amendment.

The committee reports that shortening the weekly base period for Districts 1 and 2 as indicated would more accurately reflect the maximum time periods that picked lemons are stored before shipment. Decreasing the number of weeks in the prorate base period for Districts 1 and 2 would result in District 3 receiving a higher percentage of the industry prorate base early in the season when the quality of its lemons is highest. Likewise, District 3's share of the industry prorate base would be reduced seasonally earlier when more of that district's lemons are of lower quality.

The proposed amendments are as follows:

1. Two new paragraphs (g) and (h) are proposed to be added in § 910.153 to read as follows:

§ 910.153 Prorate bases and allotments.

* * * * *

(g) *Change in prorate base periods.* Pursuant to § 910.53(h) the number of weeks in the prorate base periods for the several districts as specified in § 910.53 (e) shall be: District 1, 6 weeks; District 2, 12 weeks; and District 3, 4 weeks.

(h) *Change in the duration of a different prorate base period that any handler may apply for to the committee.* Pursuant to § 910.53(h) the number of weeks specified in § 910.53(g) shall be in no event less than 4 weeks nor more than 12 weeks.

* * * * *

§ 910.153 [Amended]

2. In § 910.153(e)(2)(ii) change "16" to "12".

3. In § 910.153(a)(6) correct "other than off-bloom lemons covered by § 916.-61a" to read "other than off-bloom lemons covered by § 910.61(a).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

(It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A–107.)

Dated: August 16, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-24395 Filed 8-19-76;8:45 am]

[7 CFR Parts 1006, 1012, and 1013]

[Docket Nos. AO–356–A14, AO–347–A18, and AO–286–A26]

MILK IN UPPER FLORIDA, TAMPA BAY AND SOUTHEASTERN FLORIDA MARKETING AREAS

Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreements and to Orders

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in the Upper Florida, Tampa Bay and Southeastern Florida marketing areas.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250, on or before August 30, 1976. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

In the interest of expediting amendatory action in this proceeding, less than 15 days is being provided for the filing of exceptions. Proponents urged at the hearing that their proposed amendments be implemented as soon as possible. There was no opposition to the proposals or to taking prompt action.

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

V 41 163
AUG 20 76
UMI

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders as amended, were formulated, was conducted at Orlando, Florida, on June 22, 1976, pursuant to notices thereof which were issued on May 19, 1976 (41 F.R. 21206) and June 11, 1976 (41 F.R. 24382).

The material issues on the record of the hearing relate to:

1. Changing the present classification of cream and cream products from Class I to Class II; and

2. Permitting producer milk to be diverted from pool plants to plants regulated under other Federal orders for requested Class II use.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Classification of cream and cream products.* All cream and cream products should be classified as Class II products under each of the Florida orders.

The Florida orders now include sweet cream and sweet cream mixtures such as half and half in Class I. Other cream products, such as sour cream, sour cream dips, aerated cream and aerated cream products, are presently treated as Class II products.

The lower classification for cream products now defined as "fluid milk products" was proposed by the operator of a partially regulated distributing plant located at Jacksonville, Florida. The plant operator processes a number of cream products (both Class I and Class II) for sale throughout the southeastern part of the United States. Among such products are heavy (whipping) cream, light coffee) cream, and half and half. These three products, which shall be referred to herein as fluid cream products, are Class I products under each of the Florida orders. Proponent distributes fluid cream products on routes within each marketing area and also is a principal supplier of such products to handlers fully regulated under the Florida orders. He indicated that about one-third of his total sales are made in the three Florida markets.

The proponent handler pointed out that a number of processors in other states distribute various fluid cream products in Florida. He contended that such processors are procuring their raw ingredients at prices comparable to the Class II prices under the Florida orders. Proponent claimed that he is thus competitively disadvantaged in the Florida markets with respect to his sales of Class I fluid cream products. He indicated that fluid cream sales in Florida by out-of-state processors have been increasing while his cream sales in Florida have been declining. Proponent urged that fluid cream products be classified under the Florida orders in a manner comparable to the classification of such products now prevailing under most other Federal orders.

The proposal was not opposed by interested parties.

It is in the interest of orderly marketing that fluid cream products be classified as Class II products under each of the Florida orders. Such classification will place Florida handlers on a comparable basis with handlers in other regulated markets as to their cost under the orders for skim milk and butterfat disposed of as fluid cream products.

Handlers fully regulated under the Florida orders are required to pay the applicable order's Class I price for all producer milk disposed of in the form of fluid cream products. Several payment options are available to the operator of a partially regulated distributing plant (a distributing plant with route sales in the marketing area but which does not qualify as a pool plant). Under such options, however, a partially regulated handler incurs a cost essentially equal to the Class I price on his in-area sales of Class I products.

The proponent handler processes his cream products from heavy cream and nonfat dry milk, using the latter product in reconstituted form to standardize the heavy cream to the desired butterfat content. He purchases his raw cream from both Florida handlers and processors outside the state. To the extent that his cream purchases have been classified and priced as Class I milk under any Federal order, proponent has no order obligation on his packaged fluid cream sales in the Florida markets. Route sales in a Florida market that cannot be offset in this manner, however, are subject to a payment to the pool at the difference between the order's Class I and blend prices. To the extent that the cream product contains reconstituted nonfat dry milk, proponent incurs a pool obligation on the reconstituted portion equal to the difference between the order's Class I and Class II prices.

In addition to his route sales, proponent also supplies packaged fluid cream products to Florida pool plants. These transfers are treated under the orders as a receipt from an unregulated supply plant. Unless such transfers represent the equivalent of Class I purchases from Federal order sources, the receiving pool handler must pay to the pool the difference between the order's Class I and blend prices with respect to the fluid cream products transferred. In this case, also, an obligation equal to the difference between the order's Class I and Class II prices applies to the extent of the reconstituted portion of the cream product.

Such pricing of fluid cream products is placing the proponent handler at a competitive disadvantage relative to other cream processors not subject to the pricing provisions of the Florida orders. Several processors throughout the eastern half of the United States are distributing fluid cream products in the Florida markets, and thus in competition with proponent. Such processors are located at Charleston, West Virginia (Order 33 area), Washington Court House, Ohio (Order 33 area), Newburgh, New York (Order 2 area), Lebanon, Missouri (Order 62 area), and in the Chicago Regional market (Order 30 area). Handlers operating in these regulated markets are required to pay no more than a Class II price for milk used in fluid cream products, and no additional obligation is imposed under the Florida orders when such products are sold in the Florida markets. In most cases, the applicable Class II price in the other markets is the Minnesota-Wisconsin price plus 10 cents. By comparison, in 1975 the minimum Class I prices in Florida averaged $2.39 higher under the Upper Florida order, $2.49 higher under the Tampa Bay order, and $2.69 higher under the Southeastern Florida order.

Outside Florida, only nine Federal order markets now include fluid cream products in Class I. These markets are Puget Sound, Inland Empire, Great Basin, Eastern Colorado, Western Colorado, Black Hills, Michigan Upper Peninsula, Appalachian and Knoxville. The latter two markets have been proposed to be merged with the Chattanooga order. The proposed merged order, as set forth in the Department's final decision, would include fluid cream products in Class II.[1] The other markets listed are located substantial distances from Florida and do not represent from a practical standpoint sources of intermarket competition for Florida handlers.

The uniform classification of fluid cream products throughout much of the country was brought about in large part through the simultaneous adoption of uniform classification provisions in 39 orders.[2] Such provisions became effective on August 1, 1974. The Florida orders were not a part of the applicable proceedings.

Fluid cream sales in Florida represent less than two percent of the total Class I sales of regulated handlers. Classifying cream products in Class II, rather than in Class I, thus will have a very limited impact on returns to producers in the Florida markets.

A number of changes in each of the Florida orders are required to implement the new classification of fluid cream products. Such changes are patterned after the uniform classification provisions noted earlier that are applicable under the majority of orders. The use of such provisions will tend to minimize regulatory differences among competing handlers.

Under the amendments adopted herein, the accounting for fluid cream products would continue to be on a "disposed of" basis. This accounting method now applies to all products, including heavy

[1] Official notice is taken of the Assistant Secretary's decision on the Appalachian, Chattanooga and Knoxville orders issued on August 10, 1976.

[2] Official notice is taken of the Assistant Secretary's decisions on 39 Federal orders issued on February 19, 1974 (39 FR 8202, 8452, 8712, and 9012).

and light cream and half and half, that are included in the present fluid milk product definition. Other cream products now in Class II, such as sour cream and aerated cream, are accounted for on a "used to produce" basis. Although fluid cream products also would be in Class II, the "disposed of" accounting basis still remains appropriate for these types of products.

In connection with the classification changes, it is desirable to define a new term—"fluid cream product." "Fluid cream product" would mean sweet cream or a mixture of sweet cream and milk or skim milk containing 9 percent or more butterfat. The term would not include aerated cream and aerated cream products, which are Class II products now accounted for on a "used to produce" basis. Although the minimum butterfat content of half and half under State regulations is 10.5 percent, the minimum butterfat level of cream mixtures is set herein at 9 percent to coincide with the level established under the 39 orders referred to earlier.

Certain changes are also made in the other source milk definition of each order. At present, fluid milk products received at a pool plant from any source other than producers, other pool plants and the plant's inventory at the beginning of the month are considered as other source milk. Under the classification changes, however, cream no longer would be defined as a fluid milk product. To facilitate the application of other provisions of each order, it is desirable, nevertheless, that fluid cream products in bulk form continue to be treated in the same manner as fluid milk products for purposes of applying the other source milk definition.

Receipts of packaged fluid cream products, on the other hand, would be considered in all cases as a receipt of other source milk. This would be so irrespective of whether the products are received from other pool plants, other Federal order plants or unregulated plants. No handler obligation would apply to these receipts of packaged Class II products. Such receipts would be allocated directly to the handler's Class II utilization.

Fluid cream products disposed of from a pool plant in packaged form would be classified as Class II products, irrespective of whether such products are distributed on routes or transferred to another plant. The disposition of such products in packaged form indicates that this is the final form of the product. The classification of fluid cream products in bulk form, however, is determinable only by following the movement of the bulk product to its subsequent use. Thus, it is necessary that fluid cream products that are transferred in bulk form from a pool plant to another plant continue to be classified in the same manner as now provided under the orders.

Fluid cream products on hand in packaged form at the end of the month would be included in Class II, the class of expected ultimate use. The ending Class II inventory, as Class II inventory on hand at the beginning of the following month, would be allocated in such following month directly to the handler's Class II utilization. No change would be made in the present treatment of bulk cream in ending inventory.

For the first month that the new classification changes are effective, certain transitional provisions relating to inventories of fluid cream products should apply. Such provisions are necessary to assure that all handlers under the Florida orders will be subject to comparable pricing for milk used in packaged fluid cream products irrespective of whether such products enter into the month's accounting as beginning inventory or are made from current receipts of producer milk. Under the present orders, ending inventories of packaged fluid cream products are classified as Class I milk. Thus, in the first month of the new amendments, the beginning inventories of packaged fluid cream products will have been priced at the preceding month's Class I price. A handler should receive a credit on such beginning inventories equal to the difference between the preceding month's Class I and Class II prices so that such inventories will be competitive with Class II products made during the first month from current receipts of producer milk.

2. *Diversion of producer milk.* Each of the Florida orders should be amended to permit the diversion of producer milk to a pool plant regulated under another Federal order for requested Class II use.

The present provisions of each order provide that within certain limits producer milk may be diverted from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant. Even though not physically received at a pool plant, such diverted milk remains pooled under the order. Milk that is moved directly from farms to an other order plant is not considered as producer milk under the Florida orders and is not pooled or priced under such orders. In the case of producer-handler plants, the orders do not permit producer-handlers to receive milk directly from farms of other dairy farmers.

The fluid markets in Florida customarily have a reserve supply of milk to cover fluctuations in consumer demand and peak bottling schedules. Also, excess supplies normally develop during the months of seasonally high production. When these available supplies are not needed by distributing plants for fluid use, the milk must be moved to manufacturing plants for processing since the distributing plants are not equipped to handle such milk.

Diversion provisions are intended to facilitate the efficient handling of this surplus milk by permitting the movement of such milk directly from farms to manufacturing plants. Normally, milk is associated with a Federal order market only through its delivery to a plant fully regulated under the order. Without diversion provisions, milk not needed at the plant would still have to be received at the pool plant and then transferred to a manufacturing plant in order for the milk to remain pooled under the order. It is generally more economical, however, to move the surplus milk directly from the farm to the manufacturing plant, since this eliminates reloading the milk at the distributing plant and usually considerable hauling. The diversion provisions thus permit the continued association of a producer's milk with the fluid market while facilitating the efficient disposition of the market's reserve supply.

Facilities within the State of Florida for processing the reserve supplies of milk are limited essentially to a cottage cheese operation and an ice cream plant. Most of the surplus milk associated with each of the Florida orders thus has to be moved to out-of-state plants for processing. The following table shows the quantities of producer milk that were diverted to out-of-state plants for Class II use during 1974 and 1975.

Producer milk diverted to plants outside Florida for class II use

[Million pounds]

Federal order	1974	1975
Upper Florida	16.4	16.4
Tampa Bay	2.0	3.2
Southeastern Florida	2.1	16.7

A manufacturing plant at Franklinton, Louisiana, has customarily been used to process much of the Florida reserve supply. On April 1, 1976, the Franklinton plant became regulated under the newly expanded New Orleans-Mississippi Federal order. Because of its regulated status, the Franklinton plant no longer could be used as an outlet for surplus milk if the milk was to retain its producer status under the Florida orders. Because of the need for Florida producers to rely on this plant, cooperatives requested that the Department suspend those provisions that precluded diversions to other order plants. This action was taken for the months of May, June and July 1976. At the same time, this matter was publicly noticed as an issue to be considered at the hearing on which this decision is based. These provisions were later suspended for the months of August and September 1976.

In order to facilitate the disposition of surplus milk, the three Florida orders should be amended to permit diversions to other Federal order plants for Class II uses. Such plants in other markets are available surplus outlets for the milk in Florida that is not needed locally for fluid use. The Florida orders should permit the diversion of milk to these plants should the cooperatives find a need for utilizing such manufacturing facilities.

In the absence of such amendments, cooperatives in Florida still could dispose of unneeded milk supplies to a manufacturing plant regulated by another order. In most cases, such milk would be pooled under the other order. This, however, would have the effect of passing to the other Federal order market the

V 41 163 AUG 20 76 UMI

burden of the excess milk supplies of the Florida markets. The result would be an unwarranted decrease in the blend price payable to the producers regularly supplying the other market where the surplus milk became pooled. At the same time, the blend price for the Florida market from which the surplus milk emanated would be unjustifiably increased since such milk would not be included in the Florida order pool. This result would be contrary to the intent of the Act, which is to ensure stable and orderly marketing conditions for dairy farmers through the use of appropriate regulatory provisions.

It has been the policy under the Federal order program to facilitate the disposal of surplus milk on a Federal order market through manufacturing plants regulated under other orders. In this connection, Federal orders customarily provide that handlers may request a surplus classification for intermarket shipments of milk and that such milk will be allocated to the receiving handler's Class II/Class III utilization. In this way, returns to producers in the receiving market are not affected by the receipt of the surplus milk from the other market.

It is possible that milk may be diverted to another order plant with no agreement among the handlers as to its classification. In this case, the milk would be prorated under the other order (but with certain limitations) to the receiving handler's utilization in each class. A portion of such deliveries thus would be allocated to the receiving handler's Class I utilization. Since these deliveries to the handler would represent a portion of his Class I supply, such milk more appropriately should be pooled under the order regulating the plant where the milk was used in Class I. Accordingly, the Florida orders should provide that a "producer" should not include any person with respect to milk produced by him that is reported as diverted to another order plant if any portion of such person's milk so moved is assigned to Class I milk under the provisions of such other order.

RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

A brief and proposed findings and conclusions were filed on behalf of an interested party. The brief, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by the interested party are inconsistent with the findings and conclusions set forth herein, the request to make such findings or reach such conclusions is denied for the reasons previously stated in this decision.

GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid tentative marketing agreements and orders:

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER

The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as hereby proposed to be amended. The following order amending the orders, as amended, regulating the handling of milk in the Upper Florida, Tampa Bay and Southeastern Florida marketing areas is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

PART 1006—MILK IN THE UPPER FLORIDA MARKETING AREA

1. Section 1006.12 is revised to read as follows:

§ 1006.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the inspection requirements of a duly constituted health authority, which milk is received at a pool plant or diverted pursuant to § 1006.13 from a pool plant to a nonpool plant.

(b) The term "producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) The operator of an exempt distributing plant; or

(3) Any person with respect to milk produced by him that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I milk under the provisions of such other order.

2. In § 1006.13, the introductory text of paragraph (b) is revised to read as follows:

§ 1006.13 Producer milk.

* * * * *

(b) Diverted from a pool plant to a nonpool plant, other than a producer-handler plant, for the account of the pool plant operator or a cooperative association in any month in which not less than 10 days' production of the producer whose milk is diverted is physically received at a pool plant, subject to the following:

* * * * *

3. In § 1006.14, paragraphs (a) and (b) are revised to read as follows:

§ 1006.14 Other source milk.

* * * * *

(a) Fluid milk products and fluid cream products from any source except:

(1) Producer milk;

(2) Such products from pool plants; and

(3) Such products in inventory at the beginning of the month;

(b) Products, other than fluid milk products and fluid cream products, from any source (including those produced at the plant) which are reprocessed, converted into or combined with another product in the plant during the month; and

* * * * *

4. Section 1006.15 is revied to read as follows:

§ 1006.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, acidophilus milk, flavored milk, flavored milk drinks (including eggnog and milkshake mix), filled milk, and concentrated milk.

5. A new § 1006.16 is added to read as follows:

§ 1006.16 Fluid cream product.

"Fluid cream product" means sweet cream or a mixture of sweet cream and milk or skim milk containing 9 percent or more butterfat. The term "fluid cream product" shall not include aerated cream and aerated cream products.

6. In § 1006.30(a), subparagraphs (2) and (5) are revised to read as follows:

§ 1006.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(2) Fluid milk products and bulk fluid cream products received from pool plants of other handlers;

* * * * *

(5) Inventories of fluid milk products and fluid cream products at the beginning and end of the month;

* * * * *

7. In § 1006.40(b), a new subparagraph (1–a) is added and subparagraph (4) is revised to read as follows:

§ 1006.40 Classes of utilization.

* * * * *

(b) * * *

(1–a) Skim milk and butterfat disposed of in the form of a fluid cream product;

* * * * *

(4) Skim milk and butterfat in inventory of fluid cream products and bulk fluid milk products at the end of the month;

* * * * *

8. In § 1006.42, the introductory text of paragraphs (a), (b), and (c) and the language of paragraph (c) (3) and (5) are revised to read as follows:

§ 1006.42 Classification of transfers and diversions.

* * * * *

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to the pool plant of another handler, subject to the following conditions:

* * * * *

(b) As Class I milk, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant, unless the requirements of paragraph (b) (1) and (2) of this section are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from paragraph (b) (3) of this section.

* * * * *

(c) As follows, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to an other order plant in excess of receipts of fluid milk products or bulk fluid cream products, respectively, from such plant in the same category as described in paragraph (c) (1), (2), or (3) of this section:

* * * * *

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II milk to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the other order:

* * * * *

(5) For purposes of this paragraph, if the other order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and allocations to other classes shall be classified in a comparable classification as Class II milk; and

* * * * *

9. In § 1006.44(a), new subparagraphs (2–b) and (2–c) are added and subparagraphs (3) (i), (6), and (10) are revised to read as follows:

§ 1006.44 Classification of producer milk.

* * * * *

(2–b) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were received in packaged form from other plants;

(2–c) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were in inventory at the beginning of the month in packaged form;

(3) * * *

(i) Other source milk, except that received in the form of a fluid milk product, that was not subtracted pursuant to paragraph (a) (2–b) of this section;

* * * * *

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products and bulk fluid cream products at the beginning of the month that were not subtracted pursuant to paragraph (a) (4) of this section;

* * * * *

(10) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products and bulk fluid cream products received from pool plants of other handlers according to the classification of such products pursuant to § 1006.42(a); and

* * * * *

10. In § 1006.45, paragraphs (b) and (c) are revised to read as follows:

§ 1006.45 Market administrator's reports and announcements concerning classification.

* * * * *

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1006.44 on the basis of such report, and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

* * * * *

1. In § 1006.60, paragraph (e) is revised and a new paragraph (g) is added to read as follows:

§ 1006.60 Handler's value of milk for computing uniform price.

* * * * *

(e) Add an amount equal to the difference between the Class I and Class II price values at the pool plant of the skim milk and butterfat (excluding that contained in receipts of bulk fluid cream products from an other order plant) subtracted from Class I pursuant to § 1006.44 (a) (3) and the corresponding step of § 1006.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1006.44(a) (3) (v) and (vi) and the corresponding step of § 1006.44 (b) the Class I price shall be adjusted to the location of the transferor-plant (but not to be less than the Class II price);

* * * * *

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid cream product that was in the handler's inventory at the end of the preceding month and classified as Class I milk.

12. In § 1006.85, paragraph (b) is revised to read as follows:

§ 1006.85 Assessment for order administration.

* * * * *

(b) Any other source milk allocated to Class I milk pursuant to § 1006.44(a) (3) and (8) and the corresponding step of § 1006.44(b), except such other source milk excluded from pool obligations pursuant to § 1006.60 (e) and (f); and

* * * * *

PART 1012—MILK IN THE TAMPA BAY MARKETING AREA

1. Section 1012.12 is revised to read as follows:

§ 1012.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the inspection requirements of a duly constituted health authority, which milk is received at a pool plant or diverted pursuant to § 1012.13 from a pool plant to a nonpool plant.

(b) The term "producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act; or

(2) Any person with respect to milk produced by him that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I milk under the provisions of such other order.

2. In § 1012.13, the introductory text of paragraph (b) is revised to read as follows:

§ 1012.13 Producer milk.

* * * * *

(b) Diverted from a pool plant to a nonpool plant, other than a producer-

V 41 163 AUG 20 76 UMI

handler plant, for the account of the pool plant operator or a cooperative association in any month in which not less than 10 days' production of the producer whose milk is diverted is physically received at a pool plant, subject to the following:

• • • • • •

3. In § 1012.14, paragraphs (a) and (b) are revised to read as follows:

§ 1012.14 Other source milk.

• • • • • •

(a) Fluid milk products and fluid cream products from any source except:
(1) Producer milk;
(2) Such products from pool plants; and
(3) Such products in inventory at the beginning of the month;
(b) Products, other than fluid milk products and fluid cream products, from any source (including those produced at the plant) which are reprocessed, converted into or combined with another product in the plant during the month; and

• • • • • •

4. Section 1012.15 is revised to read as follows:

§ 1012.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, acidophilus milk, flavored milk, flavored milk drinks (including eggnog and milkshake mix), filled milk, and concentrated milk.

5. A new § 1012.16 is added to read as follows:

§ 1012.16 Fluid cream product.

"Fluid cream product" means sweet cream or a mixture of sweet cream and milk or skim milk containing 9 percent or more butterfat. The term "fluid cream product" shall not include aerated cream and aerated cream products.

6. In § 1012.30(a), subparagraphs (2) and (5) are revised to read as follows:

§ 1012.30 Reports of receipts and utilization.

• • • • • •

(a) • • •
(2) Fluid milk products and bulk fluid cream products received from pool plants of other handlers;

• • • • • •

(5) Inventories of fluid milk products and fluid cream products at the beginning and end of the month;

• • • • • •

7. In § 1012.40(b), a new subparagraph (1–a) is added and subparagraph (4) is revised to read as follows:

§ 1012.40 Classes of utilization.

• • • • • •

(b) • • •
(1–a) Skim milk and butterfat disposed of in the form of a fluid cream product;

• • • • • •

(4) Skim milk and butterfat in inventory of fluid cream products and bulk fluid milk products at the end of the month;

• • • • • •

8. In § 1012.42, the introductory text of paragraphs (a), (b), and (c) and the language of paragraph (c) (3) and (5) are revised to read as follows:

§ 1012.42 Classification of transfers and diversions.

• • • • • •

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to the pool plant of another handler, subject to the following conditions:

• • • • • •

(b) As Class I milk, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of paragraph (b) (1) and (2) of this section are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from paragraph (b) (3) of this section:

• • • • • •

(c) As follows, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to an other order plant in excess of receipts of fluid milk products or bulk fluid cream products, respectively, from such plant in the same category as described in paragraph (c) (1), (2), or (3) of this section:

• • • • • •

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II milk to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the other order:

• • • • • •

(5) For purposes of this paragraph, if the other order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and allocations to other classes shall be classified in a comparable classification as Class II milk; and

• • • • • •

9. In § 1012.44(a), new subparagraphs (2–b) and (2–c) are added and subparagraphs (3)(i), (6), and (10) are revised to read as follows:

§ 1012.44 Classification of producer milk.

• • • • • •

(2–b) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were received in packaged form from other plants;
(2–c) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were in inventory at the beginning of the month in packaged form;
(3) • • •
(i) Other source milk, except that received in the form of a fluid milk product, that was not subtracted pursuant to paragraph (a)(2–b) of this section;

• • • • • •

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products and bulk fluid cream products at the beginning of the month that were not subtracted pursuant to paragraph (a)(4) of this section;

• • • • • •

(10) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products and bulk fluid cream products received from pool plants of other handlers according to the classification of such products pursuant to § 1012.42(a); and

• • • • • •

10. In § 1012.45, paragraphs (b) and (c) are revised to read as follows:

§ 1012.45 Market administrator's reports and announcements concerning classification.

• • • • • •

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1012.44 on the basis of such report, and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant to class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and as necessary, any changes in such allocation arising from the verification of such report.

• • • • • •

11. In § 1012.60, paragraph (e) is revised and a new paragraph (g) is added to read as follows:

§ 1012.60 Handler's value of milk for computing uniform price.

• • • • • •

(e) Add an amount equal to the difference between the Class I and Class II price values at the pool plant of the skim milk and butterfat (excluding that contained in receipts of bulk fluid cream products from an other order plant) subtracted from Class I pursuant to § 1012.44(a)(3) and the corresponding step of § 1012.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1012.44(a)(3)(iv) and (v) and the corresponding step of § 1012.44(b) the Class I price shall be adjusted to the location of the transferor-plant (but not to be less than the Class II price);

• • • • • •

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid cream product that was in the handler's inventory at the end of the preceding month and classified as Class I milk.

12. In § 1012.85, paragraph (b) is revised to read as follows:

§ 1012.85 Assessment for order administration.

• • • • • •

(b) Any other source milk allocated to Class I milk pursuant to § 1012.44(a)(3) and (8) and the corresponding step of § 1012.44(b), except such other source milk excluded from pool obligations pursuant to § 1012.60(e) and (f); and

• • • • • •

PART 1013—MILK IN THE SOUTHEASTERN FLORIDA MARKETING AREA

1. Section 1013.12 is revised to read as follows:

§ 1013.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who producers milk (and who is responsible for the milk production enterprise on a continuing basis as to management and risk) in compliance with the inspection requirements of a duly constituted health authority for fluid consumption (as used in this part compliance with inspection requirements shall include production of milk acceptable to agencies of the U.S. Government located in the marketing area for fluid consumption).
(b) The term "producer" shall not include:
(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act; or
(2) Any person with respect to milk produced by him that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I milk under the provisions of such other order.

2. In § 1013.13, the introductory text of paragraph (b) is revised to read as follows:

§ 1013.13 Producer milk.

• • • • • •

(b) Diverted from a pool plant to a nonpool plant, other than a producer-handler plant, for the account of the pool plant operator or a cooperative association, subject to the following:

• • • • •

3. In § 1013.14, paragraphs (a) and (b) are revised to read as follows:

§ 1013.14 Other source milk.

• • • • • •

(a) Fluid milk products and fluid cream products from any source except:
(1) Producer milk;
(2) Such products from pool plants; and
(3) Such products in inventory at the beginning of the month;
(b) Products, other than fluid milk products and fluid cream products, from any source (including those produced at the plant) which are reprocessed, converted into or combined with another product in the plant during the month; and

• • • • • •

4. Section 1013.15 is revised to read as follows:

§ 1013.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, acidophilus milk, flavored milk, flavored milk drinks (including eggnog and milkshake mix), filled milk, and concentrated milk.

5. A new § 1013.16 is added to read as follows:

§ 1013.16 Fluid cream product.

"Fluid cream product" means sweet cream or a mixture of sweet cream and milk or skim milk containing 9 percent or more butterfat. The term "fluid cream product" shall not include aerated cream and aerated cream products.

§ 1013.19 [Revoked]

6. Section 1013.19 is revoked.

7. In § 1013.30(a), subparagraphs (2) and (5) are revised to read as follows:

§ 1013.30 Reports of receipts and utilization.

• • • • • •

(a) • • •
(2) Fluid milk products and bulk fluid cream products received from pool plants;

• • • • • •

(5) Inventories of fluid milk products and fluid cream products at the beginning and end of the month or accounting period;

• • • • • •

8. In § 1013.40(b), a new subparagraph (1–a) is added and subparagraph (4) is revised to read as follows:

§ 1013.40 Classes of utilization.

• • • • • •

(b) • • •
(1–a) Skim milk and butterfat disposed of in the form of a fluid cream product;

• • • • • •

(4) Skim milk and butterfat in inventory of fluid cream products and bulk fluid milk products at the end of the month;

• • • • • •

9. In § 1013.42, the introductory text of paragraphs (a), (b), and (c) and the language of paragraph (c) (3) and (5) are revised to read as follows:

§ 1013.42 Classification of transfers and diversions.

• • • • • •

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to the pool plant of another handler, subject to the following conditions:

• • • • • •

(b) As Class I milk, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of paragraph (b) (1) and (2) of this section are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from paragraph (b) (3) of this section:

• • • • • •

(c) As follows, if transferred or diverted in the form of a fluid milk product or a bulk fluid cream product to an other order plant in excess of receipts of fluid milk products or bulk fluid cream products, respectively, from such plant in the same category as described in paragraph (c) (1), (2), or (3) of this section:

• • • • • •

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II milk to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the other order:

• • • • • •

(5) For purposes of this paragraph, if the other order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and allocations to other classes shall be classified in a comparable classification as Class II milk; and

• • • • • •

10. In § 1013.44(a), new subparagraphs (2–b) and (2–c) are added and subparagraphs (3), (7), and (11) are revised to read as follows:

§ 1013.44 Classification of producer milk.

• • • • • •

(a) • • •
(2–b) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were received in packaged form from other plants;
(2–c) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in fluid cream products that were in inventory at the beginning of the month in packaged form;

V 41 163 AUG 20 76 UMI

(3) Subtract from the remaining pounds of skim milk in Class I and Class II, in series beginning with Class II, the pounds of skim milk in other source milk, except that received in the form of a fluid milk product, that was not subtracted pursuant to paragraph (a) (2–b) of this section;

• • • • • •

(7) Subtract from the pounds of skim milk remaining in Class I and Class II, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products and bulk fluid cream products at the beginning of the month that were not subtracted pursuant to paragraph (a) (5) of this section;

• • • • • •

(11) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products and bulk fluid cream products received from pool plants of other handlers according to the classification of such products pursuant to § 1013.42(a); and

• • • • • •

11. In § 1013.45, paragraphs (b) and (c) are revised to read as follows :

§ 1013.45 Market administrator's reports and announcements concerning classification.

• • • • • •

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1013.44 on the basis of such report, and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

• • • • • •

12. In § 1013.60, paragraph (e) is revised and a new paragraph (g) is added to read as follows:

§ 1013.60 Handler's value of milk for computing uniform price.

• • • • • •

(e) Add an amount equal to the difference between the Class I and Class II price values at the pool plant of the skim milk and butterfat (excluding that contained in receipts of bulk fluid cream products from an other order plant) subtracted from Class I pursuant to § 1013.44(a) (3) and (4) and the corresponding step of § 1013.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1013.44(a) (4) (iii) and (iv) and the corresponding step of § 1013.44(b) the Class I price shall be adjusted to the location of the transferor-plant (but not to be less than the Class II price);

• • • • • •

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid cream product that was in the handler's inventory at the end of the preceding month and classified as Class I milk.

13. In § 1013.85, paragraph (a) (2) is revised to read as follows:

§ 1013.85 Assessment for order administration.

(a) • • •

(2) Any other source milk allocated to Class I milk pursuant to § 1013.44(a) (3), (4), and (9) and the corresponding steps of § 1013.44(b), except such other source milk excluded from pool obligations pursuant to § 1013.60 (e) and (f); and

• • • • • •

[7 CFR Part 1033]

[Docket No. AO-166-A49]

MILK IN OHIO VALLEY MARKETING AREA

Decision (Partial) on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Ohio Valley marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Columbus, Ohio, on May 4, 1976, pursuant to notice thereof issued on March 30, 1976 (41 FR 14192).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator on July 20, 1976 (41 FR 30345) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

No testimony was presented on the hearing notice proposal (No. 9) to reduce the monthly route disposition requirement for pooling a distributing plant from 50 percent to 45 percent in September–February and from 45 percent to 40 percent in March–August of a plant's total receipts. Accordingly, no action is taken on the proposal.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the addition of three paragraphs immediately following the last paragraph in the findings and conclusions.

The material issues on the record relate to:

1. Payment procedures which would permit handlers to make payments to nonmember producers directly rather than through the market administrator.
2. Procedure for pooling a plant that qualified under the Ohio Valley order and another order in the same month.
3. Modification of the pooling procedure to consider as one plant the operation of two or more distributing plants for purposes of pool qualification.
4. Inclusion of interplant transfers of packaged fluid milk products as a route disposition from the transferee-plant for purposes of determining such plant's status as a pool plant.
5. Classifying in Class III the skim milk and butterfat in products containing less than 6.5 percent nonfat milk solids.
6. Classifying in Class III the skim milk and butterfat in products in hermetically sealed containers.
7. Conforming changes.

This decision deals only with Issue No. 2. The remaining issues will be handled in a later decision.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

2. *Pooling a plant that qualified under Ohio Valley and another order in the same month.* The provisions for determining the status of a plant that qualifies as a pool plant under this and another order in the same month should not be changed on the basis of this record. Under present terms of the order a fully regulated plant under another Federal order which also meets the pooling standards of this order and which makes greater distribution in the Ohio Valley marketing area is not regulated under this order until the second consecutive month in which it makes such greater distribution.

A federation of cooperatives, which represent a substantial majority of producers under the order, proposed that a regulated plant under another Federal order that also qualifies as a pool plant under this order continue to be pooled under such other order unless its route disposition in the Ohio Valley marketing area was more than in the marketing area of the other order in the current month as well as in the two immediately preceding months. In effect, such a plant would not be pooled under this order until it had more sales in the Ohio Valley marketing area for three consecutive months (rather than the two consecutive month requirement now provided in the order).

In addition to proponent's testimony, the Kroger Company, which operates a plant in Indianapolis that has been qualifying as a pool plant in the same month under both the Indiana and Ohio Valley orders, supported the proposal. Cooperatives supplying Kroger's Indianapolis plant, and which represent a substantial majority of producers under the Indiana order, also supported the proposal.

The proposal was made to implement the continued pooling of the Kroger plant in Indianapolis under the Indiana order where it has been pooled since inception of that order in 1961. In recent years, based on its route disposition in the marketing areas of the Indiana and Ohio Valley orders, it has qualified each month as a pool plant under both orders. In 1975, of the total route disposition from the plant, an average of 33.8 percent per month was made in the Indiana marketing area and 29.6 percent in the Ohio Valley marketing area. However, in some months (June 1975 and March and April 1976) its sales in the Ohio Valley marketing area were greater than in the Indiana marketing area. (Official notice is taken of the fact that a proposed suspension notice was issued on June 22, 1976, for the month of July 1976. Because of opposition the action was not consumated, however. Thus, it is reasonable to presume that the plant also had greater sales in the Ohio Valley market in the month of June 1976 and anticipated greater sales there in July 1976.)

In June 1975, despite its greater sales in the Ohio Valley marketing area, the Kroger plant remained pooled under the Indiana order. This resulted because the Ohio Valley order does not pool such a plant until the second consecutive month in which sales in its marketing area are more than in the marketing area of the other order.

When more sales were made in the Ohio Valley marketing area than in the Indiana marketing area for two successive months, March and April 1976, the Kroger plant was pooled under the Indiana order in April as a result of suspension action under the Ohio Valley order that action was taken by the Department at the request of cooperatives representing a substantial majority of the producers under both the Indiana and Ohio Valley orders.

The spokesman for Kroger stated that it watches closely the sales from the Kroger plant in both the Indiana and Ohio Valley marketing areas to insure the plant's continuing regulation under the Indiana order. He suggested that the greater sales in some months in the Ohio Valley marketing area were generally unexpected. The spokesman further stated that Kroger expected to monitor its sale more closely in the future to insure having more distribution each month from its Indianapolis plant into the Indiana marketing area than into the Ohio Valley marketing area. He urged however, that the Ohio Valley pooling provisions be modified to require that a plant have more sales in the Ohio Valley marketing area than in the marketing area of another order for three consecutive months before it becomes pooled under the Ohio Valley order. He held that this amendment was needed as an additional safeguard to insure the plant's continued pooling under the Indiana order.

The federation of cooperatives representing Ohio Valley producers and the cooperatives representing Indiana order producers contended that without such a requirement (three consecutive months of greater sales in the Ohio Valley marketing area for pooling a plant under the Ohio Valley order) the shifting back and forth between the two orders of the Kroger plant in Indianapolis would be disruptive to the maintenance of orderly marketing conditions.

Both the Ohio Valley and Indiana orders contain "Louisville plan" provisions with April–July the takeout months and September–December the payback months. If the Kroger plant were pooled under the Ohio Valley order in a single takeout month, the money thus withheld for producers supplying the Kroger plant in Indianapolis (and who are regularly associated with the Indiana market) would be included in the set aside under the Ohio Valley order. This, the cooperative claimed, would result in undue enhancement of the Louisville plan payback under the Ohio Valley order and, conversely, in an undue reduction of the payback under the Indiana order in the fall months. According to proponent cooperative, the aberration in producer prices in the takeout months under Louisville plans that would result under the Ohio Valley and Indiana orders would result in gross inequities to producers.

A Louisville plan is adopted to encourage a uniform milk supply throughout the year. In theory, it encourages increased production for the market in the months of seasonally low production and discourages production in the normal flush production months. This is accomplished by retaining specified amounts of pool proceeds during the flush production months for distribution to those producers delivering milk to the market during the short production months. No producer is required to associate with any designated plant or order in any specified month or months as a precondition for sharing in the takeout money for his deliveries under an order during the payback months. The fact that a producer (or group of producers) was associated with a particular market during some month(s) when a Louisville plan takeout was in effect and potentially would be associated with another market during the payback months is not an appropriate basis for predetermination of the order under which the plant to which he delivers his milk should be pooled.

Ideally, a plant should be pooled under that order regulating the market in which such plant had its greater sales during the month. In this way all handlers having their principal sales in a market are subject to the same prices and other regulatory provisions as their main competitors.

Notwithstanding, it must be recognized that as a result of an unanticipated loss or gain of a sales outlet during a month a plant having essentially equal sales in two regulated markets could unintentionally and unavoidably shift regulation from one order to another. It is for this reason that lock-in provisions have been adopted so that when the shift in sales volume was totally unexpected, the handler operating the plant would have opportunity to take prompt remedial action to insure continuing regulation in the plant's normal market.

The present provisions in the Ohio Valley order prescribing the pooling of a plant that is also qualified under another order only after the second consecutive month in which it has greater sales in the Ohio Valley marketing area is a reasonable and appropriate basis for meeting this problem. A handler reasonably should be able to monitor his distribution on a day-to-day basis in situations where substantial sales are made in two markets. Under any circumstances he must be fully aware of his exact distribution pattern by the time of filing monthly reports of receipts and utilization, which in the Indiana and Ohio Valley orders are the 8th day and the 6th day, respectively, after the end of the month. This provides reasonable time in the second month for a handler to adjust his business to protect against inadvertent pooling in other than his normal market. Except for the Kroger plant in Indianapolis, no plant qualified as a pool plant under the Ohio Valley order based on route disposition in the marketing area likewise qualifies in the same month as a pool plant under another order.

In addition to its Indianapolis plant, Kroger operates a plant at Springdale, Ohio, which has continuously been a fully regulated plant under the Ohio Valley order. It also operates fully regulated plants under the St. Louis-Ozarks, Southern Michigan and Texas orders. Milk from these plants is distributed over wide areas. It was gratuitously suggested at the hearing that the Indianapolis plant could be kept pooled under the Indiana order by transferring some route dispositon in the Ohio Valley marketing area to the Springdale plant, thereby reducing its sales in the Ohio Valley marketing area relative to its sales in the Indiana marketing area.

The record is quite clear that Kroger is fully aware that its Indianapolis plant has had, and without appropriate controls prospectively will continue to have, the greater proportion of its sales in Ohio Valley in many months. Nevertheless, it wishes the plant to continue to be pooled in Indiana and has indicated it will take any necessary action to insure this end. It urges the adoption of the three-month provision in Ohio Valley in lieu of the present two months to implement its operations in this regard. This is not the kind of situation that the lock-in provision was adopted to accommodate.

V 41 163 AUG 20 76 UMI

It is recognized that the shifting of the Kroger plant back and forth between the two orders could be disruptive. Nevertheless, the precarious position of the plant in this regard is clearly evident to the handler and he has had reasonable time (since April 1976) to implement the operational adjustments that appropriately must be made to keep the plant pooled under the Indiana order.

It is readily apparent that the plant's primary sales area is increasingly in Ohio. Permitting the plant to remain pooled under the Indiana order until it had greater sales in each of three successive months under the Ohio Valley order could only implement manipulation of the operation on every third month to the end that even though the plant's sales were greater in the Ohio Valley market eight months of each year it nevertheless would remain pooled under the Indiana order. It cannot be concluded on the basis of this record that this plant, which prospectively will have more sales in the Ohio Valley market, is more appropriately associated with and should be pooled under the Indiana order, where it prospectively will have the lesser sales. Amendment of the order in the manner requested to better accommodate the handler in implementation of continuing regulation in Indiana would tend to undermine the integrity of regulation.

If, as seems apparent, it is the belief of Kroger and cooperatives supplying the Indiana and Ohio Valley markets that the Indianapolis plant should be pooled under the Indiana order notwithstanding its greater sales in the Ohio Valley market, then it is evident that some more appropriate means be found to accomplish this end. This necessarily would need to be more fully explored under another proceeding. In the meantime, since Kroger has indicated that it will monitor the distribution from its Indianapolis plant to insure that it has greater monthly sales in the Indiana marketing area than in the Ohio Valley marketing area, it is likely that the plant can continue to pool under the Indiana order under the existing provisions of the respective orders. The present Ohio Valley order provision (whereby the Indianapolis plant would be pooled under the Ohio Valley order only when its sales in the Ohio Valley marketing area exceeded those in the Indiana marketing area for two consecutive months) provides the necessary flexibility for Kroger to avoid unintentional pooling under the Ohio Valley order and at the same time provides appropriate safeguards to protect the interests of producers and pool plant operators under both orders.

Notwithstanding the above conclusion, the order language prescribing the conditions for pooling a plant qualified as a pool plant under Ohio Valley and another order in a month when more sales were made in the Ohio Valley marketing area should be clarified. Such a plant is now pooled under the Ohio Valley order only if it had more sales in the Ohio Valley marketing area than in the marketing area of the other order in both the current month and the preceding month.

Under the order language, however, it could be construed that the greater sales referred to relates to the total combined sales for a two-month period rather than to sales in each month, respectively. The order language should be modified to make clear that the reference is to the greater fluid milk sales in each such month.

In the proponent's exceptions to the recommended decision it cited the three-month lock-in provision in the Indiana order as an appropriate lock-in provision and as a compelling reason for adopting the proponent's lock-in proposal for the Ohio Valley order. Under the Indiana order a plant that qualifies under that order and another order in the same month would be pooled under the Indiana order in the first month in which it has more sales in the Indiana marketing area than in the marketing area of the other order. If such a plant had more sales in the marketing area of the other order in the months immediately following, it would continue to be pooled under the Indiana order until the third consecutive month in which its sales were greater in the other marketing area.

Instead of pooling a plant that qualifies under Ohio Valley and another order in the first month it had more sales in the Ohio Valley marketing area (as under the Indian order) the proposal here considered would not pool the plant under Ohio Valley until the plant's sales were greater than in the marketing area of the other order for three consecutive months. Moreover, in any month such a plant had more sales in the Indiana marketing area, irrespective of the number of immediately preceding consecutive months it had greater sales in the Ohio Valley marketing area, it would be pooled under the Indiana order for that month.

The record evidence provides no basis for concluding that the existence of the Indiana order lock-in provision, which is deemed appropriate for that market, is a justifiable reason to adopt the completely different lock-in provisions proposed for the Ohio Valley order, as suggested by the exceptor.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Ohio Valley marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Aproval and Representative Period

June 1976 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Ohio Valley marketing area is approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 17, 1976.

RICHARD L. FELTNER,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Ohio Valley marketing area

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Ohio Valley marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 90).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Ohio Valley marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator on July 20, 1976, and published in the FEDERAL REGISTER on July 23, 1976 (41 FR 30345) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein.

In § 1033.56, paragraph (a) is revised as follows:

§ 1033.56 Plants subject to other Federal orders.

(a) Except as specified in § 1033.31 and in paragraph (b) of this section, the provisions of this part shall not apply to a distributing plant or a supply plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless the plant is qualified as a pool plant pursuant to § 1033.12 during the current month and the immediately preceding month and a greater volume of fluid milk products, except filled milk, is disposed of in each such month from such plant as route disposition in the Ohio Valley marketing area and to pool plants qualified on the basis of route disposition in the Ohio Valley marketing area than is disposed of from such plant as route disposition in the marketing area regulated pursuant to the other order and to plants qualified as fully regulated plants under such other order on the basis of route disposition in its marketing area.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 405]

[Regulations No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Principles of Reimbursement for Provider Costs; Depreciation: Allowance for Depreciation Based on Asset Costs

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the amendments to Subpart D of Regulations No. 5 set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would clarify and expand existing policy for determining the useful lives of depreciable assets used in the provision of patient care services under Medicare. They also would provide for the proper determination and treatment of gains and losses on the disposal of assets. Paragraph (b) (7) would be added to § 405.415 to clearly delineate the proper procedures for determining the useful lives of depreciable assets and to provide the procedures to be followed when a change in the estimated useful life is necessary. Paragraph (c) of § 405.415 would be amended to delete the last sentence. That sentence would be incorporated in § 405.415(b) (7). Section 405.415(f) would be revised to clarify and expand the existing procedures for computing gains and losses on the disposal of assets. The revision would describe the various types of disposal recognized under the Medicare program, and would provide for the proper computation and treatment of gains and losses in determining reasonable costs. For example, the policy pertaining to losses resulting from the demolition or abandonment of depreciable assets would be revised to preclude the immediate payment of substantial losses flowing from the premature and voluntary disposal of depreciable assets. Under the proposed policy, such losses would be capitalized as a deferred charge and amortized over the useful life of the replacement asset. However, where the demolition or abandonment is approved by the State Health Planning and Development Agency, then, the loss would be capitalized as a deferred charge and amortized over the remaining life of the demolished or abandoned asset regardless of replacement. Under Pub. L. 93-641, section 1513(g) and section 1523 (a) (6) and (b) (3), the health system agency and the State health planning and development agency will periodically review and make recommendations and findings on the appropriateness of existing institutional health services. Such appropriateness review and findings may encourage facilities to close down or phase out certain operations, which may result in the demolition or abandonment of depreciable assets. Since the replacement of such assets may not be consistent with the health systems plan of the health service area, the proposed policy does not require replacement of the demolished or abandoned assets.

In accordance with section 1861(v) (1) of the Social Security Act, the Medicare program reimburses providers for the reasonable cost of all necessary and proper expenditures which are appropriate and helpful in developing and maintaining the operations of patient care facilities and activities. Consistent with this requirement, an appropriate allowance for depreciation is an allowable cost under the Medicare program based upon the depreciable basis and estimated useful life of the patient care asset. When a disposal of an asset occurs, no further depreciation may be taken on the asset, and the gains and losses provisions under § 405.415(f) are applied to assure that reimbursement is limited to actual cost associated with the utilization of that asset. Where depreciable assets are voluntarily and prematurely disposed of by means of demolition or abandonment, the ultimate salvage value is effectively reduced to near zero worth and could result in a sizable loss on disposal to be treated as a depreciation adjustment in computing al-

V 41 163 AUG 20 76 UM

lowable costs. When a provider intentionally destroys or abandons a productive and valuable asset, it would be inequitable for the Medicare program to immediately reimburse the provider for the unused value if such asset could have been utilized in the provision of patient care services. Accordingly, where a provider unilaterally decides to demolish or abandon its patient care assets, without the concurrence of its State health planning and development agency, it would be inconsistent with the reimbursement of reasonable cost to include the entire loss in the year of disposal where the loss is substantial, since that loss is not related to the cost of services rendered in that year. The full recognition of such losses in the year of disposal would also tend to encourage the demolition or abandonment of patient care assets at the expense of the Medicare program, and could encourage the cessation of the provider's participation in the program once the loss has been recovered. The book value remaining at the time of demolition or abandonment is not expended in the provision of patient care services, but has been lost due to the action taken by the provider. Such unilateral action should not be relatively free of cost to the provider. Since the provider made its decision from among the alternative uses available, without participation from health planning and development agencies, the undepreciated cost remaining at the time the asset is voluntarily and prematurely destroyed is actually a part of the provider's total investment in the delivery of future services. Therefore, such losses should only be recognized where the demolished or abandoned asset is replaced by another patient care asset and amortized over the useful life of the replacement asset.

In enacting the provisions of Pub. L. 93–641, Congress found that the massive infusion of Federal funds into the existing health care system has contributed to inflationary increases in the cost of health care and has failed to produce an adequate supply or distribution of health resources. In recognition of the magnitude of these problems and the urgency placed on their solution, it is the purpose of Pub. L. 93–641 to facilitate the development of recommendations for a national health planning policy, and to augment areawide and State planning for health services, manpower, and facilities. Since the functions of the health system agency and the State health planning and development agency include the restraint of increases in the cost of providing health services and the prevention of unnecessary duplication of health resources, such functions enhance the provision of patient care services and are consistent with the intent of provider reimbursement policy under the Medicare program. Accordingly, where the demolition or abandonment of patient care assets is approved by the State health planning and development agency, the Medicare program shall consider the disposal to be consistent with the health services requirements of the health service area with respect to planning and development. Since there would be a negative economic incentive for a provider to voluntarily comply with the recommendations of the health planning and development agency if the loss on the demolished or abandoned asset is amortized over the life of the replacemnt asset, the Medicare program will permit the loss to be recovered over the remaining life of the demolished or abandoned asset. If replacement of the asset is not in the best interest of sound health planning in the health service area, the Medicare program will also benefit through the reduction of cost associated with the nonreplacement of the asset.

Paragraph (e) of § 405.460 would be amended to conform to Subpart R of this part. Subpart R provides that, if the proper criteria in Subpart R are met, a provider shall make his request for a hearing to the Provider Reimbursement Review Board, rather than the intermediary, as presently provided by paragraph (e) of § 405.460. This provision unintentionally limited the submission of hearing requests to the intermediary only.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, and comments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203, on or before October 4, 1976.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

(Secs. 1102, 1814(b), 1815, 1861(v)(1), and 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 294, as amended, 79 Stat. 297, as amended, 79 Stat. 322, as amended, and 79 Stat. 331, 42 U.S.C. 1302, 1395f(b), 1395g, 1395x(v)(1), and 1395hh.)

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance.)

Dated: January 19, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 13, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

Part 405 of chapter III of title 20 of the Code of Federal Regulations (Regulations No. 5 of the Social Security Administration); as amended, is further amended as set forth below:

1. In § 405.415, a new paragraph (b)(7) is added and paragraphs (c) and (f) are revised to read as follows:

§ 405.415 Depreciation: Allowance for depreciation based on asset costs.

* * * * *

(b) * * *

(7) *Useful life.* The estimated useful life of a depreciable asset is its normal operating or service life in terms of utility to the provider subject to the provisions in paragraph (b)(7)(i) of this section. Some factors to be considered in determining useful life include normal wear and tear, obsolescence due to normal economic and technological advances, climatic and other local conditions, and the provider's policy for repairs and replacement.

(i) *Initial selection of useful life.* In selecting a proper useful life for computing depreciation under the health insurance program, providers are expected to utilize the useful life guidelines published by the American Hospital Association or the Internal Revenue Service. A different useful life may be approved by the intermediary if the provider's request is based on convincing reasons and is properly supported with acceptable factors which affect the determination of useful life. However, such factors as an expected earlier sale, retirement, demolition, or abandonment of an asset may not enter into a determination of the expected useful life of an asset.

(ii) *Changing useful life.* A change in the estimated useful life may be necessary when clear and convincing evidence justifies a redetermination of the initial selection. Such a change must be approved by the intermediary in writing prior to its adoption, and the factors cited in paragraphs (b)(7) and (b)(7)(i) of this section are equally applicable in making such redeterminations of useful life. If the request is properly approved, the change is effective with the reporting year immediately following the year in which the request is approved.

* * * * *

(c) *Recording of depreciation.* Appropriate recording of depreciation includes the identification of the depreciable assets in use, the assets' historical costs, the method of depreciation, estimated useful lives, and the assets' accumulated depreciation.

* * * * *

(f) *Gains and losses on disposal of assets.* (1) *General.*—Depreciable assets may be disposed of through sale, scrapping, trade-in, exchange, demolition, abandonment, condemnation, fire, theft, or other casualty. When the disposal of a depreciable asset occurs, no further depreciation may be taken on the asset and a gain or loss on the disposition shall be determined. The determination of whether a gain or loss has occurred and the treatment of the gain or loss depend upon the manner of disposition of the asset.

(2) *Bona fide sale or scrapping.*—(i) Gains and losses realized from the bona fide sale or scrapping of depreciable assets used in the provision of patient care services are includable in the determination of allowable cost under the health insurance program. For purposes of this section, scrapping refers to the disposition of tangible personal properties which are no longer useful for their intended purpose, and are only salable for their scrap or junk value. The extent to which such gains and losses are includable in the determination of allowable cost is calculated on a prorated basis, recognizing the amount of depreciation charged under the health insurance program in relation to the amount of depreciation, if any, charged or incurred in a period prior to the provider's participation in the health insurance program.

(ii) Where the total amount of gains or losses prorated to years under the health insurance program does not exceed $5,000 within the cost-reporting period, or where the provider's cumulative utilization under title XVIII of the Act is less than 5 percent, the entire amount of gains or losses realized from the sale shall be allowed as a depreciation adjustment in the year of disposal. For purposes of this section, the provider's cumulative title XVIII utilization percentage is determined by comparing the cumulative total of title XVIII covered days for all reporting periods in which depreciation on the asset disposed of was claimed under the health insurance program to the cumulative total of inpatient days in the facility (certified only) for the same reporting periods.

(iii) Where the conditions discussed in paragraph (f)(2)(ii) of this section are not met, the total amount of gains or losses prorated to years under the health insurance program shall be allocated to each reporting period, based on the ratio of the total depreciation allowed on the disposed assets in each reporting period to the total depreciation applicable to such assets for all reporting periods under the health insurance program. The adjustment to reimbursable cost is then computed by applying the ratio of title XVIII reimbursable cost to total allowable cost for each period to the allowable portion of the gains or losses for that reporting period. The sum of the adjustments determined for each reporting period is treated as an adjustment to reimbursable cost in the year in which the asset is disposed of.

(iv) If a gain is realized on the disposal of a depreciable asset, recognition of the gain for purposes of determining allowable cost is limited to the amount of depreciation accumulated for the asset under the health insurance program. If a provider sells more than one asset for a lump-sum sales price, the allocation of the sales price among the various assets sold shall be prorated in accordance with the appraised fair market value of the assets as they were last used by the provider at the time of sale. The appraised fair market value of the assets shall generally be determined by a recognized independent appraiser, and such appraisal shall be furnished to the intermediary for review and approval. Where the transaction concerns the sale of a facility which is continuing in operation, the amount of goodwill or other intangibles purchased must be determined and deducted from the sales price prior to the allocation.

(3) *Sale within 1 year of termination.*—Gains and losses realized from a bona fide sale of depreciable assets within 1 year immediately following the date on which the provider terminates participation in the health insurance program are also includable in the determination of allowable cost. When the sale takes place within 1 year immediately following such termination, the procedure provided in paragraph (f)(2) of this section shall be used in determining the adjustment to reimbursable cost. However, the inclusion of such gains and losses is calculated on a prorated basis, recognizing the amount of depreciation charged under the health insurance program in relation to the amount charged or incurred in the periods before and after the provider's participation in the health insurance program. If a gain is realized on the disposal of a depreciable asset, recognition of the gain for purposes of determining allowable cost is limited to the amount of depreciation accumulated for that asset under the health insurance program. The recognition of gains and losses resulting from the disposal of depreciable assets within 1 year immediately following termination is limited to the sale of assets, and does not apply to other manners of disposal. Where several assets are sold for a lump-sum sales price, the procedure provided in paragraph (f)(2) of this section shall be used for prorating the sales price. However, the determination of fair market value shall be based on the appraised value of the assets as they were last used by the provider while under the health insurance program.

(4) *Exchange or trade-in.*—Gains or losses realized from the exchange or trade-in of depreciable assets are not recognized in the determination of allowable cost. When the disposition of an asset is by means of exchange or trade-in, the historical cost of the new asset is the sum of the undepreciated balance of the old asset and the additional cash or other assets transferred or to be transferred to acquire the replacement asset. However, where the old asset was acquired by the provider before its participation in the health insurance program, and the sum of the undepreciated balance and the cash or other assets transferred or to be transferred exceed the list price, then the historical cost of the new asset is limited to the list price of the new asset.

(5) *Demolition or abandonment.*—Losses resulting from the demolition or abandonment of depreciable assets are generally includable in the determination of allowable cost on a deferred basis only. However, where the allowable loss in any cost-reporting period does not exceed $5,000, the entire amount shall be included in allowable cost in the year in which the loss is incurred. To be recognized as an allowable cost where the amount of the loss exceeds $5,000, in the net loss realized must be capitalized as a deferred charge, and amortized over the estimated subsequent useful life of the replacement asset. This loss shall not be recognized if the provider fails to replace the asset. However, if the State health and planning development agency designated under section 1521 of the Public Health Service Act, as amended by Pub. L. 93–641 approves the demolition or abandonment of a depreciable asset as being consistent with the health systems plan of the health service area in which the provider is located, then any net loss realized must be capitalized as a deferred charge and amortized over the remaining life of the demolished or abandoned asset, regardless of replacement. Where replacement of the asset is required, and the replacement asset ceases to be used in the provision of patient care services, or the provided terminates its participation in the health insurance program, the unamortized deferred charge remaining at that time shall not be allowed in determining allowable cost under the health insurance program. For purposes of this section, the time of disposal is the date on which the assets cease to be used in the provision of patient care services.

(6) *Involuntary conversion.*—Gains and losses realized from the involuntary conversion of depreciable assets, such as condemnation, fire, theft, or other casualty, are generally includable in the determination of allowable cost on a deferred basis. However, losses resulting from a provider's imprudent management of its depreciable assets, such as the failure to obtain proper insurance coverage, are not includable in the determination of allowable cost. Where the provider maintains a prudent management program to safeguard its assets, and the net loss allowable in any cost-reporting period exceeds $5,000, the loss must be capitalized as a deferred charge and amortized over the useful life of the replacement or restored asset. If the provider fails to replace or restore the asset, then none of the loss is includable in determining allowable cost. If the replacement asset ceases to be used in the provision of patient care services, or the provider terminates its participation in the health insurance program, the unamortized deferred charge remaining at that time shall not be allowed in determining allowable cost under the health insurance program. Where the allowable loss in any cost-reporting period does not exceed $5,000, the entire amount shall be included in allowable cost in the year in which the loss is incurred. If a gain is realized from an involuntary conversion of depreciable assets, the net amount realized shall reduce the basis of the restored or replacement asset. Where the asset is not restored or replaced, the gain shall be treated in accordance with paragraph (f)(2) of this section.

(7) *Effect on equity capital.*—The unrecovered loss entered on the books of the provider as a deferred charge, in accordance with paragraphs (f)(5) and (f)(6) of this section, is not includable in the computation of equity capital under § 405.429.

V 41 163 AUG 20 76 UMI

(8) *Sale of replacement or restored assets.*—Where a subsequent sale of the replacement or restored asset occurs while the provider is participating in the health insurance program, or within 1 year immediately following the date on which the provider terminates its participation in the health insurance program, the unrecovered loss entered on the books of the provider as a deferred charge, in accordance with paragraphs (f)(5) and (6) of this section, may not be included in the gain or loss of determination. However, if the sale of such assets is made to a related organization, as defined in § 405.427, and the purchasing organization continues as a provider in the health insurance program, the remaining deferred charge representing the unrecovered depreciable basis of the destroyed asset shall continue to be amortized over the remaining expected useful life of the replacement or restored asset. Where the sale is made to an unrelated organization, further amortization of the deferred charge is no allowed.

• • • • •

2. Paragraph (e) of § 405.460 is amended to read as follows:

§ 405.460 Limitations on coverage of costs.

• • • • •

(e) *Provider rights to review.* A request by a provider for review of the determination of an intermediary concerning classification for, exceptions to, or exemptions from the cost limits imposed under the provisions of this section shall be made under the provisions of Subpart R of this Part 405.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. H-017]

EXPOSURE TO COKE OVEN EMISSIONS

Availability of Environmental Impact Statement

The purpose of this notice is to announce that the final environmental impact statement (EIS) for a proposed standard on occupational exposure to coke oven emissions is available for public inspection and copying.

On September 9, 1975, (40 FR 41797) pursuant to 29 CFR 1999.3(d), the Occupational Safety and Health Administration (OSHA), U.S. Department of Labor, announced its intention to prepare an EIS assessing the impact of the proposed standard regulating exposure to coke oven emissions (40 FR 32268) in accordance with section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) which requires the preparation of an EIS on major actions significantly affecting the quality of the human environment. In that notice, OSHA also invited the submission of data and information on the possible environmental impact of the proposed standard.

Pursuant to 29 CFR 1999.4 (a)-(d), a draft EIS was prepared and ten copies were forwarded to the Council on Environmental Quality (Council) on October 17, 1975. The Council announced the receipt and availability of the draft EIS on October 24, 1975 (40 FR 49818). In addition, the draft EIS was circulated for comment in accordance with 29 CFR 1999.4(e), (f). By accompanying letter dated October 23, 1975, OSHA solicited comment and information concerning the environmental impact.

An informal rulemaking hearing which began November 4, 1975 and which adjourned January 8, 1976, was held. At this hearing, environmental impact was an issue, as had been stated (40 FR 32277) in the July 31, 1975 publication of the proposed standard and announcement of the scheduling of the hearing. A second informal public hearing (notice of hearing 41 FR 10625 and 41 FR 12716) was held from May 4 through May 10, 1976 during which information on environmental impact was also elicited. The posthearing submission and comment periods closed on May 21 and June 21, 1976 respectively, and the record of the entire rulemaking proceeding was certified by the presiding Administrative Law Judge on July 28, 1976.

The final EIS has been prepared and is available for public inspection and copying at the following address:

Technical Data Center, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3620, 3rd Street and Constitution Avenue, Washington, D.C. 20210, 202-523-8076.

Ten copies of the final EIS will be forwarded to the Council which will publish a notice thereof in the Federal Register. OSHA's announcement of availability of the final EIS is intended to provide notice to all interested parties additional to that given by the Council. Furthermore, copies of the final EIS will be sent to the appropriate parties in accordance with 29 CFR 1999.5(d)-(e).

Signed at Washington, D.C., this 16th day of August 1976.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.76-24538 Filed 8-19-76;8:45 am]

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Meeting

AUGUST 11, 1976.

The USAF Scientific Advisory Board ad hoc Committee on Tactical Electronic Warfare will hold meetings on September 15–16, 1976 from 9:00 a.m. to 5:00 p.m.

The Committee will hold classified discussions and working sessions to discuss and complete a final draft report on the tactical electronic warfare study.

The meeting concerns matters listed in Section 552(b) of Title 5, United States Code, specifically subparagraph (1) thereof, and that accordingly the meetings will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at (202) 697-8404.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

[FR Doc.76-24401 Filed 8-19-76;8:45 am]

Department of the Army

ARMED FORCES INSTITUTE OF PATHOLOGY, SCIENTIFIC ADVISORY BOARD

Meeting

In order to comply with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of the meeting of the Armed Forces Institute of Pathology's Scientific Advisory Board, September 16–17, 1976, 0830 hours in the Director's Conference Room, Armed Forces Institute of Pathology, Washington, D.C. 20306. This meeting will be open to the public.

The proposed agenda will include professional discussion of the mission of the Armed Forces Institute of Pathology relating to consultation, education, and research. The Executive Secretary from whom sustantive program information may be obtained is Colonel Alfred P. Urquia, Acting Executive Officer, Armed Forces Institute of Pathology, Washington, D.C. 20306, telephone 576-2900.

Dated: August 10, 1976.

For the Director.

JOSEPH R. HENRY,
Captain, MSC, USA, Adjutant.

CHIEF OF ENGINEERS ENVIRONMENTAL ADVISORY BOARD

Meeting

In accordance with Pub. L. 92-463, notice is hereby given that the next meeting of the Environmental Advisory Board (EAB) of the Chief of Engineers will be held on 9 September 1976 at the Office of the Chief of Engineers, Forrestal Building, room 5A092, 10th and Independence Ave., Washington, D.C. 20314. All sessions of the meeting are open to the public. Time and subjects of each session follow:

9 SEPTEMBER

A.M. SESSION

9:00 Opening remarks.
9:30 Civil Works Update.
10:45 National Environmental Trends 1976–1986; Activities and Opportunities for the Corps of Engineers, 1976–1980.

P.M. SESSION

1:30 Discussion of EAB Report.
3:30 Adjourn.

Seating in the meeting room is limited to approximately 20 persons. Persons desiring further information should contact Lt. Col. John R. Hill, Jr., Assistant Director of Civil Works, Environmental Programs, Office of the Chief of Engineers, telephone (202) 693-7093.

The EAB, consisting of five members, will conduct a workshop session on 8 September, room 4A242, Forrestal Building, to prepare for their report to be delivered during the plenary session on 9 September. There will be no formal discussions or presentations during this workshop session. Interested members of the public will, however, be permitted to observe this workshop session. Interested persons should contact Lt. Col. Hill as cited above.

JOHN R. HILL, Jr.,
LTC, Corps of Engineers, Assistant Director of Civil Works, Environmental Programs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

MONTANA STATE OFFICE

Redelegation of Authority by State Director

1. Pursuant to the authority contained in Part I section 1.1(a) of Bureau Order No. 701 of July 23, 1964, as amended, authority is hereby redelegated to the following employees to perform the functions listed below:

A. Chief, Division of Management Services, is authorized to take all actions under the following part:

Part I–Sec. 1.2(c), 1.2(g), 1.3(b), 1.3(c) and 1.4(a)(4).

B. Chief, Division of Technical Services, is authorized to take all actions under the following part:

Part I–Sec. 1.2(g), 1.2(j), 1.3(b) and 1.4(a) (1), (2) and (3).

The Chief, Division of Technical Services may in his discretion, personally exercise any authority hereby delegated to the Chief, Branch of Lands and Minerals Operations, and Chief, Branch of Cadastral Survey.

C. Within their respective areas of responsibility, the District Managers in the State of Montana are authorized to take all actions under the following parts:

Part I–Sec. 1.2(a), 1.2(d), 1.2(g), 1.2(h), and 1.2(l).

Part I–Sec. 1.2(j)—Take all actions for the protection from fire (prevention, presuppression, and suppression) of the public lands under the jurisdiction of the Bureau of Land Management, including authority to enter into contracts and cooperative agreements with Federal, State, county, municipal, and private fire control organizations.

Part I–Sec. 1.9(g)—to make sales of material other than forest products not exceeding $5,000 in value and issue free use permits for materials other than forest products not exceeding $5,000 in value.

The District Manager may designate, by written order, any qualified employee of the various staff offices to perform the functions of the Chief of a Division or Area Manager in case of the absence of the Division Chief, or Area Manager.

D. Within their respective areas of responsibility, District Office Chief, Division of Operations, are authorized to take all actions under the following parts:

Part I–Sec. 1.2(j)—To take all actions for the protection from fire (prevention, presuppression, and suppression) of the public lands under the jurisdiction of the Bureau of Land Management.

Part III–Sec. 3.2(b), 3.6(m) and 3.6(n).

E. Within their respective areas of responsibility, District Office Chiefs, Division of Administration, are authorized to take all actions under the following part:

Part III–Sec. 3.2(c), 3.3(a), 3.3(b) and 3.3(c).

V 41 163
AUG 20 76
UM

F. Within their respective areas of responsibility, Area Managers are authorized to take all actions under the following parts:

Part I–Sec. 1.2(i).

Part I–Sec. 1.2(j)—To take all actions for the protection from fire prevention, presuppression and suppression of the public lands under the jurisdiction of the Bureau of Land Management.

Part I–Sec. 1.9(g)—to make sales of material other than forest products not exceeding $1,000 in value and issue free use permits for materials other than forest products not exceeding $1,000 in value.

Part III–Sec. 3.2(b), 3.3(b), 3.6(m), 3.6(n), 3.7(b), 3.7(c), 3.7(d), 3.7(e), 3.7(f), 3.9(g), 3.9(o) and 3.9(z).

Part III–Sec. 3.3(d)—Determine liability for trespass on the public lands when actual damages do not exceed $1,000. Accept payment in full irrespective of amount. Dispose of resources recovered in trespass cases for not less than the appraised value thereof.

Part III–Sec. 3.7(a)(1), (2) and (3).

Part III–Sec. 3.8(a)—Disposition of forest products except sales of timber in excess of 1,000,000 feet board measure.

G. Within their respective areas of responsibility, Detached Resource Area Headquarters Area Managers, in addition to the authority given in paragraph F, are authorized to take all actions under the following part:

Part III–Sec. 3.2(c) and 3.3(a).

H. Chief, Branch of Lands and Minerals Operations, in the Division of Technical Services:

(1) is authorized to take actions on the matters listed in Part II–A.

(2) may redelegate that authority vested in him by this delegation to any qualified employee under his jurisdiction. Any order or redelegation must specify the extent of and limitations on the grant of authority, be approved by the State Director, and published in the FEDERAL REGISTER.

(3) may, by written order, designate any qualified employee of the Branch to perform the functions of his position in his absence. Such order will be approved by the Chief, Division of Technical Services.

I. (1) Chief, Minerals Adjudication Section, in the Branch of Lands and Minerals Operations, is authorized to take all actions under the following part:

Part II–Sec. 2.2(b), 2.3(a), 2.6(a), 2.6(e), 2.6(f), 2.6(g), and 2.6(i).

(2) Chief, Lands Adjudication Section, in the Branch of Lands and Minerals Operations, is authorized to take all actions under the following part:

Part II–Sec. 2.2(b), 2.3(a), 2.9(a), 2.9(b), 2.9(c), 2.9(d), 2.9(e), 2.9(f), 2.9(h), 2.9(i), 2.9(j), 2.9(k), 2.9(l), 2.9(m), 2.9(n), 2.9(p), 2.9(q), 2.9(r), and 2.9(s).

(3) The stated Section Chiefs may, by written order, designate any qualified employee of his section to perform the functions of his position in an acting capacity in his absence. Such order must be approved by the Chief, Branch of Lands and Minerals Operations.

J. Chief, Branch of Cadastral Survey in the Division of Technical Services, is authorized to take all actions under the following part:

Part I–Sec. 1.4(a) (1) and (3).

K. Chief, Branch of Records and Data Management in the Division of Management Services is authorized to take all actions under the following part:

Part II–Sec. 2.2(c), 2.3(c) and 2.4(a)(4).

2. All previously published orders of redelegation pursuant to the authority of Bureau Order 701, as amended, which pertain to the positions of employees in Montana identified in paragraphs A, B, C, D, E, F, G, H, I, J, and K herein and which are inconsistent with this order are hereby cancelled and superseded.

Dated: August 11, 1976.

KANNON RICHARDS,
Acting State Director.

Approved: August 11, 1976.

GEORGE C. TURCOTT,
Associate Director.

Geological Survey

KNOWN GEOTHERMAL RESOURCES AREA

Coso Hot Springs, California

Pursuant to the authority vested in the Secretary of the Interior by Sec. 21(a) of the Geothermal Steam Act of 1970 (84 Stat. 1566, 1572; 30 U.S.C. 1020), and delegations of authority in 220 Departmental Manual 4.1 H, Geological Survey Manual 220.2.3, and Conservation Division Supplement (Geological Survey Manual) 220.2.1 G, the following described lands are hereby defined as an addition to the Coso Hot Springs known geothermal resources area effective February 1, 1974:

(5) CALIFORNIA

COSO HOT SPRINGS KNOWN GEOTHERMAL RESOURCES AREA, MT. DIABLO MERIDIAN, CALIFORNIA

T. 21 S., R. 37 E.,
Secs. 27, 34, 35, 36—All.
T. 22 S., R. 37 E.,
Secs. 1, 2, 3, 12—All.

The area described aggregate 5,120 acres, more or less.

Dated: June 2, 1976.

HILLARY A. ODEN,
Acting Conservation Manager, Western Region.

[FR Doc.76-24405 Filed 8-19-76;8:45 am]

National Park Service

[Order 78, Amdt. 2]

DIRECTOR, NATIONAL CAPITAL PARKS

Delegation of Authority

Order No. 78, approved April 13, 1973, and published in the Federal Register of April 27, 1973 (38 FR 10477), as amended, set forth in Section 1 the exceptions on delegations of authority and in Section 2 certain limitations on redelegation of authority.

Section 1 Delegation is hereby amended by deleting paragraph (15) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of employment.

Section 2. Redelegation is amended by adding paragraph (5) as follows:

Section 2. Redelegation. * * *

(5) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of employment may be redelegated only to the Associate Director, Administration in the National Capital Parks, and may not be redelegated.

(205 DM, as amended: 245DM, as amended; sec. 2 of Reorganization Plan No. 3 of 1950.)

Dated: August 13, 1976.

GARY EVERHARDT,
Director, National Park Service.

(Order 84, Amdt. 2)

MANAGER, DENVER SERVICE CENTER

Delegation of Authority

Order No. 84, approved April 8, 1974, and published in the Federal Register of April 18, 1974 (39 FR 13904), as amended, set forth in Section 1 the exceptions on delegations of authority and in Section 2 certain limitations on redelegation of authority.

Section 1. Delegation is hereby amended by deleting paragraph (17) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of employment.

Section 2. Redelegation is amended as follows:

Section 2. Redelegation. (1) * * *

(2) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of employment may not be redelegated.

(205 DM, as amended: 245 DM, as amended; sec. 2 of Reorganization Plan No. 3 of 1950.)

Dated: August 13, 1976.

GARY EVERHARDT,
Director, National Park Service.

[FR Doc.76-24477 Filed 8-19-76;8:45 am]

[Order 83, Amdt 2]

MANAGER, HARPERS FERRY CENTER

Delegation of Authority

Order No. 83, approved April 8, 1974, and published in the FEDERAL REGISTER of April 18, 1974 (39 FR 13905), as amended, set forth in Section 1 the exceptions on delegations of authority and in Section 2 certain limitations on redelegations of authority.

Section 1 Delegation is hereby amended by deleting paragraph (15) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of employment.

Section 2. Redelegation is amended by adding paragraph (5) as follows:

Section 2. Redelegation. (1) * * *

(2) Authority to approve the use of a Government-owned or leased motor vehicle between domicile and place of eployment may be redelegated only to the Assistant Manager, Administration, Harpers Ferry Center, and may not be redelegated.

(205 DM, as amended: 245 DM, as amended; sec. 2 of Reorganization Plan No. 3 of 1950.)

Dated: August 13, 1976.

GARY EVERHARDT,
Director, National Park Service.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A362]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Iron County, Wisconsin, as a result of drought, July 1, 1975, through September 1, 1975.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94–68, and the provisions of 7 CFR 1832.-3(b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for emergency loans must be received by this Department no later than October 5, 1976, for physical losses and May 9, 1977, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, DC, this 13th day of August 1976.

JOSEPH R. HANSON,
Acting Administrator, Farmers Home Administration.

[FR Doc.76-24396 Filed 8-19-76;8:45 am]

Forest Service

LAND USE PLAN WEST KOOTENAI PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Land Use Plan—West Kootenai Planning Unit, Forest Service Report Number USDA–FS–R1(14)–DES–Adm–76–6.

The environmental statement concerns the proposed implementation of a revised Land Use Plan for the West Kootenai Planning Unit, Rexford Ranger District, Kootenai National Forest. Lincoln County, Montana. About 68,976 acres of National Forest land are affected. The planning unit is divided into 9 subunits of similar resource potential and limitations to management. Significant values, management direction, and specific statements to guide land management have been developed for each subunit.

This final environmental statement was transmitted to CEQ on August 12, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., S.W., Washington, D.C. 20250.
USDA, Forest Service, Northern Region, Federal Building, Missoula, MT 59801.
USDA, Forest Service, Kootenai National Forest, P.O. Box AS, Libby, MT 59923.
USDA, Forest Service, Eureka Ranger Station, Eureka, MT 59917.

A limited number of single copies are available upon request to:

USDA, Forest Service, Kootenai National Forest, P.O. Box AS, Libby, MT 59923.
USDA, Forest Service, Eureka Ranger Station, Eureka, MT 59917.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

DAVID R. HOWARD,
Acting Forest Supervisor, Kootenai National Forest, Northern Region, Forest Service.

Rural Electrification Administration

TRI-STATE GENERATION AND TRANSMISSION ASSOCIATION, INC., DENVER, COLORADO

Proposed Loan Guarantee

Under the authority of Public Law 93–32 (87 STAT. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20–22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $16,731,000 to Tri-State Generation And Transmission Association, Inc., of Denver, Colorado. These loan funds will be used to finance a project consisting of two 50 MW gas turbines and related facilities.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrower of the guaranteed loan funds from Mr. William Mickey, General Manager, Tri-State Generation And Transmission Association, Inc., P.O. Box 29198, Denver, Colorado, 80229.

In order to be considered, proposals must be submitted (within 30 days from the date of this notice) to Mr. Mickey. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Tri-State and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20–22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 11th day of August, 1976.

DAVID H. ASKEGAARD,
Acting Administrator.

[FR Doc.76-24229 Filed 8-19-76;8:45 am]

SUNFLOWER ELECTRIC COOPERATIVE, INC.

Final Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has pre-

V 41 163 AUG 20 76 UMI

pared a Final Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a request for a loan guarantee from the Rural Electrification Administration for Sunflower Electric Cooperative, Inc., P.O. Box 980, 401 First National Bank Building, Hays, Kansas 67601, to finance a 50 megawatt combustion turbine at the Garden City Power Plant, Garden City, Kansas.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The Final Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, S.W., Washington, D.C., Room 4310, or at the borrower address indicated above.

Final REA action with respect to this matter (including any release of funds) may be taken after thirty (30) days, but only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 23d day of July 1976.

DAVID H. ASKEGAARD,
Acting Administrator,
Rural Electrification Administration.

[FR Doc.76-24320 Filed 8-19-76;8:45 am]

TRI-COUNTY ELECTRIC ASSOCIATION, INC., SUNDANCE, WYOMING

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Draft Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a proposed loan application from the Rural Electrification Administration for Tri-County Electric Association, Inc., Box 457, Sundance, Wyoming 82729, to finance approximately 59 miles of 230 kV transmission line from Wyodak to Antelope and the new Reno substation all in the State of Wyoming.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Impact Statement have been sent to various Federal, State, and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Draft Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, S.W., Washington, D.C., Room 4310, or at the borrower's address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Richter at the address given above. Comments must be received within sixty (60) days of the date of publication of this notice to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 4th day of August 1976.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

CORNELL UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00419. Applicant: Cornell University, Bard Hall, Ithaca, New York, 14853. Article: Rotaflex 12 kW Rotating Anode X-ray Generator, RU-200. Manufacturer: Rigaku Ltd., Japan. Intended use of article: The article is intended to be used to perform X-ray diffraction studies of the structure of grain boundaries in thin gold bicrystals.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a focused spot of minimal size (0.5 x 1 mm^2) and a rotating target for maximum x-ray beam intensity. The National Bureau of Standards (NBS) advises in its memorandum dated July 26, 1976 that the capabilities described above are pertinent to the purposes for which the article is intended to be used. NBS also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Director,
Special Import Programs Division.

[FR Doc.76-24399 Filed 8-19-76;8:45 am]

STANFORD UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00500-33-77030. Applicant: Stanford University, 820 Quarry Road, Palo Alto, California 94304. Article: NMR Spectrometer, Model HX360. Manufacturer: Spectrospin AG, Switzerland. Intended use of article: The article is intended to be used in NMR studies to decipher in detail the structural rearrangement in the repressor protein, which underlies the mechanism of depression of a gene and thereby gain further insight into (a) the molecular mechanism of genetic control and (b) the mechanisms of protein folding. The article will also be used for highly specialized training at the postdoctoral level only as it requires a very high degree of expert knowledge and skill.

Comments: Comments dated June 4, 1975 have been received from Varian Associates Instrument Division, Palo Alto, California (Varian). Varian alleges inter alia that the Model SC-360, which is being manufactured in the United States on a custom-made basis, is of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article was being manufactured in the United States at the time the foreign article was ordered (March 15, 1973).

Reasons: This application is a resubmission of Docket Number 74-00512-33-77030 which was denied without prejudice to resubmission on October 15, 1974 for informational deficiencies. The foreign article provides the highest possible magnetic field, i.e., 8.5 tesla (T), consistent with homogeneity suitable for nuclear magnetic resonance (NMR) experiments on a custom-made basis. At the time of order Varian offered the Model SC-360 on a custom-made basis. The 8.5 T field strength represents the highest value, compatible with other requirements of stability and resolution in the NMR, that could be achieved with the technology existing in 1972. The National Bureau of Standards (NBS) and the Department of Health, Education, and Welfare (HEW) advises in their memoranda dated January 30, 1976 and November 17, 1975, respectively, that (1) at the time of order several 8.5 T magnets suitable for NMR had been successfully built by Oxford Instruments and the foreign manufacturer had agreed to use the Oxford magnet in its own NMR system (HX-360) and (2) Varian had demonstrated nothing higher than 7.1 T and had not agreed to use a magnet other than one of its own manufacture.

In addition, HEW advises that (1) Varian introduced the first high resolution NMR superconducting magnet, the HR-220 (^1H resonance at 220 MHz), about 10 years ago and later sold a higher field version of the same instrument, the HR-300; (2) although some improvements were incorporated over the years, the basic technology used for the magnet (which defines its size, shape and certain critical operating parameters) remained virtually the same; (3) Oxford Instruments did indeed have a sound basis for guaranteeing performance and delivery of an 8.5 T magnet in the Fall of 1972, whereas Varian really had only the older technology magnets plus a hope of developing something better; (4) Oxford provided detailed specifications on August 11, 1972 and the foreign manufacturer followed up with detailed specifications and quotations for the entire spectrometer system (including an 8.5 T magnet from Oxford Instruments) on October 12, and 18, 1972 in contrast Varian at the same time (October 13, 1972) presented 18 different options stated to "provoke thought and argument" and stated not to represent a commitment by Varian, and (5) the preponderance of evidence is that Varian could not deliver a suitable magnet within a reasonable time (HEW also states "so far as we know, Varian has not yet actually delivered any 360 MHz spectrometers, and it is not clear whether such an instrument is currently being offered.") HEW and NBS both advise that the capability of providing a high magnetic field (8.5 T) NMR spectrometer is pertinent to the applicant's intended purposes and they know of no domestic instrument which provided the pertinent feature at the time the article was ordered.

For these reasons, we find that the custom-made Model SC-360 was not scientifically equivalent to the foreign article at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

RICHARD M. SEPPA,
Director,
Special Import Programs Division.

Office of the Secretary

PRIVACY ACT

Consolidated System of Records and Proposed New Routine Use

The Department of Commerce hereby gives notice, in accordance with 5 U.S.C. 552a(e)(4) and (11), (the Privacy Act of 1974, section 3, Pub. L. 93-579, 88 Stat. 1897), that it proposes to consolidate two previously noticed Systems of Records into one System and to add a new routine use to that System.

The two Systems of Records to be consolidated are COMMERCE/NTIS-1 Customer Account Records and COMMERCE/NTIS-2 Individuals Interested in NTIS Publications, Shipped Order Addresses, and Subscribers Files, which were both noticed in the FEDERAL REGISTER on October 2, 1975, (40 FR 45669). This consolidation is being made solely for administrative convenience. No change has been made in the manner in which the records are organized or retrieved, or in the categories of records or individuals covered.

The proposed new routine use for the consolidated system, which is compatible with the purpose for which the system is maintained, is as follows:

Records maintained in the system are disclosed to NTIS sales agents; and to individuals, organizations, Federal agencies and State and local Governments contributing publications to NTIS for their market research and sales accounting purposes, through the mechanism of providing them the names and addresses of individuals (and others) who have purchased their publications.

Although the Act requires the opportunity for public comment only as to the proposed new "routine use," comments regarding any portion of this notice will be given due consideration before final publication. Any interested person may submit written data, views, or arguments to the Assistant Secretary for Administration (Attn: Information Management Division, Room 5026), U.S. Department of Commerce, 14th & E Street, NW., Washington, D.C. 20230, any time on or before September 20, 1976. The comments received will be available, as received, for public inspection at the above address between the hours of 9:00 a.m. and 4:00 p.m. Monday through Friday (except holidays).

The consolidated System of Records, including the proposed new routine use, is as follows:

Commerce/NTIS-1

System name: Individuals Interested in NTIS Publications, Shipped Order Addresses, Customer Account Records, and Subscriber Files.

System location: Automated Data Processing Division & Document Distribution and Reproduction Division, Rooms 1312 and 2027, Sills Building, Springfield, Virginia 22161.

Categories of individuals covered by the system: All individuals who order and/or purchase products and services from NTIS and all individuals who have requested that they be placed on the NTIS promotional mailing list.

Categories of records in the system: Name; address; items ordered; items sent; amount of purchases; date order received; date order mailed; NTIS deposit account number or customer code number; total charge to date; whether account collectible or not; categories of publications ordered by each purchaser; when subscription expires; amount on deposit.

Authority for maintenance of the system: 15 U.S.C. 1151-57; 41 U.S.C. 104, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and purposes of such uses: Records maintained in the system are disclosed to NTIS sales agents; and to individuals, organizations, Federal agencies, and State and local governments contributing publications to NTIS for their market research and sales accounting purposes, through the mechanism of providing them the names and addresses of individuals (and others) who have purchased their publications. Also see general routine uses No. 1 through 6 and No. 8 through 10 of Prefatory Statement noticed in the FEDERAL REGISTER on October 2, 1975, (40 FR 45635) and amended on Nov. 7, 1975 (40 FR 52074).

Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:

Storage: Paper records in file folders, film files, magnetic tape and disc files.

Retrievability: Filed alphabetically by name.

Safeguards: Records are located in lockable metal file cabinets or in metal tape vault in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Records are updated regularly and maintained indefinitely.

Systems manager (S) and address: Chief, Automated Data Processing Division, NTIS, Room 2030 Sils Building, Springfield, Virginia 22161.

Notification procedures: Information may be obtained from Assistant Director, Administration, NTIS, Room 1006, Sills Building, Springfield, Virginia 22161.

V 41 163 AUG 20 76 UM

Requester should provide name and address in accordance with the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department rules for access, for contesting contents and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individuals and NTIS transaction files.

Dated: August 8, 1976.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

TEMPORARY CANCER INSTITUTIONAL FELLOWSHIP REVIEW COMMITTEE

Establishment

The Director, National Institutes of Health, announces the establishment on August 2, 1976, of the advisory committee indicated below by the Director, National Cancer Institute, under the authority of section 410A(a) of the Public Health Service Act (42 U.S.C. 286e). Such advisory committees shall be governed by the provisions of the Federal Advisory Committee Act (Public Law 92-463) setting forth standards governing the establishment and use of advisory committees.

Name: Temporary Cancer Institutional Fellowship Review Committee.

Purpose: The Committee provides to the Director, NCI, advice on the technical merit of those National Research Service Institutional Fellowship applications submitted in Fiscal Year 1977. Authority for this committee will expire on June 30, 1977.

Dated: August 11, 1976.

R. W. LAMONT-HAVERS,
Acting Director,
National Institutes of Health.

NATIONAL ARTHRITIS, METABOLISM, AND DIGESTIVE DISEASES ADVISORY COUNCIL

Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Arthritis, Metabolism, and Digestive Diseases Advisory Council and its subcommittees on September 15-17, 1976 in Conference Room 10, Building 31, National Institutes of Health, Bethesda, Maryland. This meeting will be open to the public from 8:30 a.m. to 10:00 a.m. on September 15 and from 9:00 a.m. to 11:00 a.m. on September 16 to discuss administrative reports. Attendance by the public will be limited to space available.

In addition, the below listed subcommittees of the above Council will have meetings from 10:30 a.m. to 5 p.m. on September 15, 1976: the Digestive Diseases Subcommittee will be held in Room 9A51, Building 31, NIH; the Arthritis, Bone, and Skin Diseases Subcommittee will be held in Room 9A52, Building 31, NIH; the Diabetes, Endocrine, and Metabolic Diseases Subcommittee will be held in Conference Room 10, Building 31, NIH; the Kidney, Urologic and Blood Diseases Subcommittee will be held in Room 7A24, Building 31, NIH.

In accordance with the provisions set forth in Section 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code and Section 10(d) of P.L. 92-463, the meeting of the Council and its subcommittees will be closed to the public on September 15, 1976, from 10:30 a.m. to 5 p.m., on September 16, 1976, from 11:00 a.m. to 5 p.m., and on September 17, 1976, from 8:30 a.m. to 12:30 p.m., for the review, discussion and evaluation of individual initial pending, supplemental and renewal grant applications. The closed portions of the meetings involve solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Messrs. James N. Fordham or Leo E. Treacy, Office of Scientific and Technical Reports, NIAMDD, National Institutes of Health, Building 31, Room 9A04, Bethesda, Maryland 20014, (301) 496-3583, will provide summaries of the meeting and rosters of the committee members.

Dated: August 13, 1976.

ALLERGY AND IMMUNOLOGY SUBCOMMITTEE OF THE NATIONAL ADVISORY ALLERGY AND INFECTIOUS DISEASES COUNCIL

Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Allergy and Immunology Subcommittee of the National Advisory Allergy and Infectious Diseases Council, National Institute of Allergy and Infectious Diseases, September 29, 1976, in Building 31, Conference Room 7A24, Bethesda, Maryland. This meeting is being held in conjunction with the regular meeting of the Allergy Council on September 30, October 1-2, 1976. While the Subcommittee meeting is closed, persons interested may attend open portions of the Council meeting.

In accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code and Section 10(d) of Public Law 92-463, the meeting will be closed to the public from 7:00 p.m. until adjournment, for the review, discussion, and evaluation of individual initial pending, supplemental, and renewal grant applications. The closed portion of the meeting involves solely the internal expression of views and judgments of Council members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, Room 7A32, Bethesda, Maryland, telephone (301) 496-5717, will furnish rosters of Council members, a summary of the meeting, and other information pertaining to the meeting.

Dated: August 13, 1976.

NATIONAL ADVISORY DENTAL RESEARCH COUNCIL

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the National Advisory Dental Research Council, National Institute of Dental Research, on October 4-5, 1976, in Building 31-C, Conference Room 8, National Institutes of Health, Bethesda, Maryland. This meeting will be open to the public from 9:00 a.m. to adjournment on October 5 for general discussion and program presentations. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5) and 552(b)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting of the Council will be closed to the public on October 4, from 9:00 a.m. to 5:00 p.m. for the review, discussion and evaluation of individual initial pending, supplemental and renewal grant applications. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mrs. Edith G. Sharpless, Committee Management Officer, National Institute of Dental Research, National Institutes of Health, Building 31-C, Room 2C-39, Bethesda, Maryland 20014 (telephone 301-496-3511), will furnish rosters of committee members, a summary of the meeting, and other information pertaining to the meeting.

Dated: August 13, 1976.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

Office of the Secretary

ADVISORY COUNCIL ON EDUCATION STATISTICS

Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that a meeting of the Advisory Council on Education Statistics will be held on September 14, 1976, from 9 a.m. to 4:45 p.m., in the Education Division Conference Center, Room 3000 of the Federal Office Building Number 6 at 400 Maryland Avenue, SW., Washington, D.C. 20202. The meeting will be continued on September 15, from 9 a.m. to 4:30 p.m., at the same location.

The Advisory Council on Education Statistics is mandated by section 406(c) of the General Education Provisions Act as added by section 501(a) of the Education Amendments of 1974, Pub. L. 93–380 (20 U.S.C. 1221e–1(c)), to advise the Secretary of the Department of Health, Education, and Welfare and the Assistant Secretary for Education, and the National Center for Education Statistics and "shall review general policies for the operation of the Center and shall be responsible for establishing standards to ensure that statistics and analyses disseminated by the Center are of high quality and are not subject to political influence."

The meeting agenda will include the swearing in of two new Council members; a summary of NCES responses to previous Council discussions; a review of NCES publications policies and procedures; a discussion of the recent National Research Council report on "Setting Statistical Priorities;" and further review of proposed procedures for establishing Center standards.

The meeting is open to the public; however, because of limited accommodations, those members of the public wishing to attend should make reservations by writing, no later than September 8, 1976, to:

Executive Director, Advisory Council on Education Statistics, Room 3033–D, FOB–6, 400 Maryland Avenue, SW., Washington, D.C. 20202

Records shall be kept of all Council proceedings and shall be available for public inspection in the Office of the Administrator, National Center for Education Statistics, located at 400 Maryland Avenue, SW., Washington, D.C. 20202.

Signed at Washington, D.C. on August 11, 1976.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N–76–615]

WILLOW VALLEY (MOBILE HOME) ESTATES

Notice of Hearing

In the matter of: Willow Valley (Mobile Homes) Estates 5, 11, 12, 16, 17 and 18, McKellips Land Corporation, OILSR Nos. 0–0132–02–23, (A) and (B), Docket No. ED–76–12.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that: 1. Willow Valley (Mobile Homes) Estates 5, 11, 12, 16, 17 and 18, McKellips Land Corporation, its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90–448) (15 U.S.C. 1701 et seq.) received a Notice of Suspension dated July 26, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(b), 24 C.F.R. 1710.45(a)(1) and 1720.120 based on information obtained by the Office of Interstate Land Sales Registration showing that the statement of Record and Property Report for Willow Valley (Mobile Homes) Estates 5, 11, 12, 16, 17 and 18, located in Arizona, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an answer received August 9, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C. on August 25, 1976 at 2:00 p.m.

5. The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before August 23, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 13, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[Docket No. N–76–614]

WOODHAVEN LAKES

Notice of Hearing

In the matter of: Woodhaven Lakes, American Lakes Development Co. OILSR NO. 0–4003–13–49(B), Docket No. ED–76–11

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that: 1. Woodhaven Lakes, American Lakes Development Co., its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90–448) (15 U.S.C. 1701 et seq.) received a Notice of Suspension dated July 20, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(b), 24 C.F.R. 1710.45(a)(1) and 1720.120 based on information obtained by the Office of Interstate Land Sales Registration showing that the statement of Record and Property for Wodhaven Lakes, located in Illinois, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an answer received August 6, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on August 26, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before August 23, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an Order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 13, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

CITIZENS' ADVISORY COMMITTEE ON ENVIRONMENTAL QUALITY

MEETING

The Citizens' Advisory Committee on Environmental Quality will meet on September 24, 1976, at 10 A.M. in Room 500, 1700 Pennsylvania Avenue, NW., Washington, D.C.

The Committee advises the President and the Council on Environmental Quality on matters pertaining to environmental quality. The purpose of the meeting is to review pending Committee business and to consider Committee activities for the remainder of the year. The principal subject of the meeting will be a review of selected major environmental policies and programs, an analysis of priorities, and recommendations for future action. Issues to be discussed include land use; population and growth; energy conservation and alternatives; air and water pollution control; resource recovery, recycling and reuse; outdoor recreation; urban environment; international environment; environment and the economy; and organizational and procedural aspects.

The meeting will be open to the public. Persons planning to attend the meeting are requested to notify in writing or by telephone no later than September 21, 1976, Lawrence N. Stevens, Executive Director, Citizens' Advisory Committee on Environmental Quality, 1700 Pennsylvania Avenue, NW., Washington, D.C. 20006, telephone (202) 223–3040. Members of the public may file written statements with the Committee before or after the meeting. Persons wishing to speak at the meeting are requested to consult with the Executive Director no later than September 17, 1976.

Requests for information should be submitted to the Executive Director (address given above).

LAWRENCE N. STEVENS,
Executive Director, Citizens' Advisory Committee on Environmental Quality.

NEW YORK ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the New York Advisory Committee (SAC) to this Commission will convene at 7:30 p.m. and end at 10 p.m. on September 17-18, 1976, at the Tappan Zee Inn, Mountainview Avenue, and Route 59, NYACK, New York.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Northeastern Regional Office of the Commission, 26 Federal Plaza, Room 1639, New York, New York.

The purpose of this meeting is to discuss project planning and priorities for coming year.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., August 17, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.76-24413 Filed 8-19-76;8:45 am]

OKLAHOMA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Oklahoma Advisory Committee (SAC) to this Commission will convene at 9 a.m. and end at 4 p.m. on September 11, 1976, at the Hilton Inn of Tulsa (Cortez Room), 5000 E. Skelly Drive, Tulsa, Oklahoma 74135.

Persons wishing to attend this open meeting should contact the Committee Chairperson, or the Southwestern Regional Office of the Commission, New Moore Building, Room 231, 106 Broadway, San Antonio, Texas 78205.

The purpose of this meeting is to discuss programming, including the public employment project and the Tulsa school desegregation report.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., August 17, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

CIVIL SERVICE COMMISSION

NOTICE OF GRANT OF AUTHORITY TO MAKE NONCAREER EXECUTIVE ASSIGNMENT

Department of Agriculture

Under authority of section 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the Department of Agriculture to fill by noncareer executive assignment in the excepted service the position of Deputy for Congressional Affairs, Office of Congressional and Public Affairs, Immediate Office, Office of the Secretary.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-24156 Filed 8-19-76;8:45 am]

NOTICE OF REVOCATION OF AUTHORITY TO MAKE NONCAREER EXECUTIVE ASSIGNMENT

Department of Agriculture

Under authority of section 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission revokes the authority of the Department of Agriculture to fill by noncareer executive assignment in the excepted service the position of Director, Sugar Division, Office of the Director, Deputy Administrator, Commodity Operations, Agricultural Stabilization and Conservation Service.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES S. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-24157 Filed 8-19-76;8:45 am]

NOTICE OF REVOCATION OF AUTHORITY TO MAKE NONCAREER EXECUTIVE ASSIGNMENT

Department of Agriculture

Under authority of section 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission revokes the authority of the Department of Agriculture to fill by noncareer executive assignment in the excepted service the position of Assistant Administrator (Farmer Programs), Office of Assistant Administrator (Farmer Programs), Office of Administrator, Farmers Home Administration.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1976

Proposed Additions

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 77, of the proposed additions of the following commodities to Procurement List 1976, November 25, 1975 (40 FR 54742).

CLASS 1560

Wire Bundles: 1560-00-826-7752 BF, 1560-00-974-5276 BF, 1560-00-974-5275 BF.

CLASS 8315

Sewing Kit, Army Class 1, 8315-00-889-3632.
Sewing Kit, Air Force 8315-00-816-5905.

Comments and views regarding the proposed additions may be filed with the Committee on or before September 20, 1976. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled on or before February 20, 1977.

By the Committee.

C. W. FLETCHER,
Executive Director.

[FR Doc.76-24460 Filed 8-19-76;8:45 am]

PROCUREMENT LIST 1976

Addition to Procurement List

Notice of Proposed Additions to Procurement List 1976, November 25, 1975 (40 FR 54742) of the commodities listed below were published in the FEDERAL REGISTER on May 28, 1976 (41 FR 21855).

After consideration of all of the relevant data presented, the Committee has determined that the commodities listed below are suitable for procurement by the Government under Pub. L. 92-28, 85 Stat. 77. Accordingly, they are hereby added to the Procurement List.

CLASS 7105

Frame, Picture, Food (SH), 7105-00-053-0170, 7105-00-081-5834, 7105-00-052-8697, 7105-00-052-8695.

The above for GSA Supply Distribution facilities in Regions 1 thru 7 only.

By the Committee.

C. W. FLETCHER,
Executive Director.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Availability

Environmental impact statements received by the Council on Environmental Quality from August 9 through August 13, 1976. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (October 4, 1976)

The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Coordinator of Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 359-A, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Grande Ronde Planning Unit, several counties in Oregon, August 10: Proposed is the allocation of approximately 448,000 acres of Wallowa-Whitman and Umatilla National Forests near the headwaters of the Grande Ronde River to a pattern of land use. Management plans include allocation of lands for wood fiber and forage, big game winter range, roadless recreation management, and wilderness. Those adverse effects which are most noticeable will be caused by manipulation of vegetation (290 pages). (ELR Order No. 61158.)

Mt. Hood National Forest Timber Management Plan, several counties in Oregon, August 12: The proposed action is the implementation of a revised ten year Timber Mangement Plan for the Mt. Hood National Forest. Intensive forest management activities will allow each acre treated to more nearly achieve its productivity, enabling greater harvest during the plan period. Adverse impacts include degradation of air, erosion of the soil, and changes in the timber stand structure, the microclimate and the associated plant relationship (105 pages). (ELR Order No. 61178.)

Flaming Gorge National Recreation Area, Utah and Wyoming, August 11: Proposed is a management plan for the Flaming Gorge National Recreation Area (NRA), Ashley National Forest, in Daggett County, Utah and Sweetwater County, Wyoming. The NRA includes 185,645 net acres of National Forest land. The proposed mix of uses and land practices is directed toward encouraging and providing varied recreation opportunities. Most adverse effects are of short duration and will involve stability, esthetics, and vegetation (236 pages). (ELR Order No. 61174.)

Final

Santa Catalina Planning Unit, Colorado National Forest, Pima and Pinal Counties, Ariz., August 10: This statement presents a number of land-use alternatives for the Management of Santa Catalina Unit, Colorado National Forest. The alternatives include further development of recreation facilities to provide for the increasing population of the area as well as preservation of scenic quality (194 pages). Comments made by: USDA, DOI, EPA, State and local agencies and concerned citizens. (ELR Order No. 61157.)

Caney Unit Plan, Kisatchie National Forest, Claiborne and Webster Counties, La., August 10: The statement concerns the ten year management plan for the Caney Unit, Kisatchie National Forest. The plan includes timber harvesting and regeneration of 366 acres, management of wildlife habitat through coordination of timber-wildlife management activities, development of recreation facilities, construction or reconstruction of 9 miles of road, prescribed burning of 4,500 acres for wildlife, timber, and fire control activities, and the management of Middle Fork Bayou D'Arbonne as a Scenic River (108 pages). Comments made by: DOI, USDA, EPA, State and local agencies and concerned citizens. (ELR Order No. 61163.)

Ottawa National Forest Timber Management Plan, Gogebic County, Mich., August 10: This statement describes the economic, social, and ecological effects of managing the timber resources on the Ottawa National Forest for the period July 1, 1976 through June 30, 1983. These effects would result from harvesting an estimated 185 million cubic feet of sawtimber and roundwood, the planting of approximately 16,300 acres and natural regeneration on 125,000 acres, conducting timber stand improvement on about 102,000 acres, carrying out a tree improvement program and constructing and improving roads needed for harvesting operations (232 pages). Comments made by: EPA, DOI, USDA, State and local agencies and concerned citizens. (ELR Order No. 61162.)

Chauga Unit Plan, Sumter National Forest, Oconee County, S.C., August 11: The statement discusses the proposed management plan for Chauga Unit, Sumter National Forest, located in Oconee County, South Carolina. The unit contains 40,200 acres of National Forest land. Adverse impacts will be to wildlife, water quality, soils, vegetative cover, and aesthetics due to timber harvest, road and trail construction, recreational use, and motor vehicles (119 pages). Comments made by: USDA, DOI, EPA, State agencies, and concerned individuals. (ELR Order No. 61173.)

Quinault Unit Plan, Olympic National Forest, Grays Harbor and Jefferson Counties, Wash., August 11: Proposed is the implementation of a comprehensive land use plan for the 151,960 acre Quinault Planning Unit, Olympic National Forest. Included in the plan is the allocation of three additional new sites to developed recreation. Management of the timber resource is provided for on the productive commercial forest land of the Unit when not otherwise allocated (237 pages). Comments made by: DOI, COE, HUD, EPA, State and local agencies, and concerned citizens. (ELR Order No. 61171.)

SOIL CONSERVATION SERVICE

Final

Buckhorn-Mesa Watershed; Maricopa and Pinal Counties, Ariz., August 10: The watershed protection and flood prevention project consists of the construction of five floodwater retarding dams for the purpose of flood control and increased efficiency of irrigation water use. Construction activity will result in loss of 164 acres of desert riparian and 799 acres of desert upland vegetation. Installation of the structures will require the relocation of four families (209 pages). Comments made by: USDA, COE, DOC, HEW, HUD, DOI, DOT, EPA, AHP, State and local agencies, and concerned citizens. (ELR Order No. 61154.)

DEPARMENT OF DEFENSE

ARMY

Final

Army Electronics Research and Development Command, August 13: The action under consideration is the formation of a new command to integrate many of the common research activities of the U.S. Army Electronics Command and the Harry Diamond Laboratories. It will also consolidate related activities of the Electronics Command and the Army Security Agency. The action will reduce and consolidate physical location to varying degrees depending upon which of the ten alternatives is chosen. In addition, the action will result in a civilian employment reduction ranging from 366 to 614 jobs. Adverse effects of the action include sociological, economic, and transportation impacts at the 11 sites (3 vols.). Comments made by: DOT, USDA, USAF, DOD, DOI, DLAB, USN, EPA, State and local agencies, and concerned individuals. (ELR Order No. 61191.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Development, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Kanopolis Lake, Kansas, operation and maintenance Ellsworth, McPherson, and Saline Counties, Kans., August 13: Proposed is the continued operation and maintenance of Kanopolis Lake, located in Ellsworth, McPherson, and Saline Counties, Kansas. The plan includes water control operations, and operation and maintenance of project land and water resources. A major adverse effect is related to flood control operations. Shoreline erosion, disruption of recreation use and damage to project roads and recreation areas result from these fluctuations (Kansas City District) (100 pages). (ELR Order No. 61186.)

Tittabawassee River Flood Control (2), Midland County, Mich., August 12: This statement is a revision of a draft EIS filed with CEQ December 30, 1974. It refers to the proposed plan for alleviation of flooding on the Tittabawassee River at Midland, and consists of the permanent evacuation of residential and commercial structures in two areas designated as "A" and "B" respectively. A total of 115 structures would be purchased and removed from the two areas. Adverse effects are associated with the necessity for residents to give up familiar surroundings and a pattern and pace of life that may not be regained (Detroit District) (135 pages). (ELR Order No. 61184.)

Cazenovia Creek Watershed, Flood Management (2), New York, August 12: This revised draft proposes both structural and non-structural features for flood control and related purposes on Cazenovia Creek, New York. Non-structural measures include flood plain management and participation in the National Flood Insurance Program. The structural flood protection measure would incude an ice retention structure in West Seneca to reduce ice-affected flood stages in specified reaches. Adverse effects include clearing of 15 acres and damage caused by ice scour. The ice retention structure would have some probable impact upon streamlife and water quality. (Buffalo District) (125 pages). (ELR Order No. 61181.)

Chehalis River Flood Control (2), Grays Harbor County, Wash., August 12: This re-

V 41 163 AUG 20 76 UMI

vised draft presents potential effects of a proposed flood control project located at Cosmopolis and south Aberdeen, Washington. The proposed project consists of a levee system which would protect 1,318 acres of flood plain lands at the head of Grays Harbor. Temporary adverse effects would be associated with construction activities such as traffic disruption, noise, and unsightly stockpiles of materials (Seattle District) (107 pages). (ELR Order No. 61180.)

Final

John Martin Dam and Reservoir, Arkansas River, Bent County, Colo., August 11: This statement concerns the identification of those impacts resulting from the continuing operation and maintenance program at John Martin Dam and Reservoir and the anticipated effects resulting from implementation of the updated John Martin Master Plan (November 1974). Adverse effects have been the development of sterile sediment beds, erosion of the shoreline and barren sediment beds, and some inundation of vegetation (Albuquerque District) (152 pages). Comments made by: USDA, HEW DOT, EPA, FEA, FPC, AHP, and DOI. (ELR Order No. 61169.)

OG&E Generating Stations, Units 4 & 5 (Permit), Muskogee County, Okla., August 11: Oklahoma Gas and Electric Company has applied for USA permits for proposed construction of an addition of two 515,000 kilowatt net generating units and appurtenant structures to its existing generating station. The structures will be located on and in the Arkansas, Grand, and Verdigris Rivers near the town of Muskogee, Oklahoma. The proposed power plant would convert approximately 720 acres of agricultural land and wildlife habitat to industrial use. Chemically treated storm water runoff from the coal storage area, treated plant wastes, and heated cooling tower blowdown will be discharged (Tulsa District) (262 pages). Comments made by: EPA, HEW, USDA, DOI, AHP, DOT, State agencies, and local officials. (ELR Order No. 61168.)

Lock Haven Flood Protection Project, Pennsylvania, August 11: The project involves the construction of a wall and earth levee system along the West Branch of the Susquehanna River and Bald Eagle Creek to protect the City of Lock Haven, Pennsylvania. Adverse impacts include the loss of an unrestricted view of the river, visual change to the setting of the historic Water Street district, loss of some trees and the resultant reservations of the citizens concerning the project (Baltimore District) (269 pages). Comments made by: EPA, USDA, DOT, HEW, DOI, HUD, and State agencies. (ELR Order No. 61175.)

Oceana Local Flood Protection Project (2), Wyoming County, W. Va., August 11: The statement refers to a Local Protection Project at Oceana, West Virginia. Proposed is the widening of 25,000 feet of channel for the purpose of flood control at Oceana. Two sediment retention basins will also be built. The project will displace 13 homes and outbuildings and destroy some vegetation and associated wildlife habitat (Huntington District) (150 pages). Comments made by: DOI, EPA, DOT, USDA, and State agencies. (ELR Order No. 61170.)

ENERGY RESEARCH AND DEVELOPMENT ADMIN.

Contact: Mr. W. Herbert Pennington, Office of Assistant Administrator, E-201, ERDA, Washington, D.C. 20545, 301-973-4241.

Final

Intense Neutron Source Facility, Los Alamos, Sandoval County, N. Mex., August 10: Proposed is the construction and operation of a deuterium-tritium gas target intense neutron source at the Los Alamos Scientific Laboratory in Los Alamos, New Mexico. The purpose of the proposed facility is to provide an experimental neutron radiation facility providing a neutronic environment similar to that anticipated in a fusion power reactor. The proposed project consists of the design and construction of the experimental facility and building, the connecting corridor and support facilities necessary to the project. Adverse effects include liquid waste discharges which consist primarily of cooling tower blowdown during operations, and construction disruption (230 pages). Comments made by: NRC, USDA, DOT, DOC, DOI, NSF, EPA, and State agencies. (ELR Order No. 61156.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Ms. Rebecca W. Hanmer, Director, Office of Federal Activities, Room WSMW 537, 401 M Street, S.W., Washington, D.C. 20460, 202-755-0780 (stop 460).

Draft

Metro Denver Wastewater Sludge Management, Adams County, Colo., August 10: The Metropolitan Denver Sewage Disposal District No. 1 has proposed to construct the necessary facilities to transport sludge to a site in Adams County, Colorado, for air drying in earthen basins, stockpiling in above-ground windows, and distributing to the farming community to be reused on land for growing crops. Adverse effects of varying degree will result at the sludge drying and distribution center, at the sludge reuse areas, and at the Lowry Bombing Range sludge disposal area (Region VIII) (378 pages). (ELR Order No. 61161.)

Greeley Region Wastewater Management, Weld County, Colo., August 13: Proposed is the granting of funds to Greeley, Colorado for the construction of wastewater treatment facilities. The City of Greeley has recommended the building of a regional wastewater treatment facility in the Delta agricultural area east of the city near the confluence of the Cache La Poudre and South Platte Rivers. A total of eight alternative plans are being considered. Impact analysis focuses on odor, plant location, flooding, effluent/sludge disposal, and the potential for induced population growth (Region VIII) (210 pages). (ELR Order No. 61189.)

Jerome Wastewater Facilities Project, Jerome County, Idaho, August 11: Proposed is the provision of an adequate wastewater treatment and disposal program for the city of Jerome, Idaho. The plan would expand the service area from 1,170 acres to 5,030 acres to accommodate the projected increases in population from 5,625 to 12,000 residents by the year 1995. Negative impacts are subject to the alternative selected (135 pages). (ELR Order No. 61176.)

Final

Olentangy Treatment Plant, Interceptor System, Delaware County, Ohio, August 10: Proposed is the construction in South-Central Delaware County, between state route 315 and the Olentangy River of a sewage treatment plant of 1.5 MGD to be expanded to 3.0 MGD by the end of the 20 year planning period. The treatment process is a two-stage activated sludge facility, including phosphorus removal measures and tertiary rapid sand filters. The facility will discharge to the Olentangy River at Franklin County, Ohio, below the I-270 interchange in the vicinity of Longfello Ave. (415 pages). Comments made by: DOI, and COE, State and local agencies, and concerned citizens. (ELR Order No. 61153.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street, SW., Washington, D.C. 20410, 202-755-6308.

Draft

Los Rios Subdivision, Plano, Plano and Collins Counties, Tex., August 12: The proposed action is for HUD to accept for HUD-FHA mortgage insurance purposes, the 675 acre Los Rios Subdivision located in Plano, Texas. When completed, in approximately 6 years, the subdivision will contain 1,156 single family homes plus some attached single-family and multi-family housing and shopping and recreational facilities. Adverse effects would be the removal of agricultural land from production and an increased demand for fossil fuels through heavy dependence on automobiles for transportation (86 pages). (ELR Order No. 61185.)

Section 104(h)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD).

Final

Industrial Park, St. Johnsville, Montgomery County, N.Y., August 10: The Village of St. Johnsville plans to develop an industrial park of approximately 25 acres using $175,000 of HUD Community Development Block Grant Discretionary funds. The site, located in the southern sector of the Village, is bounded by the Penn Central Railroad on the north, the new Bridge Street bridge on the east, the New York State Barge Canal on the south, and Zimmerman Creek on the west. Adverse effects are expected to be minimal (108 pages). Comments made by: EPA, DOC, DOT, and State agencies. (ELR Order No. 61152.)

INTERSTATE COMMERCE COMMISSION

Contact: Mr. Richard Chais, Supervisory Attorney Advisor for the Environmental Staff, Room 2370, 12th St. and Constitution Ave. NW., 202-343-2086.

Draft

Transportation of Recyclable Materials, Freight Rates, August 11: The Interstate Commerce Commission has instituted a comprehensive investigation of discriminatory rail freight rates for the transportation of recyclable or recycled materials. This EIS analyzes (1) whether the rate structure per se has a significant effect on the relative utilization of recyclable and competing virgin materials and (2) whether general rail freight rate increases granted by the Commission in response to requests from the nation's railroads have a significant effect on relative utilization (220 pages). (ELR Order No. 61172.)

DEPARTMENT OF LABOR

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

Final

Coke Oven Emissions Standard, August 13: Proposed is the promulgation of an occupational health standard regulating the exposure of employees to coke oven emissions. Such a standard would include provision for a permissable level of exposure, employee exposure measurements, methods of compliance, respiratory protection, personal protective equipment, hygiene facilities and practices training, signs and labels, medical surveillance, regulated area, and recordkeeping. The statement indicates no significant effects on the environment external to the workplace (125 pages). Comments made by: EPA, HEW, USA, DOC, DLAB, ERDA, and DOI. (ELR Order No. 61190.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Benard Rersche, Director of Division of Reactor Licensing, P-722, NRC, Washington, D.C. 20555, (301) 492-7373.

Draft

Phipps Bend Nuclear Plant, Units 1 and 2, Hawkins County, Tenn., August 11: Proposed is the issuance of construction permits to the Tennessee Valley Authority for the construction of the Phipps Bend Nuclear Plant units 1 and 2. The plant will employ two boiling water reactors to produce up to 3579 megawatts thermal (MWt) from each unit. Steam turbine generators will use this heat to provide 1233 MWe of electrical power capacity. The exhaust steam will be cooled by natural-draft cooling towers. Adverse effects include disturbance of 406 acres (225 pages). (ELR ORDER No. 61165.)

Koshkonong Nuclear Plant, Units 1 and 2, Jefferson County, Wis., August 13: Proposed is the issuance of construction permits to the Wisconsin Utilities Project for the construction of the Koshkonong Nuclear Plant, units 1 and 2. The plant will employ two pressurized water reactors to produce a nominal 2775 MWt from each unit. Steam turbine generators will use this heat to provide 999 MWe of electrical power capacity per unit. The exhaust steam will be cooled by natural-draft cooling towers. Adverse effects include the taking of a 1109 acre site which is predominantly cropland with some forest (215 pages). (ELR ORDER No. 61187.)

Final

Indian Point Unit No. 2, Westchester County, N.Y. August 12: The proposed action is the issuance of an amendment to the Facility Operating License held by Consolidated Edison Company of New York for Indian Point Unit No. 2. Under conditions of the operating license, the licensee is required to terminate once-through cooling at unit No. 2 by May 1, 1979 and to operate thereafter with a closed cycle cooling system. This statement considers the information developed by the staff in making its independent evaluation and analysis of alternative closed cycle cooling systems (355 pages).

Comments made by: EPA, FPC, HUD, DOI, DOC, USDA, USCG, NRC, state and local agencies, concerned citizens. (ELR ORDER No. 61179.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, S.W., Washington, D.C. 20590, (202) 426-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Chemung County Airport, Big Flats, Chemung County, N.Y., August 13: Proposed is a project for various improvements at the Chemung Country Airport near Elmira, N.Y. Project plants call for the following: (1) extension and strengthening of runway 6-24, (2) extension of parallel taxiway, (3) relocation of NAV-AIDS, (4) acquisition of 161 acres for clear zones, (5) relocation of a creek, (6) installation of new runway and taxiway lighting, and (7) the removal and replacement of approach lighting. Adverse effects include loss of approximately 21 acres of farmland, and the relocation of two families (110 pages). (ELR ORDER No. 61188.)

Erie International Airport Runway Extension, Erie County, Pa., August 11: Proposed is the construction of a 500 ft by 150 ft flexible pavement extension of runway 6-24 to the east, Erie International Airport, Pa. Plans also call for the installation of medium intensity runway lighting along the extension, the realignment of Powell Road, and the relocation of threshold lighting at the 24 end of the runway. Adverse effects include the dislocation of 12 families, and the conversion of approximately 3.6 acres of residential property to commercial airport use (229 pages). (ELR ORDER No. 61166.)

Ocean Shores Airport master plan, King County, Wash., August 11: The proposed action involves the acquisition of land (67 acres) and the construction of a new utility airport in Ocean Shores, Wash. The site is located on the east side of the Ocean Shores Peninsula, on the shore of the North Bay which is a northerly extension of Grays Harbor. Adverse effects include loss of wildlife habitat on the site itself, disturbance of some wildlife species adjacent to the site, and loss of that portion of the ecotional system which lies within the site boundaries (220 pages). (ELR Order No. 61167.)

Final

Loop 390, U.S. 80 to U.S. 59, Marshall, Harris County, Texas, August 12: The proposed action is the construction of grading, structures, base and surfacing on Loop 390 around Marshall, Texas. The project begins at U.S. 80 west of Marshall, crosses U.S. 59 north of Marshall, and terminates at I-20 southeast of Marshall. The 11.8 mile project is on new location. Adverse effects of the project are displacements of as many as 5 businesses and 64 families, and the commitment of some natural resources (123 pages).

Comments made by: DOT, HEW, COE, USDA, DOI, EPA, state agencies, and concerned individuals. (ELR Order No. 61183.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

I-94 Berrien Business Loop, Berrien County, Mich., August 11: The proposed action is the second phase of a two phase intermediate traffic solution project and the initial phase of a possible three phase long range plan for I-94 in Berrien County, Mich. The plan would further upgrade the business route from I-94 south of St. Joseph North to the St. Joseph River crossing and east to I94 northeast of Benton Harbor. Four possible alignments are considered as part of the project and adverse effects vary according to the alternative selected (569 pages). (ELR Order No. 61177.)

Sprain Brook Parkway, Westchester County, N.Y., August 10: The proposed project is the extension of the Sprain Brook Parkway from the Cross Westchester Expressway (CWE) (I-287) northerly to the Hawthorne Interchange, a distance of 2.7 miles. This project originates in the Village of Elmsford at the interchange with CWE and continues northerly until it passes under Grasslands Rd. about 600 ft. west of the Bradhurst Ave.-Knollwood Rd. intersection. The project terminates about 1,000 ft north of North Hospital Rd. after passing under it. The proposed section would be the third and final section, completing the Parkway. Subject to the alternate chosen, 8 to 46 residences will be displaced (Region 1) (158 pages). (ELR Order No. 61151.)

I-480 and S.R. 252, Ohio Turnpike to S.R. 176, Lorain and Cuyahoga Counties, Ohio, August 10: The proposed action involves construction of approximately 18 miles of I-480 located in Lorain and Cuyahoga Counties. Also to be included with the Interstate project is a relocation of State Route 252. The relocation is proposed from the south corporation limit of the City of North Olmstead where it crosses existing S.R. 252 northerly to I-480. Adverse effects include the taking of private and public lands for right-of-way use, noise level increases during construction, and existing water course disturbance (Region 5), (120 pages). (ELR Order No. 61164.)

Final

Hohokam Expressway, Ariz. Maricopa County, Ariz., August 12: Proposed is the construction of 2.48 miles of S.R. 143, locally known as Hohokam Freeway, or Hohokam Expressway, in the cities of Phoenix and Tempe, Ariz. The project will interchange with Interstate Highway 10 and will intersect at-grade with arterial streets. Adverse impacts include slight increases in air and noise pollution (467 pages).

Comments made by: DOT, EPA, DOC, DOI, HEW, HUD, State and local agencies, concerned individuals. (ELR Order No. 61182!)

Supplement

S.R. 44, from San Ysidro North (S-1), Sandoval County, N. Mex., August 10: This statement is a supplement to a Final Environmental Impact Statement on S.R. 44, filed with CEQ in May of 1974. The supplemental project FF-033-1(17) consists of upgrading a 2 lane section of State Road 44 from 2.6 miles south of San Ysidro North in Sandoval County, N. Mex. Environmental impacts include change in land use for about 50 acres of new right of way (10 pages). (ELR Order No. 61155.)

U.S. Route 7, Sunderland to Manchester (S-1), Mennington County, Vt., August 10: This supplement is the 4(f) section of a Final EIS filed with CEQ in February 1973. The project begins in Sunderland approximately 1.75 miles northeast of the Glastenburg-Sunderland town line and extends approximately 10 miles north on relocation to its junction with Vermont 11 east of Manchester Center. The 4(f statement concerns the environmental impacts to Lye Brook Wilderness Area (85 pages). (ELR Order No. 61160.)

GARY L. WIDMAN,
General Counsel.

Correction

In FR Doc. 76-22879 appearing on page 32243 in the issue for Friday, August 6, 1976 the following correction should be made: On page 32945, in the middle column, the word "Final" should be inserted above the first full paragraph beginning "SR 53, Rome to Calhoun" to indicate that the listings following are not drafts.

COUNCIL ON WAGE AND PRICE STABILITY

STUDY OF FEDERAL REGULATION OF STEEL INDUSTRY

Meeting

The Council and the National Center are jointly sponsoring a study of the total impact of Federal regulations which apply directly to the steel manufacturing industry. This FEDERAL REGISTER notice is to announce a public meeting on September 8, 1976, to discuss the progress being made in this study and certain preliminary findings. An earlier FEDERAL REGISTER notice (41 FR 13982) described the scope of this study, and an initial public meeting was held on April 28, 1976.

Preliminary drafts of two parts of the study will be available for discussion at the meeting: a catalog of existing Federal

V 41 163 AUG 20 76 UM

regulations that have a direct impact on the steel industry, and a critical appraisal of existing studies of the costs and benefits (to steel producers, employees, consumers, and the general public) of these regulations. The specific agenda and draft documents for this meeting will be available about August 25.

The meeting will be held on September 8, 1975, at 9:00 a.m. in Room 2010 of the New Executive Office Building, 726 Jackson Place, NW., Washington, D.C. 20506. Persons interested in attending this meeting, or receiving the agenda and draft documents mentioned above, should contact Mr. Morris Feibusch, at the Council on Wage and Price Stability, Room 4013, New Executive Office Building, 726 Jackson Place, NW., Washington, D.C. 20506, telephone (202) 456-6757.

WILLIAM LILLEY III,
Acting Director, Council on Wage and Price Stability.

GEORGE KUPER,
Executive Director, National Center for Productivity and Quality of Working Life.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-42029 (FRL 603-1)]

STATE OF NEW MEXICO

Submission of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136) and 40 CFR Part 171 (39 FR 36446 (Oct. 9, 1974) and 40 FR 11698 (March 12, 1975)), the Honorable Jerry Apodaca, Governor of the State of New Mexico, has submitted a State Plan for Certification of Pesticide Applicators to the Environmental Protection Agency (EPA).

Notice is hereby given of the intention of the Regional Administrator, EPA, Region VI, to approve this plan.

A summary of the Plan follows. The entire plan, together with all attached appendices, except for sample examination questions, may be examined during normal business hours at the following locations:

New Mexico Department of Agriculture, Office of the Director, New Mexico Department of Agriculture Bldg., New Mexico State University, Room 114, 3189 Espina, Las Cruces, New Mexico 88003.

U.S. Environmental Protection Agency, Air & Hazardous Materials Division, Pesticides & Hazardous Materials Branch, 1600 Patterson, Room 1107, Dallas, Texas 75201, Phone: 214-749-1121.

U.S. Environmental Protection Agency, Federal Register Section, Technical Services, Division (WH-569), Office of Pesticide Programs, East Tower, Waterside Mall, Room 401, 401 M Street SW., Washington, D.C. 24060, Phone: 202-755-4854.

SUMMARY OF NEW MEXICO STATE PLAN

The New Mexico Department of Agriculture has been designated the State Lead Agency responsible for administering the plan throughout the State and is solely responsible for certifying all applicators of restricted use pesticides.

Cooperating agencies are the New Mexico State University Cooperatve Extension Service and the New Mexico Environmental Improvement Agency. The Cooperative Extension Service will assume the role of the training agency and will work with the New Mexico Department of Agriculture to coordinate training programs for commercial and private pesticide applicators. The New Mexico Environmental Improvement Agency will assist in training applicators in the category of Public Health Pest Control and will cooperate in investigation of pesticide accidents.

Legal Authority for the program is contained in the New Mexico Pesticide Control Act (Chapter 45, Article 25, Sections 1 through 39, New Mexico Statutes Annotated 1963 Compilation), and Regulatory Order No. 3 which are attached to the plan.

The Plan indicates that the State Lead Agency and cooperating agencies, together with grants from EPA, have sufficient funds and personnel necessary to carry out the program.

The New Mexico Department of Agriculture will provide an annual report to EPA on October 21, and other reports will be provided to EPA as requested.

The State of New Mexico has defined two classes of applicators who are commercial applicators under FIFRA and who will be subject to commercial applicator certification requirements: commercial pesticide applicator (an applicator who engages in the business of applying pesticides to land not owned or occupied by him); and public pest management consultant (a public employee who, in the course of his official duties, supervises the use of pesticides). Hereinafter, as used in this Notice, the term "commercial applicator" shall include and mean the above two classes of applicators.

The commercial applicator categories proposed are those listed in 40 CFR 171.3. Subcategories proposed are as follows:

1. Agricultural Pest Control
   - (i) Plant
     - (a) Agricultural Pests
     - (b) Agricultural Weeds
   - (ii) Animal
3. Ornamental and Turf Pest Control
   - (a) Insecticides and Fungicides
   - (b) Herbicides
7. Industrial, Institutional, Structural, and Health-Related Pest Control
   - (a) Structural Pest Control
   - (b) Vertebrate Animal Control
   - (e) Fumigation
10. Demonstration and Research Pest Control
    - (a) Demonstration Pest Control
    - (b) Research Pest Control

The State estimates that 1,220 commercial applicators and up to 10,000 private applicators will need to be certified. Wallet size credentials will be issued to all certified applicators to verify class and category certification as appropriate.

Commercial applicators will be certified by means of written examinations, one covering the general standards of competency (40 CFR 171.4(b) and 171.6), and one covering the specific standards of competency (40 CFR 171.4(c)) for each category or subcategory in which the applicator desires certification.

In accordance with 40 CFR 171.7(e)(3), the State of New Mexico has described its current licensing program for State-defined commercial applicators and public pest management consultants, and has described a pilot program conducted under the aegis of EPA by the California State Polytechnic University for applicators in the structural pest control subcategory of category 7 above.

However, the State has requested authority to certify without further demonstration of competency only those applicators who successfully completed the pilot program. Inasmuch as passage of a written examination covering the general standards and requisite specific standards of competency was required for successful completion of the pilot program, notice is hereby given of the intention of the Regional Administrator to approve the New Mexico request.

The standards of competency for private applicators will be those set forth in 40 CFR 171.5 and 171.6.

Private applicators will routinely be certified by one of three methods: completion of Extension Service-sponsored training which will include oral review questions and group discussion; self-study of EPA core manuals followed by a written examination administered at the County Extension agent's office and forwarded to the lead agency for grading; and self-study through an autotutorial video cassette system available at the County Extension agent's office followed by a written examination which is forwarded to the lead agency for grading.

In emergency situations, a previously uncertified private applicator may obtain single purchase/single use certification by completing a written questionnaire administered and reviewed by an examined and licensed pest management consultant. A copy of the questionnaire and user's permit issued by the pest management consultant will be submitted to the lead agency for record keeping and to enable the lead agency to inform the applicator of the need and opportunities for obtaining full certification.

An applicator who is unable to read may obtain product-specific certification by being tutored by a lead agency field inspector who will instruct the applicator in the safe and effective use of each product for which certification is desired.

Sample examination questions for commercial and private applicators are attached to the Plan. However, the State of New Mexico has requested that they not be made available for public inspection, in order to maintain their confidentiality. The Agency has acceded to this request and has removed the sample examination questions from the public inspection copies of the Plan.

Within 60 days after final acceptance of the Government Agency Plan (GAP) by EPA, a statement concerning the acceptance of GAP-qualified Federal employees will be forwarded for inclusion in the State Plan.

The New Mexico Department of Agriculture will enter into cooperative agreements with appropriate Indian Governing Bodies who choose to utilize the State certification program. Copies of any such agreements will be forwarded to EPA.

No reciprocal agreements with other States are presently being considered. However, as certification programs in neighboring States are established, consideration will be given to reciprocal agreements. As agreements are concluded, copies will be submitted to EPA.

Other regulatory activities conducted in the State of New Mexico which contribute to the control of pesticide use include: testing and licensing as operators the employees of commercial pesticide applicators who use general and/or restricted use pesticides (use of the latter being only under the direct supervision of the certified commercial pesticide applicator); testing and licensing of pest management consultants; licensing of restricted use pesticide dealers; testing and licensing of public operators who use general and/or restricted use pesticides (use of the latter being only under the direct supervision of a public pest management consultant); registration of pesticides; enforcement activities; pesticide sampling; pesticide equipment inspections; and review of pesticide use in New Mexico by the Pesticide Advisory Board.

To ensure that certified applicators comply with the standards for use of restricted use pesticides, field inspectors will make periodic checks on applicators, including as appropriate, inspection of records, sampling of pesticides being applied, and ensuring compliance with label and labeling directions.

Both commercial and private applicators will be recertified at five year intervals. Commercial applicators will be reexamined at the end of five years unless they have attended not less than six hours of formal training approved by the lead agency during that period. Likewise, private applicators must have attended three hours of Extension training programs during the five years or be examined to meet recertification requirements.

PUBLIC COMMENTS

Interested persons are invited to submit written comments on the proposed State Plan for the State of New Mexico to the Chief, Pesticides Branch, Region VI, Environmental Protection Agency, 1600 Patterson, Room 1107, Dallas, Texas 75201. The comments must be received on or before September 20, 1976, and should bear the identifying notation OPP-42029. All written comments filed pursuent to this notice will be available for public inspection at the above mentioned locations from 8:30 a.m. to 3:30 p.m. Monday through Friday.

Dated: June 29, 1976.

JOHN C. WHITE,
Regional Administrator, Region VI, Environmental Protection Agency.

U.S. ARMY CORPS OF ENGINEERS

Issuance of a Specific Exemption To Use 2,4-D To Control Alligatorweed in South Carolina

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the U.S. Army Corps of Engineers (hereafter referred to as the "Corps") to use 2,4-D to control infestations of alligatorweed in five (5) waterways in South Carolina. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Room E-315, Washington, D.C. 20460.

According to the corps, the uncontrolled growth of alligatorweed has adversely affected navigation, flood control, drainage, fishing, swimming, mosquito control, and the maintenance of water quality in infested waterways, specifically, portions of the North Fork Edisto River, the Little Pee Dee River, the Black River, the Black Mingo Creek, and the Congaree River. Alligatorweed (*Alternanthera philoxeroides* (Mart) Griesh) grows as a mat of vegetation interwoven with stems that have become prostrate. The nodes generally have two buds, each of which may sprout to produce a shoot. Reproduction is by vegetative means from the auxiliary buds. Roots may form at every node near or submerged in water or on moist soil. Equally profuse growth may be found when alligatorweed is completely free-floating, loosely attached and forming a mat, rooted emersed, or in a dry field. The greatest problems occur in streams and canals where dense floating mats of alligatorweed may block boat traffic and interfere with the flow of water.

The use of mechanical weed harvesting devices are effective in controlling alligatorweed and offer the advantage of removing entire weed mats instead of killing only the above-water parts of the weeds. However, mechanical control is much more expensive than chemical control and is also impractical over most of these bodies of water because of a combination of current, trees, logs, and shallow water. Biological control agents are being utilized to the limit of the capabilities of the three insect species which have been established in South Carolina for this purpose; they are *Agasicles hygrophila, Amynothrips andersoni,* and *Vogtia malloi.*

According to the Corps, there are other herbicides which will control alligatorweed, but none of them are comparable to 2,4-D in terms of economy, low toxicity to aquatic life, and non-persistence in the environment. Therefore, the Corps will use a total of 3,600 pounds (acid equivalent) of 2,4-D (2,4-Dichlorophenoxyacetic acid), DMA (dimethylamine salt) on approximately 900 acres spread over 166 river miles on portions of the five bodies of water previously mentioned. This use of 2,4-D is in conjunction with the Cooperative Aquatic Plant Control Program being implemented by the Charleston Distict of the Corps of Engineers.

Areas having significant infestations of alligatorweed will be sprayed with a 2,4-D formulation containing not less than four (4) pounds of 2,4-D acid equivalent per gallon. The herbicide will be in diluted water at a rate of fifty parts of water to one part of herbicide and applied at the rate of two to four pounds acid equivalent of 2,4-D per acre, which is adequate to control alligatorweed when used in conjunction with biological control agents. Spraying operations will be accomplished by a two-man crew; each of the two men will receive prior instructions as to the proper mixing and spraying techniques before the actual spraying operation begins. Dependent upon the severity of the alligatorweed infestations and weather conditions (rain, floods, etc.), the spray crew will treat from one to three river miles per day.

To date, there have been no significant adverse effects from the spraying of alligatorweed. The greatest potential adverse effect is the killing of non-target species of broadleaf plants. Precautions will be taken to minimize the killing of other plants. There is also the possibility of minor and temporary changes in water quality from the addition of 2,4-D to the water and the lowering of the dissolved oxygen level through the decay of dead alligatorweed; however, these effects are minimal. This herbicide treatment program should suppress the infestations of alligatorweed in the affected areas with-

V 41 163 AUG 20 76 UM

out causing any short- or long-term adverse environmental effects. There appears to be no possibility of contamination of domestic water supplies with 2,4-D, since the only potable water source located downstream of a treatment area is about fifty (50) miles away. It should also be noted that a 2,4-D DMA product was registered on January 7, 1976, for control of water hyacinth in ponds, lakes, reservoirs, marshes, bayous, drainage ditches, canals, rivers, and streams that are quiescent or slow moving. A primary drinking water interim standard of 0.1 ppm has been established for 2,4-D.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of alligatorweed has occurred; (b) there is no pesticide presently registered and available for use to control the alligatorweed in South Carolina; (c) there are no alternative means of control taking into account the efficacy and hazard; (d) significant economic, environmental or health problems may result if the alligatorweed is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Corps has been granted a specific exemption to use the pesticide noted above until December 31, 1976, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. A dimethylamine salt formulation of 2,4-D containing four (4) pounds acid equivalent of 2,4-D per gallon will be applied from boats at the rate of two to four pounds acid equivalent of 2,4-D per acre;

2. The 2,4-D formulation will be diluted at a rate of one part 2,4-D formulation to fifty (50) parts of water;

3. Treated acreage is limited to 900 acres located within those areas mentioned and delineated on the map accompanying the specific exemption application;

4. A maximum of 3,600 pounds acid equivalent of 2,4-D may be applied, and;

5. Personnel of the U.S. Army Corps of Engineers will supervise all herbicide applications.

Dated: August 13, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

PESTICIDE PROGRAMS

Receipt of Application to Register A Pesticide Product Containing A New Active Ingredient

Nalco Chemical Co., P.O. Box 87, Sugar Land TX 77487, has submitted to the Environmental Protection Agency (EPA) an application to register the pesticide product VISCO 3990 oil and waterflood or saltwater disposal system bacteria control chemical and corrosion inhibition (EPA File Symbol 10349-RL), containing 5.0% of the active ingredient Hexachlorodimethylsulfone which has not been included in any previously registered pesticide products. The application receive from Nalco Chemical Co. proposes that the product be classified for general use for control of bacteria in oilfield waterflood or saltwater disposal system. PM31

Application was made pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 7 U.S.C. 136 et seq.), and the regulations thereunder (40 CFR 162). Notice of receipt of this application is made in accordance with the provisions of Section 3(c)(4) of FIFRA [40 CFR 162.2(b)(6)] and does not indicate a decision by the Agency on the application.

Any Federal agency or other interested persons are invited to submit written comments on this application to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, East Tower, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments must be received on or before September 20, 1976 and should bear a notation indicating the EPA File Symbol "10349-RL." Comments received within the specified time period will be considered before a final decision is made with respect to the pending application. Comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Specific questions concerning this application should be directed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address or by telephone at 202/426-2635.

Notice of approval or denial of this application to register VISCO 3990 oil and waterflood or saltwater disposal system bacteria control chemical and corrosion inhibitor will be announced in the FEDERAL REGISTER. The label furnished by Nalco Chemical Co., as well as all written comments filed pursuant to this notice, will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 13, 1976.

FOOD ADDITIVE PETITION

Notice of Filing

Monsanto Agricultural Products Co., 800 N. Lindbergh Blvd., St. Louis, Mo. 63116, has submitted a petition (FAP 6H5140) to the Environmental Protection Agency (EPA) which proposes to amend 21 CFR 561 and 193 by establishing food additive regulations permitting the use of the herbicide glyphosate [N-(phosphonomethyl) glycine] and its metabolite, aminomethylphosphonic acid in a proposed experimental program involving application of the herbicide to growing sugarcane with a tolerance limitation of 1.0 part per million for residues of the herbicide in sugarcane molasses.

Notice of this submission is given pursuant to the provisions of Section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act. Interested persons are invited to submit written comments on the petition referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments should be submitted as soon as possible and should bear a notation indicating the petition number "FAP 6H5140." Comments may be made at any time while a petition is pending before the Agency. All written comments will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 390]

KNOPF SHIPPING COMPANY, INC.

Order of Revocation

By letter dated July 14, 1976, Mr. Jakob H. Knopf, Knopf Shipping Co., Inc., 233-239 W. 42nd St., New York, N.Y. was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 390 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before August 11, 1976.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Knopf Shipping Co., Inc., has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01 (c) dated June 30, 1975;

It is ordered, That Independent Ocean Freight Forwarder License No. 390 issued to Knopf Shipping Co., Inc., be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 390 be and is hereby revoked effective August 11, 1976.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Knopf Shipping Company, Inc.

LEROY F. FULLER,
Director Bureau of Certification and Licensing.

[FR Doc.76-24494 Filed 8-19-76;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP76-465]

CITIES SERVICE GAS CO.

Application

AUGUST 12, 1976.

Take notice that on August 2, 1976, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP76-465 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continued operation of various facilities and the sales of natural gas for resale in certain areas and communities presently being served by Applicant where the distribution systems have been acquired by new owners, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to continue to operate pipeline, measuring, regulating and appurtenant facilities and to sell gas to the following:

1. Aker Oil and Gas Company, formerly owned and operated by Crystal Gas Company, for resale and distribution in the communities of Hill 'n Dale and Keystone West, Pawnee County, Oklahoma.

2. Nelagoney Gas Co-op, Inc., formerly owned and operated by Home Owners Cooperative Gas Company, for resale and distribution in the community of Nelagoney, Osage County, Oklahoma.

3. Sekco Gas Company, Inc., formerly owned and operated by the Southeastern Kasas Gas Company, for resale and distribution in rural communities in southeastern Kansas; and

4. West Texas Gas, Inc., formerly owned and operated by Clajon Gas Company, for resale for irrigation and incidental farm purposes in Armstrong, Briscoe, Donley, Gray, and Hall Counties, Texas.

Applicant states that no new facilities or expenditures are required.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 5 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CP70-196, CP73-135, et al.]

DISTRIGAS CORP. AND DISTRIGAS OF MASSACHUSETTS

Order Granting Petition for Local Hearing, Granting Late Intervention and Prescribing Further Procedures

AUGUST 12, 1976.

On March 22, and July 1, 1976, respectively, Kevin H. White, Mayor of the City of Boston, Massachusetts, and Edward W. Brooke, Senator for the State of Massachusetts, petitioned the Commission to hold local hearings in the above-referenced dockets.[1]

It is the policy of the Commission to hold hearings on applications filed under

[1] The request is for local hearings regarding the proposed liquefied natural gas (LNG) storage tanks at Everett, Massachusetts.

V 41 N 163 AUG 20 76 UM

the provisions of the Natural Gas Act in Washington, D.C. This practice has been varied occasionally to provide for limited local hearings where substantial local interest has been demonstrated and good cause shown.

In view of the potential impact of our decision on the Boston and Everett, Massachusetts area, we believe that the public interest supports the convening of a local hearing in Boston, Massachusetts. The local hearing will afford an opportunity to participate to those individuals most affected by the proposed siting and operation of the LNG facility.

We wish to emphasize that the local hearing authorized herein should be limited to submittals concerning the LNG tanks proposed to be constructed in Docket No. CP74–137, and related activities proposed in Docket Nos. CP70–196, CP73–135, and CP74–227.[2] These submittals, which shall be limited to parties unable to participate through the proceedings being held in Washington, D.C., may be in the form of unsworn statements of position or opinion which may be read or copied into the record. However, these unsworn statements will not be considered as evidence in the proceeding unless the submittals are made under oath and an opportunity accorded all parties for cross-examination thereon. Procedures for these submittals will be established by order of the Presiding Administrative Law Judge in his notice announcing the location and time of the local hearing.

The Commission finds: (1) It is desirable and in the public interest that a portion of the hearings in Docket Nos. CP70–196 and CP73–135, et al., be conducted in Boston, Massachusetts, utilizing federal facilities.

(2) The filing by the City of Boston and Senator Brooke should be accepted as late petitions to intervene, and the relief therein sought should be granted.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, hearing time will be made available in federal facilities in Boston, Massachusetts.

(B) In order to provide for an expeditious local hearing procedure, to avoid repetitious cumulative testimony, and to establish procedures for service of prepared testimony the Administrative Law Judge shall, at least 15 days prior to convening the local hearing, issue a notice to be published in the FEDERAL REGISTER and served on all parties announcing the place and time of the local hearing and prescribing such procedures as the interest of justice and due process may require.

(C) Upon motion and showing that it would be a hardship for a witness to prepare and serve written testimony and good cause for receipt of such testimony, the Presiding Administrative Law Judge may permit a party to present sworn direct oral testimony subject to cross-examination.

(D) The Commission's Rules of Practice and Procedure shall apply in this proceeding except to the extent they are modified or supplemented herein.

(E) The above-named petitioners are permitted to intervene in these consolidated proceedings subject to the rules and regulations of the Commission: *Provided, however,* that the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *provided, further,* that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in these proceedings; and *provided, further,* that such intervenors shall accept the evidentiary record as it has been established in the proceedings to date.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24419 Filed 8-19-76;8:45 am]

[Docket No. ER76-845]

DUKE POWER CO.

Tendered Contract Supplement

AUGUST 13, 1976.

Take notice that on August 6, 1976, Duke Power Company tendered for filing a supplement to its electric power contract with the University of North Carolina, Chaptel Hill. The supplement provides for an increase in contract demand from 20,000 kw to 36,000 kw at Delivery Point No. 2 and for a new delivery point with a contract demand of 18,000 kw at Delivery Point No. 3. Duke Power states that the changes were made at the request of the customer.

Waiver of the Commission's 30-day notice requirement is requested so that the change at Delivery Point No. 2 can be made effective as of July 1, 1976 and for Delivery Point No. 3 as of July 21, 1976. Duke Power states that a copy of the filing has been mailed to the customer.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 31, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24435 Filed 8-19-76;8:45 am]

[Docket No. ID-1424]

EDWIN I. HATCH

Application

AUGUST 12, 1976.

Take notice that on July 28, 1976, Edwin I. Hatch filed a supplemental application under Section 305(b) of the Federal Power Act to hold the following positions:

Chairman of the board and chief executive officer.	Georgia Power Co. (Georgia Power)[1].	Public utility.
Director	City Investing Co. (City).	Banking, manufacturing, insurance.
Do	The Home Insurance Co. (Home)[2]	Insurance company.

[1] Subsidiary of The Southern Co., a public utility holding company.
[2] Subsidiary of City Investing Co.

Home Capital Services, Inc. is a subsidiary of Home and is engaged in the underwriting of municipal securities. The Securities and Exchange Commission has taken the position that the business of Home Capital Services, Inc. makes City and Home "investment bankers." S.E.C. Rule 70(c) requires that Commission to defer to the Federal Power Commission's decision as to whether or not an officer or director of a public utility holding company or its subsidiary should be authorized to serve as an officer or director of an "investment banker."

Any person desiring to be heard or to make any protest with reference to such application should, on or before September 2, 1976, file with the Federal Power Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-464]

EQUITABLE GAS CO.

Notice of Application

AUGUST 12, 1976.

Take notice that on August 2, 1976, Equitable Gas Company (Applicant), 420 Boulevard of the Allies, Pittsburgh, Pennsylvania 15219, filed in Docket No. CP76-464 an application pursuant to Section 7 of the Natural Gas Act for permission for and approval of the abandonment of natural gas pipelines in Monongalia County, West Virginia, and Greene and Washington Counties, Pennsylvania, and for a certificate of public convenience and necessity authorizing the construction and operation of pipelines to replace, in whole or in part, those pipelines proposed to be abandoned, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to replace all or part of the following pipelines with 20-inch pipeline:

Applicant's transmission Line No.	Present diameter (inches)	Approximate length (miles)	Location
H-102	16	3.1	Greene County, Pa.
H-106	16	0.4	Do.
HM-107	16	5.7	Do.
H-111	16, 20	16.2	Greene and Washington Counties, Pa.
HM-115	16	5.0	Green County, Pa.
H-117	16	4.6	Do.
H-520	16	.1	Monongalia County, W. Va.

Applicant proposes to abandon the following pipeline in whole or in part:

Applicant's transmission line No.	Present diameter (inches)	Approximate length (miles)	Location
H-103	16	3.9	Greene County, Pa.
H-104	16	0.5	Washington County, Pa.
H-105	16	8.7	Greene County, Pa.
HM-115	16	10.9	Do.
H-116	16	2.1	Do.
H-118	16	.3	Washington County, Pa.
HM-132	12	9.8	Do.
H-142	12	.2	Greene County, Pa.
H-521	16	.1	Monongalia County, W. Va.

Applicant states that it proposes to replace or abandon the pipelines to (1) provide more efficient transmission of the existing gas supply, (2) reduce maintenance costs by eliminating approximately 71.6 miles of older, mechanically joined pipeline, of which 35.1 miles would be replaced with modern welded pipe and the remainder would be abandoned, (3) maintain the same delivery capacity as is now available with Applicant's present facilities at the existing maximum operating pressures, and (4) improve the reliability and safety of Applicant's transmission system.

The new facilities are estimated to cost $8,797,000.

The application indicates that service from existing facilities would be terminated to 37 direct sale customers as a result of the instant proposal. Further, the application indicates that Applicant would compensate these customers in cash up to $400 in lieu of continued service or, in some instances, would compensate the customers, in part, for the cost of connecting to other of Applicant's pipelines.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 2, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petiton to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedures herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24421 Filed 8-19-76;8:45 am]

[Docket No. E-9099]

ESSEX CO., ET AL.

Order on Rehearing and Ruling on Motions

AUGUST 13, 1976.

Applications for rehearing were filed by the Merrimac Paper Company (Merrimac) and the Essex Company (Essex or Applicants) on July 16, 1976, concerning our order of June 17, 1976, in this proceeding. In our order of June 17, 1976, we required several named companies to file an application for license for the Essex Project located on the Merrimack River in Lawrence, Massachusetts.

The Applicants argue that the permits referred to in Sections 23 (a) and (b) of the Act are not limited to Federal permits, but could also include the type of state authorization that the Applicants have received from the Commonwealth of Massachusetts. After consideration of the cases cited by the Applicants and the applicable case law, we reaffirm our finding in our order of June 17, 1976, that a Federal permit or right-of-way is required to exempt a project from our licensing requirements.

Essex argues that certain statutes[1] provide adequate authorization for the Essex Project to occupy the Merrimack River. The statutes, however, adopt the state laws as to the right to use the water, but do not authorize the use of the waterway. We authorize the use of the waterways for power projects and related facilities, but each licensee must obtain state authorization for the use of the water. Furthermore, the purpose of the statutes was to promote industrial growth of the Western States by recognition of pre-existing rights secured by expenditures of time and money. *U.S.* v. *Hunter*, 236 F. Supp. 178 (1964) affirmed in part, modified in part on other grounds, 388 F. 2d 148. The courts have said further that the purpose of the statutes was recognition of the necessity for the use of water upon the land which existed in the sections of the country to which the provisions were intended to be applicable. *Bogline* v. *Giorgetta*, 78 p. 612 (1904). The Supreme Court in discussing the Act July 26, 1866 (R.S. § 2339), found that it did not apply to hydroelectric project works. *Utah Power & Light Co.* v. *U.S.*, 243 U.S. 389, 405–406 (1917). Also, Pacific Gas & Electric Co., 29 FPC 1265 (1963). The Supreme Court has stated in discussing state water rights in relation with the Act:

> Riparian water rights, like other real property rights, are determined by state law. Title to them is acquired in conformity with that law. The Federal Water Power Act merely imposed upon their owners the additional obligation of using them in compliance with that Act. *F.P.C.* v. *Niagara Mohawk Power Corp.* 347 U.S. 239, 252 (1954)

Therefore, we conclude that the statutes did not confer Federal recognition of state jurisdiction over use of navigable waterways in the manner in which Essex argued.

Essex also argues that Section 10 of the Rivers and Harbors Act of 1890 allows continued operation without an FPC license. Section 10 provides that any obstruction in navigable waters not affirmatively authorized is prohibited. Essex claims that the section contains an exemption as to state-authorized facilities. Essex relies on *U.S.* v. *Bellingham Bay Boom Co.*, 176 U.S. 211 (1900) to support its theory. Although the Court found the Nooksack River to be navigable, the authority of the state governing obstructions was upheld. The Court, however, appeared to limit its holding to those waters "that are entirely within the confines of a single state." (at 215) The Merrimack River does not qualify within the limitation, because it rises in New Hampshire, then flows southerly into

[1] Local hearings should be thus limited, and there will be no change in venue.

[1] R.S. § 2339, derived from Act July 26, 1866, c. 262, § 9.14 Stat. 253, unofficially codified as 30 U.S.C. § 51 and 43 U.S.C. § 661.

V 41 H 163 AUG 20 76 UM

Massachusetts, making it an interstate waterway. Therefore, the holding in *U.S. v. Bellingham Bay Boom Co.* does not apply to this proceeding. Furthermore, in Section 10 of the Rivers and Harbors Act of 1899 (30 Stat. 1121, 1151), Congress clarified the definition of illegal obstructions to specify that those structures "not affirmatively authorized by Congress" were prohibited in our navigable waters.

The Applicants attempt to distinguish the cases that we cited in our order of June 17, 1976, as to the need for a Federal permit. For example, the Applicants state that there was an express assertion of jurisdiction over the Niagara River by Congress in *Niagara Falls Power Co. v. F.P.C.*, 137 F. 2d 787 (CA2–1943), *cert. denied*, 320 U.S. 792 (1943). For Congress to have jurisdiction over a river, the Congress need not so expressly state. The definition of navigable waters contained in Section 3(8) of the Act is ". . . parts of streams or other bodies of water over which Congress has jurisdiction under its authority to regulate commerce . . ." Congress has delegated its powers on the development of our Nation's water resources to the Federal Power Commission. *City of Tacoma v. Taxpayers of Tacoma et. al.*, 357 U.S. 320, 334 (1958). That delegation of authority includes the power to determine what waterways are within the jurisdiction of Congress. It has previously been determined that the Merrimack River is navigable and, therefore, under the jurisdiction of Congress. E.g., Concord Electric Company. 4 EPC 635 (1944). Therefore, we conclude that since we have determined that the Merrimack River is within the jurisdiction of Congress, there is no meaningful distinction from those instances where Congress itself had determined that a river is within its jurisdiction. The Applicants attempt to cloud the issue by stating that reconstruction of a project is a distinguishing characteristic in some of the cases. In *Northwest Paper Co. v. F.P.C.*, 344 F. 2d 47 (CA8–1965), the owner of the project had a Federal permit but reconstructed the project, invalidating the permit. The court held that because the owner no longer had a valid Federal permit, an FPC license was required. Thus, if an owner of a jurisdictional project does not hold a valid Federal permit issued prior to June 20, 1920, he is required to obtain an FPC license.

We believe that the language in the Act, "permit or valid existing right-of-way, granted prior to June 10, 1920," envisions a permit granted under Federal, not state, law. *Niagara Falls Power Co. v. F.P.C., supra; Wisconsin Public Service Corp. v. F.P.C.*, 147 F.2d 743 (CA7–1945). The Supreme Court has considered the relationship of state law and the Act considering navigable waters. The Court stated that the Act requires ". . . a federal license for every water power project in the navigable waters of the United States." *First Iowa Hydro-Electric Cooperative v. F.P.C.*, 328 U.S. 152, 172 (fn. 17) (1964).

Finally, Merrimac argues that we should reconsider the issue of requiring a Federal permit in light of a recent Supreme Court decision in *National League of Cities v. Usery*, No. 74–878, 44 U.S.L.W. 4974 (U.S. June 24, 1976). The Court found that the statute in question interfered with the right of state control in areas of traditional functions and that the statute was not within the authority granted to Congress by the Commerce Clause. The Supreme Court has stated many times that it is no longer an open question that the Federal Government has preeminent control over navigable waterways. *City of Tacoma v. Taxpayers of Tacoma, et al, supra; U.S. v. Appalachian Power Co.*, 311 U.S. 377, 424 (1940); *First Iowa Hydro-Electric Cooperative v. F.P.C.*, supra, at 173. We conclude that the decision in *National League of Cities v. Usery, supra*, contains no findings that would require us to re-examine our decision on Federal permits. Therefore, we find no basis in law for the argument that a state permit is sufficient for the continued operation and maintenance of the Essex Project.

The Applicants argue that the Supreme Court limited our jurisdiction to hydroelectric facilities[2] in *Chemehuevi Tribe of Indians et al. v. F.P.C. et al.*, 420 U.S. 395 (1975). The question before the Court was whether or not thermal-electric power plants were within our licensing jurisdiction. The question of hydromechanical power was not before the Court. It appears, however, from the Court's opinion that it was using the term "hydroelectric" to refer to those facilities that utilize the movement of water to produce power, be it electric or mechanical.[3] For example, in its application for rehearing, Merrimac states, "The Court also states 'the Commission has consistently maintained that its licensing authority extends only to hydroelectric projects.'" The Court actually stated, ". . . the Commission's consistent interpretation of that authority as not including jurisdiction over the construction and operation of thermal-electric power plants." (at page 408) When the Court concluded that we had licensing authority with respect to hydroelectric projects, the Court quoted from the FPC, 1st Annual Report 51–52 (1921):

> • • • the Commission is limited to the consideration of projects designed to produce water power. Structures or diversions having any other purpose, unless incidental to works constructed for power purposes or a necessay part of a comprehensive scheme of development, are not within the jurisdiction of the Commission.

Thus, it appears that when the Court made reference to "hydroelectric" it was referring to those projects "designed to produce water power". We, therefore, conclude that nothing in the Court's opinion deprives us of our jurisdiction over hydromechanical developments.

Essex argues that Section 23(b) of the Act limits our jurisdiction to those facilities that produce hydroelectric energy. It appears, however, that when the language ". . . for the purpose of developing electric power . . ." was added to the section, its purpose was to make clear that the licensing of dams and ditches for irrigation purposes would not be required. 79 Cong. Rec. 8945 (June 10, 1935). Thus, the language in Section 23(b) was intended to exempt those irrigation projects where there were no related power facilities, but not to exempt hydromechanical facilities.

Our action both past and present indicates a continuig practice of licensing a jurisdictional hydromechanical development and a continuing belief that it is in our authority to do so. In *Tomahawk Power Co.*, 22 FPC 1 (1959) the licensed project included three units that supplied mechanical energy directly to wood pulp grinders. Also, *e.g. Consolidated Water Power Co.*, 22 FPC 638 (1959); *Portland General Electric Co. et al.*, 23 FPC 831 (1960). Since the Court's decision in *Chemehuevi Tribe of Indians v. F.P.C.*, we have continued our practice of licensing hydromechanical facilities. Order Issuing License (Major) Project No. 2536, issued April 29, 1975, to Niagara of Wisconsin Paper Corp. We find no compelling reason to deviate from the practice of licensing hydromechanical facilities.

It was argued that the Essex dam should not be included in the licensing requirement, because there are no power facilities located at the dam. The dam, however, is hydraulically connected to the power facilities downstream. *See* Finding No. 5 of our order of June 17, 1976. These power facilities could not operate in the manner that they do but for the presence of the Essex dam and reservoir. We have previously licensed projects that are reservoirs only, but provide stream flow regulation or water power to downstream power facilities. For example, Project No. 2492 regulates the discharge of water for hydroelectric development some 25 miles downstream from the dam and for a hydroelectric and hydromechanical power plant about 37 miles downstream from the dam. *St. Croix Paper Co.*, 35 FPC 458 (1966) also, *Southern California Edison Co.*, 12 FPC 1267 (1953). Therefore, we conclude that the Essex dam should be included in a license application for the Essex Project.

The Applicants argue that we were in error in not consulting the Advisory Council on Historic Preservation prior to the issuance of our order, because various components of the project have been nominated to the National Register of Historic Places, and the North Canal is listed in the National Register. We are required to consult with the Advisory Council prior to the licensing of a project, not prior to requiring an application for license to be filed. See, 16 U.S.C. § 470f. Until a completed application for license is filed, there is nothing to transmit to the Advisory Council on which to comment. Before a license would be issued, we would consult with the Advisory Council, but at the current stage of the proceeding such consultation would be premature.

[2] It is noted that in Essex's application for rehearing, Essex admits that four of the developments are hydroelectric.

[3] This would include conventional hydro, pumped-storage and hydromechanical plants.

The Applicants argue that proper procedures have not been followed by this Commission, depriving the various parties of certain rights. The applicants claim that they were led to understand by certain Commission employees that an evidentiary hearing or a stipulation of facts would be presented before any Commission action would be taken in this proceeding. The applications for rehearing are the only written filings that requested an evidentiary hearing or some type of oral presentation. No employee of this Commission can speak for the Commission and we are not bound by any representations that may have been made to the Applicants. We cannot know of a party's desire to request an evidentiary hearing unless the party pleads such. Since it appeared that there were no factual disputes relating to jurisdiction, primarily because of our previous finding of navigability, an evidentiary hearing was not necessary.

The Applicants and the various other parties were given every opportunity to present their position in this proceeding. In a letter dated May 17, 1974, the Applicants among others were requested to file an application for license for the Essex Project. None responded to the letter. The parties were given another opportunity to present their views in responses to the Order to Show Cause issued November 8, 1974. Responses were filed which we considered and dealt with in our order of June 17, 1976. The Applicants filed applications for rehearing, providing another opportunity to be heard. In none of these instances has a factual issue[4] been raised concerning our jurisdiction over the Essex Project. We have provided several opportunities for the parties to be heard, and therefore, we find no reason to hold an evidentiary hearing in this proceeding.

The Applicants claim that we took official notice of facts not contained in the responses to the Order to Show Cause, and cite Section 1.26(d) of the Rules and Regulations [18 C.F.R. § 1.26(d)] as authority. It appears that the Applicants are concerned about the project description. The project description contained in the order of June 17, 1976, is not binding, but was included to in some way identify the project. The parties are required in their application for license to provide an accurate description of the project. The description is not binding until it has been approved as part of the license.

The Applicants state in their applications for rehearing that the Essex Development Associates is conducting a feasibility study to be completed December 31, 1976, concerning the installation of hydroelectric facilities at the Essex dam. On July 16, 1976, the Applicants filed motions to stay our order in this proceeding. Rowland Industries also filed on July 26, 1976, a motion to stay our order pending the results of the possible feasibility studies conducted by the Essex Development Associates. We believe that there might be unnecessary duplication of work if the various parties were to file their applications for license prior to completion of the feasibility studies. Therefore, we will require the filing on or before January 17, 1977, of a timetable setting forth when an application for license is expected to be filed and what portions of the Essex Project are to be included in the redevelopment. If it should be determined that the installation of hydroelectric facilities at the dam will not be forthcoming, then applications for license should be filed for the Essex Project on or before March 18, 1977. For those portions of the project that will not be included in the redevelopment, or those owners that would prefer to file an individual application for license, the applications for license should be filed on or before March 18, 1977. Since we have altered the date for the filing of the applications for license, we are denying the motions for stay.

The Commission finds: (1) Except as hereinafter provided, the applications for rehearing present no facts or legal arguments which require any change in our order of June 17, 1976, in this proceeding.

(2) It is appropriate and in the public interest that the applications for license for the Essex Project be filed by March 18, 1977, as discussed above.

(3) The motions for stay of the proceedings should be denied.

The Commission orders: (A) The applications for rehearing of the Essex Company and the Merrimac Paper Company are hereby denied.

(B) The motions for stay filed by the Essex Company, the Merrimac Paper Company, and Rowland Industries are hereby denied, except that applications for license for the Essex Project shall be filed by March 18, 1977.

(C) The Applicants shall file by January 17, 1977, a timetable as to the filing of an application for license for the redevelopment at the Essex Dam, or a statement that redevelopment at the Essex Dam is not forthcoming.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24436 Filed 8-19-76;8:45 am]

[4] In the applications for rehearing, points were raised that the reservoir supplies water to the City of Lawrence and that the owners might be required to install fish facilities at the dam, but these points do not relate to our jurisdiction.

[Docket No. E–7512]

ILLINOIS MUNICIPAL UTILITIES ASSOCIATION VS. ILLINOIS POWER COMPANY, CENTRAL ILLINOIS PUBLIC SERVICE COMPANY, AND UNION ELECTRIC COMPANY, ET AL.

Order Accepting Settlement Agreement

AUGUST 12, 1976.

On December 4, 1974, the Presiding Administrative Law Judge certified to the Commission several executed interconnection agreements[1] and an unexecuted interconnection agreement[2] which had been tendered as offers of settlement by Illinois Power Company (IP) and Central Illinois Public Service Company (CIPS) of certain issues pending Commission decision in Docket No. E–7514. On August 15, 1975, the Presiding Judge issued a "Supplemental Certification of Settlement Agreement," wherein an executed interconnection agreement between CIPS and the City of Bushnell, Illinois was certified as an offer of settlement between those parties. Notice of the certification of these settlement agreements was issued by the Commission on September 24, 1975.

The complaint in Docket No. E–7512 was filed by the Illinois Municipal Utilities Association (IMUA) to seek certain terms for the sale and exchange of electric energy on behalf of a number of municipalities, including those in Docket No. E–7514. The complaint in Docket No. E–7514 was filed by various municipal systems (Cities) in Illinois pursuant to Section 202(b) of the Federal Power Act, 16 U.S.C. 824a(b), to seek interconnections with IP and CIPS. These complaints were consolidated for purposes of a hearing and a decision. At a prehearing conference on July 13, 1971, the Presiding Administrative Law Judge phased these consolidated proceedings, and cross-examination in Docket No. E–7514 began on May 8, 1972, and was concluded on May 22, 1972. The second phase, the complaint in Docket No. E–7512, was held in abeyance pending determination of the appropriate terms and conditions of the proposed 202(b) interconnections, if found to be in the public interest by the Commission.

Of the original complaint Cities in Docket No. E–7514, only the Cities of Altamont and Red Bud, Illinois, do not now have valid and binding interconnection agreements with either IP or CIPS. The Commission has accepted IP's filed interconnection agreements with Breeze and Carlyle (ER76–372), Freeburg

[1] The Presiding Judge certified agreements between IP and Cities of Breese, Caryle, Highland, Mascoutah, Peru, Princeton, Waterloo, and the Village of Freeburg. Also certified was an interconnection agreement between CIPS and the City of Sullivan.

[2] Red Bud, Illinois did not execute the interconnection agreement tendered to it by IP.

VOL 41 NO 163 AUG 20 76 UM

(ER76–143), Highland (ER76–455), Mascautah (ER76–407), Peru (ER76–330), and Princeton, Illinois (ER76–298). IP has not filed its executed interconnection agreement with the City of Waterloo, Illinois. The City of Altamont has abandoned its generating plant and is currently a wholesale customer of CIPS. The City of Red Bud has not executed the interconnection agreement tendered to it by IP because of the uncertainty of its plans. However, the certification of the unexecuted agreement between IP and Red Bud will settle all pending issues between these parties in Docket No. E–7514 with the understanding that the tendered interconnection agreement will remain open as a continuing offer of service for a reasonable time.

The complaint in Docket No. E–7512 has not proceeded to hearing. IMUA filed its complaint in that Docket on behalf of a number of municipalities, including all of those covered in Docket No. E–7514, seeking certain terms for the sale and exchange of electric energy. The City of Springfield, Illinois was one of the municipalities represented by IMUA. Springfield is not a party to the Docket No. E–7514 proceeding. The Presiding Administrative Law Judge, in his Certification of Settlement Agreements in Docket No. E–7514 noted:

> A settlement in the later docket [Docket No. E–7514], would dispose of Docket No. E–7512, except insofar as the City of Springfield is involved. Certification, p. 2.

By letter dated April 11, 1975, IP submitted for filing with the Commission an executed interconnection agreement with the City of Springfield which was designated in FPC Docket No. E–9373. The Commission accepted the filing which became effective on May 12, 1975. On July 16, 1975, IMUA filed a "Petition to Withdraw Complaint" with the Commission. It stated in part:

> Because of the settlement that has been reached between the parties in the Docket E–7514 proceedings, and the agreement between Illinois Power Company and the City of Springfield, Illinois for an interconnection agreement, the complainant does not deem it necessary or desirable to prosecute the complaint in this proceeding . . .

The execution of these various interconnection agreements substantively moots all outstanding legal issues pending initial decision in the Docket No. E–7514 proceeding. We therefore terminate that proceeding with respect to all parties now governed by a binding and effective interconnection agreement. We also terminate that proceeding with respect to the controversy between the City of Red Bud, Illinois, and IP without prejudice. If IP fails to abide by its representation that the unexecuted interconnection agreement submitted in offer of settlement constitutes a continuing offer of service by IP to Red Bud for a reasonable time,[1] Red Bud may refile under Section 202(b) of the Federal Power Act.

[1] Subject to change in rates prior to acceptance.

We hereby order IP to file the executed interconnection agreement between itself and the City of Waterloo, Illinois. We also order CIPS to file the executed interconnection agreements between itself and the Cities of Bushnell and Sullivan, Illinois. These agreements should be filed as initial rates in accordance with the Commission's Rules governing the filing of initial rates, 18 CFR 35.0 et seq. If, after due notice in the FEDERAL REGISTER and examination by Commission staff, it appears that these agreements may not be consistent with the Federal Power Act, we will at that time order an investigation into the merits of these contracts. We emphasize that by our action today, we are not accepting these contracts for filing as effective initial rates. Such disposition must necessarily await full and complete compliance with the filing regulations of the Commission.

The Commission finds: (1) Good cause has been shown for the Commission to grant permission, pursuant to 18 C.F.R. 1.11(d), to complainant in Docket No. E–7512 to withdraw with prejudice its pleading therein.

(2) The execution of interconnection agreements between Illinois Power Company and the Cities of Breeze, Carlyle, Freeburg, Highland, Mascoutah, Peru, Princeton, and Waterloo, Illinois, settles on the merits and moots all issues pending decision in Docket No. E–7514 involving these parties.

(3) The submittal by Illinois Power Company of an unexecuted interconnection agreement for service to Red Bud, Illinois along with that company's record representation that such agreement subject to change in rates prior to acceptance, is a continuing offer to service upon stated terms for a reasonable time constitutes an adequate and reasonable resolution of all issues between these parties in Docket No. E–7514.

(4) The execution of interconnection agreements between Central Illinois Public Service Company and the Cities of Sullivan and Bushnell, Illinois settles on the merits and moots all issues pending decision in Docket No. E–7514 between these parties.

The Commission orders: (A) Complainant, Illinois Municipal Utilities Association, is granted permission to withdraw its pleadings with prejudice in Docket No. E–7512.

(B) Within 30 days of this order Illinois Power Company shall file the executed interconnection agreement between the City of Waterloo, Illinois and itself.

(C) Within 30 days of the issuance of this order, Central Illinois Public Service Company shall file the executed interconnection agreements between itself and the Cities of Bushnell and Sullivan, Illinois.

(D) Proceedings in Docket Nos. E–7512 and E–7514 are hereby terminated.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76–184]

KANSAS CITY POWER & LIGHT CO.

Filing of Proposed Settlement Agreement

AUGUST 13, 1976.

Take notice that on August 2, 1976 Kansas City Power & Light Company (KCPL) tendered for filing a proposed Settlement Agreement dated July 19, 1976. KCPL states that the Settlement Agreement will resolve all issues in this proceeding except one which is specifically reserved for hearing and decision.

KCPL also filed, contemporaneously with the filing of the proposed Settlement Agreement, Reduced Schedules of Rates and Charges. KCPL requests that, upon the condition that the proposed Settlement Agreement be approved by the Commission, the Reduced Schedules be accepted and made effective as of March 2, 1976.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before August 27, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24437 Filed 8–19–76;8:45 am]

[Docket No. CP75–57]

KANSAS-NEBRASKA NATURAL GAS COMPANY, INC.

Amendment to Application

AUGUST 12, 1976.

Take notice that on July 27, 1976, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), 300 North St. Joseph Avenue, Hastings, Nebraska 68901, filed in Docket No. CP75–57 an amendment to its application filed in said docket pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity requesting authorization to install, over a two-year period, the facilities required to gather gas from the Bowdoin field area of north central Montana and to deliver such gas to Montana-Dakota Utilities Company (MDU) pursuant to a Gas Sales, Transportation and Exchange Agreement, dated May 10, 1974, including gas presently being delivered under temporary certificates in this proceeding, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that its application in this proceeding sought authorization to expend not in excess of $18,000,000 over a three-year period for the construction and operation of a completed system to connect and gather natural gas as it became available from Midlands Gas Corporation (Midlands) and other producers in the Bowdoin area of Phillips and Valley Counties, Montana, and to sell, transport and exchange gas with MDU pursuant to the May 10, 1974, agreement. Applicant further states that in its application it was indicated that the facilities shown by Exhibit F and Exhibit G thereto were for illustrative purposes and that the facilities actually constructed were contingent upon the drilling activities of Midlands and other producers in the area of dedicated acreage. Applicant asserts that it now has sufficient location information, production data and test data on which it can base a factual design and, therefore, amends its application so as to reflect such information and data.

It is indicated that under temporary certificates in this proceeding, Applicant has constructed gathering facilities which connect 19 Midlands wells and 3 Miami Oil Producers, Inc., wells and has completed delivery facilities, including dehydration equipment necessary to deliver gas to MDU pursuant to the agreement of May 10, 1974.

Applicant asserts that the facilities proposed herein are designed to serve the additional wells and have adequate pipeline capacity to accommodate the future connection of commercial wells available to the dedicated acreage area. In order to connect the wells that are presently available, including those connected under temporary certificates, and to gather the gas available from such wells in an efficient and economical manner, Applicant proposes the construction and operation of two gathering facilities referred to as the North System and the South System. The facilities required in addition to those authorized under temporary certificates are stated to be as follows:

A. Installation of approximately:

1. 19.1 miles of 12-inch intermediate pressure gathering line.
2. 13.0 miles of 10-inch intermediate pressure gathering line.
3. 3.6 miles of 8-inch low pressure gathering lines.
4. 41.1 miles of 6-inch low pressure gathering lines.
5. 79.3 miles of 4-inch low pressure gathering lines.

B. Approximately 1,820 installed horsepower at nine field gathering stations.

C. Approximately 10 central point production meters and approximately 30 individual well meters complete with appurtenances and enclosed in a protective housing.

D. Delivery point facilities at 3 locations consisting of measuring, regulating, dehydration equipment, and other appurtenances enclosed in a protective housing.

The amendment indicates that the proposed additional facilities are estimated to cost $7,996,000.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before September 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons having filed before need not do so again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24422 Filed 8–19–76;8:45 am]

[Project No. 539]

KENTUCKY UTILITIES CO.

Issuance of Annual License(s)

AUGUST 12, 1976.

On July 16, 1973, the Kentucky Utilities Company, Licensee for Lock No. 7 Hydroelectric Project No. 539, located on the Kentucky River in Mercer County, Kentucky, filed an application for a new license under the Federal Power Act and Commission regulations thereunder.

The license for Project No. 539 was issued effective August 19, 1926, for a period ending August 18, 1976. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending Commission action on licensee's application, it is appropriate and in the public interest to issue an annual license to the Kentucky Utilities Company.

Take notice that an annual license is issued to the Kentucky Utilities Company under the Federal Power Act for the period August 19, 1976, to August 18, 1977, or until Federal takeover, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Project No. 539, subject to the terms and conditions of the present license. Take further notice that if Federal takeover or issuance of a new license does not take place on or before August 18, 1977, a new annual license will be issued each year thereafter, effective August 19 of each year, until such time as Federal takeover takes place or a new license is issued, without further notice being given by the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24432 Filed 8–19–76;8:45 am]

[Docket No. ER76–781]

MICHIGAN POWER CO.

Order Accepting for Filing and Suspending Proposed Tariff Sheets, Denying Waiver, and Granting Interventions and Establishing Procedure

AUGUST 12, 1976.

On July 14, 1976 Michigan Power Company (MPCo) tendered for filing revised sheets[1] to its FPC Electric Tariff MRS, Original Volume No. 1. MPCo's tender proposed a two-step increase in rates for its wholesale for resale service to the City of Dowagiac and the Village of Paw Paw; a modification of its fuel clause to conform to Section 35.14 of the Commission's Regulations; and, an increase in the minimum monthly billing demand. For the reasons hereinafter stated, the Commission shall deny waiver of the notice requirement for the first step of MPCo's proposed increase, suspend the second step for two months and accept the proposed fuel clause, and grant intervention.

MPCo proposes a two-step increase in rates by this filing. First Revised Sheet No. 6, proposed to be effective on July 26, 1976, is designed to recover increased purchase power costs from Indiana and Michigan Electric Company which result from the Commission's order of June 25, 1976 in Docket No. ER76–714 et al. Second Revised Sheet No. 6, proposed to be effective August 13, 1976, is designed to recover increased costs of capital and increased costs of providing electric service in addition to increased purchased power costs.

MPCo requests waiver of the notice requirement, as provided by Section 35.11 of the Commission's Regulations, in order to allow First Revised Sheet No. 6 to become effective July 26, 1976. In support of its request, MPCo states that if not granted, it will be required to bear the total increased power costs from July 26, 1976 to the dates its proposed rates under Second Revised Sheet No. 6 become effective. MPCo states further that the volume of work required to prepare its cases before the Michigan Public Service Commission in relation to the size of its staff prevented the filing from being tendered sooner. Finally, MPCo claims that if waiver is not granted the City of Dowagiac and the Village of Paw Paw will not be paying their "fair share of MPCo's cost of electric energy services" for the period before the proposed rates become effective.

Public notice of MPCo's increase was issued on July 20, with comments, protests or petitions to intervene due on or before August 6, 1976. On August 5, 1976 a Protest, Petition to Intervene, Request For Hearing and Five Month Suspension and Request for Conditions was filed by the City of Dowagiac (Dowagiac). Dowagiac states that it will be directly and adversely affected by MPCo's proposed changes and that its interests cannot be represented adequately by other parties and, therefore, it requests to intervene in the proceeding. Dowagiac stated also that it competes directly with MPCo for retail customers and that it cannot pass through MPCo's rate increase until approved by the Michigan Public Service Commission. Dowagiac claims this "creates an immediate price squeeze which will severely damage the City's ability to retail its commercial and residential loads." Dowagiac requests a full five month suspension in view of this. Dowagiac requests that waiver of the 30-day notice requirement not be granted. It requests also that "the Commission

[1] First Revised Sheet No. 1; Second Revised Sheet No. 6; First Revised Sheet No. 7; First Revised Sheet No. 8.

VOL 41 NO 163 AUG 20 76 UM

investigate whether it should order direct service by I&M as an alternative to paying an unconscionable mark-up to MPC." Dowagiac challenges the rate of return, cost of service items included in MPCo's filing and the proposed fuel clause. Dowagiac requests finally that the Commission condition a determination of the just and reasonable level in this case with these provisions: "MPC shall (1) reduce its rate and charges to Dowagaic to reflect any reductions in its cost of purchased power from I&M and (2) flow-through to its wholesale customers their proper allocated share of any refunds ordered in this docket."

Many of the issues raised in Dowagaic's Protest are properly the subject for further development and consideration at hearing rather than at this stage of the proceeding. This order does deny waiver of the notice requirement for MPCo's proposed first step increase. The decision to suspend is discretionary and the Commission does not believe a full five month suspension is warranted in this case. The Commission does not agree that the explicit conditions suggested by Dowagaic need be applied here. As noted, MPCo's proposed increase includes purchased power costs from Indiana and Michigan; to the extent that such increased costs are not allowed to Indiana and Michigan, they could not be charged by MPCo, therefore, MPCo's rates would be reduced accordingly. To the extent that the wholesale customers are paying increased rates due to purchased power costs or for other proposed increases, any refunds, resulting from the final determination of the just and reasonable rate for MPCo will flow back to these wholesale customers.

A Petition to Intervene of the Village of Paw Paw was received on August 9, 1976.

Section 35.11 of the Commission's Regulations reads, in part: "for good cause shown, the Commission may, by order, provide that a rate schedule, or part thereof, shall be effective as of a date . . . prior to the date the rate schedule would become effective in accordance with these rules." MPCo requests waiver under this Section for First Revised Sheet No. 6 which would be effective only from July 26, 1976 to August 14, 1976 at which time Second Revised Sheet No. 6 becomes effective. First Revised Sheet No. 6 is designed to recover only the increased purchase power costs of Indiana & Michigan Electric Company. The Commission found that Indiana & Michigan's proposed rates in Docket No. ER76-714 had not been shown to be just and reasonable and, therefore, they are being collected subject to refund. MPCo's proposed rates under First Revised Sheet No. 6 have also not been shown to be just and reasonable. Thus MPCo is protected from overcollection by Indiana & Michigan by the refund provisions of the Commission's order. Furthermore, the period during which MPCo claims it is absorbing the increased costs is relatively short. Accordingly, because good cause has not been shown, the Commission shall not grant waiver under Section 35.11 in order to permit MPCo's filing to become effective prior to the end of the required notice period.

The Commission's review of Second Revised Sheet No. 6 indicates that it is designed to recover the increased purchase power costs and other increased costs which MPCo claims. MPCo proposes an effective date of August 13, 1976 for the Second Revised Sheet. MPCo's proposed rates under Second Revised Sheet No. 6 have not been shown to be just and reasonable and, therefore, they may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, the Second Revised Sheet No. 6 should be accepted for filing and suspended for two months.

MPCo tendered also First Revised Sheet No. 7 and First Revised Sheet No. 8 which are designed to change MPCo's fuel adjustment clause to conform to Section 35.14 of the Commission's Regulations. The Commission's review of MPCo's proposed fuel clause indicates that it does conform to Section 35.14. First Revised Sheet No. 7 and First Revised Sheet No. 8, therefore, should be accepted for filing.

The Commission finds: (1) Good cause does not exist for waiver of the notice requirements under Section 35.11 for MPCo's proposed First Revised Sheet No. 6.

(2) MPCo's Second Revised Sheet No. 6 should be accepted for filing and use thereof suspended for two months.

(3) MPCo's First Revised Sheet No. 7 and First Revised Sheet No. 8 should be accepted for filing and suspended use thereof for two months.

(4) Good cause exists to allow Dowagaic and Paw Paw to intervene in this proceeding.

The Commission orders: (A) MPCo's request for waiver of the notice requirement is hereby denied.

(B) Second Revised Sheet No. 6, First Revised Sheet No. 7 and First Revised Sheet No. 8 are hereby accepted for filing and the use thereof suspended for two months, or until October 13, 1976, at which time they may become effective, subject to refund, pending the outcome of the litigation thereon.

(C) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates, charges, terms, and conditions of service included in MPCo's FPC Electric Tariff MRS as proposed to be revised by the subject filings.

(D) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before January 26, 1977. (See Administrative Order No. 157.)

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(F) MPCo shall file monthly with the Commission the report on billing determinants and revenues collected under the presently effective rates and the proposed increased rates filed herein, as required by Section 35.19a of the Commission Regulations, 18 CFR Section 35.19a.

(G) Dowagaic and Paw Paw are hereby permitted to intervene in this proceeding, *Provided, however*, that participation by them shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene; and *Provided, further*, that the admission of these parties shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(H) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER and shall serve a copy thereof on the wholesale customers of Michigan Power Company.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24433 Filed 8-19-76;8:45 am]

[Docket No. RP72-149 PGA 76-12]

MISSISSIPPI RIVER TRANSMISSION CORP.

Proposed Change in Rates

AUGUST 13, 1976.

Take notice that Mississippi River Transmission Corporation (MRT) tendered for filing Forty-Fourth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1. MRT states this is being made pursuant to track a rate change filing of Natural Gas Pipeline Company of America made pursuant to the term of the PGA provisions of its tariff.

MRT proposes an effective date of September 1, 1976 for this filing. MRT states that copies of the filing were served on its jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Comission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure filed on or before August 31, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24438 Filed 8-19-76;8:45 am]

[Docket No. CP76-467]

MICHIGAN WISCONSIN PIPE LINE CO.

Application

AUGUST 12, 1976.

Take notice that on August 3, 1976, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP76-467 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(c) of the Regulations thereunder (18 CFR 157.7(c)) for a certificate of public convenience and necessity authorizing the construction, during the 12 month period commencing October 1, 1976, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any change in gas sales or transportation service presently rendered by Applicant. Applicant states that the proposed facilities would not exceed a total cost of $300,000, which would be financed with funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in the subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 76-24423 Filed 8-19-76;8:45 am]

[Docket No. ER76-827]

MINNESOTA POWER & LIGHT CO.

Proposed Changes in Rates and Charges

AUGUST 12, 1976.

Take notice that Minnesota Power & Light Company (MP&L) on July 30, 1976, tendered for filing proposed changes in its rates and charges to seventeen municipal customers, one privately-owned electric system customer and two rural electric cooperative customers, as embodied in MP&L's proposed Rate Schedule No. 88, applicable to its full requirements municipal and privately-owned electric system customers, and proposed Rate Schedule No. 89, applicable to its electric cooperative customers. In addition, MP&L has filed for an increase to 4.30 mills per kilowatthour in the transmission service rates applicable to the City of Wadena, Minnesota. The proposed changes would increase revenues from jurisdictional sales and service by $1,939,505 based on the twelve-month period ending August 30, 1976.

During 1975, MP&L states that it earned a rate of return of 8.53% from service to its full requirements municipal customers, 7.99% from its rural electric cooperative customers, 8.32% from its privately-owned electric system customer, and 10.05% from its wheeling customers. Based on the data presented in the Company's filing relative to the 1976 test period, it is expected that these rates of return will be 8.03%, 7.52%, 7.47 and 9.51%, respectively, in 1976 in the absence of rate relief. The proposed rates are designed to enable MP&L to improve the rate of return earned from its service to these jurisdictional customers, which the Company believes is necessary if it is to attract the amounts of capital necessary to provide adequate service to these customers.

Copies of the applicable portions of the filing have been served upon MP&L's jurisdictional customers. Copies have also been mailed to the Minnesota Public Sevice Commission and the Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commision's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 31, 1976. Protest will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24424 Filed 8-19-76;8:45 am]

[Project No. 346]

MINNESOTA POWER AND LIGHT CO.

Issuance of Annual License(s)

AUGUST 12, 1976.

On August 13, 1970, Minnesota Power and Light Company, Licensee for Blanchard Project No. 346, located on the Mississippi River below Pike Rapids in Morrison County, Minnesota, filed an application for a new license under the Federal Power Act and Commission regulations thereunder.

The license for Project No. 346 was issued effective August 25, 1923, for a period ending August 24, 1973. Since the original date of expiration, the project has been maintained and operated under annual licenses, the most recent of which will expire August 24, 1976. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending Commission action on licensee's application, it is appropriate and in the public interest to issue an annual license to Minnesota Power and Light Company.

Take notice that an annual license is issued to Minnesota Power and Light Company under the Federal Power Act for the period August 25, 1976, to August 24, 1977, or until Federal takeover, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Blanchard Project No. 346, subject to the terms and conditions of the present license. Take further notice that if Federal takeover or issuance of a new license does not take place on or before August 24, 1977, a new annual license will be issued each year thereafter, effective August 25 of each year, until such time as Federal takeover takes place or a new license is issued, without further notice being given by the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-785]

MONONGAHELA POWER CO.

Order Accepting for Filing and Suspending Proposed Rate Changes, Establishing Procedures, and Granting Intervention

AUGUST 13, 1976.

On July 15, 1976, Monongahela Power Company (Monongahela) tendered for filing proposed changes in its FPC Elec-

V 41 163
AUG 20 76
UMI

tric Tariff [1] for wholesale electric service.[2] For the reasons set forth below, the Commission shall accept the tendered tariff sheets for filing, suspend the proposed rates for one month to be collected thereafter subject to refund, and establish hearing procedures.

The proposed changes would increase revenues from jurisdictional sales and service by $284,328 (16.7%), based on the year ended June 30, 1977. The proposed effective date is August 14, 1976. Monongahela states in its filing that it requests the proposed rate increase because it is experiencing increases in the cost of capital, labor, materials and supplies.

Public notice of the filing was issued on July 28, 1976, with petitions or protests due on or before August 3, 1976.

On August 3, the Cities of New Martinsville and Philippi, West Virginia, and Harrison Rural Electrification Association, Inc. (Petitioners) filed a Protest, Petition to Intervene, Objection, and Request for Maximum Suspension Period.

Petitioners state that they are subject to regulation by the West Virginia Public Service Commission and may not increase their retail rates so as to pass through the proposed wholesale rate increase without an order of approval issued by that Commission following 30 days' public notice. Moreover, the state Commission will not act on Petitioners' request until after the Federal Power Commission issues its order allowing the wholesale rate increase to become effective. Petitioners argue that, since they provide about six-tenths of one percent of the total revenues of Monongahela, the suspension of the proposed rate for five months will have a *de minimis* effect on Monongahela.

Petitioners state that a "price squeeze" situation may exist, based on a preliminary comparison of the proposed wholesale rates with the equivalent retail rates charged by the Company in West Virginia. Petitioners therefore reserve their rights with respect to this issue until their analysis is complete.

Petitioners also raise a number of cost of service issues, which are summarized as follows: (1) The absence of testimony and exhibits in support of the Company's requested rate of return of 9.52%; (2) the Company's method of allocating distribution plant; (3) the demand and energy losses used by the Company in calculating the energy allocation factor; (4) the consolidated federal income tax return; (5) the effect on cost allocations of abnormal conditions in the test year; (6) the annualization of certain wage and salary increases; (7) the rate of capitalization for AFUDC (allowance for funds used during construction).

In addition, Petitioners allege that Monongahela has failed to provide a utility grade of reliable service to its customers. Petitioners cite problems of frequent outages, unreliable service, poor communications between Company and customer, and the Cooperative's failure to obtain Monongahela's permission to build a new delivery point which the Cooperative claims it needs to maintain proper service voltage.

The Commission's review indicates that the proposed rates filed herein by Monongahela have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. The Commission shall therefore suspend the proposed rates for one month and shall establish hearing procedures.

The Commission finds: (1) Good cause exists to accept for filing Monongahela's proposed increased rates filed July 15, 1976, and to suspend those rates for one month until September 15, 1976, when they may be permitted to become effective, subject to refund, pending the outcome of a hearing and decision thereon.

(2) Participation by the Cities of New Martinsville and Philippi, West Virginia, and Harrison Rural Elcetrification Association, Inc., in this proceeding may be in the public interest.

The Commission orders: (A) Pending a hearing and decision thereon, Monongahela's proposed rate schedules are hereby accepted for filing and suspended from operation for one month, to become effective September 15, 1976, subject to refund.

(B) The Cities of New Martinsville and Philippi, West Virginia, and Harrison Rural Electrification Association, Inc., are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* that participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, and the Commission's Rules and Regulations, a hearing shall be held concerning the justness and reasonableness of the subject rate increase.

(D) The Commission Staff shall prepare and serve top sheets on all parties for purposes of settlement on or before February 14, 1977. (See Administrative Order No. 157).

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(F) Monongahela shall file monthly with the Commission the report on billing determinants and revenues collected under the presently effective rates and the proposed increased rates filed herein, as required by Section 35.19a of the Commission's Regulations, 18 CFR Section 35.19a.

(G) The Secretary shall cause prompt publication of this order to be made in the Federal Register.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-460]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Application

AUGUST 12, 1976.

Take notice that on August 2, 1976, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-460 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing October 1, 1976, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally co-extensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $10,000,000, with no single on-shore project to exceed a cost of $1,500,000 and no single offshore project to exceed a cost of $2,500,000. These costs would be financed with funds on hand.

Applicant states that its existing budget-type authorization in Docket No. CP76-80 is effective during the calendar year 1976 and that Applicant desires to change the period of authorization so that it coincides with Applicant's fiscal construction budget which will commence on October 1, 1976. Accordingly, Applicant requests that the authorization requested in the instant application commence October 1, 1976, and states that on that date Applicant will terminate its use of the authorization issued in Docket No. CP76-80.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 2, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24425 Filed 8-19-76;8:45 am]

[Docket No. ER76-826]

PENNSYLVANIA POWER & LIGHT CO.

Proposed Rate Changes

AUGUST 12, 1976.

Take notice that Pennsylvania Power & Light Company (PP&L), on July 30, 1976, tendered for filing proposed changes in its Rate Schedule FPC Nos. 28, 32, 45, 50, 51, 54, 55, 56, 57, 58, 59, 60, 63, 65, and 61, applicable to the Boroughs of Watsontown, Duncannon, Blakely, Weatherly, Schuylkill Haven, Perkasie, Mifflinburg, St. Clair, Catawissa, Ephrata, Hatfield, Quakertown, Lehighton, Olyphant and to Citizens Electric Company of Lewisburg, respectively. The proposed changes would increase revenues from jurisdictional sales and service by $964,890, or 11.4%, based on the 12-month period ending December 31, 1975.

Copies of the filing were served upon PP&L's jurisdictional customers named above and upon the Pennsylvania Public Utility Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24426 Filed 8-19-76;8:45 am]

[Docket No. ER76-825]

SOUTHERN INDIANA GAS AND ELECTRIC CO.

Tariff Change

AUGUST 12, 1976.

Take notice that Southern Indiana Gas and Electric Company (Southern Indiana) on July 30, 1976, tendered for filing in accordance with Section 35.13 of the Commission's Regulations, proposed changes in its FPC Electric Service Schedules:

(a) City of Tell City, Indiana-FPC Schedule No. 9 as supplemented;

(b) City of Huntingburg, Indiana-FPC Schedule No. 22, as supplemented;

(c) City of Boonville, Indiana-FPC Schedule No. 28, as supplemented;

(d) Town of Ferdinand, Indiana-FPC Schedule No. 20, as supplemented;

The proposed changes would increase revenues from jurisdictional sales and service by $878,881 based on the twelve (12) months period ending December 31, 1975.

Southern Indiana states that each of its wholesale customers has agreed to the proposed changes as evidenced by written contracts contained in supplements to said rate schedules and by certificates of concurrence filed by the wholesale customers as part of the filing. The contracts are cancelable only upon five (5) years notice and provide for a unilateral rate change application in the form authorized by FPC Order No. 541-A. Southern Indiana's existing wholesale electric service agreements provide for a unilateral change in rates.

The proposed schedules also contain a fuel adjustment clause, revised in accordance with FPC Order No. 517. Southern Indiana has previously filed such a revised clause with the Federal Power Commission on February 8, 1976.

The Company states that the proposed changes are necessary in order to meet the increased demands for jurisdictional and non-jurisdictional electric utility service and to permit it to enlarge and extend its generation and transmission facilities requiring the expenditure and investment of substantial sums of money in plant, properties and equipment.

Copies of Southern Indiana's filings have been served upon all of Southern Indiana's jurisdictional all requirements customers, to-wit:

1. City of Tell City, Indiana;
2. City of Huntingburg, Indiana.
3. City of Boonville, Indiana;
4. Town of Ferdinand, Indiana.

and upon the Public Service Commission of Indiana (Attn: Max W. Tucker, Secretary.

Any person desiring to be heard or to protest Southern Indiana's application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

SOUTHERN NATURAL GAS CO., ET AL.

[Docket Nos. RP76-67-2; CP70-7; RP76-67-5]

Extension of Time

AUGUST 13, 1976.

Southern Natural Gas Co. (South Carolina Electric and Gas Company) Southern Natural Gas Company Southern Natural Gas Company (The Utilities Board of the Town of Trussville, Alabama).

On August 9, 1976, The Utilities Board of the Town of Trussville, Alabama (Trussville), filed a request for an extension of time of the procedural schedule fixed by Order issued August 3, 1976, in which to file its direct case in the above-designated proceeding. South Carolina Electric and Gas Company, a party to this proceeding, filed an opposition to Trussville's request on August 12, 1976.

Upon consideration, notice is hereby given that the time to file direct cases in this proceeding is extended to and including August 20, 1976.

This extension does not affect the date for public hearing fixed by Order issued August 3, 1976, for August 31, 1976, at 10:00 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

[Docket No. CP70-185]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO INC.

Petition To Amend

AUGUST 11, 1976.

Take notice that on August 2, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Petitioner), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP70-185 a petition to amend further the order issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to construct and operate an additional point for the sale and deliver of natural gas to Lowell Gas Company (Lowell), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that pursuant to authorization in the instant docket it sells pursuant to Rate Schedule CD-6 to Lowell a contracted demand of 34,680 Mcf of natural gas per day for a delivery at a single point in Middlesex County, Massachusetts, the Tewksbury sales meter station. Petitioner proposes to establish an additional point of delivery of gas to Lowell in order to alleviate problems on Lowell's distribution system which may result in outages of service in the Wilmington area as the result of low pressures on the distribution system. Petitioner proposes to construct, at the expense of Lowell, and to operate facilities, to be owned by Lowell, to establish a new delivery point on Petitioner's main line to be known as the Wilmington sales meter station.

The petition to amend states that the Wilmington sales meter station would have a daily delivery capacity of 12,000 Mcf of gas. Petitioner proposes to deliver gas to Lowell at the Tewksbury sales meter station with a daily volume limit of 34,680 Mcf and at the Wilmington sales meter station with a daily volume limit of 12,000 Mcf. It is stated that Lowell would not receive in excess of its Rate Schedule CD-6 contracted demand volume of 34,680 Mcf and would stay within its curtailment period quantity entitlement.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 31, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24430 Filed 8-17-76;8:45 am]

[Docket No. CP76-458]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

AUGUST 12, 1976.

Take notice that on July 29, 1976, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-458 an application pursuant to Section 7(c) of the Natural Gas Act, as implemented by Section 157.7(b) of the Regulations thereunder (18 CFR 157.7 (b)), for a certificate of public convenience and necessity authorizing the construction, during the one-year period commencing October 22, 1976, and operation of facilities to enable Applicant to take natural gas purchased from producers thereof, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction of gas-purchase facilities to enable Applicant to take natural gas supplies from producers, or other similar sellers, authorized by the Commission to make a sale of gas to Applicant for resale in interstate commerce, and to permit the delivery of natural gas to implement authorized exchange and/or transportation arrangements with other natural gas companies.

Applicant states that the total cost of said facilities would not exceed $12,000,000 and the cost of any single onshore project would not exceed $1,500,000 and cost of any single offshore project would not exceed $2,500,000. It is indicated that these costs would be financed initially from temporary bank loans and company funds, with permanent financing to be arranged as part of an overall financing program.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 2, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24428 Filed 8-19-76;8:45 am]

Docket No. CP75-196

UNITED GAS PIPE LINE CO.

Amendment to Application

AUGUST 12, 1976.

Take notice that on July 29, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP75-196 an amendment to its application filed in said docket pursuant to Section 7(b) of the Natural Gas Act for an order permitting and approving abandonment of service to and abandonment and removal of certain facilities serving Atlas Processing Company, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that it applied in Docket No. CP76-157 for, among other things, authorization to abandon and sell certain facilities in and around the cities of Shreveport and Bossier City, Louisiana, to Arkansas Louisiana Gas Company (Arkla) and that the facilities serving Atlas were included in such application. Further, it is stated that in order that the transaction that was the subject of Docket No. CP76-157 could proceed independently of Applicant's abandonment application in the instant proceeding, Arkla entered into an exchange-transportation agreement with Applicant to deliver gas to Atlas for Applicant's account pending approval of Applicant's abandonment application in the instant docket.

Applicant states that by order issued March 31, 1976, in Docket No. CP76-157, the exchange-transportation agreement and Applicant's abandonment and sale of the facilities in question were authorized. Accordingly, it is stated, the application in the instant docket requires amending to delete the proposal to abandon and remove the facilities serving Atlas since, under authorization in Docket No. CP76-157, such facilities have been sold and transferred to Arkla. Further, by the instant amendment Applicant deletes Exhibit Y from the subject application relating to such facilities and amends the title of such application. Applicant states that its application in the instant docket for permission and approval to abandon service to Atlas, in all other respects, remains unchanged.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants patries to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordanee with the Commission's Rules. Persons having filed before need not do so again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24429 Filed 8-19-76;8:45 am]

[Docket No. RP76-109]

UTAH GAS SERVICE CO.

Filing of Settlement Agreement

AUGUST 13, 1976.

Take notice that on August 5, 1976, Utah Gas Service Company (Utah Gas) submitted for filing a proposed Stipulation and Agreement proposed as a settlement of all issues in the captioned proceeding. On June 4, 1976 Utah Gas Service Company tendered for filing a Third Revised Sheet No. 18A superseding Second Revised Sheet No. 18A of its FPC Gas Tariff, Original Volume No. 1, Rate Schedule X-1. The change provided for was an increase in a transportation charge component of the base rate for gas sold by Utah Gas to Northwest Pipeline Corporation (Northwest).

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before August 26, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24442 Filed 8-19-76;8:45 am]

[Docket No. RM75-14]

JURISDICTIONAL SALES OF NATURAL GAS

Order Imposing Refund Obligation Pursuant to Order of the Court

AUGUST 13, 1976.

On July 27, 1976, the Commission issued its Opinion No. 770 and its order amending § 2.56a of the Statements of general policy and interpretations, Part 2, Subchapter A of the Chapter I of Title 18 of the Code of Federal Regulations. These provisions of the Regulations set forth a new national rate of $1.42 per Mcf, with a one cent per quarter escalator, for sales of natural gas from wells commenced on and after January 1, 1975, and new dedications of natural gas to interstate commerce on and after January 1, 1975. These provisions also set forth a new national rate of $1.01 per Mcf for sales of natural gas from wells commenced and new dedications of natural gas on or after January 1, 1973 and prior to January 1, 1975.

On July 28, 1976, a motion was filed with the Commission by the American Public Gas Association in conjunction with several organizations[1] (Petitioners) requesting the Commission to stay Opinion No. 770. Petitioners argued that irinter alia, there was no assurance by the Commission that there would be refunds ordered of any amounts collected under Opinion No. 770 if the rates therein were found to be excessive.

On August 2, 1976, the Commission issued an Order Denying Stay stating that no irreparable injury would occur since the power to order refunds exists whether or not it is expressly reserved in the Commission's Opinion. In that order the Commission further stated:

> As long as the Commission has this power there can, by definition, be no irreparable injury. Cf. *Atlanta Gas Light Co.* v. *F.P.C.*, 476 F. 2d 142 (5th Cir. 1973). The Commission has no policy denying refunds per se should such an issue arise here, the Commission would treat it on the merits based upon the then existing circumstances.

On July 28, 1976, Petitioners also filed with the United States Court of Appeals for the District of Columbia Circuit, a petition seeking an emergency stay of the effectiveness of Opinion No. 770, therein reciting the same arguments set forth in their Motion for Stay filed with the Commission.

On August 9, 1976, the Court issued an order in *APGA, et al.* v. *F.P.C.*, (CADC No. 76-1694) "* * * in the absence of a provision in the (Commission) order for refund of rates * * *", stating "* * * that producers will be permitted to file tariffs reflecting applications of the new rates for natural gas, provided that their tariffs incorporate an undertaking to refund to their pipeline customers any portions of the new rates subsequently held to be unlawful. * * *"

The Commission's order of July 27, 1976, is fully cost justified, and held significant promise of providing additional gas supplies to the interstate market for this winter's heating season.

The order also provides the best available method to provide additional long-term gas supplies for the Nation.

The Court's decision is erroneous, but more importantly, severely inhibits this initiative, both for the short and longer term.

As the Commission noted in its order denying stay, the authority to order re-

[1] Consumer Federation of America, New Jersey Board of Public Utility Commissioners, State of Minnesota, Minnesota Public Service Commission, United Steel Workers of America, United Automobile, Aerospace and Agricultural Implement Workers of America, International Association of Machinists & Aerospace Workers, National Rural Electric Cooperative Association, American Public Power Association, United States Conference of Mayors, National Farmers Union, National Farmers Organization, Energy Action Committee, Toward Utility Rate Normalization, Industrial Union Department, and AFL-CIO.

V 41 163 AUG 20 76 UMI

funds always exists and the exercise of that authority is itself subject to judicial review. In these circumstances, no alleged injury is irreparable. It follows that there was no basis for the Court's exercise of its equity power to preempt the authority of the Commission initially to decide the issue of refunds.

However, the Court's order, by its own terms, applies only until the Commission issues a final order on rehearing. The Commission has been advised by the Solicitor General that because of the brief period of operation of the Court's order, and because the Supreme Court is not now in session, he would not recommend seeking a vacation of the Court's order.

A speedy resolution of the uncertainty over the national rate for new gas is desirable, and the Commission will support all efforts toward achieving that certainty.

In Opinion No. 770, the Commission prescribed a comprehensive rate structure designed to encourage the exploration and development of new natural gas supplies. Since we are confident that the Commission order will be upheld on any judicial review, the refund issue should be purely academic. We can fully understand, however, that a producer could be deterred from making new dedications by the Court's order; the choice it must make in exploring for or selling its gas now has quite different parameters. Instead of the assurance that the Commission would consider all factors and all arguments before making any order, should any portion of Opinion No. 770 be held invalid, it now faces a blanket court order specifically placing in jeopardy all monies collected from any gas sold during the period of operation of the Court's order. Thus, we do not now expect perceptible dedications of new gas while the Court's order is in effect.

Notwithstanding all of the above, the Commission is faced with the administration of Opinion No. 770, as well as the Natural Gas Act, pending final decision by the Commission on applications for rehearing. If each producer were to incorporate a different refund undertaking in its tariff, an administrative morass could develop which would ultimately lead to unending litigation.

Accordingly, no tariffs reflecting applications of the new rates for natural gas will be accepted unless they contain the express refund undertaking set forth in Ordering Paragrah (A), hereof.

In addition, the Court's August 9, 1976 order did not address the applicability of its refund requirements to small producers of natural gas, as defined in § 157.40 of the Commission's regulations. Those producers, holding small producer certificates under § 157.40(c), are not required to file new tariffs to be authorized to collect 130 percent of the rates prescribed in §§ 2.56(a) (3) and (4) of the Commission's regulations, as amended by Opinion No. 770.

In order to meet the problems occasioned by the Court's action, we have determined that a uniform refund structure must be effected pending final decision by the Commission on any applications for rehearing.

To carry out the intention of the Court order during the Commission's rehearing procedure, all small producers will be subject to the same refund obligations imposed upon large producers.

The entry of this order in conformity to the Court's order renders the present stay unnecessary. The General Counsel is therefore directed to file with the Court a copy of this order and to request that the Court vacate its stay of Opinion No. 770 and act upon the Commission's motion to dismiss the petition for review in the above-entitled proceeding.

The Commission finds: (1) The refund provision hereinafter set forth is necessary and appropriate for carrying out the provisions of the Court's order of August 9, 1976.

(2) The existence of the Court's order of August 9, 1976, constitutes good cause for the immediate publication of this rule.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly Sections 4, 5, 7, and 16 thereof, (52 Stat. 822, 823, 824, 825 and 830; 56 Stat. 83 and 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, and 7170) orders:

(A) No tariffs reflecting application of the new rates for natural gas provided for in Section 2.56a(a) of the Commission's Regulations shall be accepted unless they contain an express refund undertaking as follows:

Any amounts charged or collected pursuant to the rates permitted under Section 2.56a(a), (b), (c), (d) and (e) during the period prior to final decision by the Commission on any applications for rehearing under 15 U.S.C. § 717r(a) shall be refunded with interest, pursuant to Commission Regulations, to the purchaser of the natural gas hereunder, in the event that, and to the extent that, such rates may be subsequently held to be unlawful

(B) All small producers, as defined in § 157.40 of the Commission's regulations, will not be required to file the undertaking provided in Ordering Paragraph (A) but will be subject to the same refund condition imposed upon large producers, as set forth in Ordering Paragraph (A) above.

(C) The rates and charges provided for in Opinion Nos. 770 and 742–B with the express refund undertaking provided for in Paragraphs (A) and (B), above, shall be made effective upon the dates provided for in Opinion Nos. 770 and 742–B.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission. Commissioner Smith concurs in the issuance of the order, believing it to be made necessary by the U.S. Court of Appeals for the District of Columbia, but shares neither the confidence of the majority in Opinion No. 770's invulnerability, nor subscribes to its assertion that the refund issue is academic.

KENNETH F. PLUMB,

[Docket No. E-9485]

KANSAS GAS AND ELECTRIC CO.

Filing of Rate Schedule

AUGUST 13, 1976.

Take notice that on August 2, 1976 Kansas Gas and Electric Company (KG&E) tendered for filing amendments to the following rate schedules:

Customer:	*FPC Rate Schedule No.*
Augusta, Kans.	134
Burlington, Kans.	126
Chanute, Kans.	128
Coffeyville, Kans.	129
Fredonia, Kans.	87
Girard, Kans.	113
Iola, Kans.	89
Mulvane, Kans.	132
Neodesha, Kans.	131
Wellington, Kans.	98
Winfield, Kans.	110

KG&E states that the amendments are filed so as to comply with the Order Approving Settlement Agreement issued on July 21, 1976 in this docket and that the amendments reflect the settlement approved in that order.

KG&E also filed on August 2, 1976, appropriate fuel clause adjustment riders for each customer. The riders, according to KG&E, conform to the settlement agreement approved by the Commission in this docket. KG&E states that copies of the amendments and fuel clause riders will be furnished to the customers involved.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-104]

LAWRENCEBURG GAS TRANSMISSION CORP.

Compliance Filing

AUGUST 11, 1976.

Take notice that on July 22, 1976, Lawrenceburg Gas Transmission Corporation tendered for filing a revised gas tariff sheet to its FPC Gas Tariff, First Revised Volume No. 1, which is dated as issued on July 22, 1976, to be effective on August 12, 1976.

Lawrenceburg states that the filing is made in compliance with ordering paragraph (B) of the Commission's order issued July 12, 1976 in the above-captioned docket. Lawrenceburg further states that the revised tariff sheet incorporates a base gas tariff rate set forth in its Stipulation and Agreement as accepted by the Commission in the July 12, 1976 order, and further adjusted to reflect a change in pressure base of measurement from 15.025 Psia to 14.73 Psia as effective on April 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-31]

LOUISIANA-NEVADA TRANSIT CO.

Extension of Procedural Dates

AUGUST 16, 1976.

On August 10, 1976, Staff Counsel filed a motion to extend the procedural dates fixed by Order issued November 28, 1975, as most recently modified by Order issued March 22, 1976, in the above-designated proceeding. In the motion, Staff states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above-designated proceeding are modified as follows:

Service of Staff Top Sheets, July 28, 1976.
Settlement Conference in Room 5200, Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., to commence at 10 a.m., September 22, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24492 Filed 8-19-76; 8:45 a.m.]

[Docket No. RP74-96]

NATURAL GAS PIPELINE CO.

Order Accepting Rates for Filing Subject To Refund and Establishing Procedures

AUGUST 13, 1976

On July 14, 1976 Natural Gas Pipeline Company (Natural) tendered for filing revised tariff sheets in the captioned docket to reflect a $18 million rate reduction in compliance with Opinion No. 762; tracking adjustments for advance payments and Stingray Pipeline Company's transportation charges; and, revisions to the purchased gas adjustment clause. For the reasons hereinafter stated, the Commission shall accept the proposed advance payment increases subject to refund and set the matter for hearing and shall accept, as proposed, the remainder of the settlement rates.

The Staff filed on August 10, 1976 a Protest to certain advance payments included in the proposed settlement rates. This Protest was made pursuant to Section 7 of Article IV of the Agreement which states:

Staff or any customer of Natural may protest such rate increase prior to the effective date thereof. In the event of a timely protest, the Commission may make the rate increase subject to refund.

Staff's protest states that the advance payments made to Mesa Petroleum Co. and to Mobil Oil Co. "may not properly be includable in Natural's rate base under the standards set forth in the Commission's recent Opinion No. 769, Tennessee Gas Pipeline Co., Docket No. RP 73-113, issued July 9, 1976."

The Commission's review of the proposed rates indicates that the new advance payments, related to Mesa Petroleum Company No. 2 dated December 19, 1973, and to Mobil Oil Corporation No. 2 dated April 25, 1973, have not been shown to be just and reasonable and, therefore, may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, the proposed increases associated with these advance payments shall be accepted for filing on September 1, 1975, and collected subject to refund pending the outcome of a hearing concerning their lawfulness, in accordance with terms of Section 7 of Article IV.

The remaining adjustments proposed by Natural are in compliance with the provisions of Opinion No. 762 and should be approved.

The Commission finds: (1) With the exception noted in (2) infra, the proposed rates tendered by Natural should be accepted for filing in accordance with the provisions of the Settlement Agreement approved by Opinion No. 762.

(2) Certain proposed increases related to advance payments involving Mesa Petroleum Company and Mobil Oil Corporation should be accepted for filing and rates collected subject to refund as of September 1, 1975, in accordance with the Settlement Agreement.

The Commission orders: (A) With the exception noted in ordering paragraph (B), the proposed rates tendered by Natural on July 14, 1976, are hereby accepted for filing.

(B) Certain proposed increases related to advance payments involving Mesa Petroleum Company and Mobile Oil Corporation are permitted to become effective and to be collected subject to refund, as of September 1, 1975, in accordance with the terms of the Settlement Agreement.

(C) A pre-hearing conference shall be held on September 1, 1976 in a public hearing room of the Federal Power Commission, Washington, D.C. 20426, in order to establish such further procedural dates as may be necessary to determine the lawfulness of the advance payment increases at issue.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP65-59]

TEXAS EASTERN TRANSMISSION CORP.

Tender of Statement for Escrow Agreement

AUGUST 13, 1976.

Take notice that on August 2, 1976, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing a copy of the statement for the Escrow Agreement dated January 25, 1967, between Texas Eastern and Southern National Bank, according to Texas Eastern. Texas Eastern states that this statement indicates cash and/or U.S. Government obligations in the fund as of June 30, 1976, and covers Texas Eastern's period of holding the funds since March 3, 1967.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 31, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on August 13, 1976. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC report are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before August 27, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

The short time to submit comments is caused by FCC's need to collect data in time for a congressional hearing and the fact that all affected respondents already have on hand a copy of the request for information. FCC's original request to file the information was deferred on August 13, 1976, to allow time for compliance with the Federal Reports Act, as amended.

Further information may be obtained from David R. Fisher of the Regulatory Reports Review Staff, 202-376-5425.

FEDERAL COMMUNICATIONS COMMISSION

FCC requests clearance of a new Quarterly Report of Expenses Incurred in Connection with Consumer Communications Reform Act. This report has been adopted by the Chief, Common Carrier Bureau, pursuant to § 0.291 of the Commission's rules with respect to delegations of authority to the Chief, Common Carrier Bureau. Sections 4(i) and 219 of the Communications Act of 1934, as amended, authorize the Commission to require the filing of periodic and/or special reports. The purpose of the report is to give the Commission an up-to-date accounting of the costs incurred in connection with current efforts to secure passage of the telephone industry's legislative proposals regarding competition in the terminal equipment and private line communications markets. This data will also be used to provide the Subcommittee on Oversight and Investigations and the Subcommittee on Communications information on expenditures by common carriers for lobbying in connection with the Consumer Communications Reform Act. FCC estimates the burden to average 50 hours for the initial response since it covers the year 1975 as well as the first quarter of 1976. All subsequent reports will be submitted quarterly and burden is estimated to average 10 hours per quarterly response. The FCC is collecting this report from 82 respondents.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

GENERAL SERVICES ADMINISTRATION

[Intervention Notice No. 7]

MARYLAND PUBLIC SERVICE COMMISSION, AND POTOMAC ELECTRIC POWER COMPANY

Proposed Intervention in Electric Rate Increase Proceeding

The General Services Administration seeks to intervene in a proceeding before the Maryland Public Service Commission concerning an application by the Potomac Electric Power Company for an increase in its tariffed rates for intrastate electric service. The GSA represents the interests of the executive agencies of the United States Government, as users of utility services.

Potomac Electric Power Company has proposed a rate increase designed to increase its intrastate revenues by approximately $36.3 million annually. The Company states in its application that its proposed rates would result in an 11.8% increase in basic electric rates.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Counsel, Regulatory Law Division, General Services Administration, 18th & F Streets, NW., Washington, D.C. 20405, telephone (202) 566-0750, within thirty (30 days of the publication of this notice in the FEDERAL REGISTER, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Section 201(a)(4), Federal Property and Administrative Services Act, 40 U.S.C. 481(a)(4).)

Dated: August 13, 1976

JACK ECKERD,
Administrator of General Services.

Public Buildings Service

PLACEMENT OF SCULPTURE IN EDWARD A. GARMATZ FEDERAL BUILDING

Public Hearing

Notice is hereby given that the Commissioner of the Public Buildings Service, U.S. General Services Administration, will hold a public hearing on September 8, 1976, in the Fallon Building, Room G-30, 31 Hopkins Plaza from 10 a.m. to 12 noon, for the purpose of receiving views on the placement of a sculpture by George Sugarman in the plaza of the Edward A. Garmatz Federal Building and Courthouse in Baltimore, Md.

The Commissioner is encouraging interested persons or organizations to make 5-minute presentations or submit a written statement for consideration by the Commissioner at the hearing to ensure that various aspects of the subject are addressed and that representative viewpoints are heard. In view of the limited time, organizations wishing to express their views should appoint a single spokesperson to present their remarks. Written statements should be addressed to: Commissioner, PBS, ATTN: Ms Marilyn Slepicka, General Services Administration, 18th and F Streets, NW., Washington, D.C. 20405. The number of oral presentations will depend upon the number of requests received. Each person desiring to make an oral presentation must notify the Commissioner's office by September 1, 1976, either in writing to the above address, or by telephone, (202 566-0905. The number and order of presentations on the Agenda will be determined by the order in which the requests are received.

Written material will be accepted by the Commissioner at the time of the

meeting and for 3 days thereafter for inclusion in the record.

Dated: August 18, 1976.

NICHOLAS A. PANUZIO,
Commissioner, Public Buildings Service.

NATIONAL ADVISORY COUNCIL ON ECONOMIC OPPORTUNITY

PRELIMINARY REPORTS FROM COMMITTEE ON AGENCY OPERATIONS AND COMMITTEE ON LEGISLATION

Proposed Meeting

AUGUST 4, 1976.

The National Advisory Council on Economic Opportunity authorized by section 605 of the Community Services Act of 1974, will hold a one day (possibly two day) Council meeting at its offices at 1725 K Street, N.W. (Room 405), Washington, D.C. The meeting will begin at 9 a.m. on Friday, September 17, 1976 (and possibly Saturday, September 18, 1976). The meeting is open to the public.

The purpose of the meeting will be to hear preliminary reports from the Committee on Agency Operations and the Committee on Legislation and to project future committee activity.

We are printing the above information in the FEDERAL REGISTER as required by section 9 of the Federal Advisory Committee Act of 1972.

DR. FERNANDO PENABAZ,
Chairman.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

MEETING

Notice is hereby given, pursuant to P.L. 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on Friday, September 10 and on Saturday, September 11, 1976. The meeting will be held on September 10 from 9:00 a.m.-9:00 p.m.; and, on September 11, the meeting will start at 8:00 a.m. and end at 11:00 a.m. The two-day meeting will include site visits to Pierre, Rosebud, Eagle Butte, and Fort Yates, South Dakota. The regular Council meeting will be held in Rapid City, South Dakota.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The main purpose of the meeting is to observe Title I Indian Education Programs and other Federally funded education programs and to meet with state and local school officials. A designated group of Council members will be conducting site visits to North and South Dakota on September 8 and 9th. These sites will be in Flandreau, Wahpeton, South Dakota and Devil's Lake and Turtle Mountain, North Dakota. Reports on these sites will be presented to full Council on September 11, 1976.

Because of limited space, all persons wishing to attend should call for reservations by September 1, 1976, area code 202/382-6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C. 20004.

Signed at Washington, D.C. on August 16, 1976.

GLORIA B. STRICKLAND,
Acting Executive Director.

Introduction

The Endowment's Literature Program provides assistance to creative writers and encourages greater audiences for their works. During the past several years, it has concentrated in these areas:

- aid to writers through individual fellowships; assistance indirectly through grants to the nation's small literary magazines and presses; and sponsors of readings and residencies by writers;
- aid to service organizations that provide information and technical guidance to writers; and
- placement of professional writers in elementary and secondary school classrooms.

The Literature Program will continue to explore the feasibility of pilot projects in translation and experimental media writing. No applications are being accepted. Programs will be announced well in advance of deadlines, if initiated.

Inquiries should be directed to:
Literature Program (Mail Stop 607)
National Endowment for the Arts
Washington, D.C. 20506
(202) 634-6044

The National Endowment for the Arts is an independent agency of the Federal Government created in 1965 to encourage and assist the nation's cultural resources. The Endowment is advised by the 26 Presidentially-appointed members of the National Council on the Arts.

The Literature Program is one of twelve major Program areas. Information about the Endowment and its other Program areas is contained in the Endowment's "Guide to Programs" which is available from the Program Information Office (Mail Stop 550), National Endowment for the Arts, Washington, D.C. 20506.

July 1976

Categories of Funding

Assistance to Small Presses

The Literature Program will receive applications for grants to aid projects supporting publication and distribution of volumes of fiction and poetry by small presses. The purpose of these grants is to:

- produce a single volume or several volumes of fiction and poetry that otherwise would not be possible;
- encourage the publication and distribution of single volumes of fiction and poetry by individual writers;
- assist in publishing writers who have no selected works printed; and
- encourage publication of experimental works by writers who already have established access to print.

Eligibility
Applications may be made by small nonprofit, tax-exempt presses with record of publishing volumes of fiction or poetry, either by individual writers or in anthology form.

Applications will also be accepted from official state arts agencies on behalf of specific small presses in their states.

Matching fellowships will also be made to individual small press publishers with a record of publishing volumes of poetry or fiction.

Requests from university and college presses will not be considered under this program. Projects in translation are now eligible for support.

Amounts Available
Applications may be made for sums ranging from a minimum of $500 to a maximum of $10,000.

Grants must be matched, at least dollar-for-dollar, by the small press or the individual publisher. For the purposes of matching in-kind contributions of press staff, outside editorial assistance, use of facilities and contributions of materials are allowable. In addition to cash, State arts agencies may also provide non-federal funds for partial or full matching.

Special Condition of the Grants
It is a special condition of these grants that the author receive a minimum of 10% of the edition as, at least, partial payment of royalties.

Deadline
Applications will be accepted beginning October 1, 1976 and must be postmarked no later than March 1, 1977. Decisions on applications will be announced on or about June 1, 1977.

Review Process
Applications will be reviewed by the Literature Program staff and referred to the Literature Advisory Panel for recommendation to the National Council on the Arts and the Chairman.

Because of fund limitation, priority will be given to meritorious applications from presses that have not received previous funding.

Application Procedure
Applicant should complete and return three copies of the *Project Grant Application (NEA-3)* on page 15.

Please follow the instructions on pages 11-14.

Federal funds may be requested only for direct production costs such as paper, supplies, printing, binding, postage, distribution, etcetera. Federal funds may not be requested for administrative salaries, rent, equipment, travel or indirect costs (though these items may be used to match federal funds).

As examples of past work, three copies of two previous publications must be submitted with each application.

A description of the volume or volumes for which assistance is requested must be given on the application form.

Applications together with the examples of past work, should be mailed to:
Grants Office (Mail Stop 500)
National Endowment for the Arts
Washington, D.C. 20506

Readings and Residencies for Writers

The Literature Program will receive applications for grants to aid projects presenting published creative writers in public readings and residencies. Since the funds for this pilot program are limited, an effort will be made to assist a wide range of projects to enable the Literature Advisory Panel to assess the most effective models. The purpose of these grants is to:

- respond to an expressed need from the field for programs which will provide new audiences for contemporary published creative writers;
- assist writers, particularly those just achieving recognition, in establishing new sources of income; and
- provide communities in many areas of the country with exposure to contemporary published creative writers. Preference will be given to areas outside of large urban centers and to applicant organizations which are initiating programs of readings and residencies.

Eligibility
Applications may be made by non-profit, tax-exempt organizations such as state arts agencies, colleges, universities, libraries, museums, art centers, other public institutions (such as prisons or hospitals), and professional organizations of writers or teachers.

Amounts Available
Application may be made for sums up to $5,000. In most cases grants will be for less. Grants must be matched, at least dollar-for-dollar, by the sponsoring organization. Funds requested from the Arts Endowment must not exceed one-half of the fee of the writer and one-half of the writer's travel and per diem expenses. Fees for writers may not be less than $150.

Organizations may apply for a series of readings and residencies by individual writers or for group readings.

Deadlines and Scheduling
Grants will be made periodically throughout the fiscal year. Projects should be scheduled to begin no sooner than six months after the application is submitted.

V 41 163 AUG 20 76 UMI

Fellowships for Creative Writers

Application Procedure
Applicant should complete and return three copies of the *Project Grant Application (NEA-3)* on page 15. Please follow the instructions on pages 11-14. A list of writers from which those who will read are to be chosen must be included in the project description, together with the anticipated locations of readings and potential local sponsors. A brief history of the sponsoring organization's past experience with scheduling and conducting readings and residencies by writers should also be included in the application. Lack of experience will not, by itself, exclude an organization from consideration.

Applications with additional materials mentioned above should be mailed to:
Grants Office (Mail Stop 500)
National Endowment for the Arts
Washington, D.C. 20506

The National Endowment for the Arts program of fellowships for published writers of exceptional talent offers assistance to writers to enable them to set aside time for writing, research, or travel, and generally to advance their careers.

Eligibility
You are eligible to apply if you have:
- published two or more short stories in two or more literary magazines, or
- published a volume of short fiction, or
- published a novel, or
- published ten or more poems in two or more literary magazines, or
- published a volume of poetry, or
- published two or more essays or critical articles related to literature or writers in two or more literary magazines, or
- published a volume of essays or criticism, or
- had produced, in any form, a play of any length by a professional company, or
- published a play of any length in a literary magazine, theatrical publication or book form, or
- a letter of recommendation in the case of a playwright, from a professional theatre person.

Grant Amount
Fellowships are for $7,500.

Deadline
Applications will be accepted between August 1, 1976 and February 15, 1977. Applications and manuscripts must be postmarked no later than February 15, 1977. Receipt of your application will be acknowledged. Announcement of acceptances and rejections will not be sent before November or December of 1977.

Application Procedure
You should complete and return three copies of the *Individual Grant Application NEA-2 (Rev.)* on page 5. Please follow the instructions on page 4 carefully.
Manuscript Material. In addition to completing three copies of the application form, you should enclose five clearly reproduced copies of one of the following manuscript samples:
Poetry—15 pages in typescript.
Fiction, Essays, Criticism or Biography—a minimum of 30 pages to a maximum of 40 pages or a minimum of 7,500 to a maximum of 10,000 words in typescript.
Playwrights—a play (one act or longer).
Please submit samples in one category. Sample copies cannot be returned.

Note to Applicants. The Literature Advisory Panel has asked that several things be brought to the attention of applicants: Because of the large number of manuscripts that Panel members must read in a limited amount of time, it would be most helpful if applicants would be sure that materials submitted are legible and clearly reproduced. Generally, it is not helpful to "cram" as much material as possible per manuscript page. Applicants using pen names should list their legal name first on the application. All transactions with the Endowment must be made in reference to the legal name.
Applications together with manuscript material should be mailed to:
Grants Office (Mail Stop 500)
National Endowment for the Arts
Washington, D.C. 20506

Important Information
The following is an attempt to answer the most commonly asked questions about Fellowships for Creative Writers:

1. You may only apply in one category, and submit one application. However, if you receive a fellowship you are not limited to the category of writing you submitted for evaluation.

2. Typescript does not necessarily have to be published material. It may be, for example, a work in progress. The manuscript should simply be what you feel is representative of your best work.

3. Applicants will be evaluated up to the maximum number of manuscript pages allowable in each category. Please do not send excessive manuscript, as it will be discarded.

4. Manuscripts, in addition to being legible and typewritten, must be collated. Photocopy and clear carbons are acceptable, but, please, no onion skin copies.

5. No grammatical, syntactic, spelling or artistic changes or additions will be accepted in the manuscript once it has been submitted.

6. Please do not send us as part of the manuscript copy the original of what you have sent us.

7. We strongly recommend that you send all of your enclosed materials under one cover by First Class Mail. We have found that Special Delivery or Special Handling takes longer for delivery. By completing the enclosed acknowledgement card, you will be assured that your materials reached us. You will hear from us in three weeks, usually less.

8. We cannot accept collaborative works or joint applications. The Fellowships for Creative Writers are individual grants.

Income Tax
Fellowship grants generally have certain Federal income tax advantages. States and Municipalities have their own policies on taxation. Specific questions should be directed to the Internal Revenue Service and other appropriate officials. An important element in determining taxability is that a fellowship grant is regarded as an educational benefit, and does not require the performance of service for the Endowment. No deductions are made from this fellowship grant for any purpose such as income tax, social security, etcetera. As a result, Internal Revenue Service W-2 Forms are not sent to Fellows; each must maintain his own income records for tax purposes. You may find Publication 520, "Tax Information for American Scholars in the U.S. and Abroad," a helpful guideline. This publication is available at your local IRS office.

Period of support requested is the span of time necessary to plan, execute and close out the proposed project. Generally the Endowment limits its financial participation in any project to a maximum of 12 months. A fellowship should not begin before January 15, 1978 and may generally not extend past January 15, 1979.

Description of proposed activity is not necessary for the Creative Writing Fellowships.

Basic Check List for Creative Writing Fellowships

1. Have you enclosed 3 copies of the NEA-2 application form?
2. Have you enclosed 5 uniform, legibly type-written copies of your manuscript?
3. Have you signed and dated all 3 copies of the NEA-2 application form?
4. Does your name appear on each of the 5 manuscripts?
5. If you are a playwright and have not previously published or produced, have you enclosed a letter of recommendation?
6. Have you self-addressed the acknowledgement card and enclosed it with the above materials so that we may return it to you upon receipt?

[FR Doc.76-24406 Filed 8-19-76;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

EXECUTIVE BRANCH POSITION ON COMMISSION ON GOVERNMENT PROCUREMENT

Recommendations A–43, A–44, and A–45, Socio-Economic Programs

Notice is given that the executive branch has accepted Commission on Government Procurement Recommendations A–43, A–44, and A–45.

The Commission on Government Procurement (COGP) observed that the magnitude of Government outlays for procurement and grants creates opportunities for implementing selected national policies. Federal Government expenditures on contracts of approximately $66 billion in fiscal year 1975 make the procurement process an attractive, if not inevitable, vehicle for advancing social and economic goals.

The COGP noted, on the other hand, that using the procurement process to implement national goals makes procurement "more costly and time-consuming with the addition of each new social and economic program." Further, "the cumulative effect of programs already imposed on the procurement process and the addition of those contemplated could overburden it to the point of threatening breakdown."

After listing some thirty-nine social and economic programs imposed on the procurement process, the Commission made three interrelated recommendations: (1) Establish a program for legislative and executive branch reexamination of the social and economic programs (A–43); (2) Raise to $10,000 the threshold at which the social and economic programs apply (A–44); and (3) Consider means of making more visible the costs to procurement of implementing the programs (A–45). Taken together, these recommendations urge a reexamination of the relationship between the social and economic programs and the procurement process and a reduction of the impact and burden of these programs where feasible.

The Office of Federal Procurement Policy has examined all of the social and economic programs that are implemented, in one manner or another, through the Federal procurement process. Discussions have been held with departments and agencies of Government and with members of Congress and committee staffs. Efforts have been made to find ways to minimize the impact of these programs while not detracting from the objectives that they were designed to fulfill. Some programs, we believe, should remain unchanged. The burdensome impact of others has been or can be changed by administrative or regulatory actions. Others should be eliminated or changed by legislative action. Efforts to achieve these changes are now in process.

In summary, COGP recommendations A–43, A–44, and A–45 represent a reasoned approach to the simplification of the procurement process. They are accepted, and the Office of Federal Procurement Policy will attempt to fulfill the objective of these recommendations to the extent possible.

HUGH E. WITT,
Administrator.

Appendix

Instructions for Completing Individual Grant Application Form

AUDIOVISUAL PRODUCTION SERVICES

Proposed System for Procurement

In furtherance of the responsibilities assigned to the Federal Audiovisual Committee, the Department of Defense (DOD) was requested, in December 1975, to lead an interagency effort to develop a uniform procurement system for all Federal agencies to use in purchasing audiovisual productions from private commercial sources. The DOD's Directorate for Audiovisual Activities (DAVA) was designated to chair an interagency task group to carry out this assignment. That group has completed its task and has provided a description of the procurement system it has proposed.

The Office of Federal Procurement Policy (OFPP) is committed to ensure that all interested parties in the private sector as well as Federal agencies have adequate opportunity to participate in the development of an audiovisual production procurement system. Accordingly, the system proposed by the task group is described in the following attachment for the information of all interested parties. Comments regarding the proposed system or suggestions regarding alternative approaches are hereby solicited. Comments and suggestions should be submitted to William McCloy, Chairman, OFPP Audiovisual Contract Group, Directorate for Audiovisual Activities, Room 601, 1117 North 19th Street, Arlington, Virginia 22209.

Suggestions and comments submitted in response to this publication will be thoroughly considered by the task group and by the Federal Audiovisual Committee in the final development of a procurement system to be recommended to the Office of Federal Procurement Policy.

Interested parties have until October 25, 1976, to submit comments.

Dated: August 17, 1976.

HUGH E. WITT,
Administrator.

ATTACHMENT 1

DESCRIPTION OF PROPOSED AUDIOVISUAL PROCUREMENT SYSTEM

Background

Past management studies indicate widespread dissatisfaction with the Government's current audiovisual production contracting program. Commercial producers as well as many Government users are critical of the present program which permits each agency to use its own forms, procedures and policies in contracting for productions. Common problems with the current system as noted in the various studies include:

1. There is a lack of adequate information regarding bidding opportunities for audiovisual production work. There is no central point where a prospective contractor can obtain information on bidding opportunities and requirements.

2. Agencies, and sometimes single facilities, maintain independent bidders lists and solicit proposals only from firms listed on their individual lists. While most agencies publish synopses of their requirements in the Commerce Business Daily, many suppliers complain that by the time the notices are published there is not adequate time to submit proposals.

V 41 163
AUG 20 76
UMI

3. The procedures and criteria used by separate agencies to evaluate proposals differ widely. The absence of suitable uniform evaluation criteria frequently results in nonuniform treatment of the bidding community and unacceptably high administrative costs.

4. Some agencies make unyielding interpretations of regulatory requirements for competition. One hundred (100) or more proposals have been received in response to a single solicitation. Suppliers not knowing that they are competing with 100 or more firms spend time, money and creativity in submitting proposals that they would not otherwise submit. Similarly, agencies must commit time and resources to evaluate unduly large numbers of proposals.

5. Many Government purchasing offices lack expertise in the audiovisual production field. Agency contracting personnel frequently have general procurement or supply backgrounds and are not familiar with the special considerations of audiovisual productions. Costly delays result and some final products are not suitable for their intended use.

6. Suppliers experience difficulty in establishing credentials and qualifications with the different requirements of each agency. Problems are also encountered in maintaining awareness of policy and procedural changes within agencies and of changing working relationships.

Definition

Within the context of the proposed system, audiovisual productions include contracts for motion picture, television and audio productions. A production, regardless of media involved is defined as the arrangement of audio and/or visual elements into a unified presentation to communicate a message to an audience.

Description of System

The proposed audiovisual procurement system envisions competitive negotiated procurements, using an ordering agreement to establish basic terms and conditions and a standard pricing form to be used by firms in responding to solicitations. A lead agency will be tasked with the responsibility of administering and maintaining the basic ordering agreements and will serve as a central source for information regarding the Government's audiovisual production contracting program. Agencies having requirements for audiovisual productions will contract directly with firms having basic ordering agreements.

Solicitations for basic ordering agreements will be offered to firms on the basis of unlimited competition for the areas of motion picture, television and audio productions. Present plans are to award 100 ordering agreements to firms submitting proposals in response to the first solicitation. Sixty (60) agreements are proposed in the motion picture area and 20 each in the television and audio areas. Solicitations for additional agreements will be issued if determined necessary based on volume of work.

The selection of firms to receive ordering agreements will be based on price, technical and management considerations. Analyses of competing firms' specimen productions, production records, and financial responsibility will be performed by a formal interagency evaluation board. The firms selected will not be categorized other than by medium, i.e., motion picture, television and audio.

The agreements to be awarded to selected firms will contain the standard terms and conditions appropriate to the audiovisual field, and will also contain "not to exceed" fixed prices for production line items. These line items will represent the majority of the individual services required to complete a production in the specific medium. In addition, the agreements will allow for the contracting of certain "unpriced" items, i.e., items which cannot be priced until they are specifically identified by the ordering agency.

In using the standing agreements, agencies will not need to repeat determinations of contractor competence or reissue standard contractual terms and conditions. Using agencies will solicit proposals for their specific requirements using a condensed request for proposals from no less than three firms (unless a sole source acquisition is justified) holding ordering agreements. These firms will respond to the request with a firm fixed price proposal supported by a cost breakdown based on their previously established "not to exceed" line item prices. In submitting a proposal based on line item breakdown, the firm is identifying its estimated level of effort for each phase of production. The line item breakdown enables the agency to evaluate the firm's understanding of the production and the proposed production method. The line item breakdown also serves to provide the firm and ordering agency with a basis of negotiation should changes be required in the production after it has begun.

Upon review of a firm's proposal for a specific production the ordering agency may elect to select the low offer or if the agency does not consider the low offer adequate, the agency may negotiate with all solicited offerors and select the best offer, price and other factors considered. Whether or not negotiated, the signed order will be for a firm fixed price. Payment to the contractor will be that price and will not be based upon effort actually expended for any individual line items. Progress payments may be made at the discretion of the ordering agency.

If an agency desires to purchase services in lieu of a full production based on individual priced line items in the ordering agreements, an agency may place an order against the one agreement that offers the lowest price for that line item or the lowest aggregate price for all line items without soliciting proposals from holders of other agreements. If a requirement for individual services contains any "unpriced" items, it will be competitively solicited from no less than three of those firms holding ordering agreements.

The holders of ordering agreements will not be permitted to exceed their quoted line item prices for the one year term of the initial agreements. These prices may be negotiated downward, however, in the pricing of individual orders. Other significant features of the system are:

Agencies will not be required to synopsize each request for proposals in the Commerce Business Daily.

Firms will be considered on a nationwide basis without restriction to geographic areas or zones. Firms will decide for themselves how far they want to travel to make a production.

Agencies will have flexibility in deciding whether to procure script and production as a single package or whether to separate script and production actions. Agencies will not, however, issue combined solicitations for creative proposals, scripting and productions.

Basic ordering agreements will remain in effect for one year, after which time the system will be evaluated and new solicitations issued as appropriate.

Listings of the firms possessing ordering agreements will be distributed to all Government using agencies and to interested persons requesting copies.

Agencies will be required to provide copies of their requests for proposals and copies of subsequent contracts to the lead agency.

Procurements made pursuant to grants and to Section 8(a) of the Small Business Act will be handled in accordance with existing regulations and will not use the proposed system.

Proposed Solicitation

Copies of the solicitations proposed for use in obtaining proposals for the basic ordering agreements may be obtained by contacting William McCloy, Chairman, OFPP Audiovisual Contract Group, Directorate for Audiovisual Activities, Room 601, 1117 North 19th Street, Arlington, Virginia 22209. In contacting Mr. McCloy, please specify whether you want the solicitation for motion picture, television or audio productions.

Schedule

Approximately 60 days are being permitted for the preparation and submission of comments on the proposed system. The evaluation, review and coordination of the comments received will require an additional 60 days. The earliest the proposed solicitations for the ordering agreements will be issued is the end of the current calendar year. The first awards and implementation of the system are tentatively scheduled for the spring of 1977.

[FR Doc.76-24481; Filed 8-19-76;8:45 am]

RAILROAD RETIREMENT BOARD

PRIVACY ACT OF 1974

New and Revised Routine Uses to Systems of Records

The U.S. Railroad Retirement Board hereby published a new routine use to be added to Record System 22, Railroad Retirement Survivor and Pensioner Benefit System (previously published for inspection in the FEDERAL REGISTER on August 19, 1975 and March 22, 1976). No Report on New Systems need be submitted because this new routine use does not create a new purpose for this record system and it is compatible with the purposes for which Record System RRB-22 is maintained. This new routine use for Record System RRB-22, Railroad Retirement Survivor and Pensioner Benefit System, will be designated as "bb" and will read as follows:

bb: Beneficiary identifying information, including but not limited to name, address, social security account number, payroll number and occupation, the fact of entitlement and benefit rate may be released to the Pension Benefit Guaranty Corporation to enable that agency to determine and pay supplemental pensions to qualified railroad retirees.

The following routine uses in their respective systems of records are being expanded to include information inadvertently omitted when previously published. No new routine uses are being established. All current additions are indicated by italics:

RRB-19 Payroll Record System

h. *A copy of the employee's Form W-2, Wage and Tax Statement, or other similar form containing the name, social security number, taxable earnings and amounts withheld, may be released to the State, city or other local jurisdiction which is authorized to tax the employee's compensation in accordance with a withholding agreement between the State, city or other local jurisdiction and the Department of the Treasury, or in the absence thereof, in response to a written request from an appropriate official of the taxing jurisdiction to the Director of the Budget and Fiscal Operations, U.S. Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611.*

RRB-22 Railroad Retirement, Survivor and Pensioner Benefit System

g. Beneficiary identifying information, entitlement data, benefit rate, *medical evidence and related evaluatory data* may be released to the Social Security Administration to correlate actions with the administration of Title II and Title XVIII of the Social Security Act, as amended.

h. Beneficiary identifying information, *including social security account number,* and supplemental annuity amounts may be released to the Internal Revenue Service, *State and local taxing authorities* for tax purposes (Form G-1099, for those annuitants receiving supplemental annuities).

i. Beneficiary identifying information, entitlement benefit rates, months paid, *medical evidence and related evaluatory data* may be released to the Veterans Administration to verify entitlement to benefits.

Members of the public are invited to send their comments on these routine uses for systems of records to the Secretary of the Board, U.S. Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611, on or before September 20, 1976.

Dated: August 6, 1976.

By Authority of the Board.

[SEAL] R. F. BUTLER,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

SEC REPORT COORDINATING GROUP (ADVISORY)

Public Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770, the Securities and Exchange Commission announces a public committee meeting.

The Commission's Report Coordinating Group (Advisory) will hold a meeting on September 16, 1976 at 301 Pine Street, San Francisco, California. The meeting will commence at 10:00 a.m. local time and will be for the purpose of discussing the recently initiated FOCUS reporting system and recent developments in the areas of trading forms, assessment forms and registration forms.

The Group's meetings are open to the public. Any interested person may attend and appear before or file statements with the advisory committee. Said statements, if in written form, may be filed before or after the meeting. Oral statements shall be made at the time and in the manner permitted by the Report Coordinating Group.

The Report Coordinating Group was formed to assist the Commission in developing a coherent, industry-wide coordinated reporting system. In carrying out this objective, the Report Coordinating Group is to review all reports, forms and similar materials required of broker-dealers by the Commission, the self-regulatory community and others. The Group is advising the Commission on such matters as eliminating unnecessary duplication in reporting, reducing reporting requirements where feasible, and implementing the FOCUS Report of financial and operational information. (Securities Exchange Act Release No. 10959; Securities Exchange Act Release No. 11140; Securities Exchange Act Release No. 11149; Securities Exchange Act Release No. 11748; Securities Exchange Act Release No. 11935).

Information concerning the meeting, including the procedures for submitting statements to the Group, may be obtained by contacting: Mr. Daniel J. Pilliero II, Secretary, SEC Report Coordinating Group, Securities and Exchange Commission, Washington, D.C. 20549.

GEORGE A. FITZSIMMONS,
Secretary.

AUGUST 11, 1976.

[FR Doc.76-24355 Filed 8-19-76;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Application for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 12, 1976.

The Chicago Board Options Exchange, Inc. ("CBOE") has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(C) of the Securities Exchange Act of 1934 (the "Act") and Rule 12f-1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are registered with the Commission pursuant to Section 12 or which would be required to be so registered except for the exemption from registration provided in subsection (g)(2)(B) or (g)(2)(G) of Section 12 of the Act.

American Express Co., Common stock, $.60 par value, File No. 7-4848.

Anheuser-Busch, Inc., Common stock, $1.00 par value, File No. 7-4849.

Combined Insurance Company of America, Common stock, $1.00 par value, File No. 7-4850.

Connecticut General Insurance Corp., Common stock, $2.50 par value, File No. 7-4851.

NCNB Corp., Common stock, $2.50 par value, File No. 7-4852.

Pennzoil Offshore Gas Operators, Inc., Class B Stock[1], $1.00 par value, File No. 7-4853.

Tampax Inc., Common Stock, $.25 par value, File No. 7-4854.

In its application for unlisted trading privileges in the foregoing securities, the CBOE has stated that trading in these securities on the CBOE would be limited solely to transactions arising from the exercise of options contracts covering the securities. As such, the CBOE did not deem it necessary to submit information concerning public distribution and trading volume as required by Rule 12f-1.

Upon receipt of a request, on or before September 10, 1976 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Interested persons should state briefly the title of the security in which they are interested, the nature of their interest in making the request, and the position they propose to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no requests for a hearing with respect to the application are received, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-24376 Filed 8-19-76;8:45 am]

[1] On November 1, 1976, the separate designations of the Class A and Class B will terminate and all such shares will thereafter be designated as common.

[Release No. 19644 (70-5883)]

CONSOLIDATED NATURAL GAS CO.

Proposed Issuance and Sale of $75,000,000 Principal Amount of Debentures at Competitive Bidding

AUGUST 10, 1976.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), 30 Rockefeller Plaza, New York, New York 10020, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Consolidated proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, $75,000,000 principal amount of ____% Debentures Due September 1, 1996. The interest rate (which will be a multiple of ⅛ of 1%) and the price, exclusive of accrued interest, (which will not be less than 99% or more than 102% of the principal amount thereof) will be determined by competitive bidding. The debentures will be issued as a new series under a Sixth Supplemental Indenture, dated as of

V 41 163
AUG 20 76
UMI

September 1, 1976, to the Indenture between Consolidated and Manufacturers Hanover Trust Company, New York, New York, as Trustee, dated as of May 1, 1971. The Indenture includes a prohibition until September 1, 1981, against redeeming the issue with or in anticipation of funds borrowed at a lower effective interest cost. The debentures will be subject to an annual sinking fund of $4,700,000 commencing September 1, 1981, which will leave $4,500,000 principal amount thereof to be redeemed at maturity. The proceeds of the sale of the debentures will be used to finance, in part, the 1976 capital expenditures of Consolidated's subsidiary companies, presently estimated at $191,700,000, of which about 80% will be applied to gas supply projects.

It is stated that the fees and expenses to be incurred in connection with the proposed transaction are estimated at $149,000, including $25,000 service charges of the system service company at cost and accountants fees' and expenses of $13,500. The fees and expenses of counsel for the underwriters are to be paid by the successful bidders, and the amount thereof will be supplied by amendment.

It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than September 3, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-24384 Filed 8-19-76;8:45 am]

[Rel. No. 9396 (812-3994)]

EQUITABLE VARIABLE LIFE INSURANCE CO., ET AL.

Notice of Application Pursuant to Section 6(c) of the Act for Exemption From Section 27(h)(3) of the Act

AUGUST 12, 1976.

Notice is hereby given that Equitable Variable Life Insurance Company ("EVLICO"), a stock life insurance company organized under the laws of the State of New York, Separate Account I of EVLICO (the "Account"), an open-end diversified investment company registered under the Investment Company Act of 1940 (the "Act"), and The Equitable Life Assurance Society of the United States ("Equitable") 1285 Avenue of the Americas, New York, New York 10019, a mutual life insurance company organized under the laws of the State of New York and the parent of EVLICO, (collectively referred to as "Applicants") filed an application on July 21, 1976 pursuant to Section 6(c) of the Act for an order of exemption from Section 27(h)(3) in connection with the sale of variable life insurance contracts covering insureds less than three years of age. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

The Account is a separate investment account to which assets are allocated from time to time to support benefits payable under EVLICO's variable life insurance contracts. For purposes of the Act, the Account is an issuer of variable life insurance contracts which are periodic payment plan certificates under the Act. Equitable and EVLICO are the investment advisers and principal underwriters of the Account.

The Commission has granted to Applicants an exemption from Section 27(h)(1) so that, for the purposes of complying with Section 27, "sales load" may be calculated as the excess of the gross annual premium (exclusive of the $25 administrative contract fee) over the sum of (1) the amount of the cash value for the first year, and the amount of the increase in the cash value for each subsequent year, that is not attributable to investment earnings; (2) the cost of insurance based on the Commissioners 1958 Standard Ordinary Mortality Table; (3) an insurance risk charge of .4% of the premium to cover any insufficiency in the Account to provide for the guaranteed minimum death benefit; (4) 2% of the premium for state premium taxes; (5) any additional premium charged if the insured does not meet standard underwriting requirements; (6) any additional premium charged for any incidental benefits; and (7) deduction for first year administrative expenses of $4 per $1,000 of face amount for the Variable Whole Life Insurance contract and $5 per $1,000 of initial face amount for the Variable Increasing Protection Life Insurance contract. The exemption also permitted EVLICO to compute the sales load, for purposes of Section 27(h)(1), over a period of no longer than 20 years. Using this concept, the sales load with respect to each contract will not exceed (1) 20% of the premiums payable in the first year, (2) 16% of the total premiums payable in the first four years, and (3) 9% of the total premiums payable in the first 20 years and, consequently, will not exceed the maximum limits provided in Sections 27(h)(1) and (2).

EVLICO does not presently offer VLI contracts for issue ages less than 3, because of what Applicants state to be a peculiarity which arises when the foregoing sales load formula is applied to infant ages. The peculiarity arises from the fact that, although mortality rates generally increase with advancing age, such rates may decrease during the first three years of life because of a relatively high likelihood of death immediately following birth. As a result, the cost of insurance in the first year of a contract issued at age 0, 1 or 2, based on the Commissioners 1958 Standard Ordinary Mortality Table, may be higher in relation to the gross annual premium being charged than it is in the following contract year. When this high cost of insurance is deducted from the gross annual premium to derive the sales load under the formula described above, the formula may yield a sales load rate for the second through fourth contract years which exceeds that for the first contract year.

Section 27(h)(3) of the Act, in pertinent part, prohibits an issuer of periodic payment plan certificates, or any underwriter of such issuer, from selling any such certificate if the amount of sales load deducted from any one of the first twelve monthly payments, the thirteenth through twenty-fourth monthly payments, the twenty-fifth through thirty-sixth monthly payments, or the thirty-seventh through forth-eight monthly payments, or their equivalents, respectively, exceeds proportionately the amount deducted from any other such payment. Applicants state that the Commission has administered Section 27(h)(3) so as to prohibit increasing rates of sales load on the grounds that the Section was designed to discourage unduly complicated sales load schedules which purchasers might have difficulty understanding and that schedules involving increasing sales load rates between payment periods might confuse purchasers. In addition, the Section protects purchasers against selling practices which might attract purchases into plans with a low initial sales load only to have a higher sales load assessed against subsequent payments. Accordingly, Applicants request an exemption in order to eliminate any question as to whether Section 27(h)(3) would prohibit the sales load structure described above which would occur when variable life insurance contracts are sold to infants.

Section 6(c) of the Act, in pertinent part, provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants submit that the increase in sales load rates between contract years will not result in a sales load schedule which purchasers might have difficulty understanding. Applicants further point out that there would be no adverse effect on the amount annually allocated to the Account to support the contract reserves ("net annual premium"). The increase in sales load rates between contract years will be a function of the application of the formula described above and because the sales load is merely a balancing factor in that formula, will not result in a net annual premium for the current contract year which is less than the net annual premium for the prior contract year. EVLICO, just as it does with respect to any VLI contract, will draw upon its surplus to pay initial sales costs to the extent that premiums are insufficient. Accordingly, Applicants believe that the requested exemption will be consistent with the protection of purchasers and the purposes intended by the policy and provisions of the Act.

Applicants state that they will comply with any exemptive rule adopted by the Commission which affords broader, or more narrow, exemptions than contemplated in any Commission order issued in response to their application, or, in the case of more narrow exemptions, to terminate the offer and sale of variable life insurance contracts under the circumstances which give rise to the need for exemption.

Notice is further given, that any interested person may not later than September 6, 1976 at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the Rules and Regulations promulgated by the Act, an order disposing of the application will be issued as of course following September 6, 1976 unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 19646 (70-5888)]

MIDDLE SOUTH UTILITIES, INC. AND ARKANSAS POWER AND LIGHT CO.

Notice of Proposed Issuance and Sale of Common Stock by Subsidiary Company to Holding Company

AUGUST 11, 1976.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South") 225 Baronne Street, New Orleans, Louisiana 70112, a registered holding company, and Arkansas Power & Light Company ("Arkansas") First National Building, Little Rock, Arkansas 72203, a public-utility subsidiary company of Middle South, have filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(b), 9(a), 10, and 12(f) of the Act and Rule 43 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Arkansas proposes to issue and sell to Middle South (the holder of all of the issued and outstanding shares of Arkansas' common stock, $12.50 par value per share), and Middle South proposes to acquire, 1,200,000 additional shares of Arkansas' common stock for an aggregate purchase price of $15,000,000 in cash. Upon completion of the foregoing transaction, Arkansas will have issued and outstanding 28,236,773 shares of common stock, which will be stated in its capital common stock account at an aggregate of $352,960,000. Arkansas proposes to use the net proceeds from the sale of the additional common stock to reduce its short-term indebtedness which will have been incurred to finance its construction program. Arkansas' construction program is estimated at $195,700,000 for 1976.

It is stated that the Arkansas Public Service Commission and the Tennessee Public Service Commission have jurisdiction over the issuance and sale of the common stock by Arkansas and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. It is further stated that expenses anticipated in connection with the proposed transaction are estimated at $4,000, including legal fees of $2,000.

Notice is further given that any interested person may, not later than September 10, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is order will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9393 (812-3968)]

TRINWALL CASH RESERVE, INC.

Filing of Application Pursuant to Section 6(c) of the Act for Exemption from Section 2(a)(19) of the Act

AUGUST 11, 1976.

Notice is hereby given that Trinwall Cash Reserve, Inc. ("Applicant"), 61 Broadway, New York, New York 10006, a diversified, open-end management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on June 1, 1976, for an order of the Commission pursuant to Section 6(c) of the Act declaring that John K. Lundberg ("Lundberg") shall not be deemed an "interested person" of Applicant within the meaning of Section 2(a)(19) of the Act by reason of being a director of a company which, through a wholly-owned subsidiary, has a wholly-owned broker-dealer subsidiary. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Applicant states that Lundberg, a member of the Board of Directors of the Applicant, is also a director of Crum & Foster ("C&F"), an insurance holding company. C&F wholly owns a numerous subsidiaries including the Seucrance Corporation, Inc. ("Securance") which in turn has a wholly-owned subsidiary, Continental Estate Planning Associates, Inc. ("Continental"), a registered broker-dealer under the Securities Exchange Act of 1934 ("Exchange Act"). Applicant further states that Continental, pursuant to dealer contracts, offers for sale to the public shares of open-end investment companies of which none are affiliated with Applicant or its manager and distributor, F. Eberstadt & Co. ("Manager"). It states that Continental does not otherwise, directly or indirectly, act as a broker or dealer; but that solely because it sells shares of investment companies, Continental has registered as a broker-dealer and has become a member of the National Association of Securities Dealers, Inc. Applicant further states that neither C&F nor Securance nor Continental has ever engaged in

any securities transactions on behalf of Applicant or its Manager or participated in the distribution of Applicant's shares. Applicant further represents and warrants that, so long as Lundberg remains one of its directors and also a director of C&F, the Applicant will not knowingly purchase any securities from or through, or sell any securities to or through, C&F or any subsidiary of C&F and neither C&F nor any of its subsidiaries will be permitted to participate in the distribution of Applicant's shares.

Applicant states that as a director, Lundberg shares in the general responsibility for the management of C&F but in no way participates in the day to day operations of C&F. It further states that Lundberg is not an officer of C&F or a director or officer of Securance or Continental or in any other way a participant in the day to day operations of Securance or Continental.

Section 2(a)(19) of the Act, in part, defines an "interested person" of an investment company to include any broker or dealer registered under the Exchange Act, or any affiliated person of such broker or dealer, Section 2(a)(3) of the Act, in part, defines an affiliated person of another person to include any director of such other person.

Lundberg, as director of C&F, is an affiliated person of C&F and therefore may be considered an affiliate of its wholly owned subsidiary Continental, which is a broker-dealer registered under the Exchange Act. Thus, Lundberg may be considered an interested person of Applicant. Applicant contends that Mr. Lundberg is in fact an independent director of the Fund and that his relationship with it and the manager is in no way altered by his being a director of C&F. Applicant also notes that on February 12, 1976 the Commission, in Investment Company Act Release No. 9155, granted a similar request of Trinwall Bond Fund, Inc., which shares the same investment adviser as the Fund, by issuing an order that Mr. Lundberg was not to be considered an "interested person" of that fund solely by reason of his directorship with C&F.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person from any provision of the Act or from any rule or regulation under the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 3, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-24383 Filed 8-19-76;8:45 am]

DEPARTMENT OF LABOR

Office of Employee Benefits Security

EMPLOYEE BENEFIT PLANS

Proposed Alternative Method of Compliance

(1) *Notice.* Notice is hereby given that an alternative method of compliance with certain reporting and disclosure requirements for certain employee pension benefit plans associated with Certified Plans, Inc. (CPI), and International Trust Corporation (ITC), of 180 Newport Center Drive, Newport Beach, California, is published herein in proposed form in response to a petition filed with the Secretary of Labor by CPI and ITC on October 29, 1975 (as amended on April 30, 1976), under section 110 of the Employee Retirement Income Security Act of 1974 (the Act).

Before an alternative method of compliance with the reporting and disclosure requirements may be prescribed under section 110 of the Act, the Secretary must determine that the use of such alternative method is consistent with the purposes of Title I of the Act, that it provides adequate disclosure to the participants of the plan and adequate reporting to the Secretary, that the application of the regular reporting and disclosure requirements would increase the costs to the plan or impose unreasonable administrative burdens with respect to the operation of the plan, and that the application of the full reporting and disclosure requirements would be adverse to the interests of plan participants in the aggregate.

In addition, if an alternative method is prescribed other than by regulation, pursuant to section 110 of the Act, the Secretary must provide notice and an opportunity for interested persons to present their views, and must publish in the FEDERAL REGISTER the provisions of such alternative method.

Therefore, in compliance with the above requirements of section 110 of the Act, all interested persons are invited to submit written comments on the proposed alternative method of compliance set forth herein. In order to receive consideration, such comments should be received by the Department of Labor on or before September 20, 1976. Such comments should be submitted by mail or in person to "CPI Alternative", Division of Regulatory Standards and Exceptions, Office of Employee Benefits Security, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. All comments received as well as the petition for the alternative method of compliance submitted by CPI and ITC, will be available for public inspection at the Public Document Room, Office of Employee Benefits Security, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

(2) *Petition.* Certified Plans, Inc. (CPI), and International Trust Corporation (ITC) (the Applicants), members of CPI Group, Inc., and located at 180 Newport Center Drive, P.O. Box 2090, Newport Beach, California, filed a petition with the Secretary of Labor on October 29, 1975, which was amended by a filing on April 30, 1976, requesting an alternative method of compliance with certain reporting and disclosure requirements of the Act. The Applicants are described as a "plan system administrator" (CPI) and a trust company (ITC), respectively, both chartered by the State of California. The Applicants assert that CPI serves as plan system administrator for numerous "small" Keogh ("H.R. 10") and "small" corporate pension plans that cover a total of more than 15,000 participants, and that ITC serves as trustee for the assets of these plans. With few exceptions, these CPI plans are characterized by the Applicants as "earmarked account" plans. Plans not so characterized are not within the scope of the petition or of the proposed alternative method of compliance.

The term "earmarked account" plan is defined in the petition as a defined contribution individual account employee pension benefit plan as developed and offered to employers by CPI. The term "individual account plan" or "defined contribution plan" is defined in section 3(34) of the Act as—

> A pension plan which provides for an individual account for each participant and for benefits based solely upon the amount contributed to the participant's account, and any income, expenses, gains and losses, and any forfeitures of accounts of other participants which may be allocated to such participant's account.

The Applicants assert that such plans meet the description of an individual account plan under section 404(c) of the Act, which states:

> Sec. 404. (c) In the case of a pension plan which provides for individual accounts and permits a participant or beneficiary to exercise control over assets in his account, if a participant or beneficiary exercises control

V 41 163
AUG 20 76
UMI

over the assets in his account (as determined under regulations of the Secretary)—

(1) such participant or beneficiary shall not be deemed to be a fiduciary by reason of such exercise, and

(2) no person who is otherwise a fiduciary shall be liable under this part for any loss, or by reason of any breach, which results from such participant's or beneficiary's exercise of control.

Regulations concerning section 404(c) have not yet been issued.

The Applicants assert that the plan administrator of each such CPI "earmarked account" plan is the employer whose employees are participants in the plan (or such other person as may be designated in the CPI plan documents) and that, as plan administrator, the employer or such other person has the duty to complete and file the Annual Return/Report Form 5500–C for a small corporate pension plan or Form 5500–K for a Keogh Plan. The Applicants further assert that the plan administrator of such a CPI "earmarked account" plan lacks certain information necessary for completion of certain items on the appropriate Annual Return/Report Form relating to party-in-interest transactions; plan assets; compensation for services rendered to the plan; loans or leases in default; changes in trustees, accountants, insurance carriers, enrolled actuaries, administrators, investment managers, or custodians; and the information on Schedule A (Form 5500). The Applicants also assert that since one of the main purposes of the annual report is disclosure of information to plan participants, the completion of such questions would serve no useful purpose for a CPI "earmarked account" plan participant, since the participant, who manages the investment of his own fund, already has this information.

The Applicants assert that a participant who manages his own account under a CPI "earmarked account" plan has all the financial and transactional information pertaining to the management of his own account since he himself advises through investment directives to the Applicants how the account is to be managed and, furthermore, has no need to know how other participants manage their own individual "earmarked accounts" because such knowledge has no relevance to the status of his account and the level of his benefits. Applicants assert that if there are any fiduciaries or parties in interest involved in the management and investment of the participant's "earmarked account", the participant himself is already informed as to who such parties are because the participant alone has determined that such parties be hired. It is asserted that there is no need for identification of the fiduciaries and parties in interest involved in the management of other participants' accounts because nothing such other parties do with respect to these other accounts will have any effect on or relevance to the status of the particular participant's own "earmarked account" and the level of his benefits. Applicants also assert that, functionally, these "earmarked accounts" operate in the same manner as if each such account were a separate trust with a separate investment manager—in each such case the investment manager being the participant himself.

Accordingly, the Applicants request that the Secretary of Labor, pursuant to his authority under section 110 of the Act, prescribe an alternative method of compliance with certain of the reporting and disclosure requirements of section 103 of the Act and the regulations thereunder, whereby the plan administrator of these CPI "earmarked account" plans be relieved of the requirement of completing Items 11, 13 (Columns A & C), 15, 16, 19 (except as such charges relate to the plan as a whole), and Schedule A (Form 5500) of Form 5500–C for corporate plans with fewer than 100 participants; and Items 10, 13, 14, 17 (except as such charges relate to the plan as a whole), and Schedule A (Form 5500) of Form 5500–K for Keogh Plans with fewer than 100 participants.

(3) *Preliminary findings.* Based upon an examination of the representations made in the Applicants' petition (as amended on April 30, 1976) and the sample CPI plan documents submitted by the Applicants, the Secretary makes the following preliminary findings:

The Applicants' "earmarked account" plans as described and defined in part (2), Petition, above, consist of separate "earmarked accounts". Each such account consists of two parts: An employer contributions portion and an employee contributions portion. The first portion is subject to forfeiture and subsequent allocation among the other participants' "earmarked accounts" to the extent it is not vested, pursuant to the requirements of section 203 of the Act. The second portion, composed of mandatory and voluntary employee contributions, is nonforfeitable. The principal of the voluntary employee contributions may be withdrawn by the employee under certain conditions, but the principal of the mandatory employee contributions must remain in trust until plan termination or until distribution upon retirement or withdrawal of the participant.

Both the employer contributions portion and the employee contributions portion for each participant are combined into one account, the "earmarked account," and deposited with ITC, which serves as the trustee of such combined account.

The individual employee-participant has the option of exercising control over the management and investment of his "earmarked account" through directives to CPI (identified as the "plan system administrator" in the plan documents), which in turn directs ITC as trustee to invest the assets in securities, loans, or other properties in accordance with the participant's directives. In the absence of any affirmative participant directives, the assets of the "earmarked account" are deposited for the participant by ITC in an interest-bearing account in a bank chosen by CPI and ITC. Legal title to the assets and any investments and securities of such "earmarked account" always remains in the name of the trustee, ITC.

It should be noted that no findings are made or implied regarding the applicability of sections 404(c) and 412 of the Act to the "earmarked account" plans described in the petition. Sections 404(c) and 412 are outside the scope of this proposed alternative method of compliance, which relates exclusively to certain reporting and disclosure obligations of the Applicants' "earmarked account" plans.

The employer usually is designated as the plan administrator under the plan documents. However, CPI holds all the information regarding administration and management of the plan and its various "earmarked accounts", so that the plan administrator, in order to fulfill its reporting and disclosure duties under Part 1 of Title I of the Act and the regulations issued thereunder, would have to obtain such information from CPI.

CPI at present supplies each participant with statements detailing transactions made involving the participant's individual "earmarked account" shortly after such transactions are made (Daily Activity Statement), and also supplies each participant with a yearly statement detailing all activity of the individual account for the year (Annual Statement). The information contained in such transactional and yearly statements supplied to each participant is supplied to him alone and relates only to the activity of the participant's individual account, and no such information regarding the activity of other participants' accounts is provided to him.

On the basis of the foregoing preliminary findings, and pursuant to section 110 of the Act, the Secretary proposes to make the following determinations with respect to the alternative method of compliance with certain reporting and disclosure requirements for certain individual account pension plans in Part (4), below:

(1) The use of this alternative method of compliance is consistent with the purposes of Title I of the Act, and provides adequate reporting to the Secretary and adequate disclosure to the participants and beneficiaries in plans with respect to which it is available. The statutory reporting and disclosure that is not required by the alternative method set out below is superfluous or irrelevant.

(2) The application of the provisions of section 103 of the Act, requiring the plan administrators of Applicants' plans to report in the annual report listings of fiduciaries and parties in interest, as well as the assets, liabilities, income, loans, leases, and other transactions which involve and affect only the individual "earmarked accounts" in such plans, would (a) increase the costs to each plan for no reasonable purpose, and (b) impose unreasonable administrative burdens with respect to the operation of each plan by requiring the reporting of information concerning other participants which is not relevant to each individual participant.

(3) The application of the particular provisions of section 103 of the Act referred to above would be adverse to the interests of the Applicants' "earmarked account" plan participants in the aggregate, in that it would divert plan assets otherwise available for benefits to the payment of increased reporting and disclosure costs.

Therefore, in accordance with the authority provided under section 110 of the Act, the Secretary of Labor hereby proposes an alternative method of compliance with certain reporting requirements of section 103 of the Act for Applicants' "earmarked account" plans.

(4) *Proposed alternative method of compliance with certain reporting and disclosure requirements for certain individual account pension plans.*

SECTION 1—*Alternative method of compliance.* In accordance with the authority of section 110 of the Employee Retirement Income Security Act of 1974 (the Act), an alternative method of compliance with certain reporting and disclosure requirements of section 103 of the Act is hereby proposed by the Secretary of Labor for CPI "earmarked account" plans that meet the conditions set forth in section 2.

CPI "earmarked account" plans, for purposes of this alternative method of compliance, are defined contribution employee pension benefit plans with fewer than 100 participants on the first day of the plan year which provide for individual accounts, and as to which Certified Plans, Inc. (CPI), serves as plan system administrator and International Trust Corporation (ITC) serves as trustee.

Pursuant to this alternative method of compliance, the plan administrators of such plans that meet the conditions set forth in section 2 are not required to complete certain items on the Annual Return/Report Forms 5500–C and 5500–K relating to transactions with parties in interest; compensation for services rendered to and affecting solely each separate individual CPI "earmarked account"; loans or leases in default; the identification of, or the reporting of and disclosure of, changes in trustee, accountant, insurance carrier, enrolled actuary, administrator, investment manager, and custodian for each CPI "earmarked account"; and insurance information. Specifically, the plan administrators of such plans may omit completion of the following items on Annual/Report Forms filed with the Secretary:

(a) *Forms 5500–C.* Items 11, 13 (Columns A & C), 15, 16, 19, and Schedule A (Form 5500).

(b) *Form 5500–K.* Items 10, 13, 14, 17, and Schedule A (Form 5500).

SEC. 2—*Conditions.* The plans described in section 1 must meet the following conditions in order to utilize the alternative method of compliance set forth in section 1:

(a) Reporting on certain charges—All compensation, fees, commissions, and expenses charged to the plan by CPI or ITC are reported in the Annual Return/Report Form 5500–C or 5500–K, whichever is applicable;

(b) Disclosure—CPI provides to each participant in each CPI "earmarked account" plan full and prompt disclosure of financial information relating to the participant's individual "earmarked account", including (i) the Daily Activity Statement given by CPI to a participant each time there is a transaction in his account and the Annual Statement of each participant's account, and (ii) any additional information relating to the participant's individual "earmarked account" known to CPI that need not be included by the plan administrator in the Annual Report under the terms of section 1 of this alternative method of compliance;

(c) Notice to participants—As soon as possible and not later than 10 days after notice of this proposed alternative method of compliance with the reporting and disclosure requirements is published in the FEDERAL REGISTER, the plan administrator furnishes to each participant or posts continuously and prominently for a period of at least 30 days in locations where it will be seen by substantially all plan participants, a notice that a request has been made for an alternative method of compliance with the ERISA reporting and disclosure requirements. Such notice shall contain a copy of this proposed alternative method of compliance as it appears in the FEDERAL REGISTER, shall state where additional information is available, and shall include the following statement:

Any interested person, including any participant in the (name of plan) and any employee of (name of employer), may present his or her views on the proposed alternative method of compliance with the reporting and disclosure requirements of the Employee Retirement Income Security Act of 1974 for the (name of plan) on or before September 20, 1976, by writing to "CPI Alternative", Division of Regulatory Standards and Exceptions, Office of Employee Benefits Security, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216.

SEC. 3—*Limitation.* This alternative method of compliance shall be effective only for the annual report required to be filed for the plan year which began during 1975.

Signed at Washington, D.C., this 17th day of August 1976.

JAMES D. HUTCHINSON,
Administrator of Pension and Welfare Benefit Programs, U.S. Department of Labor.

Employment and Training Administration

[Field Memorandum No. 224–76]

COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Title I Grant Application Review Guidelines

The Comprehensive Employment and Training Act (CETA) authorizes the Secretary of Labor to grant funds to State and local governments, and to other specified parties, to act as prime sponsors of programs to provide training and employment services to persons in need of such assistance. The Act requires that, prior to granting funds to a title I and title II prime sponsor, the Secretary shall require prime sponsors to submit a comprehensive manpower plan. In order to carry out this responsibility in an equitable and efficient manner, uniform criteria and standard procedures for the review of prime sponsors' grant applications for Fiscal Year 1977 have been developed.

The entire text of Field Memorandum No. 224–76 is published here to inform all interested parties of the Department's implementing procedures. While these procedures are effective immediately, comments are invited and should be submitted to Mr. Pierce Quinlan, Administrator, Office of Comprehensive Employment Development, Room 6000, 6th and D Streets, NW., Washington, D.C. 20213.

U.S. DEPARTMENT OF LABOR
EMPLOYMENT AND TRAINING ADMINISTRATION

[Field Memorandum No. 224–76]

To: All Regional Administrators
From: Floyd E. Edwards, Administrator, Field Operations
Subject: CETA Title I Grant Application Review Guidelines

1. *Purpose.* To transmit guidelines for the review of CETA Title I grant applications for FY '77.

2. *Background.* A workgroup, composed primarily of regional representatives, was established to develop guidelines to assist regional offices in the review of FY '77 CETA Title I grant applications. An ancillary purpose was to assist prime sponsors in planning their programs. The chief motivating factor for the development of grant review guidelines was to provide a common framework against which regional offices and prime sponsors across the country could compare their FY '77 program plans and performance goals.

After a careful analysis of available data, the workgroup selected ten performance indicators around which to develop review guidelines. These are shown on Attachment I to this memorandum. Rather than establish absolute "standards" of performance, the workgroup developed ranges of planned performance to serve as "review guidelines." The use of such ranges provides for flexibility in application and allows for variations among regions and among prime sponsors.

3. *Data Base.* The review guidelines are anchored in historical performance data. Three separate arrays of data were used and analyzed: (1) Actual QPR data for FY '75 and the first half of FY '76; (2) mean and median performance for FY '75 and the first half of FY '76; and (3) frequency distributions of performance for, again, FY '75 and the first half of FY '76 (i.e., the largest percentage of prime sponsors falling within a range of performance). All the data arrays were compared to ascertain what, if any, pattern emerged in terms of historical performance and the strength of the pattern. An attempt was also made to detect trends in performance between FY '75 and FY '76. Although all data arrays were considered in arriving at the guidelines, heaviest reliance was placed on the frequency distribution data which is more indicative of major trends and patterns. The guidelines that have been established reflect not only the statistical analyses of available data, but also the judgments of experienced ETA staff on the reasonableness of expectation for each performance indicator.

The guidelines were then discussed with representatives from each of the regional offices and later presented to the senior staff. As a result of these sessions, additional correlations were run and an attempt was made to be responsive to all major comments. This approach resulted in the grouping of performance indicators into five primary (required) and five secondary (optional) indicators.

a. The five primary indicators are:
(1) Entered Employment Rate
(2) Indirect Placement Rate
(3) Cost per Indirect Placement
(4) Non-positive Termination Rate
(5) Unassigned Participant Rate

b. The five secondary indicators are:
(1) Cost per participant in:
(a) Classroom Training
(b) OJT
(c) Work Experience

V 41 163
AUG 20 76
UMI

(2) Cost Per Individual Enrolled in Program Activities

(3) Turnover Rate

Complete formula descriptions and explanations for each indicator are found in Attachment I to this memorandum.

4. *Approach.* The primary focus in developing these guidelines is to provide a tool for the Federal Representative (FR) to utilize in working with the prime sponsor during the planning process. The FR is the critical link to the understanding and utilization of the guidelines. Therefore, it is incumbent upon each FR to become familiar with these guidelines and to assist his/her prime sponsor(s) in developing a quality plan which will be approvable when submitted to the regional office.

The use of the term guidelines throughout this document is intentional. These "guidelines" are not standards which must be imposed rigorously to each performance indicator in the grant application. Rather, these guidelines are intended to ensure that benchmarks for key performance indicators are built into the review of all FY '77 CETA grant applications. All grant reviewers are required to analyze carefully the five primary indicators. The optional indicators will be used at the discretion of the RA.

The guidelines should not be employed mechanically since they cannot substitute for the knowledge and judgment of Federal staff about the appropriateness of a prime sponsor's plan. The guidelines are provided to assist in determining whether prime sponsor plans are reasonable when compared to national experience. There may be valid reasons for prime sponsor deviation from the recommended ranges. Every attempt has been made throughout the document to emphasize that it is the job of the FR to work with the prime sponsor to ensure that the planned performance can be justified. In this connection, the FR should look also at past prime sponsor performance. There may be cases where prime sponsor performance has been so poor that it reasonably cannot be expected to plan goals that immediately meet the ranges in the proposed guidelines. It will be up to the FR to assist the prime sponsor to develop a plan which will reflect incremental improvements in performance that will bring it closer to the planning guidelines during FY '77.

5. *Use of the Guidelines.* As discussed above, the guidelines are provided as a point of departure for reviewing prime sponsor plans and program goals. Below are recommended procedures for the FR's use of the guidelines:

a. *Planned goal falls within the acceptable range as defined in the grant review package.* This is an indication that the planned performance is probably appropriate. However, FR's should be certain to determine (1) whether the prime sponsor could actually do better, (2) how appropriate the goal is in conjunction with other related goals, (3) it has been accurately and appropriately computed, (4) if it actually is realistic given the past experience of the prime sponsor, and (5) it is consistent with the "program character" described in the narrative and other relevant parts of the grant package.

b. *Planned goal deviates from acceptable range.* This is an indication to the reviewer that further analysis is needed to ensure the goal is appropriate. While variations from the ranges may indeed be acceptable, prior to approving the goal, the FR should (1) review the justification provided by the prime sponsor against the information for acceptable variations provided in Column 2 of the worksheet in Attachment I, (2) carefully review the calculations, (3) review past program performance to determine expectations for variation, (4) review local conditions which were purported to have a causal relationship to the variance, (5) carefully review this goal against other related goals, and (6) generally take every action necessary to ensure that the level is reflective of the best that can reasonably be expected from the prime sponsor given all the conditions above.

c. As indicated previously, the guidelines are for use by the FR in reviewing the reasonableness of each prime sponsor plan. They are not intended and should not be used arbitrarily to reject or accept a prime sponsor's plan but are intended to assist both prime sponsor and FR in determining the appropriateness of the prime sponsor's plans.

In addition to the procedures recommended above, FR's must review the plans for internal consistency to ensure that each part supports the other. The performance ranges set forth in the guidelines are quantitative measures of a prime sponsor's objectives. The narrative description, on the other hand, explains how the prime sponsor plans to accomplish these objectives. These two aspects of the plan also must be interrelated just as each part of the plan must relate to all other parts of the plan.

6. *Grant Narrative.* After much discussion, it was decided that detailed guidelines for the review of the grant narrative would not be developed this year. The regulations and the CETA Forms Preparation Handbook (ETA Handbook No. 311) provides sufficient detail in terms of what should be in each plan. Nonetheless, in reviewing FY '77 prime sponsor grant applications, FR's must review the narrative and other appropriate sections of the grant to ensuer that the prime sponsor will implement a FY '77 program which is consistent with the CETA policy emphasis outlined in Section 94.1(c)(2) of the June 25 regulations. Below, the program emphasis areas identified in the regulations have been grouped into four major categories. Under each of these categories are provided suggested items FR's should look at when reviewing the grant applications to ensure that prime sponsor plans do reflect an approach that will accomplish these objectives:

Program objectives and suggested indicators

Objective. Focus program performance for maximum impact on those most in need.

Suggested review items: (1) Look at planned participation rates for significant segments. Based on available data and personal knowledge do they appear to reflect community needs?

(2) Also, look at planned activities for workers who were displaced by foreign industry and thereafter became beneficiaries under title II of the Trade Act of 1974 to ensure that the needs of affected individuals are being addressed.

Objective. Eliminate duplication so that resources are effectively made available to local communities.

Suggested review items: (1) Is the State employment service represented on the advisory council? Is it a delivery agency? Is there appropriate justification in the grant if the answer is no to either of these questions?

(2) Are other program linkages of CETA funds with EDA, and HUD/CDA funds to further economic development described in the grant?

(3) Have linkages been established with national programs funded under titles III and IV of CETA and title IX of the Older Americans Act?

Objective. Coordinate the planning and operation of the local CETA program with employment opportunities identified in the private sector to ensure maximum potential for placement.

Suggested review items: (1) Are private employers represented on advisory councils?

(2) Do planned placement rates reflect maximized effort to place work experience and public service employment participants into unsubsidized private sector jobs?

(3) To what degree is the prime sponsor planning to use on-the-job training? Does this reflect an increase from previous years?

(4) Do planned placement and follow-up goals for participants who have completed classroom training programs reflect an increased emphasis in placing these individuals in permanent jobs?

(5) Look at the planned program mix. Do planned participation rates for OJT, Classroom Training, Work Experience, PSE and other activities reflect a redirection of title I from an exclusive emphasis on work experience and public service employment to a comprehensive employment and training program?

Objective. Coordinate youth programs and services funded by prime sponsors with the career aspirations of the youth to be served.

(1) Do planned worksites for youth to ensure that worksites will contribute to youth career goals.

7. *Training*—a. *Federal Staff.* In order to ensure that there is a uniform understanding of how the guidelines are to be applied in your region, it is recommended that regional staff be trained as early as possible. If assistance in such training is needed, an attempt will be made to conduct a train-the-trainer session, or arrange for members of the workgroup to come to the region. Special attention is called to the introduction to the performance indicators worksheets. The points made there are crucial to understanding the application and limitations of the review guidelines.

b. *Prime Sponsors.* At a minimum, the attachments should be provided to prime sponsors so that they are aware of the manner in which their plans will be reviewed. The important consideration is that they be aware of the fact that the guidelines will be used in reviewing their plan. Whether prime sponsors are called together for a general orientation to the guidelines or the FR's review the guidelines with them individually is up to the RA. Nevertheless, it is recommended that a personal contact be made with the prime sponsors rather than simply mailing the materials to them without a verbal explanation of how the materials are to be used and what is expected of the prime sponsors.

8. *Action required.* Regional Administrators should: a. Make distribution of the information contained in this field memorandum as soon as possible and inform prime sponsors that these guidelines will be published in the FEDERAL REGISTER.

b. Notify your desk officer if assistance in training is needed so appropriate arrangements can be made.

c. Ensure that the five primary guidelines are used by all reviewers. The optional guidelines will be used at the RA's discretion.

9. *Inquiries.* Questions on this directive should be directed to Marilyn Shea on 8-376-7409.

10. *Attachments.* (RAs only). 1. Introduction to Review Guidelines.

ATTACHMENT I

INTRODUCTION TO REVIEW GUIDELINES

The purpose of the attached worksheets is to guide Federal Representatives in their review of prime sponsor plans for FY 1977. The indicators selected for close analysis are those considered to be most important in assessing program outcomes. As a further guide, the indicators have been grouped into five primary (required) and five secondary (optional) review guidelines. It is hoped that the review guidelines in the worksheets will result in realistic and productive plans for FY 1977, with a minimum of surprises when prime sponsors are assessed during the fiscal year. These guidelines were not developed to provide a rationale for rejection of a plan but rather to provide both Federal Representatives and prime sponsors with a tool to use in establishing and justifying expected program outcomes.

The review guidelines were developed after analyzing categorical program performance data and CETA data through December 31, 1975. The resultant ranges are a synthesis of the experience data and a realistic appraisal of what "should be." In considering the ranges, however, several things should be kept in mind.

1. They are suggested ranges, based largely on nationwide experience factors. Deviations may be expected based on regional nuances and unique characteristics of individual prime sponsors. The ranges do, however, provide a good starting point from which to determine potential problems with program design and delivery, and to make policy decisions on same.

2. Each indicator should not be analyzed in and of itself but rather in terms of its relationship to the other indicators. For example, the cost per indirect placement must be analyzed together with the overall entered employment rate and the indirect placement rate. (These relationships will be discussed in more detail on the worksheets.)

3. Each indicator should also be analyzed in terms of the character of the prime sponsor's program (placement vs. nonplacement oriented, significant segments to be served, etc.). This, too, will be discussed in more detail on the worksheets.

4. A prime sponsor's position, in relationship to the range must be analyzed in terms of previous performance. The concept of incremental improvement is critical here. If a prime sponsor's plan falls well above or below the recommended range, but reasonable improvement over previous performance is planned, deviation from the range may be justified. Approval of a deviation based on this concept should be documented on the worksheets.

As discussed above, the guidelines are provided as a point of departure for reviewing prime sponsor plans and program goals. Below are recommended procedures for the FR's use of the guidelines:

a. *Planned goal falls within the acceptable range as defined in the grant review package.* This is an indication that the planned performance is probably appropriate. However, FR's should be certain to determine (1) whether the prime sponsor could actually do better, (2) how appropriate the goal is in conjunction with other related goals, (3) it has been accurately and appropriately computed, (4) if it actually is realistic given the past experience of the prime sponsor, and (5) it is consistent with the "program character" described in the grant narrative and other relevant parts of the grant package.

b. *Planned goal varies from acceptable range.* This is an indication to the reviewer that further analysis is needed to ensure that the prime sponsor's goal is appropriate. While variations from the ranges may indeed be acceptable, prior to approving the goal, the FR should (1) review the justification provided by the prime sponsor against the information for acceptable variations provided in Column 2 of the worksheet in Attachment I, (2) carefully review the calculations, (3) review past program performance to determine expectations for variation, (4) review local conditions which are purported to have a causal relationship to the variance, (5) carefully review this goal against other related goals, and (6) generally take every action necessary to ensure that the level is reflective of the best that can reasonably be expected from the prime sponsor given all the conditions above.

c. As indicated previously, the guidelines are for use by the FR in reviewing the reasonableness of each prime sponsor plan. They are not intended and should not be used arbitrarily to reject or accept a prime sponsor's plan but are intended to assist both prime sponsor and FR in determining the appropriateness of the prime sponsor's plans.

In addition to the procedures recommended above, FR's must review the plans for internal consistency to ensure that each part supports the other. The performance ranges set forth in the guidelines are quantitative measures of a prime sponsor's objectives. The narrative description, on the other hand, explains how the prime sponsor plans to accomplish these objectives. These two aspects of the plan also must be interrelated just as each part of the plan must relate to all other parts of the plan.

The format of the worksheets is as follows:

Column (1) *Performance Indicator*—Identifies the indicator to be analyzed.

Column (2) *Definition/Program Impact/Relationship to Other Indicators*—Defines the indicator and verbally describes the methodology for computation. It also describes the implications of the indicator in terms of program design and delivery, and alerts Federal Representatives (and prime sponsors) to potential problem areas. As indicated in #2. above, if there is any relationship between an indicator and others, it will be discussed in this column.

Column (3) *Formula*—Presents the formula for computing the indicator, referencing the appropriate sections of the Program Planning Summary (PPS) and Budget Information Summary (BIS), included as part of the grant application. The computations are to be made from the *4th Quarter* columns of the PPS and BIS.

Column (4) *"Results"*—The Federal Representative should enter the result of his/her computation in this column.

Column (5) *Review Guidelines*—Defines the suggested "ideal" range of performance. As stated above, this is based on an analysis of experience data and an assessment of what performance realistically "should be."

Column (6) *Deviation/Explanation*—This column should be used for entering any deviations from the review guidelines and explaining same. Column (2) provides likely reasons for deviation from the range and differentiations within the range. Other explanations, based on the Federal Representative's knowledge of the unique characteristics of the prime sponsor would also apply. In any event, the ultimate decision to accept a deviation from the suggested range belongs with the regional office and any such decision should be documented in this column.

PERFORMANCE INDICATOR WORKSHEETS
PRIME SPONSOR
FEDERAL REPRESENTATIVE
DATE REVIEWED

PRIMARY (REQUIRED) INDICATORS

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Entered Employment rate	The total entered employment rate represents the percentage of those individuals that terminate from CETA program who are placed into unsubsidized employment. It is computed by dividing the number of participants placed into unsubsidized employment (Entering Employment) by the total number terminated. A low such planned rate may be reflective of a poor economic situation in the area. It may also result from the program character-i.e., placement vs. non-placement orientation. A Federal Representative can determine this by noting the percentage of costs, slots assigned to classroom training and OJT compared to the rest of the program. Once making this determination, a decision should be made - based on individual knowledge of the area and other information in the grant - wither the program character is appropriate. The Federal Representative should also consider the following when a low planned placement rate appears: Inadequate labor market analysis and job development techniques on the part of the Prime Sponsor; poor coordination between program activity and job development/placement units; faulty procedures for selecting occupational training areas; OJT contracting techniques; initial assessment and establishment of employability development plans; and intentional underplanning so that performance will look good at assessment time. (Federal Representatives should also take note of plans which may be unrealistically high in response to criticism of previous placement performance.)	PPSI.B.1 PPSI.B.		40 - 49%	

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Indirect Placement Rate	The indirect placement rate is the percentage of participants placed into unsubsidized employment who are placed after receiving CETA services other than assessment and referral. It is computed by dividing the indirect placements by the total entering employment. This has been isolated as a key indicator because it is essential to a determination and evaluation of the relationship between CETA employment/training/supportive services and placements. Most of the comments included in the section on entered employment rate apply here as well. A low planned rate might not only be indicative of difficulty in relating CETA services to a desired outcome but should also alert the Federal Representative to the possibility of duplication of efforts between the CETA Prime Sponsor and other placement-oriented agencies in the area, such as ES. Conversely, maximizing indirect placement rates might tend to maximize cost per placement, depending upon selection of program activities, deliverers of services and the characteristics of the participants to be served. All of these factors should be taken into account by the Federal Representative when analyzing this rate.	PPSI.B.1.b PPSI.B.1		60 - 69%	
Cost Per Indirect Placement	Cost per indirect placement seeks to relate expenditures to a key program outcome. It is computed by dividing the total projected expenditures by indirect placements. It will be influenced by program character (placement vs. non-placement oriented); The prevalent type of placement; the selection of program activities and deliverers; the target population to be served; local economic conditions. Program issues such as coordination between activity and placement units will also impact. Note: This is a good example of an indicator where the concept of incremental progress discussed in the introduction may be applied. More importantly, it is an area where the federal representative and prime sponsor can begin to make judgements on program designs which may or may not be consistent with CETA's mandate as an employability development training program.	DIS F.2 PPSI.B.1.b.		$5,000 - $8,000	

UMI

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Non-Positive Termination Rate	This indicator relates the number of individuals terminating from the CETA program for reason other than placement, enrollment in full-time academic or vocational schools, entering the armed forces, or enrollment in activities funded by another CETA Title or manpower activity not funded by CETA, to the total number of terminations. It is computed by dividing the number of non-positive terminations by the total terminations. A high planned rate should alert the Federal Representative to consider the following issues with Prime Sponsors: outreach, intake and assessment procedures; employability development planning and other techniques for relating service needs to participants; counseling and other methods of keeping individuals in the program; internal coordination and communication between program delivery units. The Federal Representative should also analyze this indicator in the context of the significant segments to be served and the types of services offered. Note: This is another good example of an indicator where the incremental progress concept can be applied.	PPSI. B. 3 / PPSI. B		15 - 19%	
Unassigned Participant Rate	This indicator represents the percentage of those CETA participants currently enrolled who are not enrolled in a specific activity. It is determined by subtracting the total "Currently Enrolled" in Classroom Training (PS), OJT, PSE, Work Experience, and Other Activities from the "Planned Enrollment, end of quarter" and dividing the result by "Planned Enrollment, end of quarter". An inordinately high such percentage should alert the Federal Representative to examine such areas as relating services to participants served, intake and activity scheduling, coordination among program activity units and between program activity and placement units, and employability plan development. Unassigned Participant Rate will impact on the placement indicators, including cost per entered employment, as well as on cost per individual enrolled in a program activity. (Note: In order to determine the extent to which Other Activities is used as a "Holding" mechanism, it is suggested that this indicator be computed both including and not including Other Activities.)	PPSI.C. - (PPS II. A. b. + II. C. b + II. D. b + II. E. b + II. F. b) / PPSI. C (Note: To compute without Other Activities, omit II.F.b from the computation.)		There should be a maximum Unassigned Participant Rate of 15%	

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Cost per classroom training participant	This indicator is computed by dividing the projected expenditures for classroom training by the total enrollments for that component. This cost will vary according to the skills being taught, the length of training, class size, the amount of the allowance payments and the tuition and other instructional costs for the various courses. The degree to which supportive services are provided and included in the classroom training budget is another factor.	BIS F.2.a / PPS II.A.a		$900 - $1,200	
Cost Per OJT Participant	The cost per OJT participant is derived by dividing the total planned expenditures for OJT by the total planned OJT enrollments. While we have developed a cost range where Prime Sponsors may be expected to fall, it is more difficult to place a value on a low or high "cost per." For example, sponsors falling at the high end of the range or above it may not necessarily be planning underutilization or high staff costs, but rather be planning to fund higher pay, higher skill jobs with longer training periods. Conversely, while an extremely low cost per OJT participant may indicate high planned turnover or training in low skill, low paying jobs, it may also indicate that the sponsor is planning to use an OJT reimbursement formula of less than 50% of wages or that training periods will be shorter due to linkages with other training programs. In any case, the range should be used as a tool which leads the Federal Representative to ask the kinds of questions cited above.	BIS F.2.b / PPS II.C.a		$800 - $1,000	

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Cost per work experience participant	The cost per work experience participant is computed by dividing the projected expenditures for this activity by its cumulative enrollments. Where (and whether) a sponsor falls within the range depends upon several factors, including: -- Whether a sponsor plans ancilliary services in conjunction with the work experience component -- Wages to be paid to participants -- Program emphasis (placement or income maintenance oriented). -- Amount of turnover planned -- Population to be served	BIS F.2.d. PPS II.E.a.		$500 - $800	

(1) PERFORMANCE INDICATOR	(2) DEFINITION/PROGRAM IMPACT/RELATIONSHIP TO OTHER INDICATORS	(3) FORMULA	(4) "RESULT"	(5) REVIEW GUIDELINE	(6) DEVIATION/EXPLANATION
Cost per participant enrolled in Program Activities.	This indicator relates to the unassigned participant rate. It is recommended in addition to the traditional "cost per participant served," because the latter may reflect an artificially high number of individuals (since it includes those who are enrolled but not receiving services) and therefore an artificially low "cost per." It is computed by dividing the total expenditures by the average quarterly total of individuals "currently enrolled" in a program activity (excluding Voc.Ed) at the end of a quarter. To preclude inordinately high costs, the following items are essential: -- There should be a specific plan for activity usage, including expenditures. -- There should be standards or formal procedures for the assignment of participants to activities. -- There should be a system for monitoring activity usage with "triggers" for replanning when appropriate. Any information in the plan regarding outreach, intake, and assessment should be analyzed carefully by the Federal Representative. NOTE: In order to determine the extent to which "Other Activities" is used as a "Holding" category, which impacts on the "cost per," it is suggested that this indicator be computed both including and excluding Other Activities.	BIS F.2 PPS II.A.b + II.C.b. + II.D.b. + II.E.b + II.F.b (average quarterly total for the 4 quarters) For computing without Other Activities, omit PPS II.F.b from the computation.		$2,800 - $4,000	
Turnover Rate	The turnover rate is computed by dividing the total terminations by the total enrollments. This rate is a measure of participant flow which is comprised of two factors: the degree of turnover which the numbers represent and the actual quality or type of turnover. A low rate may indicate that the sponsor is planning training and/or services of longer duration. However, it may also be indicative of a high planned unassigned participant rate. Conversely, a high rate may reflect an emphasis on short-term programs which provide service to a maximum number of people. A high rate should alert the Federal Representative to examine the types of terminations indicated on the PPS: entering employment, other positive terminations, non-positive terminations. This indicator is not a measure of quality by itself, but rather provides a clue which should lead to the analysis of other program factors.	PPS I.B. PPS I.A.		45% - 65%	

SUPPLEMENT TO THE CETA TITLE I GRANT APPLICATION REVIEW GUIDELINES

Some of the regional offices have been experimenting with performance indicators in an attempt to improve on what have become almost traditional techniques for measuring and evaluating program outcomes.

Presented below is a cost effectiveness index developed by the New York Regional Office. While the use of this index is not required, the index does provide an example of a type of performance measurement we may want to consider developing for future use. It, therefore, would be helpful to receive feedback on regional experiences in applying this index either as a guideline for reviewing CETA grant applications or as a tool for evaluating actual program performance.

In addition, the ETA national office would be most interested in obtaining information on other types of program measures which regions are presently using or developing.

Comments on the cost effectiveness index and information on other performance measures should be sent to Floyd Edwards, Attention: TGPA (Marilyn Shea) by December 31, 1976. Technical questions on the use of the cost effectiveness index should be directed to Steve Aaronson (8-662-5871).

COST EFFECTIVENESS PER ENTERED EMPLOYMENT INDEX

Cost effectiveness analysis is a method of evaluating results of program efforts in terms of the funds expended on them. The measure most commonly used is a ratio of effectiveness (results) over costs. For CETA, the "result" most often used in judging a prime sponsor's program is the Entered Employment Rate, both in terms of the rate itself and the "cost per." A simple cost-effectiveness formula takes the following form:

$$\frac{\textit{Entered Employment Rate} \times 10{,}000}{\text{Cost per Entered Employment}}$$

The quotient is multiplied by 10,000 to move the decimal point back and simplify interpretation.

At this point, the index is essentially experimental in nature and it is recommended that it be used to establish comparisons among prime sponsors, both regionally and nationally. The analysis of such comparisons offers the possibility to use the index as a tool for identifying characteristics of both successful and unsuccessful programs. Such a tool would be invaluable in evaluating a prime sponsor program character and identifying potential problems in program design in the planning stage before they become "actuals." For example, sponsors uniformly having lower indexes all might exhibit specific problems in coordinating between activity and placement units and job development techniques. Or, there may be a relationship between a high index and certain specific program designs. In any case, the index data for this year should be used as a basis from which to effect comparisons. Beyond the index for overall program performance lies the possibility of using an index to compare such things as major program categories, different target groups, different service sequences for training in an occupation, etc. Currently within prime sponsor capabilities is the application of a cost-effectiveness formula to one program component vs. another, or the deliverers of the same component. In this case the entered employment rate and "cost per" would apply to the component itself. For example:

$$\frac{\text{Cost Per OJT Entered Employment}}{\text{Entered Employment Rate for OJT}} \times 10{,}000$$

The formulas in terms of the PPS and BIS:

$$\text{Cost Effectiveness Per Entered Employment} = \left\{ \begin{matrix} PPS\ I.B.1. \\ PPS\ I.B. \\ BIS\ F.2. \\ PPS\ I.B.1. \end{matrix} \right\} \times 10{,}000$$

For OJT:

OJT Placements
PPS II.C.a.—PPS II.C.b.×10,000
BIS F.2.b.
OJT Placements

Below is an example of how the cost effectiveness index may be applied:

Prime sponsor A plans 1851 terminations for FY 1977. Of these terminations, it is projected that 978 will enter employment. The projected expenditures will be $7,500,000. The index for that sponsor is as follows:

$$\frac{\text{Ent. Empl. Rate} \times 10{,}000}{\text{Cost Per Ent. Empl.}} = \left\{ \begin{matrix} PPS\ I.B.1. \\ PPS\ I.B. \\ BIS\ F.2. \\ PPS\ I.B.1. \end{matrix} \right\} \times 10{,}000$$

$978/1851 \times 10{,}000 = 53/7669 \times 10{,}000$
$= .00691 \times 10{,}000 = 7{,}500{,}000/978$
69.1

Prime sponsor B plans 1300 terminations for FY 1977. Of these terminations, it is projected that 375 will enter employment. Projected expenditures are $5,132,000. The index for that sponsor is as follows:

$$\frac{\text{Ent. Empl. Rate} \times 10{,}000}{\text{Cost Per Ent. Empl.}} = \left\{ \begin{matrix} PPS\ I.B.1. \\ PPS\ I.B. \\ BIS\ F.2. \\ PPS\ I.B.1. \end{matrix} \right\} \times 10{,}000$$

$375/1300 \times 10{,}000 = 29/13685 \times 10{,}000$
$= .00211 \times 10{,}000 = 21.5{,}132{,}000/375$

As a general rule, higher indices reflect greater cost effectiveness. Thus, in this case prime sponsor A appears to be more cost effective than prime sponsor B in the area of participants entering employment. Once sufficient comparative data are accumulated, analyses of specific causal factors related to the indices can be made.

Signed at Washington, D.C., this 12th day of August 1976.

FLOYD E. EDWARDS,
Administrator, Field Operations.

[FR Doc.76-24079 Filed 8-19-76;8:45 am]

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924 (b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St., NW, Washington, D.C. 20213.

Signed at Washington, D.C. this 16th day of August, 1976.

BEN BURDETSKY,
Deputy Assistant Secretary for Employment and Training.

Applications received during the week ending August 13, 1976

Name of applicant	Location of enterprise	Principal product or activitiy
Water Street Partners for Restoration	Williamstown, Me.	Restaurant.
Roger N. Mounier	Claremont, N.H.	Production of footwear and sporting goods.
McConnell Manufacturing Co., Inc.	Prattsburg, N.Y.	Manufacture of farm machinery and steel buildings.
Young Pecan Shelling Co., Inc.	Florence, S.C.	Pecan processing.
Audine Dewey Buffington-Pinecrest Nursing.	Hazlehurst, Miss.	Skilled nursing care for the aged.
Plymouth Wood Treating Co., Inc.	Plymouth, N.C.	Treating wood products with copper, chromate, and arsenic.
Bortz Spring Lake Village, Inc.	Hobe Sound, Fla.	Skilled nursing care.
Tennelec, Inc.	Orangeburg, S.C.	Manufacture of citizen band transceivers and other communications equipment.
Herman Martin Hohelsel	Pierz, Minn.	Restaurant and cocktail bar.
Nova Tran Corp.	Clear Lake, Wis.	Manufacture of power control equipment and related products and plastic coating service.
Fleetwood Oil Co., Inc.	Mowequa, Ill.	Retail and wholesale sales of petroleum products.
Messick Equipment Co.	Memphis, Tex.	Sales and repair of farm machinery.
International Petroleum Services, Inc.	El Dorado, Kans.	Manufacture of oilfield drilling rigs and other types of rigs.
Bob's Home Improvement Center	Manchester, Iowa	Contract building service and retail lumber sales.
Campbell Boat Co., Inc.	Lake Havasu City, Ariz.	Production of fiberglass boats.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Notice of Ending of Federal Supplemental Benefit Period in Minnesota

This notice announces the ending of the Federal Supplemental Benefit Period in the State of Minnesota effective August 7, 1976.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State. A Federal Supplemental Benefit Period commenced in the State of Minnesota on February 8, 1976.

The Act also provides that a Federal Supplemental Benefit Period in a State will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 26 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of Minnesota has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on July 17, 1976, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19 (b), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of Minnesota for the week ending on July 17, 1976, and that the Federal Supplemental Benefit Period in that State terminated on August 7, 1976.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the Minnesota Department of Employment Services of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

Although the Federal Supplemental Benefit Period has terminated, an Extended Benefit Period will continue in effect in the State due to the National "on" indicator for the Federal-State Extended Benefit Program, as announced in a notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 4722. Therefore, Federal-State Extended Benefits will continue to be payable to eligible individuals in the State.

Persons who wish information about their rights to Federal Supplemental Benefits or Federal-State Extended Benefits in the State of Minnesota should contact the nearest Local Office of the Minnesota Department of Employment Services in their locality.

Signed at Washington, D.C., on August 16, 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Notice of Ending of Federal Supplemental Benefit Period in Utah

This notice announces the ending of the Federal Supplemental Benefit Period in the State of Utah effective August 7, 1976.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State. A Federal Supplemental Benefit Period commenced in the State of Utah on February 8, 1976.

The Act also provides that a Federal Supplemental Benefit Period in a State

V 41 163 AUG 20 76 UMI

will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 26 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of Utah has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on July 17, 1976, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(b), and as authorized by the Secretary of Labor's Order 4–75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of Utah for the week ending on July 17, 1976, and that the Federal Supplemental Benefit Period in that State terminated on August 7, 1976.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the Utah Industrial Commission of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an additional eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

Although the Federal Supplemental Benefit Period has terminated, an Extended Benefit Period will continue in effect in the State due to the National "on" indicator for the Federal-State Extended Benefit Program, as announced in a notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 4722. Therefore, Federal-State Extended Benefits will continue to be payable to eligible individuals in the State.

Persons who wish information about their rights to Federal Supplemental Benefits or Federal-State Extended Benefits in the State of Utah should contact the nearest Employment Security Office of the Utah Industrial Commission in their locality.

Signed at Washington, D.C., on August 16, 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

Office of the Secretary

[TA–W–865]

BETHLEHEM STEEL CORPORATION'S LANMAN BOLT PLANT

Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–865; investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing industrial fasteners at the Bethlehem Steel Corporation's Lanman Bolt Plant, East Chicago, Indiana.

The Notice of Investigation was published in the FEDERAL REGISTER on May 25, 1976 (41 FR 21379). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Lanman Bolt Plant, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Employment of production workers at the Lanman Bolt Plant, East Chicago, Indiana of the Bethlehem Steel Corporation decreased 30.9 percent in 1975 from 1974 and declined 50.8 percent in the first quarter of 1976 compared to the first quarter of 1975.

Employment of salaried workers decreased 5.4 percent in 1975 from 1974 and decreased 2.8 percent in the first quarter of 1976 from the first quarter of 1975.

Sales or production, or both, have decreased absolutely. Sales of industrial ferrous fasteners declined 35.8 percent in 1975 from 1974 and decreased 56.3 percent in the first quarter of 1976 from the like period in 1975.

Production at the East Chicago, Indiana plant decreased 25.3 percent in 1975 from 1974 and declined 53.9 percent in the first quarter of 1976 from the first quarter of 1975.

Increased imports. Domestic manufacturers of standard ferrous fasteners have experienced a steady erosion of their market in recent years as a result of increased import competition. Imports of ferrous bolts and screws increased absolutely and relatively in each year from 1971 through 1974. Although imports declined absolutely in 1975 from 1974, the ratio of imports to domestic consumption continued to rise in 1975 over 1974 for both products. From 1974 to 1975, the import to consumption ratio increased from 17.1 percent to 17.9 percent for bolts and rose from 28.1 percent to 29.9 percent for screws.

Contributed importantly. The evidence developed in the Department's investigation indicates that in recent years customers had reduced their purchases of standard fasteners from the Lanman Bolt Plant and had increased their purchases of imported bolts and screws. Customers stated that there was a significant price differential between domestically produced and foreign produced fasteners.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with industrial fasteners produced at the Bethlehem Steel Corporation's Lanman Bolt Plant, East Chicago, Indiana, contributed importantly to the total or partial separation of the workers of that firm. In accordance with the provision of the Trade Act of 1974, I make the following certification:

All workers at the Bethlehem Steel Corporation's Lanman Bolt Plant, East Chicago, Indiana, who became totally or partially separated from employment on or after April 15, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76–24546 Filed 8–19–76;8:45 am]

[TA–W–861]

MODULUS CORP.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–861: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976, in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing metal fasteners at Modulus Corporation, Mt. Pleasant, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20955). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Modulus Corporation, its customers, the Industrial Fastener Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Employment of production workers at the Mt. Pleasant plant of Modulus Corporation decreased 11 percent in 1975 from 1974 and decreased 27 percent in the first quarter of 1976 compared to the first quarter in 1975.

Sales or production, or both, have decreased absolutely. Production of metal fasteners declined 29 percent in 1975 from 1974 and declined 44 percent in the first quarter of 1976 compared to the same period in 1975. After comprising nearly 60 percent of total output by the Mt. Pleasant plant in 1974, production of standard fasteners declined to 54.5 percent of output in 1975 and 46.6 percent of output in May 1976.

Sales of metal fasteners declined 25 percent in 1975 from 1974 and declined 32 percent in the first quarter of 1976 compared to the same period in 1975.

Increased imports. Domestic manufacturers of standard ferrous fasteners have experienced a steady erosion of their market in recent years as a result of increased import competition. Imports of ferrous bolts and nuts increased absolutely and relatively in each year from 1971 through 1974. Although imports declined absolutely in 1975 from 1974, the ratio of imports to domestic consumption continued to rise in 1975 over 1974 for both products. From 1974 to 1975, the imports to consumption ratio increased from 17.1 percent to 17.9 percent for bolts and rose from 51.8 percent to 53.0 percent for nuts.

Contributed importantly. Customers indicated that they purchase fasteners from distributors who deal in imported standard fasteners. A significant price differential exists between those fasteners offered by the distributors and those offered by domestic manufacturers.

Conclusion. After careful review of the facts obtained in the investigation I conclude that increases of imports like or directly competitive with metal fasteners produced by Modulus Corporation, Mt. Pleasant, Pennsylvania contributed importantly to the total or partial separation of the workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Modulus Corporation, Mt. Pleasant, Pennsylvania who became totally or partially separated from employment on or after April 15, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76–24551 Filed 8–19–76;8:45 am]

HONEY

Study Report

On June 29, 1976, the International Trade Commission determined that increased imports of honey are a substantial cause of the threat of serious injury to the domestic industry for purposes of the import relief provisions of the Trade Act of 1974 (41 FR 27786).

Section 224 of the Trade Act directs the Secretary of Labor to initiate an industry study whenever the ITC begins an investigation under the import relief provisions of the Act. The purpose of the study is to determine the number of workers in the domestic industry petitioning for relief who have been or are likely to be certified as eligible for adjustment assistance and the extent to which existing programs can facilitate the adjustment of such workers to import competition. The Secretary is required to make a report of this study to the President and also make the report public (with the exception of information which the Secretary determines to be confidential).

The Department of Labor has concluded its report on honey. The report found as follows:

1. Since April 3, 1975, the effective date of the adjustment assistance program, the Department of Labor has not received any petitions for certification of eligibility for adjustment assistance involving workers engaged in the production and/or processing of honey. Due to the high degree of seasonality in the commercial honey industry, the great majority of honey production workers who may be displaced may be effectively excluded from trade readjustment and relocation allowances by the requirement in the Act that all eligible workers must have been employed at least 26 of the 52 weeks immediately preceding their separations in adversely affected employment with a single firm.

2. The Labor Department survey of honey producers and processors did not reveal any concentrations of workers laid off by the industry.

3. Only one of the firms responding to the survey appears to have a potential for laying off a significant number of its workers over the next year. The firm, which is a processor located in California, could lay off as many as 15 workers. The prospects for their re-employment are fair.

4. The Comprehensive Employment and Training Act (CETA) programs in the areas where processing plants and apiaries are located appear to have sufficient funds to meet the needs of unemployed workers. However, many training programs have already exceeded expected enrollment levels. The Employment and Traning Administration through the State Employment Service has the authority to purchase additional training when CETA funds are not available.

Copies of the Department report containing nonconfidential information developed in the course of the 6-month investigation may be purchased by contacting the Office of Trade Adjustment Assistance, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210 (phone 202–523–7665).

Signed at Washington, D.C. this 13th day of August 1976.

JOEL SEGALL,
Deputy Under Secretary International Affairs.

[FR Doc.76–24543 Filed 8–19–76;8:45 am]

[TA–W–858]

NYANZA, INC.

Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein prsents the results of TA–W–858: investigation regarding certification of eligibility to apply for worker

V 41 163 AUG 20 76 UM

adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 16, 1976 in response to a worker petition received on February 16, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing dyes and intermediates at Nyanza, Incorporated, Ashland, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20956), as amended on August 3, 1976 by 41 FR 32492. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Nyanza, Inc., its customers, the United Steelworkers of America, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all the criteria have been met.

Significant total or partial separations. The average number of workers at the Ashland plant decreased 47.95 percent in 1974 compared to 1973 and decreased 52.36 percent in 1975 compared to 1974.

Sales or production, or both, have decreased absolutely. Production of dyes and intermediates at the Ashland plant decreased 73.00 percent in 1975 compared to 1974 and decreased 23.25 percent in the first quarter of 1976 compared to the same period of 1975.

Increased imports. When compared to each preceding year, U.S. imports of acid dyes, in terms of quantity, increased in 1972, decreased in 1973, increased in 1974 and remained the same at 3.4 million pounds in 1975. The ratios of imports to domestic production increased from 13.9 percent in 1974 to 15.9 percent in 1975.

When compared to each preceding year, U.S. imports of direct dyes, in terms of quantity, decreased in 1972, 1973, 1974 and remained the same at .7 million pounds in 1975. The ratios of imports to domestic production increased from 2.2 percent in 1974 to 2.4 percent in 1975.

Contributed importantly. The Department's investigation indicated that customers have increased purchases of imported dyes and have decreased purchases from Nyanza.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with dyes and intermediates produced by the Ashland, Massachusetts plant of Nyanza, Incorporated, contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Ashland, Massachusetts plant of Nyanza, Incorporated who became totally or partially separated from employment on or after January 16, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-24547 Filed 8-19-76;8:45 am]

[TA-W-915]

RICHMOND SCREW ANCHOR CO.

Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-915: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 28, 1976 in response to a worker petition received on May 28, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing tying devices, anchorages, inserts, and accessories at the Tremont, Pennsylvania plant of Richmond Screw Anchor Company.

The notice of investigation was published in the FEDERAL REGISTER on June 25, 1976 (41 FR 26299). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Richmond Screw Anchor Company, its competitors, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that without regard to whether any of the other criteria have been met, criteria (3) has not been met.

The Richmond Screw Anchor Company, Tremont, Pennsylvania produces tying devices, anchorages, inserts and accessories. All of the products produced at the Tremont plant are used in various stages of concrete construction.

The evidence developed during the Department's investigation reveals that there are no identifiable import statistics in the Tariff Schedules of the United States on tying devices, anchorages, inserts, and accessories like or directly competitive with those produced at the Tremont, Pennsylvania plant of Richmond Screw Anchor Company. Furthermore, domestic firms producing tying devices, anchorages, inserts and accessories do not believe this business is subject to any import influence. The market for products similar to those manufactured by Richmond Screw Anchor Company is a specialized one and is not of sufficient size and concentration to warrant import competition.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with tying devices, achorages, inserts, and accessories produced at the Tremont, Pennsylvania plant of Richmond Screw Anchor Company did not contribute importantly to the total or partial separations of the workers at such plant as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[TA-W-893]

TITANIUM PIGMENTS DIVISION, N. L. INDUSTRIES, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Workers Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-893: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 19, 1976 in response to a worker petition received on May 19, 1976 which was filed by the Chemical Workers Basic Union on behalf of workers and former workers producing titanium dioxide pigment at the St. Louis, Missouri plant of the Titanium Pigments Division of N. L. Industries, New York, New York.

The notice of investigation was published in the FEDERAL REGISTER on June 15, 1976 (41 FR 24234). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of N. L. Industries, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criteria two (2) and four (4) have not been met.

U.S. imports of titanium dioxide pigment declined in each year from 1972 through 1975. U.S. imports of titanium dioxide pigment were 86,379 tons in 1972 declining to 60,419 tons and 34,996 tons, respectively, in 1973 and 1974. Imports declined to 26,506 tons in 1975. U.S. imports of titanium dioxide pigment increased from 4,057 tons in the first quarter of 1975 to 10,698 tons in the first quarter of 1976.

The ratio of imports of titanium dioxide pigment to domestic production declined from 12.0 percent in 1972 to 7.7 percent in 1973. The ratio of imports to domestic production declined to 4.4 percent in 1974 and remained at 4.4 percent in 1975. The ratio of imports to domestic production increased from 3.1 percent in the first quarter of 1975 to 5.7 percent in the same quarter of 1976.

The ratio of imports to titanium dioxide pigment to consumption was 10.9 percent in 1972. The ratio of imports to consumption declined to 7.4 percent and 4.4 percent, respectively in 1973 and 1974. The ratio of imports to consumption declined to 4.3 percent in 1975. The ratio of imports to consumption increased from 3.2 percent in the first quarter of 1975 to 5.6 percent in the same quarter in 1976.

Company sales and production increased 38.8 and 71.0 percent, respectively in the first quarter of 1976 compared to the preceding quarter. First quarter 1976 sales increased over first quarter 1975 sales by 71.7 percent.

Company employment of production workers increased 76.7 percent in the first quarter of 1976 compared to the preceding quarter.

A survey of customers purchasing titanium dioxide pigment produced at the St. Louis, Missouri plant indicated that none of these customers purchased titanium dioxide pigment in significant amounts from foreign sources.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of titanium dioxide pigment have not contributed importantly to the total or partial separation of workers at Titanium Pigments Division, N.L. Industries, Inc. as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-24548 Filed 8-19-76;8:45 am]

[TA-W-881]

THE TORRINGTON CO.

Notice of Negative Determination Regarding Eligibility To Apply for Workers Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-881: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 19, 1976 in response to a worker petition received on May 19, 1976 which was filed by three workers on behalf of workers and former workers producing antifriction roller bearings at the Broad Street plant of the The Torrington Company, Torrington, Connecticut. The Department's investigation revealed that production at the Broad Street plant consists of only the roller components utilized in the roller bearings produced by The Torrington Company.

The Notice of Investigation was published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23821). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Torrington Company and its customers, the U.S. Department of Commerce, the International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

Significant total or partial separations. The average number of production workers at the Broad Street plant increased 8.6 percent in 1974 compared to 1973, decreased 12.0 percent in 1975 compared with 1974 and has decreased 2.8 percent in the first quarter of 1976 compared with the first quarter of 1975.

Sales or production, or both, have decreased absolutely. Sales of anti-friction bearings in terms of value by The Torrington Company increased 11.3 percent in 1974 compared with 1973, decreased 10.1 percent in 1975 compared with 1974 and have increased 18.0 percent in the first quarter of 1976 compared with the first quarter of 1976.

Production of the anti-friction bearing roller components at the Broad Street plant increased 8.9 percent in terms of value in 1974 compared with 1973, decreased 10.7 percent in 1975 compared with 1974 and has increased 31.9 percent in the first quarter of 1976 compared with the first quarter of 1975.

Increased imports. Imports of antifriction roller bearings, other than tapered, in terms of value increased 58.5 percent in 1972 compared with 1971, increased 16.1 percent in 1973 compared with 1972, increased 72.3 percent in 1974 compared with 1973 and increased 20.5 percent in 1975 compared with 1974. The ratios of imports to domestic production and consumption increased from 8.6 percent and 8.7 percent, respectively, in 1974 to 9.9 percent and 9.9 percent, respectively, in 1975.

Contributed importantly. The Torrington Company imports no roller bearing rollers and Company roller bearing imports have averaged less than 1.5 percent of total sales since 1973.

V 41 163 AUG 20 76 UM

None of the customers surveyed have shifted purchases of roller bearings from Torrington to foreign sources. Reductions in purchases of roller bearings by automobile and automotive component parts manufacturers from Torrington and other domestic bearings manufacturers were in response to slumping automobile sales and production in 1975. Reductions in bearings purchases by non-automotive customers were made in response to adverse domestic business conditions. Imports were not a factor.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with anti-friction roller bearing rollers produced at the Broad Street plant of The Torrington Company located in Torrington, Connecticut did not contribute importantly to the total or partial separation of the workers at such plant.

Signed at Washington, D.C. this 11th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-24545 Filed 8-19-76;8:45 am]

[TA-W-898]

UNITED TOOL & DIE, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-898: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing tools, dies, jigs, and fixtures at United Tool & Die, Inc., Salem, Ohio.

The notice of investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24803). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of United Tool & Die, Inc., its customers, the Department of Commerce, the International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

Significant total or partial separation. Employment at United Tool and Die declined 32 percent in 1975 compared to 1974, and by 52 percent in the first 5 months of 1976 compared to the same period of 1975. United Tool & Die closed on May 30, 1976.

Sales or production, or both, have decreased absolutely. Production of tools, dies, jigs and fixtures at United Tool & Die, Inc., decreased 30 percent in 1975 compared to 1974 and 53 percent in the first 5 months of 1976 compared to the same period of 1975, and ceased altogether with the closure of the plant in May 1976.

Increased imports. U.S. imports of tools, dies, jigs and fixtures increased both absolutely and relative to domestic production each year from 1971 to 1974. The value of imports of these items decreased from $30.1 million in 1974 to $29.8 million in 1975, and from $8.8 million in the first quarter of 1975 to $6.2 million in the first quarter of 1976. Relatively, imports increased from 1.18 percent of domestic production in 1974 to 1.69 percent in 1975.

The estimated value of imports of tools, dies, jigs and fixtures similar to the type manufactured by United Tool & Die, Inc., in no year from 1971 through 1975 represented more than 2 percent of domestic production and consumption.

Contributed importantly. Evidence developed in the Department's investigation revealed that customers of United Tool & Die, Inc., who decreased purchases did so primarily due to the adverse effects of the downturn in the economy in general, and the auto industry in particular, and the auto industry's increasing use of captive, in-house tool and die shops. Any decrease in purchases from United Tool & Die, Inc., in fiscal 1976 by customers who did shift to foreign sources represented only a minor amount of fiscal 1976 sales.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases in imports of tools, dies, jigs and fixtures like or directly competitive with those produced by United Tool & Die, Inc., Salem, Ohio did not contribute importantly to the total or partial separations of the workers of that firm.

Signed at Washington, D.C., this 12th day of Augst 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-24550 Filed 8-19-76;8:45 am]

[TA-W-910]

WILKINSON AND SON, INC.

Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-910: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 28, 1976 in response to a worker petition received on that date which was filed on behalf of workers and former workers who fabricate and install marble for Wilkinson and Son, Incorporated, Somerville, New Jersey.

The noitce of investigation was published in the FEDERAL REGISTER on June 25, 1976 (41 FR 26298). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from company officials of Wilkinson and Son, Incorporated, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criteria (1) and (4) have not been met.

The Department's investigation revealed that Wilkinson and Son, Incorporated, in Somerville, New Jersey, is a subcontractor engaged in procuring and installing stone materials for construction projects in the New York-New Jersey metropolitan area. Wilkinson handles ceramic tile, brick paving, exposed aggregate systems, terrazzo, marble, granite, lathing, plastering, and spray fireproofing services.

The only production facility operated by Wilkinson is a marble shop in Somerville, New Jersey. The shop is designed to handle small projects which do not require special machinery. The marble fabricated at the Somerville shop accounted for about two or three percent of Wilkinson's total volume of business in the last year.

Fabricated marble for large projects is purchased from larger marble shops in the U.S. or abroad. Company imports consist of rough marble, for fabrication at the Somerville shop, and of finished marble, for installation at the job site.

Wilkinson employs members of the Marble Workers Union either to fabricate marble at the Somerville shop or to install finished marble at job sites in the New York-New Jersey metropolitan area. In the last year there have been no layoffs due to lack of work at the marble shop, as required under Section 222(1) of the Act. Furthermore, evidence from past adjustment assistance cases involving marble firms in the New York City area indicates that since June 1975 marble installers have been allowed under a new union rule to install imported marble. Marble installers working for Wilkinson have not been adversely affected by increased imports of marble as required under Section 222(4) of the Act.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the marble fabricated at the Somerville plant of Wilkinson and Son, Incorporated, Somerville, New Jersey, did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 12th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 123]

ASSIGNMENT OF HEARINGS

AUGUST 17, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 97310 (Sub-No. 20), Sharron Motor Lines, Inc., now assigned September 13, 1976 at Montgomery, Alabama; will be held in Room 816 Aronov Building, 474 South Court Street.

MC-C-8733, Cango Corporation McNair Transport, Inc., Robertson Tank Lines, Inc., Chemical Leaman Tank Lines, Inc., Groendyke Transport Inc., and Western Commercial Transport Inc.—Investigation and Revocation of Certificates, now assigned September 21, 1976 at Dallas, Texas; will be held in Room 5A15–17 Federal Building, 1100 Commerce Street.

MC 19227 (Sub-No. 224), Leonard Bros. Trucking Co., Inc., now assigned September 24, 1976 at Dallas, Texas; will be held in Room 5A15–17 Federal Building, 1100 Commerce Street.

MC 111729 (Sub-No. 565), Purolator Courier Corp., now assigned September 27, 1976 at New Orleans, La.; will be held in East Courtroom, Room 223, U.S. Court of Appeals, 600 Camp Street.

MC 2860 (Sub-No. 150), National Freight, Inc., now assigned September 28, 1976, at Atlanta, Georgia; will be held in Room 305, 1252 W. Peachtree Street, N.W.

MC 119789 (Sub-No. 270), Caravan Refrigerated Cargo, Inc., now assigned September 30, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, N.W.

MC 106674 (Sub-No. 176), Schilli Motor Lines, Inc., now assigned October 1, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, N.W.

MC 107515 (Sub-No. 1002), Refrigerated Transport Co., Inc., now assigned October 4, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, N.W.

MC 29748 (Sub-No. 4), Direct Transport, Inc., now assigned September 28, 1976 at Raleigh, North Carolina; will be held in Room 209, Federal Building, 310 New Bern Avenue.

MC 123407 (Sub 298), Sawyer Transport, Inc., now being assigned September 27, 1976 at the Offices of the Interstate Commerce Commission in Washington, D.C.

ROBERT L. OSWALD,
Secretary.

[FR Doc. 76-24495; Filed 9-18-76; 8:45 am]

[AB 103 (Sub-No. 1)]

KANSAS CITY SOUTHERN RAILWAY COMPANY ABANDONMENT IN LAKES CHARLES, CALCASIEU PARISH, LOUISIANA

AUGUST 9, 1976.

The Interstate Commerce Commission hereby gives notice that its Environmental Affairs Staff has concluded that the proposed abandonment by the Kansas City Southern Railway Company (KCS) of its line of railroad in Lake Charles and West Lake, La., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that almost all of the traffic on the line is bridge traffic which would be rerouted over the nearby Southern Pacific line. Diversion of remaining traffic should result in only minimal increases in energy consumption, air pollution, and noise levels. Furthermore KCS has stated its intention to build connecting tracks to the SP so that the non-bridge traffic will continue to have direct rail access. There are no indications of developmental activities which relate to the line, and, therefore, the abandonment is not expected to have a serious adverse impact upon community development.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202–275–7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before September 17, 1976.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently comments, on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[Notice No. 106]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 16, 1976.

Important Notice: The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be

V 41 163 AUG 20 76 UM

no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 37327 (Sub-No. 7TA), filed August 9, 1976. Applicant: PENN EMPIRE TRANSPORT, INC., P.O. Box 517, Livongston Ave., Jamestown, N.Y. 14701. Applicant's representative: Ronald W. Malin, Bankers Trust Bldg., Jamestown, N.Y. 14701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Voting machines*, uncrated *and voting machine accessories*, between Jamestown, N.Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, Rhode Island, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, New York, West Virginia, and the District of Columbia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: AVM Corporation, 15 W. Second St., Jamestown, N.Y. 14701. Send protests to: George M. Parker, District Supervisor, Room 910, 111 West Huron St., Buffalo, N.Y. 14202.

No. MC 47710 (Sub-No. 2TA), filed August 9, 1976. Applicant: G.J.R., INC., 7390 Harrison Pike, Cincinnati, Ohio 45247. Applicant's representative: Gordon J. Rahschulte (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand and gravel or crushed stone*, in bulk, in dump trucks, from the plant facilities of American Materials Corp., located at or near Harrison, Ohio, to Dearborn County Ready-Mix Plant at or near Greendale, Ind., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: James L. Luegers, Assistant District Manager, American Materials Corp., P.O. Box 213, Harrison, Ohio. Send protests to: Paul J. Lowry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5514–B Federal Bldg., 550 Main St., Cincinnati, Ohio 45202.

No. MC 106398 (Sub-No. 748TA), filed August 9, 1976. Applicant: NATIONAL TRAILER CONVOY, INC., 525 S. Main, P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass reinforced plywood panels*, from Washington Court House, Ohio, to points in North Carolina and Missouri, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Cor-Tec, Inc., 2351 Kenskill Ave., Washington Court House, Ohio 43160. Send protests to: Joe Green, District Suprevisor, Room 240, Old Post Office Bldg., 215 Northwest Third St., Oklahoma City, Okla. 73102.

No. MC 107478 (Sub-No. 24TA), filed August 9, 1976. Applicant: OLD DOMINION FREIGHT LINE, P.O. Box 2006, High Point, N.C. 27261. Applicant's representative: J. T. Coon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products and fruit or flavored drinks* (except in bulk, in tank vehicles), from Spartanburg, S.C., to points in North Carolina, Virginia, Maryland, South Carolina, Georgia, Florida, Alabama, and Tennessee. Applicant intends to tack its existing authority with MC 107478 and sub-numbers thereof, for 180 days. Supporting shipper: Colonial Stores Incorporated, P.O. Box 4358, Atlanta, Ga. 30302. Send protests to: Archie W. Andrews, District Supervisor, P.O. Box 26896, 624 Federal Bldg., 310 New Bern Ave., Raleigh, N.C. 27811.

No. MC 110191 (Sub-No. 29TA), filed August 10, 1976. Applicant: TURNER'S EXPRESS, INC., 1300 Shelton Ave., P.O. Box 1006, Norfolk, Va. 23502. Applicant's representative: D. L. Turner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, and Classes A and B explosives), in containers having a prior or subsequent movement by water, *and empty containers* having a prior or subsequent movement by water *and general commodities* (except in bulk and Classes A and B explosives), between Norfolk, Va., and points within 50 miles of Norfolk, Va., including Norfolk, Va., Accomac and Northampton Counties, Va. Applicant intends to tack its existing authority with MC 110191. Applicant also intends to interline at Norfolk, Va., for 180 days. Supporting shippers: There are approximately 7 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, 10–502 Federal Bldg., 400 N. 8th St., Richmond, Va.

No. MC 116004 (Sub-No. 39TA), filed August 9, 1976. Applicant: TEXAS OKLAHOMA EXPRESS, INC., P.O. Box 47112, Irving, Tex. 75247. Applicant's representative: Doris Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from the facilities of Midland Glass Company, Inc., located at or near Henryetta, Okla., to points in Indiana, Iowa, Illinois, Ohio, Missouri, Kansas, and Texas, for 180 days. Supporting shipper: Midland Glass Company, Inc., P.O. Box 557, Cliffwood, N.J. 07721. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce St., Room 13C12, Dallas, Tex. 75242.

No. MC 118159 (Sub-No. 181TA), filed August 9, 1976. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366, Dawson Station, Tulsa, Okla. 74151. Applicant's representative: Neil A. Du Jardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from the plantsite and storage facilities of Midland Glass Company, Inc., located at or near Henryetta, Okla., to points in Arkansas, Colorado, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, and Texas, for 180 days. Supporting shipper: Midland Glass Company, Inc., P.O. Box 557, Cliffwood, N.J. 07721. Send protests to: Joe Green, District Supervisor, Room 240, Old Post Office Bldg., 215 Northwest Third St., Oklahoma City, Okla. 73102.

No. MC 124251 (Sub-No. 39TA), filed August 9, 1976. Applicant: JACK JORDAN, INC., Highway 41 South, P.O. Box 689, Dalton, Ga. 30720. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 W. Peachtree St., N.W., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground limestone*, in bulk, in tank vehicles, from Cumberland County, Tenn., to points in Whitefield and Gordon Counties, Ga., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Duvall Chemical, Inc., P.O. Box 3097, Dalton, Ga. 30721. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 125433 (Sub-No. 82TA), filed August 9, 1976. Applicant: F–B TRUCK LINE COMPANY, 1945 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: Kenneth W. Barber (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from Panguitch, Utah, and Fredonia, Ariz., to points in Oklahoma, Texas, and Arkansas, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kaibab Industries, P.O. Box 20506, Phoenix, Ariz. 85026. Send protests to: Lyle D. Helfer, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Bldg., 125 South State St., Salt Lake City, Utah 84138.

No. MC 134022 (Sub-No. 21TA), filed August 9, 1976. Applicant: RICHARD A. ZIMA, doing business as ZIPCO, P.O. Box 715, West Bend, Wis. 53095. Applicant's representative: Richard A. Zima (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Imported malt beverages*, in packages or containers, from Port of Entry, Detroit and Port Huron, Mich., to Milwaukee, Wis., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: "Tiffany Distributing, Inc., 3516 W. Pierce St., Milwaukee, Wis. 53215. Send protests to: John E. Ryden, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203.

No. MC 135384 (Sub-No. 21TA), filed August 9, 1976. Applicant: SPECIALIZED TRUCK SERVICE, INC., Highway 81 & I–75, Route 3, McDonough, Ga. 30253. Applicant's representative: Frank D. Hall, 3384 Peachtree Road, N.E., Suite 713, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, related advertising material and empty malt beverage containers*, from Fort Worth, Tex., to Panama City, Fla., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Panama Beverage Company, 927 Mulberry Ave., Panama City, Fla. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 136897 (Sub-No. 18TA), filed August 4, 1976. Applicant: SWIFT TRANSPORTATION COMPANY, INC., 335 W. Elwood Road, Phoenix, Ariz. 85041. Applicant's representative: Donald E. Fernaays, Suite 312, 4040 E. McDowell Road, Phoenix, Ariz. 85008. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Composition and prepared roofing*, from points in Los Angeles County, Calif., to points in Arizona, under a continuing contract with A. & H. Supply Company, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: A. & H. Supply Company, Inc., 1702 E. Jackson, Phoenix, Ariz. 85034. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Room 3427 Federal Bldg., 230 N. First Ave., Phoenix, Ariz. 85025.

No. MC 138144 (Sub-No. 10TA), filed August 9, 1976 Applicant: FRED OLSON CO., INC., 6022 W. State St., Milwaukee, Wis. 53213. Applicant's representative: Daniel C. Sullivan, 237 South La Salle St., Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*; and (2) *Materials and supplies* used in the manufacture and distribution of electric motors and generators, from Earlville, Ill., to Wausau, Wis., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Support shipper: Marathon Electric Manufacturing Corp., Randolph & Cherry Streets, Wausau, Wis. 54001. Send protests to: John E. Ryden, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203.

No. MC 138933 (Sub-No. 6 TA), filed August 9, 1976. Applicant: DEUTZ & CROW CONCRETE CORP., 800 West College Drive, P.O. Box 589, Marshall, Minn. 56258. Applicant's representative: James B. Hovland, 425 Gate City Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bulk cement*, from Watertown, S. Dak., to Marshall, Canby and Madison, Minn., under a continuing contract with Deutz & Crow Co., Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Deutz & Crow Co., Inc., Box 85, Marshall, Minn. 56258. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Bldg., & U.S. Courthouse, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 138952 (Sub-No. 2TA), filed August 6, 1976. Applicant: CENTRAL CITY EXPRESS, INC., 1822 Rarkway Towers, P.O. Box 7402, Nashville, Tenn. 37210. Applicant's representative: George M. Catlett, 703–706 McClure Bldg., Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, classes A and B explosives, commodities in bulk and those requiring special equipment), between Nashville, Tenn., and Central City, Ky., serving all intermediate points between Russellville, Ky., and Central Ctiy, Ky. (except Russellville), and serving Paradise, Ky., as an off-route point in connection with carrier's authorized regular route operations, from Nashville, Tenn., over U.S. Highway 431 to Central City, Ky., and return over the same route; from Nashville, Tenn., over U.S. Highway 41 to junction U.S. Highway 431, at Springfield, Tenn., and thence over U.S. Highway 431 to Central City, Ky., and return over the same route. Restriction: Restricted against the handling of traffic originating at or destined to Louisville, Ky., and points within its commercial zone, on the one hand, and, on the other, traffic originating at or destined to points in Davidson County, Tenn., Applicant intends to tack its existing authority with MC 138952. Applicant also intends to interline at points in Davidson County, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Nelson Company of Kentucky, Third St., Lewisburg, Ky. 42256. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Suite A–422 U.S. Courthouse, 801 Broadway, Nashville, Tenn. 37203.

No. MC 140019 (Sub-No. 2TA), filed August 9, 1976. Applicant: W. A. EMRICK TRUCKING, INC., R.D. No. 2, Box 131, Linden, Pa. 17744. Applicant's representative: Charles R. Chamberlain, 6615 Adrian St., New Carrollton, Md. 20784. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from English Center (Pine Township), Pa., to Dresden and Bainbridge, N.Y., under a continuing contract with Fisher Mining Company, for 180 days. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 76N-0324]

[21 CFR Parts 4, 6, and 801]

MEDICAL DEVICES

Proposed Investigational Device Exemptions; Cross-Reference Amendments

Elsewhere in this issue of the FEDERAL REGISTER, the Food and Drug Administration (FDA) proposes to prescribe procedures and conditions under which medical devices intended for human use may be exempted from certain requirements of the Federal Food, Drug, and Cosmetic Act to permit investigational studies concerning safety and effectiveness. The Commissioner of Food and Drugs is proposing in this document to make conforming changes in other FDA regulations; comments by October 19, 1976.

Because they contain references to sections affected by the proposed medical device regulations, the Commissioner proposes to amend Parts 4, 6, and 801 by inserting the applicable references to investigational devices as follows:

PART 4—PUBLIC INFORMATION

1. By amending § 4.100 by redesignating paragraph (c)(28) as paragraph (c)(29), and by adding new paragraph (c)(28). As revised, paragraph (c)(28) and (29) reads as follows:

§ 4.100 Applicability; cross-reference to other regulations.

• • • • • •

(c) • • •

(28) Investigational device applications, in § 812.38 of this chapter.

(29) Electronic product information, in §§ 1002.4 and 1002.42 of this chapter.

PART 6—ENVIRONMENTAL IMPACT CONSIDERATIONS

2. By amending § 6.1 by revising paragraph (d)(5) as follows:

§ 6.1 Applicability.

• • • • • •

(d) • • •

(5) Investigational new drug applications, investigational new animal drug applications, and investigational device applications, unless the agency notifies the applicant that one is required.

• • • • • •

PART 801—LABELING

3. By amending § 801.4 by adding the words "and Part 812" to the first sentence as follows:

§ 801.4 Meaning of "intended uses."

The words "intended uses" or words of similar import in §§ 801.5, 801.119, 801.122, and Part 812 refer to the objective intent of the persons legally responsible for the labeling of devices.

• • •

4. By adding new § 801.124 as follows:

§ 801.124 Medical devices subject to investigational device exemptions.

A shipment of a device for investigational use is exempt from section 502(f)(1) of the act if it complies with the qualifications for an investigational device exemption prescribed in § 812.5 of this part.

Interested persons may, on or before October 19, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 12, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-24453 Filed 8-17-76;2:48 pm]

[Docket No. 76N-0324]

[21 CFR Part 812]

MEDICAL DEVICES

Proposed Investigational Device Exemptions

The Food and Drug Administration (FDA) proposes to prescribe procedures and conditions under which medical devices intended for human use may be exempted from certain reequirements of the Federal Food, Drug, and Cosmetic Act to permit investigational studies concerning safety and effectiveness. Comments on the proposal may be submitted on or before October 19, 1976.

The Commissioner of Food and Drugs is proposing to amend Title 21 of the Code of Federal Regulations by adding a new Part 812 to prescribe procedures and conditions to qualify for such exemptions, the procedure for submitting an application for an investigational device exemption to FDA, and the requirements applicable to sponsors of investigational studies, institutional review committees that supervise studies, and clinical investigators. The proposed regulations also require the written informed consent of human subjects involved in such studies. The Commissioner is proposing that the final regulations become effective 90 days after their publication.

The Medical Device Amendments of 1976 (Pub. L. 94-295), hereinafter referred to as "the Amendments," amending the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq. (21 U.S.C. 201 et seq.)), hereinafter referred to as "the act," became law on May 28, 1976. Section 520(g) of the act (21 U.S.C. 360j) requires the Secretary of Health, Education, and Welfare, within 120 days after the date of enactment of the Amendments, to prescribe by regulation, procedures and conditions for exempting devices for investigational use. As stated in an FDA notice published in the FEDERAL REGISTER of June 4, 1976 (41 FR 22620) concerning the implementation of the Amendments, authority under the act is delegated to the Commissioner under § 5.1 (21 CFR 5.1; recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)). The notice also stated that among the regulations to be published in the future in the FEDERAL REGISTER, would be proposed regulations concerning exemptions for investigational use of medical devices.

SUMMARY OF STATUTORY REQUIREMENTS

Requirements relating to investigational use of devices are found in section 520(g) of the act. Section 520(g) and the related provisions discussed below have two major purposes. One purpose is to encourage the discovery and development of useful devices for human use. A second purpose is to protect the public health by requiring safeguards for human subjects of investigations, maintenance of sound ethical standards, and procedures to assure development of reliable scientific data. The proposed regulations seek to achieve these two purposes.

Section 520(g) authorizes the exemption of devices from otherwise applicable provisions of the act relating to misbranding, registration, premarket notice, performance standards, premarket approval, banned devices, records and reporting requirements, restrictions on distribution of devices, good manufacturing practice requirements, and use of color additives in devices, to permit devices to be shipped for investigational studies to determine their safety and effectiveness.

Under section 520(g), regulations permitting exemptions for investigational use are to include requirements necessary for the protection of the public health and safety. One of the requirements is that persons seeking an exemption submit an application to FDA and maintain records of and make reports concerning the investigation. Also, in investigations involving human subjects, the person applying for the exemption (the sponsor) must comply with a number of requirements to assure that the rights and safety of these subjects are adequately protected; namely, investigations must be reviewed by a qualified institutional review committee (if one exists), each investigator must agree that any testing involving human subjects will be under his supervision, and written informed consent must be obtained from the subjects or their representatives, with very limited exceptions. Where a qualified institutional review committee exists, it shall bear significant responsibility for monitoring the study. To provide for flexibility in regulatory requirements, section 520(g) permits variations in the procedures and conditions governing investigational device exemptions depending on the nature, scope, and purpose of the study.

An application for an investigational device exemption that meets the requirements of FDA regulations is deemed approved 30 days after it is submitted to FDA, thus permitting testing to begin with little delay unless the applicant seeks an investigational exemption from a banned device regulation, in which case affirmative FDA approval of the exemption is required. The Commissioner may, however, disapprove an application for an investigational device exemption within the 30-day period if he finds that the application does not conform to procedures and conditions prescribed in the regulations. In addition, FDA may withdraw an exemption for failure to comply with any of the conditions for exemptions for investigational use of devices.

The Food and Drug Administration may enforce the investigational device provisions in section 520(g) of the act through several amendments to section 301 of the act (21 U.S.C. 331) enumerating prohibited acts that are enforceable by injunction or prosecution. Most importantly, new section 301(q)(1) makes it a prohibited act to fail or refuse to comply with any requirement prescribed under section 520(g) of the act. In addition, under new section 301(q)(2) of the act, it is a prohibited act to submit, with respect to any device, any report required by or under the act that is false or misleading in any material respect. The latter prohibition applies to all reporting requirements under the act concerning devices, including reporting under the investigational device regulations, and supplements the penalties provided by the False Reports to the Government Act, 18 U.S.C. 1001. In addition, section 301(l) of the act as amended makes it a prohibited act to represent or suggest in the labeling or advertising of any device that FDA has approved an application for an exemption under section 520(g).

Other enforcement provisions are found in amendments to section 501 of the act, defining conditions under which devices are considered adulterated and thus unlawful. New section 501(f) bars shipment of a device that is subject to a which does not have in effect either an application for premarket approval or an investigational device exemption. However, a temporary grace period from this provision is provided until 90 days after final issuance of the regulations being proposed in this notice for certain devices, intended solely for investigational use, that had not been marketed before enactment of the Amendments. Also, under new section 501(i), an investigational device is considered adulterated if either the person granted the exemption or an investigator using the device fails to comply with a requirement under section 520(g) of the act.

The amended act also includes provisions to protect trade secrets acquired by FDA under the investigational device regulations (section 301(j), as amended), to facilitate FDA inspection of required records (section 704, as amended), and to require investigational devices for export to be approved by the foreign government and by FDA (section 801(d), as amended).

RELATED REGULATIONS

The Department of Health, Education, and Welfare has promulgated regulations (45 CFR Part 46) to protect human subjects in research supported by Departmental grants and contracts. The requirements in these proposed regulations concerning institutional review committees and informed consent of human subjects are similar to the Departmental regulations in many respects. Differences are the result of special statutory requirements and guidance in legislative history or particular regulatory needs.

The Food and Drug Administration has regulated the investigational use of new drugs, biologics, and antibiotic drugs for a number of years, pursuant to sections 505(i) and 507(d)(3) of the act (21 U.S.C. 355(i) and 357(d)(3)) and § 310.102 and Part 312 (21 CFR 310.102 and Part 312). The proposed regulations governing investigational use of medical devices (hereinafter, "proposed investigational device regulations") are similar in substance to, although different in format from, existing regulations governing investigational use of new drugs (hereinafter, "IND regulations"). Many provisions of the proposed investigational device regulations redesignate or restate current requirements of the IND regulations, although sometimes more directly or clearly. For example, under the IND regulations, many regulatory requirements are stated only in forms to be completed by sponsors and investigators, while the proposed investigational device regulations state the duties of sponsors and investigators in the text.

Other provisions of the proposed investigational device regulations differ from current provisions of IND regulations. Some of the differences reflect specific requirements of new section 520(g) or specific guidance in the legislative history. Other differences reflect ideas being considered in new FDA policy that may eventually be proposed for all investigational products, whether new human drugs, biologics, or devices. However, any such differences should not be viewed as fixed agency policy, but rather proposals reflecting tentative agency thinking.

Currently, FDA has underway a number of efforts to improve, clarify, and strengthen its regulatory programs for control of investigational articles. The agency has long recognized the need to upgrade its programs in this area, and will receive special funding for this purpose for fiscal year 1977. The Commissioner is also considering proposals concerning this area, made by representatives of consumers and industry, members of Congress, and the General Accounting Office in a report on regulation on investigational new drugs dated July 15, 1976 (ref. 1). It is likely that the agency's comprehensive review of its control of investigational articles will result in changes in both the IND regulations and the investigational device regulations that are proposed in this notice. Furthermore, in the near future FDA intends to publish uniform, agency-wide regulations governing clinical investigations, to the extent possible considering the differences among regulated articles and applicable statutory authorities. At the time such uniform regulations are published, appropriate revisions will be made in the investigational device regulations. For example, the Commissioner will soon propose regulations to redesignate, clarify, and improve requirements applicable to all clinical investigators conducting studies regulated under the act, as well as requirements governing institutional review committees that monitor their studies and disqualifications of clinical investigators. When these regulations are published, FDA may merge certain portions of the proposed investigational device regulations with the uniform regulations.

The Commissioner had hoped to coordinate more closely the agency's efforts to improve its regulations governing investigational products with its implementation of the Medical Device Amendments of 1976. However, new section 520(g) imposes a very restrictive schedule for publication of final investigational device regulations. Because of the Commissioner's desire to meet this statutory schedule as nearly as possible, and because evaluation of needed revisions in investigational drug regulations is continuing, it was not possible to accomplish these objectives simultaneously. Publication of the proposed investigational device regulations in advance of the publication of proposed agency-wide regulations, including revisions of the IND regulations, affords interested persons an additional opportunity to provide comments on policy options available to the agency. Many of the persons interested in regulation of device investigations are also interested in regulation of drug investigations. The Food and Drug Administration's efforts to develop these agency-wide regulations, which will be continuing during the comment period and thereafter, may be aided by comments received on these proposed device regulations.

THE 120-DAY DEADLINE

Although section 520(g) of the act requires FDA to publish final investigational device regulations by 120 days after enactment of the Amendments, i.e., by September 27, 1976, FDA cannot now meet the statutory deadline because it has not been possible to publish this proposal at a sufficiently early date to accommodate both the 60 days required by the act for comment and the time needed to read, consider, and respond to comments received on the proposal and to make appropriate revisions in the final regulations. The delay has occurred because numerous and complex issues involved in the proposed investigational device regulations needed to be resolved at the same time that limited agency personnel involved in medical device regulatory activities have been attempting to implement other provisions of the Amendments.

Although the agency cannot meet the 120-day deadline, it will publish final

V 41 163 AUG 20 76 UM

regulations as quickly as possible after the period for comment closes. However, the Commissioner advises that additional delay may occur in publishing final regulations, depending on the comments received.

Although interested persons are given until October 19, 1976, to submit comments on the proposal, because of the statutory deadline FDA will begin evaluating the comments and preparing a final document on October 4, 1976.

INVESTIGATIONAL DEVICE EXEMPTIONS

The proposed regulations governing investigational device exemptions will be a new Part 812 of Title 21 of the Code of Federal Regulations.

GENERAL PROVISIONS

Subpart A of proposed Part 812 sets forth the general provisions relating to investigational device exemptions.

SCOPE

Proposed § 812.1(a) states that the purpose of Part 812 is to provide that a device may be exempted from certain requirements of the act that would otherwise be applicable, to permit investigational studies by experts who are qualified by scientific training and experience to investigate the safety and effectiveness of devices intended for human use.

Proposed § 812.1(b) describes the two objectives of Part 812: To encourage the discovery and development of useful devices and to protect the public health and particularly to assure the protection and preserve the rights of subjects of investigational studies.

Proposed § 812.1(c) enumerates the provisions of the act from which an investigational device may be exempted. In general, such a device shall be exempt from the provisions relating to misbranding, registration and premarket notification, performance standards, premarket approval, records and reports, restricted devices, good manufacturing practices, and color additives. However, a device is not exempt from a provision of the act if the sponsor indicates that an exemption is not requested as to that provision, or if the Commissioner indicates that a device is not exempt from that provision. Also, a device may be exempted from section 516 of the act authorizing banned device regulations, but only if the Commissioner has affirmatively approved an application for such an exemption.

APPLICABILITY

Proposed § 812.2 describes the circumstances in which a use of an investigational device is subject to the requirements of proposed Part 812.

Under proposed § 812.2(a), Part 812 would apply to any device intended for human use, including any in vitro diagnostic product for diagnosis of any human disease or condition, if such device would be subject to Part 812 according to the other criteria prescribed in the proposed section.

The Amendments included a provision revising the definition of "device" in section 201(h) of the act (21 U.S.C. 321(h)). Under the revised definition, the term "device" encompasses an article used in the healing arts which does not achieve any of its principal intended purposes through chemical action within or on the body of man or other animals and which is not dependent upon being metabolized for the achievement of any of its principal intended purposes. An article that does achieve any of its principal intended purposes through such chemical action or is dependent upon being metabolized continues to be regulated as a drug. Under this new distinction between devices and drugs, it is clear that the term "device" now includes any in vitro diagnostic product, although many in vitro diagnostic products were regarded previously as drugs. Furthermore, another change in the definition of "device" clarifies that a device includes an article for use in the diagnosis of conditions other, e.g., pulse, than disease.

In the proposed regulations, the Commissioner has provided that in vitro diagnostic products shall be subject to proposed Part 812 to the same extent as other devices. However, the Commissioner recognizes that there may, in some cases, be good reasons to differentiate investigations involving in vitro diagnostic products from investigations involving other devices.

Some investigations of in vitro diagnostic products pose no safety risk to the subject. For example, a standard urine sample may be taken from a patient for purposes of determining pregnancy, and the test could be made both with an experimental in vitro pregnancy detection product as well as with an accepted in vitro product that is known to be effective, to see if the experimental product works as reliably as the accepted product. Such a test would pose no added safety risk to the patient. However, it may be desirable that the patient be told that she is taking part in an experiment, as would be required in proposed Subpart F. Furthermore, FDA would have an interest in assuring that records of the comparison of the experimental product with the accepted product are developed and maintained in such a way as to assure the reliability of the resultant data, particularly where the results of the test would be used in support of an application for premarket approval or in relation to a proposed performance standard for pregnancy detection kits.

Some investigations of in vitro diagnostic products may pose a safety risk to the subject. For example, if a hospital decided to test a new blood-typing device by taking samples of blood from all patients in the hospital, the patients would be exposed to some risk because of the withdrawal of blood, and informed consent requirements and other subject safeguards should be observed. The Commissioner would be particularly concerned about the rights and safety of subjects in situations where a subject does not stand personally to gain from the experiment, or is being subjected to a greater safety risk than that to which he would have been exposed, had he not been involved in the investigation. For example, a blood sample may be taken from the patient because it is necessary to monitor his condition, but if the sample taken is unusually large because of the investigation of the blood-typing device, the patient is being subjected to additional risk.

Some investigations of in vitro diagnostic products involve considerable safety risk. This would be true, for example, if a physician were to use an experimental product for detection of a serious condition without concomitant use of the accepted method, because the patient would be subjected to the risk that the disease would not be detected and, thus, deprived of an effective diagnosis. The Commissioner believes it possible that different requirements should apply to investigations in these various situations and requests specific comments on this issue.

It may be that an abbreviated consent form may be appropriate where there is not a safety risk and the chief concerns are that patients be informed that they are subjects in an experiment and that their dignity and privacy be protected. These are valid ethical considerations even in investigational studies of devices that do not involve safety risks to subjects. To protect the dignity of subjects, it may be appropriate to require informed consent in connection with investigations of devices on tissue, blood, or in any situation where the patient or any tissue from his body is involved in an experiment. Also, requiring informed consent even where there is no risk to the patient may be needed to protect privacy, such as informing a person who is being tested for venereal disease that an investigational product will be used and also assuring that, notwithstanding his involvement in the experiment, his identity will remain confidential.

Proposed § 812.2(a)(2) clarifies that proposed Part 812 does not apply to any device intended for veterinary use. Of course, if a product that is labeled for, or otherwise purported to be for, veterinary use is found to be used in an investigational study involving human subjects, such device will be regarded as intended for human use and therefore subject to the requirements of proposed Part 812.

Proposed § 812.2(a)(3) clarifies that proposed Part 812 is not limited to investigational studies undertaken to develop data to obtain approval for commercial distribution of a device, but also applies both to fundamental research on devices and to situations in which an investigational device is used by a practitioner to treat an individual human subject.

Under proposed § 812.2(a)(4), proposed Part 812 would not apply to a device that is being used in an experiment, but in a manner and for a purpose which is included in labeling prescribed by regulation or approved under the premarket approval provisions of the act.

Section 520(g) of the act permits devices to be exempted, for purposes of investigational use, from several provisions of the act that might otherwise bar their shipment. A device may be exempted not

only from the premarket approval requirements of section 515 of the act, but also from requirements relating to performance standards, misbranding, registration and premarket notification, and other matters. Thus, it is necessary for regulations to define circumstances in which shipment of a device for an investigational study requires an exemption to avoid violation of the other requirements. This is the primary objective of proposed § 812.2, and particularly paragraphs (b) and (c).

There is little difficulty defining the circumstances in which devices that were not in commercial distribution on May 28, 1976, the effective date of the Amendments, must comply with the requirements of this part. Such devices are automatically classified in class III (premarket approval) unless they are substantially equivalent to devices in commercial distribution on May 28, 1976 or have been reclassified in class I (general controls) or class III (performance standards).

The only way in which a manufacturer or other sponsor of a device that had not been in commercial distribution before May 28, 1976, can be sure that a device is substantially equivalent to one that was in commercial distribution before such date is where the sponsor has submitted a premarket notification under section 510(k) of the act and received from FDA a response that the postenactment device is substantially equivalent to a pre-enactment device. Without a response from FDA to a premarket notification, the postenactment device is presumptively in class III. Any postenactment device that remains in class III must have an approved application for premarket approval before it may be shipped for any use, or an exemption from the requirements of section 515 of the act (21 U.S.C. 360e) that permits shipment for investigational use. If such a device has neither an approved application nor an investigational exemption, it is subject to regulatory action under section 501(f)(1) of the act.

The Commissioner is proposing to treat any postenactment device that is determined to be substantially equivalent to devices in commercial distribution on May 28, 1976, in the same fashion as the devices to which it is substantially equivalent. He is proposing to treat any postenactment device that, though not substantially equivalent to any pre-enactment device, is reclassified in class I or class II in the same fashion as pre-enactment devices that are classified in these categories.

The principal difficulty has arisen in defining the applicability of these proposed regulations to devices that were in commercial distribution on the date of the enactment of the new Amendments which have not been finally classified, and for which the act provides transitional periods for the devices to achieve compliance with any requirements concerning performance standards or premarket approval that may ultimately apply. The Commissioner believes that appropriate safeguards must apply to clinical investigations conducted during any transitional period applicable to such devices that are classified, or are likely to be classified, into class III. Under the Amendments, at least 3 years will expire before any such device must have an approved application for premarket approval, because under section 501(f)(2)(B) of the act, a requirement for holding an approved application cannot be enforced until 30 months after the effective date of a final regulation classifying a device in class III. During this transitional period, manufacturers of such devices are likely to want to conduct clinical studies to assure that they will have sufficient safety and effectiveness information when the FDA publishes a regulation under section 515(b) of the act demanding the submission, within 90 days, of applications for premarket approval.

The Commissioner intends to assure that clinical investigations of any potential, or finally classified, class III device are conducted in accordance with the requirements of proposed Part 812 for protection of human subjects, particularly the requirements relating to informed consent and, where applicable, institutional committee review. The Food and Drug Administration also has an interest in assuring that clinical investigations are conducted in a way that assures the reliability of data, both because this will facilitate the agency's eventual review of any resulting application for premarket approval and because poorly conducted studies expose subjects to unnecessary risks.

Competing concerns argue against application of the full requirements of proposed Part 812 to investigations of devices subject to a transitional period. First, because many of these products have been in clinical use for several years, there already exists a fairly well developed body of data supporting their safety and effectiveness. In such cases, the restrictions on labeling claims that should ordinarily apply during investigational studies may not be appropriate, and other requirements of the regulations may also be excessive. Second, the Amendments contemplate that pre-enactment class III devices and substantially equivalent postenactment devices may continue to be distributed commercially during the transitional period. It is doubtful that Congress intended investigational device controls promulgated under section 520(g) of the act to apply to the routine use of already marketed devices. At the same time, members of Congress probably expected that such controls would apply in instances where clinical use would result in development of data to be submitted to the FDA in an application for premarket approval. Third, many of the products involved may be critical or life-sustaining, and imposition of investigational device controls should not prevent their use. Finally, the Commissioner believes that further testing of many devices that will ultimately be subject to premarket approval is desirable, and he is concerned that rigorous imposition of investigational device controls may discourage such studies.

In summary of the foregoing discussion, proposed § 812.2(b) defines the applicability of proposed Part 812 to devices currently subject to a premarket approval requirement. Under § 812.2(b), the proposed regulations would apply to any clinical use in humans of a device that falls in any of three categories:

1. Devices classified in class III (premarket approval) by section 513(f) of the act (21 U.S.C. 360c) (i.e., any device that was not in commercial distribution before May 28, 1976, and is not substantially equivalent to a device that was in commercial distribution before such date) that have not been reclassified in class I (general controls) or class II (performance standards) and for which no approved application for premarket approval under section 515 of the act is in effect.

2. Devices that were in commercial distribution before May 28, 1976, or are substantially equivalent to any device that was in commercial distribution before such date, and that have been classified in class III (premarket approval) by regulation promulgated under section 513(d) of the act, and for which after the applicable transitional period no approved application for premarket approval under section 515 of the act is in effect.

3. Devices that were regarded as new drugs or antibiotic drugs before May 28, 1976 are class III devices under section 520(l) of the act (special transitional procedures for products whose regulatory status has changed because of the revised definition of "device"), and for which no approved application for premarket approval under section 515 of the act is in effect; as well as devices that were the subject of a notice of claimed exemption for an investigational new drug (IND) under Part 312 (21 CFR Part 312).

The Food and Drug Administration's preliminary resolution of the applicability of investigational controls to devices not currently subject to the requirement of an approved application for premarket approval appears in proposed § 812.2(c). Because of the foregoing concerns, the Commissioner specifically requests comments on the approach proposed. In particular, the Commissioner invites comments on whether, or in what manner, investigations of devices not currently subject to a premarket approval requirement should be distinguished from those that are currently subject to such a requirement; whether it is appropriate to apply the same controls to pre-enactment devices that are applied to substantially equivalent postenactment devices; whether the controls applicable to investigational study of a device should vary with the device's classification; and whether there are any uses of devices not currently subject to a premarket approval requirement, other than studies collecting data on safety and effectiveness, that should and may be subject to investigational controls.

Proposed § 812.2(c) limits the applicability of investigational device controls

V 41 N 163
AUG 20 76
UM

before final classification regulations have been published to devices that are intended to be implanted in the human body, that are purported or represented to be for use in supporting or sustaining human life, or that pose an inherent significant hazard to patients or subjects. Thus, before final classification, there would be no circumstances in which investigational device controls would apply to a device that is not intended to be implanted, is not for a life-supporting or life-sustaining use, or does not impose a significant hazard. Once a final regulation has become effective classifying in class III a device not yet subject, because of a transitional period, to the requirements of an approved application for premarket approval, investigational controls would apply to any investigational study of the device, under proposed § 812.2(c)(2)(ii).

Additionally, when a final regulation has become effective classifying a device in class I (general controls) or class II (performance standards), investigational controls shall apply to clinical tests of the device, if the device requires an exemption from the requirements of any of the provisions of the act enumerated in section 520(g)(2)(A) of the act. However, the Director of the Bureau of Medical Devices and Diagnostic Products may, upon petition by a sponsor, waive the applicability of any specific requirement of the investigational controls for any study to which the controls would otherwise apply. In ruling upon a petition, the Director would consider, among other factors, the hazards that may be associated with the device in the investigational study proposed to be undertaken.

Proposed § 812.2(d) describes the relationship between the investigational device controls in proposed Part 812 and the product development protocol provisions in section 515(f) of the act. These provisions afford a means of obtaining FDA's permission to market a class III device by a procedure other than the conventional premarket approval procedures in section 515 (c) through (e) of the act, which are modeled largely on the procedures for premarket approval of new drugs in section 505 of the act. Where FDA allows a device to be developed pursuant to a product development protocol, the product is developed at the same time that data concerning safety and effectiveness are being collected, and it is expected that FDA and the advisory committees that serve as classification panels will provide substantial assistance to the sponsor concerning the testing and development of the product.

Proposed § 812.2(d)(1) provides that having in effect an approved notice of completion of a product development protocol shall be considered the equivalent of having in effect an approved application for premarket approval of a device, for purposes of determining the applicability of investigational device controls to a product.

Under proposed § 812.2(d)(2), Part 812 shall apply to any study of a device pursuant to a product development protocol. It may be appropriate for FDA to revise this provision when final regulations become effective prescribing procedures for developing a device pursuant to a product development protocol, if such regulations provide alternative provisions to achieve some or all of the objectives of proposed Part 812. Until such regulations are promulgated, however, it is important that "the requirements for proof of safety and effectiveness are no less stringent under the [product development protocol] procedures than they are under the procedure requiring an application for premarket approval" which customarily occurs after an investigational exemption (ref. 2, at 33).

Under proposed § 812.2(e), custom devices would be subject to investigational controls just as any other device, even though section 520(b) of the act exempts custom devices from requirements relating to performance standards and premarket approval. In enacting the custom device provisions in section 520(b), Congress recognized that devices must sometimes vary from requirements in standards or premarket approval provisions to meet individual needs of practitioners and patients. However, Congress did not exempt custom devices from otherwise applicable provisions of the act, including investigational device controls (ref. 2, at 45).

DEFINITIONS

Proposed § 812.3 defines a number of terms used in proposed Part 812. Among the terms defined are "sponsor," "investigator," and "sponsor-investigator." These definitions, which are suitable for eventual adoption in general FDA regulations governing investigational use of products, differentiate between the duties of sponsors and investigators. "Sponsor" is defined as a person who in initiates and supports, by financial or other means, an investigational study of a device but who does not actually conduct the study (i.e., does not actually administer the investigational device to, or use it involving, a subject) unless such person is a sponsor-investigator. "Investigator" means a person who actually conducts the investigational study of a device (i.e., actually administers the investigational device to, or uses it involving, a subject). "Sponsor-investigator" means a person who both initiates and conducts, alone or with others, an investigational study. A sponsor-investigator has the responsibilities both of sponsor under proposed Subparts B and C and of investigator under proposed Subparts E and F.

A proposed definition of "person" clarifies that sponsors may be individuals, partnerships, corporations, associations, scientific or academic establishments, government agencies, and other legal entities.

The proposed regulation does not include a definition of the term "commercial distribution." A definition for this term will be included in proposed regulations soon to be published in the FEDERAL REGISTER by FDA implementing the registration and premarket notification requirements for medical devices under section 510 of the act. This proposed definition will govern any use of the term "commercial distribution" with regard to proposed Part 812.

GENERAL QUALIFICATIONS FOR AN EXEMPTION

Proposed § 812.5 enumerates the conditions that must be met for an investigational device to be exempted from otherwise applicable requirements of the act.

Proposed § 812.5(a) requires the label of the device to bear the name and place of business of the manufacturer, packer, or distributor, the quantity of contents, and a cautionary statement that the device is limited to investigational use. If the investigational device is a diagnostic product, the label is permitted to refer to the article as a diagnostic product to reduce possible confusion among investigators and other handlers of the device. The requirements proposed under § 812.5(a) apply only when an investigational device is shipped and do not apply so long as the device remains in the laboratory where it is developed. Where shipped, these label statements are necessary to assure that the origin of the product can be identified and to deter diversion of the product into noninvestigational use.

Under proposed § 812.5(b), the labeling of an investigational device shall not be false or misleading in any particular. This requirement, which is also found in section 502(a) of the act, is necessary to assure that false or misleading statements are not included in labeling of investigational devices. However, this requirement is not intended to interfere with investigational studies conducted in accordance with proposed Part 812. Thus, the labeling of an investigational device would not be regarded as false or misleading if it complied with the proposed regulations although it failed to bear information expected in labeling of marketed devices. The Commissioner recognizes that one important purpose of investigational studies is to determine what information should go in the labeling of a device.

If a shipment of a device is for an investigational study involving human subjects, under proposed § 812.5(c) an exemption is subject to additional conditions:

1. An application for an investigational device exemption covering shipment must have been submitted by the sponsor under Subpart B.

2. The required 30-day period of time must have elapsed followed the date of receipt of the application by FDA that the investigational study may commence under the proposed regulations, or if the application seeks an exemption from the banned device provisions, the Commissioner must have approved the application.

3. The Commissioner must not have disapproved the application for an investigational device exemption or withdrawn the exemption.

4. Each shipment of the device must have been made in accordance with the commitments in the application and any conditions imposed in the Commissioner's approval of the application.

5. The sponsor, any institutional review committee, and each investigator must have complied with applicable procedures, conditions, and requirements of proposed Part 812.

If the device is to be shipped solely for tests in laboratory animals or for other tests that do not involve human subjects, under proposed § 812.5(d) a condition to an exemption is that the requirements of proposed Subpart H must have been met. Additionally, under § 812.5(e), if the shipment is to be imported into or exported from the United States, the requirements of proposed § 812.19 must have been met.

Proposed § 812.5 is similar to § 312.1 of the IND regulations, which prescribes the conditions of an exemption of a shipment or delivery of an investigational new drug under section 505 of the act. In proposed Part 812, a reference to a shipment of an investigational device is intended to include any form of delivery of such a device. After final promulgation of the proposed regulations, if any of the requirements of § 812.5 are not met, the device is subject to legal action under the provisions of the act that would apply to the device in the absence of the exemption.

PETITIONS FOR WAIVER OF REQUIREMENTS

Proposed § 812.10 would permit any person subject to a requirement under proposed Part 812 to petition the Commissioner for a waiver of such requirement. The petition shall be submitted in accordance with proposed § 2.7 (21 CFR 2.7) of the Food and Drug Administration's proposed regulations governing administrative practices and procedures, which were published in the FEDERAL REGISTER of September 3, 1975 (40 FR 40682). Also, proposed § 812.10 requires the petitioner to set forth both the basis for his belief that compliance with the requirement is not necessary to achieve the objectives of the investigational device regulations and, where appropriate, any alternative means to achieve the objective of the requirement from which the waiver is sought.

Although proposed § 812.10 is technically unnecessary since any citizen may petition the Commissioner under proposed § 2.7 concerning a requirement under the act, it is included as a convenience to persons subject to the investigational device regulations. For example, a sponsor might petition for waiver of the provision in proposed § 812.62(d), which prohibits any sponsor or investigator from participating in the selection of members for an institutional review committee that will review his investigational study. This may be appropriate where a medical faculty member was instrumental in establishing an institutional review committee and then, several years later, plans to serve as an investigator in an investigational study of a medical device that is subject to regulation under proposed Part 812. The Food and Drug Administration could decide to waive the provision of proposed § 812.62(d) concerning participation by investigators or sponsors in selecting members of institutional review committees if the agency finds that compliance with this provision is not necessary to achieve the objectives of proposed Part 812.

Under proposed § 812.10, the person who submits the petition continues to be subject to the requirement from which a waiver is sought unless and until the Commissioner grants the petition. The Commissioner has discretion whether to grant such a petition.

INFORMATION PREVIOUSLY SUBMITTED

Proposed § 812.12 provides that whenever proposed Part 812 requires the submission to FDA of information or data that previously had been submitted, the information or data need not be resubmitted but may be incorporated by reference. This provision is similar to a provision found in item 6.c. of the Form FD-1571 for sponsors of investigational studies of new drugs, appearing under § 312.1(a)(2) in the IND regulations. This item provides that in lieu of submitting information concerning components of an investigational new drug, a sponsor may incorporate by reference information previously submitted.

Of course, under proposed § 812.12, the information previously submitted must have met the requirements of the regulations.

REQUIREMENTS APPLICABLE TO IMPORTERS AND EXPORTERS OF INVESTIGATIONAL DEVICES

Proposed § 812.19(a) sets forth requirements applicable to persons who import or offer for importation into the United States an investigational device. These requirements are similar to the requirements for importing investigational new drugs under § 312.1(b) of the IND regulations.

Proposed § 812.19(b) set forth requirements applicable to persons who export from the United States to a foreign country devices that do not comply with the requirements of the act.

Proposed § 812.19(b)(1) concerns any exportation of a noncomplying device and requires that the device conform to the specifications of the foreign purchaser, comply with the laws of the country to which it is being exported, be labeled for export on the outside of the shipping package, and not be sold or offered for sale in domestic commerce. These provisions are based on the requirements of section 801(d) of the act, both before and after enactment of the Amendments.

Under proposed § 812.19(b)(2), additional requirements apply to the export of a device that does not comply with the requirements of section 514 of the act concerning performance standards, section 515 concerning premarket approval, section 516 authorizing banning of devices, and section 520(g) authorizing exemptions for investigational use of medical devices. Any person who exports from the United States a device, which is subject to but does not comply with section 514, 515, or 516 of the act, for an investigational study involving human subjects, must comply with a number of additional requirements beyond those enumerated in proposed § 812.19(b)(1). First, the exporter shall comply with, or shall assure that another person has complied with, the requirements applicable to sponsors. Second, the exporter or other person shall obtain the approval of the government of a foreign country to which the device is proposed to be shipped. Third, the exporter or other person shall submit to FDA a copy of this approval, a request for permission to export the device, and an explanation of why the proposed export of the device is not contrary to the public health and safety. Finally, there must have been a determination by the Commissioner that the export of the device to the foreign country is not contrary to the public health and a notice by FDA to the exporter or other person of this determination.

The additional requirements applicable to export of devices for investigational use that do not comply with sections 514, 515, or 516 of the act are based on new provisions of section 801(d) of the act as added by the Amendments. These provisions have required FDA to take a stricter approach to exportation for investigational use of devices than the agency has taken concerning export for investigational use of new drugs under § 312.1(a)(2) of the IND regulations. The Commissioner recognizes that the Amendments have the anomalous result of affording more protection to foreign subjects of investigational studies conducted by United States sponsors than are afforded to domestic subjects, since section 801(d) of the act, as amended, requires affirmative approval of the export while new section 520(g)(4) of the act provides that an investigational study is generally deemed approved 30 days after receipt of an application, unless disapproved by the Commissioner during this period. Although the Commissioner believes that this result is probably compelled by the Amendments, he invites suggestion of alternative approaches. The proposed regulations do not state criteria for the Commissioner's determination that an export of a device for investigational use is contrary to public health and safety. The Commissioner also invites suggestions as to appropriate criteria for this determination and, in particular, the extent to which the Commissioner should take into account the health and safety of subjects in foreign countries.

APPLICATIONS FOR EXEMPTION FOR INVESTIGATIONAL STUDIES INVOLVING HUMAN SUBJECTS

Proposed Subpart B states requirements for applications for exemption for investigational studies involving human subjects. Proposed Subpart B sets forth requirements applicable to sponsors of investigational studies, including sponsor investigators.

V 41 163 AUG 20 76 UM

APPLICATION

Proposed § 812.20 sets forth the required content of an application for an investigational device exemption. Proposed § 812.20(a) describes technical requirements for the application, i.e., that four copies shall be submitted, the address to which the application is to be mailed, and the statements to appear on the outside wrapper.

Proposed § 812.20(b) describes the substantive information to be included in an investigational device exemption, which shall be submitted on a form that will be made available by FDA before the effective date of the final regulations. For the most part, the information to be submitted in an application for an investigational device exemption is similar to the information to be submitted on Form FD–1571, "Notice of Claimed Exemption for an Investigational New Drug" under § 312.1(a)(2) of the IND regulations. However, the contents of the application are described in the proposed regulation rather than in the form used for requesting an exemption.

Before final issuance of the proposed regulations, FDA will make forms available for use by sponsors to apply for investigational device exemptions and to obtain signed statements from investigators. These forms may also be printed in the FEDERAL REGISTER as an apepndix to the final regulations.

Like the IND regulations, the proposed investigational device regulations require the application for an exemption to conduct an investigational study to include the following:

(1) The name of the article and how it is to be administered, (2) a statement of components of the article, (3) a statement of manufacturing methods, facilities, and controls, (4) information concerning any institutional review committee that is to review, approve, and monitor the investigational study, (5) information about the investigational plan, (6) a report of prior investigations and experience with the article including safety tests in animals, (7) all informational material, including the labeling, to be supplied to the investigator, (8) a description of the necessary qualifications for investigators, (9) the name and qualifications of the individual who is to monitor the progress of the study for the sponsor, (10) assurance that the sponsor will comply with applicable requirements, (11) justification for any sale of an investigational article, (12) reasons for any requested waiver of the requirement that an investigation not begin before the expiration of 30 days after FDA receives an application, and (13) when requested by FDA after receipt of an application, an environmental impact analysis report.

Under new section 520(g) of the act, the contents of an application for an investigational device exemption will vary depending upon whether the study will be reviewed, approved, and monitored by an institutional review committee. When there is a committee, the sponsor must provide that committee with the investigational plan and a report of prior investigations of the device. Although the sponsor's application to FDA for an investigational device exemption for a study to be monitored by a committee must include the complete report of prior investigations, it need include only a summary of the investigational plan for the study. When there is no committee, the application to FDA for an investigational exemption is to include a complete investigational plan as well as a complete report of the prior investigations of the device.

Accordingly, proposed § 812.20(b)(5) and (6) distinguish the situation in which there is an institutional review committee, in which case FDA receives only a summary of the investigational plan and information concerning the committee's review and approval, from the situation in which there is no committee, in which case FDA receives the complete investigational plan. In either case, FDA must receive reports of prior investigations of a device.

The proposed investigational device regulations differ from the IND regulations in that they require the committee to have approved an investigational study before an application for an investigational device exemption is submitted to FDA. The IND regulations require only that the sponsor assure FDA that the study will not begin until it is approved by the committee. Proposed § 812.20(b)(7) requires the application for an investigational device exemption to include a copy of all forms to be used to obtain informed consent of human subjects. This requirement is to enable FDA to monitor compliance with proposed Subpart F of proposed Part 812 concerning informed consent of human subjects. Although the IND regulations do not explicitly require submission of informed consent forms, often such information is submitted among the informational materials for investigators that the sponsor must submit to FDA under item 12. of Form FD–1571 for sponsors of investigational new drug studies.

Under proposed § 812.20(b)(10), the application must include a copy of the signed statements of investigators who will participate in the investigational study. Although the IND regulations, like proposed § 812.43(b), require that the sponsor obtain these signed statements from investigators, the IND regulations do not now require submission to FDA of a copy of these statements. Rather, the IND regulations require only a submission of a list of investigators, to be updated, with an assurance by the sponsor that signed forms will be obtained.

In proposed § 812.20(b)(12) there is another new requirement that the sponsor inform FDA in the application as to whether any institutional review committee has ever disapproved any investigational study of the device and the reasons for such disapproval. This information will aid FDA in determining whether the agency should approve an investigational study. Although a study may have been disapproved on grounds other than those for FDA disapproval under proposed § 812.30, the Commissioner believes that FDA's review of an application for investigational device exemption will be assisted by information concerning any disapproval of an investigation of the device by an institutional review committee.

Under proposed § 812.20(b)(14), the sponsor who intends to be compensated for an investigational device shall submit a full explanation of why, considering manufacturing and other costs, the proposed compensation is necessary and the amount of the proposed compensation is reasonable, along with a statement that the sponsor understands that any failure by FDA to disapprove such compensation is not to be regarded as permitting the commercialization of an investigational device, which is prohibited by proposed § 812.50. The policy expressed in proposed § 812.20(b)(14) has prevailed under the IND regulations for a number of years. The Commissioner recognizes that it has often been customary for sponsor to charge subjects or investigators for investigational devices and, accordingly, invites specific comment as to whether the policy that has applied to drug investigations should, as proposed, be included in the investigational device regulations. In addition, the Commissioner invites suggestions concerning a definition of "commercialization," a term also appearing (and also undefined) in the IND regulations and generally understood to consist of any of the practices involving promotion and sale of investigational products, which are prohibited by the IND regulations and would be prohibited by proposed § 812.50.

As provided under the IND regulations, sponsors do not ordinarily have to submit environmental impact analysis reports with applications for investigational device exemptions. Such a report shall only be submitted upon request by FDA after the agency receives an application and, if requested, the report shall meet the requirements of Part 6 (21 CFR Part 6), the agency's regulations concerning environmental impact analysis.

INVESTIGATIONAL PLAN

Proposed § 812.25 states the requirements for an investigational plan for the investigational study of a device. The proposed requirements are in the nature of umbrella regulations setting forth general rules concerning investigational studies of devices. Proposed § 812.25 will, if appropriate, be supplemented by specific regulations or guidelines concerning investigational studies of particular devices or a class of devices.

Proposed § 812.25(a) is similar in several respects to the IND regulations, e.g., items 10. a. and b. of Form FD–1571 for sponsors of investigational new drug studies and items 4. and 5. of Form FD–1572 and item 3. of Form FD–1573 for investigators in drug studies.

As provided in new section 520(g) of the act, under proposed § 812.25(b) the procedures and conditions in the investigational plan may vary depending on (1) the scope and duration of the investigational study, (2) the number of human subjects who are to be involved in the study, (3) the need to permit changes to be made in the device during the study, and (4) the purpose of the study, e.g., whether the study is designed for the purpose of developing data to obtain approval for the commercial distribution of the device.

Proposed § 812.25(c) contains a requirement similar to that in item 10.c. of Form FD–1571 for sponsors of investigational new drug studies that an investigational plan will not ordinarily be regarded as reasonable unless it provides for more than one independent competent investigator to maintain adequate case histories of an adequate number of subjects (as described in proposed § 812.111). However, under the proposed investigational device regulations, this requirement is limited to an investigational study that is for the purpose of developing data to obtain approval for the commercial distribution of the device.

Under proposed § 812.25(d), as in the IND regulations, animal tests may continue during studies involving human subjects. This policy is among those being reviewed by FDA in its efforts to improve standards for clinical investigations.

The proposed regulations do not prescribe the contents of the summary of the investigational plan that is to be submitted to FDA under proposed § 812.20(b)(5) where there is an institutional review committee to review the complete investigational plan. This should include a summary of each of the items required to be included in an investigational plan under § 812.25. If, from comments received, it appears to be desirable to prescribe the contents of a summary of an investigational plan, the Commissioner will do so in the final regulations.

REPORT OF PRIOR INVESTIGATIONS OF A DEVICE

Proposed § 812.27 sets forth the requirements for reports of prior investigations of a device, to be submitted to an institutional review committee, if any, and to FDA. Such a report shall include information concerning prior investigations of a device adequate to justify the proposed investigational study as described in the investigational plan. Proposed § 812.27 is similar in many respects to the IND regulations. (See, e.g., item 6. of Form FD–1571 for sponsors of investigational new drug studies.)

Proposed § 812.27(d) would establish a general rule that animal tests be a prerequisite to tests of devices in human subjects to establish the safety of the device, except where tests on animals would be inappropriate, such as where there have been adequate in vitro tests or there is ample literature concerning prior clinical investigations or clinical experience. This topic is among those currently being reviewed by FDA in its efforts to improve regulations regarding clinical investigations.

Although the IND regulations require submission of a summary of information about investigations and experience with active components, proposed § 812.27(e) requires submission of such a summary only where the information about a component is needed to justify the investigational use of the device, since such information is not always needed to evaluate an investigational study of a device.

FDA REVIEW OF, AND ACTION ON, AN APPLICATION

Proposed § 812.30 describes the procedure for FDA's review of applications for investigational device exemptions and for acting on such applications.

Under proposed § 812.30(a), FDA will notify the sponsor of the date of receipt of an application for an investigational device exemption submitted in accordance with proposed Subpart B. The notice of receipt will inform the sponsor that the investigational study may not be commenced for 30 days from the date of receipt of the application, unless the agency has decided to waive the 30-day time requirement and so informs the sponsor, or in the case of an application for an exemption from the banned device provisions, until FDA approves the application.

Under proposed § 812.30(b), the Commissioner may return an application during the 30-day period if he finds that the application does not meet the requirements of proposed Subpart B. A procedure is provided for correcting deficient applications. However, if rejected as deficient after submitted a second time, the application will be regarded as disapproved.

Under proposed § 812.30(c)(1), an application for an investigational device exemption is deemed approved on the 30th day after receipt by FDA, unless the Commissioner disapproves the application on or before that day or notifies the sponsor that the application does not meet the requirements of proposed Subpart B. This provision is based on new section 520(g)(4) of the act and is similar to the IND regulations. However, under the act and proposed § 812.30(c)(2), an application for an exemption from a banned device regulation shall not be considered approved unless the Commissioner affirmatively approves the application and so notifies the sponsor. The 30-day time limit does not apply to consideration of an application for exemption from a banned device regulation.

Proposed § 812.30(d) sets forth the grounds for disapproval of an application for an investigational device exemption, which are similar to the grounds for disapproval of an IND. Proposed § 812.30(e) sets forth as an additional ground for disapproval of an application the determination by the Commissioner that the proposed investigational study subjects human subjects to undue risks; the regulation enumerates factors to be considered in such a determination. This provision is based on criteria for disapproval of an investigational study by an institutional review committee in the Department regulations under 45 CFR 46.2.

Under proposed § 812.30(f), the Commissioner may approve conditionally an application for an exemption under Subpart B. For example, as a condition of an approval, the Commissioner could require that the sponsor report to the agency semiannually rather than annually, or an application could be approved on the condition that a category of proposed subjects, e.g., children, be excluded from the study.

Finally, proposed § 812.30(g) sets forth the procedure for the Commissioner's approval of an application for an exemption from a banned device regulation and for disapproval or conditional approval of any application. No procedure is necessary for FDA approval of applications except where the sponsor seeks an exemption from a banned-device regulation, since an application is generally deemed approved 30 days after FDA receives the application, unless the agency acts to reject or disapprove the application. A sponsor who has received a notification of disapproval or conditional approval is afforded an opportunity for a regulatory hearing pursuant to Subpart F of Part 2 of FDA proposed regulations concerning administrative practices and procedures, published in the FEDERAL REGISTER of September 3, 1975 (40 FR 40682). New section 520(g) of the act requires that FDA afford an opportunity for an informal hearing (the functional equivalent of FDA's regulatory hearing under Subpart F of Part 2) where an application for an investigational device exemption is disapproved.

Under the proposed regulations, sponsors may petition for waiver of the usual requirement that investigational studies not commence until 30 days after receipt by FDA of an application for an investigational device exemption. This provision for waiver is based on the IND regulations and, although such waiver is not expressly provided for in new section 520(g) of the act, the Commissioner believes it desirable to provide for such waiver in appropriate cases in investigational studies of devices. The proposed regulations do not state the criteria for a decision by the Commissioner to waive the 30-day delay. However, comments are invited on appropriate criteria for such waiver.

There is no provision in proposed § 812.30 for review of applications for investigational device exemptions by the classification panels that make recommendations to FDA on classification of devices pursuant to section 513 of the act and on applications for premarket approval under section 515 of the act. Section 520(g) of the act does not provide for referral of applications for investigational device exemptions to the classification panels and, indeed, such referral would be difficult, if not impossible, to accomplish in view of the obligation that FDA review such applications within 30 days. However, FDA intends to seek the advice of its classification panels concerning applications for investigational device exemptions on a case-by-case basis, where a panel's expertise is needed and can be provided in a sufficiently timely manner, such as for post-approval review and monitoring.

V 41 163 AUG 20 76 UM

WITHDRAWAL OF AN INVESTIGATIONAL DEVICE EXEMPTION

Proposed § 812.35 prescribes the criteria and procedures for withdrawal of an exemption for the investigational use of a device granted under proposed Part 812.

The grounds for withdrawal of an investigational device exemption under proposed § 812.35(a) are similar to the grounds for terminating an IND under § 312.1(d). In addition, under proposed § 812.35(b), an exemption shall be withdrawn if the Commissioner determines that the investigational study subjects human subjects to undue risks. This provision is based upon the Department regulations under 45 CFR 46.2 concerning review of clinical investigations by institutional review committees.

Proposed § 812.35(c) requires an order withdrawing an exemption to include a complete statement of the reasons for the Commissioner's action. Such order shall be issued only after the sponsor has been afforded an opportunity for a regulatory hearing under Subpart F of Part 2 (the proposed FDA regulations discussed earlier), except that an order of withdrawal may be issued before providing an opportunity for such a hearing if the Commissioner determines that continuation of testing under the exemption will result in an unreasonable risk to the public health or safety. The Commissioner intends that a discovery that crucial data submitted in support of an investigational study were false could result in immediate withdrawal of the exemption because, under the circumstances, continuation of testing could result in an unreasonable risk to the public health and safety.

Because of specific provisions in new section 520(g) of the act, the procedure for withdrawing an investigational device exemption differs somewhat from the current procedures for terminating an IND. First, no provision is included for a prehearing conference concerning a proposed withdrawal of an exemption, although such a conference could occur absent a provision in the regulation. Second, the IND regulations include a more stringent standard for FDA orders terminating testing prior to affording the sponsor an opportunity for a hearing: an IND may be terminated prior to opportunity for such a hearing only if continuation of the investigation presents an imminent hazard to the public health. Proposed § 812.35(c) follows the procedures in the Amendments rather than the IND regulations in these two respects.

Proposed § 812.35(d) permits an exemption for investigational use of a device that was withdrawn to be reinstated if the sponsor satisfies the Commissioner that the grounds for withdrawal of the exemption no longer apply. This provision parallels § 312.1(d) of the IND regulations.

CONFIDENTIALITY OF DATA AND INFORMATION IN AN APPLICATION

Proposed § 812.38 prescribes the rules governing confidentiality of data and information in an application for an investigational device exemption. This section is similar to § 312.5 of the IND regulations. The preamble of the final regulation promulgating § 312.5, published in the FEDERAL REGISTER of December 24, 1974 (39 FR 44602), includes useful guidance concerning the interpretation of this section.

SUPPLEMENTAL APPLICATIONS AND SUBMISSIONS CONCERNING APPLICATION

Proposed § 812.39 describes the situations in which a supplemental application is required to update an application submitted under proposed § 812.20.

Under the general rule in proposed § 812.39(a), information contained in an application may be updated by a report to FDA under proposed § 812.55. Usually it will be sufficient for changes in the application to be described in a sponsor's report that is submitted annually, or at another appropriate interval, under proposed § 812.55.

There three exceptions to the general rule that an application may be updated by means of the sponsor's regular reports. First, under proposed § 812.39(b), sponsors must obtain FDA's review and prior approval of proposed changes in, or deviations from, the investigational plan which may affect the validity of the study or the rights or safety of human subjects, except where the change or deviation is necessary to eliminate or reduce an apparent immediate hazard to the safety of a human subject participating in the study, in which case notice shall be submitted as soon as possible after the change or deviation has occurred. Second, under proposed § 812.39(c), sponsors must submit any additional signed statements of investigators to FDA before such investigators may begin participation in an investigational study unless FDA approves addition of the investigators by rapid communication techniques before submission of signed statements of life-threatening situations. Third, under proposed § 812.39(d), sponsors shall submit to FDA at the time they are provided to investigators any additional forms, or revisions in forms, to be used by investigators to obtain informed consent of human subjects, as well as any additional or revised informational materials supplied to investigators which had not been submitted in the application or in any subsequent submissions.

An important element of the proper scientific approach to research is to prepare a plan or protocol defining the research objective or hypothesis and outlining how it is to be attained or tested, such as the investigational plan required under § 812.25. The Food and Drug Administration traditionally has viewed these plans and protocols as an essential prerequisite to a study but recognized that research on living things, especially human beings, requires greater flexibility than a pure mechanical science: on the one hand, modifications may be necessary to take into account new information indicating avoidable safety risks; on the other hand, a thesis may be established earlier than anticipated, e.g., overwhelming evidence of effectiveness or lack of effectiveness in initial trials. Therefore, the agency has permitted modification of a plan or protocol by the investigator without prior approval of the sponsor based on information gained during the study. See, e.g., the IND regulations, item 5. of Form FD–1572 for investigators.

Experience has indicated, however, that other significant changes have been made in a plan or protocol without notice to, or approval by, a sponsor. These changes have in some cases undermined the validity of the study and have in others exposed subjects to different risks or inappropriately affected their rights. The Commissioner reasserts the agency's commitment to encouraging research and to providing wide latitude to clinical investigators. The Commissioner is proposing, however, that the approval of FDA and the institutional review committee must be obtained when certain types of changes are considered, unless, of course, a change is necessary to eliminate or reduce an apparent immediate hazard to the safety of human subjects, in which case immediate action is justified. Proposed § 812.39(b)(3) illustrates situations in which the prior approval requirement applies.

SPONSOR RESPONSIBILITIES IN INVESTIGATIONAL STUDIES INVOLVING HUMAN SUBJECTS

Proposed Subpart C enumerates the responsibilities of sponsors, including sponsor-investigators, in investigational studies involving human subjects.

GENERAL

Proposed § 812.40 explains that the requirements of proposed Subpart C are conditions to any exemptions for investigational studies under proposed Part 812 and are in addition to any other requirements applicable to sponsors under the act or under Chapter I of 21 CFR. For example, sponsors are also subject to requirements under Subpart B of proposed Part 812 concerning applications for investigational device exemption and may be subject to requirements to be prescribed in future regulations concerning applications for premarket approval under section 515 of the act.

REVIEW OF THE INVESTIGATIONAL STUDY BY FDA AND THE INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.42(a) requires the sponsor to submit for review and approval by FDA an application for an investigational device exemption, in accordance with Subpart B of proposed Part 812, before any human subjects are allowed to participate in the investigational study. The sponsor must also meet the other requirements, which are conditions for an investigational device exemption under proposed § 812.5, and assure that FDA is provided both the information concerning the proposed investigational study and the device needed for FDA review, approval, and monitoring of the study.

Proposed § 812.42(b) prohibits a sponsor from allowing human subjects to participate in a proposed investigational study until such time as the study has been reviewed by, and an investigational device exemption has been obtained from, FDA pursuant to Subpart B of proposed Part 812.

Proposed § 812.42(c) sets forth additional requirements applicable to sponsors where the proposed investigational study is subject to an institutional review requirement under Subpart D of proposed Part 812. The proposed requirements would enable the committee effectively to review, approve, and monitor an investigational study.

The requirements applicable to sponsors of investigational studies of devices under proposed § 812.42 have counterpart requirements, or implied requirements, under the IND regulations, e.g., items 10.c. and 14. of Form FD–1571 for sponsors of IND's and item 3. in Form FD–1572 and item 2.a. in form FD–1573 for investigators.

SELECTION OF INVESTIGATORS

Proposed § 812.43(a) requires a sponsor to select as investigators only individuals, who, because of their training or experience, qualify as suitable experts to investigate the safety and effectiveness of the device and who have the ability and commitment to comply with the investigational plan and the procedures, conditions, and requirements applicable to investigators under proposed Part 812. Proposed § 812.43(b) requires the sponsor to obtain from each investigator who will participate in the investigational study a signed statement for submission to FDA that includes (1) information concerning the investigator's qualifications, (2) an agreement to comply with the investigational plan, the regulations, and any conditions of approval of an application, (3) an agreement that any use of the device involving human subjects will be under the investigator's supervision, (4) a statement as to whether any investigational study or other research by the investigator has been discontinued, and (5) the name and qualifications of any other investigator under the supervision of the investigator signing the statement who will participate in the investigational study.

Under the IND regulations, sponsors have an implied duty in item 8. of Form FD–1571 to select only competent individuals as investigators. This duty is being expressed directly in proposed § 812.63(a). Section 312.1(a) (12) and (13) of the IND regulations require sponsors to obtain from investigators signed statements setting forth the investigators' qualifications to participate in a study and a number of commitments by the investigators relevant to the conduct of the study. As discussed earlier, the IND regulations do not now require that the investigators' signed statements be submitted to FDA, although item 9. of Form FD–1571 for IND sponsors requires that FDA be provided a list of the names of investigators, to be updated, along with the sponsor's assurance that the required signed statements will be obtained.

CONTROL OVER THE INVESTIGATIONAL DEVICE

Proposed § 812.45 requires sponsors to permit the investigational device to be shipped only to investigators who have signed the required statements; to recall any unused supply of an investigational device when a study is completed or discontinued, or the exemption is withdrawn; to maintain adequate and accurate records showing the shipment, receipt, or other disposition of devices; and to assure that the methods, facilities, and controls for manufacture, processing, storage, and installation of the device adequately assure the safety and effectiveness of the device. The investigators would be subject to similar requirements relating to control over investigational devices, under proposed § 812.107, discussed in detail below in this preamble.

The IND regulations include requirements, or implied requirements, which are counterparts to the proposed requirements for sponsors concerning control over investigational devices in § 812.45. An investigational new drug may only be shipped to investigators who have signed the required statements. Under § 312.1(d) of the IND regulations, the sponsor must recall unused supplies of investigational new drugs upon termination of an IND. Shipment records on investigational new drugs are required under § 312.1(a)(4). Sponsors have implied obligations concerning the methods, facilities, and controls used for the manufacturing, processing, and packing of investigational new drugs under item 5. of Form FD–1571 for sponsors of investigational studies of new drugs.

MONITORING THE INVESTIGATIONAL STUDY

Proposed § 812.46(a) requires sponsors to monitor the investigational study continuously to assure that the requirements of proposed Part 812 are met and to evaluate data regarding device safety and effectiveness upon receipt of such data from investigators.

Proposed § 812.46(b) requires the sponsor to designate an appropriately trained individual to monitor the study and evaluate the data received from investigators. Proposed § 812.46(c) requires that the sponsor assure that participating investigators conduct the investigational study in accordance with the investigational plan, the requirements of proposed Part 812, and any conditions of approval of an application for an investigational device exemption imposed under § 812.30(f). Proposed § 812.46(d) requires a sponsor to discontinue shipments of an investigational device to any investigator who has failed to comply with the investigational plan, proposed Part 812, and any conditions of approval. Proposed § 812.46(e) requires the sponsor to have and to comply with an adequate plan for monitoring the investigational study.

Proposed § 812.46(f) requires the sponsor to undertake a special investigation whenever he learns of any adverse effect which may reasonably be regarded as caused by, or probably caused by, the investigational device and it was not previously anticipated in any material submitted to FDA. (The sponsor is also expected to monitor and investigate anticipated adverse effects of a device as a part of the sponsor's general duty to monitor the study under proposed § 812.46(a) and to describe findings of such investigation in reports to FDA under proposed § 812.55). The sponsor must also undertake a special investigation of any known deaths of subjects and any life-threatening medical problems that have occurred in the study. All investigators participating in a study must be informed of any adverse effect, death, or medical problem reported by any other investigator of the device as soon as possible, but not later than 5 days after the sponsor learns of the adverse effect, death, or medical problem. Investigators have a similar responsibility to report to sponsors concerning any such adverse effect, death, or medical problem, under proposed § 812.112(c). Where the sponsor or FDA regards as serious any adverse effect, death, or medical problem, the sponsor shall suspend the investigation and shall not resume the investigation until it determines, subject to the concurrence of FDA, that the investigation can safely be resumed. Where there is substantial doubt that the study can safely be resumed, the sponsor shall discontinue the investigational study.

Proposed § 812.46(g) prohibits a sponsor from unduly prolonging an investigational study beyond the period that is suitable for the development of data to obtain approval of an application for premarket approval of a device. The sponsor is required to submit an application for premarket approval with reasonable promptness after it finds that the results of the investigational study may establish the safety and effectiveness of the device and within 60 days after receipt of a written request for such an application from the Commissioner. If the sponsor does not submit an application after such a request, it shall give adequate reasons for not doing so or shall discontinue the investigation.

The IND regulations include a number of provisions which are similar to those proposed in § 812.46. These requirements are found in § 312.1(a)(5) through (9).

SUBMITTING INFORMATION TO INVESTIGATORS

Proposed § 812.47 requires the sponsor to provide all investigators with copies of the investigational plan, the report of prior investigations of the device, and labeling (including labels) for the device which describes all relevant hazards, contraindications, adverse effects, interfering substances or devices, and needed precautions. The labeling shall not represent that the safety or effectiveness of the device has been established for the purposes to be evaluated. Proposed § 812.47(b) requires the sponsor to notify each investigator of any adverse effect, death, or medical problem that is subject to the requirement of a special investigation under proposed § 812.45(f). Proposed § 812.47(c) requires the sponsor to notify each investigator of the comple-

VOL 41 NO 163 AUG 20 76 UM

tion or discontinuance of an investigational study or the withdrawal of an exemption.

Proposed § 812.47(d) requires the sponsor to notify each investigator if an application for premarket approval of the device is approved.

The IND regulations include requirements similar to those proposed in § 812.47. These are found in § 312.1(a)(7) of the IND regulations, items 7. and 12. of Form FD–1571 for sponsors, item 6.a. of Form FD–1572, and item 4.a. of Form FD–1573 for investigators.

PROMOTION AND SALE OF AN INVESTIGATIONAL DEVICE

Proposed § 812.50(a) prohibits a sponsor and any person acting for or on behalf of the sponsor from disseminating any promotional material representing that the device being investigated is safe or effective for the purposes for which it is under investigation.

Proposed § 812.50(b) provides that a sponsor shall not commercially distribute, test market, or otherwise commercialize an investigational device until the device has been approved for marketing for the purpose for which it is being investigated. However, this restriction does not apply with respect to commercial distribution permitted during the transitional period for a class III device that was in commercial distribution before May 28, 1976, the enactment date of the Amendments, or that is substantially equivalent to a device that was in commercial distribution before such date, or to a device classified in class I or II.

Proposed § 812.50(c) prohibits a sponsor from charging subjects or investigators for an investigational device if FDA finds the compensation to be unreasonable considering the manufacturing or other costs of the device, and has notified the sponsor of this finding.

The rules proposed in § 812.50 are based upon § 312.1(a)(10) and (11) of the IND regulations and items 7. and 13. of Form FD–1571 for sponsors. However, the Commissioner recognizes that devices that are subject to a transitional period can be commercially distributed at the same time that they are being investigated. The Commissioner invites suggestions on how commercial distribution of a device can best be distinguished from distribution of a device for investigational use, so that the agency can provide better guidance to the research community and industry on this issue. Comments and suggestions should consider the policy objectives behind the rules in the IND regulations and the proposals that restrict promotion and sale of investigational articles; To assure that claims for articles are not made prematurely, to assure that the device is not distributed too widely in investigational studies, and to prevent an investigational exemption from serving as a subterfuge for unapproved commercial marketing.

REPORTING TO FDA, MAINTAINING RECORDS, AND PERMITTING INSPECTION

Proposed § 812.55(a) requires a sponsor to make accurate and adequate records for reporting to FDA on the progress of the investigational study. Reports shall be made at appropriate intervals not exceeding 1 year. Proposed § 812.55(b) requires the sponsor to notify FDA of the completion or discontinuance of the investigational studies within 30 days and to make an accurate and adequate final report to the agency within 6 months following such action or the withdrawal of the exemption. Proposed § 812.55(c) requires the sponsor to report to FDA any adverse effect, death, or medical problem that is subject to the requirement of a special investigation under § 812.46(f), promptly and in no event later than 5 working days after the sponsor learns of the adverse effect, death, or medical problem. Proposed § 812.55(d) requires a sponsor to submit to FDA a copy of a report of a determination by an investigator that informed consent cannot be obtained, promptly and in no event later than 5 working days after the report is received from the investigator. Proposed § 812.55(e) requires a sponsor to retain a copy of any application, report, or correspondence that he submits to FDA under proposed Part 812. Proposed § 812.55(f) describes the period of time for which a sponsor shall maintain required records. Proposed § 812.55(g) enables a sponsor to withdraw from the responsibility for maintaining records for the required period of time by transferring custody to another person. Proposed § 812.55(h) requires a sponsor to permit an authorized FDA employee, at reasonable times and in a reasonable manner, to inspect any facilities where the investigational device is manufactured, processed, held, or used, and to inspect and copy any records concerning the investigational study, including any required reference. In addition, a sponsor must permit a representative of an institutional review committee to inspect and copy records of the sponsor relevant to the committee's responsibility concerning the investigational study. Proposed § 812.55(i) enables FDA to require a sponsor to submit any records concerning the investigational study, including any records required to be kept.

Most of the requirements in proposed § 812.55, other than paragraph (d), have counterpart requirements in the IND regulations, particularly § 312.1(a)(4) through (6) and item 11 of Form FD–1571 for sponsors. Similar requirements will apply to investigators under proposed Subpart E of Part 812. Proposed § 812.55(d), which requires a sponsor to submit to FDA a copy of a report of a determination by an investigator that informed consent cannot be obtained from a subject or his representative, is new and is based upon guidance on the legislative history of the Amendments (ref. 2, at 44).

INSTITUTIONAL REVIEW COMMITTEE

Proposed D establishes requirements prescribing when institutional review and monitoring of investigational studies are required, how institutional review committees are to be created, and the function and duties of such committees. Section 520(g) of the act clearly contemplates continuation of the purposes of institutional review that are by now well-established in the research community: to evaluate proposed studies for ethical and moral acceptability as well as scientific justification to ensure the health and safety of human subjects; to approve or reject an investigational study as part of the independent decision of the institution to participate in the experiment; and to provide a local mechanism for day-to-day monitoring of the study to ensure the safety of the subjects and to ensure that the study is adhering to any conditions imposed upon the sponsor and investigators.

On May 30, 1974, the Department of Health, Education, and Welfare issued initial regulations governing institutional review of research funded or supported by the Department (39 FR 18914; amended at 40 FR 11854, March 13, 1975; codified in 45 CFR Part 46). The proposed regulations are quite similar, in terms of composition of the peer review group and its operations, to the Department's regulations, as well as to the agency-wide regulations currently being formulated which rely heavily on statements found in item 10.c. of Form FD–1571, item 3. of the Form FD–1572, and item 2.a. of Form FD–1573 of the IND regulations. However, certain differences do eixst between the Department regulations and the proposed investigational device regulations.

The Commissioner advises that the term "institutional review committee" appearing in section 520(g) of the act, is intended to correspond with the term "institutional review board" as used in the National Research Act (Pub. L. 93–348; sec. 212(a), which enacted 42 U.S.C. 474(a)) and the Department's regulations ("Technical Amendments," published in the FEDERAL REGISTER of March 13, 1975 (40 FR 11854)).

CIRCUMSTANCES IN WHICH AN INSTITUTIONAL REVIEW COMMITTEE IS REQUIRED

Proposed § 812.60 described the situations in which an institutional review committee is required and provides for situations in which review or monitoring by a committee does not meet the requirements of Subpart D.

Proposed § 812.60(a) requires that an institutional review committee be established by an institution to review and monitor an investigational study of a device when the study is to utilize subjects who are institutionalized, when the study is to be conducted by an individual affiliated with an institution that agrees to assume responsibility for the study, or when the study is to be conducted by an institution that has a committee that meets the requirements of Subpart D.

Proposed § 812.60(b) provides that when a committee does not meet the requirements of Subpart D, FDA will disregard the review or monitoring of any investigational study by that committee and require the sponsor of a study that would be reviewed by the committee to submit a complete investigational plan for the study.

MEMBERSHIP OF AN INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.62 establishes general requirements for the composition of institutional review committees. An institutional review committee must be composed of at least 5 persons with varying backgrounds. To assure sufficient diversity to evaluate a study in terms of science, law, professional ethics, and community attitudes, no institutional review committee may be composed entirely of members of a single professional group, or of officials or employees of the institution. To protect objectivity, no member of the institutional review committee who is involved in the study itself may participate in the institutional review committee's deliberations, except to respond to requests for information, and no investigator or sponsor may participate in the selection of members for an institutional review committee to review his study.

PROCEDURES FOR REVIEW AND MONITORING OF INVESTIGATIONAL STUDIES BY AN INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.65 imposes general procedures to be followed by institutional review committees in monitoring and reviewing investigational studies. A major purpose of this section is to provide maximum flexibility to the committee in performing its functions. Thus, an institutional review committee may adopt its own procedures for conducting reviews and for reporting actions to the parent institution. The only mandatory requirements are: (a) In the composition of a quorum; and in the definition of a minimum number of persons for a quorum, not less than a majority or three persons, whichever is greater; (b) in minimum frequency for monitoring of studies, 1 year; and (c) in the obligation of the committee to put its procedures in writing. The requirements respecting a quorum and written procedures are new to FDA regulations but represent only modest extensions beyond existing FDA and HEW rules.

PROCEDURES AND CRITERIA FOR REVIEW OF INVESTIGATIONAL STUDIES BY AN INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.66 establishes specific procedures and criteria to be followed by an institutional review committee in reviewing an application for approval of an investigational study.

Proposed § 812.66 (a), (b), and (c) establish general procedural requirements for submission of applications, notification of the sponsor, requests for additional information by the committee, and time requirements for action by the committee upon an application. Proposed § 812.66(c) also provides for conditional approval of an application. The Commissioner contemplates that a committee may consider any of the four factors listed in section 520(g)(2)(C) of the act, among other, in issuing such a conditional approval.

The Commissioner recognizes that special situations may arise where factors that would be of great concern to a committee might be insufficient for action by FDA, e.g., where the study is at odds with local ethical and moral standards or where the committee's responsibility extends beyond questions of safety and scientific validity and into such areas as allocating funds within an institution. To build flexibility into the committee's decisionmaking process as it functions in these and other situations, proposed § 812.66(d) provides that a committee may disapprove a study or withdraw approval of a study for any reason it considers appropriate.

Proposed § 812.66 (e) and (f) prescribe six specific criteria for disapproving an application for failure to satisfy the statutory standard of adequacy to justify proposed clinical testing. The first four grounds for disapproval in proposed § 812.66(e) are drawn basically from the existing IND regulations in § 312.41. The fifth, pertaining to failure to conform to procedures, conditions, or requirements prescribed in this part is obvious. The sixth in proposed § 812.66(f) is drawn from the Department's regulations in 45 CFR 46.2.

Proposed § 812.66(g) merely provides requirements for notification of the committee's decision on the application.

REVIEW BY INSTITUTION

Proposed § 812.70 affirms the respective powers of the institutional review committee and the institution in approving or rejecting proposed studies.

RECORDS OF AN INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.75 imposes upon an institutional review committee general requirements as to preparation and maintenance of records of its activities regarding individual studies.

The regulation would provide that records be kept for whichever of three alternative periods is applicable: (1) 2 years following approval of marketing of the device for the purposes that were the subject of the study; (2) 5 years following the date on which the results of the study were submitted to FDA in support of marketing of the device for purposes that were the subject of the study; or (3) in other situations, 2 years following the date on which the entire investigational study is completed or discontinued, or the exemption granted by FDA is withdrawn. This will afford the agency ample opportunity to verify the study if it desires, while providing an investigator a finite period of responsibility.

INSPECTION OF INSTITUTIONAL REVIEW COMMITTEES

Proposed § 812.77 affirms FDA's authority to inspect institutional review committees. The agency intends to inspect committees on both a continued random basis and "for cause" in response to particular problems. The number of committees inspected and the depth to which any is studied will remain a function of available FDA resources.

DISQUALIFICATION OF AN INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.79 institutes disqualification procedures applicable to institutional review committees which closely parallel the procedures governing disqualification of investigators in Subpart E, discussed fully below. One way in which this proposed section differs from that regarding disqualification of investigators is the listing of grounds, under proposed § 812.79(a), for disqualification of such a committee. These grounds consist merely of failure to undertake or comply with a duty imposed upon such committee by other sections of Subpart D.

The Commissioner recognizes that this proposal represents a departure from past policy and solicits comments on the need for such procedures and suggestions regarding those procedures proposed. The Commissioner also recognizes that there may be some question as to what enforcement action may be taken by FDA against a committee that is not in compliance. Possible sanctions that could be imposed include disqualification under this section and the proposals in § 812.60(b), discussed above.

INVESTIGATOR RESPONSIBILITIES IN INVESTIGATIONAL STUDIES INVOLVING HUMAN SUBJECTS

Proposed Subpart E defines the responsibilities applicable to investigators in investigational studies involving human subjects. In many instances, provisions and requirements under Subpart E will parallel provisions relating to sponsors under Subpart C of proposed Part 812. In addition, Subpart E will be similar to, or be integrated with, the corresponding subpart of the agency-wide regulations currently being formulated concerning responsibilities of investigators in clinical investigations. In these proposed regulations, the Commissioner has decided at this time not to propose major departures from the existing standards set forth in Forms FD–1572 and FD–1573 of the IND regulations for investigators in studies of new drugs.

REVIEW OF INVESTIGATIONAL STUDY BY THE FOOD AND DRUG ADMINISTRATION

Proposed § 812.101 sets forth in more detail, and makes explicit, requirements imposed by section 520(g) of the act. Proposed § 812.101 prohibits an investigator from allowing human subjects to participate, or requesting their consent to participate, in an investigational study until such time as the sponsor has submitted an application to FDA for review and approval and has received an exemption from the agency.

REVIEW OF INVESTIGATIONAL STUDY BY INSTITUTIONAL REVIEW COMMITTEE

Proposed § 812.103 establishes general requirements for submissions that must be made by the investigator to permit oversight of an investigator's activities by the institutional review committee.

Proposed § 812.103(a) prohibits an investigator from allowing human subjects to participate, or requesting their consent

V 41 H 163 AUG 20 76 UM

to participate, in a study until there has been approval by the committee of the study. Proposed § 812.103(b) prohibits an investigator from implementing a change in, or deviating from, the investigational plan until he has complied with § 812.105 as discussed below. Proposed § 812.103(c) imposes upon the investigator reporting requirements: The investigator must make accurate reports as soon as possible, but in no event later than 5 working days, after the investigator discovers adverse effects that can reasonably be regarded as caused, or probably caused, by an investigational device and were not preivously anticipated; the investigator must report any known deaths of subjects or any life-threatening problems occurring in the study. Proposed § 812.103(d) requires an investigator to report to the committee within 3 months after completion or discontinuance of, or the withdrawal of the exemption for, the entire investigational study or his portion of the study, whichever occurs first. This will assure that the institutional review committee is aware of the cessation of the study. Proposed § 812.103(e) requires an investigator to provide adequate information regarding an investigational study to the committee in response to its request, and proposed § 812.103(f) requires an investigator to maintain records of all submissions to, and all actions by, the committee regarding the study.

CONFORMITY TO INVESTIGATIONAL PLAN

Section 812.105 provides for those situations where the sponsor or an investigator participating in an investigational study wishes to implement a change in, or deviation from, the investigational plan, which change or deviation may affect the validity of the study or the rights or safety of human subjects. This provision, which is related to proposed § 812.39, requires that the committee, if any, and FDA review and approve the change or deviation before it is implemented except in emergency situations.

CONTROL OVER THE INVESTIGATIONAL DEVICE

Proposed § 812.107 imposes control over investigational devices based on experience in the drug area. The thalidomide disaster of the early 1960's shaped many of the policies of FDA regarding drug research. The looseness of control over the supply of thalidomide precluded any effective protection of research subjects both before and after the risk of phocomelia (birth deformities of the extremities) was discovered. To prevent repetition of this problem, it was necessary to require that investigational articles be distributed only to qualified and carefully selected investigators who were kept informed of all developments regarding the article. Thus, Congress sought in the 1962 drug amendments to assure that subjects to whom an investigational drug was administered were under the personal supervision of a designated investigator or under the supervision of investigators responsible to him. As part of this, section 505(i) of the act, and IND forms implementing it, seek to bar an investigator from supplying an investigational drug to any investigator not responsible to him for administration to human beings. The Commissioner now proposes to restate this requirement as to devices in proposed § 812.107(a).

A second element of control over the investigational device is the ability to remove it from use by subjects and investigators in the event that its continued availability is undesirable. FDA has had rare experiences where a drug study has been terminated for safety reasons, but a recall of the experimental drug has not been successful because of noncooperation of certain investigators. Thus, the Commissioner proposes in § 812.107(b) to restate the obligation of an investigator to return all unused stocks to the sponsor. He is, however, broadening the current language in two ways. First he is allowing for alternative disposition of investigational devices where the sponsor directs; this might permit onsite destruction or permit use in animal or in vitro experiments. Second, the Commissioner proposes that a recall be authorized whenever the sponsor deems it proper, even though the study itself is not completed or discontinued, or the exemption withdrawn.

In addition to observing restrictions on the distribution of investigational devices it is necessary that investigators maintain adequate and accurate records of all receipts and uses of such devices. These records help to prevent unauthorized distributions and to verify case histories. Such records also provide a record of lot numbers to detect possible lot-to-lot variations in the device. In addition in the event a recall of unused stocks of a device is necessary to minimize health risks to subjects these records can provide the most readily usable mechanism to identify which subjects have recently received the device and the quantities they may still have. Proposed § 812107(c) contains these requirements.

RECORDS REGARDING SUBJECTS

Proposed § 812.111 would impose upon an investigator recordkeeping requirements regarding subjects of an investigational study. The completeness and accuracy of the data regarding subjects are critical aspects of any research project. Inadequate, incomplete, or inaccurate records will render a scientific study valueless, thereby vitiating any justification for exposing human subjects to risk. Insufficient or erroneous documentation of important health indicators can increase hazards to subjects by reducing the ability of the investigator to detect changes in those indicators. Therefore, the Commissioner is adopting the current commitment, under the IND regulations, of an investigator that he will prepare and maintain "adequate and accurate case histories designed to record all observations and other data pertinent" to the investigation (item 6.b. of Form FD–1572 and item 4.c. of Form FD–1573).

Proposed § 812.111(a) identifies the requisite records regarding subjects of investigational studies. First, it confirms that a medical history of the subject prior to the study must be included if relevant to the subject's suitability to participate in the investigation.

Second, proposed § 812.111(b) confirms that the documentation of consent should be filed in the case history. Third, the records regarding administration or dispensing of investigational devices, as well as any control device, shall be maintained in this case history as well as in the records required for control of the device in proposed § 812.111(d). This requirement would allow for a cross check on the distribution of investigational devices and enable an investigator to contact selected subjects, e.g., those receiving the investigational device in the last month. Lastly, the proposed regulation emphasizes that the scope of observations made during the study includes the appearance of factors which might alter the effects of the experimental device, even though such factors are not considered to be caused by, or associated with, the device under study.

REPORTS TO SPONSORS

Proposed § 812.112 imposes requirements upon investigators regarding reports on the investigation that must be made to the sponsor. Periodic reports to the sponsor on the progress of an investigation enable the sponsor to collate and review data to obtain an overall view of the study and report useful information to the investigator, as well as to FDA. Frequently, for example, subtle but significant trends not easily detectable at the individual investigator level become apparent when a larger sample is analyzed. For this reason, in § 312.1(c)(5) of the IND regulations, FDA has required annual progress reports to be submitted by sponsors of drug investigations to the agency, referred to in item 6.d. of Form FD–1572 and item 4.d. of Form FD–1573 for investigators. The Commissioner proposes that investigators be obliged to report annually to sponsors of investigational studies of devices in proposed § 812.112(a).

In § 812.112(b), the Commissioner proposes to require a final report from an investigator within 3 months of the completion or discontinuance of, or withdrawal of an exemption for, the entire investigational study or of his portion of the study, whichever occurs first.

Special reports of adverse reactions warn other investigators of possible hazards and may require a reassessment of the benefit-to-risk ratio justifying the study. The current IND regulations require timely reports. (See, e.g., the last sentence of item 6.d. of Form FD–1572 and the penultimate sentence in item 4.d. of Form FD–1573 and compare § 312.1(a)(6).) Proposed § 812.112(c) requires a special report of any previously unanticipated adverse effect, that is, any effect not described in the written information on possible hazards, contraindications, side effects, and precautions given the investigator by the sponsor. This would not require repeated reporting of routine and minor side effects after these are inserted in the sponsor's informational materials for investigators but would require reports of unusual reactions, including unusually severe reactions and reactions with an unusually high incidence.

In addition, the Commissioner proposes to require the investigator to notify the sponsor of any deaths, regardless of cause. Special reports also are warranted if life-threatening medical problems arise; this could include, for example, problems in conducting certain diagnostic tests. The proposed regulations differ from the IND regulations with respect to special reporting obligations by substituting for the current IND reporting deadlines, which require that reporting be done "promptly" in some instances and "immediately" in others, the requirement that reporting is to be done as soon as possible but in no event later than 5 working days after discovery.

Proposed § 812.112(d) requires the investigator to submit to the sponsor a copy of any report of determinations that the investigator must make when seeking an exception from the informed consent requirements pursuant to § 812.123.

RETENTION OF RECORDS

Proposed § 812.114 imposes upon an investigator requirements as to the period of time he is to retain records required to be maintained under Subparts E and F. The regulation provides that records be kept for whichever of three alternative periods is applicable: (1) 2 years following approval of marketing of the device for the purposes that were the subject of the study; (2) 5 years following the date on which the results of the study were submitted to FDA in support of marketing of the device for purposes that were the subject of the study; or (3) in other situations, 2 years following the date on which the entire investigational study is completed or discontinued, or the exemption granted by FDA is withdrawn. This will afford the agency ample opportunity to verify the study, if it desires, while providing an investigator a finite period of responsibility.

The proposed regulations also provide a mechanism for an investigator to transfer his records to another party, should he decide to move, retire, or otherwise withdraw from his obligations. The current IND regulations do not provide for such a transfer.

INSPECTION OF FACILITIES, RECORDS, AND REPORTS AND REQUESTS FOR RECORDS AND REPORTS

Proposed § 812.115 imposes certain requirements upon investigators governing inspection of their facilities, records, and reports and requests for their records and reports. The sponsor is responsible for the investigational study because he has sought and received an exemption to study the investigational device. The Food and Drug Administration therefore has required under the IND regulations that the sponsor monitor the conduct of its investigations, detect safety problems, and assure that investigators fulfill their commitments upon receiving the investigational device. (See, e.g., § 312.1(a)(5), (6), (7), and (8) of the IND regulations.) Current IND regulations neither discuss the obligations of investigators to permit a sponsor to inspect their facilities and records nor limit the rearch of the sponsor's inspection. These matters generally have been resolved between investigators, or their institutions, and sponsors. In light of the responsibilities of sponsors and the heightened concern over the confidentiality of records containing subjects' names, the Commissioner believes it appropriate to propose certain rules at this time. He recognizes that the National Commission on the Protection of Human Subjects in Biomedical and Behavioral Research may offer recommendations in this area, and he further contemplates proposing more detailed, general FDA regulations to protect the confidentiality of human subjects in clinical investigations.

Until this can be done, however, the Commissioner proposes that (a) an investigator permit the sponsor or FDA to inspect and copy records that do not identify the human subject and (b) an investigator permit authorized employees of FDA to inspect and copy records that do identify a human subject by name upon notice that the FDA has reason to believe that the consent of human subjects was not obtained, that the reports submitted by the investigator to the sponsor or to the institutional review committee do not represent actual cases, actual results obtained, or that the submitted case reports or other records appear to be otherwise false or misleading. Proposed § 812.115 also provides that inspections shall be conducted at reasonable times and in a reasonable manner; this follows the requirement set forth in the current IND forms.

DISQUALIFICATION OF INVESTIGATORS

Proposed § 812.119 proposes requirements pertaining to disqualification of investigators.

Since the beginning of FDA's supervision of the conduct of research under the act, the agency has largely relied upon administrative sanctions to achieve compliance with the investigational requirements of the act. Because of the seriousness of criminal prosecution, the amount of resources necessary to prepare and conduct a civil or criminal proceeding, and the varieties of noncompliance that did not reflect criminal intent or bad faith, only occasionally has FDA recommended judicial proceedings against investigators. Instead, the agency sought to introduce flexibility into its regulatory scheme by developing administrative procedures to respond to noncompliance by an individual investigator. This has been termed the "disqualification" process, and is currently codified in § 312.1(c) of the IND regulations.

Disqualification under the IND regulations simply means that an investigator is no longer eligible to receive investigational drugs under his own or someone else's IND. It imposes no fine; it attaches no financial liability, except to the extent that an investigator may be unable to fulfill a research contract; it does not revoke a medical license or institutional privileges. Occasionally, an investigator who is subject to disqualification is also subject to malpractice liability, licensure revocation, privilege suspension, or other disciplinary proceedings for the same acts; in such situations, the decision of FDA may influence the outside groups, but the agency does not believe that its decisions should be determinative. The disqualification of an investigator is intended to achieve one objective: to preclude a disqualified investigator from access to any investigational article subject to FDA regulation until he can demonstrate his ability and willingness to conform to the standards for conducting clinical studies essential to assure scientifically sound and ethical research.

Disqualification has not been used with great frequency by FDA. In 13 years, 23 investigators have been disqualified: 21 by the Bureau of Drugs and 2 by the Bureau of Biologics and its predecessor, the Division of Biologics Standards. The Commissioner believes, however, that a reaffirmation of the reasons for FDA's rules, together with a more precise statement of these rules, will improve compliance. Several reasons justify revising the procedures for disqualification of investigators, and FDA is therefore preparing proposed revisions of existing regulations. These revised procedures, which will be proposed for comment in the near future, are similar to the procedures that are being proposed with respect to investigational devices.

Proposed § 812.119 will clarify the standards for disqualification, provide the Director of the Bureau of Medical Devices and Diagnostic Products with the final authority to act on a proposed disqualification, provide for a separation of functions within the Bureau in disqualification proceedings, assign authority to commence disqualification proceedings, set forth all of the actions or sanctions which FDA might take or invoke as a consequence of disqualification.

Proposed § 812.119(a) sets forth with particularity the grounds upon which an investigator may be ruled ineligible to participate in further regulated studies. The detailed articulation of obligations of investigators in Subpart E in this proposal should not be interpreted as requiring perfection. The Food and Drug Administration is well aware of the exigencies of clinical investigations and does not intend to invoke several sanctions for technical deviations and minor human error. While a high standard of care is to be expected of those whose research place human subjects at risk, the agency will exercise its discretion reasonably in administering these regulations, as it has with the current procedures. The guiding principle distinguishing "technical" violations from those that warrant regulatory action is whether acts or omissions of the investigator caused or might well have caused a significant adverse effect on the safety or rights of the subject involved or on the validity of the study itself. The primary function of FDA's regulation of research is to assure that the

VOL 41 NO 163 AUG 20 76 UM

risks such research poses to subjects are both minimized and justified by the benefits sought for the subjects, or for scientific knowledge, or both. When those regulations are violated in such a way as to increase the real risks unnecessarily, the impetus for disqualification is obvious. Less apparent, but equally compelling, is the need for a regulatory response when the validity of the study is impaired without a direct increase in the risk to subjects as, for example, when records are inadequate or inaccurate. The effect here is on the expected benefits that originally justified the study. If no useful results are obtained, the investigation is valueless, and the subjects were exposed to unwarranted risks, regardless of how small those risks actually may have been.

Translating this principle into the form of regulations, proposed § 812.119 (a) sets forth 11 specific grounds for disqualification:

1. An investigator may be disqualified if he commences a study without the prior approval of the FDA and any institutional review committee. The failure to utilize this mechanism is presumed to affect adversely the rights of the subjects, if not always their safety.

2. The Commissioner proposes that the unauthorized changing of, or deviating from, an investigational plan may justify disqualification if the change or deviation adversely affects the rights or safety of the subjects or the validity of the study.

3. The violation of the rights of human subjects regarding informed consent is a serious matter warranting regulatory action, even though the violations may not affect the safety of the subjects or the validity of the results. Such violations include the failure to provide the essential information regarding the study and the individual's rights as a subject, the failure to obtain the consent of the subject, the use of a consent form that has not been approved by an institutional review committee, and the use of a consent form that contained exculpatory language.

4. An investigator may be disqualified if he permits the investigational device to be administered to subjects who were not under his general supervision. An investigator must not give up his ultimate authority over the selection of subjects, the circumstances of the use of the investigational device, and the monitoring of subjects participating in the investigation.

5. An investigator may be disqualified if he supplies the investigational device to someone who is not under his supervision or that of the sponsor. The investigator may believe that no subjects will be exposed, but the very loss of his and the sponsor's control over the device creates the possibility that such exposure may occur.

6. If an investigator fails or refuses to return or dispose of unused stocks of an investigational device upon the request of the sponsor, he may be disqualified. The continued availability of these supplies creates numerous risks.

7. Deficiencies in recordkeeping will trigger disqualification if they are so serious as to have a significant adverse effect on the validity of the study or on the rights or safety of the subjects, or if they are so serious as to prevent an adequate audit of the study.

8. An investigator may be disqualified if he fails to make a required report within the time allotted. Reports on potential health problems must be made in a prompt manner to disseminate data on these problems as rapidly as possible; delays may affect the safety of subjects. Progress and final reports assure the timely review of results, thereby reinforcing the worth of the study.

9. The refusal of an investigator to permit an authorized inspection may lead to disqualification. In a sense, both the validity of the study and the safety of the subjects rest upon the credibility of the investigator. This reliance is tested and justified by the availability of the records during inspections. The Commissioner notes that a refusal to permit any part of an inspection would justify disqualification, even if the remainder of the inspection were unhampered.

10. Similarly, refusal of an investigtor to permit copying of records identifying the names of human subjects under the special circumstances described in § 812.-115(b) would be a basis for disqualification.

11. Finally, the falsification or withholding of any required record or report is an obvious ground for disqualification.

Under the disqualification procedure in proposed § 812.119(b) through (d), disqualification would be proposed by the officer in the Bureau who has direct responsibility at the office level or division level for monitoring the conduct of investigational studies (now the Director of the Division of Classification and Scientific Review); notice of the proposed action would be provided to the investigator; there would be an opportunity for a regulatory hearing before the Director of the Bureau or a person designated by him; the final action on the proposed disqualification would be taken by the Bureau Director.

Because the disqualification of an investigator is in the nature of an adjudicatory proceeding, the proposed FDA regulations prescribing administrative practices and procedures eliminate any view of prejudgment by separating the person who presides at the disqualification hearing from the persons and office proposing the disqualification. See proposed § 2.505 in the FEDERAL REGISTER of September 3, 1975 (40 FR 40682). In order that the Director of the Bureau may have authority to preside at the regulatory hearing, it is necessary that another officer within the Bureau be given authority to commence the disqualification process. Under proposed § 812.119(b), wherever the officer in the Bureau who has direct responsibility for monitoring the conduct of investigational studies has information indicating that grounds exist under § 812.119(a) to justify disqualification of an investigator, he may issue to the investigator a written notice proposing that the Bureau Director disqualify him from receiving investigational devices.

The written notice provided to the investigator upon commencement of a disqualification proceeding shall contain the following items of information, in accordance with proposed § 2.510(a):

(1) The notice shall specify the facts and set forth the specific violations of § 812.119(a) that are believed to justify disqualification; (2) the notice shall state that the investigator has an opportunity for a regulatory hearing on the proposed disqualification before the Bureau Director, or a person designated by him, and that such hearing will be conducted in accordance with the provisions of Subpart F of Part 2 of the proposed procedural regulations; (3) the notice shall state the time within which a hearing may be requested, which shall be not less than 3 working days from the receipt of the notice; (4) the notice shall contain the name, address, and telephone number of the official of the Bureau who is designated as presiding officer for the regulatory hearing and to whom any request for a hearing shall be addressed, and it shall also state that a request may be filed by registered mail, telegram, telex, personal delivery, or any other mode of written communication. In the past the Bureau of Drugs has provided an "informal" conference with the officer who issued the notice before the "formal" disqualification hearing in accordance with § 312.1(c)(1) of the IND regulations. The Commissioner believes that it is unnecessary to provide for such an informal conference in the proposed investigational device regulations.

Proposed § 812.119(d) provides that, if, after the regulatory hearing or after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, upon reviewing the administrative record, that the investigator is responsible for any of the acts or omissions specified in the notice proposing disqualification and has not adequately explained his conduct, he shall prepare and issue a final order disqualifying the investigator from receiving investigational devices. The final order shall include a statement of the basis for the decision to disqualify the investigator. Once a final order has been issued, the Director of the Bureau shall so notify the investigator and the sponsor of, and the committees responsible for review and monitoring of, each investigational study in which that disqualified investigator is participating that is subject to regulation by the Bureau. The Director, however, may reinstate the investigator to allow him to complete an ongoing study if, following the procedures of proposed § 812.119(f), the investigator can assure the acts or omissions which led to his disqualification will not recur.

If, after the regulatory hearing, or if, after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, upon reviewing the administrative record, that the investigator is not responsible for the acts or omissions specified in the notice proposing disqualification, or that the investigator is responsible but has adequately explained his conduct, he shall issue a final order terminating the disqualification proceeding and shall include a statement of the basis for his decision to terminate the proceeding. After such a final order has been issued, the Director of the Bureau shall so notify the investigator and the officer who proposed disqualification. In addition, if that officer notified any sponsor of an investigational study involving the investigator about the proposal to disqualify the investigator, as permitted under proposed § 812.119(g)(2), the Director of the Bureau also shall notify the sponsor that the disqualification proceeding has been terminated and shall include a statement of the reasons therefor.

The Commissioner proposes in § 812.-119(e) to authorize the Director of the Bureau to notify any persons or organizations known by him to have professional relations with the investigator that the investigator has been disqualified from receiving investigational devices regulated by FDA when the Director believes that such disclosure would further the public interest or would promote compliance with the law. This determination is within the discretion of the Director and may be made after consideration of the circumstances justifying the disqualification, the mitigating conditions, and the degree to which other institutions or persons have an involvement in the ongoing activities of the investigator. Because notification of disqualification, without more information, might unduly prejudice the investigator, the Director shall provide a copy of the final order issued under proposed § 812.-119(d) and shall state that the disqualification constitutes a determination by FDA that the investigator is not eligible to participate in an FDA-regulated investigation, that the notice is being given because the action may affect the interests of the person notified, and that FDA is not advising or recommending that the person take any action upon the matter. A copy of each notification issued to other persons or organizations shall be given to the investigator.

Once an investigator has been disqualified, proposed § 812.119(e)(2) provides that each exemption for investigational use of a device, application for premarket approval of a medical device, and medical device product development protocol, whether approved or not, which contains or relies upon data prepared by the investigator, may be examined to determine whether the data were essential to FDA's decision to allow the research or marketing. If it is determined that, absent such data, the exemption would not have been granted or that the application for premarket approval or protocol would not have been approved, FDA will then determine whether the data are reliable. This may include requiring the sponsor or applicant to submit validating information. If FDA determines that the data are essential and are not reliable, such data will be eliminated from consideration in support of the exemption, application, or protocol. Elimination of such data will serve as "new information" justifying withdrawal of approval of the exemption, application, or product development protocol.

A determination that an investigator has been disqualified and the administrative record regarding such determination are disclosable to the public under the Freedom of Information Act (5 U.S.C. 552) and under FDA public information regulations (21 CFR Part 4) as records relating to the administrative enforcement action that has been completed.

Proposed § 812.119(f) authorizes the Director of the Bureau to reinstate the investigator if he determines that the investigator can provide adequate assurances that he will conduct the study in compliance with the requirements of the act and regulations thereunder. An investigator who wishes to be reinstated shall explain to the Director why he believes he should be reinstated, as well as the kind of corrective actions he has taken or intends to take to assure that the acts or omissions which led to his disqualification will not recur. The Commissioner believes that the Directors of all bureaus of FDA that regulate research should be consulted prior to reinstatement and that, in fairness to the investigator, all persons or organizations notified under proposed § 812.119 (d) and (e)(1) of the investigator's previous disqualification must be notified if that investigator is later reinstated.

A determination that an investigator has been reinstated is disclosable to the public under the Freedom of Information Act (5 U.S.C. 552) and under Part 4 of FDA regulations as records relating to completed administrative enforcement actions.

Since disqualification of an investigator may be neither a sufficient nor an appropriate remedy in every case, the Commissioner believes that disqualification under this Subpart E must be independent of, and neither in lieu of nor a precondition to, other proceedings or actions authorized by the act. Proposed § 812.119 (g) makes clear, therefore, that FDA may, at any time, recommend institution against an investigator of any appropriate judicial proceedings, civil or criminal, or other appropriate regulatory action, in addition to or in lieu of disqualification, and these proceedings or other action may occur before, simultaneously with, or after disqualification.

The Commissioner also believes that it may, in certain cases, be both appropriate and advisable for the sponsor of an investigation to be made aware that the conduct of one of its investigators may subject him to disqualification and that such information ought not necessarily to be withheld from the sponsor until after FDA has disqualified the investigator. Therefore, proposed § 812.119(g)(2) authorizes the officer who may, under proposed § 812.119(b), propose disqualification to notify the sponsor of a study under which that investigator is participating when the officer has reason to believe that the investigator may be subject to disqualification. Such notification will be made simultaneously with a proposal to disqualify the investigator unless overriding safety considerations warrant earlier notification of a sponsor.

Because the Commissioner believes it is important that the sponsor of an investigation be able to remove an investigator at any time from further participation in any investigation he is conducting for the sponsor, proposed § 812.119(h) makes clear that the sponsor has such authority and may remove an investigator, whether or not FDA has commenced any action to disqualify that investigator. Further, in removing an investigator, the sponsor is not required to rely on the grounds or follow the procedures for disqualification that are set forth in this proposed regulation. The sponsor is required, however, to advise FDA of this action, supplying reasons therefor, within 5 working days. This principle follows the decision of the Federal district court in *Froning v. Travenol Laboratories, Inc.*, (N.D. Calif., Civil Action C75-0767, 1975) and the existing requirement set forth in § 312.1 (a)(8), which creates a legal obligation on a sponsor to discontinue shipments to an investigator who has failed to fulfill his obligations undertaken in the Forms FD-1572 or FD-1573.

INFORMED CONSENT OF HUMAN SUBJECTS

Proposed Subpart F establishes procedures and requirements governing informed consent of human subjects who participate in investigational studies of devices.

The Commissioner shares the increasing public concern about the protection of human subjects involved in clinical investigations. An essential aspect of providing this protection is to ensure that informed consent is properly obtained from subjects before the investigational article is administered or used. The National Commission on the Protection of Human Subjects of Biomedical and Behavioral Research currently is studying the adequacy of informed consent, particularly as the concept relates to more vulnerable members of society, such as prisoners, the mentally disabled, and children, in view of changing social policy and advancing biomedical technology. It is anticipated that the Commission will make its recommendations by early 1977.

Section 520(g) of the act requires that the person applying for an investigational device exemption must "assure that informed consent will be obtained from each human subject (or his representative) of proposed clinical testing involving such device," unless exceptional circumstances exist. However, the legislation that emerged from the Conference Committee did not include numerous provisions setting forth requirements relating to informed consent that were contained in the Senate bill but had no counterparts in the House version.

One of the specific provisions included in the Senate bill defined informed consent as the consent of a person, or his legal representative, so situated as to be able to exercise free power of choice without the intervention of force, fraud, deceit, duress, or other forms of constraint or coercion. Another provision

V 41 163 AUG 20 76 UM

required informed consent to be evidenced by a written agreement signed by such person or representative, which included (1) an explanation of procedures to be followed, including an identification of any which are experimental, (2) a description of discomforts and risks, (3) an explanation of likely results should the procedure fail, (4) a description of any benefits to be expected, (5) a disclosure of appropriate alternative procedures, (6) an offer to answer inquires, and (7) an instruction that the subject is free to decline entrance into a project or discontinue participation. In addition, the agreement was to include no exculpatory language which required a subject to waive any legal rights or release an institution or its agents from liability for negligence. The Senate bill also required any organization that initiated, directed, or engaged in programs which require informed consent to keep a record of such consent and the information provided the subject and develop appropriate documentation and reporting procedures as an essential administrative function.

The report of the conference committee on the Amendments (ref. 3) explains that the specific provisions of the Senate bill relating to informed consent were not adopted by the conferees in deference to the ongoing study of the subject by the Commission. But the conferees emphasized that this omission was not to be construed as indicating that they did not intend the detailed requirements of the Senate bill to be applicable to investigations of medical devices. The conferees stated clearly that they " * * * would expect that the Secretary would use the requirements of the Senate bill as the basis for regulations implementing the Conference Report's provisions with respect to informed consent until such time as the Secretary has taken action in response to the recommendations of the Commission * * *. These requirements are therefore proposed in § 812.-120.

In addition to these instructions from Congress, the Commissioner recognizes several other sources of guidance that should at least be considered in formulating proposed regulations. In these proposed regulations, the Commisioner has attempted to reconcile any differences between these sources of guidance on informed consent.

First, the Department regulations set forth specific requirements for protection of human subjects appearing in 45 CFR Part 46 (39 FR 18914, May 30, 1974; 40 FR 11854, March 13, 1975). Part 46 is applicable to all HEW grants and contracts supporting research, development and related activities in which human subjects are involved. The Commissioner believes that the proposed investigational device regulations should not be inconsistent with 45 CFR Part 46 because some investigations of medical devices will be conducted under HEW grants and contracts.

The Commissioner also believes that the proposed regulations should, so far as possible, be consistent with the existing regulations governing consent for use of investigational new drugs (IND's) on humans, which appear at § 310.102.

Furthermore, the Commissioner believes that in promulgating these proposed regulations the agency should consider the recommendations in the General Accounting Office (GAO) report (ref. 1).

As indicated above, the Commissioner has concluded that it is desirable to revise the IND regulations governing clinical investigations involving drugs and biological products to clarify requirements applicable to all participants in, and phases of, such investigations and that, to the extent possible the agency's requirements concerning clinical investigations of any regulated products should be prescribed in uniform agency regulations. When final regulations are published revising the IND regulations and, where appropriate, establishing uniform agency-wide regulations, appropriate revisions will be made in the investigational device regulations to assure maximum consistency and to take into account the recommendations of the Commission.

The Commissioner believes that these proposed procedures and requirements relating to informed consent fully protect the rights and safety of human subjects involved in investigational studies without encumbering the efforts of investigators and sponsors to discover and develop useful devices. The Commissioner recognizes, however, that somewhat more detailed procedures or requirements, such as those pertaining to documentation of informed consent set forth in the Department regulations under 45 CFR 45.10, could be prescribed, and he solicits comments on the adequacy of the proposed procedures and requirements to protect the health and safety of human subjects and whether the investigational device regulations should include precisely the same requirements as those found in the Department regulations.

General Requirements of Informed Consent

Proposed § 812.120 imposes certain general requirements upon investigators in obtaining informed consent from human subjects. An investigator must inform each human subject that an investigational device is being used for research purposes, must provide each subject an adequate explanation of pertinent information concerning the device, and must obtain and document legally effective informed consent of the subject, unless exceptional circumstances, as provided for in § 812.123, exist.

The subject's consent also must be obtained while he or she is so situated as to be able to exercise freedom of choice. Such consent shall be evidenced by a written agreement, signed by the subject.

The Commissioner recognizes that an individual who is seriously ill may not have true freedom of choice when confronted with the possibility of improvement in his condition represented by new therapy in the form of an investigational device. The purpose of this proposal is to prevent externally imposed duress, not duress inherent in a subject's medical condition.

Exception from Requirement

Proposed § 812.123 provides for exceptions from the general requirement of informed consent established by proposed § 812.120 in certain life-threatening situations where the investigator complies with specific procedures. The investigator must determine in writing that a life-threatening situation involving the subject exists which necessitates use of the investigational device, that it is not feasible to obtain informed consent from the subject, and that there is not sufficient time to obtain such consent from the subject's legal representative. Such determination must be concurred in by a licensed physician not involved in the testing of the device, unless the investigator determines, and documents this determination, that immediate use of the device is necessary to save the life of the subject and there is not sufficient time to obtain such concurrence and that there is available no alternative method of therapy that is generally approved or recognized that may save the life of the subject.

All except the last of those determinations required of the investigator under proposed § 812.123(a) are drawn verbatim from section 520(g)(3)(D) of the act. The purpose of the requirement, that a determination be made as to lack of availability of any alternative method of therapy that may save the life of the subject, is to prevent routine reliance on the exception. Authority for this requirement is derived from section 520(g)(1) of the act, which mandates that the investigational use of a device be consistent with protection of the public health and safety. Documentation of these determinations may occur after use of the device in those emergency situations.

Proposed § 812.123(b) imposes upon the investigator the requirement to report these determinations as soon as possible, but in no event later than 5 working days after using the device, to the sponsor and the committee for submission by the sponsor to FDA, as mandated by the House Report (ref. 2, at 44).

Elements of Informed Consent in Agreement

Proposed § 812.130 makes explicit and defines in greater detail the general requirements for informed consent that appear in § 812.120.

Proposed § 812.130(a) requires that the investigator have the subject sign an agreement that includes an explanation of pertinent information sufficient to enable the subject to make an informed and intelligent decision concerning his or her participation in the investigational study. While the proposed § 812.130(a) lists specific items of information drawn from the Department regulations, the IND regulations, and the Conference Report (which restates provisions that appeared in the Senate bill) that must be included in the agreement, this list could not possibly cover all investigational studies and represents only the minimum required. The investigator always must tailor the information he provides to the subject to the requirement of sufficiency to enable the subject to make an informed and intelligent decision regarding participation; this means that an investigator may have to provide information in addition to that expressly required in the list.

Proposed §812.130(b) prohibits inclusion of exculpatory language in the agreement. Proposed § 812.130(c) requires the investigator to provide to the sponsor and to the institutional review committee sample copies of written materials given or read to each subject regarding the information required by proposed § 812.130(a) as well as copies of any forms used to document consent, which must be approved by the committee. Such materials must also be submitted to FDA under Subpart B.

Proposed Subpart G of Part 812 is reserved.

Investigational Studies That Do Not Involve Human Subjects

Proposed Subpart H states the requirements applicable to investigational studies of devices intended for use in humans, presently or eventually, where such studies do not involve human subjects. Subpart H applies to studies of a device in laboratory animals, or for in vitro or mechanical testing or other testing not involving use of human subjects.

Conditions of Exemption

Proposed § 812.160(a) describes the conditions for an exemption for investigational studies that do not involve human subjects. The conditions require adequate labeling of the device, exercise of diligence to assure that the device is sent only to persons conducting tests that do not involve human subjects, and compliance with requirements concerning recordkeeping and records inspection.

Proposed § 812.160 is similar to § 312.9 (a) of the IND regulations.

Termination of Exemption

Proposed § 812.170 describes the grounds and procedures for terminating an exemption for an investigational study of a device that does not involve human subjects. This section is similar to § 312.9(c) of the IND regulations.

References

Background data and information on which the Commissioner relies in proposing this regulation have been placed on file for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. The following is a list of these documents:

1. "Federal Control of New Drug Testing is Not Adequately Protecting Human Test Subjects and the General Public," General Accounting Office, July 15, 1976.

2. House Report No. 94–853, Medical Device Amendments, February 29, 1976 (Committee on Interstate and Foreign Commerce).

3. House Report No. 94–1090, Medical Device Amendments, May 6, 1976 (Committee of Conference).

Proposed Effective Date

To provide interested parties with an opportunity to begin clinical investigations prior to the effective date of the proposed regulation, FDA will accept applications for review and approve conditions necessary to obtain a medical device exemption providing the applicant complies with the requirements set forth in the proposed regulation.

The final regulations will be published in the FEDERAL REGISTER after consideration of all comments submitted pursuant to this notice of proposed rule making. The Commissioner proposes that the regulations become effective 90 days after the date of publication in the FEDERAL REGISTER of the final regulations.

The Commissioner has carefully considered the environmental effects of the proposed regulations and, because the proposed action will not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required.

The Commissioner also has considered carefully the inflation impact of the proposed regulations as required by Executive Order 11821, OMB Circular A–107, and the Guidelines issued by the Department of Health, Education, and Welfare, and no major inflation impact has been found. Copies of the FDA environmental and inflation impact assessments are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 301, 501, 502, 520 (e), (g), 701(a), 704, 801(d), 52 Stat. 1042–1043 as amended, 1049–1051 as amended, 1055, 1057 as amended, 90 Stat. 567, 569–571, 578 (21 U.S.C. 331, 351, 352, 360j (e), (g), 371(a), 374, 381(d))) and under authority delegated to him (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the Commissioner proposes that new Part 812 be established to read as follows:

PART 812—INVESTIGATIONAL DEVICE EXEMPTIONS

Subpart A—General Provisions

Sec.
812.1 Scope.
812.2 Applicability.
812.3 Definitions.
812.5 General qualifications for an exemption.
812.10 Petitions for waiver of requirements.
812.12 Information previously submitted.
812.19 Requirements applicable to importers and exporters of investigational devices.

Subpart B—Applications for Exemption for Investigational Studies Involving Human Subjects

812.20 Application.
812.25 Investigational plan.
812.27 Report of prior investigations of a device.
812.30 FDA review of and action on an application.
812.35 Withdrawal of an investigational device exemption.
812.38 Confidentiality of data and information in an application.
812.39 Supplemental applications and submissions concerning applications.

Subpart C—Sponsor Responsibilities in Investigational Studies Involving Human Subjects

812.40 General.
812.42 Review of the investigational study by the Food and Drug Administration and the institutional review committee.
812.43 Selection of investigators.
812.45 Control over the investigational device.
812.46 Monitoring the investigational study.
812.47 Submitting information to investigators.
812.50 Promotion and sale of an investigational device.
812.55 Reporting to the Food and Drug Administration, maintaining records, and permitting inspection.

Subpart D—Institutional Review Committee

812.60 Circumstances in which an institutional review committee is required.
812.62 Membership of an institutional review committee.
812.65 Procedures for review and monitoring of investigational studies by an institutional review committee.
812.66 Procedures and criteria for review of investigational studies by an institutional review committee.
812.70 Review by institution.
812.75 Records of an institutional review committee.
812.77 Inspection of institutional review committees.
812.79 Disqualification of an institutional review committee.

Subpart E—Investigator Responsibilities in Investigational Studies Involving Human Subjects

812.101 Review of investigational study by the Food and Drug Administration.
812.103 Review of investigational study by institutional review committee.
812.105 Conformity to investigational plan.
812.107 Control over the investigational device.
812.111 Records regarding subjects.
812.112 Reports to sponsor.
812.114 Retention of records.
812.115 Inspection of facilities, records, and reports and requests for records and reports.
812.119 Disqualification of investigators.

Subpart F—Informed Consent of Human Subjects

812.120 General requirements of informed consent.
812.123 Exception from requirement.
812.130 Elements of informed consent in agreement.

Subpart G—[Reserved]

Subpart H—Investigational Studies That Do Not Involve Human Subjects

812.160 Conditions of exemption.
812.170 Termination of exemption.

AUTHORITY: Secs. 301(1), (q), 501, 502, 520 (e), (g), 701(a), 52 Stat. 1042–1043 as amended, 1049–1051 as amended, 1055, 90 Stat. 567, 569–571, 576–578 (21 U.S.C. 331 (1), (q), 351, 352, 360j (e), (g), 371(a))

VOL 41 NO 163 AUG 20 76 UM

Subpart A—General Provisions

§ 812.1 Scope.

(a) This part provides that a device may be exempted from any of the requirements of the act enumerated in paragraph (c) of this section that would otherwise be applicable to the device, to permit investigational studies of the device by experts who are qualified by scientific training and experience to investigate the safety and effectiveness of devices intended for human use. This part implements section 520(g) of the act.

(b) This part has two objectives:

(1) To encourage the discovery and development of useful devices, by applying special requirements to investigational studies of devices in lieu of those otherwise applicable requirements that may impede such discovery and development.

(2) To protect the public health and safety by assuring adequate safeguards for human subjects in investigational studies, by requiring studies to be conducted in conformity with ethical standards, and by fostering the development of reliable data concerning the safety and effectiveness of devices.

(c) (1) In general, a device is exempted from provisions of the following sections of the act and regulations thereunder: Misbranding under 502, registration and premarket notification under 510, performance standards under 514, premarket approval under 515, records and reports under 519, restricted devices undre 520(e), good manufacturing practices under 520(f), and color additives under 706.

(2) A device shall not be exempted from a provision of the act listed in paragraph (c)(1) of this section where:

(i) The sponsor indicates that an exemption as to that provision is not requested, in an application submitted under § 812.20; or

(ii) The Commissioner indicates that a device is not exempt from such a provision in an order of disapproval or conditional approval under § 812.30.

(3) A shipment of a device may be exempted from a banned-device regulation under section 516 of the act, but only if the Commissioner has approved an application for such an exemption under § 812.30(c)(2).

§ 812.2 Applicability.

(a) *General.* (1) This part applies to any investigational device intended for human use, including any in vitro diagnostic product for diagnosis of any human disease or condition, according to the other rules prescribed in this section.

(2) This part does not apply to any device intended for veterinary use.

(3) Except as otherwise provided in this section, this part applies to any investigational study, whether it is undertaken to develop data to obtain approval for commercial distribution of a device, e.g., by approval under section 515 of the act, to conduct fundamental research for such scientific purposes as expanding medical knowledge but not for the purpose of obtaining approval for commercial distribution, or to aid diagnosis and treatment by means of use of an investigational device involving a human subject.

(4) This part does not apply to a device which is being used in the course of an experiment but in a manner and for a purpose which is included in labeling specifically prescribed for such device by regulation under the act, or labeling approved under section 515 of the act.

(b) *Applicability to devices currently subject to premarket approval requirement.* (1) This part applies to any clinical use of any device intended for human use that (i) is classified in class III, premarket approval, by section 513(f) of the act, i.e., any device that was not in commercial distribution before May 28, 1976, and is not substantially equivalent to a device that was in commercial distribution before such date; (ii) has not been reclassified into class I, general controls, or class II, performance standards; and (iii) does not have in effect an approved application for premarket approval under section 515 of the act.

(2) This part applies to any clinical use of a device intended for human use that (i) was in commercial distribution before May 28, 1976, or was not in commercial distribution before such date but is substantially equivalent to a device that was in commercial distribution before such date; and (ii) has been classified in class III, premarket approval, by regulation promulgated under section 513(d) of the act if such clinical use occurs after the transitional period for the device, as defined in § 812.3(k) and the device is not the subject of an approved application for premarket approval under section 515 of the act.

(3) This part applies to any clinical use of a device intended for human use that (i) was regarded as a new drug or antibiotic drug before May 28, 1976; (ii) is a class III device under section 520(l) of the act; and (iii) is not the subject of an approved application for premarket approval (or deemed to be the subject of such an approved application) under section 515 of the act. This part also applies to any device that, before the effective date of this part, was the subject of a "Notice of Claimed Exemption for an Investigational New Drug" under Part 312 of this chapter.

(c) *Applicability to investigational devices not currently subject to premarket approval requirement.* (1) This part applies to any investigational study involving human subjects of a device that is not subject to this part in accordance with paragraph (b) of this section but that would, unless exempted under this part, be in violation of one or more of the following sections of the act if shipped for use in the investigational study: Misbranding under 502; registration under 510; performance standards under 514; banned devices under 516; records and reports under 519; restricted devices under 520(e); good manufacturing practices under 520(f); or color additives under 706.

(2) The extent to which full compliance with all of the requirements will be required for investigational studies of a device that is not subject to this part in accordance with paragraph (b) of this section but that would, unless exempted under this part, be in violation of one of the sections of the act enumerated in paragraph (c)(1) of this section, will depend upon the degree of potential hazard associated with the device, whether the device has been classified, and the class in which a device has been, or is likely to be, classified.

(i) Where such a device has not been classified, this part shall apply to an investigational study only if the device is intended to be implanted in the human body, is purported or represented to be for a use in supporting or sustaining human life, or that poses an inherent high degree of hazard.

(ii) This part shall apply to any investigational study of such a device for which a final regulation has become effective classifying the device in class III, premarket approval.

(iii) This part shall apply to an investigational study of such a device for which a final regulation has become effective classifying the device in class I, general controls, or class II, performance standards. For investigational studies of such a device, specific requirements of this part may be waived by the Director of the Bureau, upon petition submitted by a sponsor under § 812.10. In considering whether to allow such a waiver, the Director will consider, among other factors, the hazards that may be associated with the device in the investigational study.

(d) *Relation to product development protocol provisions of the act.* (1) Any condition under this section that a device have an approved application for premarket approval under section 515 of the act is satisfied if there is in effect an approved notice of completion of a product development protocol under section 515(f) of the act.

(2) This part shall apply to an investigational study of a device pursuant to a product development protocol under section 515(f) of the act.

(e) *Applicability to custom devices.* Subject to paragraphs (a) through (d) of this section, this part applies to any custom device whether or not section 520(b) of the act exempts such device from a performance standard under section 514 or premarket approval under section 515 of the act.

§ 812.3 Definitions.

(a) "Investigational device" means a device intended for human use that is used in an investigational study that is subject to this part.

(b) "Investigational plan" means a plan or protocol for an investigational study that meets the requirements of § 812.25.

(c) "Investigational study" means any experiment involving an investigational device that is subject to regulation under this part.

(d) "Investigator" means a person who actually conducts the investigational study of a device, (i.e., actually administers the investigational device to, or uses it involving, a subject).

(e) "Sponsor" means a person who initiates and supports, by financial or other resources, an investigational study of a device but who does not actually conduct the study (i.e., does not actually administer the investigational device to, or use it involving, a subject) unless such person is a sponsor-investigator.

(f) "Sponsor-investigator" means a person who both initiates and actually conducts, alone or with others, an investigational study. Such a person has the responsibilities both of a sponsor under Subparts B and C of this part and of an investigator under Subparts E and F of this part.

(g) "Institution" means a person (other than an individual) who engages in the conduct of research on human subjects, or in the delivery of medical services to human subjects as a primary activity or as an adjunct to providing residential or custodial care to human beings. The term includes a hospital, retirement home, prison, university, or device manufacturer. "Facility" as used in section 520(g) of the act is deemed to be synonomous with the term "institution" for purposes of this part.

(h) "Subject" means an individual who is or becomes a participant in an investigational study, either as a recipient of the investigational device or as a control. A subject may be either a nonpatient volunteer or a patient on whom the investigational device might have a therapeutic effect or provide diagnostic information.

(i) "Institutionalized subject" means:

(1) A human subject who is confined, whether by voluntary admission or involuntary commitment, for a period of more than 24 continuous hours on the premises of, and in the care of, an institution (e.g., a hospital in-patient or a resident in a retirement home), whether or not that institution is a sponsor of, or an investigator in, the investigational study; or

(2) A human subject who is involuntarily confined for any period of time in a penal institution (e.g., jail, workhouse, house of detention, or prison), including a human subject sentenced to such an institution under a criminal or civil statute, a human subject detained in such an institution awaiting arraignment, commitment, trial or sentencing under such statutes, and a human subject detained in another institution (e.g., a hospital) by virtue of statutes or commitment procedures which provide alternatives to criminal prosecution or incarceration in a penal facility.

(j) "Person" includes an individual, partnership, corporation, association, scientific or academic establishment, government agency, and any other legal entity.

(k) "Transitional period" applies only to a device that was in commercial distribution before May 28, 1976, or that is of the same type as and substantially equivalent to a device that was in commercial distribution before such date, but does not apply to any article that was regarded as a new drug or antibiotic drug before such date and that is subject to section 520(l) of the act. The transitional period is the period beginning on May 28, 1976, and ending on one of the following dates applicable to the device:

(1) The date the device is classified in class I.

(2) After the device has been classified in class II, the date that a performance standard for the device becomes effective.

(3) After the device has been classified in class III, the date that the device may be the subject of regulatory action under section 501(f)(1) of the act if an application for a premarket approval of the device was not submitted under section 515 of the act, or if such an application was submitted but approval was denied or withdrawn, i.e., the last day of the 30th calendar month beginning after the month in which the classification of the device in class III became effective under section 513 of the act, or on the 90th day after the date of the promulgation of a regulation requiring the submission of an application under section 515(b) of the act, whichever occurs later.

§ 812.5 General qualifications for an exemption.

A shipment of an investigational device is exempt from any or all of the otherwise applicable requirements of the act enumerated in § 812.1(c) if all of the following conditions are met:

(a) The label of the device bears the name and place of business of the manufacturer, packer, or distributor in accordance with § 801.1 of this chapter, the quantity of contents, and the statement "Caution—Investigational device (or, where appropriate, Investigational diagnostic product) Limited by Federal (or United States) law to investigational use."

(b) The labeling of the device is not false or misleading in any particular.

(c) If the shipment is for an investigational study involving human subjects:

(1) An "Application for an Investigational Device Exemption" covering that shipment was submitted by the sponsor under Subpart B of this part.

(2) The requisite time has elapsed following the date of receipt of the application by the Food and Drug Administration to permit the investigational study to begin under § 812.30(c)(1), or the Commissioner has approved the application where required by § 812.30(c)(2).

(3) The Commissioner has not disapproved the application or withdrawn the exemption.

(4) Each shipment of the device is made in accordance with the commitments in the application and any conditions imposed in the Commissioner's approval of the application pursuant to § 812.30(f).

(5) The sponsor has complied with the requirements of Subparts B and C of this part, any institutional review committee that is to review and approve the investigational study for which shipment is made has complied with the requirements of Subpart D of this part, and the investigator(s) to which the shipment is to be made has complied with the requirements of Subparts E and F of this part.

(d) If the shipment is intended solely for tests in laboratory animals, or for other tests that do not involve human subjects, the requirements of Subpart H of this part have been met.

(e) If the shipment is to be imported into or exported from the United States, the requirements of § 812.19 have been met.

§ 812.10 Petitions for waiver of requirements.

(a) Any person subject to any requirement under this part may petition the Commissioner for a waiver of such requirement. Such a petition shall be submitted in accordance with § 2.7 of this chapter and shall set forth the basis for the petitioner's belief that compliance with the requirement is not necessary to achieve the objectives of this part and, where appropriate, any alternative means to achieve the objective of the requirement from which the waiver is sought.

(b) The Commissioner may, at his discretion, grant a petition for a waiver submitted under this section if he finds that compliance with the requirement from which the waiver is sought is not necessary to achieve the objectives of this part and, where appropriate, that the proposed alternative means will achieve the objective of the requirement from which the waiver is sought.

(c) The person who submits a petition under this section continues to be subject to the requirement from which the waiver is sought unless and until the Commissioner grants the petition.

§ 812.12 Information previously submitted.

Wherever this part requires the submission to the Food and Drug Administration of information or data that previously had been submitted in accordance with this part or other parts of this chapter, the information or data need not be resubmitted but may be incorporated by reference.

§ 812.19 Requirements applicable to importers and exporters of investigational devices.

(a) Any person who imports or offers for importation into the United States an investigational device shall assure that all of the following requirements are met:

(1) The labeling of such device complies with § 812.5 (a) and (b);

(2) If the device is for an investigational study involving human subjects:

(i) The importer of such shipment is an agent in the United States of the foreign exporter or is the ultimate consignee, and the foreign exporter or the ultimate consignee has, prior to such shipment, completed and submitted to the Food and Drug Administration an

V 41 163 AUG 20 76 UM

"Application for an Investigational Device Exemption" in accordance with § 812.20 and acts as the sponsor of the investigational study to assure compliance with the procedures, conditions and requirements of this part.

(ii) The requisite time has elapsed following the date of receipt of the application by the Food and Drug Administration to permit the investigational study to begin under § 812.30(c)(1), or the Commissioner has approved the application, where required by § 812.30(c)(2).

(iii) The Commissioner has not disapproved the application or withdrawn the exemption.

(b)(1) Any person who exports from the United States to a foreign country a device that does not comply with requirements of the act shall comply with all of the following requirements:

(i) The device conforms to the specifications of the foreign purchaser.

(ii) The device complies with the laws of the country to which it is being exported.

(iii) The label on the outside of the shipping package indicates that the device is intended for export.

(iv) The device is not sold or offered for sale in domestic commerce.

(v) Where required, the device complies with the additional requirements of paragraph (b)(2) of this section.

(2) Any person who exports from the United States for an investigational study involving human subjects a device that is subject to a performance standard in effect under section 514 of the act and does not comply with such standard; or that is required to have in effect an approved application for premarket approval under section 515 of the act, and that is not currently subject to a transitional period, and that does not have in effect an approved application; or that is subject to a banned device regulation under section 516 of the act shall comply with all of the following requirements in addition to the requirements of paragraph (b)(1) of this section:

(i) The exporter has, or assures that another person has, complied with the requirements of Subparts B and C of this part applicable to sponsors.

(ii) The exporter or such other person obtains the approval of the government of the foreign country to which the device is proposed to be shipped and such approval states that such government has adequate information about the device and is satisfied that the device may be used lawfully by the intended consignees in that country.

(iii) The exporter or other person submits to the Food and Drug Administration a copy of this approval, a request for permission to export the device, and an explanation of why the proposed export of the device is not contrary to the public health and safety.

(iv) The Commissioner has determined that the export of the device to the foreign country is not contrary to the public health and safety and has notified the exporter or other person of this determination.

(3) The Commissioner may by order issued in accordance with the procedures of § 812.30(g) disapprove the export of the device under paragraph (b)(2) of this section if he determines that such export is contrary to the public health and safety.

Subpart B—Applications for Exemption for Investigational Studies Involving Human Subjects

§ 812.20 Application.

(a) The sponsor of an investigational study shall file with the Food and Drug Administration a completed "Application for an Investigational Device Exemption" that has been signed by the sponsor. Four copies of the application and any material required to accompany the application, bound and contained in volumes of reasonable size, shall be submitted by registered mail to the Bureau of Medical Devices and Diagnostic Products, Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910. Any subsequent reports, any correspondence concerning an application, and any supplemental application submitted under § 812.39 also shall be submitted in quadruplicate by registered mail to this address. The outside wrapper of any application or supplemental application should include the statement "Application for Investigational Device Exemption," and the outside wrapper of any reports or correspondence should include the statement "Regarding an Investigational Device Exemption."

(b) An application for an investigational device exemption shall be submitted on Form FD- -- and shall include the following information:

(1) The best available descriptive name of the device, and a brief statement of its intended use(s) and of how it is to be administered.

(2) A complete statement of the components, ingredients, properties and principle(s) of operation of the device, including reasonable variations in the components, ingredients, properties and principle(s) of operation that may be expected during the investigational study.

(3) A complete statement of all of the methods, facilities, and controls used for the manufacture, processing, packing, storage, and where appropriate, installation of the device to the extent that such methods, facilities, and controls may affect the safety and effectiveness of the device.

(4) A statement of the requirements of the act enumerated in § 812.1(c) from which the sponsor seeks an exemption and a reference to any standards promulgated under section 514 of the act from which the sponsor seeks an exemption.

(5) If there is an institutional review committee that is to review, approve, and monitor the investigational study in accordance with Subpart D of this part:

(i) A statement that an investigational plan that meets the requirements of § 812.25 and a report of prior investigations of the device that meets the requirements of § 812.27 have been submitted to and approved by the institutional review committee;

(ii) A statement from the committee, signed by all members who participated in the decision, that the committee has approved the investigational plan and has reviewed the report of prior investigations of the device, that the committee will review and monitor the study until it is completed or discontinued, or the exemption is withdrawn, and that during the study the committee will supervise the study to assure conformity with the investigational plan and with the requirements applicable to investigators under Subparts E and F of this part.

(iii) A summary of the investigational plan.

(iv) A copy of the report of prior investigations of the device that meets the requirements of § 812.27 and that was submitted to the committee.

(6) If there is no institutional review committee that is to review, approve, and monitor the investigational study:

(i) An investigational plan that meets the requirements of § 812.25.

(ii) A report of prior investigations of the device that meets the requirements of § 812.27.

(7) A copy of all form(s) to be used to obtain informed consent of human subjects as required by Subpart F of this part (which may be appended to the investigational plan or the summary of the investigational plan).

(8) A copy of all informational material, including labels and other labeling, which is to be supplied to investigators as required by § 812.47(a).

(9) A description of the scientific training and experience that the sponsor considers appropriate to qualify individuals as suitable experts to investigate the safety and effectiveness of the device, bearing in mind the investigational plan, the report of prior investigations of the device, and what is known about the device.

(10) A copy of the signed statements of investigators (Form FD———) who will be taking part in the investigational study required under § 812.43(b).

(11) The name and a summary of the training and experience of the individual who is to monitor the progress of the study for the sponsor and evaluate the data regarding the safety and effectiveness of the device, as required by § 812.46(b).

(12) A statement as to whether any institutional review committee has ever disapproved any investigational study of the device and the reasons for such disapproval.

(13) A statement that the sponsor will comply with each of the requirements of Subparts B and C of this part.

(14) If the sponsor intends to be compensated for an investigational device by subjects and/or investigators:

(i) A full explanation of why, considering manufacturing and other costs, the proposed compensation is necessary and the amount of proposed compensation is reasonable.

(ii) A statement that the sponsor understands that the failure of the Food and Drug Administration to disapprove such compensation is not to be regarded as permitting the commercialization of an investigational device prohibited by § 812.50.

(15) If the sponsor is requesting waiver of the requirement of § 812.30(c)(1) that a study shall not begin before the expiration of 30 days after the Food and Drug Administration has received an application meeting the requirements of this subpart, a statement of reasons for requesting such waiver.

(16) When requested by the Food and Drug Administration after receipt of an application under this section, an environmental impact analysis report meeting the requirements of Part 6 of this chapter.

(17) Any other information required by the Food and Drug Administration to be submitted.

§ 812.25 Investigational plan.

(a) The investigational plan for the investigational study of a device shall include the following:

(1) A statement of the intended uses of the device;

(2) A general outline of the plan and any possible changes or variations in the plan that may be made based on experience gained in the study;

(3) A description of what results are expected from the investigational study;

(4) A justification for commencing the study taking into account the report of prior investigations of the device;

(5) The expected duration of the investigational study;

(6) Identification of the investigator or investigators, the facilities where the study will occur, and any institutional review committees that will supervise the study;

(7) The patient population in which the device will be used (in terms of age, sex, and condition) and the size of such population;

(8) A justification for using such patient population and of the size of such population;

(9) The sponsor's plan for monitoring the study in accordance with § 812.46;

(10) A description of records to be maintained, and the reports to be made, by the investigator(s) and the sponsor to assure compliance with the plan and enable the progress of the investigation to be reviewed by the sponsor, any institutional review committee, and the Food and Drug Administration, and the safety and effectiveness of the device to be evaluated; and

(11) The plan for obtaining informed consent from subjects, including copies of all forms to be used in obtaining such consent.

(b) The procedures and conditions in the investigational plan may vary depending on (1) the scope and duration of the investigational study, (2) the number of human subjects who are to be involved in the study, (3) the need to permit changes to be made in the device during the study conducted in accordance with the plan, and (4) the purpose of the study, e.g., whether the study is designed for the purpose of developing data to obtain approval for the commercial distribution of the device.

(c) Where an investigational study is for the purpose of developing data to obtain approval for the commercial distribution of the device, an investigational plan will not ordinarily be regarded as reasonable unless it provides for more than one independent competent investigator to maintain adequate case histories of an adequate number of subjects, including controls, in accordance with § 812.111.

(d) The investigational plan may provide for additional animal tests to be made during the investigational study.

§ 812.27 Report of prior investigations of a device.

(a) The report of prior investigations of a device, to be submited to an institutional review commitee and to the Food and Drug Administration, shall include information concerning prior investigations of a device that is adequate to justify the investigational study involving human subjects as proposed in the investigational plan under § 812.25.

(b) The report of prior investigations of a device shall include:

(1) Complete information available to the sponsor about preclinical investigations of the device, including tests in animals and tests in vitro, and prior clinical investigations of the device or clinical experience with the device from commercial marketing, whether in the United States or in foreign countries.

(2) A complete bibliography of any publications about the device.

(c) Prior investigations of a device shall not be considered adequate to justify an investigational study involving human subjects unless the conditions of the preclinical investigations of the device are relevent to the conditions of the proposed investigational study.

(d) Except where tests on laboratory animals would be inappropriate, e.g., where in the judgment of the institutional review committee and the Food and Drug Administration, there have been adequate in vitro tests or there is ample literature concerning prior clinical investigations or clinical experience, prior investigations of a device will be considered adequate to justify the investigational use of the device in human subjects only if:

(1) The device has been tested in laboratory animals and these tests show that it is reasonably safe to begin an investigational study involving human subjects; and

(2) The report of prior investigations of the device (i) identifies and describes the qualifications of the persons who conducted such tests and the persons who evaluated the results and who concluded that it is reasonably safe to begin an investigational study involving human subjects, (ii) states where such tests were conducted, (iii) states whether records concerning such tests are available and, if so, where, and (iv) provides sufficient details concerning such tests to permit scientific review.

(e) Where the device consists of several components or ingredients and information concerning any such components or ingredients is needed to justify the investigational use of the device in human subjects, the report of prior investigations of a device shall include a summary of information about prior clinical investigations of significant components or ingredients of the device, or clinical experience with such components from commercial marketing, and a complete bibliography of publications about the components or ingredients. Such summary shall include all reports available to the sponsor suggesting side effects, contraindications, or ineffectiveness of such components or ingredients and a statement of the expected results of combining the components or ingredients.

§ 812.30 Food and Drug Administration review of and action on an application.

(a) Upon receipt of an application for an investigational device exemption submitted in accordance with this subpart, the Food and Drug Administration will notify the sponsor of the date of such receipt and inform the sponsor that the investigational study may not be commenced:

(1) For 30 days from the date of receipt of the application of the Food and Drug Administration, unless the agency has decided to waive the 30-day time requirement and so informs the sponsor, or

(2) In the case of an application for an exemption from the banned device provisions of section 516 of the act until the Food and Drug Administration approves the application.

(b) If, during the 30-day period following receipt of the application, the Commissioner finds that the application does not meet the requirements of this subpart, he shall return the application to the sponsor with a statement of reasons for rejecting the application, and, except where the deficiencies are minor and can be corrected promptly by submission of additional information, shall instruct the sponsor that the investigational study shall continue to be postponed until the requirements of this subpart are met. A deficient application may be corrected and resubmitted at any time and reviewed in accordance with paragraph (a) of this section. If the Commissioner again rejects the resubmitted application, such rejection shall be regarded as a disapproval for purposes of this section.

(c)(1) Except as provided in paragraph (c)(2) of this section, an application for an investigational device exemption shall be deemed to be approved on the 30th day after receipt of the application by the Food and Drug Administration, unless on or before such day the Commissioner by order disapproves the application or notifies the sponsor that the application does not meet the requirements of this subpart pursuant to paragraph (b) of this section.

(2) An application for an exemption from the banned device provisions of section 516 of the act shall not be considered approved unless the Commissioner notifies the sponsor of such approval.

V 41 163 AUG 20 76 UM

(d) The Commissioner shall by order disapprove an application if he makes any of the following findings:

(1) The application contains an untrue statement of a material fact or omits material information required by § 812.20.

(2) The report of prior investigations of the device is inadequate to support a conclusion that it is reasonably safe to begin the proposed investigational study.

(3) There is reason to believe that the investigational device may be unsafe or ineffective when used for the purpose or in the manner for which it is to be investigated.

(4) The investigational plan described in the application is not a reasonable plan, in whole or in part, for a scientific investigation to determine whether the investigational device is safe or effective.

(5) The methods, facilities, and controls used for the manufacturing, processing, packing, storage, and, where appropriate, installation of the investigational device do not assure adequately the safety and effectiveness of the investigational device.

(6) There is reason to believe that the investigational study will not be conducted in accordance with the investigational plan submitted to the Food and Drug Administration.

(7) The sponsor's proposed use of the investigational device is not intended solely for an investigational study, since it is being or is to be sold or otherwise commercially distributed in a manner not justified by the requirements of the investigational study and not permitted by this part.

(8) The proposed investigational study with respect to which the application is submitted does not conform to procedures, conditions, or requirements prescribed in this part.

(e) The Commissioner shall disapprove an application if he determines that the proposed investigational study subjects human subjects to undue risks. In assessing risks, the Commissioner shall consider, among other things, whether:

(1) The risks to the subject are so outweighed by the sum of the benefits to the subject and the importance of the knowledge to be gained as to warrant a decision to allow the subject to accept these risks.

(2) The rights and welfare of any such subjects will be adequately protected.

(3) Legally effective informed consent will be obtained by adequate and appropriate methods in accordance with the provisions of this part.

(4) The conduct of the activity will be reviewed at timely intervals.

(f) The Commissioner may approve conditionally an application for an exemption under this subpart.

(g) The Commissioner shall notify the sponsor of an approval of an application under paragraph (c)(2) of this section or of disapproval or conditional approval of an application. The notification shall contain the order of the approval, disapproval, or conditional approval, a complete statement of any conditions to an approval, and a complete statement of the reasons for the order. A notification of disapproval or conditional approval shall advise the sponsor of the opportunity for a regulatory hearing pursuant to Subpart F of Part 2 of this chapter, on the order.

§ 812.35 Withdrawal of an investigational device exemption.

(a) The Commissioner shall by order withdraw an exemption granted under this part if he makes any of the following findings:

(1) The application for such exemption or any subsequent reports contains an untrue statement of a material fact or omits material information required by §§ 812.20, 812.39, or § 812.55.

(2) The report of prior investigations of the device is inadequate to support a conclusion that it is reasonably safe to continue the investigational study involving human subjects.

(3) There is reason to believe that the investigational device may be unsafe or ineffective when used for the purposes or in the manner for which is is investigated.

(4) The investigational plan described in the application is not a reasonable plan, in whole or in part, for a scientific investigation to determine whether the investigaitonal device is safe or effective.

(5) The methods, facilities, and controls used for the manufacturing, processing, packing, storage, and, where appropriate, installation of the investigational device do not adequately assure the safety and effectiveness of the investigational device.

(6) The investigational study is not being conducted in accordance with the investigational plan submitted to the Food and Drug Administration or any investigational review committee; or any change in, or deviation from, the investigational plan was not approved as required by §§ 812.39 and 812.105.

(7) The sponsor's use of the investigational device is not solely for an investigational study since it is being or is to be sold or otherwise commercially distributed in a manner not justified by the requirements of the investigational study and not permitted by this part.

(8) The sponsor has failed to submit an application for premarket approval of the device when requested by the Food and Drug Administration to do so under § 812.46(g).

(9) The investigational study does not conform to procedures, conditions, or requirements prescribed under this part.

(b) The Commissioner shall by order withdraw an exemption granted under this part if he determines that the investigational study subjects human subjects to undue risks. In assessing risks, the Commissioner shall consider, among other things, whether:

(1) The risks to the subject are so outweighed by the sum of the benefits to the subject and the importance of the knowledge to be gained as to warrant a decision to allow the subject to accept these risks.

(2) The rights and welfare of any such subjects have been adequately protected.

(3) Legally effective informed consent has been obtained by adequate and appropriate methods in accordance with the provisions of this part.

(4) The conduct of the activity has been reviewed at timely intervals.

(c) An order under this section shall include a complete statement of the reasons for the Commissioner's action. Such order shall be issued only after the sponsor has been afforded an opportunity for a regulatory hearing pursuant to Subpart F of Part 2 of this chapter, except that the order may be issued before providing an opportunity for such hearing if the Commissioner determines that the continuation of testing under the exemption with respect to which the order is to be issued will result in an unreasonable risk to the public health or safety.

(d) An exemption that has been withdrawn under this section may be reinstated if the sponsor satisfies the Commissioner that the grounds for withdrawal no longer apply.

§ 812.38 Confidentiality of data and information in an application.

(a) The existence of an application for investigational device exemption will not be disclosed by the Food and Drug Administration unless it has previously been publicly disclosed or acknowledged.

(b) The availability for public disclosure of all data and information in the Food and Drug Administration file concerning the application shall be handled in accordance with the provisions established in § 314.14 of this chapter for the confidentiality of data and information in new drug applications.

(c) Notwithstanding the provisions of § 314.14 of this chapter, the Food and Drug Administration shall disclose upon request to an individual on whom an investigational device has been used a copy of any adverse reaction report relating to such use.

§ 812.39 Supplemental applications and submissions concerning applications.

(a) Except as provided in paragraphs (b), (c), and (d) of this section, information contained in an application submitted under § 812.20 may be updated by means of a report to the Food and Drug Administration under § 812.55.

(b)(1) Whenever the sponsor or any investigator participating in an investigational study wishes to implement a change in, or deviation from, the investigational plan submitted to the Food and Drug Administration under § 812.20 or described in a summary that was submitted, which change or deviation may affect the validity of the study or the rights or safety of the human subjects under the criteria in paragraph (b)(3) of this section, the sponsor shall submit to the Food and Drug Administration a supplemental application describing the proposed change or deviation and the justification therefor. Except as provided in paragraph (b)(2) of this section, the sponsor shall submit the supplemental application before the change or deviation is implemented, shall obtain the prior review and approval of any institutional review committee pursuant to §§ 812.42(c)(2)(v) and 812.105, shall attach to such supplemental application a copy of the approval of such change or deviation by such committee, and shall not permit the change or deviation to be implemented unless and until the supplemental application is approved or deemed approved under § 812.30(c).

(2) When a change or deviation is necessary to eliminate or reduce an apparent immediate hazard to the safety of a human subject who is already participating in the investigational study, the sponsor is not required to comply with the prior approval requirements of paragraph (b)(1) of this section. The sponsor shall instead notify the Food and Drug Administration of the change or deviation and the justification therefor as soon as possible but in no event later than 5 days after such change or deviation is implemented.

(3) The following changes in, or deviations from, an investigational plan illustrate some of the situations in which prior review and approval are required under paragraph (a) of this section:

(i) A significant change in the administration of, or where appropriate, in the dosage or frequency of, or a change in the method of, administration or use of the investigational device.

(ii) A significant change in the number of subjects participating in the study at one time or cumulatively.

(iii) The utilization of subjects with medical conditions unrelated to, but possibly affecting, the scope or validity of the study, e.g., use of terminally ill patients in an investigation unrelated to the terminal illnesses.

(iv) The utilization of human subjects who require special consideration or protection and who are not listed specifically in the plan, e.g., children, pregnant women, mentally disabled individuals, or prisoners.

(v) The administration of concomitant or concurrent therapy.

(c) The sponsor shall submit to the Food and Drug Administration the signed statements required under §§ 812.43(b) and 812.42(c)(2)(iii) for any additional investigators or institutional review committees who are added to an investigational study after submission of an application for an investigational device exemption under § 812.20(b). Any such additional statement shall be submitted before an investigator may begin participation in the investigational study except that the sponsor may request the Food and Drug Administration approval to add additional investigators to the study by rapid communication techniques before submitting the signed statements when there exists a life-threatening situation that necessitates the use of the investigational device. Such requests should be directed to the Director, Bureau of Medical Devices and Diagnostic Products, Food and Drug Administration.

(d) The sponsor shall submit to the Food and Drug Administration any additional forms, or revisions in forms, to be used by investigators to obtain informed consent of human subjects and any additional informational materials, or revision in such informational materials, supplied to investigators, which had not been submitted in an application under § 812.20(b)(7) and (8) or any subsequent reports to the Food and Drug Administration. The sponsor shall submit such forms or materials to the Food and Drug Administration at the same time that they are provided to investigators.

Subpart C—Sponsor Responsibilities in Investigational Studies Involving Human Subjects

§ 812.40 General.

The requirements of this subpart are applicable to sponsors of investigational studies, including sponsor-investigators, where such studies involve human subjects. These requirements are conditions to any exemptions for such studies under this part and are in addition to any other requirements applicable to sponsors under the act or under this chapter, e.g., the requirements under Subpart B of this part or the requirements for applications for premarket approval of devices under section 515 of the act.

§ 812.42 Review of the investigational study by the Food and Drug Administration and the institutional review committee.

(a) The sponsor shall submit for review and approval by the Food and Drug Administration an application for an investigational device exemption in accordance with Subpart B of this part before any human subjects are allowed to participate in, or are requested to consent to participate in, the investigational study; and the sponsor shall assure that it has met the other requirements of § 812.5, which state the conditions for an exemption of an investigational device. The sponsor shall also assure that the Food and Drug Administration is provided all the information concerning the proposed investigational study and the device that the agency will need for its review, approval, and monitoring of the study.

(b) The sponsor shall not allow human subjects to participate in, or be requested to consent to participate in, a proposed investigational study until such time as the study has been reviewed by, and an investigational device exemption has been obtained from, the Food and Drug Administration pursuant to Subpart B of this part.

(c)(1) The sponsor shall determine whether the proposed investigational study is subject to an institutional review requirement under Subpart D of this part.

(2) If the study is subject to an institutional review requirement:

(i) The sponsor shall submit, or assure that an investigator submits, for review and approval by the committee the proposed investigational study (including an investigational plan that meets the requirements of § 812.25 and a report of prior investigations of the device that meets the requirements of § 812.27) before any human subjects are allowed to participate in, or are requested to consent to participate in, the study.

(ii) The sponsor shall assure that the institutional review committee is provided all the information on the proposed investigational study and the device that it will need for its review, approval, and monitoring of the study.

(iii) The sponsor shall obtain from the committee a statement, signed by all members who participated in the decision, that the committee has approved the investigational plan and has reviewed the report of prior investigations of the device, that the committee will monitor the investigation until it is completed, discontinued, or terminated, and that during the investigation the committee will supervise the study to assure conformity with the investigational plan and that the investigator complies with the requirements applicable to investigators under Subparts E and F of this part. The sponsor shall submit the committee's statement to the Food and Drug Administration, as required by §§812.20(b)(5) and 812.38(c).

(iv) The sponsor shall assure that the institutional review committee complies with the requirements of Subpart D of this part.

(v) The sponsor shall not implement a change, or deviate from the investigational plan, or permit a change or deviation to be implemented, unless there has been compliance with the requirements of §§ 812.39 and 812.105.

(vi) The sponsor shall report, or assure that an investigator reports, to the committee any adverse effect that may reasonably be regarded as caused, or probably caused, by the investigational device and that was not previously anticipated (in nature, severity, or degree of incidence) in any written information regardig the device submitted to the committee. The sponsor also shall report, or assure that an investigator reports, to the committee any known deaths of subjects and any life-threatening medical problems occurring in the study. Such reports shall be accurate and adequate in content and shall be made as soon as possible, but in no event later than 5 working days, after the sponsor discovers the adverse effect, death, or medical problem, e.g., from an investigator in another institution or from an animal study.

(vii) The sponsor shall notify, or assure that an investigator notifies the committee within 3 months after completion or discontinuance of, or the withdrawal of the exemption for, the entire investigational study or of the investigator's portion of the study, whichever is sooner.

(viii) The sponsor shall provide accurate and adequate information regarding the investigational study to the committee in response to its request.

(ix) The sponsor shall maintain, or assure that an investigator maintains, records of all submissions to, and all actions by, the committee regarding the study.

§ 812.43 Selection of investigators.

(a) The sponsor shall select as investigators only individuals who, because of

VA 41 H63 AUG 20 76 UM

their training or experience, qualify as suitable experts to investigate the safety and effectiveness of the device bearing in mind the investigational plan, the report of prior investigations of the device as described in an applicaton for an investigational device exemption under § 812.20 and what is known about the device, and who have the ability and commitment to comply with the investigational plan and the procedures, conditions, and requirements of Subparts E and F of this part.

(b) The sponsor shall obtain from each investigator who will participate in the investigational study a signed statement on Form FD—— for submission to the Food and Drug Administration under §§ 812.20(b)(10) or 812.39(c) that includes the following information:

(1) A statement of the investigator's education and experience in sufficient detail to allow determination of the investigator's qualifications for investigating the device. Such statement shall include:

(i) Colleges, universities, and medical or other professional schools attended, dates of attendance, degrees, and dates on which degrees were awarded.

(ii) Postgraduate medical or other professional training with dates, names of institutions, and nature of training.

(iii) Teaching or research experience with dates, names of institutions and a brief description of the experience.

(iv) Experience in medical practice or other professional experience giving dates, institutional affiliations, and nature of practice or other professional experience.

(v) A representative list of pertinent medical or other scientific publications of the investigator giving titles of articles, names of publications and volume, number, page, and date.

(2) An agreement to comply with the investigational plan, the requirements of Subparts E and F of this part, and any conditions for approval of an application for an investigational device exemption imposed under § 812.30(f).

(3) An agreement that any use of the device involving human subjects will be under the investigator's supervision.

(4) A statement as to whether any investigational study or other research by such investigator has been discontinued on the order of a sponsor, an institutional review committee, or the Food and Drug Administration.

(5) The name of any other investigator who will participate in the investigational study, who is under the investigator's supervision, and who is responsible to him, with a statement of such other investigator's education and experience in accordance with paragraph (b)(1) of this section.

§ 812.45 Control over the investigational device.

(a) The sponsor shall permit the investigational device to be shipped only to investigators who have signed statements that the sponsor has submitted to the Food and Drug Administration under § 812.20(b)(10) or § 812.39(c) and shall assure that each such investigator only permits an investigational device for administration to, or use involving, subjects who are under his personal supervision, or under the supervision of another investigator who is responsible to him and who is named by the investigator in his signed statement under § 812.43(b). The sponsor shall assure that an investigator does not supply the investigational device to any other person for administration to, or use involving, subjects or for any other purpose.

(b) When a study is completed or discontinued, or the exemption is withdrawn, the sponsor shall recall from investigators or shall otherwise assure the disposition of any unused supply of the investigational device and assure that all investigators discontinue use of the device. The sponsor shall assure that the investigators return any unused supply of the investigational device, or otherwise dispose of the device as directed by the sponsor, upon request of the sponsor or upon suspension, withdrawal of the exemption, or discontinuance of the investigational study.

(c) The sponsor shall maintain adequate and accurate records showing the shipment, receipt, or other disposition of all supplies of all investigational devices shipped to him by others and shipped by him to investigators, including the dates, the quantity and the serial, batch, lot or other identification number of the units received; identification by name of the investigator who received each unit of the device; and identification of each unit otherwise disposed of (including identification of the person who disposed of it, the person, if any, who received it, and the purpose or reason for its disposal, e.g., because of contamination or to return to the sponsor). The records required in this paragraph are separate from, and in addition to, the records required under § 812.55.

(d) The sponsor shall assure that the methods, facilities, and controls used for the manufacture, processing, storage, and, where appropriate, installation of the device adequately assure the safety and effectiveness of the investigational device.

§ 812.46 Monitoring the investigational study.

(a) The sponsor shall monitor the investigational study continuously to assure that the requirements of this part are met and shall evaluate the data regarding the safety and effectiveness of the device upon receipt of such data from investigators.

(b) The sponsor shall designate an appropriately trained and qualified individual to monitor the progress of the investigational study and evaluate the data on behalf of the sponsor as required by paragraph (a) of this section, and shall assure that such monitoring and evaluation occur.

(c) The sponsor shall assure that all investigators who participate in the investigational study conduct the investigational study in accordance with the investigational plan, the requirements of this part, and any conditions of approval of an application for an investigational device exemption imposed under § 812.30(f).

(d) The sponsor shall discontinue shipments of the investigational device to any investigator who has failed to conduct the investigation in accordance with the investigational plan, the requirements of this part, and any conditions of approval of an application for an investigational device exemption imposed under § 812.30(f).

(e) The sponsor shall have and shall comply with an adequate plan for monitoring the investigational study, which shall be included in the investigational plan under § 812.25. Such plan shall include provisions for periodic visits at specific intervals to all facilities involved in the investigational study by appropriately trained and qualified representatives of the sponsor to determine whether the investigations are being conducted in accordance with the plan, the requirements of this part, and any conditions of approval of an application for an investigational device exemption imposed under § 812.30(f).

(f)(1) The sponsor shall undertake a special investigation whenever he learns of any adverse effect that may reasonably be regarded as caused by, or probably caused, by the investigational device and that was not previously anticipated (in nature, severity, or degree of incidence) in any material submitted to the Food and Drug Administration. The sponsor also shall undertake a special investigation of any known deaths of subjects and any life-threatening medical problems that have occurred in the study. The sponsor shall notify all investigators of any such adverse effect, death, or medical problem as soon as possible, but in no event later than 5 days after the sponsor learns of the adverse effect, death, or medical problem, as required by § 812.47(b).

(2) Where the sponsor regards any adverse effect, death, or medical problem discussed in paragraph (f)(1) of this section as serious, the sponsor shall upon its own initiative suspend the study as soon as possible but in no event later than 5 days after learning of the adverse effect, death, or medical problem. Where the sponsor has not suspended the study but the Food and Drug Administration regards such an adverse effect, death, or medical problem as serious and so informs the sponsor, the sponsor shall suspend the study as soon as possible but in no event later than 5 days after such request. The sponsor shall not resume the study until it determines, subject to the concurrence of the Food and Drug Administration, that the study can safely be resumed. Where there is substantial doubt that the study can safely be resumed, the sponsor shall discontinue the study.

(g) A sponsor shall not unduly prolong an investigational study. Where the study is suitable for the development of data to obtain approval of an application for premarket approval of the device pursuant to section 515 of the act, the sponsor shall submit such an application under either of the following conditions:

(1) With reasonable promptness after the sponsor finds that the results of the study may establish the safety and effectiveness of the device.

(2) Within 60 days after receipt of a written request for such an application from the Commissioner. If the sponsor does not submit an application after such request, the sponsor shall give adequate reasons for not submitting an application for premarket approval or shall discontinue the study.

§ 812.47 Submitting information to investigators.

(a) The sponsor shall supply all investigators with copies of the investigational plan required under § 812.25, the report of prior investigations of the device required under § 812.27, and labeling (including labels) for the device which describes all relevant hazards, contraindications, adverse effects, interfering substances or devices, and precautions suggested by prior investigations and experience with the investigational device or any related devices. The labeling shall not represent that the safety or effectiveness of the device has been established for the purposes to be investigated.

(b) The sponsor shall notify each investigator participating in the study of any adverse effect, death, or medical problem that is subject to the requirement of a special investigation under § 812.45(f) as soon as possible but in no event later than 5 days after the sponsor learns of the adverse effect, death, or medical problem.

(c) The sponsor shall notify each investigator of the completion or discontinuance of the investigational study or the withdrawal of the exemption as soon so possible but in no event later than 5 days after such action.

(d) The sponsor shall notify each investigator if an application for premarket approval of the device under section 515 of the act is approved.

§ 812.50 Promotion and sale of an investigational device.

(a) Neither the sponsor nor any person acting for or on behalf of the sponsor shall disseminate any promotional material representing that the device being investigated is safe or effective for the purposes for which it is under investigation. This requirement does not restrict the full exchange of scientific information concerning the device, including dissemination of scientific findings in the media, but prohibits promotional claims by the sponsor that the device is safe or effective while the device is being investigated to establish its safety or effectiveness. During the transitional period, this requirement may be waived by the Food and Drug Administration for a device that either was in commercial distribution before May 28, 1976 or is substantially equivalent to a device that was in commercial distribution before such date.

(b)(1) Except as provided in paragraph (b)(2) of this section, the sponsor shall not commercially distribute or test market an investigational device, or otherwise commercialize an investigational device, until the device has been approved for marketing for the purpose for which it is being investigated.

(2) During the transitional period for a device that was in commercial distribution before May 28, 1976 or that is substantially equivalent to a device that was in commercial distribution before such date, the sponsor of the device may commercially distribute or test market the device so long as the device may be commercially distributed lawfully without having in effect an approved application for premarket approval under section 515 of the act.

(c) The sponsor shall not charge subjects or investigators for an investigational device if the Food and Drug Administration finds the compensation to be unreasonable considering the manufacturing and other costs of the device, and has so notified the sponsor of this finding.

§ 812.55 Reporting to the Food and Drug Administration, maintaining records, and permitting inspection.

(a) A sponsor shall make accurate and adequate records for reporting to the Food and Drug Administration on the progress of the investigational study. These reports shall be made at appropriate intervals not exceeding 1 year. Such reports shall include any significant findings of the investigational study and any amendments to the application or previous reports that are necessary to keep them accurate and timely and that had not been submitted to the agency previously.

(b) The sponsor shall notify the Food and Drug Administration of the completion or discontinuance of the investigational study within 30 days and shall make an accurate and adequate final report to the agency on the study within 6 months after the study is completed or discontinued, or an exemption is withdrawn.

(c) The sponsor shall report to the Food and Drug Administration any adverse effect, death, or medical problem that is subject to the requirement of a special investigation under § 812.46(f). Such reports shall be accurate and adequate in content and shall be made as soon as possible, but in no event later than 5 working days, after the sponsor learns of the adverse effect, death, or medical problem.

(d) The sponsor shall submit to the Food and Drug Administration a copy of a report of a determination by an investigator under § 812.123 that informed consent cannot be obtained from a subject or his representative. Such report shall be submitted as soon as possible, but in no event later than 5 days, after such report is received from the investigator.

(e) A sponsor shall retain a copy of any application, report, or correspondence that he submits to the Food and Drug Administration under this part.

(f) A sponsor shall maintain the records required under this part for whichever of the following periods applies:

(1) A period of 2 years following the date on which the Food and Drug Administration approves the marketing of the device for the purposes which were the subject of the study.

(2) A period of 5 years following the date on which the results of the study are submitted to the Food and Drug Administration in support of the marketing of the device for the purposes which were the subject of the study.

(3) In other situations, e.g., where the investigational study does not result in the submission of an application for marketing the device for the purposes which were the subject of the study, a period of 2 years following the date on which the investigational study (not merely an investigator's portion of a study) is completed or discontinued, or the exemption is withdrawn.

(g) A sponsor may withdraw from the responsibility for maintaining records for the period of time required in paragraph (f) of this section by transferring custody to any other person who will accept responsibility for the records, e.g., a manufacturer who has acquired the rights to the device. Notice of such transfer shall be given to the Food and Drug Administration.

(h) A sponsor shall permit an authorized employee of the Food and Drug Administration, at reasonable times and in a reasonable manner, to inspect any facilities where the investigational device is manufactured, processed, held, or used, and to inspect and copy any records of the sponsor concerning the investigational study, including any records required to be kept under § 812.45(c) and under paragraph (e) of this section. A sponsor shall permit a representative of an institutional review committee that is supervising an investigational study of the sponsor, at reasonable times and in a reasonable manner, to inspect and copy any records of the sponsor relevant to the responsibilities of the committee concerning the investigational study. The requirements of § 812.115 shall apply to the copying of names and other information which might identify the human subjects.

(i) The Food and Drug Administration may require a sponsor to submit any records concerning the investigational study, including any records required to be kept under § 812.45(c) and paragraph (e) of this section.

Subpart D—Institutional Review Committee

§ 812.60 Circumstances in which an institutional review committee is required.

(a) An institutional review committee shall review and monitor investigational studies in any of the following situations:

(1) When the investigational study is to utilize human subjects who are institutionalized.

(2) When the investigational study is to be conducted by an individual affiliated with an institution that agrees to assume responsibility for the study.

(3) When the investigational study is to be conducted in an institution that

V 41 163 AUG 20 76 UMI

has a committee that meets the requirements of this subpart.

(b) When a committee does not meet the requirements of this subpart, the Food and Drug Administration shall disregard the review or monitoring of any investigational study by that committee and shall require any sponsor of a study that would be reviewed by that committee to submit a complete investigational plan pursuant to § 812.20(b)(6).

§ 812.62 Membership of an institutional review committee.

(a) An institutional review committee shall be composed of not less than five individuals with varying backgrounds to assure complete and adequate review of the investigational study. Such committee shall be sufficiently qualified through the maturity, experience, and expertise of its members and diversity of its membership to ensure respect for its advice and counsel for safeguarding the rights and safety of human subjects and for assuring that a proposed investigational study has scientific validity. In addition to possessing the professional competence necessary to review scientific activities, such committee must be capable of ascertaining the acceptability of an investigational study in terms of institutional commitments and regulations, applicable law, standards of professional conduct and practice, and community attitudes. Such committee shall include, in addition to persons possessing the professional competence necessary to review scientific activities, persons whose primary concerns are in nonscientific areas, e.g., lawyers, clergymen, ethicists, social scientists, or other lay persons. No such committee shall consist entirely of members of a single professional group.

(b) The records of a committee shall identify each member by name, earned degrees, positions or occupation, representative capacity, and other pertinent indications of experience, such as board certification or licenses, sufficient to describe each member's chief anticipated contributions to such committee's deliberations.

(c) No committee shall consist entirely of persons who are officers, employees, or agents of, or are otherwise associated with, the institution, apart from their membership on the committee. The employment or other relationship between each member and the institution, e.g., full-time employee, part-time employee, member of governing panel or board, paid consultant, or unpaid consultant, shall be described in the records of the committee.

(d) No member of a committee shall participate in the committee's review or monitoring of an investigational study in which he has a conflicting interest or of any study involving an investigator or sponsor who participated in his selection for the committee, except to provide information requested by such committee. No investigator or sponsor shall participate in the selection of members for a committee that will review his investigational study. The employment or other relationship between each member and any investigator or sponsor of any investigational study reviewed and monitored by the committee, e.g., full-time employee, part-time employee, member of governing panel or board, paid consultant, or unpaid consultant, shall be described in the records of the committee with a statement as to the extent to which the member participated in the review or monitoring of the study.

§ 812.65 Procedures for review and monitoring of investigational studies by an institutional review committee.

(a) An institutional review committee shall adopt and follow written procedures for conducting its review and monitoring of investigational studies and for reporting its findings to the institution, the sponsor, and the investigator.

(b) A committee shall conduct business by a quorum, which shall be defined by written procedures of the committee. In no event shall a quorum be less than either a majority of the members of the committee or 3 members, whichever is greater. In addition, no quorum shall be constituted, regardless of the number of members present, unless persons of at least two diverse backgrounds are present, e.g., at least one scientist and one nonscientist.

(c) A committee shall monitor an investigational study that it has approved until the investigation is completed or discontinued, or an exemption is withdrawn. Such monitoring shall be undertaken at intervals appropriate to the degree of risk, but not exceeding 1 year, to assure that the investigational study is being conducted in compliance with the requirements, understandings, and recommendations of the committee and with the requirements of this part.

§ 812.66 Procedures and criteria for review of investigational studies by an institutional review committee.

(a) Upon receipt of the proposed investigational study, including an investigational plan and a report of prior investigations of the device from the sponsor or investigator, the committee will notify the sponsor or investigator of the date of such receipt and inform the sponsor or investigator that the study may not begin until such time as the committee notifies the sponsor or investigator that the study has been approved.

(b) If the committee has any question regarding the proposed investigational study, the committee may request the investigator or sponsor to submit additional information concerning the proposed study.

(c) The committee shall review and approve, conditionally approve, or disapprove a proposed study as soon as possible after receipt thereof.

(d) The committee may disapprove, or withdraw approval of, a proposed institutional study for any reason it considers appropriate.

(e) The committee shall disapprove a proposed study if it finds that:

(1) The information submitted to the committee concerning the study contains an untrue statement of a material fact or omits material information required by this part; or

(2) The report of prior investigations of the investigational device is inadequate to support a conclusion that it is reasonably safe to begin the proposed investigational study; or

(3) There is reason to believe that the investigational device may be unsafe or ineffective when used for the purpose, or in the manner, for which it is to be investigated; or

(4) The investigational plan is not a reasonable plan, in whole or in part, for a scientific investigation to determine whether the investigational device is safe or effective; or

(5) The proposed investigational study does not conform to procedures, conditions, or requirements prescribed in this part.

(f) The committee shall disapprove a proposed study as being inadequate to justify commencement of clinical testing if it determines that the proposed investigational study subjects human subjects to undue risks. In assessing risks, the committee shall consider, among other things, whether:

(1) The risks to the subject are so outweighed by the sum of the benefits to the subject and the importance of the knowledge to be gained as to warrant a decision to allow the subject to accept these risks;

(2) The rights and welfare of any such subjects will be adequately protected;

(3) Legally effective informed consent will be obtained by adequate and appropriate methods in accordance with the provisions of this part; and

(4) The conduct of the activity will be reviewed at timely intervals.

(g) The committee shall notify the sponsor or investigator who submitted the proposal of its decision on the proposed study. Notification of conditional approval shall contain a complete statement of the reasons for the committee's conditional approval.

§ 812.70 Review by institution.

Approval, including conditional approval, by an institutional review committee may be subject to further appropriate review and approval or rejection by institutional officials, but disapproval by the committee may not be overruled by such officials.

§ 812.75 Records of an institutional review committee.

(a) An institutional review committee shall prepare and maintain adequate documentation of its activities regarding each investigational study, including records of information submitted to the committee by an investigator or by a sponsor, information compiled on committee members pursuant to § 812.62, minutes of committee meetings on substantive issues and their resolution, committee decisions on studies, and dated reports of successive reviews as they are performed.

(b) A committee shall retain the records required by this part for an investigational study for whichever of the following periods is applicable:

(1) A period of 2 years following the date on which the Food and Drug Administration approves the marketing of the device for the purposes which were the subject of the study;

(2) A period of 5 years following the date on which the results of the study are submitted to the Food and Drug Administration in support of the marketing of the device for the purposes which were the subject of the study; or

(3) In other situations, e.g., where the investigational study does not result in the submission of the results of the study in support of the marketing of the device, a period of 2 years following the date on which the entire investigational study, not merely an investigator's portion of a study, is completed or discontinued or the exemption is withdrawn under § 812.35.

§ 812.77 Inspection of institutional review committees.

An institutional review committee shall permit an unauthorized employee of the Food and Drug Administration, at reasonable times and in a reasonable manner, to inspect and copy records required to be maintained by the committee pursuant to § 812.75.

§ 812.79 Disqualification of an institutional review committee.

(a) The Director of the Bureau may determine that the process of review undertaken by an institutional review committee is inadequate if he finds that:

(1) The membership of a committee was composed in violation of the requirements of § 812.62.

(2) A member of the committee participated in the committee's review or monitoring of an investigational study in which he had a conflicting interest, or of any study involving an investigator or sponsor who participated in his selection for the committee, in violation of the requirements of § 812.62.

(3) The committee failed to adopt written procedures for conducting business or for conducting its review and monitoring of investigational studies and for reporting its findings to the institution, the sponsor, and the investigator or failed to follow such procedures, once adopted, in violation of the requirements of § 812.65.

(4) The committee failed to monitor until completion or discontinuance of, or withdrawal of an exemption for, an investigational study which it had approved, in violation of the requirements of § 812.65.

(5) The committee approved a proposed investigational study, in violation of the requirements of § 812.66.

(6) The committee failed either deliberately or through negligence to maintain adequately or accurately, or to retain, any of the records required to be maintained or retained by this part with the result that the validity of the investigational study and/or the rights or safety of human subjects were affected adversely to a significant extent or that the study could not be audited adequately.

(7) The committee refused to permit an inspection of records, in violation of the requirements of § 812.77.

(b) Whenever the officer in the Bureau, other than the Bureau Director, who has direct responsibility for monitoring the conduct of investigational studies has information indicating that grounds exist under paragraph (a) of this section which in his opinion justify disqualification of a committee, he shall issue to the committee a written notice (including a statement of the information indicating that grounds exist which in his opinion justify disqualification) proposing that the committee be disqualified by the Director of the Bureau from reviewing or monitoring investigational studies.

(c) A hearing on the disqualification of a committee shall be conducted in accordance with the requirements for a regulatory hearing set forth in Subpart F of Part 2 of this chapter.

(d) If, after the regulatory hearing or after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, after evaluating the administrative record, that the committee is responsible for any of the acts or omissions specified in the notice issued pursuant to paragraph (b) of this section and has failed to furnish an adequate explanation for such acts or omissions, he shall issue a final order disqualifying the committee from reviewing or monitoring any investigational study. Such order shall include a statement of the basis for that determination. Upon issuing a final order disqualifying the committee, the Director of the Bureau shall notify, with a copy of the order, the institution that established the committee, the investigator and the sponsor of each investigational study which the disqualified committee is reviewing or monitoring. If, after a regulatory hearing or after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, after evaluating the administrative record of the disqualification proceeeding, that the committee is not responsible for any of the acts or omissions specified in the notice issued pursuant to paragraph (a) of this section, or is so responsible but has furnished an adequate explanation for such acts or omissions, he shall issue a final order terminating the disqualification proceeding. Such order shall include a statement of the basis for that determination. Upon issuing a final order terminating the proceeding, the Director of the Bureau shall notify, with a copy of the order, the committee and the officer in the Bureau who proposed disqualification.

(e) Once a committee has been disqualified, each investigational study under the review or monitoring of the committee shall be suspended until reviewed and approved by the Food and Drug Administration or by another institutional review committee that meets the requirements of this subpart. A determination that a committee has been disqualified and the administrative record regarding such determination are disclosable to the public under Part 4 of this chapter.

(f) A committee which has been disqualified may be reinstated as eligible to review and monitor investigational studies if the Director of the Bureau finds that the committee can adequately assure that it will conduct such review and monitoring in compliance with the conditions set forth in this subpart. A disqualified committee which wishes to be so reinstated shall present in writing to the Director of the Bureau reasons why it believes it should be reinstated and the corrective actions it has taken or intends to take to assure that the acts or omissions which led to its disqualification will not recur. If a committee is reinstated, the Director of the Bureau shall so notify the committee, the institution that established the committee, the investigator and the sponsor of each investigational study which the committee was reviewing or monitoring at the time of its disqualification. A determination that a committee has been reinstated is disclosable to the public under Part 4 of this chapter.

(g) Disqualification of a committee under this section is independent of, and neither in lieu of nor a precondition to, othe proceedings or actions authorized by the act. The Food and Drug Administration may also refer pertinent matters to another Federal, state, or local law enforcement or regulatory agency for such action as that agency deems appropriate.

Subpart E—Investigator Responsibilities in Investigational Studies Involving Human Subjects

§ 812.101 Review of investigational study by the Food and Drug Administration.

(a) An investigator shall ascertain that the sponsor has submitted for review and approval by the Food and Drug Administration the application required in § 812.20 before any human subjects are allowed to participate, or requested to consent to participation, in the investigational study.

(b) An investigator shall not allow human subjects to participate, or request their consent to participation, in an investigational study until such time as an investigational device exemption has been obtained from the Food and Drug Administration pursuant to Subpart B of this part.

§ 812.103 Review of investigational study by institutional review committee.

For any investigational study that is subject to an institutional review requirement under § 812.60:

(a) An investigator shall not allow human subjects to participate, or request their consent to participate, in an investigational study until the committee has approved the study.

(b) An investigator shall not implement a change in, or deviate from, the investigational plan until he has complied with the requirements of § 812.105.

V 41 N 163 AUG 20 76 UM

(c) An investigator shall notify the committee of any adverse effect that may reasonably be regarded as caused, or probably caused, by the investigational device and that was not previously anticipated (in nature, severity, or degree of incidence) in the written information regarding the device submitted to the investigator by the sponsor. An investigator also shall report to the committee any known deaths of subjects and any life-threatening medical problems occurring in the study. Such reports shall be accurate and adequate in content and shall be made as soon as possible, but in no event later than 5 working days, after the investigator discovers the adverse effect, death, or medical problem, or is notified of them by the sponsor, e.g., when uncovered by another investigator or in an animal study.

(d) An investigator shall notify the committee within 3 months after completion or discontinuance of, or the withdrawal of the exemption for, the entire investigational study or of his portion of the study, whichever occurs first.

(e) An investigator shall provide accurate and adequate information regarding the investigational study to the committee in response to its request.

(f) An investigator shall maintain records of all submissions to, and all actions by, the committee regarding the study.

§ 812.105 Conformity to investigational plan.

(a) Whenever the sponsor or any investigator participating in an investigational study wishes to implement a change in, or deviation from, the investigational plan submitted to any investigational review committee or the Food and Drug Administration, which change or deviation may affect the validity of the study or the rights or safety of the human subjects under the criteria in § 812.39(b)(3), the investigator shall submit or assure that the sponsor submits the proposed change or deviation to such committee for review and written approval and shall submit or assure that the sponsor submits a supplemental application to the Food and Drug Administration in accordance with § 812.39(b). Except as provided in paragraph (b) of this section, the committee's review and approval shall be obtained and the application submitted to the Food and Drug Administration before the change or deviation is implemented, and the investigator shall not permit the change or deviation to be implemented unless and until the change or deviation is approved by the committee and the supplemental application is approved or deemed approved by the Food and Drug Administration under § 812.30(c).

(b) When a change in or deviation from the investigational plan is necessary to eliminate or reduce an apparent immediate hazard to the safety of a human subject who is already participating in the investigational study, the sponsor or investigator is not required to comply with the prior approval requirements of paragraph (a) of this section. The investigator shall instead notify the sponsor who shall notify the Food and Drug Administration of the change or deviation and the justification therefor as soon as possible but in no event later than 5 days after such change or deviation is implemented.

§ 812.107 Control over the investigational device.

(a) An investigator shall only permit an investigational device to be used for administration to, or use involving, subjects who are under his personal supervision or under the supervision of another investigator who is responsible to him and who is named by the investigator in his signed statement undertaking the obligations of an investigator or sponsor-investigator. An investigator shall not supply the investigational device to any other person for administration to, or use involving, subjects or for any other purpose, without the prior authorization of the sponsor.

(b) An investigator shall return to the sponsor any unused supply of the investigational device, or otherwise dispose of the device as directed by the Sponsor, upon request of the sponsor, e.g., upon completion or discontinuance of, or withdrawal of the exemption for, the investigational study.

(c) An investigator shall maintain adequate and accurate records showing the receipt and disposition of all supplies of all investigational devices shipped to him by the sponsor, including the dates, the quantity and the serial, batch, lot or other identification number of the units received, each unit administered or used, including identification by name of the person who administered or used the device and the identification by code of the subject who received it or upon whom it was used, and each unit otherwise disposed of (including identification of the person who disposed of it, the person, if any, who received it, and the purpose or reason for its disposal, e.g., contamination or return to the sponsor). The records required in this paragraph are separate from, and in addition to, the records required for individual subjects in § 812.111.

§ 812.111 Records regarding subjects.

An investigator shall maintain an adequate and accurate case report on each subject, which shall include the following:

(a) All relevant observations, information, and data on the condition of the subject at the time the subject enters into the study, including information regarding any relevant previous medical history and the results of all diagnostic tests performed to determine that the subject is appropriate for entry into the study.

(b) Any documentation regarding the consent of the human subject required under Subpart F of this part.

(c) A record of the exposure of the subject to the investigational device and to any concomitantly or concurrently administered therapy, including the date (and time, if relevant) of each administration, or use, of the device and any other therapy and the quantity or dose administered, if relevant.

(d) All relevant observations and data on the condition of the subject throughout the duration of his participation in the study, including the results of all laboratory tests performed and the appearance of factors which might alter the effects of the investigational device, e.g., development of a clearly unrelated illness.

§ 812.112 Reports to sponsor.

(a) An investigator shall make accurate and adequate reports to the sponsor on the progress of the investigational study at appropriate intervals not exceeding 1 year.

(b) An investigator shall make an accurate and adequate final report to the sponsor within 3 months after the completion or discontinuance of, or withdrawal of the exemption for, the investigational study or of his portion of the study, whichever occurs first. This report shall include all reports not provided to the sponsor in reports submitted pursuant to paragraphs (a) or (c) of this section.

(c) An investigator shall report to the sponsor any adverse effect that may reasonably be regarded as caused, or probably caused, by the investigational device and that was not previously anticipated (in nature, severity, or degree of incidence) in written information regarding the device submitted to the investigator by the sponsor. An investigator also shall report to the sponsor any known deaths of subjects and any life-threatening medical problems occurring in the study. Such reports shall be accurate and adequate in content and shall be made as soon as possible, but in no event later than 5 working days, after the investigator discovers the adverse effect, death, or medical problem.

(d) An investigator shall retain a copy of each report he submits to the sponsor under this section.

§ 812.114 Retention of records.

(a) An investigator shall maintain the records required in this subpart and Subpart F for whichever of the following periods applies:

(1) A period of 2 years following the date on which the Food and Drug Administration approves the marketing of the device for the purposes which were the subject of the study;

(2) A period of 5 years following the date on which the results of the study are submitted to the Food and Drug Administration in support of the marketing of the device for the purposes which were the subject of the study; or

(3) In other situations, e.g., where the investigational study does not result in the submission of the results of the study in support of the marketing of the device, a period of 2 years following the date on which the entire investigational study (not merely an investigator's portion of a study) is completed or discontinued or the exemption is withdrawn under § 812.35.

(b) In the event the investigator retires, relocates, or for any other reason

chooses to withdraw from the responsibility for maintaining records for the period of time required by paragraph (a) of this section, he may transfer custody to any other person who will accept responsibility for the records, e.g., the sponsor, the institution, the committee, or another investigator. Notice of such transfer shall be given in writing to the sponsor and the committee.

§ 812.115 Inspection of facilities, records, and reports and requests for records and reports.

(a) An investigator shall permit an authorized employee of the Food and Drug Administration or of the sponsor, or a representative of the committee, at reasonable times and in a reasonable manner, to inspect the facilities used by the investigator for the study, and to inspect and copy (after deletion of the name and other information which might identify the human subject) records and reports made by the investigator during the study.

(b) An investigator shall permit an authorized employee of the Food and Drug Administration to copy records which identify the names of human subjects, upon notice that the Food and Drug Administration has reason to believe that the consent of human subjects was not obtained, that the reports submitted by the investigator to the sponsor, or to the institutional review commitee, do not represent actual cases or actual results obtained, or that such reports or other required records appear to be otherwise false or misleading.

§ 812.119 Disqualification of investigators.

(a) The Director of the Bureau may disqualify an investigator from receiving any investigational device if he makes any of the following findings:

(1) The investigator allowed human subjects to participate in the investigational study and/or requested their consent to so participate before an investigational device exemption was obtained from the Food and Drug Administration, as required in § 812.101, or the investigational study had been reviewed and approved by any institutional review committee, as required in § 812.103(a).

(2) The investigator implemented a change in, or deviation from, the investigational plan, which adversely affected the validity of the investigational study and/or the rights or safety of the human subjects, without complying with § 812.10.5.

(3) The investigator violated the rights of human subjects in obtaining their consent to participate in the investigational study, when such consent is required under Subpart F in any of the following ways:

(i) The investigator failed to obtain the written consent of the human subject or the subject's representative as required in § 812.120 or, where such written consent is not required under § 812.123, the investigator failed to comply with the requirements of § 812.123.

(ii) The investigator failed to provide information regarding the investigational study as required in § 812.130(a).

(iii) The investigator used a form to document consent which contained exculpatory langauge prohibited by § 812.130(b).

(iv) The investigator used a form to document consent which was not approved by the institutional review committee, as required in § 812.130(c).

(4) The investigator permitted the investigational device to be administered to, or used involving, subjects who were not under his personal supervision or under the supervision of another investigator who was responsible to him and who was named by the investigator in his signed statement undertaking the obligations of an investigator, as prohibited in § 812.107(a).

(5) The investigator supplied the investigational device to a person other than a subject or another investigator responsible to him, for admininstration to, or use involving, subjects or for any other purpose without the prior authorization of the sponsor, as prohibited in § 812.107(a).

(6) The investigator failed to return to the sponsor or dispose of the unused supply of the investigational device as requested to do so by the sponsor, as required in § 812.107(b).

(7) The investigator failed either deliberately or through negligence to maintain adequately or accurately, or to retain, any of the following records with the result that the validity of the investigational study and/or the rights or safety of the human subjects were affected adversely to a significant extent, or that the study could not be audited adequately:

(i) Records showing the receipt and disposition of all supplies of the investigational device, as required in § 812.107(c);

(ii) Records of all submissions to, and all actions by, the institutional review committee, as required in § 812.103(f); or

(iii) Records regarding subjects, including case reports, as required in § 812.111.

(8) The investigator failed either deliberately or through negligence to make any of the following reports to the sponsor or the Committee within the time limit allowed:

(i) An accurate and adequate response to a request for information from the institutional review committee, as required in § 812.103(e);

(ii) An accurate and adequate report on the progress of the investigational study within 1 year of the last previous report, as required in § 812.112(a);

(iii) An accurate and adequate final report within 3 months after the completion or discontinuance of, or withdrawal of an exemption for, the investigational study, as required in §§ 812.103(d) and 812.112(b);

(iv) An accurate and adequate report of an adverse effect that was reasonably regarded as caused, or probably caused, by the investigational device and was not previously anticipated (in nature, severity, or degree of incidence) in the written information regarding the device submitted to the investigator, as required in §§ 812.103(c) and 812.112(c);

(v) An accurate and adequate report of any known death of a subject or of any life-threatening medical problem occurring in the study, as required in §§ 812.103(c) and 812.112(c);

(9) The investigator refused to permit an inspection of facilities used in the investigational study or an inspection and copying of records and reports made during the study, by an authorized representative of the Food and Drug Administration, the sponsor or the committee, as required in § 812.115(a).

(10) The investigator refused to permit the copying of records identifying the names of human subjects by an authorized employee of the Food and Drug Administration, as required in § 812.115(b).

(11) The investigator falsified any record or report, or deliberately withheld any report, required in this subpart.

(b) Whenever the officer in the Bureau, other than the Bureau Director, who has responsibility for monitoring the conduct of investigational studies has information indicating that grounds exist under paragraph (a) of this section, which in his opinion justify disqualification of an investigator, he shall issue to the investigator a written notice proposing that the investigator be disqualified by the Director of the Bureau from receiving investigational devices.

(c) A hearing on the disqualification of an investigator shall be conducted in accordance with the requirements for a regulatory hearing set forth in Subpart F of Part 2 of this chapter.

(d) If, after the regulatory hearing or after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, after evaluating the administrative record of the disqualification proceeding, that the investigator is responsible for any of the acts or omissions specified in the notice issued pursuant to paragraph (b) of this section and has failed to furnish an adequate explanation for such acts or omissions, he shall issue a final order disqualifying the investigator from receiving any investigational device. Such order shall include a statement of the basis for that determination. Upon issuing a final order disqualifying the investigator from receiving investigational devices, the Director of the Bureau shall notify (with a copy of the order) the investigator and the sponsor(s) of, and the committees responsible for review and monitoring of, each investigational study in which the disqualified investigator is participating. If, after a regulatory hearing or after the time for requesting a hearing expires without a request being made, the Director of the Bureau determines, after evaluating the administrative record of the disqualification proceeding, that the investigator is not responsible for any of the acts or omissions specified in the notice issued pursuant to paragraph (b) of this section, or is so responsible but has furnished an adequate explanation for such acts or omissions, he shall issue a final order

VOL 41 NO 163 AUG 20 76 UM

terminating the disqualification proceeding. Such order shall include a statement of the basis for that determination. Upon issuing a final order terminating the proceeding, the Director of the Bureau shall notify (with a copy of the order) the investigator and the officer in the Bureau who proposed disqualification. In addition, if the officer had notified the sponsor of any investigational study in which the investigator was participating of the proposed disqualification (as provided in paragraph (g) (2) of this section), the Director of the Bureau also shall notify (with a copy of the order) that sponsor of the termination of the disqualification proceeding.

(e) (1) Upon issuance of a final order disqualifying an investigator under paragraph (d) of this section, the Director of the Bureau may notify any other person known by the Director to have professional relations with the investigator, e.g., other Federal Government departments or agencies that support research possibly involving the investigator, State and local medical licensing boards and societies where the investigator practices or is licensed, and administrators and institutional or peer review committees in universities, hospitals, and other institutions in which the investigator teaches or practices, that the investigator has been disqualified from receiving investigational devices regulated by the Food and Drug Administration. Such notice may be given in the discretion of the Director of the Bureau whenever he believes that such disclosure would further the public interest or would promote compliance with the law. Such notice, if given, shall include a copy of the final order issued under paragraph (d) of this section and shall state that the disqualification constitutes a determination by the Food and Drug Administration that the investigator is not eligible to receive investigational devices, that notice of this ineligibility is given because of the professional relations between the investigator and the person notified, and that the Food and Drug Administration is not advising or recommending that any action be taken by the person notified.

(2) Once an investigator has been disqualified, each exemption for investigational use of a medical device, application for premarket approval of a medical device, or product development protocol for a medical device, whether approved or not, containing or relying upon data reported by the investigator, may be examined to determine whether the data were essential to the decision to approve the application or protocol or authorize the exemption. If it is determined that the data were essential, the Food and Drug Administration shall also determine whether the data are reliable; this may include requiring the person relying upon the data to submit validating information. If the data are determined to be unreliable, such data will be eliminated from consideration in support of the application, protocol, or exemption, and such elimination may serve as new information justifying the withdrawal of approval of the exemption, application or protocol.

(3) A determination that an investigator has been disqualified and the administrative record regarding such determination are disclosable to the public under Part 4 of this chapter.

(f) An investigator who has been disqualified may be reinstated as eligible to receive investigational devices in conjunction with a specific investigational study if the Director of the Bureau determines that participation of the investigator is important to the study and that the investigator can adequately assure that he will conduct such study in compliance with the obligations of investigators set forth in this subpart. A disqualified investigator who wishes to be so reinstated shall present in writing to the Director of the Bureau reasons why he believes he should be reinstated and the corrective actions he has taken or intends to take to assure that the acts or omissions which led to his disqualification will not recur. The Director of the Bureau shall consult with other Bureaus of the Food and Drug Administration which regulate research before deciding whether to reinstate the investigator. No disqualified investigator shall be reinstated outside of the context of a specific investigational study. If an investigator is reinstated, the Director of the Bureau shall so notify the investigator, and all persons who were notified (under paragraphs (d) and (e) (1) of this section) of the investigator's previous disqualification. A determination that an investigator has been reinstated is disclosable to the public under Part 4 of this chapter.

(g) (1) Disqualification of an investigator under this section is independent of, and neither in lieu of nor a precondition to, other proceedings or actions authorized by the act. The Food and Drug Administration may, at any time, institute against an investigator any appropriate judicial proceeding, civil or criminal, and any other appropriate regulatory action, in addition to or in lieu of, and prior to, simultaneously with, or subsequent to, disqualification. The Food and Drug Administration may also refer the matter to another Federal, state, or local law enforcement or regulatory agency for such action as that agency deems appropriate.

(2) When the officer of the Bureau, other than the Bureau Director, who has direct responsibility for monitoring the conduct of investigational studies has reason to believe that an investigator may be subject to disqualification, he may, in his discretion, so notify the sponsor of any study in which that investigator is participating, simultaneously with, or after, proposing disqualification of the investigator under this section, unless there are overriding safety considerations which warrant earlier notification of the sponsor.

(h) The sponsor of a study may at any time remove an investigator from further participation in any investigation he is conducting for the sponsor, whether or not the Food and Drug Administration has commenced any action to disqualify the investigator. The sponsor need not utilize either the grounds or the procedures for disqualification set forth in this section. If a sponsor removes an investigator from an investigational study, he shall notify the Food and Drug Administration in writing of the reasons for such removal as soon as possible, but in no event later than 5 working days after such removal.

Subpart F—Informed Consent of Human Subjects

§ 812.120 General requirements of informed consent.

(a) Except as provided in § 812.123, an investigator shall (1) inform each human subject, or the subject's legal representative where the subject lacks legal capacity, that the investigational device is being used for research purposes, (2) provide each human subject, or his legal representative, an adequate explanation of pertinent information concerning the investigational device including the information required in § 812.130, and (3) shall obtain and document legally effective informed consent of such subject, or his legal representative.

(b) Informed consent shall be obtained while the subject, or his legal representative, is so situated as to be able to exercise free power of choice without undue inducement or the intervention of any element of force, fraud, deceit, duress or other forms of constraint or coercion.

(c) Informed consent shall be evidenced by a written agreement, signed by the subject, or his legal representative, which meets the requirements of § 812.130.

§ 812.123 Exception from requirement.

(a) The requirements of § 812.120 shall not apply when:

(1) The investigator determines in writing (i) that there exists a life-threatening situation involving the subject which necessitates the use of the investigational device, (ii) that it is not feasible to obtain informed consent from the subject, and (iii) that there is not sufficient time to obtain such consent from the subject's legal representative; and

(2) Such determination is concurred in by a licensed physician not involved in the testing of the device, unless the investigator determines (and documents this determination) that immediate use of the device is necessary to save the life of the subject and there is not sufficient time to obtain such concurrence and that there is available no alternative method of therapy that is approved or generally recognized which may save the life of the subject.

(b) If the investigator does not obtain informed consent and uses the investigational device in accordance with the requirements of paragraph (a) of this section, he shall report as soon as possible, but in no event later than 5 working days after using the device, the determinations required by paragraph (a) (1) and (2) of this section to the sponsor, for

submission by the sponsor to the Food and Drug Administration in accordance with § 812.55, and to the committee.

§ 812.130 Elements of informed consent in agreement.

(a) The investigator shall assure that the subject, or his legal representative, signs an agreement that includes a complete explanation of pertinent information concerning the investigational device adequate to enable him to make a decision on his willingness to participate, or permit the subject to participate, in the investigation and which includes:

(1) A full and fair explanation of procedures to be followed, including an identification of any which are experimental.

(2) A full explanation of the nature, expected duration and purpose of the administration of the investigational device.

(3) A description of any attendant discomforts and risks reasonably to be expected.

(4) An explanation of likely results should the procedure fail.

(5) A description of any benefits reasonably to be expected.

(6) A disclosure of any appropriate alternative procedures that might be advantageous for the subject.

(7) A description of the scope of the investigation, including number of patients involved in the investigational study.

(8) An offer to answer any inquiries concerning the investigational study.

(9) An instruction that the subject, or his legal representative, is free to decline entrance into the investigational study or to withdraw his consent and to discontinue participation in the study at any time without prejudice to the subject.

(10) A statement that the investigational device is being used for research purposes.

(b) The agreement entered into by such person or his legal representative shall include no exculpatory language through which the subject is made to waive, or to appear to waive, any of his legal rights or to release the institution or its agents, or the sponsor, or the investigator from liability for negligence.

(c) An investigator shall provide to the sponsor and to the institutional review committee a sample copy of any written materials given or read to the subject, or his legal representative, regarding the information required to be given by paragraph (a) of this section and a sample copy of any form used to document the consent of such subject, or his legal representative, which form shall have been approved by the committee.

Subpart G—[Reserved]

Subpart H—Investigational Studies That Do Not Involve Human Subjects

§ 812.160 Conditions of exemption.

(a) Where an investigational device is intended for use in humans, a shipment of the device that is intended solely for tests in animals used only for laboratory research purposes, or for in vitro or mechanical tests or similar tests that do not involve use of human subjects, shall be exempt from any of the otherwise applicable provisions of the act listed in § 812.1(c) if:

(1) The labeling of the device complies with the requirements of § 812.5 (a) and (b) and bears the following additional statement:

Caution—Device (or Diagnostic product) for investigational use only in laboratory animals or other tests that do not involve human subjects.

(2) The person who ships the device under this subpart uses due diligence to assure that the consignee is regularly engaged in conducting tests in animals used only for labortory research, or for in vitro or other mechanical tests or similar tests that do not involve use of human subjects and that the shipment of the investigational device will actually be used only in such tests.

(3) The person who ships the device under this subpart maintains adequate records showing the name and address of the consignee to whom the device is shipped, date, quantity, and batch or code mark of each shipment for a period of 2 years after such shipment and, upon the request of a properly authorized employee of the Department at reasonable times, makes such records available for inspection and copying or submits such records to the Food and Drug Administration.

(b) This subpart does not apply to any use of an investigational device that involves use of human subjects.

§ 812.170 Termination of exemption.

(a) The Commissioner shall terminate an exemption under this subpart if he makes either of the following findings:

(1) The person shipping an investigational device under this subpart has failed to comply with any of the conditions for the exemption under this subpart.

(2) Any of the grounds for withdrawal of an investigational device exemption under § 812.35 apply.

(b) The Commissioner shall notify the sponsor of the termination of an exemption under this subpart with a full statement of the reasons for such termination and shall afford an opportunity for a regulatory hearing under Subpart F of Part 2 of this chapter. The person whose exemption is terminated shall recall or otherwise assure the destruction of any unused devices.

Interested persons may, on or before October 19, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 17, 1976.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

■

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V41 I163 AUG 20 76
UMI

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secertary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders, 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Baeon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

Group 2: Cement Finisher Tender; Concrete curer (impervious membrane); Cutting torch operator; Fine grader (highway, engineering and sewer work only); Kettleman - Tarman; Power type concrete buggy; Lazer beam operator

Group 3: Bander; Chucktender (except tunnel); Creosote tieman; Guinea chaser; Powderman helper; Rip-rap stone paver; Sandblaster (pot tender); Spikers and wrenchers

Group 4: Cement Dumpers (Skip-type mixer or handling bulk cement); Chain saw machines (on clearing and grubbing); Concrete vibrating machines; Cribber and shorer (except tunnel); Floor sanders - concrete; Hydraulic jacks, and similar mechanical tools not separately herein classified; Operators and tenders of pneumatic and electric tools; Pipe caulker and/or backup man (pipeline); Pipe wrapper; Pneumatic gopher; Rigger/Signalman (pipeline)

Group 5: Air and Water Wash-Out Nozzleman; Asphalt rakers and ironers; Driller; Grade setter (pipeline); Hand guided trencher and similar operated equipment; Jackhammer and/or pavement breakers; Pipelayers (including but not limited to non-metallic, transite and plastic pipe, water pipe, sewer pipe, drain pipe, underground tile and conduit); Rock slinger; Scaler (using Bos'ns chair or safety belt); Tampers (mechanical-all types); Precast manhole erector

Group 6: Concrete Cutting Torch; Concrete saw (hand guided); Driller (core, diamond, wagon or air track); Drill doctor and/or air tool repairman; Gunman and mixerman (gunite); Sandblaster (nozzleman)

Group 7: Concrete Road Form Setter; Gunite nozzleman or rodman; Drillers, Joy Mustang, PR 143, 2200 Gardner-Denver, Hydrasonic; Powderman; Scaler (drillers); Welders and/or pipelayers installing process piping

Group 8: Mason Tenders

Group 8A: Plaster Tenders

LABORERS (Cont'd)
(TUNNEL and SHAFT WORKERS)

Group 1: Bull Gang, Muckers, Trackman; Dumpmen; Concrete crew (includes rodders and spreaders); Grout crew; Swamper (brakeman and switchmen on tunnel work)

Group 2: Nipper; Chucktender, Cabletender, Vibratorman, Jackhammer, Pneumatic tools (except driller)

Group 3: Grout Gunman

Group 4: Timberman, Retimberman - wood or steel blaster, driller powderman; Cherry pickerman; Powderman - primer house; Steel form raiser and setter; Kemper and other pneumatic concrete placer operator; Miner - finisher

Group 4A: Miners - Tunnel (hand or machine)

Group 5: Diamond Drill

Group 5A: Shaft and Raise Miner Welder

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Air compressor operator; Field equipment servicemen helper; Heavy duty repair helper; Heavy duty welder helper; Oiler; Pump operator

Group 2: Conveyor operator; Generator operator - portable; Power grizzly operator; Self-propelled chip spreading machine - conveyor operator; Watch fireman; Welding machine operator - gasoline and diesel power

Group 3: Concrete mixer operator - skip type; Dinky operator - (under 20 tons wt.); Driver-moto paver, Slurry seal machine, and similar type equipment; Motor crane driver; Power sweeper operator - self-propelled; Ross carrier or fork lift operator; Skip loader operator - all types with rated capacity 1-1/2 cu. yds. or less; Wheel type tractor operator (Ford, Ferguson, or similar type) with attachments such as fresno, push blade, post hole auger, mower, etc., excluding compacting equipment

Group 4: A-Frame boom truck or winch truck operator; Asphalt plant firemen; Elevator hoist operator (including Tuskey hoist or similar types); Grade checker (excluding civil engineer); Multiple power concrete saw operator; Pavement breaker, mechanical compactor operator, power propelled; Roller operator - all types - except as otherwise classified; Screed operator; Self-propelled chip spreading machine operator (including Slurry seal machine operator) Stationary pipewrapping and cleaning machine operator; Tugger operator

Group 5: Aggregate plant operator (including crushing, screening and sand plants, etc.); Asphalt plant mixer operator; Beltcrete machine; Boring machine operator; Concrete mechanical tamping, spreading or finishing machine (incl. Clary, Johnson, or similar types); Concrete pump operator; Concrete batch plant operator, all types and sizes; Conductor, brakeman, or handler; Drilling machine, including water wells; Elevating grader operator - all types and sizes (except as otherwise classified); Field equipment serviceman; Highline cableway signalman; Kolman belt loader operator or similar, w/belt width 48" or over; Locomotive engineer (incl. Dinky-20 tons wt. and over); Moto-paver and similar type equipment operator; Operating engineer rigger; Pneumatic-tired scraper operator (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment) up to and including 12 cu. yds.; Power jumbo form setter operator; Pressure grout machine operator (as used in heavy engineering construction); Road Oil mixing machine operator; Roller operator-on all types asphalt pavement; Self-propelled compactor, with blade; Skip loader operator-all types with rated capacity over 1-1/2 but less than 4 cu. yds.; Slip form operator (power driven lifting device for concrete forms); Soil cement road mixing machine operator - single pass type; Stationary Central generating plant operator-rated 300 k.w. or more; Surface heater and planer operator; Traveling pipewrapping machine operator

Group 5-A: Heavy duty mechanic and/or welder; Pneumatic tired scraper, all sizes and types over 12 cu. yds. up to and incl. 45 cu. yds. MRC (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment); Tractor operator (Pusher,

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Bulldozer, Scraper) up to 400 net horsepower rating; Trenching machine operator

Group 6: Auto-Grade Machine (CMI and similar equipment); Boring machine operator (including Mole, Badger and similar type); Concrete mixer operator-paving type, and mobile mixer; Concrete pump operator with boom attachment (Truck mounted); Crane operator-crawler and pneumatic type, under 100 ton capacity MRC; Crawler type tractor operator - with boom attachment; Derrick operator; Forklift operator for hoisting personnel; Grade-all operator; Helicopter hoist; Highline cableway operator (less than 20 tons rated capacity); Mass excavator operator (150 Bucyrus Erie and similar types); Mechanical hoist operator (two or more drums); Motor grade operator - any type power blade; Motor grade operator with elevating grader attachment; Mucking machine operator; Overhead crane operator; Pile-driver engineer (portable, stationary or skid rig); Pneumatic-tired scraper operator - all sizes and types (Turnapull, Euclid, Cat, D-W, Hancock & similar equipment over 45 cu. yds., MRC); Power driven ditch lining or ditch trimming machine operator; Skip loader operator - all types with rated capacity 4 cu. yds., but less than 8 cu. yds.; Slip form paving machine operator (including Gunnert, Zimmerman & similar types); Specialized power digger cperator- attached to wheel-type tractor; Tower crane (or similar type) operator; Tractor operator (Pusher, Bulldozer, Scraper (400 net horsepower and over; Tugger operator (two or more); Universal equipment operator-Shovel, Backhoe, Dragline, Clamshell, etc., up to 8 cu. yds.

Group 7: Crane operator - pneumatic or crawler (100 ton hoisting capacity and over MRC rating); Helicopter pilot - FAA qualified when used in construction work; Highline cableway operator, over 20 ton rated capacity and using traveling head and tail tower; Remote control earth moving equipment operator; Skip loader operator - all types with rate capacity of 8 cu. yds. or more; Universal equipment - Shovel, backhoe, dragline, clamshell, etc., 8 cu. yds. and over

TRUCK DRIVERS

Group 1: Teamsters; Pickups; Station Wagons; Manhaul driver

Group 2: Dump or flatrack (2 or 3 axle); Water truck (under 2500 gals.); Buggymobile (1 c. y. or less); Tireman; Bus drivers, ambulance driver, self-propelled street sweeper; Warehouseman

Group 3: Dump or flatrack (4 axle); Dumptor or dumpster (less than 7 c. y.); Water truck (2500 gals. but less than 4000 gals.)

Group 4: Dumptor or dumpster (7 c. y. but less than 16 c. y.); Dump or flatrack (5 axle); Water truck (4000 gals. and over); Slurry type equipment or leverman; Flaherty spreader or similar type equipment or leverman; Transit mix (8 c. y. or less)

Group 5: Dump or flatrack (6 axle); Transit mix (over 8 c. y. but less than 10.5 c. y.); Rock truck (i.e. Dart, Euclid and other similar type end dumps, single unit) less than 16 c. y.))

Group 5A: Oil tanker or spreader and/or bootman, retortman or leverman

Group 6: Transit mix (over 10.5 c. y. but less than 14 c. y.); Ross Carrier fork lift or lift truck; Hydro lift, Swedish Crane Iowa 300 and similar types, Concrete pump (when integral part of transit mix truck); Dump or flatrack (7 axle)

Group 7: Dump or Flatrack (8 axles)

Group 8: Off-Highway Equipment Driver including but not limited to: 2 or 4 wheel power unit, i.e., Cat DW Series, Euclid, International and similar type equipment, transporting material when top loaded or by external means including pulling water tanks, fuel tanks or other applications under Teamster Classifications; Rock trucks (Dart, Euclid, or other similar end dump types) 16 c. y. and over; Ejectalls; Dumptor or dumpster (16 c. y. and over); Dump or flatrack (9 axles)

Group 8A: Heavy duty mechanic/welder; Body and fender man

Group 8B: Field Equipment serviceman or fuel truck driver

Group 8C: Heavy duty mechanic/welder helper

UMI 67 ON GCA 3611-14V

SUPERSEDEAS DECISION

STATE: Arizona COUNTY: Maricopa
DECISION NUMBER: AZ76-5076 DATE: Date of Publication
Supersedes Decision No. AZ76-5008 dated January 23, 1976, in 41 FR 3577
DESCRIPTION OF WORK: Residential Construction consisting of single family homes and garden type apartments up to and including 4 stories.

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	Education and/or Appr. Tr.
ASBESTOS WORKERS	$10.39	.50	$1.02		.02
BOILERMAKERS	10.85	.65	1.00	.50	.02
BRICKLAYERS; Stonemasons:					
Zone A (0-25 miles from City Hall of Phoenix; Flagstaff & Yuma)	10.05	.65	.90		.06

LABORERS

Group 1: All Helpers Not Herein Separately Classified; Cesspool diggers and installers; Chat box man; Checker, tool dispatcher; Concrete dump man; Nozzle, pipe and/or hoseman; Dumpman and/or spotter; Fence builder, guard rail builder highway; Form strippers; Labor, general or construction; Landscape gardener and nurseryman; Packing rod steel and pans; Rip rap stoneman; Astro turf layer

Group 2: Cement Finisher Tender; Concrete curer (impervious membrane); Cutting torch operator; Fine grader (highway, engineering and sewer work only); Kettleman - Tarman; Power type concrete buggy; Lazer beam operator

Group 3: Bander; Chucktender (except tunnel); Creosote tieman; Guinea chaser; Powderman helper; Rip-rap stone paver; Sandblaster (pot tender); Spikers and wrenchers

Group 4: Cement Dumpers (Skip-type mixer or handling bulk cement); Chain saw machines (on clearing and grubbing); Concrete vibrating machines; Cribber and shorer (except tunnel); Floor sanders - concrete; Hydraulic jacks, and similar mechanical tools not separately herein classified; Operators and tenders of pneumatic and electric tools; Pipe caulker and/or backup man (pipeline); Pipe wrapper; Pneumatic gopher; Rigger/Signalman (pipeline)

Group 5: Air and Water Wash-Out Nozzleman; Asphalt rakers and ironers; Driller; Grade setter (pipeline); Hand guided trencher and similar operated equipment; Jackhammer and/or pavement breakers; Pipelayers (including but not limited to non-metallic, transite and plastic pipe, water pipe, sewer pipe, drain pipe, underground tile and conduit); Rock slinger; Scaler (using Bos'ns chair or safety belt); Tampers (mechanical-all types); Precast manhole erector

Group 6: Concrete Cutting Torch; Concrete saw (hand guided); Driller (core, diamond, wagon or air track); Drill doctor and/or air tool repairman; Gunman and mixerman (gunite); Sandblaster (nozzleman)

Group 7: Concrete Road Form Setter; Gunite nozzleman or rodman; Drillers, Joy Mustang, PR 143, 2200 Gardner-Denver, Hydrasonic; Powderman; Scaler (drillers); Welders and/or pipelayers installing process piping

Group 8: Mason Tenders

Group 8A: Plaster Tenders

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Air compressor operator; Field equipment servicemen helper; Heavy duty repair helper; Heavy duty welder helper; Oiler; Pump operator

Group 2: Conveyor operator; Generator operator - portable; Power grizzly operator; Self-propelled chip spreading machine - conveyor operator; Watch fireman; Welding machine operator - gasoline and diesel power

Group 3: Concrete mixer operator - skip type; Dinky operator - (under 20 tons wt.); Driver-moto paver, Slurry seal machine, and similar type equipment; Motor crane driver; Power sweeper operator - self-propelled; Ross carrier or fork lift operator; Skip loader operator - all types with rated capacity 1-1/2 cu. yds. or less; Wheel type tractor operator (Ford, Ferguson, or similar type) with attachments such as fresno, push blade, post hole auger, mower, etc., excluding compacting equipment

Group 4: A-Frame boom truck or winch truck operator; Asphalt plant firemen; Elevator hoist operator (including Tuskey hoist or similar types); Grade checker (excluding civil engineer); Multiple power concrete saw operator; Pavement breaker, mechanical compactor operator, power propelled; Roller operator - all types - except as otherwise classified; Screed operator; Self-propelled chip spreading machine operator (including Slurry seal machine operator) Stationary pipewrapping and cleaning machine operator: Tugger operator

Group 5: Aggregate plant operator (including crushing, screening and sand plants, etc.); Asphalt plant mixer operator; Beltcrete machine; Boring machine operator; Concrete mechanical tamping, spreading or finishing machine (incl. Clary, Johnson, or similar types); Concrete pump operator; Concrete batch plant operator, all types and sizes; Conductor, brakeman, or handler; Drilling machine, including water wells; Elevating grader operator - all types and sizes (except as otherwise classified); Field equipment serviceman; Highline cableway signalman; Kolman belt loader operator or similar, w/belt width 48" or over; Locomotive engineer (incl. Dinky-20 tons wt. and over); Moto-paver and similar type equipment operator; Operating engineer rigger; Pneumatic-tired scraper operator (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment) up to and including 12 cu. yds.; Power jumbo form setter operator; Pressure grout machine operator (as used in heavy engineering construction); Road Oil mixing machine operator; Roller operator-on all types asphalt pavement; Self-propelled compactor, with blade; Skip loader operator-all types with rated capacity over 1-1/2 but less than 4 cu. yds.; Slip form operator (power driven lifting device for concrete forms); Soil cement road mixing machine operator - single pass type; Stationary Central generating plant operator-rated 300 k.w. or more; Surface heater and planer operator; Traveling pipewrapping machine operator

Group 5-A: Heavy duty mechanic and/or welder; Pneumatic tired scraper, all sizes and types over 12 cu. yds. up to and incl. 45 cu. yds. MRC (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment); Tractor operator (Pusher,

UMI 197 ON GCA 3611-14V

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Bulldozer, Scraper) up to 400 net horsepower rating; Trenching machine operator

Group 6: Auto-Grade Machine (CMI and similar equipment); Boring machine operator (including Mole, Badger and similar type); Concrete mixer operator-paving type, and mobile mixer; Concrete pump operator with boom attachment (Truck mounted); Crane operator-crawler and pneumatic type, under 100 ton capacity MRC; Crawler type tractor operator - with boom attachment; Derrick operator; Forklift operator for hoisting personnel; Grade-all operator; Helicopter hoist; Highline cableway operator (less than 20 tons rated capacity); Mass excavator operator (150 Bucyrus Erie and similar types); Mechanical hoist operator (two or more drums); Motor grade operator - any type power blade; Motor grade operator with elevating grader attachment; Mucking machine operator; Overhead crane operator; Pile-driver engineer (portable, stationary or skid rig); Pneumatic-tired scraper operator - all sizes and types (Turnapull, Euclid, Cat, D-W, Hancock & similar equipment over 45 cu. yds., MRC); Power driven ditch lining or ditch trimming machine operator; Skip loader operator - all types with rated capacity 4 cu. yds., but less than 8 cu. yds.; Slip form paving machine operator (including Gunnert, Zimmerman & similar types); Specialized power digger operator- attached to wheel-type tractor; Tower crane (or similar type) operator; Tractor operator (Pusher, Bulldozer, Scraper (400 net horsepower and over; Tugger operator (two or more); Universal equipment operator-Shovel, Backhoe, Dragline, Clamshell, etc., up to 8 cu. yds.

Group 7: Crane operator - pneumatic or crawler (100 ton hoisting capacity and over MRC rating); Helicopter pilot - FAA qualified when used in construction work; Highline cableway operator, over 20 ton rated capacity and using traveling head and tail tower; Remote control earth moving equipment operator; Skip loader operator - all types with rate capacity of 8 cu. yds. or more; Universal equipment - Shovel, backhoe, dragline, clamshell, etc., 8 cu. yds. and over

TRUCK DRIVERS

Group 1: Teamsters; Pickups; Station Wagons; Manhaul driver

Group 2: Dump or flatrack (2 or 3 axle); Water truck (under 2500 gals.); Buggymobile (1 c. y. or less); Tireman; Bus drivers, ambulance driver, self-propelled street sweeper; Warehouseman

Group 3: Dump or flatrack (4 axle); Dumptor or dumpster (less than 7 c. y.); Water truck (2500 gals. but less than 4000 gals.)

Group 4: Dumptor or dumpster (7 c. y. but less than 16 c. y.); Dump or flatrack (5 axle); Water truck (4000 gals. and over); Slurry type equipment or leverman; Flaherty spreader or similar type equipment or leverman; Transit mix (8 c. y. or less)

Group 5: Dump or flatrack (6 axle); Transit mix (over 8 c. y. but less than 10.5 c. y.); Rock truck (i.e. Dart, Euclid and other similar type end dumps, single unit) less than 16 c. y.))

Group 5A: Oil tanker or spreader and/or bootman, retortman or leverman

Group 6: Transit mix (over 10.5 c. y. but less than 14 c. y.); Ross Carrier fork lift or lift truck; Hydro lift, Swedish Crane Iowa 300 and similar types; Concrete pump (when integral part of transit mix truck); Dump or flatrack (7 axle)

Group 7: Dump or Flatrack (8 axles)

Group 8: Off-Highway Equipment Driver including but not limited to: 2 or 4 wheel power unit, i.e., Cat DW Series, Euclid, International and similar type equipment, transporting material when top loaded or by external means including pulling water tanks, fuel tanks or other applications under Teamster Classifications; Rock trucks (Dart, Euclid, or other similar end dump types) 16 c. y. and over; Ejectalls; Dumptor or dumpster (16 c. y. and over); Dump or flatrack (9 axles)

Group 8A: Heavy duty mechanic/welder; Body and fender man

Group 8B: Field Equipment serviceman or fuel truck driver

Group 8C: Heavy duty mechanic/welder helper

LABORERS

Group 1: All Helpers Not Herein Separately Classified; Cesspool diggers and installers; Chat box man; Checker, tool dispatcher; Concrete dump manbelt, pipe and/or hoseman; Dumpman and/or spotter; Fence builder, guard rail builder highway; Form strippers; Labor, general or construction; Landscape gardener and nurseryman; Packing rod steel and pans; Rip rap stoneman; Astro turf layer

Group 2: Cement Finisher Tender; Concrete curer (impervious membrane); Cutting torch operator; Fine grader (highway, engineering and sewer work only); Kettleman - Tarman; Power type concrete buggy; Lazer beam operator

Group 3: Bander; Chucktender (except tunnel); Creosote fireman; Guinea chaser; Powderman helper; Rip-rap stone paver; Sandblaster (pot tender); Spikers and wrenchers

Group 4: Cement Dumpers (Skip-type mixer or handling bulk cement); Chain saw machines (on clearing and grubbing); Concrete vibrating machines; Cribber and shorer (except tunnel); Floor sanders - concrete; Hydraulic jacks, and similar mechanical tools not separately herein classified; Operators and tenders of pneumatic and electric tools; Pipe caulker and/or backup man (pipeline); Pipe wrapper; Pneumatic gopher; Rigger/Signalman (pipeline)

Group 5: Air and Water Wash-Out Nozzleman; Asphalt rakers and troners; Driller; Grade setter (pipeline); Hand guided trencher and similar operated equipment; Jackhammer and/or pavement breakers; Pipelayers (including but not limited to non-metallic, transite and plastic pipe, water pipe, sewer pipe, drain pipe, underground tile and conduit); Rock slinger; Scaler (using Bos'ns chair or safety belt); Tampers (mechanical-all types); Precast manhole erector

Group 6: Concrete Cutting Torch; Concrete saw (hand guided); Driller (core, diamond, wagon or air track); Drill doctor and/or air tool repairman; Gunman and mixerman (gunite); Sandblaster (nozzleman)

Group 7: Concrete Road Form Setter; Gunite nozzleman or rodman; Drillers, Joy Mustang, PR 143, 2200 Gardner-Denver, Hydrasonic; Powderman; Scaler (drillers); Welders and/or pipelayers installing process piping

Group 8: Mason Tenders

Group 8A: Plaster Tenders

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Air compressor operator; Field equipment servicemen helper; Heavy duty repair helper; Heavy duty welder helper; Oiler; Pump operator

Group 2: Conveyor operator; Generator operator - portable; Power grizzly operator; Self-propelled chip spreading machine - conveyor operator; Watch fireman; Welding machine operator - gasoline and diesel power

Group 3: Concrete mixer operator - skip type; Dinky operator - (under 20 tons wt.); Driver-moto paver, Slurry seal machine, and similar type equipment; Motor crane driver; Power sweeper operator - self-propelled; Roos carrier or fork lift operator; Skip loader operator - all types with rated capacity 1-1/2 cu. yds. or less; Wheel type tractor operator (Ford, Ferguson, or similar type) with attachments such as fresno, push blade, post hole auger, mower, etc., excluding compacting equipment

Group 4: A-Frama boom truck or winch truck operator; Asphalt plant firemen; Elevator hoist operator (including Tuskey hoist or similar types); Grade checker (excluding civil engineer); Multiple power concrete saw operator; Pavement breaker, mechanical compactor operator, power propelled; Roller operator - all types - except as otherwise classified; Screed operator; Self-propelled chip spreading machine operator (including Slurry seal machine operator) Stationary pipewrapping and cleaning machine operator: Tugger operator

Group 5: Aggregate plant operator (including crushing, screening and sand plants, etc.); Asphalt plant mixer operator; Beltcrete machine; Boring machine operator; Concrete mechanical tamping, spreading or finishing machine (incl. Clary, Johnson, or similar types); Concrete pump operator; Concrete batch plant operator, all types and sizes; Conductor, brakeman, or handler; Drilling machine, including water wells; Elevating grader operator - all types and sizes (except as otherwise classified); Field equipment serviceman; Highline cableway signalman; Kolman belt loader operator or similar, w/belt width 48" or over; Locomotive engineer (incl. Dinky-20 tons wt. and over); Moto-paver and similar type equipment operator; Operating engineer rigger; Pneumatic-tired scraper operator (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment) up to and including 12 cu. yds.; Power jumbo form setter operator; Pressure grout machine operator (as used in heavy engineering construction); Road Oil mixing machine operator; Roller operator-on all types asphalt pavement; Self-propelled compactor, with blade; Skip loader operator-all types with rated capacity over 1-1/2 but less than 4 cu. yds.; Slip form operator (power driven lifting device for concrete forms); Soil cement road mixing machine operator - single pass type; Stationary Central generating plant operator-rated 300 k.w. or more; Surface heater and planer operator; Traveling pipewrapping machine operator

Group 5-A: Heavy duty mechanic and/or welder; Pneumatic tired scraper, all sizes and types over 12 cu. yds. up to and incl. 45 cu. yds. MRC (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment); Tractor operator (Pusher,

UMI 87 ON 9CA 3811HV

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Bulldozer, Scraper) up to 400 net horsepower rating; Trenching machine operator

Group 6: Auto-Grade Machine (CMI and similar equipment); Boring machine operator (including Mole, Badger and similar type); Concrete mixer operator-paving type, and mobile mixer; Concrete pump operator with boom attachment (Truck mounted); Crane operator-crawler and pneumatic type, under 100 ton capacity MRC; Crawler type tractor operator - with boom attachment; Derrick operator; Forklift operator for hoisting personnel; Grade-all operator; Helicopter hoist; Highline cableway operator (less than 20 tons rated capacity); Mass excavator operator (150 Bucyrus Erie and similar types); Mechanical hoist operator (two or more drums); Motor grade operator - any type power blade; Motor grade operator with elevating grader attachment; Mucking machine operator; Overhead crane operator; Piledriver engineer (portable, stationary or skid rig); Pneumatic-tired scraper operator - all sizes and types (Turnapull, Euclid, Cat, D-W, Hancock & similar equipment over 45 cu. yds., MRC); Power driven ditch lining or ditch trimming machine operator; Skip loader operator - all types with rated capacity 4 cu. yds., but less than 8 cu. yds.; Slip form paving machine operator (including Gunnert, Zimmerman & similar types); Specialized power digger operator- attached to wheel-type tractor; Tower crane (or similar type) operator; Tractor operator (Pusher, Bulldozer, Scraper (400 net horsepower and over; Tugger operator (two or more); Universal equipment operator-Shovel, Backhoe, Dragline, Clamshell, etc., up to 8 cu. yds.

Group 7: Crane operator - pneumatic or crawler (100 ton hoisting capacity and over MRC rating); Helicopter pilot - FAA qualified when used in construction work; Highline cableway operator, over 20 ton rated capacity and using traveling head and tail tower; Remote control earth moving equipment operator; Skip loader operator - all types with rate capacity of 8 cu. yds. or more; Universal equipment - Shovel, backhoe, dragline, clamshell, etc., 8 cu. yds. and over

TRUCK DRIVERS

Group 1: Teamsters; Pickups; Station Wagons; Manhaul driver

Group 2: Dump or flatrack (2 or 3 axle); Water truck (under 2500 gals.); Buggymobile (1 c. y. or less); Fireman; Bus drivers, ambulance driver, self-propelled street sweeper; Warehouseman

Group 3: Dump or flatrack (4 axle); Dumptor or dumpster (less than 7 c. y.); Water truck (2500 gals. but less than 4000 gals.)

Group 4: Dumptor or dumpster (7 c. y. but less than 16 c. y.); Dump or flatrack (5 axle); Water truck (4000 gals. and over); Slurry type equipment or leverman; Flaherty spreader or similar type equipment or leverman; Transit mix (8 c. y. or less)

Group 5: Dump or flatrack (6 axle); Transit mix (over 8 c. y. but less than 10.5 c. y.); Rock truck (i.e. Dart, Euclid and other similar type end dumps, single unit) less than 16 c. y.))

Group 5A: Oil tanker or spreader and/or bootman, retortman or leverman

Group 6: Transit mix (over 10.5 c. y. but less than 14 c. y.); Ross Carrier fork lift or lift truck; Hydro lift, Swedish Crane Iowa 300 and similar types; Concrete pump (when integral part of transit mix truck); Dump or flatrack (7 axle)

Group 7: Dump or Flatrack (8 axles)

Group 8: Off-Highway Equipment Driver including but not limited to: 2 or 4 wheel power unit, i.e., Cat DW Series, Euclid, International and similar type equipment, transporting material when top loaded or by external means including pulling water tanks, fuel tanks or other applications under Teamster Classifications; Rock trucks (Dart, Euclid, or other similar end dump types) 16 c. y. and over; Ejectalls; Dumptor or dumpster (16 c. y. and over); Dump or flatrack (9 axles)

Group 8A: Heavy duty mechanic/welder; Body and fender man

Group 8B: Field Equipment serviceman or fuel truck driver

Group 8C: Heavy duty mechanic/welder helper

SUPERSEDEAS DECISION

STATE: Louisiana PARISH: Statewide
DECISION NO.: LA76-4143 DATE: Date of Publication
Supersedes Decision No. LA76-4131, dated July 23, 1976, in 41 FR 30533.
DESCRIPTION OF WORK: Building Construction in all Parishes, Residential Construction in Bossier, Caddo & Calcasieu Parishes and Construction of Highways, Roads, Streets and Parking Areas in all Parishes except St. Mary (except those let with a building contract).

CLASSIFICATION DEFINITIONS

LABORERS - ZONE 1

GROUP 1 - Building and labor construction
GROUP 2 - Stone mason helpers; mechanical tool operators; sewerman (bottom men, caulkers, tenders, joint wipers, hot pot, grade carriers, layers and ditchers 4 feet or over); tender of all crafts; sandblaster (nozzlemen); Sandblaster (pot tender); laying non-metallic pipe over 4 feet deep, including sewer pipe, drain pipe, and underground tile; septic tank diggers and installers, over 4 feet deep; gas & oil pipeline laborers and wrappers
GROUP 3 - Gunite tool operators

LABORERS - ZONE 2

GROUP 1 - Building laborer; rotary drill laborers; foundation drill crewmen
GROUP 2 - Mason mixer; plaster mixer; mechanical tool operator; sandblaster; laying concrete pipe, clay pipe, plastic pipe, asbestos cement pipe, casing pipe and corrugated metal pipe, as sewer pipe, drain pipe, and underground tile (caulkers, joint wrappers, hot pot and pipe layers); gas and oil pipeline laborers, wrappers and dopers

LABORERS - ZONE 3

GROUP 1 - Building and general laborer; tenders (carpenter, plaster, cement finisher, mason); tank and vessel cleaners
GROUP 2 - Air tool operator (except jackhammer); Interior of closed tanks and vessels power equipment
GROUP 3 - Mortar mixers and jackhammer operators
GROUP 4 - Plasterers
GROUP 5 - Plaster helpers; concrete cutters behind paving machine and puddlers; form setters and lines asphalt worker
GROUP 6 - Wiping joints, laying pipe and tile from pumpcrete
GROUP 7 - Interior of closed tanks and vessels manually

LABORERS - ZONES 4 & 5

GROUP 1 - Building and general laborers, carpenter tenders
GROUP 2 - Power tool operators (hammer men, tamper, vibrators, power buggies, concrete chippers or cutters, chain saw operators, etc.); pipelayers (non-metallic
GROUP 3 - Mason tenders, plaster tenders, cement mix (wet or dry) tenders, hod carrier tender; mortar mixers & cement mixers (wet or dry)

LABORERS - ZONE 6

GROUP 1 - Building laborers
GROUP 2 - Laborers handling steel pans, stone masons helpers, mechanical tool operators, sewermen (bottom men, caulkers, tenders, joint wipers, hot pot, grade carriers, layers and ditchers 4 feet and over), sand blaster (nozzlemen and pot tender), laying non-metallic pipe over 4 feet deep, septic diggers and installers over 4 feet deep, gas and oil pipeline laborers and wrappers
GROUP 3 - Gunite tool operators
GROUP 4 - Bricklayers tenders and mason tenders
GROUP 5 - Hod carriers using prime mover to serve a bricklayer; mortar mixers

LABORERS - ZONE 7

GROUP 1 - Common laborers
GROUP 2 - Jackhammermen, sewermen, mason tenders, plasterer tenders, stone masons helpers, vibratormen
GROUP 3 - Mortar mixers

LABORERS - ZONE 8

GROUP 1 - Common laborers; carpenter helpers; mason tenders (other than cement); plasterers' tenders; stone mason helpers; concrete workers; scaffold builders
GROUP 2 - Air tool operators (jackhammer, vibrator, and tamper), sewer pipe joiners and setters; concrete cutters; hod carriers; creosote materials handler; acid worker; mason tenders (cement); Mortar mixer (wet or dry); motorized buggy operator; water proofers (mastic); form setters (steel paving forms)
GROUP 3 - Chain saw operator
GROUP 4 - Asphalt raker, tamper, smoother and shovelers; sewer pipe layers; blaster helpers
GROUP 5 - Powdermen

LABORERS - ZONE 9

GROUP 1 - Building laborers
GROUP 2 - Mason tenders, plasterer tenders; Asphalt rakers, asphalt smoothers
GROUP 3 - Mortar mixers
GROUP 4 - Air jack operators, vibrator operators; Sewer pipe layers, sewer pipe wipers

LABORERS - ZONE 10

GROUP 1 - Laborers, tenders (bricknasons, stonemasons, cement masons, carpenter, plasterers); Stripping & dismantling; concrete form work; loading, unloading, carrying & handling steel & steel mesh; assisting to the setting of cut stone, granite or artifical stone; building scaffolds; shoring
GROUP 2 - Mechanical tool operator (air, electric, motor, engine, etc.); Sewer pipe layers; mortar mixers (hand or machine); gunite operator
GROUP 3 - Pipe dopers & burners

AREA COVERED BY LABORERS (BUILDING CONSTRUCTION) ZONES

ZONE 1 - St. Tammany (as far south as Bayou Lacombe and east to the Mississippi State Line at Pearlington), Tangipahoa (except that portion south of a line running due east from the western boundary of Tangipahoa Parish which follows the northern city limits of Independence, Louisiana to 20 miles east of U.S. Highway 51, than running south paralleling Highway 51 at a 27 mile distance to Lake Pontchartrain) & Washington Parishes
ZONE 2 - Acadia, Iberia, Lafayette, St. Landry, St. Martin, St. Mary & Vermilion Parishes
ZONE 3 - Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis & Vernon Parishes
ZONE 4 - All of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge & West Feliciana Parishes; Parts of Assumption, St. James, St. John the Baptist Parishes (north of a line drawn from the southern limits of the town of St. James in St. James Parish to the northern limits of the town of Napoleonville, in Assumption Parish & then directly west to the Parish line, all of St. James Parish except that part which is east of a line drawn from Lutcher, Louisiana to U.S. Highway 61 (Airline Highway) then west on U.S. 61 to Blind River and on a direct line to Manchac, Louisiana)
ZONE 5 - Livingston, St. Helena & Tangipahoa (south & west of a line running from the western parish line to a point directly east which touches the northern limits of the town of Independence, then directly south to Lake Pontchartrain) Parishes
ZONE 6 - Jefferson (except Grand Isle), Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist (on the west bank of the Mississippi River and the portion of St. John the Baptist on the east bank of the Mississippi River as far as the Sycamore Inn at Lutcher and north to Blind River and Manchac) & St. Tammany (north as far as Bayou Lacombe, east to the Mississippi State Line at Pearlington) Parishes

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS - ZONES 1, 2, 3 & 4

GROUP 1 - Oiler

GROUP 2 - Mechanic helper

GROUP 3 - Oiler-Driver

GROUP 4 - Scaleman

GROUP 5 - Air compressor; Asphalt Plant Operator; Bulldozers, D-4 and equivalent & under; Bullfloats; Concrete Spreader; Finishing Machines; Concrete Mixer (16-s or less); Concrete Saw; Distributors (Bitum Surface); Dowell Bar Machine; Farm-Type Tractor (with all attachments except backhoe); Fireman; Fork Lifts (other than setting steel, machinery or pipe); Hoist, 1 drum less than 4 stories; Kolum Buff Machine; Pull Cats; Pump (3" and over); Pump, concrete (under 6"); Rollers, except on asphalt or brick; Straddle Buggies; Sweepers on streets & roads (Motorized); Winch Truck, A-Frame (other than handling steel or pipe)

GROUP 6 - Asphalt Spreader; Backhoe, Bulldozer, over D-4 and equivalent; Cableways; Concrete Mixer, over 16-s; Cranes; Derricks; Ditching or Trenching Machines; Dragglines; Fork Lifts (setting steel, machinery or pipe); Front-End Loaders (except Farm-type tractors); Grease Serviceman; Hoist, 1 drum, 4 stories or more or 40 feet (on structures other than buildings); Hoist, 2 drums and over; Hydrolifts; Heavy Duty Mechanic; Motor Patrols; Piledrivers; Pump, concrete (6" & over); Road Pavers; Rollers on asphalt or brick; Scoopmobiles; Scrapers; Sideboom Cats; Shovels; Tractorvators; Welder, journeyman; Well Point System; Winch Cats (hoisting); Winch Truck, A-Frame (handling steel or pipe)

DECISION NO. LA76-4143

POWER EQUIPMENT OPERATORS - ZONE 5

GROUP 1 - Scale Operator; Oiler-Driver on Motor Crane; Batch Plant Operator

GROUP 2 - Pumps under 3 inch suction; Mechanic Helper

GROUP 3 - Oiler

GROUP 4 - Fireman

GROUP 5 - Combination Oiler-Compressor; Combination Oiler-Fireman; Asphalt Spreaders; Backhoes (all types); Bulldozers; Cableways; Cherry Pickers (all types); Concrete Mixers (over 1 sack); Cranes; Deck Winch (2 drums or over); Derricks; Ditching or trenching machines (riding type); Draglines; Dredges; Fork Lifts (other than farm type) outside warehouses; Foundation Drill; Front End Loaders (except farm type); Grease Serviceman; Hoist-1 drum (4 stories or more on buildings); Hoist-1 drum (over 40 feet on structures other than buildings); Hoist (2 drum or over); Locomotives (all types); Mechanic; Mixer Plant Operator-Central Mix; Motor Patrols; Piledrivers; Pull Cat; Pump Crete-6" and over discharge; Push Cat; Road Pavers; Rollers (Plant Mix Asphalt); Scrapers; Shovels; Sidebooms; Unit Operator; Welder, Journeyman; Well Point System; Whirleys; Winch Cats (Cat D-4 and over); Winch Truck with A-Frame (5 ton and over); Work Boats-requiring licensed operator

GROUP 6 - Bush Hog; Compressor; Concrete pump-under 6" discharge; Concrete Saw; Deck Winch (1 drum); Distributors; Ditching or trenching machines (non-riding type); Dowel Bar Machine; Farm-type tractors (when used to pull discs, grass-cutters, etc.); Hoist-1 drum (under 4 stories on buildings); Hoist-1 drum (40 feet or under on structures other than buildings); Kolum Buff Machines; Mixers (1 sack and under); Motorized street sweepers self propelled; Pump (3" and over); Test Pump-Internal combustion engine powered; Water Blast Pumps

GROUP 7 - Asphalt Plant Operator; Boom Trucks; Bull Floats; Concrete Spreader; Farm Type Front End Loaders; Finishing Machines (Roadway, riding type); Roller (other than plant mix asphalt); Straddle Buggies; Winch Truck with A-Frame (under 5 tons); Work Boat-not requiring licensed operator

POWER EQUIPMENT OPERATORS - ZONE 6

GROUP 1 - Snatch Cat; Pumps, 3 inch suction or more

GROUP 2 - Pumps, under 3 inch suction; Mechanic Helper

GROUP 3 - Oiler

GROUP 4 - Batch Plant Operator

GROUP 5 - Air Compressor; Asphalt Plant Engineer; Blade Grader; Distributor (Bitum Surfsce); Finishing Machine (Concrete, Paving); Hoist - 1 drum, less than 4 stories; Concrete Mixer under 16S; Oiler Driver; Pump Crete; Street & Road Sweeper; Roller (except on asphalt or brick); Roller, asphalt or brick (under 5 tons); Post-hole digger; Tractor operated Bush Hog and similar grass or bush cutting equipment

GROUP 6 - A-Frame Truck; Crew Boat Operator; Fireman; Fork Lift; Straddle Buggy; Traxcavator, Scoopmobile and similar front-end loading equipment with Scoop or Bucket under 1 cubic yard capacity; Locomotive; Well Point System; Unit Operator; Hoist - 1 drum, 4 stories or over

GROUP 7 - Backhoe; Cable Way; Concrete Mixer, 16S and up; Derrick; Crane; Dragline; Dredge; Equipment Maintenance Mechanic; Hoist - 2 drum; Locomotive Crane; Paving Mixer; Piledriver; Road Paver; Roller on asphalt or brick (5 tons or over); Shovel; Sideboom Cat; Bulldozer; Motor Patrol; Scraper; Hydrolift Crane, Hydro-lift Truck, Yard Crane, Cherry Picker, etc.; Foundation, Boring and Reaming Machine; Cement Stabilizer; Trenching Machine; Asphalt Spreader; Traxcavator & similar front end loading equipment with scoop or bucket of 1 cubic yard or more capacity; Tug Boat Operator; Turnapull, Euclid, DW-10 & other similar self-loading earth moving equipment; Concrete Pump (not Pump Crete)

DECISION NO MA76-2101

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; D-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day

FOOTNOTES:

a. $.30 per man per week

b. Employer contributes 4% of basic hourly rate for 5 months or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay credit.

c. Holidays: A through F.

d. Paid Holidays: A through F, Washington's Birthday and Patriots Day providing employee has been employed for a period of five (5) working days prior to the holiday and the regular scheduled working day preceding and following the holiday.

e. July 4th and Labor Day provided worker employed 7 days before holiday

f. July 4th and Labor Day - $08 per hour employer contribution to make two paid holidays.

MASS-1 - 2-3 L

NOTICES

LABORERS

Group 1: Laborers - General or Construction; Demolition (cleaning of brick, lumber, etc.); Dry packing of concrete and filling of formbolt holes; Gas and Oil Pipeline; Laborer - temporary water lines (portable type); Window Cleaner

Group 2: Cutting Torch Operator (demolition); Tarman and Mortar Man; Kettleman; Potman and man applying asphalt, Lay-kold Creosote, Lime, and similar type materials

Group 3: Guinea Chaser

Group 4: Fine Grader, highway and street paving, airport, runways and similar type heavy construction; Landscape Gardener and Nursery-man

Group 5: Laborers - packing rod steel and pans

Group 6: Underground Laborer including Caisson Bellowers

Group 7: Chucktender (except tunnels); Scaler; Tank Scaler and Cleaner

Group 8: Cesspool Digger and Installer

Group 9: Concrete Curer-impervious Membrane and Oiler of all materials; Riprap Stonepaver; Sandblaster (pot tender); Making and Caulking of all non-metallic Pipe Joints

Group 10: Operators and Tenders of Pneumatic and Electric Tools, Vibrating Machines, hand-propelled Trenching Machines, Impact Wrench Multi-plate and similar mechanical tools not separately classified herein; Asphalt Raker, Ironer, Spreader, Luteman; Buggymobile Man; Cement Dumper (on one yard or larger mixers and handling bulk cement); Concrete Saw Man excluding Tractor type, cutting, scoring old or new concrete; Concrete Core Cutter; Gas and Oil Pipeline Wrapper-pot Tender and Form Man; Operator of Cement Grinding Machine; Roto-scraper; Tree Climber, Faller, Chain Saw Operator, Pittsburgh Chipper and similar type brush shredders

Group 11: Rock Slinger; Scaler (using Bos'n Chair or Safety Belt or Power Tools)

Group 12: Driller and/or Pavement Breaker

Group 13: Oversize Concrete Vibrator Operator, 70 lbs. and over; Laying of all non-metallic pipe, including sewer pipe, drain pipe and underground tile

Group 14: Gas and Oil Pipeline Wrapper - 6 inch pipe and over

LABORERS (Cont'd)

Group 15: Cribber or Shorer, Lagging, Sheeting, Trench Bracing, hand guided Lagging Hammer; Powerman-blaster - all work of loading holes, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing

Group 16: Steel Headboardman

Group 17: Sandblaster (Nozzleman); Driller (Core, Diamond, or Wagon, Joy Driller Model TW-M-2A, Gardner-Denver Model DH 163 and similar type drills)

Group 18: Head Rock Slinger

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Air Compressor, Pump or Generator; Engineer Oiler and Signal Man; Heavy Duty Repairman's Helper; Switchman or Brakeman

Group 2: Concrete Mixer, Skip type; Conveyor and Beltman; Fireman; Generator, Pump or Compressor (2-5 units inclusive, over 5 units, $0.10 per hour for each additional unit up to 10 units, portable units); Generator, Pump or Compressor Plant; Rotary Drill Helper (oilfield type); Skiploader, Wheeltype, Ford, Ferguson, Jeep or similar type, 3/4 yard or less (w/o dragtype attachments); Temporary Heating Plant; Truck Crane Oiler; Hydrostatic Pump

Group 3: A-Frame or Winch Truck; Dinky Locomotive or Tunnel Motor; Elevator Hoist; Equipment Greaser; Ford, Ferguson or similar type with drag-type attachments); Hydra-hammer or similar type equipment; Power Concrete Curing Machine; Power Concrete Saw; Power Driven Jumbo Form Setter; Rodman and Chainman; Ross Carrier; Self-propelled Tar Pipelining Machine; Stationary Pipe Wrapping and Cleaning Machine; Towblade Operator

Group 4: Asphalt Plant Fireman; Boring Machine; Boxman or Mixer Box (concrete or asphalt plant); Derrickman (oilfield type); Drilling Machine (including water wells); Highline Cableway Signalman; Instrumentman; Locomotive Engineer; Power Sweeper; Roller, compacting; Screed; Trenching Machine (up to 6 feet depth)

Group 5: Asphalt or Concrete Spreading, Mechanical Tamping or Finishing Machine - Roller (all types and sizes), Soil, Cement, Asphalt - Finish; Asphalt Plant Engineer; Deck Engine; Grade Checker; Heavy Duty Welder; Machine Tool; Pavement Breaker; Pneumatic Heading Shield - Tunnel; Road Oil Mixing Machine; Forklift, under five tons; Rubber-tired, heavy duty equipment (Oshkosh, DW, Euclid, LeTourneau, LePlant-Choate, or similar type equipment with any type attachments); Skiploader, Wheeltype, over 3/4 yards, up to and including 1½ yds.; Slip Form Pump (power driven hydraulic lifting device for concrete forms); Tractor drag type shovel, Bulldozer, Tamper, Scraper and Push Tractor

NOTICES

DECISION NO. NV76-5080

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 6: Combination Heavy Duty Repairman and Welder; Concrete Mixer - Paving; Concrete Mobile Mixer; Concrete Pump or Pumpcrete Gun; Crushing Plant Engineer; Elevating Grader; Heavy Duty Repairman; Highline Cableway; Hoist (Chicago Boom and Mine); Kolman Belt Loader and similar type; Lift Slab Machine; Loader-Athey, Euclid, Hancock, Sierra or similar type; Motor Patrol (any type or size); Multiple Engine-earth moving machinery; Party Chief; Pneumatic Concrete Placing Machine - Hackley-Presswell or similar type; Rotary Drill, excluding Caisson type; Skiploader, Wheeltype, over 1½ yards; Surface Heater and Planer; Tractor Loader - crawler type - all types and sizes; Tractor, with boom attachments; Traveling Pipe Wrapping, Cleaning and Bending Machine; Trenching Machine (over 6 feet depth); Universal equipment (Shovel, Backhoe, Dragline, Clamshell, Derrick, Derrick Barge, Crane, Piledriver and Mucking Machine); Forklift, over 5 tons

Group 7: Driller Operator; Fishing Tool Engineer

Group 7-A: Derrickman

Group 7-B: Motorman

Group 7-C: Drillers Helpers

TRUCK DRIVERS

Group 1: Light Duty Driver; Warehouseman

Group 2: Bootman; Truck Greaser; Light Vehicle Dispatcher

Group 3: Tireman; Warehouse Clerk

Group 4: Heavy Duty Driver; Forklift Driver; Equipment Parts; Stockroom Clerk

Group 5: Extra Heavy Duty Driver

SUPERSEDEAS DECISION

STATE: New York COUNTY: Nassau & Suffolk
DECISION NO.: NY76-3224 DATE: Date of Publication
Supersedes Decision Nos. NY76-3196, dated June 25, 1976 in 41 FR 26492

DESCRIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories), heavy and highway construction.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $7.00 per day to Annuity Fund.

b. Holidays: A through F; Lincoln's Birthday, Washington's Birthday; Columbus Day; Armistice Day & Election Day.

c. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A through F; Washington's Birthday, Xmas Eve and Good Friday, providing employee has worked 30 full days during the 90 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.

e. Employer contributes $3.50 per day to Annuity Fund.

f. Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veteran's Day, (providing employee works two days in the calendar week in which the holiday falls and each remaining workday during such calendar week.)

g. For each 15 days worked within the contract year an employee will receive one day's vacation with pay, with a maximum vacation of theree weeks per year.

h. Paid Holiday: New Year's Day & Xmas Day providing the employee works the preceding and following the holiday.

i. Paid Holiday: St. Patricks Day.

BUILDING, HVY. & HWY CONSTRUCTION

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. Holidays: A through F.

c. Holidays: A through F; Washington's Birthday and Good Friday, X-Mas Eve, providing employee has worked 30 full days the 90 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.

d. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election of Governor of New York State (provided employee works the day before and the day after the holiday).

e. One week vacation after one year's work.

f. Labor Day and Memorial Day paid holidays, provided employee is on the payroll the week before and the week after the holiday.

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION

Group I - Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker (over 5 tons capacity), concrete pump (5" or over crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated, (gradall or similar), fork lift (factor rated 15 ft. and over), front end loader 4 c.y. and over), head tower (sauerman or equal) hoist (2 or 3 drum), mine hoist, mucking machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is needed, he shall be an oiler), tractor drawn belt type loader, truck crane, tunnel shovel.

Group II - Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity concrete paver (over 16S), concrete pump (under 5"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 5 c.y.), hi-pressure - boiler (15 lobs. and over), hoist (one drum) Kolman plant loader and similar type loaders (if another man is required to clean screen or to maintain the equipment, he shall be an oiler), locomotive maintenance/engineer/greaseman/welder, mixer (for stablized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

DECISION NO. NY76-3220

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION CONT'D.

Group III - A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1200 C.F.M. but not to exceed 2000 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type of combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, hammers (hydraulic-self-propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point.

Group IV - Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 C.F.M. combined capacity), compressor (any size, but subject to other provisions for compressors) dust collectors, generator pumps, welding machines (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (self-propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, oiler parapet- (concrete or pavement grinder), poxer broom (towed), power heaterman, revinius widener, shell winder, steam cleaner, tractor.

CLASS C
All rock or drilling machine operators (except quarry master and similar type), acetylene torch op., asphalt raker, powderman.

CLASS D
Blasters, form setters, stone or granite curb setters.

BUILDING CONSTRUCTION - POWER EQUIPMENT OPERATORS :

GROUP I - Cranes (cable and hydraulic, climbing and tower)
- I - A 121 ft. and under
- I - B 121 ft. and 151 ft.
- I - C 151 ft. and 201 ft.
- I - D 201 ft. and 251 ft.
- I - E 251 ft. and 301 ft.
- I - F 301 ft. and 351 ft.
- I - G 351 ft. and 401 ft.
- I - H 401 ft. and 451 ft.

GROUP II - Air tugger, derrick, dredge, big generator plant, cableway, backhoe, clamshell, dragline, shovel and similar machines over 3/8 cubic yards capacity (factory rating), bridge crane (all types), caisson auger and similar type machine, forklift (with factory rating of 15 ft. or more of lift), hoist (on steel erection), mucking machines, ross carrier (and similar types), three drum hoist (when all three drums are in use)

GROUP III - A frame truck, backfilling machine, hoist (1 or 2 drums), barber green and similar type machine, maintenance engineer (mechanic), mechanical slurry machines (all kinds), belt crete and similar type machines, bituminous spreading machine, post hole digger, bulldozer, carry all type scraper, core drill, pumps, (regardless of motive power) no more than (4) in number not to exceed 20 inches in total capacity), fine grade and finish rollers, side boom tractor, stone crusher, compressors: 4 not to exceed 2000 cfm combined capacity 3 or less with more than 1200 CFM, but not to exceed 2000 CFM, concrete mixer, concrete placer, concrete pumps, tournadozer and similar types, crane-hoe-shovel 3/8 yd. capacity or less (factory rating), tournapull and similar types, dinky locomotives (all types), tower-mobile and similar types, elevating grader, elevator trenching machines, fine grade machines (all kinds), welder, front end loader, forklift with factory rating of less than 15 feet of lift, well drill, well point system, high pressure boiler, Exception: single electric pumps up to and including 4 inches not be manned.

GROUP IV - Any combination (not to exceed 3 pieces of equipment), welding, machine or mechanical conveyor (over 12 ft in length), fireman, belt crete generator, mechanical heater, roller (fill & grade), pumps (regardless of motive power) no more than (3) in number, not to exceed twelve inches total capacity, rubber tired tractor, compressor 3 or less, not to exceed 1200 CFM combined capacity, longitudinal float, Exception: single gasoline driven welding machines up to 300 amps need not be manned.

GROUP V - Truck crane oilers

DECISION NO. NY76-3232

FOOTNOTES:

a. Holidays: A through F

b. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Armistice Day, Columbus Day and Election Day.

c. Employer contributes 6.4% of basic hourly rate for 5 years or more service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A through F; Washington's Birthday; X-Mas Eve; and Good Friday, providing employee has worked 30 full days during the 90 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.

e. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election of Governor of New York (provided employee works the day before and the day after the holiday).

f. Employer contributes $7.00 per day to Annuity Fund.

g. Employee shall receive 2 hours time off with pay on Election Days.

h. Holiday A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veterans' Day, providing employee works one day in the calendar week in which the holiday falls; and further providing that the holiday falls on a regular work day.

i. Employer contributes $.60 per hour to a trust fund and $.15 per hour to an annuity fund.

j. Employer contributes $.20 per hour to an annuity fund.

Page 6

DECISION NO. NY76-3232

FOOTNOTES: (CONT'D)

k. Employer contributes $.73 per hour to a Security benefit fund.

l. Employer contributes $1.08 per hour to a combined health, welfare and pension fund.

m. Employer contributes $.45 per hour to an annuity fund.

n. Paid Holiday, St. Patricks Day.

DECISION NO. NY76-3232

POWER EQUIPMENT OPERATORS - BUILDING AND HEAVY COSTUCTION HIGHWAY, ROAD, STREET & SEWER

GROUP 1 - Helicopters pilot/engineer.

GROUP 2 - Autograde-combination subgrader. base MTL spreader & base trimmer (CMI & similar type); autograde placer-trimmer-spreader-combination (CMI & similar types); autograde slip form paver (CMI & similar types); back hoes (all types, including all combination hoe loaders); central power plants (all types); concrete paving machines; cranes (all types, including overhead & straddle travelling type); cranes, gantry; derricks - land or floating (building & heavy construction rate only). drillmaster. quarry master (down the hole drill); draglines; elevator graders; engines. large diesel (1625 HP) and staging pump; front end loaders (5 yds & over); gradalls; grader. rago; helicopters co-pilot and communication engineer; jacks, screw air hydraulic power operated unit or console type (not hand jack or pile load test type); locomotive (large); mucking machines; pavers (21E and over); paver. rasinous. Broyhill; pavement and concrete breaker (i.e. superhammer); pavement breaker truck mounted; piledriver; scooper (loader and shovel) Koehring; shovels; treechopper with boom; trench machines.

GROUP 3 - Pump, staging.

GROUP 4 - A-frame, boom attachment on loaders; boring & drilling machines; brush chopper, chipper & shredder; cableways; carryalls; cherry pickers - 6 tons & under (over 6 tons - crane rate applies); concrete pump; concrete pump system, pumpcrete. squeezecrete & similar types; conveyors. 125' & over; economobiles (hilo. lull. hyster similar type equipment); forklifts; front end loaders (2yds but less than 5yds); groove cutting machines (ride or type); heater planer; hoist (Chicago Boom); Pans. LeTourneau. DW's. Ukes, pumpcrete-unit type; pumpcrete machines. squeezecrete & concrete pumping; scrapers-LeTourneau. DW's Ukes; side booms; squeezecrete; "straddle" carrier. Ross and similar types; winch trucks (hoisting).

DECISION NO. NY76-3232

POWER EQUIPMENT OPERATORS - BUILDING AND HEAVY CONSTRUCTION HIGHWAY, ROAD STREET & SEWER

GROUP 5 - Aerial platform (used as hoist); hoists all types except Chicago Boom type (building & heavy construction rate only); elevator or house cars (building and heavy construction rate only); roof hoists.

GROUP 6 - Asphalt spreaders; bridge deck finisher; grader, finish only; rollers-blacktop.

GROUP 7 - Asphalt curbing machines; asphalt plant engineer; autograde tube finisher & texturing machine (CMI & similar types); autograde curecrete machine (CMI & similar types); autograde curb trimmer & sidewalk shoulder, slipform (CMI & similar types); barbending machines (power); batchers, batching plant & crusher on site; bet convey or systems; boilers and steam jennies (building & heavy construction rate only); boom type skimmer machines (building & heavy construction rate only); car dumpers (railroad); compressor and blower type units; concrete breaking machines; concrete finishing machines; concrete saws & cutters (ride on type); concrete spreaders-hetzel, recomatic & similar types; concrete vibrators (highway, road, street & sewer construction rate only); conveyors, under 125 ft.; crushing machines; ditching machine, small (ditch witch or similar); drill doctor (duties include dust collector); dope pots (mechanical with or without pump); dumpsters; fine grade machine (large type); front end loaders (1 yd & over but less than 2 yds) - highway, road, street & sewer construction rate only; front end loaders (under 2 yds) - building and heavy construction rates only; generators; giraffe grinders; graders and motor patrols; gunnite machines (excluding nozzle); hammer vibratory (in conjunction with generator); hoppers; hopper doors (power operated); ladders (motorized) - building & heavy construction rate only; laddervator; lights, portable generating light plants; locomotive (dinky type); mechanic; mixers (excepting paving mixers); motor patrols & graders; pavers (under 21E); pavement breakers - small, self-propelled ride on type (also maintains compressor or hydraulic unit); pipe bending machine (power); pitch pump; plaster pump (regardless of size) - building & heavy construction rate only; post hole digger; rod bending machines (power); scales, power; seaman pulverizing mixer; silos; skimmer machines (boom type) - highway, road, street & sewer construction rate only; steam jennies and boilers; steel cutting machines, services & maintains; vibrating plants (used in conjunction with unloading); welder and repair mechanic

UMI

DECISION NO. NY76-3232

POWER EQUIPMENT OPERATORS - BUILDING AND HEAVY CONSTRUCTION HIGHWAY, ROAD STREET & SEWER

GROUP 8 - Compressors (2 or 3 within a total distance of 100' constitutes a battery) - building & heavy construction rate only; welding machines, gas or electric converters of any type - (2 or 3 in battery) - building and heavy construction rates only; welding system, multiple (rectifier transformer type) - building & heavy construction rate only.

GROUP 9 - Brooms & sweepers; bulldozer, D5 and over; fireman; sprinkler and water pump trucks (used on job site or in conjunction with jobsite); stone spreaders; sweepers & brooms; tractors, D8 & over; water and sprinkler trucks (used on job site or in conjunction with job site).

GROUP 10 - Compressors (2 or 3 within a total distance of 100' constitutes a battery) - highway, road, street and sewer construction rate only.

GROUP 11 - Front end loaders (under 1 yd.) - highway, road, street & sewer construction rate only.

GROUP 12 - Bulldozer under D5; rollers - grade fill or stone base; tractors, under D8.

GROUP 13 - Compressor (single); heaters (Nelson or other type including propane, natural gas or flow type units); pumps (4 inch suction & over including submersible pumps); pumps (2 of less than 4 inch suction including submersible pumps); pumps, diesel engine & hydraulic (immaterial of power) - highway, road, street & sewer construction rate only; temporary heating plant (Nelson or other type, including propape, natural gas or flow type units); welding machines, gas or electric converters of any type - single (building & heavy construction rate only); welding machines, gas or electric converters of any type (2 or 3 in battery) - highway, road, street & sewer construction rate only; wellpoint systems (including installation and maintenance).

DECISION NO. NY76-3232

POWER EQUIPMENT OPERATORS - BUILDING AND HEAVY CONSTRUCTION HIGHWAY, ROAD STREET & SEWER

GROUP 14 - Concrete spreaders, (small type) convey or loaders (not including elevator graders) - highway, road, street & sewer construction rate only; farm tractors (highway, road, street & sewer construction rate only); fertilizing equipment; fine grade machine (small type) - highway, road, street and sewer construction rate only; form line graders (small type) - highway, road, street & sewer construction rate only; grease, gas, fuel and oil supply trucks; mixers, concrete small (highway, road, street and sewer construction rate only); mucking equipment; road finishing machines (small type) - highway, road, street and sewer construction only; seeding equipment; tamping machines, vibrating self-propelled; welding machines, gas or electric converters of any type-single (highway, road, street and sewer construction rate only).

GROUP 15 - Assistant engineer/oiler; mechanics helper; tire repair and maintenance.

DECISION NO. NY76-3232

POWER EQUIPMENT OPERATORS - BUILDING CONSTRUCTION:

GROUP I: Backhoe Oliver 88, Fordson, dynahoe, dual purpose & similar machine, Barber Green loader-Euclid loader or similar type, cherry picker (cableway), compressor (Steel erection), conway or similar mucking machines, dragline, gradall, shovel, backhoe, etc., (crawler or truck), front end loaders, hydraulic boom, Jersey spreader, Letourneau or Tournapull (scrapers over 20 yds. struck), mucking machines, pavement breaker (air ram), paver (concrete), pulsemeter, push button (buzz box) elevator, road boring machine, road mix machines, Ross carrier & similar machines, post hole digger, shovel (tunnels), side boom, spreader (asphalt), scoopmobile-tractor-shovel over 1-½ yds., trenching machines, tractor type demolition equipment, winch truck "A" frame

GROUP II: Compactor self-propelled, grader, bulldozer D7 & similar tractors with a draw bar horsepower of 100 & over maintenance engineer, mechanic (outside) all types, welder, scraper-20 yds. struck & under, machine pulling sheep's foot roller, etc., roller 4 ton and over, vib. roller

GROUP III: Asphalt plant, boiler (high pressure), bulldozer D6 & similar tractors with a draw bar horsepower less than 100, compressor, compressor plant, concrete mixing plants, concrete pump, conveyor belt machine-irrespective of motor size, fireman, forklift, forklift (electric), joy drill or similar tractor drilling machine, loader-1-¼ yds., & under, lighting unit (portable & generator), locomotive (all sizes), mixer concrete-21E & over, portable asphalt plant, portable batch plant, portable crusher, quarry master, stone cursher, welding machine (steel erection excavation), well drilling machine, well point system

GROUP IV: Air tractor drill, batch plant, bending machine, concrete breaker, concrete spreader, compressor to 125 cu. ft., curb cutter machine, dust collector, farm tractor (all types), finishing machine concrete, material hopper-sand-stone-cement, mixer-concrete-under 21E, mulching grass spreader, heater-all types, pump, pump station (water & sewer), pump-gypsum, etc., concrete, pump-plaster roller under 4 ton, spreading & fine grading machine, steam Jenny, steel Jenny, steel cutting machine, sweeper, syphon pump air steam, tar joint machine, Turbo jet burner or similar equipment vibrator (1 to 5) fine grading machine

GROUP V: Concrete saw, mechanic's helper, oiler (fuel truck), oiler (grease truck), paint compressor, welder's helper

GROUP VI:
A. Master mechanic
B. Helicopter hoist op.
C. Oiler, asphalt paver, utility man
D. Welder - certified
E. Second engineer on cranes 30 ton and over
F. Cable splicer
G. Helicopter pilot
H. Helicopter signalman
I. Engineer, all tower cranes, all climbing cranes and all cranes of 100 ton capacity or greater (3900 maintowac or similar) irrespective of manufacturer and regardless of how the same is rigged (except for pile rigs).

POWER EQUIPMENT OPERATORS - BUILDING CONSTRUCTION:

GROUP VI (CONT'D):
J. Cranes (crawlers or truck) 100 ft. but less than 149 ft
K. Cranes (crawlers or truck) 149 ft. and over
L. Loaders op. (over 5 yd. capacity)
M. Shovel op. (over 4 yd. capacity)

GROUP VII: Concrete-portable hoist, crane & hoist engineer-steel (concrete, material, super structure, sub-structure), derrick (stone-steel), elevator & cage, engineer-pile driver, overhead crane, power house plant, telephies, whirly, hoist (single, double or triple drum), hoist (portable mobile unit), hoist engineer-concrete (crane, derrick, mine hoist), hoist engineer material

HEAVY & HIGHWAY - POWER EQUIPMENT OPERATORS:

GROUP I: Auger, auto grader, backhoe Oliver 88, Fordson, dynahoe, dual purpose and similar machines, barber green loader-euclid loader or similar type, central mix plant operator, cherry picker (cableway), compactor with blade, compressor (steel erection), concrete portable hoist, C.M.I. or similar Conway or similar mucking machines, Crane (crawler or truck) dragline, gradall, shovel backhoe, etc., derrick (stone-steel), elevator & cage, front end loaders, hoist single, double, triple drum, hoist portable mobile unit, hoist engineer-concrete (crane-derrick-mine hoist), hoist engineer-material, hydraulic boom, LeTourneau or Tournapull (scrapers over 20 yards struck), mucking machines, overhead crane, paver (concrete), power house plant, pulsometer, push button (buzz box) elevator, road mix machines, Ross carrier and similar machines, shovel (tunnels), side boom, spreader (Asphalt), scoopmobile-tractor-shovel over 1½ yards, trenching machines, telephies, tractor type demolition equipment, whirly, winch truck "A" frame

GROUP II: Compactor self-propelled, grader, bulldozer D7 and similar tractors with a draw bar horsepower of 100 and over, maintenance engineer, mechanic (outside) all types, welder, scrapers 20 yards struck and under, shop foreman, vibratory roller, etc., roller 4 ton and over

GROUP III: Asphalt plant, boiler (high pressure), bulldozer D6 and similar tractors with a draw bar horsepower less than 100, compressor, compressor plant, concrete pump, conveyor belt machine-irrespective of motor size, firemen, forklift, forklift (electric), joy drill or similar tractor drilling machine, loader-1½ yds. and under, lighting unit (portable & generator), locomotive (all sizes), machine pulling sheeps foot roller, mixer concrete-21E and over, portable asphalt plant, portable batch plant, portable crusher, quarry master, stone crusher, welding machine (steel erection-excavation), well drilling machine, well point system

GROUP IV: Air tractor drill, batch plant, bending machine, concrete breeker, concrete spreader, compressor to 125 cu. ft., curb cutter machine, dust collector, farm tractor (all types), finishing machine-concrete, material hopper-sand-stone-cement, mixer-concrete-under 21E, mulching grass spreader, heater-all types, pump 4 inches and over, pump station (water & sewer), pump-gypsum, etc., pump-plaster, roller under 4 ton, shop mechanic (not employed on job site), spreading & fine grading machine, steam jenny, steel cutting machine, sweeper, syphon pump-air-steam, tar joint machine, Turbo jet burner or similar equipment, vibrator (1 to 5), fine grading machine

GROUP V: Concrete saw, mechanic's helper, oiler, oiler (fuel truck), oiler (grease truck), stockroom or stockroom attendant, paint compressor, pump under 4" or any combination not equal to 4". roller motorized (walk behind), welder's helper

POWER EQUIPMENT OPERATORS Building Construction	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
Class 1	$10.03	.95	.60	a	.10
Class 2	9.53	.95	.60	a	.10
Class 3	8.51	.95	.60	a	.10

FOOTNOTE:

a. Paid Holidays: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day and Christmas Day, providing employee has worked 5 consecutive working days before and the working day after the holiday.

POWER EQUIPMENT OPERATORS: Building Construction

Class 1: Asphalt and blacktop roller; Automated concrete spreader (CMI or equivalent); Automated fine grade machine (CMI); Backhoe; Belt placer; Blacktop spreader (such as Barber Greene and BawKnox) Blacktop plant (automated); Blast or rotary drill (truck or cat mounted); Boom truck; Cableway; Caisson auger; Carry-all-scraper-self loading; Central Mix plant (automated); Cherry picker over five (5) ton capacity; Compressors; Pump; Generator or welding machine (when used in a battery of not more than four (4); Crane; Crusher-cock; Derrick; Diesel power unit; Drag-line; Dredge; Dual drum paver; Elevating grader (self-propelled to towed); Elevator hoist - two cage; Excavator - all purpose - hydraulically operated; Fork lift (factory rating 15 ft. or more); Front end loader (4 c.y. and over); Gradall; Grader (power); Head tower (Saur man or equal); Hoist (2 or 3 drums); Locomotive; Maintenance engineer; Maintenance welder; Nine hoist; Mucking machine or mole; Overhead crane fixed permanent; Pile driver; Quarry Master or equivalent; Refrigeration equipment - for soil stabilization; Shovel; Side boom; Slip form paver; Straddle buggy (Ross carrier, Lumber carrier) Tractor drawn belt type loader (Euclid loader); Trenching machine (digging capacity of over 4 ft. depth); Truck crane operator; Tunnel shovel; Vibro or sonic hammer controls (when not mounted in proximity to the rig operator)

POWER EQUIPMENT OPERATORS (Cont'd)
Building Construction

Class 2: "A" Frame truck; Blacktop plant (non-automatic); Boring machine; Bulldozer; Cage hoist; Carry-all scraper; Central mix plant (non-automated); Cherry picker five (5) tons and under; Compressor (315 c.f. and over); Concrete paver (single drum over 16S); Concrete pump; Core boring machine; Drill rigs-tractor mounted; Elevator - as a material hoist; Fork lift (factory rating less than 15 ft.); Front end loader (under 4 cu. yds.); Gunnite machine; High pressure boiler (15 ibs. and over); Hoist (one drum); Hydraulic breaking hammer; (Drop hammer); Kalman plant loader (screening gravel); Maintenance grease man; Mixer for stabilized base - self-propelled (seaman mixer); Monorail machine; Parapet concrete or pavement grinder post hole digger (truck or tractor mounted); Post driver (truck or tractor mounted); Power sweeper (Wayne or similar); Pump 4" and over; Pump-crete or squeeze-crete; Road widner (front end of grader or self-propelled); Shell winder (motorized); Snorkel (overhead arms); Roller; Trenching machine (digging capacity of 4 ft. or less); Tugger hoist vibro tamp; Well drill; Well point system (submersible pumps when used in lieu of well-point system); Winch (motor driven); Winch cat; Winch truck

Class 3: Compressor (under 315 cu. ft.); Concrete paver or mixer (under 16S); Concrete pavement spreaders and finishers (not automated); Conveyor (over 12 ft.); Electric submersible pump (4" and over); Farm tractor with or without accessories; Fine grade machine (not automated); Fireman; Form tamper; Generator (2,500 watts and over); Hydraulic pump; Mechanical heaters - more than two (2) mechanical heaters or any mechanical heater or heaters whose comolned output exceeds 640,000 BTU per hour (manufacturer's rating); Mulching machine; Oiler; Power driven welding machine - 300 amp. and over (other than all electric); One welding machine under 300 amp. will not require an engineer unless in a battery); Power heaterman (hay drier) Pump (under 4"); Revinius widner (road widener); Steam cleaner or Jenny; Tractor with or without towed accessories

LABORERS: HEAVY AND HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
CLASS A	$ 7.44	.60	.85	a	
CLASS B	7.64	.60	.85	a	
CLASS C	7.84	.60	.85	a	
CLASS D	8.04	.60	.85	a	

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; E-Christmas Day.

FOOTNOTE:

a. Paid Holidays A through F, provided the employee has worked the day before and after the holiday.

LABORERS: HEAVY AND HIGHWAY CONSTRUCTION:

CLASS A
Laborers, drill helper, flagmen, outboard and hand boats.

CLASS B
Bull float, chain saw, concrete aggregate, bin, concrete bootman, gin buggy, hand or machine vibrator, jackhammer, mason tender, mortar mixer, pavement breaker, handlers of all steel mesh, small generators for laborers' tools, installation of bridge drainage pipe, pipelayers, vibrator type rollers, tamper, drill doctor, tail or screw op. on asphalt paver, water pump op. (1½" and single diaphragm), nozzle (asphalt, gunnite, seeding and sand blasting), laborers on chain link fence erection, rock splitter and power unit, pusher type concrete saw and all other gas, electric, oil and air tool operators, wrecking laborer.

CLASS C
All rock or drilling machine operators (except quarry master and similar type), acetylene torch op., asphalt raker, powderman.

CLASS D
Blasters, form setters, stone or granite curb setters.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $.40 per hour to an Supplemental Unemployment Benefit Fund.

b. Paid Holidays A through F; providing the employee works the working day before and after the holiday

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION

Group I - Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker (over 5 tons capacity), concrete pump (8" or over) crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated, (gradall or similar), fork lift (factor rated 15 ft. and over), front end loader 4 c.y. and over), head tower (sauerman or equal) hoist (2 or 3 drum), mine hoist, mucking machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is needed, he shall be an oiler), tractor drawn belt type loader, truck crane, tunnel shovel.

Group II - Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity concrete paver (over 16S), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lobs. and over), hoist (one drum) Kolman plant loader and similar type loaders (if another man is required to clean screen or to maintain the equipment, he shall be an oiler), locomotive maintenance/engineer/greaseman/welder, mixer (for stablized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION CONT'D.

Group III - A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1200 C.F.M. but not to exceed 2000 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type of combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point syatem, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, hammers (hydraulic-self-propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point syatem), tractor with towed accessories, vibratory compactor, vibro tamp, well point.

Group IV - Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 C.F.M. combined capacity), compressor (any size, but subject to other provisions for compressors) dust collectors, generator pumps, welding machines (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (self-propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, oiler parapet- (concrete or pavement grinder), power broom (towed), power heaterman, revinius widener, shell winder, steam cleaner, tractor.

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
CLASS 1	$7.69	.65	.60	a	
CLASS 2	7.74	.65	.60	a	
CLASS 3	7.79	.65	.60	a	
CLASS 4	7.94	.65	.60	a	
CLASS 5	8.09	.65	.60	a	

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTE:

a. Paid Holidays A through F, provided the employee has worked the working day before and after the holiday.

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION:

CLASS 1
Warehouseman, yardmen, truck helpers, pickups, panel trucks, flatboy material trucks (straight jobs), single axel dump trucks, dumpsters, material checkers and receivers, greasers, truck firemen, mechanic helpers and parts chaser.

CLASS 2
Tandems, batch trucks, mechanics and dispatcher.

CLASS 3
Semi-trailers, low-boy trucks, asphalt distributor trucks, agitator, mixer trucks and dumperete type vehicles, truck mechanic.

CLASS 4
Specialized earth moving equipment - euclid type or similar off-highway equipment, where not self loaded, and straddle (ross) carrier.

CLASS 5
Off-highway tandem back-dump, twin engine equipment and double-hitched equipment where not self loaded.

FOOTNOTE:

a. Paid Holidays A through F, provided the employee has worked the day before and after the holiday.

LABORERS: HEAVY AND HIGHWAY CONSTRUCTION:

CLASS A
Laborers, drill helper, flagmen, outboard and hand boats.

CLASS B
Bull float, chain saw, concrete aggregate, bin, concrete bootman, gin buggy, hand or machine vibrator, jackhammer, mason tender, mortar mixer, pavement breaker, handlers of all steel mesh, small generators for laborers' tools, installation of bridge drainage pipe, pipelayers, vibrator type rollers, tamper, drill doctor, tail or screw op. on asphalt paver, water pump op. (1½" and single diaphragm), nozzle (asphalt, gunnite, seeding and sand blasting), laborers on chain link fence erection, rock splitter and power unit, pusher type concrete saw and all other gas, electric, oil and air tool operators, wrecking laborer.

CLASS C
All rock or drilling machine operators (except quarry master and similar type), acetylene torch op., asphalt raker, pederman.

CLASS D
Blasters, form setters, stone or granite curb setters.

NOTICES

BUILDING CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Crane with a main boom over 100 feet.

GROUP II: All boom type equipment, all pan and carryall operators, Archer hoist, back and pull hoe operator, blast or rotary drill, truck or cat mounted, boiler (when used for power), boom trucks, cableway operator, concrete paver machine, crane operator, derrick operator, dragline operator, elevating grader (self-propelled), head tower operator, hot roller (finish course), hydraulic booms, hydro crane, maintenance engineer, mucking machine operator, multiple drum hoist, (more than 1 drum in use), Peine crane, pile driving machine operator, power grader machine operator, scoopmobile, shovel operator, skimmer operator, test core drill machine, tractor shovel operator, vertical caisson auger drill, well drilling machine

GROUP III: Back filling machine operator, Kolman loader, roller machine operator, snatch and pusher cats, stone crusher, towed or self-propelled rollers, trenching machine operator

GROUP IV: Air hoist operator, cage hoist operator, conveyor operator, conveyor systems, (belt-crete or similar), hoisting engine op., house elevator, (when used for hoisting), industrial tractor, locomotive op., (irrespective of power), push button hoist op., Strato tower, tractors (when using winch power),

GROUP V: Concrete mixer op., (½ c.y. or over), gasoline driven boring machine, hydraulic system cranes, hydro hammer, finishing machine op., (asphalt spreader), finishing machine op., pump op., (4" or over), pump op., (2 or 3 in a battery)

GROUP VI: Air compressor operator, (under 160 cu. ft.), air compressor op., (over 160 cu. ft.), generator, grount machine operator, heating boiler operator, used for temporary heat), lubrication unit or truck, mechanical heaters, (when 3 are in a battery), mechanic or repairman, pneumatic mixer op., power plant (in excess of 10KW), welding machine operator, (to and including 3 machines)

GROUP VII: Bulldozer (over 50 h.p.), Monorail

GROUP VIII: Bulldozer & tractor, (50 h.p. drawbar or under), jeep trencher, mulchers, power brooms and rakes, seeders

GROUP IX: Fireman

GROUP X: Truck crane driver

GROUP XI: Aggregate bin op., apprentice engineer or oiler, cement bin op., concrete micer op., (under ½ c.y.), mechanical heaters, (when one or two are used), pump operators (one inch), pump op., (two inches), pump operators, (three inches), tractor machines

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: A through F.

b. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate after 6 months to 5 years of service as Vacation Pay Credit.

c. Holidays: A through F; Washington's Birthday, Good Friday, and Christmas Eve, providing employee has worked 30 full days during the 90 calendar days prior to the holiday, and the regular schedule work days immediately preceding and following the holiday.

d. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election of Governor of New York State; provided employee works the day before and after the holiday.

e. After one year, one weeks vacation; 2 years, 6 days vacation; 3 years, 7 days vacation; up to 2 weeks maximum vacation after completion of the 5th year, full vacations are earned by a driver who works 1040 hours or more in the calendar year, vacation will be prorated for either 1 or 2 weeks of vacation on the basis of using the number of hours worked as the numerator and 1040 as the denominator.

f. Paid Holidays, A through F, Friday after Thanksgiving Day except where the employee is laid off 2 or more weeks prior to the holiday, however employees laid off less than 2 weeks prior to election Day will automatically be eligible for the subsequent Friday after Thanksgiving as a paid holiday even through laid off.

g. Paid Holidays: Labor Day, Memorial Day.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Road rollers (over 7 tons) when used on blacktop, crane work, shovels, derricks, steel erection, overhead or bridge cranes and clam buckets, all excauating machines, trenchers, backfillers, cableways, draglines, backhoes, piledriving rigs, post drivers (except truck mounted), concrete mixer one yard and over, tunnel mucking machines, all tractors used in connection with scoper wagons, snowloader, all repair work or maintenance work under the supervision of a master mechanics, lubriation engineers, winch tractors, bulldozers, graders, blacktop spreaders, air-hoist commonly known as air tuggers when hoisting materials provided an engineer operates both machines and also provided the compressor and tugger are not separated by more than one hundred feet, front and back loaders (except small types), power driver stone spreaders, portable stone crushers, crawler or rubber tire tractor with blade or bucket and crane boom or hoe boom or shovel boom attached (except farm typed crawler or rubber tire tractor unless used with hydraulic backhoe), compressor with paving breaker attached, graders with bulldozer blades, multiple drum hoist with air compressor when used simultaneously and for any make portable concrete batching machine, automatic batch plant op., concrete spreader op., finishing machine op., form puller, self propelled rollers if on blacktop, scraper, either double or single bowl, CMI grading machine, truck mounted concrete pump, self-propelled riding vibrators, hydraulic concrete joint jammer, Rolman loaders, concrete planers, mechanic, wilder, euclid type belt loaders, mechanical and hydraulic pipe pushing machine, scoop-mobiles, fortlifts and hoist which lift higher than 25 feet.

GROUP II: Elevators, material hoist, road rollers except as prescribed in group I, tractors, pavement busters, jeep trenches, pumps over 4 inches, concrete blowers, air compressors over 165 cubic ft., compressors when used in banks of (2) and not over (3) within a 50 foot radius if such is possible, but atleast within a 100 foot radius, and if fuel is stored it will be stored within the same radius, gunite machines, locomotives, scoop-mobiles (when used as a stationary hoist or one which does not lift over twenty five feet, concrete pumps, conveyors, gas or diesel driven temporary lighting and power systems of 25 kilowatt capacity or over, stone crushers and winch hoist mounted on trucks, all earth drills, le tourneau turnatrailers, highlift hoist which does not lift over 25 feet, gasoline heaters used in banks of (2) and not over (3) within an area of 100 foot radius, and for (2) but not over (3) gasoline or diesel driven welding machines, trenchers on the back of a jeep, small trenchers which excavate to a depth of not more than 4 feet, truck mounted post drivers, snow-go, small front and back loaders, small type crawler or rubber tire tractor with blade or bucket not to exceed ½ yd. capacity, single drum hoist for hoisting materials other than steel, pug machine, pin puller, self propelled rollers not on blacktop and under 7 tons, bobcat loader or forklift which does not lift over twenty five feet.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS (CONT'D):

GROUP III: Oilers on (shovels, cranes, draglines, backhoes (over 3/4 cu. yds.) dredges, derrick boats, pavers (excluding stationary set-ups), trenching machines, pile drivers, quarry master (or its equivalent), hydrcranes, automated batch plants (wet or dry mix plants), compressors (165 cu. ft. per minute or under), pumps up to and including 4 inches.

GROUP IV: A truck crane oiler will be provided on rubberized equipment, when there is a separate cab to the house

GROUP V: Steam Boiler Operator

BUILDING CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I - Cranes (cable and hydraulic, climbing and tower)
I - A 121 ft. and under
I - B 121 ft. and 151 ft.
I - C 151 ft. and 201 ft.
I - D 201 ft. and 251 ft.
I - E 251 ft. and 301 ft.
I - F 301 ft. and 351 ft.
I - G 351 ft. and 401 ft.
I - H 401 ft. and 451 ft.

GROUP II - Air tugger, derrick, dredge, big generator plant, cableway, backhoe, clamshell, dragline, shovel and similar machines over 3/8 cubic yards capacity (factory rating), bridge crane (all types), caisson auger and similar type machine, forklift (with factory rating of 15 ft. or more of lift), hoist (on steel erection), mucking machines, road carrier (and similar types), three drum hoist (when all three drums are in use)

GROUP III - A frame truck, backfilling machine, hoist (1 or 2 drums), barber green and similar type machine, maintenance engineer (mechanic), mechanical slurry machines (all kinds), belt crete and similar type machines, bituminous spreading machine, post hole digger, bulldozer, carry all type scraper, core drill, pumps, (regardless of motive power) no more than (4) in number not to exceed 20 inches in total capacity), fine grade and finish rollers, side boom tractor, stone crusher, compressors: 4 not to exceed 2000 cfm combined capacity 3 or less with more than 1200 CFM, but not to exceed 2000 CFM, concrete mixer, concrete placer, concrete pumps, tournadozer and similar types, crane-hoe-shovel 3/8 yd. capacity or less (factory rating), tournapull and similar type, dinky locomotives (all types), tower-mobile and similar types, elevating grader, elevator trenching machines, fine grade machines (all kinds), welder, front end loader, forklift with factory rating of less than 15 feet of lift, well drill, well point system, high pressure boiler, Exception: single electric pumps up to and including 4 inches not be manned.

GROUP IV - Any combination (not to exceed 3 pieces of equipment), welding, machine or mechanical conveyor (over 12 ft in length), fireman, belt crete generator, mechanical heater, roller (fill & grade), pumps (regardless of motive power) no more than (3) in number, not to exceed twelve inches total capacity, rubber tired tractor, compressor 3 or less, not to exceed 1200 CFM combined capacity, longitudinal float, Exception: single gasoline driven welding machines up to 300 amps need not be manned.

GROUP V - Truck crane oilers

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION

Group I - Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker (over 5 tons capacity), concrete pump (6" or over crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated, (gradall or similar), fork lift (factor rated 15 ft. and over), front end loader 4 c.y. and over) head tower (saucrman or equal) hoist (2 or 3 drum), mine hoist, mucking machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is needed, he shall be an oiler), tractor drawn belt type loader, truck crane, tunnel shovel.

Group II - Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity concrete paver (over 16S), concrete pump (under 6"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lobs. and over), hoist (one drum) Kalman plant loader and similar type loaders (if another man is required to clean screen or to maintain the equipment, he shall be an oiler), locomotive maintenance/engineer/greaseman/welder, mixer (for stablized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

UMI

DECISION NO. 76HY-3243

SMALL EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION CONT'D.

Group III - Air-tract, compressors (6 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1700 C.F.M. but not to exceed 2000 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (6 of any type or combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, etc. pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, heaters (hydraulic-self-propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point.

Group IV - Aggregate plant, boiler (used in conjuction with production), cement and bin operator, compressors (3 or less not to exceed 1200 C.F.M. combined capacity), compressor (any size, but subject to other provisions for compressors) dust collectors, generator pumps, welding machines (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (self-propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, offer parapet- (concrete or pavement grinder), power broom (towed), power heaterman, revinius widener shell winder, steam cleaner, tractor.

DECISION NO. 76HY-3243

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App Tr
CLASS 1	$7.69	.65	.60	a	
CLASS 2	7.74	.65	.60	a	
CLASS 3	7.79	.65	.60	a	
CLASS 4	7.94	.65	.60	a	
CLASS 5	8.09	.65	.60	a	

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTE:
a. Paid Holidays A through F, provided the employee has worked the working day before and after the holiday.

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION:

CLASS 1
Warehouseman, yardmen, truck helpers, pickups, panel trucks, flatboy material trucks (straight jobs), single axel dump trucks, dumpsters, material checkers and receivers, greasers, truck firemen, mechanic helpers and parts chaser.

CLASS 2
Tandems, batch trucks, mechanics and dispatcher.

CLASS 3
Semi-trailers, low-boy trucks, asphalt distributor trucks, agitator, mixer trucks and dumperete type vehicles, truck mechanic.

CLASS 4
Specialized earth moving equipment - euclid type or similar off-highway equipment, where not self loaded, and straddle (ross) carrier.

CLASS 5
Off-highway tandem back-dump, twin engine equipment and double-hitched equipment where not self loaded.

SUPERSEDEAS DECISION

STATE: Washington
DECISION NUMBER: WA76-5079
Supersedes Decision No. WA76-5056 dated June 25, 1976, in 41 FR 26545
DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments, up to and including 4 stories), heavy and highway construction and dredging.

COUNTIES: Statewide
DATE: Date of Publication

ASBESTOS WORKERS:	Basic Hourly Rates	Fringe Benefits Payments

ZONE WAGE SCALE (Area 3)

LABORERS: Goldendale, Longview and Vancouver

POWER EQUIPMENT OPERATORS: Astoria, Goldendale, Hood River, Longview, the Dalles and Vancouver

TRUCK DRIVERS: Astoria, Goldendale, Longview, the Dalles and Vancouver

Zone A - All jobs or projects located within 10 miles of the respective City Hall
Zone B - More than 10 miles but less than 25 miles from the City Hall
Zone C - More than 25 miles but less than 35 miles from the respective City Hall
Zone D - More than 35 miles but less than 45 miles from the City Hall
Zone E - More than 45 miles but less than 75 miles from the respective City Hall
Zone F - More than 75 miles from the respective City Hall

DECISION NO. WA76-5079

LABORERS (Area 1)
All Counties and portions of Counties East of the 120th Meridian

Group 1: Brush Hog Feeder; Carpenter Tender; Concrete Crewman (to include stripping of forms, hand operating jacks on slip form construction, application of concrete curing compounds, pumpcrete machine, handling the nozzle of squeezecrete or similar machine - 6" and smaller); Concrete Signalman; Crusher Feeder; Demolition (to include clean-up, burning, loading, wrecking and salvage of all material); Driller Helper; Dumpman; Fence Erector (to include guard rails, guide and reference posts, sign posts, posts and right-of-way markers); General Laborer; Grout Machine Header Tender; Nipper; Riprap Man; Scaleman; Stake Jumper; Structural Mover (to include spearating foundation preparation, cribbing, shoring, jacking and unloading of structure); Tailhoseman (water nozzle); Track Laborer (RR); Truck Loader; Timber, Bucker and Faller (by hand); Window Cleaner (prior to completion of construction)

Group 2: Cement Finisher Tender; Cement Handler; Demolition Torch; Dope Pot Fireman, non-mechanical; Form Cleaning Machine - Feeder, Stacker; Form setter, paving; Driller Helper (when required to move position machine); Nozzleman, water and air or steam; Pipe Layer, corrugated metal culvert; Pipewrapper; Pot Tender; Powderman Helper; Power Tool Operator, gas, electric, pneumatic; Sandblast Tailhoseman; Scaffold Erector, wood or steel; Railroad Equipment, power driven, except dual mobile power spiker or puller; Rodder and Spreader; Wheelbarrow, power driven; Well-point Man; Vibrator up to 4"

Group 3: Asphalt Raker; Asphalt Roller, walking; Chain Saw Operator with attachments; Concrete Saw Walking; Grade Checker, using level; Jackhammer Operator; Multi-section Pipe Layer; Nozzleman (to include squeeze and flocrete nozzle); Pavement Breaker; Power Buggy Operator; Railroad Power Spiker or Puller, dual mobile; Tamper (to include operation of Barco, Essex and similar tamper and pavement breakers); Trencher, Shawnee; Water Pipe Liner; Wagon Drills

Group 4: Chain Saw (faller); Laser Beam Operator; Pipe Layer (Caulker, Collarman, Jointer, Mortarman, Rigger, Jacker, Shorer and Lagger but not including laying corrugated metal culvert pipe)

Group 5: Concrete Stack; Mortar Mixer

Group 6: Caisson Worker, free air; High Scaler

UMI 197 ON GCA 3811-4V

DECISION NO. WA76-5079

LABORERS (Area 1) (Cont'd)
All Counties and portions of Counties East of the 120th Meridian

Group 7: Brush Machine (to include horizontal construction joint clean-up brush machine, power propelled); Drills (to include down-the-hole drills with 3 inch piston or larger and out-of-the-hole drills with 4 inch piston or larger); Gunnite (to include operation of machine and nozzle); Hod Carrier; Monitor Operator, air track or similar mounting; Nozzleman (to include jet blasting nozzleman over 1200 pounds, jet blast machine power propelled, sand blast nozzle); Vibrator, 4 inches and over

Group 8: Air Track Drills with Dual Masts and Drills; Powderman

Group 9: Tunnel and Shaft, Free Air
Class A: Bull Gang, Pump Crete Crewman including distributing pipe, Assembling and dismantle and nipper
Class B: Brakeman, Dumpman
Class C: Miner and Nozzleman for concrete and laser beam operator on tunnels
Class D: Raise and Shaft Miner and Laser Beam Operator on raises and shafts

LABORERS (Area 2)
All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4)

Group 1: General Laborer; Nipper; Truck Spotter; Pitman; Brush Cutter; Choke Setter; Concrete and Monolithic Laborer; Pot Tender; Asphalt Laborer; Ditch Digger; Drierman; Concrete Form Stripper; Carpenter Helper; Track Laborer; Wellpoint; Header Laborer and Guardrail Erector

Group 2: Dumpman; Faller and Bucker; Hand; Powderman's Helper; Sloper (over 20'); Wagon Driller and Air Trac Helper

Group 3: Groutman (pressure) including post tension beam; Power Tools (light duty) Chippers, Grinders, Tampers, and similar electric and air operated tools; Swinging Scaffold or Boatswain Chair over water or over 25' in height; Topman

Group 4: Concrete Saw Operator; Pipe Pot Tender; Power Wheel Barrow or Buggy; Power Tools (heavy duty); Jackhammer, Pavement Breaker, Vibrator Tampers (multiple and self-propelled); Railroad spike puller; Rakers-asphalt

DECISION NO. WA76-5079

LABORERS (Area 2) (Cont'd)

All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4)

Group 5: Form Setter (steel forms); Grademan and Stake Hopper; Rodder; Nozzleman (concrete pump, green cutter when using combination of high pressure air and water on concrete and rock, sand blast, gunnite, shot-crete); Spreader (carrier grade with Rodder)

Group 6: Faller and Bucker;Chain Saw; High Scaler; Mortarman and Hod Carrier; Pipe Layer and Caulker; Pipe Wrapper; Timberman - Sewer; Wagon Driller and Air Track; Manhole Builder; Laser Beam Operator

Group 7: Cement Dumper - paving; Powderman

TUNNEL WORK

Group 8: Topman and Bull Gang

Group 9: Chuck Tender; Mucker and Laborer; Nipper; Brakeman

Group 10: Powderman's Helper

Group 11: Miner (including monolithis work); Spader; Re-timberman; Maintenance Man; Laser Beam Operator

Group 12: Miner, Shaft and Raise

Group 13: Powderman

LABORERS (Area 3)
Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 1: Asphalt Plant Laborers; Asphalt Spreaders; Batch Weighman; Broomers; Brush Burners and Cutters; Car and Truck Loaders; Carpenter Tender; Change-house Man or Dry Shak Man; Choke Setter; Clean Up Laborers; Concrete Laborers; Culvert, Hand labor; Curing, concrete; Demolition, wrecking, and moving Laborers; Driller Helpers; Dumpers, road oiling crew; Dumpmen (for grading crew); Elevator Feeders; Fence Builder (including guard rail, median rail, reference post, guide post, right-of-way marker); Fine Graders; Form Strippers (not swinging stages); Landscaping or Planting Laborers; Leverman or Aggregate Spreader (Flaherty and similar types); Loading Spotters; Material Yard Man (including electrical); Powderman Helper; Pittsburgh Chipper Operator or similar types Railroad Track Laborers; Ribbon Setters (including steel forms); Rip Rap Man (hand placed); Road Pump Tender; Sewer Labor; Signalman; Skipmen; Slopers Spraymen; Stake Chaser; Stockpiler; Timber Faller and Bucker (hand labor); Toolroom Man (at job site); Tunnel Bull Gang (above ground); Weight Man - Crusher (aggregate when used)

DECISION NO. WA76-5079

LABORERS (Area 3) (Cont'd)
Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 2: Applicator (including pot tender for same), applying protective material by hand or nozzle on utility lines or storage tanks on project; Brush Cutters (power saw); Burners; Choker Splicer; Clary Power Spreader and similar types; Clean-up Nozzleman-Greencutter (concrete, Rock, etc.); Concrete Power Buggyman; Crusher Feeder; Demolition and Wrecking charred materials; Grade Checker; Gunite Nozzleman Tender; Gunite or Sand Blasting Pot Tender; Handlers or Mixers of all materials of an irritating nature (including cement and lime); Power Tool Operators, includes but not limited to: Dry Pack Machine, Jackhammer, Chipping Guns, Paving Breakers, Vibrators (less than 4" in diameter); Post Hole Digger, air gas or electic; Vibrating Screed; Tampers, Ribbon Setter, head, Rip Rap Man (head), hand placed, Sand Blasting (wet), Stake Setter, Tunnel-Muckers, Brakemen, Concrete Crew, Bull Gang (underground)

Group 3: Asphalt Rakers; Bit Grinder; Drill Doctor; Drill Operators, Air Tracks, Cat Drills, Wagon Drills, Rubber-mounted Drills, and other similar typed; Concrete Saw Operator; Gunite Nozzleman; High Scalers, Strippers and Drillers (covers work in swinging stages, chairs or belts, under extreme conditions unusual to normal drilling, blasting, barring-down, or sloping and stripping); Laser Beam (pipe laying) - Applicable when employee assigned to move, set up, align Laser Beam; Manhole Builder; Powdermen; Power Saw Operators (bucking and falling); Pumperete Nozzleman; Sand Blasting (dry); Sewer Pipe Layers; Sewer Timberman; Track Liners, Anchor Machines, Ballast Regulators, Multiple Tampers, Power Jacks; Tugger Operator; Tunnel - Chuck Tenders, Nippers, and Timbermen; Vibrators (4" and larger); Water Blaster; Welder

Group 4: Laser Beam (Tunnel) - Tunnel Miners; Tunnel Powderman

LABORERS (Area 4)
Thos portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 1: General Laborer; Carpenter Tender; Form Stripper; Track Laborer; Choker Setter; Fence Laborer

Group 2: Air Track and Wagon Drill Helper; Crusher Feeder; Dumpman; Powderman Helper; Sloper, over 20 feet, failer and bucker. hand

Group 3: Drill Chipper; Grinder, Tampers and similar light power tools; Grout Man (power); Top Man, Swinging Scaffold or Boatswain Chain over water or over 25' in height

Group 4: Asphalt Raker and Spreader; Cement Handler, Cask or bulk; Dope Pot Tender; House Wreckers; Jackhammer; Pavement Breaker; Vibrator; Track Spike Puller; Concrete Saw and similar Heavy Power Tools; Power Buggy Tampers (multiple and self-propelled)

DECISION NO. WA76-5079

LABORERS (Area 4) (Cont'd)
Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 5: Form Setter, Steel Forms; Grademan, Stake Hopper; Spreader, Rodder, Nozzleman: Concrete Pumps, Gunnite, Sand Blast, Shot-crete, Green Cutter when using combination of high pressure air and water on concrete and rock

Group 6: Air Track and Wagon Drill Operator; High Scaler; Pipe Layer and Caulker; Pipe Wrapper; Timber Man; Mortar Man and Hod Carrier; Faller and Bucker; Chain Saw

Group 7: Cement Dumpers - Paving

Group 8: Tunnel Work:
Class A: Topman and Bull Gang
Class B: Chuck Tender; Mucker and Laborer; Nipper; Brakemen
Class C: Powderman Helper
Class D: Miner (including Monolithic Worker); Re-Timberman; Maintenance Man; Spader, Laser Beam Operator
Class E: Miner; Shaft and Raise
Class F: Powderman

POWER EQUIPMENT OPERATORS (Area 1)
All Counties and portions of Counties East of the 120th Meridian

Group 1: Bit Grinders; Bolt Threading Machine; Compressors, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Drillers' Helper; Fireman and Heater Tender; Grade Checker; Helper (mechanic or welder, H.D.); Oiler; Oiler and Cable Tender, Mucking Machine; Pumpman; Rollers, all types on subgrade (farm type, Case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

Group 2: A-Frame Truck (single-drum); Assistant Refrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Batch Plant and Wet Mix Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more - gas, diesel or electric power); Concrete Saw (multiple Cut); Distributor Leverman; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift of Lumber Stacker, Hydra-lift and similar; Gin Trucks (pipeline); Hoist, single drums; Loader (bucker elevator and conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker (hydra-hammer and similar); Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator, (self-propelled); Railroad Power Tamper Operator (self-propelled); Railroad Power Tamper Jack Operator (self-propelled); Spray Curing Machine (concrete); Spreader Jack Operator (self-propelled); Straddle Buggy (Ross and similar on construction job site); Tractor (farm type R.T with attachments except backhoe); Tugger Operator; Ditch Witch or similar

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 1) (Cont'd)
All Counties and portions of Counties East of the 120th Meridian

Group 3: A-Frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland and similar); Beltcrete Conveyors with power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boat Operators; Boom Cats (side); Boring Machine (earth); Boring Machine (rock under 8" bit) (Quarry Master, Joy or similar); Bump cutter (Wayne, Saginaw or similar); Canal Linning Machine (concrete); Chipper (without crane); Cleaning and Duping Machine (pipeline); Concrete Pumps (squeeze-crete, flow-crete, pump-crete, Whitman and similar); Drills (Churn, Core, Calyx, or Diamond); Elevating Belt-type Loader (Euclid, Barber Greene or similar); Elevating Grader-type Loader (Dumor, Adams, or similar); Equipment Serviceman, Greaser and Oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist (2 or more drums or tower hoist); Loader (overhead and front-end under 4 yards, R/T); Locomotive Engineer; Mixermobile; Mucking Machines; Paver or Curb Extruder (asphalt and concrete); Pump (grout or jet); Rollerman (finishing pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yards); Screed Operator; Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (crawler, including dozer, scraper, drills, booms, rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 feet depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8")

Group 4: Asphalt Plant Operator; Crusher, Grizzle and Screening Plant Operator; H.D. Mechine; H.D. Welder; Refrigeration Plant Engineer (under 1,000 ton); Rubber-tired Scraper, Multi-engine Power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yards and over); Surface Heater and Planer Machine; Turnhead (with re-screening)

Group 5: Automatic Subgrader (ditches and trimmers) (Autograde, ABC, R. A. Hansen and similar on grade wire); Backhoes (under 3 yards); Batch and Wet Mix Operator - multiple units (2 and including 4); Chipper (with crane); Clamshell Operator (under 3 yards); Concrete Slip Form Paver; Cranes all (under 3 yards); Drilling Equipment (8" bit and over) (Robbins' reverse circulation and similar); Loader Operator (front end and overhead 4 yards to 8 yards); Piledriving Engineers; Paver (dual drum); Quad-track or similar equipment; Railroad Track Liner Operator (self-propelled); Rubber-tired Scrapers, multi-engine, power with one scraper (Euclid, TS-24 and similar), Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with tow scrapers; Shovels (under 3 yards); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 feet depth and over); Multiple Dozer units with single blade

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 1) (Cont'd)
All Counties and portions of Counties East of the 120th Meridian

Group 6: Backhoes (3 yards and over); Batch Plant (over 4 units); Cableway Controller - Dispatcher; Cableway Operator; Clamshell Operator (3 yards and over); Cranes, all - 65 tons and over; Derricks and Stiffegs (65 tons and over); Draglines (3 yards and over); Elevating Belt (Holland type); Loader (360 degrees revolving Kuehring Scooper or similar); Loaders (overhead and front-end over 8 to 12 yards); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yards and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - over 12 yards)

POWER EQUIPMENT OPERATORS (Area 2)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 1: Mechanics' Helpers (heavy duty)

Group 2: Oilers, Grade Checkers and Stakemen and/or Brakemen

Group 3: Firemen; Firemen (dry and hot plant)

Group 4: Rollers, Tampers and Vibrators (other than plant, road mix or multi-lift materials); Tractor (farmall type, 60 h.p. and under); Compressor (excavating and general purposes)

Group 5: Oiler Driver on Truck Cranes (over 45 tons up to 100)

Group 6: Blower Distributors and Mulch Seeding Operator; Oil Distributors

Group 7: Locomotives (Dinkey-air, diesel, electric, gas, steam)

Group 8: Equipment Service Oiler; Oiler Driver on Trucks Cranes (100 tons and over)

Group 9: Pump (water); Tractors (Farmall type, over 60 h.p.)

Group 10: Post Hole Diggers (mechanical)

Group 11: Brooms (power, Wayne, Saginaw and similar types); Bulldozers (under D9 or similar); Loaders (Fork Lifts or Lumber Stacker - on construction job site - Drot Travel Lift); Rollers, Tampers and Vibrators (twin engine); Saw (concrete); Scrapers (carry-all type, single)

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 2) (Cont'd)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 12: Batch Plant (batch and mixer, 200 yards per hour and under); Cranes ("A" Frame Trucks, single power drum); Conveyors; Crusher (rock); Washing and Screening Plants; Finishing Machine Operator, Concrete Paving; Hoists, Air Tuggers, Strato Tower Bucket, Elevators and Deck Winches (power); Loaders (Elevating-Athey, Barber Greene and similar types, and overhead and front-end, under 2½ yards); Mixers (asphalt up to 4 tons per batch, and concrete mixer and batch - 200 yards per hour and under); Power Plant Operators; Pumps (Fuller Kenyon and Concrete and Pumpcrete); Rollers, Tampers and Vibrators (on plant, road mix or multi-lifts materials); Screed man; Spreaders (Blaw Knox, Cedarapids, Jaeger, Flarrety or similar types); Trenching Machine (under 16 inches)

Group 13: Mechanics or Welder (heavy duty)

Group 14: Motor Patrol Graders (including Model 14 and similar); Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment (25 yards and under)

Group 15: Compressor (steel erection including sandblasting, painting of the same); Hoists on steel erection, Air Tuggers and Towermobiles; Loaders (fork lifts with tower)

Group 16: Cement Hogs; Loaders (Elevating Grader type, Dumor and similar); Locomotive (geared or rod engine); Mixers (paving); Scraper (carryall type, double)

Group 17: Tractors (farmall type, used as Backhoes, Rubber-tired, Ford, Ferguson, Case and similar type 60 h.p. and under)

Group 18: Bull Dozer (D-9 or similar)

Group 19: Trenching Machines (16 inches and over)

Group 20: Bump Cutter (Concut, Christianson or similar types)

Group 21: Batch Plant (batch and mixer, over 200 yards per hour through 400 yards per hour); Conveyors (Beltcrete with power pack and similar types); Loaders (elevating belt type - Euclid and similar types); Mixer (asphalt, 4 tons and over, per batch, and concrete mixers and batch - Over 200 yards per hour through 400 yards per hour, and paving dual)

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 2) (Cont'd)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 22: Bulldozer engaged in Yo Yo Operation (while clearing and scaling); Cableways (3 yards and under); Cranes ("A" Frame trucks, double power drum: and Crawler, truck type, floating, Locomotive, Whirley, either 3 yards and under, or 150' of boom including jibs and under, or 45 tons and under: and Hydralifts, Hyster Cat Cranes and attachments and Chipper, wood with boom attachment); Derricks, all; Drilling Machine (core, cable rotary and exploration); Loader (fork lift with power boom and swing attachment, and overhead and front end, 2½ yards and up to 4 yards); Mixers (mobile type with hoist combination); Motor Patrol Graders (over Model 14 and similar); Mucking Machines (mole, tunnel drill, and/or shield); Paydozer and Linker Pusher (Quad-9 and similar); Piledriver Engineer, (L.B. Foster Puller or similar, Paving Breaker); Shovels (Crawler and truck types, all attachments, 3 yards and under); Sub Grader (Gurries, CMI and similar types); Tractors (Farmall type, used as backhoes, rubber tired - Fnrd, Ferguson, Case and similar types - over 60 h.p.); Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment - over 25 yards through 40 yards

Group 23: Loaders (overhead and front end, 4 yards up to 8 yards)

Group 24: Mixer (concrete mixers and batch over 400 yards per hour through 600 yards per hour)

Group 25: Tournapulls, Caterpillar, Euclid, Scrapers and similar type (over 40 yards through 55 yards)

Group 26: Cableways (over 3 yards); Crane (Crawler, truck type, floating, Locomotive, Whirley, either over 3 yards, or over 150' of boom including jibs or over 45 tons up to 100 tons: and, Tower Cranes, Pecco, Lorraine, Bucyrus and similar types); Helicopter Winch Operator; Remote Control Operator on Rubber-tired Earth Moving Equipment; Shovels (Crawler and truck type, all attachments, over 3 yards up to 6 yards); Slip Form Paver (Zimmerman, CMI and similar types)

Group 27: Tournapulls, Caterpillar, Euclid, Scrapers, and similar type equipment (over 55 yards through 70 yards)

Group 28: Loaders (overhead and front end 8 yards and over)

Group 29: Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment (over 70 yards through 85 yards)

Group 30: Cranes (Crawler, Truck type, Floating, Locomotive, Whirley, either 5 yards and over 200' of boom including jibs and over, or 100 tons and over); Shovel (Crawler and Truck type, all attachments, 6 yards and over)

Group 31: Tournapulls, Caterpillar, Euclid, Scrapers and similar types equipment (over 85 yards through 100 yards)

UMI

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 4)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 1: Oiler, including plant, crane, crusher, guardrail equipment, and trenching machine; Assistant Conveyor Operator; Crusher Feederman; Deckhand; Self-propelled Scaffolding Operator; Guardrail Punch Oiler; Pump Operator, under 4"; Brakeman; Switchman; Parts Man (tool room)

Group 2: Blade Operator, pulled type; Truck Crane Oiler-driver, 25 ton capacity or over; Crane Fireman, (all equipment except floating); A-Frame Truck Operator, single drum; Tugger or Coffin type Hoist Operator; Drill Helper; Auger Oiler; Boatman; Fork Lift or Lumber Stacker Operator (on job site); Oiler, Combination Guardrail Machines; Temporary Heating Plant Operator; Grade Oiler, required to check grade; Grade Checker; Tar Pot Fireman; Tar Pot Fireman (power agitated); H.D. Repairman Helper; Welder's Helper; Helicopter Radioman (ground); Roller Operator, grading of base rock (not asphalt)

Group 3: Asphalt Plant Fireman; Pugmill Operator (any type); Truck mounted Asphalt Spreader, with screed; Compressor Operator (any power), under 1,250 cu. ft. total capacity; Conveyor Operator; Mixer Box Operator (C.T.B., Dry Batch, etc.); Cement Hog; Concrete Saw; Concrete Curing Machine (riding type); Wire Mat or Brooming Machine; Ross Carrier Operator (on job site); Bucket Elevator Loader, Barber-Greene and similar types; Hydraulic Pipe Press; Pump Operator (any power), 4" and over; Hydrostatic Pump; Motorman; Ballast Jack Tamper; Bell Boy phones, etc.; Tamping Machine, mechanical self-propelled; Hydrographic Seeder Machine, straw, pulp or seed; Broom Operator, self-propelled (on job site); Air Filtration Equipment; Welding Machine Operator

Group 4: Screed Operator; Compactor, including Vibratory; Compressor (any power) over 1,250 cu. ft. total capacity; Combination Mixer and Compressor, Gunnite work; Concrete Mixer Operator, single drum, under five bag capacity; Helicopter Hoist Operator; Floating Equipment Fireman; Lull Hi-lift Operator or similar type; Fork Lift, over 5 ton; Service Oiler (greaser); Hydra Hammer or similar types; Pavement Breaker; Pump Operator, more than 5(any size); Locomotive, under 40 tons; Roller Operator, Oiling, C.T.B.

Group 5: Extrusion Machine; Wagner Pactor or similar type (without blade); Concrete Batch Plant Quality Control Operator; Power Jumbo, Setting Slip Forms, etc. in tunnels; Slip Form Pumps, Power driven Hydraulic Lifting Device for concrete forms; Hoist, single drum; Elevator Operator; Pulva-mixer or similar types; Chip Spreading Machine Operator; Lime Spreading (on job site); Sweeper (Wayn type) Self-propelled (on job site); Tractor, rubber-tired 50 H.P. Flywheel and under; Trenching Machine, maximum digging capacity 3 ft. depth

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 6: Asphalt Burner and Reconditioner; Pavement Grinder and/or Grooving Machine (riding type); Cast-in-place Pipe Laying Machine; Maginnis Internal Full Slab Vibrator; Concrete Finishing Machine, Clary, Johnson, Bidwell, Burgess Bridge Deck or similar type; Curb Machine, Mechanical Berm, Curb and/or Curb and Gutter; Concrete Joint Machine; Concrete Planer; Concrete Paving Machine; Concrete Spreader; Loaders, rubber-tired type, 2-1/2 cu. yds. and under; Rock Spreaders, self-propelled

Group 7: Roller (any asphalt mix); Beltcrete; Pumpcrete Operator (any type); Cement Pump, Fuller-Kenyon and similar; Concrete Pump; Grouting Machine; Concrete Mixer, single drum, five bag capacity and over; Tower Mobile Operator; A-Frame Truck double drum; Boom Truck; Churn Drill and Earth Boring Machine; Hydraulic Backhoe, wheel type 3/8 cu. yds. and under with or without front end attachments 2-1/2 cu. yds. and under (Ford, John Deere, Case type); Elevating Grader, Tractor towed requiring operator or grader; Pot Rammer; Ballast Regulator; Ballast Tamper, Multiple-purpose; Track Liner; Tie Spacer; Shuttle Car; Locomotive, 40 tons and over

Group 8: Diesel-Electric Engineer, Plant, Crusher, Generator, Floating; Batch Plant and/or wet mix, one and two drum; Generator Operator; Belt Loaders, Kolman and Ko Cal types; Asphalt Paver Operator

Group 9: Bulldozer; Drill Cat Operator; Side-boom Cat; Compactor, with blade; Concrete Cooling Machine; Chicago Boom and similar types; Lift Slab Machine; Boom type Lifting Device, 5 ton capacity or less; Cherry Picker or similar type Crane-hoist, 5 ton capacity or less; Grizzley Crusher; Crusher Plant; Drill Doctor; Boring Machine; Guardrail Punch and Auger (all types); Surface Heater and Planer; Hydraulic Backhoe, track type 3/8 cu. yd.; Loader, front end and overhead, 2-1/2 cu. yds. and under 4 cu. yds.; Hammer Operator; Pipe Cleaning, Doping, Bending and Wrapping Machines; Bolt-threading Machine; Drill Doctor (bit grinder); H.D. Mechanic and Welder; Machine Tool Operator; Stationary Drag Scraper; Tractor, rubber-tired over 50 H.P. flywheel; Tractor with boom attachment; Trench Machine, maximum digging capacity over 3 ft. depth; Asphalt Plant Operator

Group 10: Bulldozer, twin engine (TC12 and similar); Cable plow (any type); Compactor, multi-engine; Jack Operator, Elevating Barges; Barge Operator, self-unloading; Combination H.D. Mechanic-Welder, when dispatched and/or when required to do both; Rubber-tired dozers and Pushers (Michigan, Cat, Hough type); Driller-Percussion, Diamond, Core, Cable, Rotary and similar type

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Area 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and Southern portion of Pacific, Counties

Group 11: Mixer Mobile; Concrete Breaker; Crane Operator, 25 tons and under; Combination Guardrail Machines, i.e., Punch, Auger, etc.; Shovel; Dragline; Clamshell, Hoe, etc., under 1 cu. yd.; Grade-alls, under 1 cu. yd.; Mucking Machine (tunnel)

Group 12: Blade Operator; Batch Plant and/or Wet Mix, 3 units or more; Reinforced Tank Banding Machine (K-17 or similar); Hoist, two or more drums; Elevating Loader, Athey and similar; Piledrver (not crane type); Rubber-tired Scraper, single and twin engine, Single Scraper, with push-pull attachments, self-loading, Paddle Wheel, Auger type; Blade mounted Spreaders, Ulrich and similar types; Shield Operator

Group 13: Blade Operator, finish; Blade, externally controlled by electronic, mechanical hydraulic means; Blade, Multi-engines; Concrete Paving Road Mixer; Derrick, under 100 tons; Hoist, Stiff Leg, Guy Derrick or similar, 50 tons and over; Cableway Operator 25 ton and over; Crane, over 25 ton and including 50 tons; Piledriver Operator; Floating Clamshell, etc. under 3 cu. yds.; Floating Crane (derrick barge), less than 30 ton; Elevating Grader, Operated by tractor operator, Sierra, Euclid, or similar; Back Filling Machine; Shovel, etc., 1 cu. yd. and less than 3 cu. yds.; Grade-all, 1 cu. yd. and over; Bridge Crane Operator, Locomotive Crane, Gantry and Overhead

Group 14: Tower Crane Operator; Rubber-tired Scraper, with Tandem Scrapers, self-loading, Paddle Wheel, Auger type, Finish and/or 2 or more units

Group 15: Rock Hound Operator; Loader, 4 cu. yds., but less than 6 cu. yds.

Group 16: Auto-grader or "Trimmer"; Tandem Bulldozer, Quad-nine and similar; Automatic Concrete Slip Form Paver; Concrete Canal Line; Cableway, 25 ton and over; Crane, over 40 ton and including 100 ton; Whirley, 80 ton and under; Floating Clamshell, etc., 3 cu. yds. and over; Floating Crane (derrick barge) 30 ton but less than 80 ton; Loader, 6 cu. yds., but less than 12 cu. yds.; Rubber-tired Scraper, with Tandem Scrapers, Multi-engine; Shovel, etc., 3 cu. yds. but less than 5 cu. yds.; Wheel Excavator, under 750 cu. yds. per hour

Group 17: Crane over 100 ton and including 200 ton; Whirley over 80 ton and including 150 ton; Floating Crane (derrick barge) 80 ton less than 150 ton; Loader, 12 cu. yds. and over; Shovel, etc., 5 cu. yds. and over; Canal Trimmer

Group 18: Crane, over 200 ton; Whirley, 150 ton and over; Floating Crane 150 ton but less than 250 ton; Wheel Excavator, over 750 cu. yds. per hour; Band Wagons, in conjunction with Wheel Excavator

Group 19: Helicopter, when used in erecting work; Floating Crane 250 ton and over; Remote Controlled Earth Moving Equipment; Underwater Equipment, remote or otherwise

DECISION NO. WA76-5079

POWER EQUIPMENT OPERATORS (Areas 1 and 2)
(DREDGING)

Group Description for Areas 1 and 2

Group 1: Assistant Mate (deckhand)

Group 2: Fireman; Oiler

Group 3: Assistant Engineer (Electric, Diesel, Steam or Booster Pump); Mates and Boatmen

Group 4: Engineer Welder; Craneman

Group 5: Assistant Engineer (Electric Generator Operator for primary pump, power barge or dredge)

Group 6: Leverman, Hydraulic

Group 7: Leverman, Dipper:
(a) 5 yards and under
(b) Over 5 yards

Group Description for Area 3

Group 1: Leverman, Hydraulic

Group 1A: Leverman, Dipper

Group 2: Assistant Engineer (including Watch Engineer, Welder, Mechanic, and Machinist) and Mate

Group 3: Tenderman (Boatman, Attending Dredge Plant); Fireman

Group 4: Assistant Mate (Deckhand); Oiler

UMI

DECISION NO. WA76-5079

TRUCK DRIVERS (Area 1)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat and Yakima Counties)

Group 1: Flat Bed Truck single rear axle; Escort Driver; Fish Truck; Fork Lift, 3,000 pounds and under; Fuel Truck Driver (Steam Cleaner and Washer); Helper and Swamper; Leverperson loading Trucks at Bunkers; Pick-up hauling material; Seeder and Mulcher; Stationary Fuel Operator; Team Driver; Tractor (small rubber tired pulling trailer or similar equipment); Water Tank Truck 1,800 gallons.

Group 2: Bus Driver or Employeehaul Driver; Flat Bed Truck, dual rear axle; Power Boat hauling employees or material; Tireperson No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power Operated Sweeper; Semi-trailer, Low Bed, Truck and Trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers and Trucks hauling concrete (3 yards and under); Trucks, side, end, and bottom dump (under 6 yds.); Water Tank Truck (1,801 - 4,000 gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Cement Spreader; Dumptor (6 yards and under); Flaherty Spreader, Box Driver; Flat Bed Truck (using power take off); Fork Lift (over 3,000 pounds); Oil Distributor Driver (road, bottperson, leverperson helper); Rubber-tired tunnel jumbo; Scissor Truck; Slurry Truck Driver; Transit Mixers and Trucks hauling concrete (over 3 yds. to 6 yds.); Water Tank Truck (4,001 - 6,000 gallons); Wrecker and Tow Trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson No. 2; Truck, side, end, and bottom dump (over 6 yards to 12 yards)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water Tank Truck (over 6,001 - 8,000 gallons)

Group 7: Dumptor (over 6 yards); Transit Mixers and Trucks hauling concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump (over 12 yards including 20 yards)

Group 8: Low Boy (over 50 tons); Water Tank Truck (8,001 - 10,000 gallons); Tractor with Steer Trailer

Group 9: Transit Mixers and Trucks hauling concrete, (10 yards to 15 yards); Trucks, side, end and bottom dump (over 20 yards including 30 yards); Water Tank Truck (10,001 - 12,000 gallons)

Group 10: Mechanic, Field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, g llonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yards to 20 yards); Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water Tank Truck (12,001 - 14,000 gallons)

DECISION NO. WA76-5079

TRUCK DRIVERS (Area 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat and Yakima Counties)

Group 12: Transit Mixers and Trucks hauling concrete (over 20 yards); Trucks, side, end and bottom dump (over 40 yards to 50 yards)

Group 13: Truck, side, end and bottom dumps (over 50 yards to 100 yards)

Group 14: Helicopter Pilot hauling employees or material ; Trucks, side, end and bottom dump (over 100 yards)

TRUCK DRIVERS (Area 2)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 1: Leverman and Loaders at bunkers and batch plants; Pickup Truck, Escort or Pilot Car; Swampers; Warehouseman and Checkers

Group 2: Team Drivers

Group 3: Bull Lifts and similar equipment used in loading and unloading trucks, transporting materials on job site, warehousing; Dumpsters, and similar equipment (including Tournarockers, Tournawagon, Turnatrailer, Cat DW series, Terra Cobra, LeTourneau, Westinghouse, Athey Wagon, Euclid, two and four-wheeled power tractor with trailer and similar top-loaded equipment transporting material: Dump Trucks - side, end and botton dump, including Semi-trucks and Trains or combinations thereof) - up to and including 5 yards; Flatbed, single rear axle; Fuel Truck; Grease Truck; Greaser, Battery Service Man and/or Tire Service Man; Scissor Truck; Spreader, Flaherty; Tractor (small, rubber-tired); Vacuum Truck; Water Wagon and Tank Truck (up to 1,600 gallons); Winch Truck, single rear axle; Wrecker, tow truck and similar equipment

Group 4: Flatbed, dual rear axle

Group 5: Buggymobile; Hyster Operators; Straddle Carrier (Ross, Hyster, and similar equipment); Water Wagon and Tank Truck, 1,600 gallons to 3,000 gallons)

Group 6: Transit-mix, 0 to and including 4½ yds.

Group 7: Dumpsters, and similar equipment (as listed in Group 3) - over 5 yards to and including 12 yards; Explosive Truck (field mix) and similar equipment; Lowbed and Heavy Duty Trailer, under 50 tons gross; Road Oil Distributor Driver; Slurry Truck; Sno-go and similar equipment; Winch Truck, dual rear axle

DECISION NO. WA76-5079

TRUCK DRIVERS (Area 2) (Cont'd)

All Counties and portion of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 8: Dumpster and similar equipment (as listed in Group 3) - over 12 yards to and including 16 yards

Group 9: Bulk Cement Tanker; Dumpsters and similar equipment (as listed in Group 3) - over 16 yards to and including 20 yards; Water Wagon and Tank Truck, over 3,000 gallons

Group 10: Bull Lifts or similar equipment used in loading or unloading trucks transporting materials on job site, other than warehousing

Group 11: Transit-mix, over 4½ yards to and including 6 yards

Group 12: "A" Frame or Hydrallft Trucks or similar equipment

Group 13: Dumpsters and similar equipment (as listed in Group 3) - over 20 yards to and including 30 yards; Lowbed and Heavy Duty Trailer, over 50 tons gross to and including 100 tons gross

Group 14: Transit-mix, over 6 yards, to and including 8 yards

Group 15: Dumpsters and similar equipment (as listed in Group 3) - over 30 yards to and including 40 yards; Lowbed and Heavy Duty Trailer, over 100 tons gross

Group 16: Transit-mix, over 8 yards to and including 10 yards

Group 17: Dumpsters and similar equipment (as listed in Group 3) - over 40 yards to and including 55 yards

Group 18: Transit-mix, over 10 yards to and including 12 yards

Group 19: Transit-mix, over 12 yards to and including 16 yards

Group 20: Traosit-mix, over 16 yards to and including 20 yards

Group 21: Transit-mix, over 20 yards

DECISION NO. WA76-5079

TRUCK DRIVERS (Area 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 1: Battery Rebuilders; Bus or Manhaul Driver; Concrete Buggies (power operated); Dump Trucks, side, end and bottom dumps, including Semi-trucks and trains or combinations thereof: 6 cu. yds. and under; Lift Jitneys, Fork Lifts (all sizes used in loading, unloading and transporting material on job site); Loader and/or Leverman on concrete Dry Plant (manually operated); Pilot Car; Solo Flat Bed and misc.; Body Trucks, 0-10 tons; Truck Helper; Truck Mechanic Helper; Warehouseman (warehouse parts, tool men and parts chaser, checkers and receivers); Water Wagons (rated capacity - up to 1,600 gallons)

Group 2: "A" Frame or Hydra-lift Truck with load bearing surface; Lubrication Man; Fuel Truck Driver, Tireman, Wash Rack, Steam Cleaner or combinations; Team Drivers

Group 3: Dump Trucks, side, end and bottom dumps, including Semi-trucks and Trains or combinations thereof: over 6 cu. yds, and including 10 cu. yds.; Slurry Truck Driver or Leverman; Transit Mix, and wet or dry mix trucks: 5 cu. yds. and under; Tireman (full-time basis); Water Wagons (rated capacity - 1,600 to 3,000 gallons)

Group 4: Flaherty Spreader Driver or Leverman; Lowbed Equipment, Flat Bed Semi-trailer, Truck and Trailers or doubles transporting equipment of wet or dry materials; Lumber Carrier Driver - Straddle Carrier (used in loading, unloading and transporting of materials on job site); Oil Distributor Driver or Leberman; Water Wagons (rated capacity - 3,000 to 5,000 gallons)

Group 5: Dumpsters or similar equipment, all sizes; Transit Mix and wet or dry trucks, over 5 cu. yds. and including 7 cu. yds.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

DOD/Army—Shipping safety fairways and anchorages; Gulf of Mexico..... 30329; 7–23–76
DOT/FAA—Foreign air carriers; aircraft security 30106; 7–22–76
HEW—Architect-Engineer services; procurement 27834; 7–7–76
Labor/ETA—Benefit payment standards. 30464; 7–23–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

MEETINGS—
Commerce: Commerce Technical Advisory Board, 9–22 and 9–23–76 35547
DIBA: Computer Systems Technical Advisory Committee, Foreign Availability Subcommittee, 9–14–76 35546
DOD: Defense Intelligence Agency Scientific Advisory Committee, 9–27 and 9–28–76 35544
Army: Board of Visitors, United States Military Academy, 9–9–76 35543
Navy: Chief of Naval Operations Executive Panel Advisory Committee, 9–14 and 9–15–76 35544
DOT: Citizens' Advisory Committee on Transportation Quality, 9–13 and 9–14–76 35557
Coast Guard: Design and Equipment SOLAS Working Group, 9–17–76 35554
FAA: FAA Flight Information Advisory Committee (FIAC), 9–23–76 35554
FHLBB: Alternative Mortgage Instruments Research Study Advisory Committee, 9–10–76 35560
Federal Council on the Aging, 9–13 and 9–14–76 35548
HEW: National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, 9–10, 9–11 and 9–12–76 35553
FDA: Advisory Committees for 9–26 thru 9–28; 9–30, and 10–1–76 35548
NIH: Study Sections for 10 and 11–76 35552
Interior/BLM: Lakeview District Advisory Board, 9–17–76 35544
Yuma District Multiple Use Advisory Board, 10–7–76 35544
NRC: Advisory Committee on Reactor Safeguards, 9–9 to 9–11–76 35576
State: Advisory Committee to the U.S. National Section of the Inter-American Tropical Tuna Commission, 9–23 to 9–25–76 35539
National Committee for the International Telegraph and Telephone Consultative Committee, 9–15–76 35539
Shipping Coordinating Committee, 9–14 thru 9–17, 9–21 thru 9–24–76 (7 documents) 35540

PART II:
LIGHT DUTY VEHICLES AND TRUCKS
EPA final evaporative emission regulations; effective 9–22–76 35625

PART III:
FEDERAL ADVISORY COMMITTEES
HEW implementation and management provisions; effective 8–23–76 35653

PART IV:
HOUSING ASSISTANCE
HUD procedures for application approvals and allocation of funds; effective 10–1–76 35659

PART V:
LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM
Commerce/EDA publishes implementation regulations; effective 8–23–76 35669

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. U; Docket No. R–0026]

PART 221—CREDIT BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCKS

Adoption of Revised Form; Postponement of Effective Date

Notice postponing effective date of adoption of revised Federal Reserve Form U–1, "Statement of Purpose of a Stock-Secured Extension of Credit by a Bank."

1. Pursuant to the authority of section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g), the Board of Governors, on June 11, 1976 (41 FR 23667) published notice of adoption of Federal Reserve Form U–1, "Statement of Purpose of a Stock-Secured Extension of Credit by a Bank," to be effective September 1, 1976.

2. Because some banks have indicated possible operational difficulties in complying with certain requirements of the revised Form U–1, the Board hereby postpones the effective date of such revision to November 1, 1976 in order that these questions may be reviewed.

By order of the Board of Governors, August 18, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

PART 335—SECURITIES OF INSURED STATE NONMEMBER BANKS

Correction

In FR Docs. 76–18056 and 76–18057 appearing at pages 25887–25889 in the FEDERAL REGISTER of Wednesday, June 23, 1976, the following changes should be made:

1. Page 25888. The portion of the Form F–4 appearing on page 25888 is corrected to read as follows:

§ 335.44 Form for quarterly report of bank (Form F–4).

* * * * *

Stockholders' equity	Shares issued or outstanding	Amount
Preferred stock (list separately convertible and nonconvertible preferred stock)		$
Common stock		
Surplus		
Undivided profits: Balance at beginning of current fiscal year		
Prior period adjustments, if any (show credits (and charges) separately)		
Net income (caption 8 above)		
Dividends (state cash and stock dividends on common stock separately, indicating amount per share—dividends on preferred stocks may be shown in one amount)		
Other credits (charges) (explain nature and amounts)		
Balance at end of interim period		
Reserve for contingencies and other capital reserves		
Treasury stock (identify class of security, number of shares and basis at which stated)		
Total stockholders' equity		

INSTRUCTIONS

1. The form and content shall conform generally with that in the balance sheet and notes thereto appearing in the annual report filed with the corporation.

2. The number of shares of each class of securities reserved for conversion, warrants, options, and other rights shall be separately disclosed.

Pursuant to the requirements of the Securities Exchange Act of 1934, the bank has duly caused this quarterly report to be signed on its behalf by the undersigned, thereunto duly authorized.

_____
(Name of bank)

Date _____ By _____
(Name and title of signing officer)

GENERAL INSTRUCTIONS

§ 335.71 [Amended]:

2. Page 25889. Item 18(f) following the "Balance Sheet" form set forth in § 335.71 is corrected by deleting the word "and" and inserting the word "any" in lieu thereof.

V 41 164 AUG 23 76 UMI

3. Page 25889. The captions of the "Statement of Changes In Capital Accounts" form set forth in § 335.71 are corrected to read as follows:

	Preferred stock $---- par	Common stock $---- par	Surplus	Undivided profits	Reserve for contingencies and other capital reserves
Increase					
(Decrease)					

Dated: August 10, 1976.

SHARON G. ROYAL,
Attorney.

[FR Doc.76-24572 Filed 8-20-76;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 76-NE-30]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Proposed Control Zone Revision

The Federal Aviation Administration is amending Section 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Fort Devens Control Zone.

This action is being taken as the result of a review of the airspace requirements for the Fort Devens, Massachusetts, area, which indicates that the existing Control Zone could be reduced in area without adversely affecting air safety.

Since this amendment restores airspace to the public use and relieves a restriction, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than thirty (30) days.

In view of the foregoing, the Federal Aviation Administration, having completed review of the airspace requirements in the Fort Devens, Massachusetts, area, hereby amends Part 71 of the Federal Aviation Regulations as hereinafter set forth:

§ 71.171 [Amended]

1. Amend Section 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Fort Devens, Massachusetts, Control Zone and inserting in lieu thereof the following description:

Within a 4-mile radius of the center of Devens AAF, Ft. Devens, Mass. (Lat. 42°34'-15" N, Long. 71°36'20" W) excluding that portion within 1-mile radius of the center of Shirley Airport, Shirley, Mass. (Lat. 42°-31'30" N, Long. 71°39'55" W). This control zone is effective from 0700 to 1900 hours, local time, daily.

This amendment becomes effective November 4, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348(a)] and of Section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Burlington, Massachusetts, on August 12, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

[FR Doc.76-24568 Filed 8-20-76;8:45 am]

[Docket No. 16026; Amdt. No. 1034]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective September 30, 1976:

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Rel. Nos. 33-5732, 34-12694, 35-19642, AS-195]

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

Minor Amendments to Regulation S-X

The Commission announces herein the adoption of minor amendments to sections 210.2-02, 5-02 and 12-08 of Chapter II of Title 17 of the Code of Federal Regulations (Regulation S-X).

Section 210.2-02 is amended to remove a requirement for accountants to comment in their audit reports accompanying financial statements filed with the Commission on certain changes in accounting practices which affect comparability of financial statements but do not arise from changes in accounting principles. The types of changes affected by this amendment are accounting changes which result from altered conditions, e.g., changes in amounts of depreciation charges resulting from changes in estimates of remaining useful lives of fixed assets, rather than from a change in accounting principles.

Since these changes have long been required to be disclosed in a note to the financial statements under paragraph (a) of § 210.3-07 and more recently have been required to be disclosed in the section of financial reports devoted to management's discussion and analysis of operations, it no longer is considered necessary to require a specific comment on these changes by accountants in their audit reports. This requirement is eliminated by deletion from paragraph (c) of § 210.2-02 of the words "as required to be set forth in § 210.3-07(a)" which heretofore have linked the reporting requirement in paragraph (c) of § 210.2-02 to the changes in accounting practices specified in paragraph (a) of § 210.3-07.

Section 210.5-02 is amended to correct references in paragraph 32(a) thereunder to captions in paragraph 25 of the section to reflect revisions in those captions which were recently adopted in Accounting Series Release No. 184 [40 FR 59340].

Section 210.12-08 is amended to reinstate the last three sentences that were in Instruction 3 of that section prior to the adoption of Accounting Series Release No. 178 [40 FR 48359] wherein the sentences were inadvertently deleted.

Commission action: The Commission hereby revises paragraph (c) of § 210.2-02, paragraph 32(a) of § 210.5-02 and Instruction 3 of § 210.12-08, Chapter II of Title 17 of the Code of Federal Regulation, to read as set forth below:

§ 210.2-02 Accountants' reports.

• • • • • •

(c) *Opinion to be expressed.* The accountant's report shall state clearly: (1) The opinion of the accountant in respect of the financial statements covered by the report and the accounting principles and practices reflected therein; and (2) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements.

• • • • • •

§ 210.5-02 Balance sheets.

• • • • • •

32. *Other long-term debt.* (a) Include under this caption all amounts of long-term debt not provided for under captions 29(a) and 31 above. State separately amounts payable to (1) persons specified in captions 25(a) (1), (2), (3) and (6); and (2) others, specifying any material item. Indicate the extent that the debt is collateralized. Show here, or in a note referred to herein, the information required under caption 29.

• • • • • •

§ 210.12-08 Intangible assets, preoperating expenses and similar deferrals.[1, 2, 7]

• • • • • •

(Instruction) 3. Show by major classifications in each part, such as franchises, goodwill, etc. If such classification is not present or practicable, each part may be stated in one amount. The additions included in column C shall, however, be segregated in accordance with an appropriate classification. Items of minor importance may be included under a miscellaneous caption in each part.

• • • • • •

(Secs. 6, 7, 8, 10 and 19(a) [15 U.S.C. 77f, 77g, 77h, 77j, 77s], Securities Act of 1933; Secs. 12, 13, 15(d) and 23(a) [15 U.S.C. 78l, 78m, 78o(d), 78w], Securities Exchange Act of 1934; Secs. 5(b), 14 and 20(a) [15 U.S.C. 79e, 79n, 79t], Public Utility Holding Company Act of 1935; and Secs. 8, 30, 31(c) and 38(a) [15 U.S.C. 80a-8, 80a-29, 80a-30(c), 80a-37(a)], Investment Company Act of 1940.)

Inasmuch as the amendments reduce the requirements of section 210.2-02 and correct minor errors in other sections the Commission finds that, for good cause, the notice and procedures specified in the Administration Procedures Act of 1946 are unnecessary, and accordingly the foregoing amendments are adopted effective on August 23, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

AUGUST 6, 1976.

FEDERAL REGISTER, VOL. 41, NO. 164—MONDAY, AUGUST 23, 1976

V 41 164 AUG 23 76 UMI

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Docket No. 76N-0288]

PART 620—ADDITIONAL STANDARDS FOR BACTERIAL PRODUCTS

Test for Safety of Pertussis Vaccine

The Food and Drug Administration is amending its biologics regulations concerning the safety test for products containing Pertussis Vaccine to require that the test dose in mice shall consist of no less than one-half of the recommended largest individual human dose; effective August 23, 1976.

The Commissioner of Food and Drugs issued an amendment to § 610.11 *General safety* (21 CFR 610.11), published in the FEDERAL REGISTER of March 15, 1976 (41 FR 10888); the general safety test is applicable to all biologics products. The Commissioner also amended § 620.6(a) (21 CFR 620.6(a)), which specifies the general safety test for products containing Pertussis Vaccine. It has come to the Commissioner's attention that the phrase used to identify the test dose, "recommended largest human dose," can be misinterpreted as requiring the recommended total human immunizing dose. The Commissioner advises that the subject phrase is intended to refer to the largest individual human dose rather than the total human dose because this vaccine is normally administered in a series. Accordingly, the Commissioner concludes that § 620.6(a) should be amended to clarify the regulation.

Therefore, under the Public Health Service Act (sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976) (41 FR 24262)), Part 620 is amended by revising § 620.6(a) to read as follows:

§ 620.6 General requirements.

(a) *Safety.* Each lot of product containing Pertussis Vaccine shall be tested for safety by the procedures prescribed in § 610.11 of this chapter except that the test shall consist of the intraperitoneal injection of no less than one-half of the recommended largest individual human dose into each of the mice, and either the intraperitoneal injection of no less than three times the recommended largest individual human dose, or the subcutaneous injection of 5.0 milliliters into each of the guinea pigs.

* * * * *

Under the Administrative Procedure Act (5 U.S.C. 553 (b) and (d)), the Commissioner finds that notice, public procedure, and delayed effective date are unnecessary for the amendment of § 620.6 (a) because it does not impose an additional duty or burden on any person but rather clarifies the regulation. Nevertheless, interested persons have until September 22, 1976 to submit comments, and comments may justify further modification of these provisions.

(Sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262).)

Effective date: This regulation shall be effective August 23, 1976.

Dated: August 17, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

Title 22—Foreign Relations

CHAPTER V—UNITED STATES INFORMATION AGENCY

PART 503—AVAILABILITY OF RECORDS

Freedom of Information; Schedule of Standard Fees

22 CFR Chapter V Part 503 is amended by revising § 503.6(c)(1)(i) and (ii) to read as follows:

§ 503.6 Availability of Agency records.

* * * * *

(i) Making copies (Xerox or comparable) per page—$0.15. No fee will be charged for a particular request totalling 10 pages or less.

(ii) Searching for records, per hour—$5 for clerical personnel, $9 for supervisory personnel. No fees will be charged for searches of one hour or less.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-1000]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Borough of Mill Hall, Clinton County, Pennsylvania

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.10)), hereby gives notice of his final determinations of flood elevations for the Borough of Mill Hall, Clinton County, Pennsylvania under Section 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas.

In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.
